We can furnish cases for instruments of all kinds. Send for Special Band Instrument Catalogue.

The Newman Professional Cornet Mute.

This mute is the very latest and best invention of its kind, and has several distinct advantages over the old style. It does not drive the air back into the cornet, but allows it to escape freely through the bell. It can be used without throwing the cornet out of tune, and softens the tone of the instrument to a much greater extent than the old fashioned mute. It is made of brass, durably constructed and finely finished. It is invaluable for practice purposes as well as for the mute effect in cornet solos.

No. 12F5720 Brass polish. Price, \$1.45

OUR CROCKERY AND GLASSWARE DEPARTMENT.

DINNER AND TOILET SETS herein shown consist of only the best goods made by the world's foremost potters, and include French, German, Austrian, English and American ware, in the latest and most handsome patterns, which include the following celebrated makers' wares, which for years have been acknowledged by china experts to be the best:

Theo. Haviland, Limoges, France.
Elite China Company, Bavaria.
Hapsburg China Company, Germany.
Victoria China Company, Austria.
Johnson Bros., England.

The above potters comprise the world's best makers of high grade dinner ware, who for many years have enjoyed the reputation of producing goods absolutely perfect in body, finish and glaze, having wearing qualities that are unsurpassed.

THE LATEST PATTERNS. Being in close touch with the largest and best potteries in the world we are in a position to contract for the newest and best patterns at all times, and are, therefore, able to not only offer the best goods, but are in a position to offer the very latest patterns long before they are offered to the regular crockery dealer.

COMPARE OUR PRICES with those asked by your local dealer and you will readily appreciate that every dinner set herein offered represents a saving of from \$2.50 to \$10.00. DO NOT BE DECEIVED by allowing your dealer to lead you to believe that our goods are second quality, which is the only excuse he could offer for our low prices.

FOR 5 CENTS each we send, postpaid, an individual butter plate of any dinner set. This sample, though small, will show the quality of the ware and give a fair idea of the decoration of the set. It is impossible to show a dinner set to the best advantage by submitting so small a piece, as all pieces are decorated with sprigs best adapted to its respective size, and therefore the sprigs used on individual butters are quite small and will give you simply an idea of the colors and a general idea of the flower or decoration used.

NOTE—ALL PLATTERS ARE MEASURED FROM EDGE TO EDGE. UNDER THE ILLUSTRATION AND DESCRIPTION OF EACH STYLE OF DINNERWARE

will be shown the combination which can be furnished of that kind, and in every case it would be advisable for the customer to REFER TO THIS PAGE to see exactly what pieces are contained in each set.

100-Piece Dinner Set.
12 Tea Cups 1 Oval Open Vege- 1 Sauce Boat
12 Tea Saucers table Dish 1 Pickle Dish

The above open stock dinnerware shipped from Chicago to our customers living in the West, and from the pottery in East Liverpool, Ohio, to our Eastern and Southern trade.

WE SELL NO SECONDS in any of these wares, and only handle the finest and most carefully selected goods the market affords.

WE GUARANTEE OUR WARE to please you in every respect, not only in wearing quality, but we also guarantee the decoration will meet with your entire approval and please you in every way, or it may be returned at our expense and we will immediately refund the price of the set, together with all transportation charges and extra expense you may have been put to. With this binding guarantee you take no risk whatever in sending us your order.

ABOUT FREIGHT CHARGES. Nearly all railroad companies carry crockery and glassware at second class rate, and sometimes as low as third class, depending on the section of the United States to which it is shipped. The second class rate averages from 40 to 50 cents per 100 pounds for 500 miles. The weights of different dinner sets and glassware sets are all plainly given in the catalogue, and by referring to the freight rates in the front of this book you can get the freight rate to your railroad station and this figure very close to what your freight will amount to, and you will find that it will amount to next to nothing as compared to what you will save in price.

OUR BINDING GUARANTEE. We guarantee that if you order one of our sets of dinnerware, new or glassware, and do not find it in every respect better in quality and lower in price than what you could procure the same grade of ware for from any other dealer, upon return of goods we will refund your money in full. We further more guarantee that our dinnerware will not craze, and will agree to replace, free of charge, any piece that may prove defective in material or workmanship. All the glassware listed is of the best grade it is possible to procure, and will, with ordinary care, stand the test of a lifetime.

Shipping weight, 65 pounds.

AT \$4.25 we offer a complete 100-piece Plain White Dinner Set, which we guarantee to be the best value ever offered. It is made of plain white stone china (white granite), pure white in color with smooth white glaze. This set is absolutely first quality in every respect, and contains no crooked or chipped pieces, found in sets offered by many other dealers, who sacrifice quality in order to make an attractive price. While this set is the greatest value ever offered, we call special attention to our semi-vitreous set, illustrated and described below, at \$4.98, the equal of the best grade of genuine imported English dinnerware, usually sold at from \$7.00 to \$10.00 for a 100-piece set, and not equaled in quality nor price by any other dealer. Each set is carefully packed in a barrel and shipped from the pottery in East Liverpool, Ohio, from which point the customer pays the freight.

THE FINEST GRADE OF SEMI-VITREOUS CHINA DINNERWARE made in America, and is considered the most up to date and best modeled dinner service on the market. It is made by the celebrated Laughlin China Company, who enjoys the reputation of making only the finest ware. Its wearing qualities are unsurpassed, as the body is composed of the finest grades of clay, fired to a flinty hardness and covered by a deep, glossy, milk white glaze heretofore to be found only in the most expensive sets. As the illustration shows, this set is extremely handsome, as it is very light and thin and most gracefully modeled and neatly embossed. We positively guarantee the ware to be the finest selection, perfect in every way, without mishapes or small impractical sizes.

Each set is carefully packed by expert packers and shipped direct from the pottery in East Liverpool, Ohio, from which point the customer pays the freight.

No. 2F200 100-piece Dinner Set. Price, \$4.98 (Shipping weight, 70 pounds).

\$4⁴⁰

56-piece Dinner Set. Shipping weight, 50 pounds. Price.....\$4.98

100-piece Dinner Set. Shipping weight, 70 pounds. Price.....6.75

MOST WONDERFUL VALUE.

NEW THIS SEASON. Our Hampshire Dinner Set is made of high grade semi-porcelain, pure white in color, with a rich heavy glaze. It has a new and attractive shape which has never before been offered in a dinner set so low in price. The decoration consists of neat floral sprays with the background of dainty ferns arranged in a most effective manner, as illustration shows. The decoration is applied by the stencil process over the glaze and then thoroughly baked in, and therefore will not fade or wear off. It is made by the Laughlin China Co., whose reputation stands for only first class ware. Furnished in three decorations, green, blue or brown. Mention the color desired when ordering.

\$4⁶⁹

ARBUTUS DINNER SET.

100-piece Dinner Set. Shipping weight, 70 pounds. Price.....\$6.49

101-piece Dinner Set. Shipping weight, 70 pounds. Price.....7.49

OUR ARBUTUS FLORAL PATTERN

is one of the best medium priced patterns in our line. The decoration is entirely new and exceptionally handsome, as it consists of dainty clusters and sprays of arbutus flowers and foliage, delicately shaded and artistically applied by the French decalcomania process, which heretofore has only been used on the highest priced ware. The decoration is furnished in two colors, a rich shade of green or a rich deep pink. Either is exceptionally handsome and is sure to harmonize with the finest table decorations. The ware is made of the finest grade of semi-porcelain by the famous Laughlin Pottery, one of America's best potteries. The ware is light and thin and is most carefully selected, and has a deep, glossy, milk white glaze. All pieces are handsomely modeled and embossed in such a manner as to form a neat border encircling each piece. Without doubt, this is the finest set ever offered at so low a price.

\$6⁹⁸

100-PIECE FLORAL BORDER DINNER SET.

MADE IN ENGLAND.

FURNISHED IN CANTON BLUE OR RICH SAGE GREEN.

The set consists of 100 pieces as follows:

12 Tea Cups 12 Individual Butters

12 Tea Plates 1 Baker, 8-inch

12 Pie Plates 2 Covered Dishes, 10-inch

12 Sauce Dishes 1 Bowl

1 Covered Sugar Bowl

1 Creamer

1 Pickle Dish

1 Sauce Boat

1 Covered Butter Dish

Each set is carefully packed in a barrel and is shipped from Chicago to our customers in the Central and Western States, and from our warehouse in Boston, Mass., to eastern customers, thus assuring the lowest freight charges.

No. 2F243 100-piece Dinner Set. Price.....\$6.98

Shipping weight, 70 pounds. In ordering, please mention the color you desire.

OUR FLORAL BORDER DINNER SET

is the best value ever offered in good quality English ware. It is made by the celebrated W. Hulm Pottery, Burslem, Eng., and is guaranteed never to craze. The body of the ware is thin and light in weight and has a deep glossy milk white glaze. This set is superior in every respect to the average makes of medium priced English dinnerware and must be seen to be fully appreciated. The shape is new and attractive, having fancy scalloped edges, all covered pieces, including covered dishes, sugar, creamer, butter dish, etc., are very gracefully embossed. This is one of the best underglazed print decorations. It consists of a border of flowers and foliage, as shown in illustration, and can be furnished in CANTON BLUE or RICH SAGE GREEN.

FULL GOLD TRIMMED.

One of the best medium priced dinner sets made. Our Rosemere dinner set is entirely new in design, shape and decoration. It is decorated with pretty pink climbing roses and rose buds, intermingled with small yellow roses, with background of green leaves and foliage artistically arranged to form sprays. Between each floral spray is a gold floral and scroll design which greatly adds to the richness of the set. All handles and knobs of the cups, sugar, creamer, sauce boats, bakers, covered dishes, etc., are elegantly hand traced in bright coin gold. Never has there been a set offered which is so perfectly finished and gold treated as our Rosemere, at such an exceptionally low price. The ware is made by the Laughlin China Co., and is guaranteed to give entire satisfaction. Every piece is highly embossed and modeled in the latest and most up to date shape. The set is carefully packed in a barrel and shipped from the pottery in East Liverpool, Ohio.

THIS BEAUTIFUL PATTERN

stock and complete dinner sets. Our Florence Rose Ware is one of the prettiest and most dainty patterns on the market. The decoration is applied by the new decalcomania process and is an exact reproduction of one of the most popular Haviland china patterns. The decoration consists of a delicate spray border of pink roses, with background of small white daisies with pink tinted petals and green foliage, with small clusters of roses artistically arranged to form a border. It is made by the celebrated Edwin M. Knowles China Company, one of the best known potteries in America. The ware is made from the best quality of semi-porcelain, being handsomely modeled and embossed and covered with a heavy milk white glaze. We fully guarantee the ware to be of the finest selection, perfect in every respect.

100-piece Dinner Set. Shipping weight, 70 pounds. Price.....\$7.84

101-piece Dinner Set. Shipping weight, 70 pounds. Price.....8.85

For number and style of pieces quoted above, see page 354.

SILVER SHAPE PLAIN WHITE

Johnson Bros.' Genuine English Semi-Porcelain is recognized as the best in the world. The shape, as illustration shows, is far superior to any heretofore offered by this famous pottery. Every piece is gracefully modeled and handsomely embossed. The ware is pure white with a deep glossy glaze and is exactly the same quality and perfect selection as found in Johnsons' highest priced decorated sets. The ware is light and thin and closely resembles the highest priced Haviland china. We highly recommend this ware and fully guarantee it to be absolutely the best English semi-porcelain made, regardless of price.

We furnish this pattern in open stock and complete dinner sets. The dinner sets are carefully packed by expert packers, shipped direct to our customers in the Eastern and Southern States from our warehouse in Cleveland, Ohio, and to our customers in the West from Chicago, thus insuring the lowest freight charges on each shipment.

100-piece Dinner Set. Shipping weight, 70 pounds. Price.....\$7.65

101-piece Dinner Set. Shipping weight, 70 pounds. Price.....8.95

In ordering, state the number of pieces desired.

quoted above, see page 354.

For the convenience of our customers we also offer this fine ware (as described above) as an open stock pattern shipped from Chicago only.

THIS WHITE AND GOLD DINNER SET

is made by the Homer Laughlin China Company and is a dainty and most beautiful dinner set which is exceedingly low in price. Lovers of dainty china will most appreciate this rich dinner service, as the decoration consists of gold floral wreaths which form a complete border pattern encircling all pieces and has rich gold lace medallion centers. All handles and knobs are hand traced in gold. Your particular attention is drawn to the beautiful shape known as the Angelus pattern, which is much thinner than the ordinary dinner ware and closely resembles Haviland china. It is richly embossed and equaled in appearance to the best grade of English porcelain ware. In fact, this is of such a superior quality that we positively guarantee every piece against crazing even when put to extremely hard use. Being carefully packed by expert packers, we guarantee safe delivery.

We quote below four special sets at greatly reduced prices, but will also furnish white and gold dinner ware in open stock. Shipped from the pottery in Eastern Ohio to our customers living in the east and from Chicago to our western trade, thus insuring lowest freight rates.

100-piece Dinner Set. Shipping weight, 70 pounds. Price.....\$8.98

101-piece Dinner Set. Shipping weight, 70 pounds. Price.....9.85

TOILET SETS.

THIS BEAUTIFUL LINE OF TOILET SETS is comprised of the choicest patterns selected from only the most celebrated potteries. Every piece included in the various sets is guaranteed to be made of the finest selected quality of American Semi-Porcelain. The decorations are new and up to date and applied by the latest improved decalcomania process, which produces the flowers and foliage true to life. All sets, with the exception of Nos. 2F420 and 2F421, are trimmed in bright gold. This trimming is graded according to the price of the sets. Each piece is carefully molded with a view to general utility as well as pleasing design. Most of the patterns shown are furnished in artistic tints which permit a selection of color which will harmonize with the furnishings of any room.

THE PRICES QUOTED are in many instances lower than the regular wholesale price, which is only made possible by our making shipments direct from the pottery to our customers, thus saving the additional expense usually incurred by jobbing and wholesale houses, who are obliged to repack and handle, cost of cartage, freight, etc., which necessarily has to be added to the cost of the set. All the toilet sets herewith shown are furnished in two compositions, as follows:

10-PIECE TOILET SETS.

Fancy Roll Edge Wash Bowl.
One 8-Quart Pitcher or Ewer.
Covered Chamber (2 pieces.)
Covered Soap Dish (3 pieces.)

Hot Water Pitcher.
Tooth Brush Vase.
Fancy Mug.

12-PIECE TOILET SETS.

Fancy Roll Edge Wash Bowl.
One 8-Quart Pitcher or Ewer.
Covered Chamber (2 pieces.)
Covered Soap Dish (3 pieces.)

Hot Water Pitcher.
Tooth Brush Vase.
Fancy Mug.
Large Covered Slop Jar.

OUR ARDMORE TOILET SET, \$2.05.

Our Ardmore Toilet Set is made of absolutely the best grade of American semi-porcelain ware. The ware is equal to sets sold at double the price. The decoration consists of very large and beautiful Jack roses, prettily entwined with foliage. We can furnish it in green, blue or pink and it will therefore harmonize with the interior of any room. Be sure to specify color of decoration desired. Furnished in two combinations, securely packed in barrels. Shipped from our pottery in Eastern Ohio.

No. 2F420 10-piece Toilet Set, all pieces as illustrated, less slop jar. Shipping weight, 40 pounds. Price.....\$2.05
No. 2F421 12-piece Toilet Set, as illustrated, with jar. Shipping weight, 60 pounds. Price.....3.59

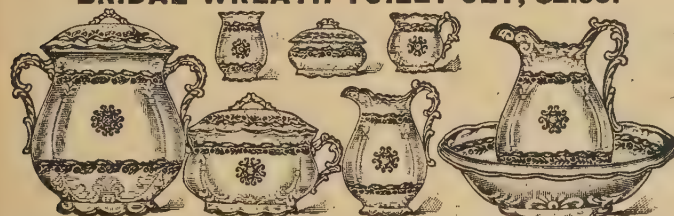

OUR HARVARD TOILET SET, \$2.59.

This is without exception the very best toilet set ever offered at so low a price. It is most handsomely tinted in light blue, light green or pink, at both upper and lower extremities of each piece, indicated by the dark shading in the illustration, and decorated with rich gold medallions, composed of pretty sprigs of wild roses, artistically placed between these tinted edges. This set is sure to harmonize with the furnishings of any room. It is made from the finest quality of semi-porcelain, in one of the newest shapes. These sets are well packed in a barrel and shipped from our pottery in Eastern Ohio.

No. 2F430 10-piece Toilet Set, all pieces as illustrated, less slop jar. Shipping weight, 40 pounds. Price.....\$2.59
No. 2F431 12-piece Toilet Set, as illustrated, with jar. Shipping weight, 60 pounds. Price.....3.98

BRIDAL WREATH TOILET SET, \$2.95.

This set is richly decorated with a broad, rich gold vine and floral wreaths which are artistically arranged so as to encircle each piece near the top and bottom. It has a neat, bright gold medallion center figure between the wreaths. The edges, as well as the handles, are hand traced in bright gold to match, which makes this set one of the most attractive white and gold toilet sets ever produced. Shipped from our pottery in Eastern Ohio.

No. 2F440 10-piece Toilet Set, all pieces as illustrated, less slop jar. Shipping weight, 40 pounds. Price.....\$2.95
No. 2F441 12-piece Toilet Set, as illustrated, with jar. Shipping weight, 60 pounds. Price.....4.75

THE NEW HOLLY TOILET SET \$2.98.

all gold trimmed. Exceptional value. The decoration consists of beautiful sprays of holly leaves and red berries which are intermingled with new gold floral sprays, as in the above illustration. The shape is the same as used in the most expensive sets. It is plain, yet exceptionally graceful. The body of the ware is made of white semi-porcelain and covered with a pure milk white glaze. We fully guarantee this set to give satisfaction and not to craze. This set is offered for the first time this season, and is please the most critical, as it will harmonize with the furnishings of any sleeping room.

No. 2F442 10-piece Toilet Set, all pieces as illustrated, less slop jar. Shipping weight, 40 pounds. Price.....\$2.98
No. 2F443 12-piece Toilet Set, as illustrated, with jar. Shipping weight, 60 pounds. Price.....\$4.98

OUR YALE TOILET SET, \$3.23.

Entirely new. The decoration is applied by the French decalcomania process, producing an exceptionally handsome pattern, consisting of large clusters of purple, blue and pink narcissus and tube roses, beautifully shaded, with a background of delicate ferns and green lily leaves. All handles are elegantly stippled with bright gold. These sets are beautifully tinted in blue, maroon or pink and therefore will harmonize with any room. In ordering, please mention color of tinting desired. Each set is carefully packed in a barrel. Shipped from our pottery in Eastern Ohio.

No. 2F455 10-piece Toilet Set, all pieces as illustrated, less slop jar. Shipping weight, 40 pounds. Price.....\$3.23
No. 2F456 12-piece Toilet Set, as illustrated, with jar. Shipping weight, 60 pounds. Price.....4.95

IRIS LILY TOILET SET, \$3.45.

The decoration of this set consists of iris lilies in their natural colors of rich purple and dark crimson, with large green leaves, making a very highly attractive set which will harmonize with the colors of any sleeping apartment. We wish to call particular attention to the beauty of this decoration, for it cannot fail to give entire satisfaction. Each set is carefully packed in a barrel and shipped direct from our pottery in East Liverpool, Ohio.

We furnish this set in two assortments as follows:
No. 2F460 10-piece Toilet Set, all pieces as illustrated, less slop jar. Shipping weight, 45 pounds. Price.....\$3.45
No. 2F461 12-piece Toilet Set, as illustrated, with jar. Shipping weight, 65 pounds. Price.....5.25

NEWPORT TOILET SET, \$3.90.

This handsome set is beautifully decorated with yellow and pink chrysanthemums and foliage, in addition to which, every piece is heavily stippled in rich gold, as shown by the dark shading in illustration. This gold treatment is very expensive and produces a rich and striking effect. It is made by one of the best potteries in America and is guaranteed strictly high grade and equal to sets sold for double the price we ask. Each set is carefully packed in a barrel and shipped from Eastern Ohio.

No. 2F470 10-piece Toilet Set, all pieces as illustrated, less slop jar. Shipping weight, 45 pounds. Price.....\$3.90
No. 2F471 12-piece Toilet Set, all pieces as illustrated, with jar. Shipping weight, 65 pounds. Price.....5.90

FLORIAN TOILET SET, \$3.98.

In offering our Florian Toilet Set we aim to give the finest toilet set made. This set usually retails for \$7.00 and \$8.00. Owing to the large contract made with the maker we are able to quote the set far below the regular price. It is made by the famous Haynes Art Pottery and fully guaranteed. It is heavily embossed in artistic floral design, each embossing being very carefully hand traced in bright gold, also all edges, knobs and handles are very elaborately and full traced in gold, as shown by dark lines in illustration. Shipped from Chicago to our customers in the west and direct from our pottery in Baltimore to customers living in the east, giving you the advantage of the lowest freight rates.

No. 2F481 12-piece Toilet Set, all pieces as illustrated, with jar. Shipping weight, 70 pounds. Price.....\$5.98

THE CELEBRATED DRESDEN HOTEL CHINA DOUBLE THICK WARE

CELEBRATED DRESDEN HOTEL CHINA. Is the finest grade hotelware made. It is extra heavy and especially made to withstand the most severe and rough use. It is the best and most economical ware made for hotels, restaurants and boarding houses. The body of the ware is made from the finest flint clays which are very finely ground and properly mixed, making the strongest and most serviceable ware. The glaze, which is heavy and extremely white and glossy, combined with the white flint body makes this a most desirable and satisfactory table service. We guarantee the ware to be first quality. We do not sell seconds, but quote a price which is less than usually asked for an inferior grade.

DOUBLE THICK HOTEL WARE is exactly what the name implies, a ware of double thickness especially adapted for large restaurants and hotels, where an extremely heavy and strong ware is needed. It is made to withstand the hardest kind of use.

PROMPT SHIPMENTS AND LOW FREIGHT RATES, made possible by our method of shipment. To our customers living in the East, shipments direct from the pottery in Eastern Ohio. Shipments going to our Western trade will be shipped from Chicago, thus insuring prompt service at the lowest possible rate of freight.

Our line of JARDINIERS, UMBRELLA STANDS, JARDINIERS, and EARTHENWARE CUSPIDORS are made by the famous Rozane pottery, makers of the finest grade of heavy glazed earthenware in this country. The body of the ware is made of stone china, beautifully colored and double glazed, which brings out the colors bright and strong. Sold only in first quality selection. Each article is guaranteed to be absolutely perfect in every respect. As each piece is carefully inspected and all pieces no matter how slightly imperfect are thrown out, giving our customers only the best quality of this class of ware made in this country. The prices are much lower than usually asked for inferior poorly selected grades. To insure prompt shipment and lower freight rates, we will ship all large jardiniere and pedestals; also jardiniere when bought in quantities of one dozen or more from the pottery at Zanesville, Ohio. Orders which are for smaller quantities or for pieces which do not warrant factory shipment, will be shipped from our stock in Chicago.

No. 2F1143 This High Grade Cuspidor is made from a stone china body which is beautifully colored in a dark green glazed effect, and highly embossed with scroll and ivy leaf with shield design. It is glazed both inside and out. It is an entirely new French shape with a very artistic scalloped top. Price, 6 for \$1.00; each, 19c.

No. 2F1144 Blue and Gold Cuspidors. Made of stone china, richly decorated with dark cobalt blue, under glaze. It is handsomely embossed and gold traced with tulip design; the top is hand stippled with bright gold. Glazed both inside and out. Measures 7 1/4 inches across the top. Weight, 2 1/4 pounds. Price, 6 for \$1.50; each, 29c.

No. 2F1147 Large Size Austrian China Cuspidors. Made of fine quality translucent white china, beautifully decorated with large American Beauty roses and green foliage. (Looks like hand painted china.) It is a delicately tinted with light green, as shown by dark shading in illustration. This cuspidor is exceptionally large. Weight, 4 pounds. Price, 3 for \$1.20; each, 48c.

THIS HANDSOME ASSORTMENT of glassware is made from the finest quality of crystal glass. It is pressed in a new convex panel design, which brings out all the fire and brilliancy, so characteristic of high grade crystal glass. It is exceedingly heavy; all edges are finely finished by hand. The bottom of pitchers and tumblers and all pieces included in the assortment are either cut or finished in such a manner as not to mar the finest polished table. The assortment contains thirty-seven pieces, including all the necessary articles made in glassware. Every piece is full sized and represents only the finest grade of American glassware made. The tops of the salt and pepper shakers and syrup pitcher are made of white metal, heavily plated with quadruple silver plate. This new and massive design is sure to please the most critical or expert buyer of the finest quality of glassware.

THE STAR PRESSED CUT GLASSWARE.

A Perfect Imitation of Real Cut Glass.

OUR PRESSED CUT GLASSWARE is considered the most clever imitation of cut glass made. It is so perfect in finish and design, so clear and brilliant that even those best posted readily believe the ware to be genuine cut glass.

It is made from the best quality of crystal and pressed in steel moulds made from finest cut glass models. It is pressed sufficiently thick to make it exceedingly brilliant and also strong and durable.

The salt and pepper shakers and syrup pitchers have heavy silver plated tops.

On account of the large demand for this popular ware we are furnishing it in complete assortments of 48 pieces as mentioned below and also in open stock (single pieces.)

- No. 2F525 Glass Assortment (48 pieces) consisting of:**

AN EXCEPTIONALLY FINE AND EXCLUSIVE LINE OF JAPANESE CHINA.

OUR OWN IMPORTATION DIRECT FROM JAPAN.

THIS FINE WARE must be seen to be appreciated. It is made by the industrious little Japs, who for centuries have been without rivals in the art of making this character of chinaware. From an artistic standpoint, Japanese china is considered superior in decoration to other wares, as each piece is painted by free hand, with the exception of cheap plates, cups and saucers, and of metal dishes. The coloring and general finish is perfect, as each flower, leaf or figure is traced by hand and represents many hours of labor.

OUR LOW PRICES. The best potters and china decorators in Japan receive from 5 to 10 cents per day. Articles shown on this page and listed at 25 cents may represent one

or two days' work of a skilled Japanese artist. The same quality and kind of work, provided it could be executed in this country, would compel us to retail the same article for about \$2.00; hence the wonderful values—hand painted china at prices less than regularly asked for the cheapest grade of American or European wares.

EVERY ARTICLE, whether in sets or single pieces, is very carefully packed in Japanese rice straw or Japanese wood cases bearing the original Japanese marks and numbers. Due to the careful manner in which the goods are packed we can positively guarantee safe delivery. Shipped from Chicago.

Thin China Cups and Saucers, decorated in artistic flow blue, Jap design, very neat and dainty. Weight, per dozen, 5 1/2 pounds. Price, per dozen, \$1.49.

Brass Night Lamps.

No. 2F701 Brass Night Lamp, 7½ inches high, complete with Gem burner, chimney and wick. Price, 15c. Weight, 6 oz.

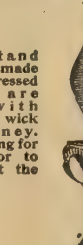

No. 2F703 Brass Night Lamp. This is the most practical night lamp made. The lamp is fitted with revolving reflector and a bracket which enables you to hang lamp on wall. Height, 7½ in. Price, 23c. Weight, 8 oz.

No. 2F705 This is a very useful lamp, has a removable glass fount and polished tin reflector. No. 2 Sun burner and chimney. It is made to hang on the wall or rest on a table. Shipping weight, 4 pounds. Price, 25c.

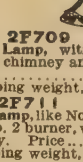

Stand Lamps.

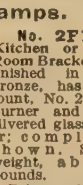

These stand lamps are made of clear pressed glass and are complete with Sun burner, wick and chimney. Just the thing for bedrooms or to carry about the house.

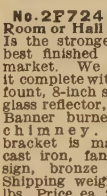

No. 2F707 Plain Footed Glass Stand Lamp, complete with No. 1 Sun burner and wick, just the thing for carrying about the house. Price, 24c. Shipping weight, 4 lbs.

No. 2F711 Large Stand Lamp, like No. 2F709, with No. 2 burner, wick and chimney. Price, 43c. Shipping weight, 6 lbs.

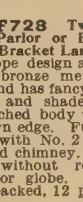

No. 2F722½ 7-inch Silvered Glass Reflectors, same as used on No. 2F722 lamp. Price, 3 for 50c; each, 19c.

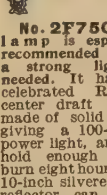

No. 2F724 Dining Room or Hall Lamp. Is the strongest and best finished on the market. We furnish it complete with glass fount, 8-inch silvered glass reflector, No. 2 Banner burner and chimney. The bracket is made of cast iron, fancy design, bronze finish. Shipping weight, 10 lbs. Price, ea., \$0.68. Per dozen, 7.50.

No. 2F724½ 8-inch Silvered Glass Reflectors, same as used on No. 2F724 lamp. Price, 3 for 60c; each, 22c.

No. 2F728 Two-Joint Church, Parlor or Bedroom Swinging Bracket Lamp, with 20-inch rope design arm. Is made of bronze metal, gold finished and has fancy crystal oil fount and shade, handsomely etched body with cut glass crown edge. Furnished complete with No. 2 Unique burner and chimney. Can be lighted without removing chimney or globe. Weight, securely packed, 12 pounds. Price, \$1.98.

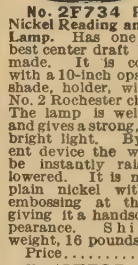

No. 2F750 This lamp is especially recommended where a strong light is needed. It has the celebrated Royal center draft burner made of solid brass, giving a 100-candle power light, and will hold enough oil to burn eight hours. The 10-inch silvered glass reflector can be so adjusted as to throw light wherever needed. Takes No. 2 Rochester chimney and round wick. Shipping weight, 20 pounds. Price, \$2.55.

Nickel Table Lamps.

No. 2F730 At 85 cents we offer a lamp which usually sells for twice this amount. It is made of solid brass, heavily nickel plated; has a nickel plated No. 2 burner and No. 2 wick, and is complete with a No. 2 Electric chimney, shade ring and 7-inch white dome shade, making the best and cheapest reading lamp on the market. Shipping weight, 15 lbs. Price, 85c.
No. 2F731 Lamp exactly like above, with 7-inch imported green shade. Price, \$1.23.

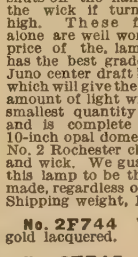

No. 2F734 Polished Nickel Reading and Table Lamp. Has one of the best center draft burners made. It is complete with a 10-inch opal dome shade, holder, wick and No. 2 Rochester chimney. The lamp is well made and gives a strong, steady, bright light. By a patent device the wick can be instantly raised or lowered. It is made of plain nickel with neat embossing at the base, giving it a handsome appearance. Shipping weight, 16 pounds. Price, \$1.48.

No. 2F735 Nickel Lamp, exactly like No. 2F734, excepting that it has a 10-inch imported green shade. Price, \$1.09.

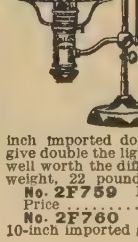

No. 2F738 This Handsome Nickel Center Draft Lamp is superior to all others, as it is suitable for a parlor as well as a sewing lamp. It is very rich in pattern, and its burning qualities are unequalled. It is richly embossed and has two handles at the sides, which greatly add to its appearance. The lamp is made of solid brass, full nickel plated throughout. The high grade Royal center draft burner is considered to be the best made. It is complete with a 10-inch white opal shade, tripod and No. 2 Rochester chimney and wick. Shipping weight, 16 pounds. Price, \$2.25.

No. 2F744 Our Vestal Parlor or Study Lamp has many improvements which are only to be found on this high grade lamp. It is absolutely smokeless. It has a safety gauge which shuts off the flame from the wick if turned too high. These features alone are well worth the price of the lamp. It has the best grade No. 2 Juno center draft burner, which will give the largest amount of light with the smallest quantity of oil, and is complete with a 10-inch opal dome shade. No. 2 Rochester chimney and wick. We guarantee this lamp to be the best made, regardless of price. Shipping weight, 16 pounds.

No. 2F744 Vestal Lamp, brass finished, gold lacquered. Price, \$1.95.

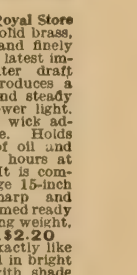

No. 2F745 Vestal Lamp, exactly like No. 2F744 above described, but furnished in bright nickel finish. Complete, with shade and chimney. Price, \$2.23.

Hall Lamps.

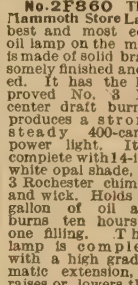

No. 2F854 Hall Lamp, with a rich opal globe. This is the cheapest and best in the market. Length, 29 inches. Made of solid brass, finished in rich bronze, complete with oil fount, No. 0 burner, chimney and wick. Price, \$1.23.
No. 2F855 Hall Lamp, like No. 2F854, with rich ruby globe, which produces a rich mellow light. Price, \$1.29.
No. 2F852 Hall Lamp, with rich ruby globe, complete with oil fount, No. 0 burner, chimney and wick. Finished in rich bronze metal. Length, 29 inches. Makes a soft red light, and is very attractive in a hall. Price, \$1.73.

No. 2F854 Hall Lamp, a new design in hand wrought black iron frame and rich ruby globe. Just the thing for halls and dens. Length, 29 inches. Complete with oil fount, No. 0 burner, chimney and wick. Price, \$1.98. Shipping weight of above lamps, about 14 lbs.

No. 2F856 Royal Store Lamps, made of solid brass, highly polished and finely lacquered, with the latest improved Royal center draft burner, which produces a perfect white and steady 85-candle power light. It has latest wick adjusting device. Holds one quart of oil and burns twelve hours at one filling. It is complete with large 15-inch tin shade, sharp and smokeless, trimmed ready to light. Shipping weight, 25 pounds. Price, \$2.20.
No. 2F857 Exactly like above, only finished in bright nickel, complete with shade and harp. Price, \$2.47.

No. 2F860 The Banner Mammoth Store Lamp. The best and most economical oil lamp on the market. It is made of solid brass, handsomely finished and lacquered. It has the latest improved No. 3 Mammoth center draft burner, which produces a strong, steady 400-candle power light. It is complete with 14-inch white opal shade, No. 3 Rochester chimney and wick. Holds one gallon of oil and burns ten hours at one filling. The lamp is complete with a high grade automatic extension, which raises or lowers the lamp to any desired height. When extended it measures 78 inches and when closed measures 42 inches. We positively guarantee this lamp to be an economical burner and produces the highest capillary power of any lamp made. Shipping weight, 35 pounds. Price, \$4.95.

No. 2F861 Same lamp as above, finished in bright nickel. Price, \$5.20.

Same lamp as above, but without automatic spring extension. You get the same service from this lamp, but you are obliged to use a step ladder or chair for lighting. Shipping weight, 40 pounds.

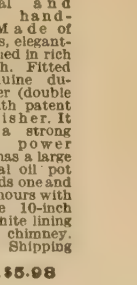

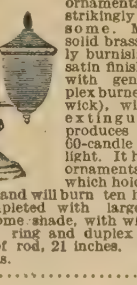

No. 2F862 Price, brass finish \$3.25.

No. 2F863 Price, nickel finish \$3.45.

Same lamp as No. 2F862 and No. 2F863, excepting it is furnished with 20-inch tin shade, and without spring extension, making a lower priced lamp, but one which will give equally as strong a light. Shipping weight, 35 pounds.

No. 2F864 Price, brass finish \$2.69.

No. 2F865 Price, nickel finish \$2.98.

No. 2F761 Duplex Study or Parlor Lamp. A new design. Very ornamental and striking. Made of solid brass, elegantly finished in rich satin finish. Fitted with genuine duplex burner (double wick), with patent extinguisher. It produces a strong 60-candle power light. It has a large ornamental oil pot which holds one and one-quarter pints and will burn ten hours with one filling. Completed with large 10-inch imported green dome shade, with white lining and heavy shade ring and duplex chimney. Height, to top of rod, 21 inches. Shipping weight, 25 pounds. Price, \$5.98.

Latest Improved Student Lamps.

The most perfect lamps made for reading or sewing as they can be raised or lowered to any height by patent thumb screw adjustment. These lamps are simple in construction, easily re-wicked, easy to keep clean and constructed on improved lines which make them entirely safe and reliable.

No. 2F756 Student Lamp, made of solid brass, finely nickel plated with center draft burner and patent wick adjustment, complete with 7-inch white dome shade and Junior Rochester chimney. Holds one pint of oil; will burn nine hours with one filling. Height to top of rod, 21 inches. Weight, 18 pounds. Price, \$2.98.

No. 2F757 Exactly like No. 2F756, but with imported green shade. Price, \$3.25.

We also furnish a student lamp like above equipped with large size Rochester burner, wick and 10-inch imported dome shade. This lamp will give double the light of the smaller size and is well worth the difference in price. Shipping weight, 22 pounds.

No. 2F759 Ideal Student Lamp. Price, \$4.49.

No. 2F760 Same as No. 2F759, with 10-inch imported green shade. Price, \$4.85.

All Metal Parts of Our Lamps are Made of Solid Brass, With Handsome Lacquered Bronze Finish.

A great many dealers advertise library lamps which in appearance are similar to ours, but are made of bronze metal, which is very often mistaken for brass when the lamps are new, but will not stand the wear and retain the handsome appearance of a solid brass lamp. We guarantee every one of our lamps to stand the wear of a lifetime, and guarantee them not to tarnish. Each lamp carefully packed to insure safe delivery.

No. 2F785 This handsome lamp is equal in every respect to lamps generally sold at \$3.50. It has a 14-inch plain white shade, No. 3 Olmax burner, No. 2 Electric chimney, and 1½-inch wick. It has a solid brass frame and patent automatic spring extension. Length, closed, 27 inches; extended, 33 inches.

No. 2F799

No. 2F801 Library Lamp with automatic spring extension. Length, closed, 30 inches; extended, 73 inches. The celebrated No. 2 Juno fount and center draft burner giving 85-candle power light. Fount can be removed for filling and cleaning. No. 2 round wick, No. 2 Rochester chimney. Extra heavy collar at top of oil fount holder. Heavy reinforced, solid brass frame and beautifully decorated and tinted fount and dome with 30 cut glass prisms suspended from dome band, make this one of the most attractive lamps in our line. Shipping weight, about 40 pounds. Price,\$5.85

The Juno Dresden Mammoth Lamp This is the most serviceable and ornamental hanging lamp on the market. It will give a 400-candle power steady white light, and will burn 16 hours with one filling; holds 4 quarts of oil. It is constructed on the most scientific principles, giving a light which surpasses electricity or gas. It is made of solid brass in a beautiful satin finish; has an extra strong spring extension, which extends to the length of 72 inches when opened and 32 inches when closed. The lamp fount can be detached by a patent lock device, passing through the ring which holds the fount. It has heavy solid brass ornamented straps with center scrolls of brass; fittings and rings are suspended with strong solid brass chains. It is complete with large 14-inch dome shade, No. 00, Belzium chimney, smoke bell and rings. This lamp is especially suitable for large rooms, church or lodge halls, as it gives double the light of lamps of similar design.

No. 2F800 Dresden Mammoth Lamp complete as illustrated, No. 1 v.e. Weight packed, 31 lbs. Price,\$6.25 With 30 glass prisms,6.85

\$6.25

No. 2F803 Library Lamp. Has solid brass frame of most beautiful heavy castings. Has automatic spring extension; length, closed, 30 inches; extended, 73 inches. The part of the frame on which the lamp is suspended is made of twisted brass instead of chains. Has No. 2 Juno fount and center draft burner, giving 85-candle power light; can be removed for filling and cleaning. Has No. 2 round wick and No. 2 Rochester chimney. The fount and dome are beautifully decorated with hand painted carnations. A heavy brass collar strengthens the top of oil fount holder. Thirty cut glass pendants are suspended from the dome band. Shipping weight, 40 pounds. Price,\$6.98

ALL METAL PARTS OF OUR CHANDELIERS ARE OF SOLID BRASS (NO. 1 BRONZE METAL), WITH A HANDSOME BRONZE FINISH.

A great many dealers advertise chandeliers which, in appearance, are similar to ours, but are made of bronze metal or plated steel, which is often mistaken for brass when the lamps are new, but will not stand the wear and retain the handsome appearance of solid brass. We GUARANTEE every one of our chandeliers to stand the wear of a lifetime and warrant them not to tarnish.

The decoration consists of large hand painted poppies in pink, purple and white. The globe and also the vase are delicately tinted at the top in light green and the bottom in pink. It has a heavy brass plated metal foot of scroll design. It is equipped with No. 3 Climax burner, No. 3 wick and No. 2 Electric chimney, and produces 60-candle power light. Shipping weight, 20 pounds. Price.....\$1.99

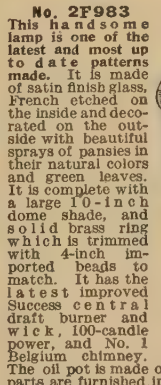

No. 2F968 Clematis Lamp. This lamp is the best low priced central draft lamp made. It is decorated with large sprays of pink Clematis and green leaves, which form a very pleasing design. The background is richly tinted with light green and orange. It is 23 inches high and has a 9½-inch globe. It has the latest improved Success central draft burner, 60-candle power with large removable brass oil fount, complete with a No. 1 Belgium chimney and wick. It has a heavy cast base, made of satin finish brass. Shipping weight, 22 pounds. Price.....\$2.48

No. 2F972 Cerise Beauty. This banquet lamp is made of ruby glass and when lighted produces a rich ruby glow, one of the most cherry and attractive lights which throws a ruby glow on all surroundings. It is handsomely embossed in large scrolls of floral design, and handsomely finished with cerise glass which make up an attractive and handsome lamp. It is furnished with improved Success central draft burner, 80-candle power and wick, No. 1 Belgium chimney. It has a solid brass removable fount and brass plated crown. Height, 26 inches, and has a 10-inch globe. Shipping weight, 28 pounds. Price.....\$2.96

No. 2F976 The American Beauty Lamp, \$2.98. This is one of the prettiest lamps shown this season. The globe measures 10½ inches in diameter; the vase or cylinder to match is of equal size. The lamp measures 26 inches high. The hand painted decorations consist of beautiful American Beauty roses and foliage on a blue tinted background. It has the improved Success central draft burner, and takes No. 1 Belgium chimney and round wick. It produces a strong and steady 80-candle power light. This lamp compares favorably with those sold by crockery dealers at \$4.50 and \$5.00. Shipping weight, 25 pounds. Price.....\$2.98

No. 2F983 This handsome lamp is one of the latest and most up to date patterns made. It is made of satin finish glass. French etched on the inside and decorated on the outside with beautiful sprays of pansies in their natural colors and green leaves. It is complete with a large 10-inch dome shade, and solid brass ring which is trimmed with 4-inch imported beads to match. It has the latest improved Success central draft burner and wick, 100-candle power, and No. 1 Belgium chimney. The oil pot is made of solid brass. All metal parts are furnished in satin finished brass. It is 24 inches high. Shipping weight, 25 pounds. Price.....\$3.48

No. 2F986 Romeo Lamp, \$3.49, is one of the prettiest lamps made in a lilac design. It is large and shapely throughout. The decoration consists of large hand painted lilacs, richly enameled with light green leaves. The lamp and globe are richly tinted in a dark green and when lighted the beautiful lilacs appear true to life. A decoration of this kind appeals to the most critical and is sure to meet with favor everywhere. The burner, which is the highest grade central draft type, produces a 100-candle power light and is complete with No. 2 Rochester chimney and wick. This is a 27½-inch high and has a large 10-inch globe and is adorned with heavy brass crown and base which is finely gold lacquered. Securely packed in a box. Shipping weight, 30 pounds. Price.....\$3.49

No. 2F980 This beautiful lamp is particularly attractive owing to the beautiful dark American Beauty roses which form the floral decorations. These roses with the green foliage are printed on the tinted green background before the last firing of the lamp in the kiln and then the large roses are put on by hand in the deep red color, making the flowers stand out distinct from the lamp. The base is of solid cast brass and the fount holder has a solid brass drawn ring. The removable oil fount is of brass and has the No. 2 100-candle power center draft burner, taking No. 2 Rochester chimney and round wick. Shipping weight, 30 pounds. Price.....\$3.55

No. 2F1009 Our Bordeaux Lamp. This is an exceptionally attractive lamp and represents the highest grade of workmanship. As illustration shows, it is elegantly embossed, bringing out the large clusters of grapes and leaves, and also panel scrolls in bold relief. The grapes and leaves are colored true to life. Body of globe and base are richly tinted in brown and shaded into dark orange. The mountings of this lamp are made of cast metal and gold plated. It has the latest imported Success central draft burner 100-candle power, and No. 1 Belgian chimney. It has a solid brass oil pot, and heavy brass gold plated crown. This lamp is one of the best values ever offered. It is 26 inches high and has a 10-inch globe. Shipping weight, 32 pounds. Price.....\$3.97

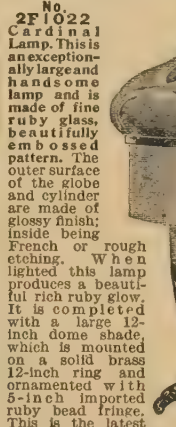

No. 2F1016 Kismet Lamp, \$4.88. Beautifully decorated by hand. This lamp is the work of high class artists, the decoration consisting of large white and pink chrysanthemums and light green leaves, very cleverly painted by hand and in such a manner that can surpass it in beauty. It is extra large, measuring 26½ inches high and 11½-inch globe and 13-inch base. It has the best grade central draft burner, which produces 100-candle power light, and removable oil fount made of solid brass and is complete with No. 2 Rochester chimney and round wick. All metal parts, including the fancy cast crown and large base, are made of brass, gold-plated and lacquered and will not tarnish. No better lamp made at any price. Securely packed in a barrel. Shipping weight, 40 pounds. Price.....\$4.88

pot of solid brass richly gold plated. It is securely packed in a barrel. Shipping weight, 45 pounds. Price.....\$4.98

No. 2F1017 Peony Lamp. This lamp represents one of the largest and best lamps we offer. It measures 29 inches high, and has a large 12-inch globe. The decoration consists of large pink and white peonies with green leaves. It is beautifully tinted pink and green background. The shape is the newest offered this season. It has a large massive brass crown and brass feet, which forms the base. All metal parts are gold plated fully protected from wear and tarnishing by a heavy coat of lacquer. It is fitted with the latest improved Success central draft burner 100-candle power, and wick, No. 1 Belgian chimney and oil pot. Shipping weight, 45 pounds. Price.....\$4.98

No. 2F1022 Cardinal Lamp. This is an exceptionally large and handsome lamp and is made of fine ruby glass, beautifully embossed with a pattern. The outer surface of the globe and cylinder are made of glossy finish; inside being French or rough etching. When lighted this lamp produces a beautiful rich ruby glow. It is completed with a large 12-inch dome shade which is mounted on a solid brass 12-inch ring and ornamented with 5-inch imported ruby bead fringe. This is the latest creation in high grade lamps. All metal parts are heavily brass plated and gold lacquered. It is equipped with the latest imported Success central draft 100-candle power burner and wick and No. 1 Belgium chimney. The oil pot is made of solid brass richly plated and lacquered. It is 27 inches high. Shipping weight, 33 pounds. Price.....\$6.25

PROFIT SHARING ARTICLES
SEE THEM ON PAGES 1 AND 2.

Customers living in the Central and Eastern states who order one of our lamps only, will receive it shipped direct from our factory in Pennsylvania, thus effecting a saving in transportation charges.

HOUSE FURNISHING HARDWARE DEPARTMENT.

COMPLETE KITCHEN OUTFITS.

ABOUT THE QUALITY. Different from any department or novelty stores who sell assortments of inferior goods, our assortments are all made up from regular stock merchandise of the highest grade. Every article that goes into every combination we offer is strictly a high standard quality and so guaranteed, and if not found to be such in every instance, you are at liberty to return goods to us and we will cheerfully refund your money. We are able to make this extraordinary offer on combination outfits by reason of buying immense quantities of the different articles during the dull seasons, when the manufacturers have little to do and are willing to make very close prices; at the same time when it is quiet with us we can assemble the outfits, pack them and get them ready for shipment. As it costs no more to handle the complete outfit once ready for shipment than one single item in the lot, we can afford to figure our profit even lower than on a general line. All this you get the benefit of in our prices.

IRONSTONE ENAMELED WARE OUTFITS.

We guarantee our Ironstone Enameled Steel Ware to be the most durable and toughest enameled ware known. It is absolutely acid proof and will last two or three times as long as the fancy colored wares costing twice our price or more. The body of the vessels is of sheet steel and is covered with two coats of vitrified porcelain enamel. In color, it is a dark brown with fine white mottling, having a rich, glossy and pleasing appearance.

Ironstone Enameled Ware Outfits containing almost everything necessary in the kitchen for only \$1.98 to \$2.58. Ironstone Enameled Steel Ware is the most durable and toughest enameled ware made. The material used in the enamel is guaranteed to be absolutely pure. It is united with the steel body at an enormous temperature (more than twice as high as required in ordinary enameling) and is not only vitrified but forms a perfect union or clinch with the steel, making it tough and lasting. We furnish three assortments suitable for Nos. 7, 8 and 9 stoves respectively, containing the following articles:

TRUE BLUE ENAMELED WARE OUTFITS.

The Highest Grade Made, at \$4.25, \$4.95 and \$5.35.

Our True Blue Enameled Ware is the highest grade it is possible to procure. The purity of the material used in its composition, excellency of workmanship and beauty of design are unequalled. It is strong and durable, yet light and convenient to handle. The body of the ware is sheet steel, triple coated on the inside with absolutely pure white porcelain and on the outside with a bright, glossy, mottled blue and white enamel presenting a very handsome effect, every piece matching perfectly. Covers are enameled also and will never rust. It is as easily cleaned as china and the best and most durable ware for family use made. We furnish three assortments suitable for size No. 7, 8 and 9 stoves respectively, containing the following articles. Note the reduced prices.

Genuine Imported German Seamless White Enamel Ware Dinner Sets.

No. 2F2016 Dinner Set consists of 6 dinner plates, 6 coffee cups, 6 saucers, 1 platter, 1 vegetable dish and 1 bowl. Each piece is full size and made in the most practical shape. The ware is made of sheet steel, coated inside and out with bright white porcelain, and ornamented with a bright blue border. This ware is more serviceable than crockery, as it is unbreakable, will not chip, and is less than one-half the weight of crockery. The enamel is entirely acidproof and will not discolor. Very suitable for camping parties, children, mining camps, and is also suitable for ordinary household use. Weight, boxed for shipment, 25 pounds.

Price, per set, as shown in illustration.....\$2.45

\$10.00 WORTH OF STOVE FURNISHINGS, KITCHEN AND HOUSEHOLD NECESSITIES FOR

FOR \$5.98 we will send you this mammoth assortment of stove furnishings and household necessities, the most complete outfit ever offered, consisting of 40 different articles; all the articles necessary to set up your stove, including the best grade full size stove board, stove pipe, elbows, shovels, coal hods, blacking, polishing mitt, etc. And in addition to all this we include the most complete line of the finest grade of steel enamel ware, such as tea kettle, coffee and tea pots, etc., copper bottom wash boilers, cast iron stove pots and kettles, fry pans, covered roast pans, in fact, any article which could be used in connection with any kitchen range and stove. Values exceeding \$10.00, all for the small sum of \$5.98 for sizes to fit No. 7 stove, \$6.48 for No. 8 stove, \$6.98 for No. 9 stove.

HOW WE CAN AFFORD TO MAKE THIS SPECIAL OFFER INDUCEMENT. By selling 40 items at once, making each sale amount to \$5.98 or more, we are able to figure our profit unusually low. Instead of figuring the profit on each one of the items, or adding the expense necessary for handling and packing the 40 items separately, we figure one small profit on the one sale, the sale of 40 items all together, a sale of \$5.98. We figure one expense in packing, we give you the benefit of all the saving in profit, all the saving in selecting the goods, and packing the goods, make you the lowest quantity price, less than most dealers are obliged to pay for a similar assortment. We make you a price of \$5.98 for an assortment or outfit which you could not buy elsewhere for less than \$10.00. If you buy a cook stove or range from us don't fail to include this set with your order; if you buy the stove elsewhere, don't fail to send us your order. There isn't an item in this list that you don't need.

If you are in need of anything in the line of stove or kitchen supplies, like kettles, wash boilers, stove boards, bowls, spiders, pots, drip pans, etc., we advise you by all means that instead of selecting just a few items from the catalogue that you include in your order this big outfit. Order this outfit at \$5.98 and thus get the greatest possible value for your money.

The regular retail prices listed opposite each article gives you an accurate idea of the value of each article included in the mammoth outfit, based on the prices usually asked by the regular retail dealer for goods of equal quality, showing you at a glance what you would ordinarily have to pay for the same items to fit a No. 7 stove (the smallest size stove or range).

AN **LAUNDRY OUTFIT** FOR \$6.65 | \$3.59 Buys this \$6.00 Complete Outfit of 41 PIECES HOUSEHOLD NECESSITIES

41 ARTICLES FOR

\$3.59

IT WILL PAY YOU HANDSOMELY, if in need of laundry or household necessities, to send us your order for this great big assortment; get a full \$11.50 worth of best, up to date laundry articles for only \$6.65. No housewife can afford to let this wonderful opportunity go by, especially if in need of a wash boiler, wash wringer, tubs or clothes bar, as the small price of \$6.65 barely covers the amount you would ordinarily be obliged to pay for these four articles alone. Remember, we give you thirty-one articles, a complete outfit, every article you could mention in connection with an up to date laundry; the most liberal bargain ever offered.

HOW WE MAKE THE PRICE SO LOW. We can make you this extraordinary offer of \$6.65, for the reason of our buying these articles in immense quantities, on many terms taking the entire output of the factory, thus reducing the cost to the very minimum; then to get the cost down to the very lowest penny, the outfits are put up or assembled during the dull season of the year when labor can be had at the lowest possible cost. We give you the benefit of all the saving of handling; we ask you but one small percentage of profit, figured on the \$6.65 basis, not on the basis of a sale of an individual item. This is the largest, best and most complete assortment of laundry accessories ever assembled. No family can afford to be without it. Remember, if you should try and only purchase a few items contained in the mammoth assortment from your regular dealer, you would pay more than our special price of \$6.65, for only one-third or half the variety of goods we furnish. Understand, we guarantee the quality. If you do not find it more than satisfactory, you can return it to us at our expense and we will immediately refund your money. If you have a home of your own you need this outfit as you need no other outfit in our book. There is no greater value offered in this big catalogue. It's the grandest combination of useful articles at a very low price that we have ever been able to offer. Our special price, complete outfit, exactly as illustrated and listed, only, \$6.65.

- No. 2F2025 Mammoth Laundry Outfit. Weight, 145 pounds. Price.....\$6.65

EVERY ARTICLE IN THIS OUTFIT is an indispensable daily necessity. The outfit consists of forty-one articles, including the latest improved quilting frame or curtain stretcher, fine bristle floor brush, bristle window brush, carpet stretcher, rug beater, picture nails and hooks. In fact, every article you could desire for maintaining cleanliness in the home. \$3.59 buys this assortment of every day useful articles which cannot be duplicated elsewhere for less than \$6.00. Remember, the quilting frame or curtain stretcher, floor broom and one or two other pieces, not including other numerous articles, alone would retail for more than we ask for this entire outfit of forty-one pieces. We guarantee it to please you. You take no risk, simply send us \$3.59, and tell us to send you No. 2F2026 assortment and if you do not find it to be the most complete outfit made, a far better value than you could buy elsewhere for \$6.00, send it back at our expense and we will return your money.

HOW WE ARE ABLE TO OFFER A \$6.00 OUTFIT FOR \$3.59. Buying in large quantities, in some instances contracting for a factory's entire output, we are able to buy the goods at the lowest possible price. In order to reduce our prices and in order to permit us to sell \$6.00 worth of goods for \$3.59, we are obliged to pack these assortments during the dull season of the year, when labor can be had at the best advantage. We give you the benefit of this large saving which is only possible by the most careful figuring, at the most favorable season of the year. We ask but one small percentage of profit figuring on the \$3.59 basis, not on the basis of a sale of an individual or separate item. You take no chance; we guarantee the quality, we guarantee goods to reach you quickly and safely, we further guarantee them to be first class in every way, an outfit which cannot be duplicated for anything like the price we make. Below we list useful articles contained in the set. The greatest set ever offered at \$3.59.

- No. 2F2026 Housekeepers' Utility Outfit. Consisting of forty-one pieces. Shipping weight, 28 pounds. Price.....\$3.59

MRS. POTTS' SAD IRONS.

Set consists of one iron with rounded end, for polishing, weight, 5 pounds; two with regular ends, weighing 5½ pounds and one 5½ pounds; detachable wood handle, always cool, and on stand.

No. 2F2045 Mrs. Potts' Sad Irons, in sets of three, with detachable wood handle and iron stand, as described above; finely polished. Price, per set.....\$6.75

No. 2F2046 Set of three Mrs. Potts' Sad Irons, as above, finely polished and heavily nickel plated. Price, per set.....\$7.00

Our sad irons are neatly packed in strong wood boxes. This method of packing prevents the irons from rusting or becoming damaged, which quite frequently happens when handled in the ordinary way.

Sensible Sad Irons

No. 2F2056 Sensible Sad Irons. A handsome outfit, containing three highly nickel plated and polished solid sad irons, ground by perfect machinery, which makes every iron true; face shaped to make ironing easier than with the old style irons. These solid irons hold the heat longer than the ordinary Mrs. Potts' irons. The handle is the strongest and best made, will not shake, fits the hand perfectly and cannot become accidentally detached. Irons are double pointed and weigh 5, 6 and 7 pounds respectively. Price, per set of three irons, detachable handle and stand, 85c

Sleeve Irons.

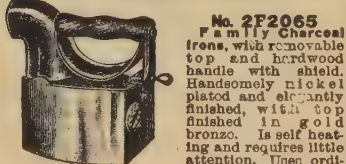

No. 2F2059 Sensible Sleeve Iron. For laundering shirt waists and children's clothes. Will iron a flat or tucked to the seam. Is nickel plated and polished. Weight, 4 pounds. Length, 8 inches. Price.....\$2.95

Old Style Sad Irons.

No. 2F2063 Old Style Sad Iron, with face finely polished. The 2½-pound is handsomely nickel plated and a splendid for laundering shirt waists and other light articles. Weight, lbs.....\$1.50 5 6 7 8 9 Price.....\$2.50 1.60 1.90 2.40 2.70 3.00

Charcoal Irons.

No. 2F2065 Family Charcoal Irons, with removable top and hardwood handle with shield. Handsomely nickel plated and elegantly finished, with top finished in gold bronze. Is self heating and requires little attention. Uses ordinary charcoal as fuel. Is easily regulated to any desired heat and does away with hot fire on ironing day. Agents charge \$2.00 to \$2.50 for this iron. Weight, 7 pounds. Price.....\$2.98

No. 2F2066 Family Charcoal Iron. Same pattern as above. Plain polished finish. Weight, 6½ pounds. Price.....\$2.69

Tailors' Goose.

No. 2F2070 Tailors' Goose, with extra polished face. Weight, lbs.....18 14 10 16 20 22 Price.....48c 56c 64c 78c 80c 85c

Sad Iron Handle.

No. 2F2075 Sad Iron Handle. Fits any Mrs. Potts' pattern sad iron; is all steel and cannot be broken. Asbestos insulated and the coolest handle made. Fits the hand and does not tire the wrist. Nice japanned finish. Price, 3 for 25c; each.....9c

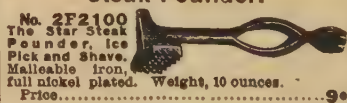

Flat Iron Heaters.

No. 2F2080 Iron Flat Iron Heaters. Will save one-half the time in heating irons. Deep pattern. For stove, size.....7 8 9 Weight, pounds.....5½ 6 7 Price.....22c 28c 34c

No. 2F2085 Sad Iron Heater, for gas, gasoline or oil stoves, heats three irons at one time and will keep two rapid ironers supplied with hot irons. The heat coming in direct contact with the irons heats them much faster than can be done on heaters with closed sides. Weight, 2½ lbs. Price.....\$1.95

Steak Pounder.

No. 2F2100 The Star Steak Pounder, Ice Pick and Shave. Malleable iron, full nickel plated. Weight, 10 ounces. Price.....\$0.95

Mop Handles.

No. 2F2110 Mop Handle and Brush Holder Combined. A reliable article, made from latest improved patterns, with free working and effective screw, hardwood handle. Weight, 1½ pounds. Price, 3 for 25c; each.....9c

No. 2F2115 Cotton Mops, 9 pounds to the dozen. Price, 3 for 20c; each.....11c

No. 2F2116 Cotton Mops, 18 pounds to the dozen. Price, 3 for 25c; each.....14c

Self Wringing Mop.

No. 2F2120 The Erie Self Wringing Mop. The mops made of cotton coils, large and full size. The hands do not come in contact with the water, the mop being wrung at arm's length. The use of scalding water is another important advantage. The floor washes easier, drier and quicker and dries more readily. Weight, 3 pounds. Price, 3 for 70c; each.....25c

Henle's Fruit Press.

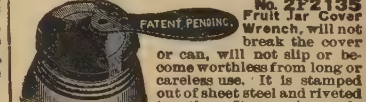

No. 2F2125 Henle's Fruit and Vegetable Press and Strainer; can be used for a variety of purposes in the kitchen. Especially recommended for mashing potatoes. Potatoes, after being forced through the strainer have a delicious creamy taste that no other method of mashing will impart. It is not necessary to peel the potatoes, as it mashes and removes the skin of boiled potatoes in one operation. Weight, 30 ounces. Price.....\$1.75

Bread and Bacon Slicer.

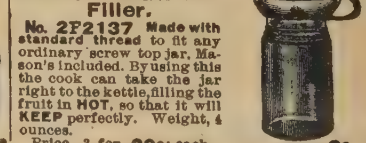

No. 2F2130 Bread and Bacon Slicer enables any one to produce slices of any desired thickness all exactly alike and all perfectly straight and even; a great time saver for hotels and restaurants; for making sandwiches alone this slicer is worth many times its cost. Strongly made and very simple in operation. Can be used with any bread knife, but the serrated edge knife, as shown in illustration, is best. Weight, complete, 1½ pounds. Price, slicer without knife.....\$1.25 Slicer and Knife complete.....\$1.50

Fruit Jar Wrench.

No. 2F2135 Fruit Jar Cover Wrench, will not break the cover or can, will not slip or become worthless from long or careless use. It is stamped out of sheet steel and riveted together. It saves jars, rubbers and covers and insures the fruit being properly sealed during the canning season. Weight, 6 ounces. Price, 3 for 20c; each.....7c

Climax Fruit Jar Filler.

No. 2F2137 Made with standard thread to fit any ordinary screw top jar. Mason's included. By using this the cook can take the jar right to the kettle, filling the fruit in HOT, so that it will KEEP perfectly. Weight, 4 ounces. Price, 3 for 20c; each.....8c

IF YOU BUY FROM US we will send you a **FREE PROFIT SHARING CERTIFICATE.** SEE PAGES 1 AND 2.

Perfect Cherry Stoner.

No. 2F2170 This Perfect Cherry Stoner does not crush the cherry or cause any loss of juice; a perfect machine for large, small or California cherries. The seed extracting knife drives the seeds into one dish and actually throws the cherries into another. The mark of the knife can scarcely be seen on the seeded fruit. It feeds from 20 to 30 quarts per hour. Heavily tinned to prevent rust. Weight, 1½ pounds. Price.....70c

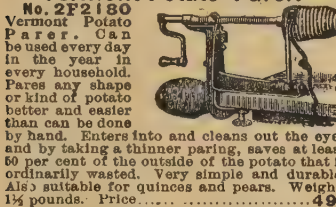

Raisin and Grape Seeder.

No. 2F2175 Enterprise Raisin and Grape Seeder is simple in construction, easily adjusted, does its work rapidly and effectively, seeding the raisins wet or dry. Will seed grapes for preserving and cooking purposes. Thoroughly should be sprinkled in the hopper as fast as the roller will grasp them. The best results will be obtained by feeding them one at a time. Will seed a pound in five minutes. Weight, 2½ pounds. Price.....80c

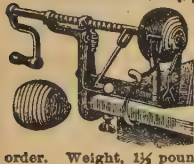

Vermont Potato Parer.

No. 2F2180 Vermont Potato Parer. Can be used every day in the year in every household. Pares any shape or kind of potato better and easier than can be done by hand. Enters into and cleans out the eyes and by taking a thinner paring, saves at least 50 per cent of the outside of the potato that is ordinarily wasted. Very simple and durable. Also suitable for quinces and pears. Weight, 1½ pounds. Price.....49c

Vermont Apple Parer.

No. 2F2185 Vermont Apple Parer. Pares, cores and slices the fruit and pushes off apple and core separately. Can be used to pare without coring and slicing if desired. Simple and easy to operate. Cannot get out of order. Weight, 1½ pounds. Price.....37c

Simplex Apple Parer.

No. 2F2190 Simplex Apple Parer. Pares very close to both ends of the apple, but does not core or slice. All parings fall clear of the machine. Has automatic push off, and after paring, knife recedes so as to leave room to place another apple on the forks. Very rapid and strong, and the best to use where paring only is desired. Weight, 2½ pounds. Price.....45c

Double Quick Apple Parer.

No. 2F2195 Double Quick Apple Parer. The most rapid hand paring machine in the world. One forward movement of the hand pares an apple from stem to blossom. A return of the handle pushes the apple off of the fork. Very simple, yet strongly built; does not core or slice. Weight, 2½ pounds. Price.....59c

Pepper and Spice Mill.

No. 2F2200 Pepper and Spice Mill. Buy the pure, unground pepper and spice, and grind it as you use it, thus preventing adulteration and retaining its full strength. This mill is made of walnut, highly polished, with nickel top. Height, 4½ inches; diameter, 2 inches. Price.....20c

COFFEE MILLS.

Our line of Coffee Mills shown this season represents all the latest and best makes by the leading manufacturers in the country.

Tin Canister Coffee Mill.

No. 2F2205 The Canister Coffee Mill. Made with Japanese tin canister holding one pound of coffee and cup for catching and measuring the ground coffee. The canister is practically airtight, and by buying the coffee in the bean and grinding it just as you need it, you secure the full strength of the bean, as it is well known that coffee rapidly loses its strength if allowed to stand after grinding. Weight, 3 pounds. Price.....28

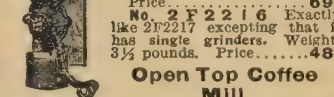

X-Ray Mill.

No. 2F2210 The X-Ray Mill, has wood frame and wood hopper with glass front, so coffee is always in sight. A 1-pound capacity wall mill of entirely new design. Easily regulated to grind fine or coarse, as desired. Turns easy. Grinds fast. The mill is well made, strong and durable, and is warranted to give satisfaction. Weight, 5 pounds. Price.....45c

Improved Oplex Coffee Mill.

No. 2F2217 Canister made of the steel, elegantly finished. Holds one pound airtight and visible. Heavy glass front. Fitted with the best double steel grinders. Adjusts to grind fine or coarse. The fastest grinder made. Has a detachable cup. Mounted on a varnished oak board. Weight, 4 pounds. Price.....69c

Open Top Coffee Mill.

No. 2F2220 A Raised Hopper Open Top Mill, hardwood box, dovetailed corners, highly polished and covered with best copal varnish, japanned iron patent regulator and improved grinding burrs. Size of box, 6x8x3½ inches. Weight, 3½ pounds. Price.....29c

Favorite Mill.

No. 2F2225 Raised Hopper Mill with hinged cover, hardwood box and dovetailed corners, highly polished and covered with best copal varnish, japanned iron patent regulator and improved grinding burrs that will thoroughly pulverize coffee when desired. This mill has an ornamental iron top to the box, which makes it strong and durable. Size, 6x6x5 inches. Weight, 4½ pounds. Price.....43c

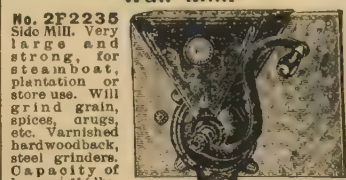

New Home Coffee Mill.

No. 2F2230 New Home Coffee Mill. Wood top, iron cover and side handle. This mill has a large hopper capacity, holding over a pound of coffee. It is constructed of the best materials. The box is made of hardwood, highly polished and varnished, and supplied with our improved grinding burrs, which are warranted to pulverize coffee, if desired, to 4½ inches. Weight, 4½ pounds. Price.....49c

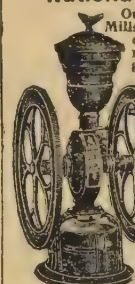

Wall Mill.

No. 2F2235 Side Mill. Very large and strong, for stationary use, plantation or store use. Will grind grain, spices, drugs, etc. Varnished hardwood back, steel grinders. Capacity of hopper, 1½ lbs. of roasted coffee. Weight, 9 lbs. Price.....79c

National Counter Mills.

Our Improved National Counter Mills are strictly high grade machines, of the very latest and most improved type. The grinders are made of steel and grind the kernels into uniform size; can be adjusted from fine to coarse or vice versa while in operation. Grinds quicker and easier than many mills offered in every respect. The price. Handsomely finished in maroon and gold, an ornament to any store. Fully guaranteed in every respect. Sold in two sizes.
No. 2F2240 Medium size with 12-inch fly wheels; hopper holds 1½ pounds. Grinds ¾ pounds of coffee per minute. Height, 24½ inches. Shipping weight, 47½ pounds. Price.....\$4.25
No. 2F2245 Large size with 17-inch fly wheels; hopper holds 2 pounds. Grinds 2 pounds of coffee per minute. Height, 28 inches. Shipping weight, 68 pounds. Price.....\$7.25

CARPET SWEEPERS.

Acme Carpet Sweeper.

No. 2F2300 The Acme Carpet Sweeper, is the best low priced carpet sweeper ever offered. It has broom action, reversible ball, improved dumping device, the new improved bristle brush, handsomely finished case. The metal parts are japanned finish. Weight, boxed, 9½ pounds. Price.....\$1.65

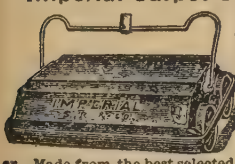

Bissell's Sanitary Sweeper.

No. 2F2305 Bissell's Sanitary Sweeper is made by the Bissell Carpet Sweeper Co. of Grand Rapids, Mich., the largest manufacturers of carpet sweepers in the world. It has the renowned Bissell broom action, reversible ball, new improved braid band furniture protector which never comes off, Bissell's reliable, new improved spring dumping device, pure bristle sweeping brush handsomely finished case. All metal parts are nicely japanned. Weight, boxed, 9½ pounds. Price.....\$1.89

Imperial Carpet Sweeper.

No. 2F2309 Our Imperial Carpet Sweeper contains the famous broom action, and every other feature necessary in a first class sweeper. Made from the best selected cabinet woods in an assortment of attractive finishes. Full nickel plated trimming. Nickel plated on copper, which is the best method known, permits the highest possible finish and will not rust or tarnish. Has the new improved braid band furniture protector encircling the case, patent reversible ball, wheels outside the case and our everlasting pure bristle brush; pans operate independently by an easy pressure of the finger. Weight, boxed, 9½ pounds. Price.....\$1.98

SEROCO CARPET SWEEPER, \$2.48

THIS IS THE FINEST AND LATEST PRODUCTION IN THE CARPET SWEEPER LINE.

Our patented roller bearings, shown in the accompanying illustration, are the most notable improvement ever made in the carpet sweeper construction and make the Seroco run far easier than an ordinary sweeper. Our roller bearings have not a single spring or delicate part to wear out or get out of order. Nothing that will ever require attention. They are constructed so that there is absolutely no friction or noise and they never require oiling.

OUR SEROCO SWEEPER will follow the best broom made over any carpet and take out more dust and dirt than the broom did. The pure elastic bristle brush in combination with our great broom action causes it to reach down into the nap of the carpet and draw the dirt out of it, making it look fresh and bright like new, after sweeping. It does not grind the dirt into the carpet to cut and wear the fibre as a broom does. It saves the carpet instead of wearing it out, and this feature alone will soon save its cost.

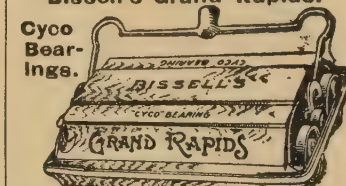

\$2.48, carried only in the finest retail stores in the larger cities and have never been sold for less than \$5.00. Our price represents but a bare margin over the actual cost to build in the largest and best equipped carpet sweeper factory in the United States. It costs you your carpets last longer and look brighter, but will sweep in six-fourth the time of the best broom and with almost no labor.

WE FULLY GUARANTEE the Seroco sweeper to give you splendid satisfaction and, if you ever saw, and well worth \$5.00, you are at liberty to return it to us and we will immediately refund your money. Shipping weight, packed securely in a strong wood box, 10½ pounds.

No. 2F2314 Price.....\$2.48

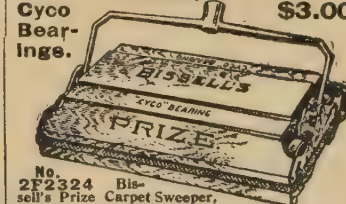

A CARPET SWEEPER SAVES TIME AND MONEY. Costs no more than four or five good brooms and will outwear several dozen. Will follow a broom on any carpet and remove more dirt and dust than the broom did and with very much less labor. Does not wear out carpet as a broom does, and in this way alone will quickly save its cost. Sold under our universal guarantee. If not satisfactory, return it and your money will be refunded.

Bissell's Grand Rapids.

No. 2F2320 The best known and most widely sold carpet sweeper in the world. Contains the famous Bissell broom action, the anti-raveling collector brush ends, the dustproof axle tubes, the new improved Bissell's ball socket, and every other desirable feature necessary in a first class sweeper. Made from the best selected cabinet woods in an assortment of attractive finishes. Has improved braid band furniture protector encircling the case. Bissell's patent reversible ball spring, wheels outside the case and our everlasting pure bristle brush; both pans open at once by an easy pressure of the finger. Fully guaranteed. Weight, boxed, 9½ pounds. Price, Cyco bearings, japanned metal trimmings.....\$2.50

Bissell's Prize Carpet Sweeper.

No. 2F2324 Bissell's Prize Carpet Sweeper, the latest of the Bissell patents. A sweeper of the highest grade. The case is hand polished. The ball, trimmings and iron end pieces are plated with nickel, brass or antique copper, according to the finish of the case. It contains the Bissell broom action, has patent reversible ball, patent ball sockets, the improved braid band furniture protector and our pure bristle wire staple brush, adapted to be easily removed from the sweeper. Its spring dumping device is convenient, opening one pan at a time. Length of case, 14 inches. Its construction throughout is as perfect as care and skill can make it. This is, in our opinion, the handsomest design and the best finished carpet sweeper made. Weight, boxed, 10½ pounds. Price, with Cyco bearings.....\$3.00

Bird Cages.

Our various styles of jannaped cages are superior to any other jannaped cages manufactured. The rails or cross bands of these cages are made of the best charcoal tin plate, double punched, making a stronger and lighter cage than can be made of any other material. Feed cups, perches and swings sent with cages, no extra charge. Our bird cages are all very carefully packed and we guarantee they will reach our customers in good order.

FLOWER STANDS.

Flower Stands for potted plants. Extra strong and heavy, with patent casters, very handsome designs, painted green and tastefully decorated in gold bronze. We carry in stock two styles, the regular pattern with frame of heavy wire rods which cannot be taken apart and is shipped set up ready for use; and our folding pattern which has a frame of light angle steel and is put together with bolts by means of a screwdriver. We recommend the purchase of the folding pattern as it can be shipped at a much lower rate of freight and, being packed securely in a case will reach you in better condition.

Semi-Circular Flower Stands.

No. 2F2453 With Trellis,
42 inches wide, 28 inches deep,
63 inches high, will hold from
15 to 24 pots. Weight, 21 pounds.

Cleaner for cleaning wall
paper, fresco,
water colors and win-
dow shades. Pre-
pared ready for in-
stant use; requires
no mixing; you do
not have to raise your
carpet or move your
furniture, as it makes
no dirt. It takes off
all the dust and dirt
and makes the walls as clean as new. Does not
crack, slide or leave streaks.
Price, three for 25c; per pound can.....10c

IMPERIAL STOVE HOLLOW WARE.

Imperial Stove Hollow Ware is made of smooth cast gray iron, heavily coated on the inside with pure white porcelain and on the outside with mottled blue and white enamel, all of which is united with the cast iron at an intense heat, thereby forming a perfect union of the two, which no subsequent heating can destroy. It is easy to clean, of pleasing appearance, and we warrant every piece to give satisfaction. The numbers given designate the size of stove the article is intended for.

Steam Cookers.

No. 2F3837			
You can cook sauerkraut, onion cabbage and pudding at the same time, without any one of them partaking of the odor or flavor of the other. It cooks well but not burns. It saves fuel, stove space, fits any stove, and saves one-quarter of the food which is lost when cooked the old way. Specially adapted for oil, gas and gasoline stoves where space is limited. Well made from good heavy tin, with copper bottom on bottom vessel.

Arnold Steam Cooker.

Arnold Steam Cooker			
will cook perfectly anything that can be boiled, baked or roasted. Retains the natural richness and flavor of the food. It makes boiling or scorching impossible and saves watching. No odor can escape into the room. A good cook can cook better with one than without, and a poor cook cannot spoil a meal if she tries. Everything cooked is healthier and more easily digested than when cooked in any other way and it saves nearly one-third of the food which is lost by the old way. You simply put your entire dinner in the cooker at once, set it on any kind of a stove and let it alone until ready to serve. It has a quick boiling base, so that the steam is produced over an ordinary fire in three minutes from cold water. Also has hood which covers cooking drum, keeping an even temperature and prevents steam from escaping into the room. Price includes meat kettle, vegetable steamer, and pudding pan. Also complete directions and valuable recipes.			
No. 2F3830 Capacity, 3 gallons; 3 compartments; adapted for family of 3 to 6.			\$2.57
No. 2F3840 Capacity, 4 gallons; 5 compartments; adapted for family of 4 to 10.			\$2.98
No. 2F3841 Capacity, 5 gallons; 5 compartments; adapted for family of 11 to 15.			\$3.39

GENUINE PEERLESS ENAMELED STEEL WARE.

commonly used in the enameled ware of similar appearance. WE SELL NO SECONDS. Most dealers in order to quote attractive prices and second quality ware, which is similar in appearance to perfect goods. Second quality ware does not give satisfaction, and is not to be compared with finely selected, clean goods, quoted and supplied by us. Every piece of our Peerless ware is positively guaranteed to be absolutely the best quality of Gray Enameled Steel Ware made. Our low prices are only made possible by placing most favorable contracts with this famous factory during the dull season of the year, when the manufacturers need a volume of business to keep their expert forces together. Hence we are able to quote prices lower than usually asked for inferior grade goods. All Tinware and Enameled Ware is usually listed by all manufacturers and dealers at what is known as trade measures. Some articles actually hold more than trade measure. Most articles hold about the same, and a few articles do not hold the quantity indicated by the trade measure. For the guidance of those who are not familiar with trade size, we also give actual capacity of each utensil. When comparing our prices with those of other dealers, remember that our goods are standard size, and same size as listed by all manufacturers.

IMPORTED WHITE PORCELAIN ENAMELED STEEL WARE.

pure white porcelain, and ornamented with a bright blue border. It cannot be broken, is not easily chipped and is less than one-half the weight of crockery. It will not discolor and is as easily cleaned as china. For ruiners, camping parties or children's use it is just what is needed. Also desirable for ordinary household use. Every piece is guaranteed first quality selection.

THE CELEBRATED TRUE BLUE ENAMELED STEEL WARE. THE FINEST FANCY MOTTLED WARE MADE.

OUR TRUE BLUE WARE surpasses anything heretofore offered in fancy enameled ware, when taking beauty, strength and finish into consideration. The body is made of steel, heavily coated with three coats of glossy enamel. The outside is tastefully mottled in a rich dark blue and pure white; the inside or linings are made with three coats of pure milk white glaze, producing a beautiful contrast, only to be found in

the most expensive grades of ware. This ware is chemically pure, as the enamel contains no poisonous ingredients. Perfect selection. Every piece is carefully examined and bears the closest inspection before leaving the factory, thus insuring our customers of receiving only the choicest selection, and a guarantee against seconds or inferior goods.

Price, 59c 67c 73c 82c

OUR STERLING BRAND ALUMINUM COOKING UTENSILS are all stamped and spun from the finest chemically pure aluminum. They will never rust or corrode as tin vessels will, nor will they chip or scale off like enameled ware. In ordinary household use they are indestructible and will last almost a lifetime. While the first cost is somewhat more than that of other wares they are really the cheapest because of their wonderful wearing qualities. Aluminum is a remarkable conductor of heat and because of this property much time and fuel is saved in cooking. Nothing cooked in an aluminum vessel will have that scorched taste. It is not affected by any vegetable acids and it is the best in the world for preserving purposes. It is as pure and durable as solid silver, which it resembles very much in appearance. All our aluminum utensils are highly polished on the outside, giving them a beautiful and everlasting finish.

PIECED TINWARE.

Measurements in inches are correct—size given in quarts is manufacturers' measure. Vessels will not hold as many quarts as size given, except where we use the word **HOLDS**.

Notice.

Wash boilers are being constantly reduced in size. A No. 9 boiler is being sold that is not any larger than our No. 8. We shall maintain standard size. When comparing our prices with those of others, please compare sizes and weights also.

THE WONDERFUL THREE-MINUTE BREAD MAKER, \$1.38.

MIX AND KNEAD YOUR BREAD

in the most scientific and sanitary manner possible in three minutes' time and without putting your hands near the dough from start to finish. Our Wonderful Three-Minute Bread Mixer enables you to do what formerly required half an hour of the hardest kind of work in three minutes and with almost no effort at all. It mixes the batter and kneads the dough more thoroughly and more evenly and makes more wholesome bread than is possible by hand in the old way. It runs so easy that even a little child can operate it. Use your own recipe and the Three-Minute Bread Mixer and you will make the lightest, smoothest and best bread you ever ate and with only three minutes' easy turning of the crank instead of the half hour's hard labor you have been accustomed to. The batter is mixed and left to raise in the pail and kneaded before it is removed. The hands never touch it. It is as easily cleaned and requires no more care than an ordinary tin pail. The bucket and cover are made from the finest heavy tin plate, the clamp is attached to the table, the mixing rod and rod support are stamped from heavy steel and are retinned so that they will never rust. It can be all taken apart and put together in a jiffy and we fully guarantee it to make better bread and do it quicker than any other method known.

ORDER A THREE-MINUTE BREAD MAKER

with the understanding that if after having tried it you do not find it will do all we claim that it will and if it is not perfectly satisfactory to you in every way, you can return it to us at our expense and we will immediately refund your money.

Perfect Flour Bin and Sifter.

No. 2F6002 Japanese and nicely ornamented. The sifter is protected from pressure of the flour in the bin by our new shield, which enables the reels to work easily and smoothly, and obviates all grinding through of foreign substances. A tin skirt below the sifter prevents the flour from scattering all over the bottom of the bin, but instead directs it into the proper receptacle. The sifter is easily removed for cleaning.

Fireproof Cash Box.

No. 2F6094 Fireproof Cash Box. The fireproof walls of this box are sufficiently thick to make it absolutely fireproof in any residence. It is a perfectly safe receptacle for deeds, bonds, contracts, mortgages, notes, insurance policies, tax receipts, jewelry, etc. To test this box we had one subjected to an intense heat in a furnace. Not only was the iron heated red hot, but it reached a white heat, which is a point just before iron melts. The contents of box were not even marred. No fire could ever occur out in the open air to equal the intense heat to which this box was subjected. Furnished with a first class padlock with two keys. Dimensions: Outside, 13 inches long, 9 inches wide, 7 inches deep; inside, 10 inches long, 6 1/2 inches wide, 5 inches deep. Approximate weight, 50 pounds. Price..... \$4.60

**Challenge Odorless Com-
mode and Slop Bucket
Combined.**

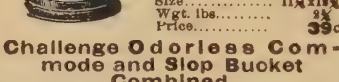

No. 2F6162 It is impossible for the foul air to escape, even when the lid is removed, as there is inside the lid a receptacle that holds a deodorizer, and which neutralizes all gases inside the commode. The deodorizer (a tablespoonful of chloride of lime), needs only to be renewed once in two weeks at a small cost. It is indispensable in the sick room, especially in cases of contagious diseases and fevers. Does not have to be emptied until filled, no matter how long it stands. Illustration shows construction. Made of heavy galvanized iron, nicely painted with enamel paint. Has removable inside bucket and also removable seat, etc. It needs only to be seen to convince you of its wonderful merit. Holds 9 quarts. Weight, 6 1/2 pounds. Price..... \$1.18

**Toilet Stand.**

No. 2F6260 Toilet Stand. Will hold any ordinary sized wash basin. Easily attached to wall, post or the side of a wooden pump, and can be folded up out of the way when not in use. Complete with soap holder, as shown in illustration, and towel hook. Made of steel, nicely japanned and is unbreakable. Weight, 9 pounds. Price..... 18c

**Pot Drainer.**

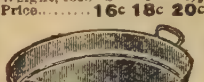

A practical drainer for cooking utensils. A safe, simple and easy way of draining utensils containing boiling water without any danger to the user. It grips the utensils securely, draining any size pan, iron pot, kettle, pail or sauce pan.
No. 2F6265 Pot Drainer, fits any utensil from 8 inches to 10 1/2 inches in diameter.
Price..... 22c
No. 2F6266 Pot Drainer, fits any utensil from 10 1/2 inches to 13 inches in diameter.
Price..... 24c

**Galvanized Chamber Pails.**

Combination Cigar Case.

No. 2F9871 One of the finest display cases on the market, to display a large line of goods in a pleasing manner. The front and sides are made of oak, handsomely finished in medium golden oak; doors and back are natural finished ash; fitted with double-strength glass throughout; top light glazed from top with moulding, and has sliding doors in upper and lower sections. The best American mirrors in upper sliding doors. Lower doors neatly paneled; equipped with rack shelf and moistening pan. The 3-foot and 4-foot cases have one light in front and top; 5, 6, 7 and 8-foot have two lights in front and top, and the 9 and 10-foot have three lights front and top. Unless otherwise ordered we will ship in style case knocked down, saving from one-half to two-thirds regular cost of freight. It can be easily set up in fifteen minutes. It can be furnished with a screwdriver; also furnished with casters if desired. Width, 28 inches; height, 24 inches.

A \$6.00 Automatic Ash Sifter and Ash Can for \$3.48

A Money and Coal Saver. No home can afford to be without one. It will save more than it pays for itself in the saving of fuel, the first reason, say nothing of the convenience, cleanliness and the labor saved by using a receptacle of this kind. Place it close to your kitchen door, or in the summer kitchen, simply throw your ashes in the top; the sifter loses the rest, separating the ashes from the coal or charcoal. The worthless ashes or clinkers pass to the ash pit compartment as shown in illustration.

CONSTRUCTION—Exceedingly strong and well built. Made of extra heavy 22-gauge galvanized sheet steel, strongly braced. Edges are protected and strengthened, reinforced and riveted together. The grates, or sieves are extra strong, being made of 1/4-inch steel rods, and arranged in such a manner that with the aid of gravity the coal and ashes are separated. The back is fitted with a strong floor for the removal or dumping of ashes. It measures 33 inches high, 26 inches long and 22 inches wide. Being made of galvanized sheet steel it is weather or rust-proof—always retaining a neat appearance, an ornament to any yard. Packed in crates, to insure safe delivery; shipping weight, 25 pounds. Shipped from Chicago, and also from the factory in Northern Wisconsin when bought separately.

No. 2F9999 Automatic Ash Sifter \$3.48

Dietz Victor Slide Lift Tubular Lantern.

For Kerosene. No. 2F7002 Can be filled, lighted, regulated and extinguished without removing the globe. A side crank raises globe for lighting, and also lowers globe to burner. Has No. 1 burner with 1/4 inch wick and No. 0 globe. Fount holds enough oil to burn 17 hours. Weight, 1 1/2 pounds. Price, each.....45c

Dietz Crystal Tubular Lantern.

No. 2F7005 This is a strongly guarded tubular lantern with a glass fount instead of tin. This enables the user to see how much oil is in the fount, and the fount will never leak. Fitted with our improved slide lift. While the fount on this lantern is strongly guarded and is not liable to breakage, still in case of accidentally breaking it can easily be removed and a new one put in. No. 1 burner; 1/4-inch wick; No. 0 globe. Weight, about 3 1/2 pounds. Price, each.....62c

Dietz Royal Tubular Lantern.

For Kerosene. No. 2F7010 This lantern has the No. 2 burner, 1-inch wick and No. 0 globe, and should fill a want where a large amount of light is needed in a hand lantern. The oil pot holds 1 1/2 pints of oil, and the lantern will burn nineteen hours without refilling. Weight, about 2 pounds. Price, each.....62c

Ham's Cold Blast Tubular.

No. 2F7015 Cold Blast No. 2 Round Tube, Bottom Lift, Tin Tubular Lantern. No. 1 burner, 1-inch wick, No. 0 globe. Globe removable without taking off the guard, and is easily raised to light. This lantern is made on the same principle as a street lamp, with wind break, making it a superior lantern in its burning qualities. Very desirable for use in places where there are strong drafts of wind. In mills and other places where there is considerable draft, the burner will not clog up. Weight, 2 1/2 pounds. Price, each.....80c

Dietz Junior Cold Blast.

No. 2F7016 Only 12 inches high and gives a light equal to many others double its size. It can be filled, lighted, regulated and extinguished without removing the globe. It burns on the cold blast principle, taking most of its air supply from above the globe and will not blow out in the strongest wind. Our Junior Cold Blast possesses all the advantages of our regular No. 2 cold blast lantern, but in more compact form, and is unequalled where a light, handy lantern is required. Weight, 2 1/2 pounds. Price, each.....60c

No. 2F7018 Dietz Junior Cold Blast Lantern, same as No. 2F7016 except it is made of brass, highly polished. Price, each.....90c

No. 2F7019 Dietz Junior Cold Blast Lantern, same as No. 2F7016, except it is made of brass and is highly polished and nickel plated. Price, each.....\$1.10

Dietz Safety Tubular Mill.

No. 2F7017 The burner is locked in place by two positive locks on globe frame, which work automatically. In addition to this a plug may be used to secure the globe frame and the guard frame permanently, if desired. The guard has our patent wind break, which prevents access to the flame over the top of the globe. The oil fount holds 1 1/2 pints of oil, will burn 19 hours without refilling, has a solid drawn, retined oil fount. This lantern has been endorsed by insurance men wherever shown as the safest kerosene burning lantern made. Improved burner, 1/4-inch wick. No. 0 globe. Weight, 3 1/2 pounds. Price, each.....90c

Dietz Buckeye Dash Lantern.

No. 2F7025 This is really a very handy combination; it serves as a hand lantern and a side or dash lamp. The lamp is fastened under the body of the vehicle by means of a holder. (See No. 2F7028.) We furnish this lamp with our new bull's eye lens—bull's eye attached to the perforate plate. It is superior in every way to the bull's eye globe. No. 1 burner, 1/4-inch wick. No. 0 globe. Wt., about 3 1/2 lbs. Price, 63c

No. 2F6990 No. 0 Tubular Lantern Globe. For use on nos. 2F7002, 2F7005, 2F7012, 2F7015, 2F7017, 2F7018, 2F7019, or any other lantern using a No. 0 globe. Price, each.....6c

No. 2F6991 R. R. Lantern Globe to be used on 2F7069 lanterns or any other lantern this size and style. Price, each.....10c

No. 2F6992 Dietz Junior Lantern Globe. For use on 2F7016, 2F7018, 2F7019 lanterns. Price, each.....12c

No. 2F6993 Headlight Chimneys. For use on No. 2F7150. Price, each.....15c

Dietz No. 0 Reflector Tubular Lantern.

For Kerosene. No. 2F7027 The globe can be raised for lighting. The hood is 6 inches deep fitted with a 5-inch silvered glass reflector and a spring fastening for dash. Can also be used as a hand lantern with wall lamp. It is a desirable lantern for night driving, and will throw a strong light over 100 feet. We have never heard of one of them blowing or jarring out. The lamp can be fastened under the body of the vehicle, by means of our Warner holders. (See No. 2F7028.) No. 1 long cone burner, 1/4-inch wick. No. 0 globe. Wt., about 2 1/2 lbs. Price, \$1.10

Cold Blast Dash Lamp.

No. 2F7030 Cold Blast Dash Lamp, No. 2 burner, 1-inch wick, No. 0 globe. This lamp is intended for use when a very powerful light is required. It will not blow out in the strongest wind, and does not flicker as much as a lantern without windbreak. We furnish this lantern japanned blue. Weight, 2 1/2 pounds. Price, each.....\$1.00

Dietz Tubular Driving Lamp.

No. 2F7040 It is a practicable and perfect driving lamp. It will not blow out; it gives a clear, white light; it looks like a locomotive headlight. It throws all the light straight ahead; it burns kerosene. Handsomely finished; japanned. By means of a spring on the back, the lamp can be instantly placed on the front of dash; by means of the holder it can be attached to either side of the carriage. Fount holds oil to burn 21 hours. 11 inches high; 6 inches in diameter. Weight, 3 1/2 pounds. Price, japanned.....\$2.10

Dietz Tubular Hunting Lamp.

No. 2F7045 Looks like a locomotive headlight. It will not blow out. The hood over the front works perfectly and without noise; when the hood is down no light escapes. It will throw a powerful light. It burns kerosene and will burn ten hours without refilling. It is compact and handsome. Has ball and can be used as a hand and wall lantern in camp. Gives a brilliant light, and is absolutely safe. 11 inches high; 6 inches in diameter. Weight, 2 1/2 lbs. Price, \$3.00

Lantern Holder.

No. 2F7052 Warner Tubular Lantern Holder. For holding a tubular lantern under the body of a wagon for night driving. Weight, 6 ounces. Price, each.....20c

Wire Bottom R. R. Lantern.

Burns Lard Oil. No. 2F7069 The strongest of the lanterns made. The ball is made so that when the lantern is put down the ball stands up. Hinge top, removable globe wire, bottom, casts no shadow, ball fastened to guard. Bayonet catch on oil pot. Weight, 3 1/2 pounds. Price, each.....58c

Little Pearl Lantern.

No. 2F7073 Little Pearl Lantern. Only 7 inches high and made of good cut quality tin. Gives a good light and is very handy and serviceable where only a small lantern is needed. Furnished also with colored glass globes, red, blue, etc. These are fine for decorating purposes, lawn parties, picnics, etc. Burns kerosene, and fount holds enough to burn 12 hours. Weight, 12 ounces. Price, with white globe, ea, \$0.10. Per dozen......99. With colored globe, each.....1.12. Per dozen.....1.18

Police or Dark Lanterns.

No. 2F7125 Police or Dark Lanterns. 3 1/2-inch bull's eye. Weight, 19 ounces. Burns lard and sperm oil. Price, each.....33c

No. 2F7126 Police Lanterns. 3-inch bull's eye. Weight, 16 ounces. Price, each.....36c

No. 2F7130 Special quality dark lanterns, made of heavy tin, nickel plated, finest finish and strongest in the market; furnished with the best quality finely polished lens. Weight, each is ounces, with 3/4-inch lens. Burns lard or sperm oil. Price, each.....98c

No. 2F7131 With 3-inch lens. Weight, 15 ounces. Price, each.....\$1.18

Dietz Search Light.

No. 2F7148 For outside or indoor use. Will not blow out. Gives a powerful and brilliant light. Simple and effective device for raising globe, for lighting and trimming. No. 2 burner, 1-inch wick, No. 0 globe. Weight, 3 1/2 pounds. Price.....\$1.50

Traction Engine Headlight.

No. 2F7150 This headlight is especially adapted for traction engines, as it gives a very strong light, and the draft is so arranged that the flame will not smoke or blow out in high winds, nor jar out in passing over rough roads. Size, 21 x 12 x 6 inches. Has silver plated copper reflector, 10 inches in diameter, and improved locomotive headlight burner. Packed complete with attachments to fit to engine. Weight, box, 30 pounds. Price.....\$5.98

Dietz Tubular Hanging Street Lamp.

No. 2F7181 Will not blow out in the strongest wind. No chimney, new globe lifter, improved burner, outside view regulator, automatic extinguisher, does not smoke. Light equal to gas, at a less cost. Is useful wherever a strong light is desired. Has No. 3 burner, 1 1/4-inch wick, No. 3 globe. Weight, packed for shipment, 31 pounds. Price.....\$3.48

Dietz Corporation Street Lamp.

No. 2F7191 This Lamp is fitted with a glass oil fount, kerosene burner and chimney, and has removable cast iron socket that will fit a post or bracket. The upper part of lamp is removable and the lamp can be closed for shipment. Packed one in each case. Average weight, with case, 40 pounds. Net, with socket, 15 pounds. Height, 33 1/2 inches. No. 3 burner. 1-inch wick. No. 3 Sun chimney. Price.....\$3.20

Dietz No. 3 Globe Tubular Street Lamp.

No. 2F7196 Warranted to give perfect satisfaction. More sold than all other makes combined. No chimney. Light equal to gas at a less cost. New globe lifter. Outside view regulator. Does not smoke. Casts no shadow. Will not blow out in the strongest wind. Can be regulated to burn a certain number of hours. This lamp never fails to give perfect satisfaction. It can be filled, lighted and regulated without removing the globe. The reflector is painted white and the lamp painted green. Packed one each in a case. Weight, boxed, 50 pounds; 37 inches high. No. 3 burner; 1 1/4-inch wick; No. 3 globe. Price.....\$3.48

Gasoline and Oil Torches.

No. 2F7300 The Acme Gasoline Torches, for indoor or outdoor lighting; are not affected by wind, rain, cold or heat. They produce a large, brilliant, white flame, equal in volume to ten gas jet flames. The reservoir holds nearly six quarts and, when filled, will burn full flame for nine hours. Weight, 3 1/2 pounds. Price.....84c

No. 2F7302 Acme Gasoline Torch, with two burners, controlled by separate valves, so only one may be used if desired. The burners are 4 inches apart. Weight, 5 1/2 pounds. Price.....\$1.48

Torch Burner.

No. 2F7305 Gasoline Torch Burner, same as used on our Acme Gasoline Torch. Weight, 1 1/2 pounds. Price, without pipe or tank.....45c

Kerosene Torches.

No. 2F7310 Acme Coal Oil or Kerosene Torch, with two pipes, same as above, except the burner. Weight, 5 1/2 pounds. Price.....\$1.68

Torch Burner.

No. 2F7312 Coal Oil Torch Burners, same as used on our Acme Coal Oil Torch. Weight, 1 1/2 pounds. Price, without pipe or tank.....53c

Our Acme Torches are the highest grade made. They are made to special specifications and are worth double the many cheaper makes.

CUTLERY DEPARTMENT.

THE CUTLERY DESCRIBED AND ILLUSTRATED on the following pages represent the highest quality of the respective kinds and patterns. We have endeavored to avoid the various freak ideas, of which there are so many in the cutlery line, and quote only such goods as have practical merit which we know will give the purchaser or user absolute satisfaction. The various patterns and styles of table cutlery, shears, scissors, pocket knives, razors, etc., are all first quality goods. We do not handle what is known as second quality goods. In selecting cutlery from this catalogue you have the satisfaction of knowing that the goods are the best that skilled labor and best quality of material can produce, and are further reassured by our guarantee that these goods prove satisfactory or your money refunded.

OUR BUSINESS IN CUTLERY exceeds that of any five catalogue houses in the United States combined. This enormous business has been built up on high quality and sound values. There are many grades in cutlery and it is an easy matter for a competitor to illustrate second or third quality shears, knives and razors in a manner similar to the first quality select goods that we handle, and offer this inferior cutlery at prices as low or even lower than those quoted by us. But it is impossible for any dealer to offer equally high grade goods as those handled by us at prices as low as those we quote.

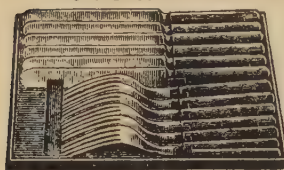

Table Knives and Forks, best grade steel. Fancy French pattern, double bolsters, with swaged scimitar blades. The best value in cutlery ever offered.

WILBERT BRAND SHEARS AND SCISSORS.

Wilbert Shears and Scissors are guaranteed to be the highest quality shears and scissors on the market. We guarantee each pair for uniformity of temper, cutting quality, finish, material and workmanship. Our shears are steel laid, which means that they have a plate of crucible tempered steel welded to a malleable frame, making these the toughest, strongest, best cutting shears on the market. The shears sold by us are what is known in the trade as best quality goods. They are carefully selected and any shears with the slightest imperfection are not branded "WILBERT." We do not sell the so-called second or medium quality shears or scissors. We have but one quality which is the very best that skilled labor and modern machinery and best material can produce. Remember that every shear and scissor bearing the trademark "WILBERT" which signifies highest quality, is absolutely guaranteed by our binding guarantee. If these goods are not found satisfactory, they can be returned at our expense and your money refunded. Our business in shears is larger than that of any other house selling direct to the consumer. Quality considered, it is impossible for any dealer to offer us any competition on this line. The WILBERT brand of shears and scissors are sold exclusively by us.

OUR GUARANTEE. If they are not in every way satisfactory they may be returned within thirty days, and money will be refunded or another pair sent to replace them. The shape of the blades makes them very stiff. They have steel laid blades and are finished in a superior manner. The fitting of the joints is as near perfect as the highest mechanical skill and careful inspection can make it. A drop of oil should be put on the joints of shears and scissors occasionally and the blades should be kept free from dust and grit, which quickly causes the blades to become dull. Don't use the shears to pull carpet tacks, draw corks, lift stove lids, etc., and then expect them to cut. While we claim our shears are the best on earth, they cannot be used for such purposes and give good satisfaction. Size of shears is the entire length.

Wilbert Shears, Straight Trimmers.

No. 28F6751 Wilbert Shears (Straight Trimmers). Japanned handles, nickel plated steel laid blades. Will cut clear to the points and are finished in a superior manner. Longer than any other we know of. Fully warranted, as explained in heading above.

Ladies' Scissors.

The following patterns represent the highest quality of solid steel ladies' imported scissors. There are numerous grades of scissors on the market, both of American and foreign make and it is an easy matter for any dealer to sell scissors at lower prices than those we quote but it is impossible for any dealer to sell the grade of scissors we are handling at the prices that will in any way compare with those we quote. The following scissors, all solid steel goods, are made by the best factory in Germany. These scissors are fitted and finished and ground in a manner superior to that found in any other line of either American or foreign manufacture.

We guarantee every scissors to be perfect in material, cutting qualities, workmanship and finish or money and transportation charges will be refunded.

If by mail, postage extra, 8 cents.

NEW POCKET KNIVES DIRECT FROM OUR OWN FACTORY.

WE CALL YOUR ATTENTION ESPECIALLY to this line of highest grade American made pocket and pen knives, our Wilbert brand.

THE BLADES ARE FORGED from S. C. Wardlow's best English special blade steel, the finest and the best that can be procured for knife blades. We also use Wardlow's steel for the springs, which costs nearly double the price at which ordinary spring steel can be bought, but which greatly improves the wearing qualities of the knife and adds greatly to its durability. Every blade, from the cheapest to the best, which bears our brand, is hammered out by hand. Instead of using iron for the lining of our cheaper knives, we pay more for steel because it makes a much stronger and better knife. All work is done by skilled mechanics, particular attention being paid to making a keen cutting knife that will carry a lasting edge.

OUR POCKET KNIVES are fully guaranteed in every way. This means we guarantee the blades to be free from flaws and guarantee them to be neither too hard nor too soft. This does not mean that we guarantee the knives not to break. If we were to do this, we would be obliged to temper them so soft they would be of no practical use for cutting. They are not intended to be used as mortising chisels, tack pullers, can openers, screwdrivers, crowbars, nor for any of the purposes by which pocket knives are frequently misused.

ALL POCKET KNIVES should occasionally be oiled at the joint so the blade will not wear into the spring. Vaseline makes a very good lubricant for this purpose.

Two-Blade Jack Knives with Cocoa-bolo and Ebony Handles.

No. 28F6881 Wilbert Pocket Knife. Has rosewood handle, steel lining, iron bolsters. Length of handle, 3 1/2 inches. Length, with large blade open, 6 inches. Price... 23c

(If by mail, postage extra, 4 cents)....50c

IF A RAZOR EDGE is put on any of the Wilbert blades shave, but a razor edge should never be put on a pocket knife. To get a proper edge on a pocket knife blade, the blade should be held at an angle of about 20 or 25 degrees, and drawn from shoulder to point on each side until a true edge is obtained. This makes a stiff, keen cutting edge, and enables us to furnish a much higher tempered knife blade than we would were the blade to be laid flat and brought down to a razor edge.

No. 28F6993 Wilbert Double End, Two-Blade, Stag Handle, Brass Lined Knife, one large clip blade, one pen blade, polished brass bolsters and shield. Length, 3½ inches; length, with large blade open, 6 inches. This is a well finished and fitted knife, guaranteed to give satisfaction. Price...42c
If by mail, postage extra, 5 cents.

The blades are extra heavy, and are stronger than ordinarily found in a knife of this size. Length of handle, 3½ inches; length with large blade open, 5½ inches. Price..... (Postage extra, 4 cents)....45c

SOME FACTS ABOUT A RAZOR.

A GREAT MANY PEOPLE spoil a good razor by the use of a poor strop. The majority of people strop a razor too much and bear too hard on the strop.

WHEN YOU FIRST GET A RAZOR FROM US, it is in perfect condition and ready to use at once. If it shaves you well the first time you use it, if you keep it in the same condition it will always shave you satisfactorily. If at first you are unable to do this, you should at once learn how to keep your razor in good condition. The first thing is to get a good strop. Hold the blade lightly and evenly on the strop, being careful not to drop the hand toward the end of the stroke. Dropping the hand pulls the edge of the razor across the rough edge of the strop, which usually holds more or less dust or grit, and will quickly ruin the edge of any razor.

DO NOT STROP THE RAZOR TOO MUCH.

IF ANY OF OUR RAZORS are properly cared for, they should never require honing for private use. When one of our razors shows the need of honing, it also shows that the razor has been stropped too much, or stropped on a poor strop. Dust on a good strop will spoil a razor. It is quite a common practice to use a swing strop, having it hung up in some convenient place where dust will settle on it. Then if you take a cloth and wipe off this dust, still there is enough grit that cannot be removed to affect the edge of the razor. The strop should be kept as free as possible from dust.

HOW TO USE A RAZOR.

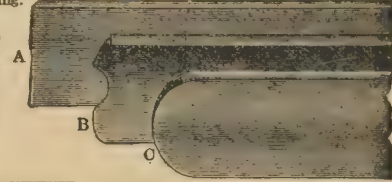

Draw the razor with an easy diagonal motion against the beard. Do not scrape with the razor, or hold it almost at right angles to the face as you will spoil the edge, irritate the skin and cause the best razor to fail. To strop a razor, always lay the blade flat, so that the back and edge rest on the strop, drawing from heel to point with a firm, steady stroke, turning on the back.

People who are not adepts in the handling of razors are apt to complain that their razors do not shave well, and are liable to condemn a good razor, when the fault lies not in the razor, but in the unskillful use of it. Time spent in softening the beard with hot water and soap adds materially to the comforts of shaving.

A Word of Explanation.

Reading the various descriptions of razors shown on the following pages, you will note razors described as square point, hollow point and round point. As many of our customers might not know what these various terms mean, we herewith show illustrations which are self explanatory.

A is square point.
B is hollow point.
C is round point.

WILBERT BRAND RAZORS.

OUR WILBERT BRAND RAZORS are the best possible to produce. They are ground by skilled German workmen under the personal supervision of an expert of many years' experience in the manufacture of razors. Every razor is carefully tested, stropped and hand honed ready to shave before leaving the factory and guaranteed to be equal to or better than any razor made, regardless of price. You take no chances in buying this brand of razor, as both the manufacturers and ourselves guarantee if it is not perfectly satisfactory to return purchase price with postage or send new razor in exchange, postpaid, as desired.

WILBERT MASTER RAZOR.

This Razor is hammered from the best Wardlow steel. It is ground by German grinders and tempered by English experts. This razor should never require honing in private use. It is guaranteed to shave any beard with satisfaction to the user. It is set and stropped ready for the face when it leaves our store, and our customers are requested to test the razor before putting it on a strop. If it is properly cared for, it will always shave as smoothly and easily as the first time it is used.

\$1.90

This razor has shell handle and shell tang. The tang is gimped to prevent thumb from slipping. It is a very handsome razor and just as good as it looks.

Wilbert High Art Razor.

Ground on a $\frac{1}{4}$ -inch stone by an expert German grinder. Has black rubber tang with fancy imitation onyx handle. Made from the highest grade steel and in the best possible manner, regardless of cost. Guaranteed to shave any beard or it may be returned and money will be refunded or a new razor given instead.

No. 28F7912 The Wilbert Acme Razor. Full hollow ground, $\frac{1}{4}$ -inch blade. This razor will probably "fit" more beards than any razor we sell. It is ground by experts and is suitable for barbers' or private use. Razors that are not its equal are usually sold at \$1.50. Our price..... 95c

No. 28F7914 The Wilbert Damascus Steel Razor. Extra hollow ground, $\frac{1}{4}$ -inch blade, black rubber handle. This razor has a heavy back and a very stiff edge, and is expressly recommended to those having a hard beard or who shave but once a week. It is a razor that gives satisfaction to everyone, but for the coarse, heavy beard, it will give better satisfaction than a lighter razor. It is finely finished and fully guaranteed. Price..... \$1.20

MADE TO ORDER RAZORS, \$1.80

WITH YOUR NAME ETCHED IN GOLD

WE HAVE MADE A NEW DEPARTURE

in offering a razor made to order to fit your face. It is a well known fact that a razor which shaves one man with the highest satisfaction may give very poor satisfaction to some other man. The reason for this is that a blade cannot be ground to fit every beard and give the very highest satisfaction. It is possible to make one that gives fair satisfaction. It is possible to make a razor that will shave any beard smoothly, but to get the very best results, a razor should be ground for the particular beard for which it is to be used. The man who has a coarse sandy beard requires a very different razor from the man who has a fine soft beard. The man who shaves but once a week requires a different razor from the man who shaves every day. In order to make a razor that will give the very best service we require the following information:

How often do you shave? What's the color of your beard? Is your beard fine or coarse? Is your beard stiff or soft? Is your skin tender? Do you have a good strop?

IN WRITING YOUR ORDER

for one of our Made to Order Razors, give the catalogue number, referring to the style of point and kind of handle you select. Copy the questions we have asked above and write your answers. We will make a razor that is best adapted to these specifications. We will etch your name in gold on the blade made especially for you, putting your name in place of the name Geo. W. Brown or John G. Smith, as shown in illustration. Be sure to print your name plainly.

DON'T FAIL TO STATE NAME YOU WISH ETCHED ON BLADE.

OUR 30 DAYS' TRIAL OFFER

YOU ARE AT LIBERTY TO TEST OUR RAZOR FOR 30 DAYS

and if at the end of 30 days you do not think we have sent you the best razor you have ever had, a razor that is entirely satisfactory to you, you may return it to us and we will either give you another razor instead or refund the price which you paid us. Being made to order, it requires from a week to ten days after the order reaches us before we can make shipment. We ship the razor by registered mail, postage paid, at the prices printed. The razors are shipped direct from our factory.

THE UPPER ILLUSTRATION

The case contains one high grade, full hollow ground razor, one genuine Badger hair folding shaving brush with brass ferrule and handle finely nickel plated, one highest quality single swing shell horseshoe stop, one stick of best shaving soap in nickel plate screw top box, and one 5 1/2-inch shaving mirror with imitation tortoise shell back, which can be either hung or stood up. This is a high grade shaving set, every article in this set is of highest quality. We guarantee this set to give satisfaction or money refunded. Price, per set.....**\$3.22**

The Wilbert Safety Razor.

No. 28F8437 The Wilbert Safety Razor is not a toy or a novelty in razors. It is not a freak idea with the sole purpose of furnishing something different than has been made heretofore, but it is a substantial well made razor with a blade that is absolutely guaranteed to shave any beard and which with ordinary care will last a lifetime. We do not guarantee this blade to give 5, 6 or a dozen velvet shaves, but we do guarantee it, if properly cared for, to last a lifetime. The blade of this razor is the same thickness as a blade of a regular razor, it is hand forged, ground on a small stone, tempered and finished in the same manner as the highest priced razor on the market. This blade can be stropped and honed the same as the regular blade. The frame of the Wilbert Razor is strong, rigid and it is hinged so that it can be easily opened for cleaning, has a two jointed nickel plated handle with additional joint to hold blade for stropping. Each razor is put up in a neat metal case with complete instructions. We guarantee every Wilbert Razor to be perfect, in material, finish and workmanship, and to give the user a clean comfortable shave, or the razor can be returned to us and your money and transportation charges will be cheerfully refunded. It is impossible to cut yourself with the Wilbert Razor. Price.....**85c**

If by mail, postage extra, 6 cents.

No. 28F8438 Extra blades for the Wilbert Razor. Price, each.....**63c**

Swedish Razors.

No. 28F8334 Genuine Swedish Razor. A popular pattern, finely ground, warranted best 1/2-inch steel blade. Price.....**98c**

The Wilbert Stropping Machine.

No. 28F8439 No better stropping machine made. Will stropp blades for the Wilbert, Winner, Yankee and Star, in from 1-16 to 3-16 inch thick. The handle can be unscrewed, making this machine very compact. Length, 7 inches. Length, when folded, 4 inches. Fine nickel plated with solid ebony handle. Guaranteed to give satisfaction. Price.....**80c**

If by mail, postage extra, 7 cents.

The Automatic Stropping Machine.

No. 28F8441 The Automatic Stropping Machine will stop any razor, safety or regular. Simply place the razor or blade in the holder and the machine automatically reverses by being worked up and down over the stop and will put a keen edge on any razor. Remember, you can stop the old fashioned regular razor in this machine just as well as the blades of a safety razor. More razors are spoiled by poor stropping due to inexperience than from any other cause. With this stropping machine anyone can stop a razor. It is impossible to damage the razor in any manner. The holder is made of metal, nickel plated and polished. Handle is made of wood, nicely stained and finished. Length over all, 10 1/2 inches. Price.....**\$1.00**

(Postage extra, 10c).

The Real Safety Razor.

A safety razor that is really a razor and not a scraper. With this razor you hold the blade at the proper angle, thereby actually cutting the hair instead of scraping or breaking it off as is the case with most safety razors. No changing of blades. One razor will last a lifetime. The blade of this razor is made of the best razor steel by one of the oldest razor manufacturers in the United States. The forging, grinding and tempering of this blade is the same as that in any high grade regular razor. The blade is 2 1/4 inches long, 1/2 inch wide, full hollow ground and is fitted with a finger fitting handle which enables the user to shave more rapidly than with any other razor. Full length of razor, 6 1/2 inches. This razor can be honed and stropped the same as any regular razor and does not require a special honing and stropping machine. The guard which is made of brass, highly nickel plated, is instantly removed and can be reversed from right to left by a simple movement of the fingers. Each razor is perfectly honed and stropped ready for use. Sent out on 30 days' trial. Use the razor 30 days, if you don't find it satisfactory in every respect, return it to us and your money and transportation charges will be refunded.

No. 28F8443 Polished black handle. Price.....**\$1.70**

No. 28F8444 With white ivory handle. Price.....**\$1.95**

No. 28F8445 With imitation tortoise shell handle. Price.....**\$2.15**

If by mail, postage extra, 5 cents.

The Genuine Star Safety Razor.

No. 28F8397 Our Ebonoid Combination Shaving Stand and Outfit. This outfit consists of a French beveled adjustable, silver mounted mirror, ebony frame, and a stand attached to an ebony finish metal tray. This tray contains one fine hard rubber barber comb, one fancy china finish shaving mug, one first quality shaving brush and one full hollow ground, high grade razor. This is a handsome, well finished set, one that we know will give the purchaser or user satisfaction. Put up in a neat pasteboard box. Price, per set.....**\$3.05**

Star Safety Razor Sets.

No. 28F8449 Star Safety Razor, with the latest improved frame. High grade steel and full concave which can be easily removed and placed in handle for stropping. Full nickel plated, packed in latest improved box. Price.....**\$1.50**

If by mail, postage extra, 6 cents.

No. 28F8451 Extra Blades for Star Safety Razor. Price.....**85c**

Star Safety Razor Sets.

No. 28F8460 Star Safety Razor Combination Set consists of a Star Safety Razor, stropping machine and diagonal finish leather stop, all packed complete in imitation leather case. Just the thing for tourists' use. Price, for complete set.....**\$4.50**

If by mail, postage extra, 18 cents.

No. 28F8465 Star Safety Razor Set. Put up in elegant satin lined morocco case, and contains one safety frame and one blade. Price.....**\$2.00**

If by mail, postage extra, 6 cents.

No. 28F8467 Star Safety Razor Set. Elegantly finished in morocco. Contains one safety frame with two blades, and is a gem in the full sense of the word. Price, per set.....**\$3.10**

If by mail, postage extra, 8 cents.

Star Safety Razor Set.

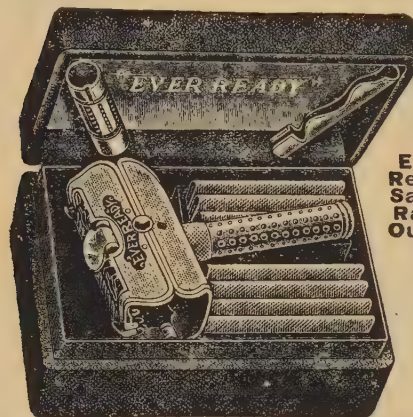

No. 28F8469 Star Safety Razor Set. Put up in an elegant satin lined morocco case, and contains one safety razor with two perfectly adjusted blades of finest steel; box of finely perfumed shaving soap; holder for stropping and honing blades; shaving brush, comb and cosmetic; in fact, everything requisite for an easy, quick and luxurious shave. Price, per set, \$5.00. If by mail, postage extra, 14 cents.

Star Safety Razor Pocket Set.

\$2.00

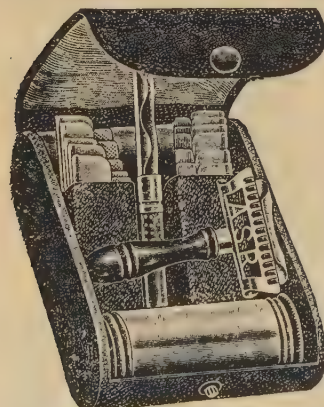

No. 28F8472 Star Safety Razor Pocket Set. A neat and compact flexible leather case, lined with black velvet, containing Star Safety Razor complete, frame and handle; handle can be used with the frame or for stropping the blade. Price, per set, \$2.00.

Ever Ready Safety Razor Outfit.

No. 28F8421 Our Ever Ready Safety Razor Outfit with seven blades at 94 cents. We furnish the safety razor frame with handle and holder for stropping the blades and seven blades complete in a neat imitation leather case, as illustrated. The blades may be stropped and honed same as any blade, if desired, for 30 days and, if you are not perfectly satisfied with it and we sell this outfit on a 30-day trial offer. Shave with the razor if you do not think it is the best thin blade safety razor you ever saw, return it to us and we will refund the price you paid us and stand the cost of transportation charges both ways. The blades are made from the very best crucible steel, tempered the same as an ordinary razor, not too hard nor too soft, but just right to shave smoothly and hold an edge. Price, complete outfit as described, (If by mail, postage extra, 6c.)...94c.

No. 28F8422 Extra blades for the above Ever Ready Safety Razor at one-half the price it costs to have blades honed. Those who cannot hone blades themselves will find it cheaper and better to buy new blades when the blades which they buy with the razor become dull. We furnish blades for the Ever Ready Safety Razor put up in a neat case containing one dozen. Price, per dozen, (By mail, postage extra, 6c.)...75c.

Traveler's Outfit.

No. 28F8424 The Ever Ready Traveler's Outfit. One ebony handle safety razor with fourteen blades, one nickel plated soap holder, containing a stick of the best shaving soap, one nickel plated best quality folding traveler's shaving brush, put up in a silk lined best quality black grain leather case, 5 inches long by 3 inches wide. This is strictly a high grade set, guaranteed to give satisfaction. Price, per set, \$3.45. If by mail, postage extra, 15 cents.

No. 28F8479 The Improved Diagonal Finish Leather Strap for the Star Safety Razor, also suitable for any other razor. Price, (If by mail, postage extra, 10 cents.)...75c.

For Decorated Shaving Mugs, Bottles, Vases, etc., consult our Special Barber Supply Catalogue, free for the asking.

Shaving Brushes.

Aluminum Ferrule Shaving Brushes, Nos. 28F8544 to 28F8549, are put together with waterproof cement under heavy pressure and will wear to the ferrule without shedding bristles. They have no twine to foul, no metal that will corrode, no horn to crack. Made from sterilized, odorless, fine French bristles, with noncorrosive aluminum ferrule, ebony handle. They are the best line of shaving brushes we have seen.

No. 28F8544 Aluminum Ferrule Shaving Brush for private use. Length of bristles, 1 1/2 inches. Inside diameter of ferrule, 13-16 inch. Has flat end handle permitting brush to be stood on end. Price.....(If by mail, postage extra, 4c)....15c.

No. 28F8547 Aluminum Ferrule Shaving Brush for private use. Length of bristles, 1 1/2 inches. Inside diameter of ferrule, 13-16 inch. Has flat end handle permitting brush to be stood on end. Price.....(If by mail, postage extra, 4c)....20c.

No. 28F8548 Aluminum Ferrule Shaving Brush, for barbers or private use. Length of bristles, 2 1/2 inches. Inside diameter of ferrule, 15-16 inch. Price.....(By mail, extra, 5c.)...25c.

No. 28F8549 Aluminum Ferrule Shaving Brush, for barbers use. Length of bristles, 2 1/2 inches. Inside diameter of ferrule, 15-16 inch. Price.....(If by mail, postage extra, 5c.)...30c.

No. 28F8551 Our Kantum Out Brush. Solid brass ferrule, heavily nickel plated. Flat end ebony handle. A feature much desired by private users. Genuine French bristles, non-shed, are 2 inches long. Diameter at ferrule, 15-16 inch. Entire length, 3 1/4 inches. For utility and finish this brush cannot be excelled. Price, per dozen, \$2.50; each.....22c.

No. 28F8552 Shaving Brush. Genuine horn ferrule boxwood handle. Genuine French bristles, guaranteed not to split or lose bristles. Length of bristles, 2 1/4 inches. Diameter at ferrule, 1/4 inch. Price, each, \$0.20. For dozen.....25c.

No. 28F8554 Our Wire Ferrule Shaving Brush, with brown enameled handle, selected white French bristles. The ferrule is enameled wire, making this brush far superior to the wood ferrule brushes, which swell and crack. A good, serviceable brush. Length of bristles, 1 1/2 inches. Diameter of brush at ferrule, 1/4 inch. Price.....(If by mail, postage extra, 5c.)...10c.

No. 28F8559 Non-shed Barbers' Brush, two-toned, walnut handle. Fine boiled French bristles, reinforced with patent metal plate under twine which prevents corrosion or fouling. Will wear to ferrule and not lose a bristle. A favorite with barbers. Length of bristles, 2 1/4 inches. Diameter at ferrule, 1 inch. Price, per half dozen, \$1.85; each.....32c.

No. 28F8572 Our Fancy Handle Lily White French Bristles Shaving Brush, with fine white bone handle, ferrule of pure, natural black horn. This is a very neat, handsome brush, guaranteed not to spread, swell or crack, and will give satisfaction. Length of bristles, 2 1/4 inches. Length of entire brush, 5 inches. Diameter of ferrule, 1/4 inch. Price.....(If by mail, postage extra, 3 cents)....25c.

No. 28F8578 Pure Badger Hair Brush. Our latest design. Double oiled on white bone handle, with black horn ferrule. This is a handsome brush with black horn ferrule, making a handsome contrast to the white octagon handle. The bristles in this brush are guaranteed genuine badger hair and are 2 inches long. Diameter of ferrule, 1/4 inch. This brush is guaranteed to give satisfaction. Price.....(If by mail, postage extra, 5 cents)....75c.

No. 28F8582 Genuine Badger Hair Folding Handle Travelers' or Tourists' Shaving Brush. As shown in the illustration, this brush can be folded and the bristles placed in the hollow nickel plated handle. There are cheaper shaving brushes of this kind on the market, but we know the traveler has great need for a perfect brush, and we offer this brush as being the best folding brush on the market, or your money refunded. The bristles of this brush are guaranteed genuine badger hair, the handle and ferrule made of brass, heavily nickel plated. Length of brush complete, 4 1/2 inches; length when folded, 2 1/2 inches. Price.....(If by mail, postage extra, 5 cents)....35c.

When you are through using your shaving brush always stand same with the handle down and bristles up. Do not leave your brush standing resting on the bristles, as this spoils the shape of the brush and also ruins the bristles.

No. 28F8657 Double Swing Razor Strop. Porpoise hide, oil finished leather on one side and pure Irish linen hose, prepared and polished on the other. Has swivel and black enameled wood handle. Width, 2 inches; entire length, 23 inches. Price.....(If by mail, postage extra, 6 cents)....25c.

No. 28F8665 Double Swing Razor Strop. Porpoise hide, oil finished leather on one side and prepared tubular cotton hose on the other; has a swivel and fashioned handle. Width, 2 inches; entire length, 23 inches. Price.....(Postage extra, 5c.)....35c.

No. 28F8667 Our 50-Cent Leader. This strop is better value than we have ever before been able to offer at this price. This is a double swing strop. Special porpoise hide, oil finished leather on one side and extra prepared webbing on the other. Has swivel and padded leather handle. Width, 2 1/4 inches; entire length, 24 inches. Price.....(By mail, postage extra, 8c.)....50c.

No. 28F8672 Double Swing Strop. Porpoise hide, oil finished leather on one side and pure Irish linen hose, prepared and polished on the other. Removable nickel plated swivel, fashioned handle. A fine strop for professional barbers. Width, 2 1/4 inches; entire length, 25 inches. Price.....(If by mail, postage extra, 8 cents)....75c.

No. 28F8676 Double Swing Strop, very extra quality, satin finished genuine horseshide leather on one side and pure Irish linen hose, prepared and polished on the other. Removable nickel plated swivel, fashioned handle. A superior strop, good and durable, for any use. Width, 2 1/4 inches; entire length, 25 inches. Price.....(If by mail, postage extra, 8 cents)....\$1.00.

No. 28F8680 Single Swing Barbers' Strop, porpoise hide, oil finished prepared leather. The strop that barbers buy, fashioned handle and eyelet. Width, 2 1/4 inches; entire length, 24 inches. Price.....(If by mail, postage extra, 4 cents)....25c.

No. 28F8684 Single Swing Barbers' Strop. Pure Irish linen, prepared and polished especially for professional barbers use. Fashioned leather handle and eyelet. Width, 2 1/4 inches; entire length, 24 inches. Price.....(Postage extra, 4 cents)....35c.

No. 28F8687 Extra Fine Selected Shell Horseshide Razor Strop. Single swing. Width, 2 1/4 inches; entire length, 24 inches. Used by first class barbers. Price.....(Postage extra, 4c.)....75c.

No. 28F8690 Double Leather Swing Razor Strop. Width 2 inches. Length of stropping surface, 12 1/2 inches; length over all, 19 1/4 inches. Both strops are leather—one for sharpening, the other for finishing. Nickel plated swivel; sewed on handle. Price.....(If by mail, postage extra, 8 cents)....45c.

RAZOR STROPS.

The best razor is no good without a first class strop.

No. 28F8650 Combination Four-Side Extension Razor Strop. A fair strop for little money. Price.....20c. If by mail, postage extra, 10 cents.

No. 28F8653 Belt Two-Side Extension Razor Strop. A fair grade strop. Price.....(If by mail, postage extra, 10c.)...25c.

V-Shape Blade Dehorning Clippers.

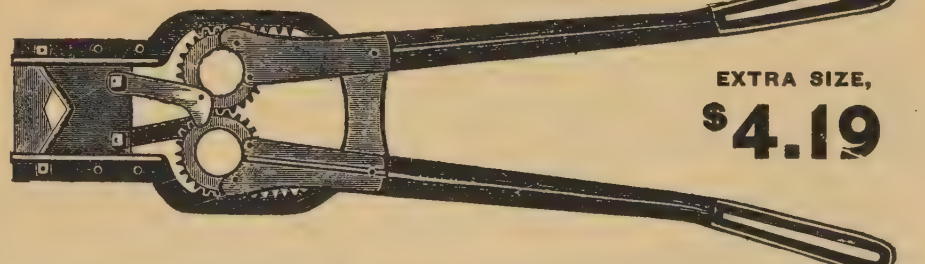

LARGE SIZE, \$4.75
SPECIAL SIZE, \$3.75

Our V-shape Blade Dehorner Clipper, cuts all around horn as handles are closed. Knives cannot interlock, or cut into each other. This style dehorner in the large size will clip any size horn from cattle of any age, smooth and clean. The malleable, while the knives are of the best crescent steel, can be easily cleaned and do not tarnish, thus preventing all possibility of blood poisoning, often occurring from the use of inferior machines. Every clipper is thoroughly tested before being sent out. Twisting or prying will cause the blades to break. We will not replace blades broken from this cause. Shipping weight, 14 pounds.

No. 9F9201 V Blade Dehorner. Special size. Knives open 3 inches. Large enough for any ordinary stock. Price, each..... \$3.75
No. 9F9203 Extra Sliding Knife for V Blade Dehorner. Price..... 39
No. 9F9205 Extra Stationary Knife, for V Blade Dehorner. Price..... 38

THE PERFECT DEHORNER.

EXTRA SIZE, \$4.19

The Perfect Multiple Power Dehorner is offered to supply the demand for a simple, well made, strong dehorning tool at a fair price. Will clip smooth and clean, any size horn that clipper will take in. Knives cannot cut into each other. It works easily. Opens 3 1/2 inches, which is large enough to admit any horn. We challenge the world to produce a better clipper than the Perfect Multiple Power Dehorner. The handles and frame are made of malleable iron. The blades are made of the best tool steel. It is practically unbreakable. The blades can be readily sharpened or replaced. The power obtained from the leverage is greater than in any other dehorner; it will cut instantly a horn of any size without crushing or twisting it. There are so few parts that we can sell these dehorners at a lower price than any dehorner made.

No. 9F9221 Price..... \$4.19
NOTICE. Cattle to be dehorned must be secured so they cannot move their heads. Care must be used not to pry or twist with the clippers. This will break the blades. We guarantee all clippers sold by us to be perfect in material and workmanship, but will not replace blades broken by improper use.

No. 9F9223 Extra Sliding Knives. Price, each..... 57c
No. 9F9225 Extra Stationary Knives. Price, each..... 56c

No. 9F9321 Hill's Malleable Iron Hog Holder, for holding hogs when placing rings in nose. Price, each.....18c
3 for.....52c

No. 9F9323 One Man Hog Holder. One man can hold and snout the largest hog, or hold the same while castrating. Pregnant sows can also be snouted without injury to the animal. Either end a holder, one end for holding, the other for castrating. No touching hogs with the hands. No throwing down. We guarantee it to give entire satisfaction if directions are followed. Price.....40c

No. 9F9325 One-Hand Hog Holder is made of malleable iron, japanned and coppered steel spring. Catches under the jaw (in fork of jaw) and over top of nose. The trigger section slips up and down on the handle bar and is closed on the nose by the spring. When trigger catches the jaw it trips. The handle is directly over the nose, which makes it very convenient for clipping the nose or castrating. Pregnant sows can be handled without danger of injury. A large hog can be easily held with one hand while operating on the nose with the other. By holding the mouth shut, it of course, stops that deafening squealing that is heard by holding a hog any other way. Price.....30c

No-Root Hog Clipper and Ear Marker.

PAT. APPLIED FOR.

No. 9F9361 Latest Improved No-Root Hog Nose Clipper and Ear Marker. It cuts the muscle in the tip of the nose—the only perfect way to entirely prevent rooting, and was never known to injure a single hog. It is only necessary to cut the nose about one-half as much as other clippers do. This nose blade has two sizes of cutting edges and blade can be instantly adjusted or reversed for various sized hogs. The square hole on the three cornered illustration, on edge of ear, can be made any size by gauging the depth cut on the ear up to three-fourths inch each way—the hole in the center being made by folding the ear and cutting on the folded part. By using our copyrighted rules, sent with each tool, you can number animals up to 100,000 or more, and not cut probably more than three or four small clips in an ear. We fully guarantee material, workmanship and working qualities of every instrument. Length, 9½ inches. Weight, 16 ounces. Price.....52c

Stock Marking Punch.
No. 9F9371 Strong malleable iron handle, best steel cutting dies. Practical, strong and durable.

The dies are from ½ to 1 inch long; entire length of tool, 11½ inches. The dies are hollow and cut, which is more humane than the use of solid dies, which simply punch a hole through the ear. When ordering, state the number of the die you prefer. Weight, packed for sale or express, 1½ pounds. Your choice of any one of the above dies. Price.....\$1.58

Hardwood Work Benches and Tool Cabinets.

To meet the demand for a good, strong, substantial work bench, suitable for manual training schools or private use for work about the house and odd jobs, we have designed a handsome line of benches and cabinets which will be found very useful and convenient in many ways. They take up considerable less floor space than the regular cabinet makers' bench, and are amply large for all practical purposes. They are finished beautifully in weathered oak which makes them very ornamental. They are all made with seasoned hardwood frame of 2x3-inch stock securely bolted together. Top is made of maple strips $\frac{1}{2} \times \frac{1}{4}$ inches, glued together. Width of bench over all is 20 $\frac{1}{2}$ inches. Width of top and sides is 16 inches. Depth is 18 inches. The front top is made of pieces $\frac{1}{2}$ inches wide and 2 $\frac{1}{2}$ inches thick, glued together to prevent warping. The front top is 16 inches wide and has a top (which is recessed) is 8 inches wide. Screws are 24 inches long and $\frac{3}{4}$ inches in diameter over the thread. It is put together with bolts, making the best and strongest cabinet makers' bench on the market. Length, 6 $\frac{1}{2}$ feet; width, 3 feet; height, 34 inches. Shipping weight, 190 pounds. Price, each.....\$12.00

No. 35F5092 Hardwood Work Bench and Cabinet, with three drawers, each 32 $\frac{1}{2}$ inches, with lock in upper drawer and automatic device to lock all drawers simultaneously. The ends and doors have hardwood panels. Cabinet is made of 1-inch seasoned hardwood; has back made of three-ply hardwood veneer to prevent tools falling off. This is the best, neatest and most convenient bench and cabinet ever offered. Shipping weight, 213 pounds. Price, each.....\$12.00

Cabinet Makers' Bench.

No. 35F5094 Cabinet Makers' Bench. Every piece of wood used in this bench is maple, except handle of screw, which is hickory. The front top is made of pieces $\frac{1}{2}$ inches wide and 2 $\frac{1}{2}$ inches thick, glued together to prevent warping. The front top is 16 inches wide and has a top (which is recessed) is 8 inches wide. Screws are 24 inches long and $\frac{3}{4}$ inches in diameter over the thread. It is put together with bolts, making the best and strongest cabinet makers' bench on the market. Length, 6 $\frac{1}{2}$ feet; width, 3 feet; height, 34 inches. Shipping weight, 190 pounds. Price, each.....\$12.00

Handy Work Bench.

No. 35F5096 The Handy Work Bench is intended for light work, amateur, manual training schools, etc. It is made the same as the regular standard cabinet makers' bench except it is lighter. Top is made of hard maple strips $\frac{1}{4}$ inches thick, glued together to prevent warping. Furnished with two 2-inch maple bench screws. The stand is made of 2-inch maple, dressed to about 1 $\frac{1}{2}$ inches. The top is 20 inches wide (the back being recessed) and 42 inches long. Mortises for spring bench hooks are provided. Height, 31 inches. Shipping weight, about 100 pounds. Price, each.....\$6.40

Steel Spring Bench Hook.

and glue. Crucible steel cutters, rosewood handle and knob, and without doubt the finest plane of its kind made. Length, 9 inches, with 3-inch cutter. Price.....\$1.25

Chaplin's Improved Patent Iron Planes.

WITH CORRUGATED BOTTOMS AND CHECKERED RUBBER HANDLES

Chaplin Planes have fewest working parts of any planes made, therefore less liable to get out of order. The adjustment will carry cutting bit to any variation of depth desired and is absolutely accurate. The lateral adjustment brings edge of bit to an exact bearing. Has checkered rubber handle which insures great strength and firm grip. Are well made, strong and durable.

No. 35F5352 Smooth Plane, 8 inches long, 1 $\frac{1}{4}$ -inch cutter. Price.....\$1.30

FULTON TOOL CO. PLANES.

GOOD CARPENTERS DEMAND THE BEST OF TOOLS. In our planes we have the best material properly assembled, well proportioned and warranted to be the best plane possible to produce. The patent adjustment is perfect, the finish is unsurpassed and the tool steel cutters are tempered by an improved patent process, assuring the best results. Every Fulton plane sent out is thoroughly tested and if not found equal to or better than any plane you ever saw, regardless of maker's name or price, same can be returned to us at our expense and purchase price will be refunded.

Fulton Wood Base Planes.

Our Fulton Wood Bottom Planes are positively the best and most reliable wood

planes made. The bottoms are made of carefully selected and seasoned beech and castings are strong and

changeable. The cutters are made from the best double refined English cast steel, tempered by the most improved process, highly polished and sharpened ready for use. Every cutter is fully warranted. All Fulton planes have our patent lateral or side adjustment for exact adjusting of cutter with the face of the plane.

For Plane Handles, see page 428.

Stanley's Planes.

The Planes below are made by the Stanley Rule and Level Co., New Britain, Conn. We do not believe they are as good as our Fulton planes, with which they compare exactly in style and size, but as Stanley goods are largely sold by hardware stores throughout the country we carry a full line of them. We ask you to compare our prices on Stanley planes with the prices asked by your local dealer for the same goods. Although we put Stanley's second to our own superior line of Fulton planes, which we control and on which we make you factory cost prices, adding only our one small percentage of profit, even at that we are the largest buyers of Stanley's goods in the world. This enables us to name prices on these goods which no local dealer can match, and in many instances lower than the retail dealer pays to the jobber from whom he buys the goods. When you buy tools from us you are certain to save money on every purchase.

No. 35F5532 Stanley's Rabbet and Block Plane, No. 140, detachable side, 7 inches long, 1 1/2-inch cutter. A detachable side will easily change the tool from a block plane to a rabbet plane, or vice versa. The cutter is set on askew. Price.....76c

Circular Planes.

No. 35F5534 This Circular Plane has a flexible steel face, which can be easily shaped to any required arc, either concave or convex, by turning the knob on the front of the plane. Length of face, 10 1/2 inches; width of cutter, 1 1/2 inches. Weight, 3 1/2 pounds. Price.....\$1.65

Tonguing and Grooving (Match) Planes.

No. 35F5536 Tonguing and Grooving Plane (Commonly called match plane), which will match boards of any thickness from 1/2 to 1 1/2 inches. Weight, 1 1/2 pounds. Price.....\$1.55

No. 35F5538 Tonguing and Grooving Plane, which will match boards any thickness from 1/2 to 1 1/2 inch. Weight, 1 1/2 lbs. Price, \$1.63

Duplex Rabbet Plane.

No. 35F5540 Duplex Rabbet Plane and Filletster. Remove the arm to which the fence is secured and a handle rabbet plane is had, and with two seats for the cutter, so that the tool can be used as a bull nose rabbet if required. The arm to which the fence is secured can be screwed into either side of the stock, thus making a superior right or left hand filletster with adjustable spur and depth gauge. Length, 5 1/2 inches; 1 1/2-inch cutter. Weight, 3 1/2 pounds. Price.....90c

Stanley's Bull Nose Plow and Matching Plane.

Two interchangeable front parts go with this tool. The form shown in illustration is that of a bull nose plow, and the other cutter will easily work up to it and into a 1/2-inch hole or any larger size—as in sash fitting, stair work, etc. With the other front on, it takes the ordinary form of a plow, and is adapted to all regular uses. With each tool eight plow bits (3/8, 3/16, 1/4, 5/16, 3/8, 7/16, 1/2, 5/8, 3/4, 7/8, 1 1/8, 1 1/4, 1 1/2, 1 3/4, 2, 2 1/4, 2 1/2, 2 3/4, 3, 3 1/4, 3 1/2, 3 3/4, 4, 4 1/4, 4 1/2, 4 3/4, 5, 5 1/4, 5 1/2, 5 3/4, 6, 6 1/4, 6 1/2, 6 3/4, 7, 7 1/4, 7 1/2, 7 3/4, 8, 8 1/4, 8 1/2, 8 3/4, 9, 9 1/4, 9 1/2, 9 3/4, 10, 10 1/4, 10 1/2, 10 3/4, 11, 11 1/4, 11 1/2, 11 3/4, 12, 12 1/4, 12 1/2, 12 3/4, 13, 13 1/4, 13 1/2, 13 3/4, 14, 14 1/4, 14 1/2, 14 3/4, 15, 15 1/4, 15 1/2, 15 3/4, 16, 16 1/4, 16 1/2, 16 3/4, 17, 17 1/4, 17 1/2, 17 3/4, 18, 18 1/4, 18 1/2, 18 3/4, 19, 19 1/4, 19 1/2, 19 3/4, 20, 20 1/4, CARRIAGE HARDWARE AND SUPPLIES.

IN CALLING YOUR ATTENTION to this complete department, we are confident that we can supply the great need of thousands of our customers who find it constantly necessary to replace various parts of their vehicles, but who have been paying exorbitant retail prices. We offer a line that has no equal in general excellence of material and finish. At the same time our contracts with manufacturers are so advantageous that we are in a position to make unusually low prices.

OUR \$6.20 GENUINE RUBBER COMPLETE BUGGY TOP.

NOTICE—This top is made of genuine rubber drill not enameled cotton. Rubber drill will outwear three or four enameled tops. Rubber drill costs double the price of enameled cloth.

No. 24F2500

For \$6.20 we furnish this Buggy Top complete with full length side and back curtains with patent shifting rail, which adjusts itself to any buggy. The latest style top in every way. \$6.20 is a special price, based on the actual cost of material and labor, with but one small profit added. Made in our own factory.

We build these tops in our own factory here in Chicago; we build them in immense quantities. The bows, bow sockets, shifting rails, joints, prop nuts and fastenings are contracted for direct from the largest manufacturers for cash. Our rubber drill, cloth linings and trimmings are contracted for in very large quantities, and it is by reason of the low price at which we have been able to buy the material and by reason of our manufacturing them in our own factory that we are able to name this extremely low price of \$6.20.

From the two illustrations you can form an idea of the appearance of this, our special \$6.20 buggy top. The one illustration shows the top; the other illustration shows one of the side curtains. We furnish a pair of side curtains and a full length back curtain.

In ordering buggy tops follow our rules for measurement as given below, and we can guarantee the top we furnish will fit your buggy exactly.

This our \$6.20 top, is made of thoroughly reliable material. The roof and the quarters are made of good quality extra heavy rubber drill, well padded; roof and back straps lined with No. 14 X cloth, and backstays stiffened with two thicknesses of buckram. Side and back curtains are made of good weight colored back drill. We use nothing but the highest grade tubular steel bow sockets of the latest pattern, full black enameled metal buckle loops. Thomas top props, patent concealed joints, japanned prop nuts, patent curtain fasteners, wrought iron rail with patent buttons, which make it adjustable to any buggy. Side and back curtains are full length, large glass fitted in back curtain, patent buttonholes used throughout.

No. 24F2500 Price.....\$6.20

Can furnish this top with gray lining for 50 cents extra.

When these tops are wanted without shifting rail deduct 25 cents.

Read Instructions below HOW TO TAKE MEASUREMENTS.

Our \$5.95 Enameled Drill Top.

At \$5.95 we furnish an Enameled Drill Top complete with side and back curtains. It is made of light black enameled drill, light material throughout, made to compete with the many cheap tops now being advertised, and while we do not guarantee it, for a very cheap top it will give good satisfaction.

No. 24F2502 Price.....\$5.95

In ordering, be sure to give measure as per instructions below. Also state whether three or four-bow is wanted.

The top weighs, crated for shipment, about 50 pounds, and you will find the freight will amount to next to nothing as compared with what you will save in price. Can furnish this top with gray lining for 50 cents extra.

Our Special Silver King Top, \$8.00.

For \$8.00 we furnish this fine Buggy Top as described, a very showy top for a livery line and equal to tops usually sold at a much higher price.

No. 24F2504 This top is made of the same material and with the same care as our No. 24F2505 but with silver trimmings throughout. Silver prop nuts, silver joints and fastenings on the back stays. The back stays and head linings are hand stitched, nicely corded with pinked edges. It makes a top that can be used on any buggy, especially where a stylish, up to date rig is wanted. Just the top for a livery or hack line, the silver trimmings showing off to fine advantage against the black panels of a buggy. Crated singly, weight, 50 pounds. Price.....\$8.00

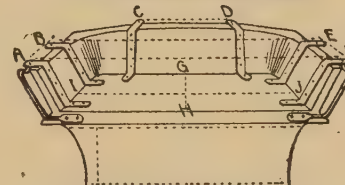

No. 24F2505 This is a full 22-ounce high grade rubber top, with 24-gauge steel bow socket, best quality of japan, solid forged wrought iron joints and adjustable shifting rail, best quality of japan, japanned prop nuts, Thomas top props, improved concealed joints between two back bows. Top lined with heavy wool cloth, back stays and back curtains lined double thick buckram in back stays. Rubber side curtains indigo dyed, Dickerson patent knob eyelets. No. 12 curtain link in back curtain. We use only second growth, select stock for our buggy tops. Three or four bows as desired. Price.....\$7.20

No. 24F2506 A Genuine Leather Quarter and Back Stay Top 28-ounce high grade of rubber in roof and back curtain. Double thick buckram in back stays. Top lined all through with heavy wool cloth, except side curtains, which are indigo dyed rubber, with Dickerson's knob eyelets. Second growth, selected stock buggy bows. 24-gauge steel bow socket, best quality of japan, solid forged wrought iron joints and adjustable shifting rail. Thomas top props, improved concealed joints between two back bows. Front valance stitched. No. 12 back curtain link. Three or four bows, as desired. Price.....\$9.40

Full Morocco Leather Top.

No. 24F2508 Full Morocco Leather Top. This is a perfect substitute for leather and will not show scratches or crack as readily as leather. Morocco leather is embossed by the same process as real leather and will last fully as long as leather. This top has the same forgings, bows and linings as our No. 24F2506 top. Price.....\$9.70

HOW TO TAKE MEASUREMENTS FOR TOPS AND CUSHIONS.

IN ORDERING BUGGY TOPS give measurements from center to center of holes in irons, as shown in illustration; width from A to F, from B to E, from A to B, from C to D. State whether you want three or four bows, and give choice of color of lining.

IN ORDERING CUSHIONS give measurements from I to J on bottom of seat; from G to H, width of seat at bottom, and state if square or round corners are wanted.

IN ORDERING CUSHIONS WITH FALL give measurements of cushion as above, and also width of fall at the bottom and distance from bottom of seat to floor of buggy. Our buggy tops are shipped in light but strong crates, and are not liable to injury in transportation.

OUR TERMS are cash with the order. But if anything is not entirely satisfactory when received, return it to us and we will immediately refund your money, including what you paid for transportation charges.

YOU WILL SAVE MONEY by buying your own needed repairs direct from us at manufacturers' lowest prices. Freight amounts to nothing compared with what you save in price. Nearly all these goods are taken at second class rate or lower.

Our Great Bargain Genuine Leather Top.

For \$14.95 we furnish this genuine Full Leather Top as the equal of any leather top on the market. Made in our own factory; great value for \$14.95. This is a full leather, machine buffed, guaranteed to be genuine leather, hand stitched front valance. This top is lined with wool cloth all through, except side curtains, which are indigo rubber; Dickerson patent fasteners, back stays are double thick buckram, 24-gauge steel sockets, best quality of Japan, solid forged wrought iron joints and adjustable shifting rail, improved concealed joints between two back bows. Thomas top props. No. 12 back light, second growth select stock bows. Three or four bows, as desired.

Melodain Cloth Carriage Aprons.

Patent Buggy Aprons. Made of the best grade rubber drill, is adjustable to any dash. Round elastic cord extends across dash with a hook at each end, which holds the apron securely to the dash. Weight, about 24 pounds.

No. 24F3080 Buggy Apron. Made of 25-ounce rubber drill. Size, 50 x 64 inches. Fits dashes 21 to 30 inches wide. Price, **\$7.36**

No. 24F3082 Buggy Apron. Made of 22-ounce rubber drill. Size, 50x50 inches. Fits dashes 11 to 30 inches wide. Price, **\$6.65**

No. 24F3086 Large Size Apron. Made of 22-ounce rubber drill. Size, 60x78 inches. Fits dashes 24 to 38 inches. Price, **\$1.23**

The illustration shows a side view of a vehicle's front interior. A dark, rectangular rubber apron is stretched across the dashboard. It is held in place by two horizontal elastic cords that run across the top of the dash. Each cord has a metal hook at its end, which is attached to the top edge of the apron. The apron appears to be made of a heavy, dark material, likely rubber. The vehicle's steering wheel and part of the dashboard are visible in the background.

Pitcher Spout Pumps.

This illustration represents our Closed Top Pitcher Spout Pump. These pumps are made of the very best materials in one of the best pump factories in the country and are equipped with a revolving bearing, which, by loosening the set screw, allows the handle to be placed on either side or back in any position desired. The cylinders of these pumps are carefully bored and are true and polished. Each pump is equipped

with trip valve and the water may be let out of the cylinder in the winter by simply raising the handle until it trips the lower valve. Each pump is fitted with a connection for either lead or iron pipe, but pipe is not included in the prices quoted below. See catalogue Nos. 24F5710, 24F5711 or 24F5264 for pipe. We also make these pumps with brass lined cylinder. As leather plungers operating in brass cylinders are practically indestructible, this pump with its brass lined cylinder will practically last forever, and we recommend the purchase of this type of cylinder for the slight difference in cost, as indicated in the table below. These pumps are designed for use in cisterns or shallow wells from 5 to 20 feet deep. The cylinder is contained in the body of the pump and is designed for lifting and not for forcing water. Therefore, do not order these pumps for wells beyond the depth indicated. To make a complete outfit, order the size pump wanted, state whether you want iron or brass lined cylinder and order enough pipe to reach from the base of the pump to within two feet of the bottom of the cistern or well. For pipe see page 470. We also recommend that you order foot valve No. 24F5670 to 24F5672, which is a combination strainer and foot valve, which not only prevents anything from entering the pipe that might clog the valves, but also holds water in the pipe and makes priming unnecessary. See How to Order a Pump on page 470, before ordering a pump.

No. 24F5200 No. 1, 2 1/2-inch cylinder for 1 1/2-inch pipe. Price, iron, \$0.91
Price, brass lined, 1.10

Price, brass lined, 1.35

No. 24F5205 No. 4, 4-inch cylinder for 1 1/2-inch pipe. Price, iron, 1.35
Price, brass lined, 1.60

Acme Cistern Pumps.

In the Acme Cistern Pump, illustrated herewith, we have the very best, most up to date cistern pump which is finished extra well. It is made from high grade gray iron and brass and is machine fitted. We offer this pump in two styles, one with iron body and one with brass lined body, and there is such a slight difference in cost that it will pay you to get the very best equipment. All are fitted for 1 1/2-inch lead or iron pipe to well and back outlet for 1-inch pipe. The pump is equipped with shutoff cock in spout.

The Acme Cistern Pumps are designed for use in cisterns or shallow wells not over 20 feet deep. These pumps are also force pumps as they are equipped with a stuffing box which makes the pump airtight. The standard is tapped and threaded in the back of the pump, so that 1-inch pipe may be attached, and by turning off the cock in the spout which is furnished with the pump, water may be forced to an elevated tank or to a trough in another part of the premises. This pump may also be used for sprinkling. In ordering this pump, please remember, prices do not include any pipe. For this complete outfit, order this pump to reach within two feet of the bottom of the well or cistern and we suggest that you also order our combination foot valve and strainer, as described under Nos. 24F5670 and 24F5672. See How to Order a Pump on page 470, before ordering.

No. 24F5214 3-inch iron body. Price, \$4.00

No. 24F5215 3-inch brass lined body. Price, 4.95

The same pump with combination foot valve and shutoff cock instead of cock spout we offer at lower prices as quoted below. We furnish this style pump with shutoff clevs instead of shutoff cock, which may be placed on spout when pump is to be used for forcing water to elevated tank or water trough, through pipe attached to back of standard.

No. 24F5221 3-inch iron body. Price, \$3.05

No. 24F5222 3-inch brass lined body. Price, 3.90

We heartily recommend our brass lined pumps as fully equal to an all brass pump and very much cheaper in the end. The cylinders of our pumps are lined with a seamless drawn brass tube. The plunger, piston rod, stuffing nut and all working parts are brass and have leather plungers operating in brass cylinders which are known to be practically indestructible. For these reasons it will pay you in every instance to order the better grade brass lined cylinder instead of the iron cylinder. The pump is so much better and easier to work so much better and easier that for the slight difference in cost you can well afford to pay the difference.

Iron and Brass Lined Force Pump with Air Chamber, Revolving Bearer and Brass Piston Rod.

This is a staple pump for a force pump which we furnish with either iron or brass lined cylinder. This pump is usually placed on a platform or kitchen sink and is designed to force water into a tank or reservoir to supply bath rooms and wash basins throughout the house. Each pump is fitted with a shutoff cock at the spout so water may be drawn at the pump if so desired. The air chamber with which the pump is equipped makes pumping easier and also gives a continuous stream when the pump is in use. To force water to different parts of the house, supply pipe is connected at the top of the air chamber. Shut off the faucet at the spout of the pump, work the handle and water will flow to the reservoir. The cock at spout is threaded for 1/4-inch hose and it may be used for sprinkling purposes. As cylinder is coated in the pump standard, we do not recommend these pumps for use in wells over 20 feet deep. The prices do not include any pipe. For complete outfit, order sufficient pipe to reach within two feet of the bottom of the well or cistern, and we suggest that you add the combination foot valve and strainer, described under Nos. 24F5670 to 24F5672, which will prevent anything entering the pipe to clog the valves, and will also hold water in the pipe and make priming unnecessary. For full information as to equipment on all pumps, please see page 470. How to Order a Pump.

Complete, as shown in the illustration.

No. 24F5226 No. 2, 2 1/2-inch cylinder for 1 1/2-inch pipe. To fit 1/4-inch hose coupling. Price, iron, \$5.10
Price, brass lined, 6.40

No. 24F5228 No. 4, 3-inch cylinder for 1 1/2-inch pipe. To fit 1-inch boiler coupling. Price, iron, 5.95
Price, brass lined, 7.25

Iron and Brass Lined Force Pumps.

This pump is similar to our No. 24F5226 and No. 24F5228. This is a staple house pump but bolts to a plank and is designed to be fastened to the wall instead of setting up on a sink or platform. It is a force pump and, by attaching pipe to the top of air chamber, water may be forced to elevated tank in the attic or to bathroom and other portions of the house. It is fitted with shutoff cock at the spout so that water may be drawn there. It is as carefully made and as thoroughly dependable as the platform pump and can be used for the same purposes for which we recommend the other. No. 2 has 2 1/2-inch cylinder and is fitted for 1 1/2-inch pipe. No. 4 has 3-inch cylinder and is fitted for 1 1/2-inch pipe. Do not order this pump for use in wells over 20 feet deep. Comes complete, as shown in the illustration, but prices do not include any pipe. Please see How to Order a Pump on page 470 before ordering.

No. 24F5233 No. 2, iron. Price, \$5.10
No. 2, brass lined, Price, 6.40

No. 24F5235 No. 4, iron. Price, 5.95
No. 4, brass lined, Price, 7.25

House Force Pumps.

With Revolving Bearer and Brass Piston Rod.

The pump shown in the illustration is exclusively a force pump. It is not furnished with spout or faucet and no water can be drawn at the pump. It is designed for use in forcing water to an elevated reservoir and is very often used on second or third floors of houses where the water pressure from city mains is weak in order to draw water to the faucet. This pump is thoroughly well made, it has brass seat valve and is arranged for attachment either on iron or lead pipe. It comes fastened to a plank as shown in illustration

to be placed against the wall, thus being out of the way of the sink. It is strictly a high grade article and is guaranteed to do good work. In ordering, be sure to indicate whether you want iron or brass lined cylinder. Weight, about 55 pounds.

No. 24F5241 No. 2, 2 1/2-inch cylinder for 1 1/2-inch pipe. Price, iron, \$4.05
Price, brass lined, 5.10

No. 24F5242 No. 4, 3-inch cylinder for 1 1/2-inch pipe. Price, iron, 4.55
Price, brass lined, 5.59

Anti-Freezing Closed Top Lift Pumps.

The type of pump shown in the illustration is a lift pump and not a force pump and is adapted for wells not more than 30 feet deep. It has revolving top so handle may be placed on either side or at back of spout in any position desired. It measures 4 feet from platform to bottom of cylinder. The pipe connecting cylinder and pump screws into the pump at the spout, thus leaving an air space around the pipe above the platform which protects the pipe from frost in winter. The cylinder is of the very best quality and is fitted for 1 1/2-inch pipe unless otherwise ordered. If well is more than 20 feet deep, we recommend placing a foot valve on end of pipe at bottom of the well, for description and price of which see our No. 24F5670 to No. 24F5672. We also recommend that if wells over 20 feet deep the cylinder be lowered to within 10 feet of the bottom of the well as explained in instructions on page 470. How to Order a Pump. Pipe to reach from bottom of well is not furnished at prices named below. For pipe see No. 24F5710 and 24F5711.

No. 24F5256 No. 4, 3-inch cylinder. Price, \$2.55

No. 24F5257 No. 6, 3 1/2-inch cylinder. Price, 3.20

No. 24F5258 No. 8, 4-inch cylinder. Price, 3.39

10-inch iron cylinders furnished with above pumps.

New Pattern Close Top Lift Pump.

The description of the pump, as shown in this illustration, is exactly the same as description of No. 24F5256, with the exception that this pump has closed or covered top which prevents sticks, stones, etc., from falling into the pump from the top. This is a lift pump and not a force pump. The bolts on cap and pitman are large and will many times outwear the small ones in ordinary use. The pipe is screwed in the pump just below the spout and there is an air chamber between pipe and standard which protects the pipe from frost in winter. Has revolving top and handle may be placed in any desired position. Has swinging fulcrum. The cylinder is of best quality and is fitted for 1 1/2-inch pipe. It measures 4 feet from flange at platform to bottom of cylinder. This pump is designed for wells not over 30 feet deep and where well is over 20 feet deep we recommend the cylinder be dropped to within 10 feet of the bottom of the well. See page 470 for instructions on How to Order a Pump. Pipe is not included in the prices quoted below. For price of pipe see No. 24F5710 and 24F5711.

No. 24F5264 No. 2, 2 1/2-inch cylinder. Price, \$2.53

No. 24F5266 No. 4, 3-inch cylinder. Price, 3.20

No. 24F5268 No. 6, 3 1/2-inch cylinder. Price, 3.25

Above pump furnished with 10-inch iron cylinders.

Lift Pump With Windmill Head.

This is a lift pump and not a force pump and is adapted for wells not more than 80 feet deep. It is equipped with a windmill head so the pump rod may be attached to windmill as well as working by hand. The pipe screws into standard at the spout and there is an air chamber between pipe and pump standard which protects pipe from frost in winter. It has revolving top and swinging fulcrum and can therefore be swung to any position. It is very carefully made, strong and durable, and we recommend it as a strictly first class pump. Measures 4 feet from platform to bottom of cylinder. For wells not more than 25 or 30 feet deep, order pump as shown in illustration and enough 1 1/2-inch iron pipe to reach from bottom of cylinder to within two feet of bottom of well. Where well is over 20 feet deep we recommend dropping the cylinder to within 10 feet of the bottom of the well. Please see page 470 for instructions on How to Order a Pump, which gives full information as to complete equipment for this pump. Pipe is not included in prices quoted below.

For pipe, see Nos. 24F5710 and 24F5711.

Average weight of pump, 80 pounds.

No. 24F5274 No. 2, 2 1/2-inch cylinder. Price, \$3.50

No. 24F5276 No. 4, 3-inch cylinder. Price, 3.60

No. 24F5277 No. 5, extra heavy, 3 1/2-inch cylinder. Price, 3.70

No. 24F5278 No. 6, extra heavy, 3 1/2-inch cylinder. Price, 3.90

Above pump furnished with 10-inch iron cylinders; brass body cylinders furnished at an extra cost of difference in price of cylinders as explained on page 470, in How to Order a Pump.

Extra Heavy Lift Pumps, for Feed Yards and Heavy Work.

This illustration represents our heavy set length lift pump, adapted for stock and feeding yards and wells from which large quantities of water are required. It measures 4 feet from flange at platform to bottom of cylinder. The set lengths are screwed in the pumps at the spout leaving an air space between pipe and pump standard, which protects the pipe from frost in winter. The stocks are made extra heavy and cylinders are very heavy and strong and are capable of throwing large quantities of water. They are thoroughly and carefully made of the best materials and we fully recommend this pump for heavy work. When you purchase this pump you may do so in the fullest confidence that it is a general purpose pump and one which may be used in deep wells. In ordering this pump be sure to order enough pipe to reach to within two feet of the bottom of the well and of course the cylinders should be dropped to within 10 feet of the bottom. Remember, however, this is a lift pump, and not a force pump. In purchasing this pump for deep wells, we recommend that you buy brass body or ball valve cylinder and we ask you to see How to Order a Pump on page 470. Average weight, 88 pounds.

No. 24F5280 3 1/2-inch cylinder fitted for 1 1/2-inch pipe. Price, \$3.90

No. 24F5286 4-inch cylinder, fitted for 1 1/2-inch pipe. Price, 4.05

The above pumps are fitted with 10-inch iron cylinders.

Force Pumps.

The force pump illustrated herewith is adapted for use in wells not more than 60 feet deep. The pump is set to pump standard is screwed into pump at spout and the air chamber between the pump standard and pipe which protects pipe from frost in winter. The pump has an outlet in rear of spout, fitted with tap where a 1-inch pipe may be attached for forcing water to some other part of the premises. If desired, we can equip with back attachment consisting of nipples, fittings and shutoff cock at an additional expense of only 90 cents. See illustration of No. 24F5310, showing this equipment. Hose may be attached to the spout of this pump by means of a clevis which we furnish free, as shown in illustration. We can also furnish shutoff cock at the spout, if so desired, at an additional expense of only 75 cents. This pump is equipped with cylinder and short length of pipe which measures 4 feet from flange at platform to bottom of cylinder. The larger size pump as quoted below will give best results if you wish to use this pump in deep wells. Prices below do not include pipe. To complete equipment, order enough pipe to reach within 10 feet of bottom of well. For pipe see 24F570 and 24F5711. This pump is complete with iron cylinder, but if it is to be used well up to 60 feet deep we recommend a chasing brass cylinder with ball valves.

No. 24F5545. Please read How to Order Pump on page 470.

Number	Size	Size Cylinder	Price
24F5302	4	3 1/2 x 10	4.85
24F5303	5	3 1/2 x 10	5.00
24F5304	6	3 1/2 x 10	5.11

The above pumps are fitted with 1 cylinders.

Windmill Force Pumps.

This Force Pump is exactly the same as our No. 24F5301, with the exception that it is equipped with a windmill head. It is adapted for wells not more than 60 feet deep. The pipe from well connects with standard at the spout, and there is an air chamber between the pipe and standard which protects the pipe from frost in winter. We fully recommend this pump as a powerful force pump. Size 8 is fitted with 1 1/2 inch pipe; other sizes are fitted for 1 1/2-inch pipe.

This is a very satisfactory pump for use in deep wells, though if well is more than 25 or 30 feet deep the cylinder should be placed within 10 feet of the bottom of the well, and you should order pipe sufficient to reach to within two feet of the bottom of the well. The prices quoted are for pump equipped with combination foot valve and shutoff cock in spout at an extra charge of 75 cents. We will furnish back attachment, as shown in illustration herewith, short length of pipe, nipples and shutoff cock at an extra charge of 90 cents. This back attachment may be connected up with reservoir or elevated tank elsewhere on the premises and by turning the shutoff cock in the spout water may be forced to any part of the building or grounds.

Number. Size Size Cylinder Price

24F5310 2 2 1/2 x 10 \$5.30

24F5311 3 3 x 10 5.40

24F5312 4 3 1/2 x 10 5.55

24F5313 5 3 1/2 x 10 5.65

24F5314 6 3 1/2 x 10 5.75

24F5315 8 4 x 10 6.50

Above pumps are furnished with iron cylinders and 4 feet of pipe, as shown in illustration. If you expect to use this pump in a deep well, we recommend the purchase of our brass lined or ball valve cylinders which will give so much more satisfactory and lasting service, as explained in How to Order a Pump, on page 470.

Acme Double Acting Force Pumps with Brass Lined Cylinders.

The illustration shows our Acme Double Acting Force Pump with a windmill head and revolving spouts for shallow or deep wells. The upper cylinder is made of heavy seamless drawn brass tubing; the lower cylinder is equipped with brass valve seats. Each pump is furnished with our improved malleable iron hose attachment and suction strainer. For a deep well, say for a well from 125 to 150 feet deep, this pump has no equal on the market. This pump may be used by hand in case of accident to windmill.

Equipped with Double Cylinders this pump has very free movement, as with the upward stroke of the handle only one-half of the water is discharged, the other half being retained by the smaller or upper cylinder and discharged by the downward movement of the handle. This causes a continuous flow of water and does away with all lost motion, and there are no jars or jolts when this pump is working. The pump measures 5 feet from the base of the pump to the bottom of the lower cylinder. When ordered for wells over 25 feet deep, it is necessary that the lower cylinder be dropped, as explained in How to Order a Pump, on page 470. This pump is not intended or equipped to force water through iron pipe to reservoirs, but for ordinary pumping purposes and for sprinkling gardens, lawns, etc., through a hose. We furnish without charge a valve to attach to spout of pump to which hose may be connected. Prices do not include pipe or rods to extend from cylinder to bottom of well. For pipes see Nos. 24F5710 and 24F5711.

No. 24F5337 Size cylinder, brass lined, 2½ inches for 1½-inch pipe. Price, \$7.87
No. 24F5338 Size cylinder, brass lined, 3 inches for 1½-inch pipe. Price, \$8.12
No. 24F5339 Size cylinder, brass lined, 3½ inches for 1½-inch pipe. Price, \$8.23

Double Acting Force Pump with Three Way Cock and Brass Lined Cylinders.

The pump illustrated here-with is the same as No. 24F5337, with the exception that it is equipped with a vertical three way cock. With the aid of this three way cock water may be forced underground into tanks, reservoirs or cisterns elsewhere on the premises. The upper cylinder is brass and the lower cylinder is brass lined. The double cylinders so equalize the strain that the pump works very easily and smoothly and it gives a continuous flow of water. The pump measures 5 feet from base of standard to bottom of lower cylinder. This pump will give perfect service in wells from 125 to 150 feet deep. When to be used in wells 25 feet deep, lower cylinder should be dropped to within 10 feet of bottom of well, as explained in How to Order a Pump, on page 470.

Equipping this pump with a three way cock the attachment is about 3 feet below the form. One-inch pipe may be attached thereto and run up the ground below the line to tank or reservoir on other part of the yard or on property.

Cut off at three way cock is operated by rod reaching to head of pump. We furnish improved malleable iron hose attachment for use at the spout, and a suction strainer with each pump without additional charge. We recommend the use of our combination foot valve and strainer, for which please see catalogue No. 24F5670. Prices do not include pipe. For pipe, see Nos. 24F5710 and 24F5711.

No. 24F5337 Size cylinder, 2½ inches, for 1½-inch pipe. Price, \$8.36
No. 24F5338 Size cylinder, 3 inches, for 1½-inch pipe. Price, \$8.46
No. 24F5339 Size cylinder, 3½ inches, for 1½-inch pipe. Price, \$8.60

Acme Double Acting, Drilled Well, Hand Force Pump with Brass Lined Upper Cylinder and Brass Lower Cylinder.

This illustration shows our Acme Double Acting, Drilled Well Hand Force Pump, adapted for drilled wells of small bore of any depth. This pump is equipped with double cylinders and has very free movement, as with the upward stroke of the handle only one-half of the water is discharged, the other half being retained by the smaller or upper cylinder and is discharged with the downward movement of the handle. This gives a continuous flow of water and does away with all lost motion and prevents jar and jolts when the pump is being operated. It makes it particularly easy to operate by hand.

This pump is so constructed that the cylinders and all its parts below the platform will enter and pass into the casing or drilled hole. To use this pump it is not necessary to cut off casing, as with many other styles of pumps, and casing may therefore be carried up to the platform. This keeping out surface water and other impurities. Although the pump is especially adapted for drilled wells, it has no superior for dug or open wells. Upper cylinder is brass lined and lower cylinder is brass with brass seat valves. Pump is furnished with a strainer and hose attachment without additional charge. This is a strictly first class, desirable, dependable pump in every respect, and is guaranteed to give perfect satisfaction. This is a hand pump only and cannot be used with windmill.

Prices do not include pipe or pump rod. If to be used in wells more than 25 feet deep, lower cylinder should be dropped to within 10 feet of the bottom of well, and you should order pipe enough to reach to within two feet of the bottom. For pipe see Nos. 24F5710 and 24F5711. Read How to Order a Pump, on page 470, which gives full information on ordering pump and full equipment for any of our pumps.

No. 24F5327 Size 2, has 2½-inch cylinder for 1½-inch pipe. Will go into 3-inch cased well. Price, \$8.69
No. 24F5328 Size 4, has 3-inch cylinder for 1½-inch pipe. Will go into 3½-inch cased well. Price, \$8.88
No. 24F5329 Size 6, has 3½-inch cylinder for 1½-inch pipe. Will go into 4-inch cased well. Price, \$9.32
If wanted with brass lined lower cylinder in place of all brass, deduct 50 cents from above prices.

Windmill Head, Double Acting, Drilled Well Force Pump with Brass Lined Upper Cylinder and Brass Lower Cylinder.

This illustration shows our Acme Double Acting, Drilled Well Force Pump, adapted for drilled wells of small bore of any depth, equipped with windmill head and constructed so that all its parts below the platform will enter and pass into the casing or drilled hole. To equip a drilled well with this pump it is not necessary to cut off the casing, and therefore the casing may be carried up close to the platform, thus keeping out surface water and other impurities. It is equally as satisfactory in open wells or dug wells, and is a strictly first grade, satisfactory pump. The upper cylinder is brass lined, the lower cylinder is brass and the cylinders have brass seat valves. Pump is equipped with strainer and hose attachment without additional charge. Windmill head permits attachment of power. Owing to its double acting cylinder this pump operates very easily by hand and may be used as a hand force pump as well as windmill pump, as action is very free and smooth.

In ordering this pump for a deep well the lower cylinder should be dropped to within 10 feet of the bottom of the well, and you will please remember that prices do not include pipe, but only pump and equipment, as shown in illustration. For prices on pipe see Nos. 24F5710 and 24F5711. Read How to Order a Pump, on page 470, for complete information as to equipment for this and all other pumps handled by us.

No. 24F5332 Size 2, has 2½-inch brass cylinder for 1½-inch pipe. Will go into a 3-inch cased well. Price, \$8.76
No. 24F5333 Size 4, has 3-inch brass cylinder for 1½-inch pipe. Will go into a 3½-inch cased well. Price, \$8.79
No. 24F5334 Size 6, has a 3½-inch brass cylinder for 1½-inch pipe. Will go into a 4-inch cased well. Price, \$9.30

New Acme Drilled Well Force Pumps with Brass Cylinder.

This illustrates our new Acme Drilled Well Force Pump which discharges a smooth, continuous stream and operates unusually easy. While it is adapted for any kind of a well it is especially constructed for cased wells of smaller diameter. There is a large air space between the pump stock and the pipe which protects the pipe from frost in winter. It is very carefully constructed with a view to making it very simple and it will not get out of order beyond the wear which comes from ordinary use. The cylinders are fitted with brass seat valves. This pump can be used only and cannot be connected with a windmill. Strainer and hose attachment furnished free of charge. Prices named below do not include any pipe.

If you desire to use this pump in wells beyond 25 feet in depth you should order pipe enough to lower cylinder to within 10 feet of bottom of well. For information as to pipe and what to order to complete the equipment of this pump to give entire satisfaction, see How to Order a Pump, on page 470.

No. 24F5336 Size 2, has 2½x12-inch brass flush capped cylinder for 1½-inch pipe. Will go into a 3-inch cased well. Price, \$8.92
No. 24F5337 Size 4, has a 3x12-inch brass flush capped cylinder for 1½-inch pipe. Will go into a 3½-inch cased well. Price, \$8.98
No. 24F5338 Size 6, has a 3½x12-inch brass flush capped cylinder for 1½-inch pipe. Will go into a 4-inch cased well. Price, \$8.75

New Acme Drilled Well Force Pump with Windmill Head and with Brass Cylinder.

This is our New Acme Drilled Well Force Pump with windmill head. The description of the preceding pump applies to this with the exception that this pump has a windmill head for attaching to windmill. This pump and the preceding number are the best single acting pumps sold by anyone.

There is a large air chamber between pump jacket and water pipe which protects the pipe from frost in winter, and it is so thoroughly and simply constructed that it is practically impossible for this pump to get out of order. Equipped with brass cylinder and with our improved all brass poppet valves this pump will last forever; operates easily, and gives universal satisfaction. If wanted for wells beyond 25 feet in depth, cylinder should be lowered to within 10 feet of bottom of well. Prices do not include pipe.

For prices on pipe see Nos. 24F5710 and 24F5711. Read How to Order a Pump on page 470, which explains just what you should order to complete the pump outfit.

No. 24F5340 Size 2, has a 2½x12 brass flush capped cylinder for 1½-inch pipe, will go into a 3-inch cased well. Price, \$7.55
No. 24F5341 Size 4, has a 3x12 brass flush capped cylinder for 1½-inch pipe, will go into a 3½-inch cased well. Price, \$7.65
No. 24F5342 Size 6, has a 3½x12 brass flush capped cylinder for 1½-inch pipe, will go into a 4-inch cased well. Price, \$8.49

Acme Improved Windmill Force Pump Standards.

This illustrates our Improved Acme Windmill Force Pump Head or Standard. It is equipped with a large air chamber, has hose connection on the spout. Top is constructed with a special bushing which prevents the rod from wearing on the bearer. This standard is constructed with outlet back of spout of pump so that pipe may be attached for forcing water to an elevated tank or cistern elsewhere on the premises. This is a very much heavier standard than the regular size and is designed for deep wells. Prices quoted are for standard alone, and do not include any pipe or cylinder and this standard cannot be used without them. For pipe, see catalogue Nos. 24F5710 and 24F5711. For cylinders, see catalogue Nos. 24F5528 to 24F5582. For pump rods see catalogue No. 24F5633. Before ordering, please turn to page 470 and read How to Order a Pump, which will give you very complete information on this and all other pumps and standards which we handle and how to order equipment which will give absolute satisfaction under all conditions.

No. 24F5345 Size 1, 6-inch stroke, for 1½-inch pipe. Price, \$3.25
No. 24F5346 Size 2, 10-inch stroke, for 2-inch pipe. Price, \$3.60

EXTRAS—Standard is tapped back of spout so that 1-inch pipe may be connected through which water may be forced to elevated tank or reservoir. Back attachment consisting of short pipe, nipples and nut may be had for 90 cents extra. We can also supply this standard with shutoff cock in the spout at an additional charge of 75 cents.

Hand and Windmill Force Pump Standard with Long Fulcrum.

The special features of the pump illustrated here-with are the long fulcrum and extra heavy cap and large wrought iron turn of pipe making a better standard in every way than the common standard. The long fulcrum takes all strain off the top of the pump and gives a greater leverage, therefore the pump works much easier. It is made of the very best materials; it is very carefully fitted and has windmill head. It is tapped at the back, so that pipe may be attached through which to force water to an elevated tank or reservoir in the house or barn or other part of the premises. Prices named below are for standard only and do not include any pipe or cylinders. For pipe, please see Nos. 24F5710 and 24F5711. For cylinders, see No. 24F5528 to No. 24F5582. For full information as to the proper equipment of this pump see How to Order a Pump, which gives full information about all our pumps and standards. This pump may be furnished with back attachment, including nipple, short pipe and shutoff cock complete for 90 cents extra. Back attachment consists of short pipe, nipples and shutoff clevis for spout hose attachment and shutoff clevis for spout hose attachment.

No. 24F5348 6-inch stroke. Price, \$4.55
10-inch stroke. Price, \$4.55

Extra Heavy Windmill Pump Standard.

The illustration here-with represents our extra heavy windmill pump standard. This is not a force pump and can be used only for lifting water. It is much heavier than our common windmill pump and the spout is higher from the base. It is tapped for 1½-inch pipe to the well.

Prices do not include pipe or cylinders which you must have to complete your pump equipment. For pipes see Nos. 24F5710 and 24F5711, and for cylinders see Nos. 24F5528 to 24F5582. Please see page 470, How to Order a Pump, which will give you full information as to how to equip this pump standard.

No. 24F5349 6-inch stroke. Price, \$2.85
No. 24F5350 10-inch stroke. Price, \$3.25

Underground Valve Force Pumps.

This pump is especially adapted for 2-inch tubular wells, also 1½-inch pipe for open or drilled wells. By operating the wheel in the top of the gooseneck the water may be discharged either through the spout or through the underground pipe at the bridgepiece below, less than the frost line to reservoir or tank elsewhere on the premises. It differs from other three way valve pumps in that the operating screw, which is brass, is below near the valve and not at the gooseneck, consequently there is no liability to chill and freeze. The pipe on the right forms the bridgepiece below, less than the frost line to reservoir or tank elsewhere on the premises. It differs from other three way valve pumps in that the operating screw, which is brass, is below near the valve and not at the gooseneck, consequently there is no liability to chill and freeze.

The pipe on the right forms the bridgepiece below, less than the frost line to reservoir or tank elsewhere on the premises. It differs from other three way valve pumps in that the operating screw, which is brass, is below near the valve and not at the gooseneck, consequently there is no liability to chill and freeze. The pipe on the right forms the bridgepiece below, less than the frost line to reservoir or tank elsewhere on the premises. The pipe on the right forms the bridgepiece below, less than the frost line to reservoir or tank elsewhere on the premises. It differs from other three way valve pumps in that the operating screw, which is brass, is below near the valve and not at the gooseneck, consequently there is no liability to chill and freeze.

No. 24F5352 6-inch stroke. Price, \$7.50
No. 24F5353 10-inch stroke. Price, \$7.80

Acme Siphon Force Pumps.

This illustrates our Acme Siphon Force Pump to be used in connection with windmill for pumping water from wells not over 20 feet deep. This pump is used for forcing water to tanks and reservoirs where large quantities of water are required. It is so constructed that all working parts may be removed without disturbing the suction or discharge pipes or breaking the connections in any way. It is very carefully made from the best materials, has a seamless brass valve cap, brass plunger and piston rod and improved brass poppet valve. It is equipped with all chamber of very large capacity and is fitted with check valve at discharge opening. The outlet may be set in different directions as location on pump may require. The siphon arrangement adds materially to the efficiency of this pump. It is in every way a very high grade pump and we guarantee it to give entire satisfaction when used for the purposes for which it is constructed.

Prices named below do not include any pipe. For pipe, see Nos. 24F5710 and 24F5711. Pipe should reach to within two feet of the bottom of the well. We suggest the use of our combination foot valve and strainer No. 24F5670 and 24F5672. Read How to Order a Pump, on page 470, which will give full information as to how to equip any pump catalogued in these pages.

WE LET YOU SHARE IN THE PROFITS

of this business, and you really cannot afford to buy elsewhere. Our prices are guaranteed lower than those asked by any other concern, our goods are guaranteed the highest quality, we guarantee to save you money on every purchase and you get a Profit Sharing Certificate, good for something valuable, shown on pages 1 and 2.

Scythe Stones.

No. 24F9584 The Black Diamond Scythe Stone. Finest stone on the market. Nothing better. Size, 10 1/2 x 1 1/2 inches. Price, each, 7c. Price, for 3 stones, 19c.

No. 24F9585 Emery Scythe Stones, will put the right kind of an edge on a scythe and do it quickly. Size, 10 1/2 x 1 1/2 inches. Weight, about 1 lb. Price, 7c.

Hay or Straw Puller.

No. 24F9588 In using this Puller, push it into the stack a short distance with the hooks in a horizontal position. Turn it slightly and draw it out and the hay or straw will come out with it. Should you get more than you can draw out, push the puller further into the stack, turn it again to a horizontal position, then draw it out. It is made of steel, japanned. Length, 4 feet, 4 inches. Width, open, 12 inches. Weight, 3 1/2 pounds. Price, 39c.

Sears' New Improved Saw-Cut Hay Knife.

No. 24F9592 Extra quality Sears' Hay Knives. Made of the best grade tool steel. Well finished, finely tempered. Price, for 2 knives, \$1.00; each, 54c.

Genuine Hiram Holt Lightning Hay Knives.

No. 24F9593 Genuine Hiram Holt Lightning Hay Knives. Made of a high grade of tool steel, tempered and hardened the same as a scythe. The best saw cut hay knife made. Has no equal for rapid work. Weight 4 1/2 pounds. Price, each, 59c.

Spear Point Hay Knife.

No. 24F9594 Genuine Spear Point Hay Knives. Made of the best steel, finely tempered. One of the oldest makes of hay knives on the market. Price, for 2 knives, \$1.35; each, 72c.

Hay Knife.

No. 24F9596 The Heath Upright Hay Knife. Made of the best material. Cast steel sections, same as used in a mowing machine. Price, for 2 knives, \$1.10; each, 59c.

Clipper Corn Knife.

No. 24F9600 The Clipper Corn Knife. Made from high grade steel, tempered in oil. Price, for 2 knives, 26c; each, 14c.

Acme Clipper Corn Knife.

No. 24F9601 Hand forged, hardened and tempered in oil, hardwood, beaded handle, which prevents turning in the hand. Made from a fine quality of cutlery steel. We will replace any knife found defective in temper or workmanship. Price, each, 19c. Price, for 2 knives, 35c.

The Acorn Corn Knife.

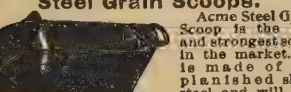

No. 24F9603 The Acorn Corn Knife. Cast steel blade. This knife has always been a big seller in the Western States. Price, each, 17c. Price, for 3 knives, 45c.

Lightning Corn Knife.

No. 24F9606 Made of the finest oil tempered steel, full polished. Price, for 3 knives, 60c; each, 22c.

Steel Grain Scoops.

Acme Steel Grain Scoop. Is the best and strongest scoop in the market. It is made of sheet steel and will outwear a dozen common scoops. One man can do double the work that can be done with an ordinary long handle scoop. Anyone who handles much grain cannot afford to be without it. No. 24F9616 Half bushel size. Price, \$0.67.

Tin Elevator Buckets.

Made of extra heavy tin, double seamed. This is one of the strongest and best made buckets at the price.

No.	Width on Belt	Projection	Price, each

No. 24F9620	4 -inch	4 -inch	5c

Steel Elevator Buckets.

Made of sheet steel formed up from one piece, with round corners and round bottom. They are constructed in such a manner that the lap comes on the end, making a double thickness and brace, which adds largely to the strength and stiffness of the cup. The back of the cup is perfectly smooth and flat, which is a great advantage in saving wear on the belt.

Warehouse Trucks.

Warehouse Truck (like illustration). Hardwood, well ironed, neatly finished. Axles turned and wheels bored. Steel nose, side straps, axles and legs. We guarantee this the best truck on the market, and, quality considered, 20 per cent cheaper in price than any other.

No.	Length, handles	Width	Weight	Price
No. 24F9682	8 ft. 11 in.	19 in.	44 lbs.	\$2.42
No. 24F9683	4 ft. 4 in.	20 in.	56 lbs.	3.17
No. 24F9684	4 ft. 8 in.	22 in.	77 lbs.	4.27

Daisy Truck.

No. 24F9690 Daisy Truck, with steam bent handles. Length of handle, 46 inches; width at nose, 12 inches; at upper cross bar, 17 1/2 inches. Weight, 30 pounds. Price, \$1.34.

Full Ironed Warehouse Trucks.

Warehouse Trucks same as No. 24F9682 (full ironed), which gives greater strength. Where much heavy trucking is to be done this is the truck to buy.

No. 24F9685 Length of handles, 3 feet 11 inches; width, 19 inches; weight 46 pounds. Price, \$2.75.

No. 24F9686 Length of handles, 4 feet 4 inches; width, 20 inches; weight, 59 pounds. Price, \$3.50.

No. 24F9687 Length of handles 4 feet 8 inches; width, 22 inches; weight, 80 pounds. Price, \$4.65.

FREE FURNITURE, FREE WATCHES AND JEWELRY, FREE CLOTHING, ETC.

UNDER OUR PROFIT SHARING PLAN if you buy your goods from us you will soon be able to share in the profits of this business, and will be able to get something valuable entirely free of cost to you as explained on pages 1 and 2.

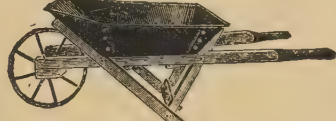

Wheelbarrows.

This Wheelbarrow is well made. Has full sized tray; wheel, 16 inches in diameter. When packed for shipment wheel is bolted on inside of tray and legs are folded on side of handle. Can be easily set up by anyone.

No. 24F9701 Half Bolted Railroad Wheelbarrow, with steel wheel. Price, \$1.29.

Acme Steel Tray Wheelbarrow.

No. 24F9704 The above steel tray barrow is strong and substantial. Has a well made steel tray, mounted on our Acme Special frame bolted in front and back to tie braces. Has a 5-16 inch rod turned under edge of tray. Frame is bolted and well braced. Has a 16 inch steel wheel. Price, \$2.15.

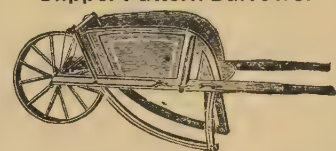

Garden Wheelbarrow.

Well Painted, Striped and Varnished.

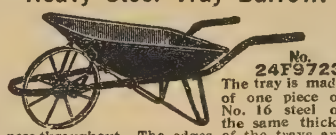

No. 24F9708 With finely shaped handles, black tipped. Braced with steel. Size of bed, 27 inches; depth, 12 1/2 inches; length over all, 68 inches. This barrow is fitted with wheels, 15 inches in diameter and is light but very strong broad tired wheel. Weight, about 50 pounds. Price, \$1.95.

Clipper Pattern Barrows.

No. 24F9712 In our Clipper Pattern Wheelbarrow, we have the best barrow for the money made by anyone. It is good enough for any garden and the price is lower than a barrow of this kind was ever sold at before. Size of body, is 30 inches long, 19 inches wide at wheel end and 24 inches wide at handle end. Has steel wheel. The body and frame painted green. A first class barrow. Price, \$2.40.

Heavy Steel Tray Barrow.

No. 24F9723 The tray is made of one piece of No. 16 steel of the same thickness throughout. The edges of the trays are flanged and turned over a 5-16 inch steel rod. This rod prevents the tray from breaking at the edge and makes it very much stronger. As the steel of the tray is of uniform thickness, there are no thin corners to give out after using a short time. These barrows are made to dump forward and are so constructed that at the dumping point they will not run back on the operator. They are well bolted and braced and made of the best material and painted. The wheel revolves on a heavy bolt which also passes through the handles and so materially strengthens the barrow. Price, \$4.29.

Solid Pressed Steel Tray Barrow.

Coal and Coke Barrow, with one piece tubular steel frame extensively braced and well ironed. The tray is made of best quality of steel, with wire edge. They will carry from 400 to 450 pounds of coal or five bushels of coke. Fitted with our extra heavy No. 4 wheel, 17 inches in diameter, 2 1/2 x 7-16 inch, nine 9-16 inch spokes, 3/4 inch axle. No. 24F9726 Gauge of steel in tray, 15; length of tray on top, 41 1/2 inches; width of tray on top, 33 inches; depth of wheel, 12 inches; capacity, 6 cubic feet. Weight, 95 pounds. Price, \$7.90.

No. 24F9727 Gauge of steel in tray, 13; length of tray on top, 41 1/2 inches; width of tray on top, 33 inches; depth of wheel, 12 inches; capacity, 6 cubic feet. Weight, 110 pounds. Price, \$8.40.

Boss Charcoal Peanut Roasters.

\$10.25

The Boss Peanut and Coffee Roaster is the only successful roaster on the market. The material used in their construction is the finest grade smooth rolled sheet steel for the roasters, and XX bright tin and 16-ounce cold rolled copper for the warmers. Peanuts roasted in the Boss Roaster retain that delicate flavor which is essential to the good peanut, and which is only obtained through perfect roasting. Prices are f. o. b. factory.

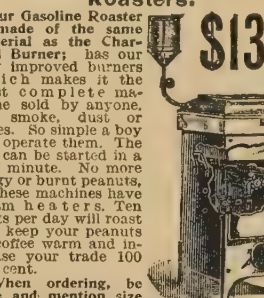

No. 24F9740 Size, 1 peck, with tin warmer. Price, \$10.25. With copper warmer. Price, 14.80.

No. 24F9741 Size, 1/2 bushel, with tin warmer. Price, \$12.40. With copper warmer. Price, 17.30.

When ordering be sure to state size wanted; also whether tin or copper warmer.

Boss Gasoline Peanut Roasters.

\$13.50

Our Gasoline Roaster is made of the same material as the Charcoal Burner; has our new improved burners which makes it the most complete machine sold by anyone. No smoke, dust or ashes. So simple a boy can operate them. The fire can be started in a half minute. No more soggy or burnt peanuts, as these machines have steam heaters. Ten cents per day will roast and keep your peanuts or coffee warm and increase your trade 100 per cent.

When ordering, be sure and mention size wanted; also tin or copper warmer. Prices are f. o. b. factory.

No. 24F9746 Size, 1 peck, with tin warmer. Price, \$13.50. With copper warmer, 17.50.

No. 24F9747 Size, 1/2 bushel, with tin warmer. Price, \$16.50. With copper warmer. Price, 20.00.

No. 6 Boss Peanut Roaster.

No. 6 Gasoline Roaster is the same as No. 24F9746, with a cone-shaped glass dome or show case. Dome can be filled with peanuts, which makes a much more attractive display. Made in copper only. Prices are f. o. b. factory. Copper warmer. No. 24F9750 Size, 1 peck. Price, \$17.95. No. 24F9751 Size, 1/2 bushel. Price, \$22.00. No. 24F9752 Size, 1 bushel. Price, \$24.25.

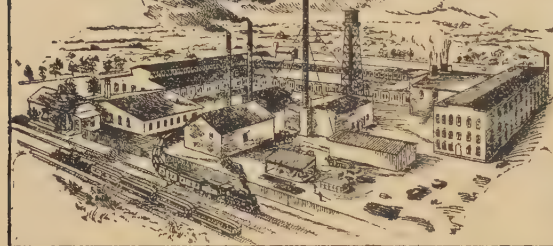

Quality Guarantee

We have a system of securing goods from other houses in this city and elsewhere to compare in quality with our own, and we have invariably found where a similar article is offered by any other house at as low or lower a price than ours, it is at a great sacrifice to quality. Remember, if any other dealer appears to sell any article at as low a price as we, we challenge them on the question of quality, and if you do not find our quality far superior at the same price, we want you to return the goods at our expense.

PLUMBERS' GOODS AND SUPPLIES.

NEW AND SURPRISINGLY LOW PRICES ON EVERYTHING IN THE PLUMBING GOODS LINE.
HIGHEST GRADE PLUMBING MATERIAL AT PRICES NEVER BEFORE HEARD OF.

OUR PLUMBING GOODS FACTORY IN
SOUTHEASTERN WIS.

under our guarantee to return your money immediately and pay the transportation charges both ways if everything does not prove entirely satisfactory.

OUR PLUMBING GOODS BINDING GUARANTEE. Knowing from a careful comparison of our goods with those turned out by other manufacturers that our plumbing goods, in quality, are far above what are generally offered, we make this bond and binding guarantee: Send us your order for anything in this line, take our goods and compare them with any other, and if our plumbing goods, grade for grade, are not far better than any goods you can get elsewhere we stand ready and willing to refund your money immediately, and pay the freight charges both ways.

WE ARE SAFE IN SAYING that we can save you about one-third in this department. Please compare our prices with the prices asked for goods of equal quality by specialty houses and exclusive dealers in plumbing supplies. We know that we can save you at least one-third as against the prices usually asked. **IN THIS, OUR LARGE CATALOGUE,** also show here our very greatest values in this line. In our Special Plumbing Goods Catalogue we are able to show a still larger variety and if you do not find exactly what you want here please write for our Free Special Plumbing Goods Catalogue which shows a most complete line of plumbing supplies, sectional and magazine heaters, radiators, etc.

DIRECT FROM OUR OWN BIG PLUMBING GOODS FACTORY

In Southeastern Wisconsin, the big plant, as shown in this illustration, we furnish direct to you everything in the line of plumbing material, everything guaranteed the very finest quality of goods at prices based on our own manufacturing cost with just one small profit added, lower prices than this line of merchandise has heretofore been sold by the manufacturers to jobbers in the largest quantities.

IN ORDER THAT WE COULD BREAK AWAY FROM THE PLUMBING TRUST,

the big combine of plumbing goods manufacturers which heretofore has controlled this industry, and in order that we could give our customers the benefit of the right prices on plumbing, so that we could follow out our well known policy of furnishing all kinds of merchandise as close to factory cost as possible, we have established our own factory. In this, our plumbing goods factory, we manufacture only the highest grade of plumbing goods that we can safely offer

Special High Grade, Low Down, Quarter Sawed Oak Tank, Syphon Jet Combination Closet.

No. 42F125 Low Down Tank, Syphon Jet Combination Closet. Has a round cornered quarter sawed oak tank with heavy moulding attached to cover. Piano finish and extra heavy trimmings. Tank is lined with copper, has copper float, brass valves, etc. Seat is quarter sawed oak with heavy offset brass hinges, heavily nickel plated, supply pipe is 1/2 inch, made of brass, nickel plated. Push button flush, a slight pressure empties the tank complete. The bowl is a genuine syphon jet high grade vitreous English earthenware. Nothing better made. It is similar to our No. 42F120 but made of much better material. All trimmings are heavier and the finish is very finest piano polish. A high class closet in every respect.

Price, complete with plain bowl, \$17.45
Embossed bowl \$1.00 extra.

Acme Water
At \$11.35 we offer this water closet as the equal of closets that plumbers sell at \$16.00 to \$20.00.

No. 42F130 Our Acme Water Closet is by far the best finished and most up to date closet on the market. It has a round cornered oak syphon tank. Golden oak finish, with double 1/2-inch sawed oak attached seat, 1 1/2-inch nickel plated flush pipe and 1/2-inch nickel plated supply pipe, with No. 3 front washout with plain earthenware bowl. The bowl roughs at 8 1/2 inches from the finish of wall to center of the bend. The chain and pull and all fixtures are nickel plated. Tank is copper lined, has patent float cut off, with chain and pull to flush closet. It is made of the very best materials throughout and the workmanship and finish are perfect. Furnished complete, ready for use, no fitting or extras required.

Price, \$11.35
No. 42F131 Closet, same as No. 42F130, only without supply and flush pipes. Price, \$10.00
If wanted with embossed bowl, add 60 cents to above prices.

Acme Combination Hopper and Trap Closet.

No. 42F136 Combination Hopper and Trap or Wash Down Closet. This makes one of the best low priced outfits we carry. The tank is made of oak, golden oak finish. The pipe and fittings are the same as described in our No. 42F130 closet. Everything is first class. Could not work better nor last longer at any price. A great many prefer this combination hopper to the regular No. 3 front washout as shown in No. 42F130 as it gives a more positive flush, has greater force, etc. Price, complete, ready to set up, \$12.90
If wanted with embossed bowl, add 60 cents to above price.

Syphon Jet Water Closets.

No. 42F141 Water Closet, complete as shown in illustration. Tank is copper lined. Outside made of quarter sawed oak, golden oak finish, has syphon jet; 1 1/2-inch nickel plated flush pipe; 1/2-inch nickel plated supply pipe. Has double oak seat attached to bowl; chain and pull nickel plated. Furnished complete, with chain, pull, striker and floor bolts. A very neat and substantial closet at a moderate price.

Price, \$17.60
No. 42F142 Closet, same as No. 42F141, but without supply and waste pipes. Price, \$16.25
If wanted with embossed bowl, add 75 cents to the above prices.

ENAMELED IRON HOPPER CLOSETS.

No. 42F100 Enamelled Iron Straight Hopper, self raising seat, complete as shown in illustration. No waste or supply pipes or tank furnished at the price.

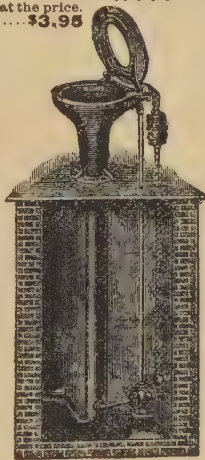

Price, \$3.95

Frost-proof Closets.

No. 42F105 Our Frostproof Closets have frostproof brass valves for outside and exposed places. The valve is below frost line, and is connected with hopper by a heavy chain, fastened to seat; when seat is depressed the valve is opened and hopper is flushed; when seat is relieved the supply is shut off and waste pipe opened, allowing the water which is in pipe to drain direct into trap; therefore valve and pipe are at all times free from water.

We furnish above, complete with cast iron hopper enameled inside, self raising seat, frostproof valve, 6-foot length of pipe, cast iron P trap complete with chain and lever. For cold or exposed places this outfit is the best on the market, water is always below frost line, it is easily connected, is substantially constructed and avoids rotting away of wooden supports, as all water wastes direct into sewer.

Price, complete, \$7.95

Low Tank, Wash Down Combination Closet, Special Price, \$11.39.

No. 42F110 Our Low Tank, Wash Down Combination is by far the most up to date closet sold by anyone, and at the price we ask for it, is 50 per cent lower than a closet of this kind was ever sold at before. Don't let the price lead you to believe it is a cheaply constructed affair, made only to sell. We guarantee it to be the equal of any wash out closet ever put on the market. The tank, seat and cover are made of solid oak, golden oak finish, tank is copper lined, has copper floats, solid brass valve, improved flushing valve. All trimmings, hinges, etc., made of cast brass, heavily nickel plated. Supply pipe is 1/2-inch in diameter, made of brass, also nickel plated. A slight pressure of the valve button gives a flush that empties the tank complete. Furnished complete as shown in the illustration.

Price, complete with plain bowl, \$11.39
If wanted with embossed bowl, add 60 cents to the above price.

Special High Grade, Low Tank, Wash Down Syphon Action, Quarter Sawed Oak Combination Closet.

No. 42F115 Low Tank, Wash Down Syphon Action, Combination Closet with round corner quarter sawed oak tank, with heavy moulding attached to cover; tank has copper lining, has copper float, brass valves and improved flushing valve. All trimmings, hinges, etc., are made of brass, nickel plated. Supply pipes are 1/2 inch, made of brass, nickel plated. Has the button push, a slight pressure on the valve button empties the tank complete. The bowl is a high grade syphon action. Made of vitreous English earthenware. It is similar to our No. 42F110 outfit but much better finish, etc. Tank is larger and trimmings heavier. Furnished in golden oak finish, piano polish.

Price, complete with plain bowl, \$12.95
If wanted with embossed bowl add 60 cents to above price.

Low Tank, Syphon Jet Combination Closet.

No. 42F120 Low Tank, Syphon Jet Combination Closet. The low tank closet is by far the most popular closet now on the market. It does away with the long supply pipes and high tank. Has a 2-inch opening in bowl, which insures a positive flush every time; is noiseless and neat in appearance. Can be placed in out of the way place or under stairs where high tank will not go. The tank is made of solid oak, golden oak finish, is lined with heavy sheet copper, has copper float, brass valve, etc. The valve is our improved positive flush valve, cannot get out of order. A slight pressure of the valve lever or button empties the tank complete. The seat and cover are made of oak, all trimmings, hinges, etc., of brass, heavily nickel plated; supply pipe is 1/2 inch in diameter, nickel plated; furnished complete ready to set up. The bowl is high grade vitreous English earthenware.

—syphon jet style, by far the best pottery made.
Price, complete with plain earthenware bowl, \$15.95
If wanted with embossed bowl, add \$1.00 to above price.

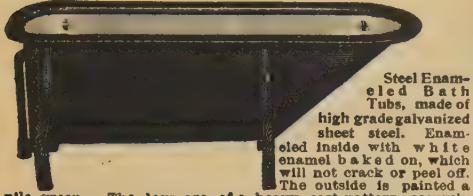

Child's Hygienic Toilet Seats.

No. 42F147 Indispensable to the comfort and health of children under seven years of age. Can be put on any adult seat, and patent device underneath holds it solid and firm until taken off. The seat only, as shown in small illustration.

Price, seat without rail, 35c
Price, seat with rail, as shown in illustration, 70c

Steel Enamelled Bath Tubs.

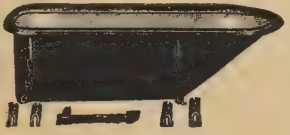

Steel Enamelled Bath Tubs, made of high grade galvanized sheet steel. Enamelled inside with white enamel baked on, which will not crack or peel off. The outside is painted a nice green. The legs are of a heavy cast pattern, securely fastened to rim at top and bolted together underneath the tub, thus protecting the seams. With adjustable feet that are attached to the tub the same as a stove leg. This allows the feet to be taken off in shipping which makes a smaller package; also prevents the legs being broken, which happens frequently where the legs and feet are made in one piece. The rim is made of polished oak which gives the tub a very tasty appearance. The overflow and waste are made of brass and are nickel plated. Furnished complete with plug and chain. Shipped from factory in Detroit, Mich. We would advise buying a 5 or 5 1/2 foot tub. While a 4 1/2 foot tub will answer where your space is limited, a 5 or 5 1/2 foot tub will be much more satisfactory.

NOTICE—For No. 4 1/2 Fuller Hot and Cold Combination Cock, add \$1.75 to prices given.

This illustration shows tub knocked down ready for shipment. Makes a much smaller package, thus a saving in freight charges.

Nickeloid Bath Tubs.

THE ONLY TUB ON THE MARKET WITH ADJUSTABLE FEET.

These tubs are constructed with an outer casing of heavy sheet steel and inner lining of heavy sheet zinc, both sides deposited with copper, and outside heavily nickel plated, planished and polished to a mirror finish. The interior of our shells is coated with our non-corrosive sheet steel mixture. The nickel plated zinc sheets are finely fitted into a heavy steel shell, and capped with a heavy oak rim securely fastened to rim of tub; the legs are heavy cast iron, which encircle the tub, being fastened on the bottom with bolts; the feet are adjustable and fasten to the legs the same as stove legs, which allows the tub to be shipped knocked down, making a small package and avoiding breakage which often happens with the old style tub; fitted with a patent brass nickel plated connected waste and overflow, and outside connections for 1 1/2 L. F. gauge. Finished on the outside in a beautifully tinted nickel green. Rims are made of polished oak, securely fastened to body of tub. Furnished complete with overflow and waste, also plug and chain. Fitted for No. 4 1/2 Fuller cocks. Shipping weight, 90 pounds.

Copper Lined Bath Tubs.

These tubs are constructed with an outer casing of heavy sheet steel and inner lining of tinned copper, planished and polished. The interior of the shells are coated with our special non-corrosive sheet steel mixture. They are designed to meet the demand for a well made, carefully finished copper lined steel tub. They are constructed on the shape and model of our patent enameled tub; the rim and legs are of the same style and similarly secured. Brass nickel plated patent overflows and outside connections. Finished on outside in a beautifully tinted nickel green. The rims are polished oak, extra heavy, securely fastened to body of tub. Copper lining is as smooth, well tinned and polished as it is possible to make it, and finely fitted to steel shell; copper guaranteed up to weight. Furnished with our adjustable feet. No other make of tub has this feature. Fitted for No. 4 1/2 Fuller cocks. Weight averages 90 pounds. Tubs shipped from Detroit, Michigan.

Improved Bath Heater, \$10.50

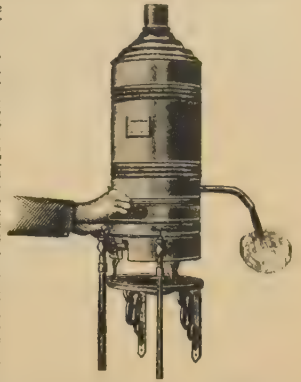

While these heaters have always given general satisfaction, we have recently made some very important improvements and feel justified in presenting our 1927 model as the most practical, popular priced bath heater on the market. It is made of galvanized steel, 24 inches high and 15 inches in diameter, having a conical shaped bottom, surrounding a copper coil constructed of 3/4 inch tubing. A jet cone gasoline burner is placed directly under the coil, causing the water to be heated both by circulation and radiation. The gasoline reservoir that supplies the burner is fitted with an air pressure valve and pump which greatly increases the heating capacity. Our heater is simple and safe and will 100 degrees Fahrenheit.

These heaters can be used in connection with any style bath and are always fitted with our jet cone gasoline burners unless otherwise ordered. Gas, natural gas or oil burners can be furnished; the latter (oil) is not recommended on account of its slowness in heating.

No. 422F218 Price.....\$10.50

• Aome Instantaneous Water Heater.

No. 422F223 We recommend this heater for the bath or lavatory. It will heat 1 1/2 gallons of water per minute raising the temperature of the water from 50 to 110 degrees. The inner arrangement is the most simple, yet effective in its results. The water passes up through the center of heater and escapes through an arrangement which sprays it over a deck-like disc which provides for the combustion and fumes to pass through several chimney-like openings, preventing water coming in contact with same. At the outer edge the deck extends downward within one-fourth of an inch of the upper part of a basin which catches the water as it flows over the deck and carries it towards its center where it comes in contact with the cone, allowing the water to be distributed in a film-like spray over the surface of the cone which receives the full effect of the intense heat from the burners. This heater is made of 14 ounce polished copper, nickel plated. The gas and water valves are extra strong. The inner construction of this heater is such that neither the product of combustion nor fumes of gas come in contact with the water, thereby furnishing a supply of hot water fit to drink as well as for the bath. It is built on common sense lines, is most simple in operation, has nothing to get out of order and will do better work and last longer than any heater of its kind made by any one and is sold at a price which defies competition. Capacity, 1 1/2 gallons per minute 110 degrees. Height, 31 inches; diameter, 10 inches. Price complete.....\$12.96

The Improved Safety Commode.

The Safety Commode is indispensable in all sickrooms, summer cottages, pleasure yachts, hospitals, sanitariums, asylums, etc., and is endorsed by physicians and all who have used it. A blessing for the invalid. The disinfectant is made especially for this commode, and is the result of a series of expert chemical researches extending over a period of a number of years. It never fails to perform its function, if used properly. Furthermore, it is practically non-poisonous and may be handled even by children. It is absolutely odorless and yet has the unique property of instantly destroying all odors, and it will also instantly destroy all germs pertaining to contagious diseases, such as typhoid, diphtheria, scarlet fever, malaria, dysentery, etc. The woodwork is of the best construction, thoroughly kiln dried, with enamel receptacle is made either of enameled earthenware or enameled metal, and is easily carried. The enameled receptacle is especially recommended. By merely raising the cover and seat part, the receptacle may be removed and the contents emptied whenever convenient.

No. 422F228 No. 1 Safety Commode, complete, as illustrated with one 1/2 pound package of disinfectant powder and metal enameled receptacle. Price, neatly boxed.....\$4.95

No. 422F229 No. 2 Safety Commode, same as No. 1, but with porcelain enameled earthenware receptacle. Price, neatly boxed.....\$5.90
Extra packages of disinfectant may always be obtained by mail, prepaid. Price, per 1/2 pound.....20c

The Sanitary Folding Toilet Cabinet.

No. 422F234

These illustrations show our Sanitary Folding Toilet Cabinet, which is designed especially for offices, stores, private and public buildings, where space is limited. The cabinet proper consists of a shelf for toilet supplies, towel rod, hat and coat hooks, a five-gallon galvanized iron reservoir (which can also be used for ice water), washstand with metal copper top and basin, pocket for comb, brush and soap, five-gallon galvanized iron tank for waste water, and, lastly, blacking stand with foot rest and receptacle for brushes, blacking, rubbers, etc. All of which is concealed when not in use, presenting a handsome appearance. The upper front part of cabinet is supplied with a hinged door, containing a 12x18 mirror, and by opening the same the top of reservoir is exposed, and can be easily filled. Price \$10.90

heat 20 gallons of water in the same number of minutes to

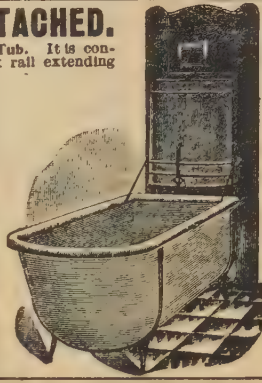

ACME FOLDING BATH TUB WITH HEATER ATTACHED.

This illustration shows our latest and greatly improved design of the Metal Folding Bath Tub. It is constructed of solid metal, the body being made of extra heavy nickeloid, having a solid oak rail extending around the top, supported by ornamental iron bands and feet, which make it very strong and rigid. The hands and feet are gold bronzed, and the outside is richly enameled, giving the bath tub a handsome appearance. The advantage this tub has over other folding tubs is the extreme lightness, having all the latest and best ideas incorporated in its construction, every feature to promote convenience and durability. The heater used in connection with the tub is the same as our No. 42F218, which gives full description as to material used, etc. It burns either gasoline, artificial or natural gas. Be sure and state which is wanted. Where kind is not stated we always ship gasoline burner.

No. 42F196	No. 1, 5 feet, zinc.	Price.....	\$19.25
No. 42F197	No. 2, 5 feet 6 inches, zinc.	Price.....	21.85
No. 42F198	No. 3, 5 feet, nickeloid.	Price.....	23.40

If wanted without heater, deduct \$8.40 from above prices.

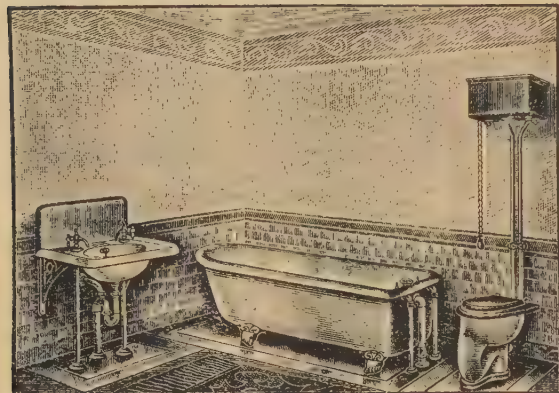

NOTICE—Nickeloid is a new metal used in the manufacture of bath tubs. It is superior to copper, inasmuch as it is almost impossible to obtain sheet copper, in sizes suitable for bath tubs that is free from defects. The nickel finish, nickeloid, is the most durable of all metals, will not crack or scale and is not affected by soap or water.

OUR CHALLENGE BATHROOM OUTFIT, \$39.15.

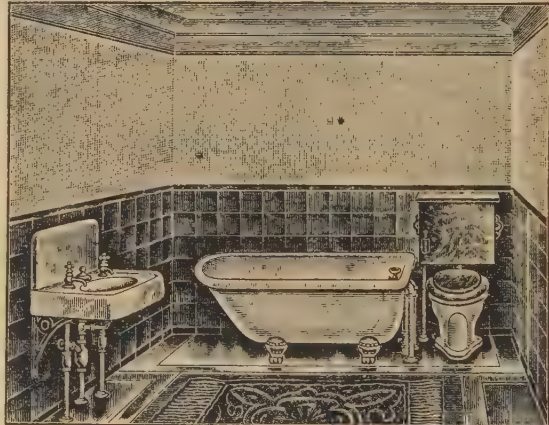

REMEMBER anything you buy from us in the plumbing line is A1. Don't let the low prices lead you to believe the goods are not first quality. Your plumber will tell you that we can't sell good goods at any such prices, and we perhaps could not if we were obliged to buy from the trust at holdup prices. We make 90 per cent of the plumbing we list at our own factory, which enables us to sell to the consumer direct at as low a price as the average plumber pays for his goods. Give us a trial order and if we do not save you from 50 to 75 per cent you can return the goods at our expense.

No. 42F203 Price of complete outfit, as shown in illustration, packed ready for shipment, only..... **\$39.15**

OUR IDEAL BATHROOM OUTFIT, \$43.85

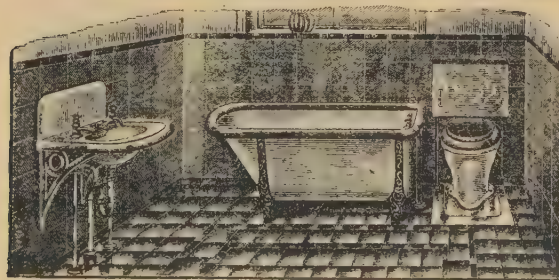

WITH OUR IDEAL BATHROOM OUTFIT WE DEFY COMPETITION.

Quality and price considered, every article is A1. The regular stone. The tub is a fine quality 5-foot porcelain enameled tub, with 2 1/2-inch roll rim, heavy cast legs, complete with No. 4 1/2 Fuller nickel plated hot and cold combination cock; patent brass nickel plated overflow and waste (extra heavy), 1/2-inch brass nickel plated supply pipes; also nickel plated plug and chain. The closet is the latest style low down tank syphon combination, the most up to date closet now on the market. The tank, seat and cover are made of solid oak, golden oak finish. Tank is lined with heavy sheet copper, has our positive flush valve, a slight pressure upon the valve button empties the tank complete. All valves are made of brass; tank floats are made of copper and all trimmings of brass, nickel plated. The lavatory is our No. 42F280, porcelain enameled iron, one-piece, with apron, with model waste, nickel plated low down basin cocks with china tops, nickel plated bottle trap with waste to floor and vent to wall, and two straight nickel plated supply pipes with air chambers. Slab is 20x24 inches, has 12-inch high back and 12x16-inch oval bowl. Enameled inside and bronzed outside. The tub, closet and lavatory are furnished complete, ready for use. If you should wish a larger tub, different style lavatory or closet, you can have them by adding or deducting the price of the article you wish to substitute from the ones shown in the above illustration. The articles we have selected are standard sizes and styles and are the kinds mostly used.

No. 42F208 Price of complete outfit, as shown in illustration..... **\$43.85**

OUR INVINCIBLE \$26.60 BATHROOM OUTFIT.

top; 1 1/2-inch brass nickel plated S trap, waste to floor and vent to wall; and two brass nickel plated supply pipes to floor with flanges. Size of slab 18x21 inches; height of back, 8 inches, with 10x14 inch oval patent overflow bowl. The tub is our No. 42F153, 5-foot steel clad tub. Length, 5 feet. Enameled inside with white enamel, baked on, which will not crack or peel off. The legs are made of heavy cast iron with our patent fastening. The rim is made of polished oak, which gives the tub a very tasty appearance. The overflow and waste are made of brass, heavily nickel plated, complete with waste and plug, also our heavy brass, nickel plated No. 4 1/2 Fuller hot and cold cock.

No. 42F213 Price of complete outfit, as shown in illustration..... **\$26.60**

IN THIS OUTFIT we show a porcelain enameled bath tub, No. 3 front wash out closet and a porcelain enameled lavatory. All A1 goods taken from our regular stock. The tub is our No. 42F181, a first quality tub, 5 feet long, with 2 1/2-inch roll rim, complete with No. 4 1/2 Fuller nickel plated hot and cold combination cock, patent nickel plated overflow and waste, 1/2-inch nickel plated supply pipes, with nickel plated plug and chain. The closet is our No. 42F130 Acme closet, with No. 3 sanitary front wash out bowl, 1 1/2-inch brass nickel plated flush pipe and 1/2-inch brass nickel plated supply pipe, round corner natural oak syphon tank, copper lined with float, etc., nickel plated chain and pull. Everything complete, ready to set up. The lavatory is our No. 42F296 porcelain enameled iron, one-piece, square pattern, with improved brackets, sanitary soap cup, waste plug and couplings, rubber stopper, nickel plated chain and stay, two Fuller nickel plated basin cocks, one 1 1/2-inch S trap, waste to floor and vent to wall, two straight nickel plated supply pipes to floor. Slab is 20x24 inches with 10-inch high back. Bowl is 11x15 inches. Everything complete, ready to set up.

THIS OUTFIT is good enough for any ordinary bathroom. Nothing cheap about it but the price. If, however, you wish to change the size of tub or wish a different style closet or lavatory you can do so by deducting the price of the article you wish to omit and adding the price of the article you wish to substitute at our regular catalogue prices.

Some Gas Water Heaters.

Circulating Water Heaters to attach to side of range boiler. A reliable, inexpensive heater that will do the work of a hard coal range at a much less cost. It is not necessary to start the range to have hot water. Will heat the contents of the range boiler in a few moments. In the summer time, when your range is not used over once a week, you are obliged to start a fire every time you wish a little hot water. With this heater, which can be easily attached to your boiler, you can have hot water any time of day or night in five minutes' time. The illustration shows the heater attached to boiler. We furnish the heater only, at prices given below. These heaters are made with plain black pipe and cast iron water chamber with black pipe covering and burn common illuminating gas.

AND EVERY KIND OF SUPPLIES KINDRED TO THIS LINE OF GOODS.

BETTER QUALITY, Greater Values, Greater Variety, and a More Complete Line Than Has Ever Before Been Offered by Us or Any Other Catalogue House, Jobber, Wholesaler, Dealer or Agent, is Guaranteed to Be Perfectly Satisfactory to the Purchaser or It Can Be Returned to Us at Our Expense of Freight Charges Both Ways, and We Will Promptly Return Your Money. We Can Save You a Great Deal of Money On Any of These Goods, and We Will Surprise and Please You With the Exceptionally Low Prices, Most Excellent Quality and the Universally Great Values Which You Will Find Throughout This Entire Line.

OUR LIBERAL PROPOSITIONS.

IF YOU WANT AN IMPLEMENT OR MACHINE OF ANY KIND DON'T HESITATE TO SEND YOUR ORDER TO US.

IF ANY DEALER OR AGENT tries to convince you that it is not safe for you to remember our guarantee to return your money and pay all freight charges from us, please receive is not perfectly satisfactory and of a high standard of quality. Just select the implement or machine you want and send us your order, then when the goods reach you if you do not find that we have saved you a considerable sum of money and that the goods are perfectly satisfactory in every way you can return them to us at our expense of freight charges, and we will immediately return your money including what you paid for freight.

OUR POSITION PLAINLY STATED.

We will save you money; we will give you both quality and value, and above all, we will give you perfect satisfaction or return your money. We accept every order on the terms of this plain proposition.

OUR CHALLENGE COMPARISON AND TEST OFFER. If you are at all in doubt, make this comparison and test: Order from us at our extremely low prices, and at the same time order similar goods of like size from any other catalogue house, or from any dealer, or from any agent, at any price they may offer. Let the goods from both concerns come to you, compare them side by side, and if you do not find that our goods represent to you much more in value, or if you do not find that we have furnished you a high quality, we won't expect you to keep our goods, but you can return them to us and we will immediately return your money and pay all the freight charges. Under this offer you have the opportunity of comparing our goods with those of any other make or at any other price, at your own home, you to be the sole judge, without any risk of loss or expense on your part.

OUR FREE SPECIAL AGRICULTURAL IMPLEMENT CATALOGUE

MAILED ON REQUEST.

FROM LACK OF SPACE In this, our large general catalogue, we are compelled to use small pictures and give only short descriptions of this line of goods. However, you need not hesitate to order anything from this department direct from this catalogue, even though the illustrations are small and the descriptive matter very limited, since we accept your order with the positive understanding that the goods must please and satisfy you, otherwise they can be returned to us and your money will be immediately refunded. At the same time, if you feel that you must have a more extended description or see a larger illustration before ordering, do not order anywhere else until you write and get our free Agricultural Implement Catalogue. In this free Agricultural Implement Catalogue, sent to anyone free on request, we show large illustrations and give more complete descriptions of nearly everything in this entire line. However, the exact same goods are shown on these pages at the exact same prices, and offered on the same terms, the most liberal ever printed.

OUR STANDARD OF QUALITY IS "THE BEST."

WE DO NOT MANUFACTURE OR SELL INFERIOR IMPLEMENTS, machines, engines, or farm tools of any description. Every article of this character which we sell, whether made by ourselves or by any of the many large factories who supply us with goods, is guaranteed to be of high quality, fully equal to and in many cases much above the standard goods which are sold by dealers and agents, and while in some few instances a higher class of goods can be obtained by paying fancy prices, on the whole we guarantee that better goods cannot be obtained at any price from the regular stock of any dealer or agent. You can easily prove this to your own satisfaction by placing your order for any of these goods and if they do not stand the test of both quality and value, at your home and beside goods of any other make, you can return our goods at our expense of freight charges both ways and we will return your money.

WE CAN ALWAYS FURNISH REPAIRS PROMPTLY AND AT THE LOWEST FACTORY COST.

PLEASE REMEMBER that we have a complete record of every implement and machine we sell, and in the years to come we can always furnish you repairs or parts promptly, and at the lowest factory cost. Don't let the repair question influence you against sending us your order. You can obtain any necessary piece or part from us and always at the lowest possible price.

OUR BROAD GUARANTEE.

EVERY IMPLEMENT, MACHINE, ENGINE OR ARTICLE of any description shown in this department of our catalogue, is guaranteed to give perfect satisfaction or it can be returned to us at our expense of freight charges both ways and we will return its price to the purchaser; guaranteed to be well made of good materials and finished in a workmanlike manner, to be perfectly adapted for the work which it is intended to do, and to do good and satisfactory work when correctly set up and adjusted, and properly cared for and operated, and to be serviceable and durable when given reasonable care and attention. Any defect either in material or workmanship, which causes a break within one year from date of shipment, will be made good by our furnishing free, new parts to take the place of the defective parts.

IMPROVEMENTS IN DESIGN AND CONSTRUCTION.

EACH OF OUR MANY GREAT FACTORIES, whether owned or controlled by us, or manufacturing for us, in quantities and by contract, are continually on the alert for any and every opportunity to better either the quality or efficiency of the goods which they make for us. Our factory management as well as ourselves realize that the continued success and growth of our business depends upon the perfect manner in which we satisfy our customers. Low prices alone do not satisfy, but low prices combined with high quality and up to date goods make for big value and that is what gives perfect satisfaction, therefore whenever an improvement can be made it is made at once, even though it may be necessary to change the entire design of some particular machine or line of machines, and the very latest and most modern and up to date goods are shipped on every order which we receive.

REGARDING SHIPMENT OF IMPLEMENTS.

WE STATE IN THIS CATALOGUE where our implements, windmills, engines, etc., are shipped from; that is, we state whether they are shipped from Chicago or from the factory, and when they are shipped from the factory we state from what section of any certain state they are shipped from, so that you can easily estimate the amount of the freight charges.

TEN DAYS' FREE TRIAL ON AGRICULTURAL IMPLEMENTS.

WE WILL REFUND YOUR MONEY and pay the freight charges if these goods are not perfectly satisfactory. All agricultural implements, Nos. 32F101 to 32F999 inclusive, are shipped on the understanding and agreement that after receiving them you are to have ten days in which to give them a thorough trial and to compare them with similar goods of any other make, and, if during the trial period you find any reason to be dissatisfied, either with the quality, utility or value of the goods, you can return them to us and we will not only return your money but pay the freight charges both ways. You take no risk whatever in ordering your agricultural implements from us. They must satisfy and please you or you get your money back.

Kenwood Steel Beam Steel Stubble Plows.

These plows are perfect in shape, style, construction, temper and finish and their quality is equal to the very best plows on the market. Moldboard is long and high, so shaped that it will scour perfectly in the most difficult soils. Adapted for use in stubble, old ground, and light soils, are excellent pulverizers, and leave the soil in prime condition. Strongly built, well clipped and braced, and made of the very best materials. Clevis is broad, adjustable, and suitable for two or three horses. Beam has high arch to clear in trashy land. Moldboard and share are soft center special plow steel, double shinned, and carefully hard tempered, ground and polished. Landside is medium high, hardened, ground, polished, and fitted with an adjustable slip heel. Land bar and frog are one solid piece and give perfect support and brace to moldboard and share. Handles are adjustable for height. Price is for the plow fitted with one steel share only. Chilled shares may be used and when so ordered, we will furnish one chilled share on the plow and four extra chilled shares, in place of the steel share, at the prices shown. Will also furnish one set of five chilled shares at price of one steel share. Any of the attachments listed with our turf and stubble plows will fit and can be ordered with these plows. Shipped knocked down from factory in Southeastern Wisconsin.

Kenwood Plow Riding Attachment.

This is a first class and very desirable article in every way. With it you can convert any right or left hand, wood or steel beam plow, or middle breaker, into a first class frameless medium high lift sulky plow which will be better and of lighter draft than any cheap sulky that you can buy, and by making a pole extension you can use the attachment as a harrow cart. It turns square corners either right or left when in the ground. Furrow can be gauged any depth from 1 to 12 inches. Plow draws steadily with absolutely no side draft. Easily attached to any size of plow, balances perfectly, and adjusts easily. Price does not include a plow. Attachment consists of two wheels with axles, levers, catches, a seat post and a seat, and is made of malleable iron and steel. Attaches to steel beam plows without any fitting, and to wood beam plows by boring one plow to another. Shipped knocked down from Chicago.

No. 322F115	Riding Attachment.	Wt., 110 lbs.	Price.....	\$9.98
-------------	--------------------	---------------	------------	--------

Kenwood Steel Sulky Plows.

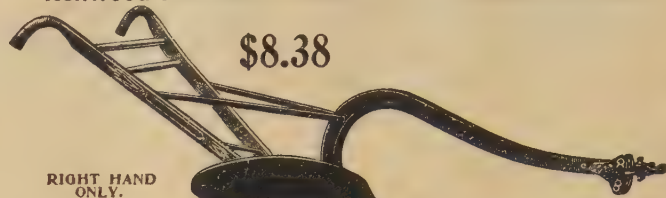

Now made with a Furrow Wheel Lever, which is not shown in the illustration.

We guarantee these plows to be the highest grade, most modern, most desirable sulky plows on the market and that they will give perfect satisfaction. Made with stubble bottom, adapted for use in stubble, old ground, and light soils, or with turf and stubble bottom, adapted for tame sod plowing, turning under clover, timothy or alfalfa sod and heavy stubble, also for plowing old pasture land, adobe, and clay soils and for deep plowing. Both styles of bottoms are excellent pulverizers, but the turf and stubble bottom which is known as a general purpose bottom is the best for use on farms where crops are rotated and for general purpose work, and they have a greater range of usefulness than any other style of bottom, being equally adapted for old ground or sod. These are the lightest draft sulky plows made. The levers adjust the wheels. All other operations are effected by a slight pressure of the foot, the actual work of raising or lowering the plow being done by the horses. A slight pressure of the foot releases the plow, which enters the ground point first and reaches its proper depth within eighteen inches of travel. The foot lift can be operated easily by any boy old enough to drive the team. It is directly in front of the driver and starts the plow out point first and the team in motion supplies the power to lift the plow. The spring lift assists in the operation. Plow locks automatically when it reaches its depth, but the locking device can be released so as to allow the plow to float in the frame and it then becomes an excellent stone dodger. The hitch is to the beam, the only correct way, the pole being simply to guide the plow. The front and rear furrow wheels act together, the latter being controlled by the former by a connecting rod which can be lengthened or shortened to adjust the furrow wheels and their relations to the furrow. Plow rides easily, no jar or jolt, and will turn square corners either way when in the ground. Moldboard and share are made of the finest quality soft center plow steel, carefully hard tempered, ground and polished. Share points are reinforced. Beams are very heavy and made extra heavy for certain sections of the country. Frame is also very heavy and strong. Wheels are of good height and are provided with dustproof, oil tight, long distance bearings with removable boxes. Price is for the plow complete with pole, neckyoke, three-horse eveners, weed hook and rolling coulter. There is no better sulky plow made. The illustration showing the top view of our steel gang plow, also shows the general construction of our steel sulky plow. Shipped knocked down from factory in Southeastern Wisconsin.

Kenwood Steel Beam Steel Turf and Stubble Plows.

These are known as general purpose or Scotch clipper plows. The design, materials, quality, construction, and equipment is exactly the same as our steel beam stubble plows except in the shape of the moldboard, which has a long easy turn, adapting the plows especially for tame sod plowing, the shape of the moldboard being such that the turf is turned completely under and trash and weeds are well covered. They are especially useful for turning under clover, timothy or alfalfa sod and heavy stubble, also in old pasture land, adobe and clay soils and for deep plowing, and are excellent pulverizers. They are the best plows for use on farms where crops are rotated and for general purpose work, in fact, have a greater range of usefulness than any other style of plow and are equally adapted for old ground or sod. Price is for the plow fitted with one steel share only. Chilled shares may be used, and when so ordered, we will furnish one chilled share on the plow and four extra chilled shares, in place of the steel share, at the prices shown. Will also furnish one set of five chilled shares at price of one steel share. Shipped knocked down from factory in Southeastern Wisconsin.

Kenwood Wood Beam Brush Plows.

These are first class high quality plows, made with general purpose shape and those who desire a wood beam plow for tame sod or stubble plowing and general purpose work will find them an exceedingly desirable plow. They are especially adapted for brush land and for plowing up hazel brush, blackberry vines and for similar work. The beam has a heavy iron strap on the under side to protect it from wear. Moldboard is soft center plow steel, high tempered, ground and polished. Landside and share are wrought steel, tempered, ground and polished. Standard and standard caps are solid steel. Entire plow is strongly braced throughout. Price is for plow with gauge shoe, reversible coulter and adjustable clevis. Shipped knocked down from factory in Southeastern Wisconsin.

Kenwood Steel Gang Plows.

Now made with a Furrow Wheel Lever, which is not shown in the illustration.

Our steel gang plows are designed and constructed in the same manner as our steel sulky plows and built of exactly the same materials, every part of the gang plow being the same as the sulky plow except that the frame is broader and heavier and the beams are heavier. In fact, they are the strongest and best built gang plows on the market and are guaranteed to give perfect satisfaction. The main beam to which the hitch is made is extra heavy. The short beam is also extra heavy and is close connected, making the plow very strong and rigid. These plows are made with stubble bottom, adapted for use in stubble, old ground and light soils, or with turf sod and heavy stubble or for plowing old pasture land, adobe and clay soils, and for deep plowing. Both bottoms are excellent pulverizers but the turf and stubble bottom is the best for use on farms where crops are rotated, and for general purpose work, being equally adapted for old ground or sod. The operation of the plow is exactly the same as the operation of the sulky plow, the levers, foot lift, spring lift, and foot trip being identical. Plow enters and leaves the ground in exactly the same manner, that is, point first. Wheels are provided with dustproof, oil tight, long distance bearings with removable boxes, the same as on the sulky plows. Price is for the plow complete with pole, neckyoke, weed hooks, rolling coulters, and four-horse eveners. An eveners will be furnished for four horses abreast unless otherwise specified, but if so ordered, we will furnish string-out hitch; that is, eveners for two horses attached to the plow and two horses ahead of the rear team. The illustrations in connection with the sulky plow show how the gang plow enters and leaves the ground. You cannot obtain a better gang plow at any price. Shipped knocked down from factory in Southeastern Wisconsin.

Kenwood Disc Plows.

\$29.75
TO
\$43.50

THE BEST DISC PLOWS IN ALL AMERICA

The Kenwood are the best disc plows on the market. They are the most satisfactory, the most durable and most desirable and are up to date in every respect. They are close connected, so that the rear disc is not lifted out by the draft on the hitch bar. They are easy to handle and can be given more or less land lead. They will turn a square corner and finish the land either way. Depth of furrow is easily adjusted from six to eight inches. Hitch can be adjusted as desired. All sizes have 24-inch discs. With one disc you can plow from 10 to 14 inches wide, with two discs up to 28 inches wide and with three discs up to 36 inches wide. The one-furrow plow is fitted with a three-horse hitch. The two and three-furrow plows have four-horse hitches. The three-furrow plow can be easily changed to either a one or a two-furrow plow and the two-furrow plow can be changed to a one-furrow plow. The hitches can be changed so as to use any smaller number of horses. Don't order a disc plow expecting that one unless you will be satisfied to use it in the kind of soil that it will do good work in. No disc plow will work satisfactorily in sod ground, or in ground that is full of weed roots, or on a hillside, or in stony land, or in wet soils of any kind, or in any soils which will not pulverize freely. A good disc plow will do perfect work in stubble or old land which is fairly dry or in any soils which will pulverize freely and is especially adapted for use in gumbo bottom lands and for the dry hard soils of the south and southwest. Where disc plows can be used, they will do more work, do the work with less draft, do it easier and better and will handle easier than a moldboard plow. We guarantee these to be the best disc plows on the market and that they will give perfect satisfaction when used in soils for which disc plows are adapted. Full instructions for setting up and operating accompany each plow. Shipped knocked down from factory in Eastern Ohio.

Kenwood Pony Gang Plows.

\$13.72

RIGHT HAND ONLY.

These are the best designed and best constructed pony gang plows made. They are adapted for all kinds of shallow plowing and are especially desirable for orchard cultivation. Can be used to plow under and cover all kinds of grain, to prepare wheat or oat stubble for winter wheat, to turn loose or sandy soils, and in vineyards or hop fields. The frame is steel throughout. The wheels are of good height. All adjustments are provided and easily made. Moldboards are general purpose shape, suitable for either tame sod or stubble plowing. Each plow bottom is 9 inches wide and the entire width of cut is 27 inches. Will plow sod from 2 to 4 inches deep and stubble from 3 to 6 inches deep. Made with chilled bottoms having cast moldboards, chilled landsides, and chilled shares, or with combination bottoms having soft center highly tempered perfectly ground and polished steel moldboards, chilled landsides and chilled shares, or with all steel bottoms having moldboards and polished. Will be furnished with wheel outside the frame unless otherwise ordered, but can furnish with wheel inside the frame for special orchard or vineyard cultivation. Plows with chilled or combination bottoms are furnished with three extra chilled shares, but no extra shares are furnished with steel bottoms. Shipped knocked down from factory in Southeastern Wisconsin.

Kenwood Moldboard Prairie Breaking Plows.

\$9.92

RIGHT HAND ONLY.

Absolutely the best prairie breaking plows made. Adapted for use in breaking either old or new sod in any kind of soil. Has a long, tapering moldboard and will turn a flat, smooth furrow, laying the sod upside down. The wood beams are extra heavy and well proportioned. Standard and standard cap are solid steel. Handles are perfectly formed. Moldboard is high tempered, soft center plow steel; landside and share are solid steel with natural temper, all being carefully ground and polished, the share, however, being left soft enough to file. Entire plow is strongly braced and easy to handle. Price is for plow with gauge wheel, stiff shank rolling cutter and one extra share. Shipped knocked down from factory in Southeastern Wisconsin.

Kenwood Hillside Swivel Plow.

\$3.48

These plows are first class and well made in every respect. They are especially adapted for hillside plowing but will do perfect work on level land. Swivel is arranged to swing easily. Moldboard, landside and share are chilled iron, ground and polished. Entire plow is strong and well braced. These plows will turn a furrow from 1 to 3 inches wider than the share, varying according to condition of soil and steepness of incline. Joinder can be used on 10 and 12-inch plows; gauge wheel can be used on either size. Price is for the plow with one extra share. Shipped knocked down from factory in Southeastern Wisconsin.

Kenwood Steel Beam Grub Plow.

\$4.96

RIGHT HAND ONLY.

As the name indicates, this plow is especially adapted for the toughest kind of plowing in rough and rooty land, and for hazel and general brush work. It is capable of enduring the hardest kind of service. All wearing parts are made of good tough steel. Width is 7 inches, but will turn a 9-inch furrow. Price includes coulters, as shown in the illustration. Shipped knocked down from the factory in Southeastern Wisconsin.

No. 32F163	Grub Plow.	Wt., 64 lbs.	Price.....	\$4.96
------------	------------	--------------	------------	--------

Kenwood Steel Beam Brush Plow.

\$8.54

RIGHT HAND ONLY.

A very strong and substantial plow, suitable for breaking up rough and rooty land in timber country, and adapted for ordinary country road work. First class in every respect. Beam is made of two steel bars placed side by side and bolted together, and has extra high curve to prevent brush and trash from clogging. Moldboard is soft center plow steel, highly tempered and carefully ground and polished. Share and landside are chilled iron. Every part of the plow is strongly braced. It is 11 inches across the bottom, but will turn a 13-inch furrow. Price is for plow with gauge wheel, foot coulters, and one extra share. Extra shares, unless otherwise ordered, will be furnished for foot coulters, but we can furnish either plain point or fin cutter extra shares. Shipped knocked down from factory in Southeastern Wisconsin.

Kenwood Vineyard Plows:

\$5.28

RIGHT HAND ONLY.

This plow is especially adapted for use in vineyards, nurseries, orchards, and for all one-horse work. It is made on the general prairie pattern. The wood beam is set away from the handles and is adjustable, so that horse can walk in furrow or on the land. Moldboard is shaped to make light draft and clean out the furrow in loose soil. Will turn a furrow from 8 to 12 inches wide, and from 3 to 8 inches deep. No. 32F190 has cast moldboard, chilled landside and chilled share. No. 32F191 has soft center steel moldboard, hardened, ground and polished, and chilled landside and share. Price is for plow with gauge wheel, knife coulters and one extra share. Shipped knocked down from factory in Southeastern Wisconsin.

Kenwood Full Chilled Plows.

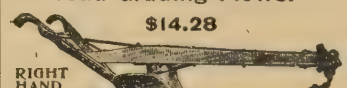

\$1.92

RIGHT HAND ONLY.

These are modern full chilled plows with general purpose shape and will scour well and give perfect satisfaction. Are adapted for either sod or stubble plowing and can be used for any work which a chilled plow will do. The wood beams are heavy and of good proportions. Moldboards, landsides and shares are perfectly chilled, ground and polished. Entire plow is well braced and very strong. Price is for plow with one extra share. Joinder can be used on 10 and 12-inch plows; gauge wheel can be used on either size. The 6-inch plow will turn a furrow 7 inches wide; the 8-inch will turn a furrow 9 inches wide; the 10-inch will turn a furrow 12 inches wide; and the 12-inch will turn a furrow 14 inches wide. Shipped knocked down from factory in Southeastern Wisconsin.

Kenwood Township or Railroad Grading Plows.

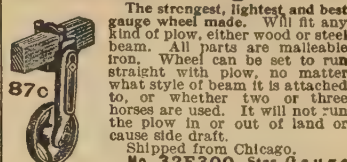

\$14.28

RIGHT HAND ONLY.

The strongest and best grading plows made. Especially designed for township, railroad and contract work, and adapted for heavy grading in hardpan, shale rock and hard baked soils. The heavy white oak beams are heavily ironed on both upper and lower sides and have wrought iron clevis with two strong rings on the end. Standards and standard caps are very heavy solid steel. Moldboards, shares and cutters are best quality soft center plow steel, carefully tempered, ground and polished, and both moldboard and share are double sided. Cutter is reversible and very strong. Handles are strapped on top and bottom with heavy iron, and Nos. 2 and 3 have iron hand holds. Entire plow is strongly braced and capable of standing the hardest kind of service. All measure 10 inches across the bottom, but will turn a 12 or 14-inch furrow. No. 0 plow is for two or three horses; the No. 2 plow, for four to six horses; and the No. 3 plow for six to eight horses. Price is for plow with gauge shoe and reversible cutter, but does not include extra share. Shipped set up from factory in Western Ohio.

Star Malleable Gauge Wheel.

\$1.53

The strongest, lightest and best gauge wheel made. Will fit any kind of plow, either wood or steel beam. All parts are malleable iron. Wheel can be set to run straight with plow, no matter what style of beam it is attached to, or whether two or three horses are used. It will not run in the plow in or out of land or cause side draft.

Shipped from Chicago.
No. 32F300 Star Gauge Wheel. Wt., 9 lbs. Price, 87c

Star Joiners.

\$1.53

These joiners are adjustable in every way and will fit any make of wood or steel beam plow. They can be adjusted very easily and set as desired. Point is reversible and has three separate adjusting points. Entire joinder is made of malleable iron except the moldboards and points, which are steel. These are the only joiners on the market which will positively turn down tall weeds and grass. We can furnish these joiners either right hand or left hand with steel moldboard and point, and the points are interchangeable. Shipped from Chicago.

No. 32F305	Left Hand Steel Joinder.	Wt., 14 lbs.	Price.....	\$1.53
No. 32F306	Right Hand Steel Joinder.	Wt., 14 lbs.	Price.....	\$1.54

King Rolling Coulters.**\$1.47**

After selling different makes of coulters for a number of years, we have found the King coulters to be the very best, most durable and most desirable coulters on the market. They will fit any make of wood or steel beam plow and are easily adjusted to any desired position, the adjustment requiring the loosening of only one bolt. Entire coulter is made of malleable iron except the blade. The blade is the best quality of coulter steel, highly tempered, ground and polished. Hub has device for taking up wear and will outwear the blade. Absolutely the best rolling coulter on the market, and universal in every way. Shipped from Chicago.

No. 32P315 12-inch Rolling Coulter. Wt. 15 lbs. Price \$1.47

No. 32P316 13-inch Rolling Coulter. Wt. 16 lbs. Price \$1.57

No. 32P317 14-inch Rolling Coulter. Wt. 17 lbs. Price \$1.67

Kenwood Disc Sharpener.

Is one of the desirable sharpeners on the market. It is a wonderfully back and forth action, and suitable for farm or shop use for sharpening disc harrows and disc cultivators. Will sharpen discs from 13 to 20 inches in diameter. Centers perfectly and does not chatter. Disc is supported by a roller carrier. Knife is made of best quality of tool steel and is easily removed, sharpened and reset. Regularly the machine is operated by hand, but we can furnish a 10x2 1/2-inch pulley to go on in place of the crank so that it can be run by power. Shipped from Chicago.

No. 32P405 Disc Sharpener. Wt. 40 lbs. Price \$2.69

No. 32P406 Pulley for Power. Wt. 8 lbs. Price 79c

No. 32P407 Extra Cutter Knife. Wt. 4 ozs. Price 22c

**\$2.69****Kenwood Disc Harrow and Cultivator.**

Designed especially for gardeners and small farmers, but adapted to a great range of work. Can be used either as a disc harrow or as a disc cultivator. Discs can be set at any desired angle and can be reversed to throw the dirt in or out. They can be set close together for harrowing or can be separated to 1 1/2 inches apart for cultivating corn or small grain, so as to straddle the row. When discs are close together, the 6-disc machine cuts about 2 1/2 feet, and the 8-disc machine about 3 1/2 feet. Can be used for cultivating grain, hilling potatoes, cultivating tobacco, etc. Discs can be tilted at either end to run on an incline, so as to hill or trench. Discs are carefully ground and oil tempered and fitted with scrapers. Two-horse hitch with each machine. Shipped knocked down from factory in Southwestern Ohio.

No. 32F420 6 16-inch Disc Harrow. Cultivator. Wt. 260 lbs. Price \$13.42

No. 32F421 8 16-inch Disc Harrow. Cultivator. Wt. 275 lbs. Price \$14.62

Mosher Bag Holder.

No. 32F729 Mosher Bag Holder. Wt. 20 lbs. Price \$1.96

Kenwood Harvester Umbrella Holder.

Especially designed to attach to the side of a mower, harvester, cultivator, land roller or other similar tool, but can be attached to any other kind of machine seat. Price does not include umbrella. These you will find listed in another part of this catalogue. Shipped from Chicago.

No. 32F735 Harvester Umbrella Holder. Wt. 2 lbs. Price 29c

WHEN YOU WRITE YOUR ORDER, GIVE CATALOGUE NUMBER IN FULL, INCLUDING ALL LETTERS.

Fulton Disc Harrows.**\$15.92**

These are the highest grade, best designed, best constructed, and most durable disc harrows on the market. They are made of steel throughout except the tongue and spools, which are very heavy and made of the best quality of material. Each gang is operated by an independent lever so that both gangs may be set at equal angles or each may be set at different angles. The lightest draft disc harrow made, as the hitch is low and the pull is directly from the bearings and gangs. Hitches are located so that no neck weight falls on the horses. Weight boxes are made of angle steel bars and form a part of the harrow frame. Journal bearings are made of the very best oil soaked maple, enclosed in cast boxes with pipe roller extensions to top of weight boxes which are closed with a spring cotter, making the bearings absolutely dustproof. Spool shaft is square and spools are solid. Fitted with steel scrapers, the pattern which is so well known and which is used on nearly every first class harrow. Scraper levers are within easy reach of the feet. Discs are carefully ground and oil tempered. The 8-disc harrow has two-horse hitch and cuts 4 feet; the 10-disc has two-horse hitch and cuts 5 feet; the 12-disc has three-horse hitch and cuts 6 feet; the 14-disc has four-horse hitch and cuts 7 feet; the 16-disc has four-horse hitch and cuts 8 feet. Better disc harrows cannot be obtained at any price. Shipped knocked down from factory in Southwestern Wisconsin.

No. 32F412 8 16-inch Disc Harrow. Wt. 475 lbs. Price \$15.92

No. 32F413 10 16-inch Disc Harrow. Wt. 495 lbs. Price \$17.32

No. 32F414 12 16-inch Disc Harrow. Wt. 515 lbs. Price \$18.92

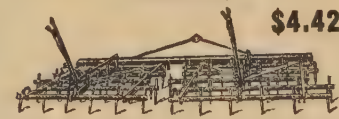

No. 32F415 14 16-inch Disc Harrow. Wt. 530 lbs. Price \$20.58

No. 32F416 16 16-inch Disc Harrow. Wt. 545 lbs. Price \$22.25

Handy Disc and Tool Grinder.

This will be found much more desirable than the common pattern of disc sharpeners, because instead of cutting the disc with a steel tool, it grinds the disc the same as you would grind any tool, and does the work perfectly, rapidly and easily. When crank is turned at ordinary speed, the emery wheel makes about 1,400 revolutions per minute. The disc is attached to a pivot hub on a slotted standard and both the hub and standard can be adjusted for any diameter of disc and to give any desired bevel. It will grind any disc or coulter blade up to 24 inches in diameter. By removing the disc holder from the tool rest the machine can be used as an ordinary tool grinder and for sharpening plow points, cultivator shovels, etc. Shipped from Chicago.

No. 32F410 Disc and Tool Grinder. Wt. 18 lbs. Price \$2.08

Kenwood "U" Bar Steel Lever Harrows.**\$4.42**

The best designed and best constructed "U" bar harrows made. Frames are made of steel throughout and are braced with diagonal cross braces. Teeth can be set at any angle by adjusting the ratchet levers, or harrow can be tilted to run on the runners. The teeth are square and are firmly secured by perfect fastenings. Made in sections, each section having 30 teeth and cutting about 5 feet wide. Each corner of each section is provided with a runner. Price is for harrow complete with drawbar, the 90 and 120-tooth harrows being furnished with adjustable drawbars so that a less number of sections can be used if desired. Shipped knocked down from factory in Southwestern Ohio.

PRICE WITH 1/4-INCH SQUARE TEETH.

No. 32F455a 30-tooth "U" Bar Lever Harrow. Wt. 115 lbs. Price \$4.42

Kenwood Disc Harrows.**\$14.88**

These are first class disc harrows; and are a great deal better than the harrows sold by the average dealer. They are perfect in operation and are well constructed throughout of the best materials. Frames are heavy angle steel bars, axles are square steel and spools are solid. Bearings are made on correct principles and are dustproof. Draft is from the axles, four draft rods connecting with the tongue, these rods being attached directly in front of the bearings. Discs are carefully ground and oil tempered. Each gang is operated by its own lever so that both gangs may be set at the same angle or each may be set at different angles. 8 16-inch and 10 16-inch harrows are furnished with two-horse hitch; 12 16-inch, 10 18-inch, 12 18-inch and 10 20-inch harrows are furnished with three-horse hitch; all other sizes are furnished with four-horse hitch. Harrows with eight discs cut 4 feet, with ten discs, 5 feet; with twelve discs, 6 feet; with fourteen discs, 7 feet; and with sixteen discs, 8 feet. Scrapers are from, operated by foot levers within convenient reach of the feet. Shipped knocked down from factory in Southwestern Ohio.

Kenwood Disc Harrow Broadcast Seeders.**\$31.85**

These are our regular Kenwood Disc Harrows, but with seeder attachments. The seeder attachment will sow broadcast, wheat, oats, barley and other similar seeds, but is not intended for grass seed. It has a force feed and can be adjusted to sow any desired quantity per acre. Gangs can be set at an angle so as to cover either deep or shallow. Has a center drag tooth back of and between the gangs. Either or both sides of the seeder can be used as desired, or attachment can be removed entirely. The harrows cut 6 feet. The 12 16-inch and 12 18-inch harrows have three-horse hitch, and the 12 20-inch harrow has four-horse hitch. Shipped knocked down from factory in Southwestern Ohio.

No. 32F442 12 16-inch Disc Harrow Seeder. Wt. 550 lbs. Price \$31.85

No. 32F445 12 18-inch Disc Harrow Seeder. Wt. 585 lbs. Price \$33.75

No. 32F448 12 20-inch Disc Harrow Seeder. Wt. 615 lbs. Price \$35.45

Kenwood Boss Harrows.**\$4.48**

These are guaranteed to be the best boss harrows made. Frames are made of seasoned oak, strongly riveted at each tooth and firmly braced. Teeth are 1/4 inch square. Sections are independently connected to drawbar with drop link clevises allowing flexibility. The 60-tooth harrow cuts 10 1/2 feet, has one center and one side section. The 78-tooth harrow cuts 13 feet, has one center and two narrow side sections. The 102-tooth harrow cuts 16 1/2 feet, has one center and two wide side sections. The 150-tooth harrow cuts 26 feet, has one center, two wide and two narrow side sections. Price includes drawbar, 102-tooth and 150-tooth harrows having adjustable drawbars so that a less number of sections can be used if desired. The 150-tooth harrow is fitted with chain equalizers. Shipped knocked down from factory in Southwestern Wisconsin.

No. 32F471 60-tooth Boss Harrow. Wt. 155 lbs. Price \$4.48

No. 32F472 78-tooth Boss Harrow. Wt. 190 lbs. Price \$5.58

No. 32F474 150-tooth Boss Harrow. Wt. 390 lbs. Price \$10.88

Kenwood Flexible Harrows.**\$4.28**

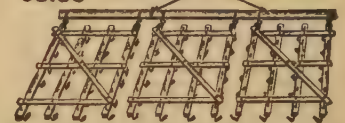

One of the most desirable harrows made. The flexible frame allows the harrow to adjust itself to uneven surfaces and do perfect work. Drawing the harrow one way the teeth are s'anting; drawing the other way, they are perpendicular. Frames are made of seasoned oak, strongly riveted at each tooth and connected by iron link bars. Made in sections, each section having forty 1/2-inch square teeth and cutting about 5 1/2 feet wide. Price includes drawbar, the 120-tooth and 160-tooth harrows having adjustable drawbars so that a less number of sections can be used if desired. Shipped knocked down from factory in Southwestern Wisconsin.

No. 32F481 40-tooth Flexible Harrow. Wt. 110 lbs. Price \$4.28

BEE KEEPERS' SUPPLIES.

Our line of bee keepers' supplies is comprised of the best, most modern and most desirable hives, etc., on the market. They are made by a manufacturer who has been in this line of business for over twenty years and who understands every requirement of the up to date bee keeper. Bee hives are generally used 1½ stories high, that is, with brood or bottom hive and one hive super or top hive, but you can make two-story hives by ordering extra hive supers. They are always shipped partly knocked down and are not painted. Usually they are ordered in lots of five.

The illustration at the top shows a crate of five hive supers; the one at the bottom shows a crate of five brood hives; together they make five 1½-story hives. Our brood hives are standard size, with Langstroth frames, and are 18½ inches long by 12½ inches wide inside. They have invertible bottom and rainproof top. Brood hives are 9½ inches deep and are complete with eight self-spacing frames. One follower, one bottom and one cover. Prices on hives and supplies are as follows:

Kenwood Extracting Dove-tailed Hives.**\$6.64 for 5**

These hives are especially designed for honey that is to be extracted from the comb. The illustration at the left shows a complete 1½-story hive. The illustration at the right shows the hive super, which is 5½ inches deep and fitted with eight 5¼-inch shallow Hoffman frames. Sections cannot be used in these supers. The brood hive is the same as is used with our Standard Hive. Shipped knocked down.

No. 32F2819 Crate of five 1½-story Extracting Hives. Wt., 127 lbs. Price, \$6.64
No. 32F2820 Crate of five 1-story Brood Hives. Wt., 92 lbs. Price, \$4.84
No. 32F2821 Crate of five Extracting Hive Supers. Wt., 35 lbs. Price, \$1.80
No. 32F2822 Single 1½-story Extracting Hive. Wt., 27 lbs. Price, \$1.57
No. 32F2823 Single 1-story Brood Hive. Wt., 19 lbs. Price, \$1.13
No. 32F2824 Single Extracting Hive Super. Wt., 8 lbs. Price, \$1.42

Kenwood Standard Dove-tailed Hives.**\$7.42 for 5**

These are standard dovetailed hives and are fitted with supers and sections for comb honey. The illustration at the left shows a complete 1½-story hive. The illustration at the right shows the hive super, which is 4½ inches deep and fitted with six scalloped section holders, five separators, one adjustable follower board, twenty-four 4¼x11½-inch scalloped sections and twenty-four foundation starters. Extracting frames cannot be used in these supers. Brood hives are standard. Shipped knocked down from Chicago.

No. 32F2825 Crate of five 1½-story Standard Hives. Wt., 130 lbs. Price, \$7.42
No. 32F2826 Crate of five 1-story Brood Hives. Wt., 92 lbs. Price, \$4.84
No. 32F2827 Crate of five Standard Hive Supers. Wt., 35 lbs. Price, \$2.58
No. 32F2828 Single 1½-story Standard Hive. Wt., 27 lbs. Price, \$1.80
No. 32F2830 Single 1-story Brood Hive. Wt., 19 lbs. Price, \$1.13
No. 32F2831 Single Standard Hive Super. Wt., 8 lbs. Price, \$1.42

Section Honey Boxes.

Our one-piece scalloped sections are made of clear basswood, perfect in finish and free from defects. They are No. 1 grade and the very best sections made. Size is 4¼x4¼x1½ inches. Sold only in full crates. Shipped knocked down from Chicago.

No. 32F2832 Crate of 500 Sections. Wt., 36 lbs. Price, \$2.48
No. 32F2833 Crate of 250 Sections. Wt., 18 lbs. Price, \$1.44

Hoffman Self-Spacing Frames.

The deep frame is the same size as the Langstroth frames used in all of our brood hives. It is 17½ inches long by 9½ inches deep, with 19-inch top piece. The shallow frame is the same as is used in our extracting hive supers. It is 17½ inches long, 5½ inches deep and has 19-inch top piece. Sold only in full crates. Shipped knocked down from Chicago.

No. 32F2834a Crate of 100 Shallow Hoffman Frames. Wt., 26 lbs. Price, \$1.58
No. 32F2834b Crate of 100 Deep Hoffman Frames. Wt., 45 lbs. Price, \$2.32

Wax Comb Foundation.

Made of strictly pure, bright yellow bees wax. Very tough, perfectly free from grit and dirt and easily worked by the bees. Brood foundation sheets are 8x16½ inches and run about 7 or 8 sheets to the pound. Super foundation sheets are 3¼x16½ inches and run about 27 sheets to the pound. Sold only in even pounds. Shipped from Chicago.

No. 32F2835 Medium Brood Foundation. Price, per lb. 56c

No. 32F2836 Thin Super Foundation. Price, per lb. 63c

Kenwood Section Press.

This press is for putting together one-piece section honey boxes. One sweep of the lever presses the dovetailed ends together squarely, without breaking the corners.

Made only for 4¼x4¼-inch sections. Shipped from Chicago.

No. 32F2837 Section Press. Wt., 1½ lbs. Price, \$4.42

Kenwood Foundation Fastener.

A splendid tool for fastening comb foundation into section boxes. Made only for 4¼x4¼-inch sections. Shipped from Chicago.

No. 32F2838 Foundation Fastener. Wt., ¼ lb. Price, \$23c

Kenwood Honey Shipping Cases.

These are the best and neatest shipping cases made. A heavy sheet of Manila paper in the bottom prevents them from leaking, and thin strips over this paper keep the sections away from the drippings. Front glass is 2 inches wide and fits into grooves. A follow board key sections close together and holds them tight. Each case holds twenty-four 4¼x4¼x1½-inch scalloped sections. Sold only in full crates. Shipped knocked down from Chicago.

No. 32F2839 Crate of ten Honey Shipping Cases. Wt., 40 lbs. Price, \$1.74

Kenwood Bee Feeder.

This is the most satisfactory feeder made. It sets into the brood hive in place of a brood frame or the division board. It can be used for stimulating as well as feeding in the winter. Bees can be fed without exposing the cluster and without smoking. Holds three pints, is nailed together and inside is coated with paraffine wax. Shipped from Chicago.

No. 32F2840 Bee Feeder. Wt., ¾ lb. Price, \$26c

Kenwood Swarm Catcher.

This is a very simple catcher but is the best made. It is a conical wire basket with four sides and a cover and is to be attached to a long pole or handle. Pole is not included in price, as any long pole will answer. Shipped from Chicago.

No. 32F2841 Swarm Catcher. Wt., 4 lbs. Price, \$2c

Kenwood Bee Escape.

This escape can be placed under hive supers which are crowded with bees, without fear of smothering the bees and it cannot become clogged. The hum of the bees below induces the upper bees to descend through the wire cones in less time than with any other escape. Shipped from Chicago.

No. 32F2842 Bee Escape. Wt., 1½ lbs. Price, \$34c

Kenwood Bee Smoker.

The best smoker on the market, convenient, well made and very serviceable. Has 3½-inch lined fire chamber, made of heavy tin, beaded. The metal parts which attach the fire chamber to the bellows are riveted to the fire chamber and screwed to the bellows. Nozzle is hinged to top of bellows. A conical connection between bellows and fire chamber compels all air from bellows to be forced through the fuel. Its strength of blast is surprising. Shipped from Chicago.

No. 32F2843 Kenwood Bee Smoker. Wt., 1½ lbs. Price, \$72c

Globe Bee Veil.

The best protection against bees. Has five light spring steel bars which keep the veil away from the face and neck. These bars are buttoned to studs on the neckband of the veil. Made of French cotton tulle with silk face piece. Shipped from Chicago.

No. 32F2844 Globe Bee Veil. Wt., 6 ozs. Price, \$92c

Kenwood Bee Veil.

This veil is a perfect protection for the head. It contains about 1½ yards of the very best imported French cotton tulle and has a silk face. It is long, is cut out for the shoulders and has a cord in the upper edge to draw around crown of hat.

Very light and will not obscure the vision. Price is for veil only and does not include a hat. Shipped from Chicago.

No. 32F2845 Bee Veil. Wt., ½ oz. Price, \$53c

Kenwood Uncapping Knife.

A large and strong knife, beveled on both edges so that it does not drag on the comb or adhere to the capping. Shipped from Chicago.

No. 32F2846 Uncapping Knife. Wt., ½ lb. Price, \$76c

Kenwood Honey Extractor.

The highest grade extractor on the market. Strongly made of galvanized steel, with conical bottom and supplied with anchor rods. The comb pockets are hinged like a door inside of a pair of hoops; the combs are put into these pockets (after uncapping), the honey extracted from one side by a few turns of the crank, and then without touching the comb, the pocket is swung around and a few more turns of the crank extracts the honey from the other side. Intended for extracting from frames, but pockets are 2½ inches wide, so that honey can be extracted from partly filled sections by placing them in a wide frame. Comb pockets 9½ inches, can 20 inches diameter and 28 inches high. The very best extractor made and suitable for general work. Shipped from Chicago.

No. 32F2847 Kenwood Honey Extractor. Wt., 70 lbs. Price, \$9.98

Fulton Honey Extractor.

This is a first class extractor, but smaller than the Kenwood, size of can being 28 inches high and 17 inches diameter. Screens of the comb basket are 10x17 inches. Will extract from two regular Langstroth or Hoffman frames at once, but frames have to be lifted out after extracting one side as comb pockets do not reverse, and it will not extract from sections. Shipped from Chicago.

No. 32F2848 Fulton Honey Extractor. Wt., 45 lbs. Price, \$7.52

Drone Trap and Swarm Guard

For exterminating drones when too numerous and to prevent loss of swarms. Front and back are covered with perforated zinc through which the workers can pass, but with holes too small for drones and fertile queens. In the act of swarming, the queen enters the upper compartment and the workers cluster on the trap ready to be hived. Shipped from Chicago.

No. 32F2849 Drone Trap. Wt., ¾ lb. Price, \$37c

Zinc Honey Board.

Made for 8-frame hives. Has thin slats within the rim, with strips of zinc having two rows of holes between each two slats. Stiffer and stronger than other forms, and preserves the bee space more accurately. Shipped from Chicago.

No. 32F2850 Zinc Honey Board. Wt., 1½ lbs. Price, \$24c

Kenwood Two-Wheel Delivery Carts.

These carts are absolutely the best, strongest, lightest and most durable carts made. They are higher in price than ordinary carts, but the best is always the cheapest. The wheels have steel rod spokes, firmly riveted into broad half oval steel tires and into both ends of the long wheel hubs. Boxes are made with bound tops. Both ends and sides can be removed, leaving bottom flat. Boxes are supported by strong steel leaf springs. When standing still the end of the cart is supported by a hinged steel drop leg. These carts may be pushed or pulled. The No. 1 cart has 28-inch wheels with 1-inch tires; box is 34 inches long by 18½ inches wide and 7 inches deep inside; will carry 200 to 400 pounds. No. 3 cart has 36-inch wheels with 1½-inch tires; box is 37 inches long by 22½ inches wide and 9 inches deep inside; will carry 500 to 1,000 pounds. Shipped knocked down from Chicago.

No. 32F2901 No. 1 Delivery Cart. Wt., 70 lbs. Price, \$4.63

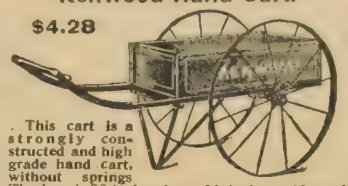

No. 32F2902 No. 3 Delivery Cart. Wt., 100 lbs. Price, \$7.92

Kenwood Three-Wheel Delivery Carts.

Exactly the same as our two-wheel delivery carts, except that they have a 14-inch third wheel at one end of the cart and do not have the drop leg. The No. 2 cart is the same dimensions and capacity as the No. 1 two-wheel cart. The No. 4 cart is the same dimensions as the No. 2 two-wheel cart. Shipped knocked down from Chicago.

No. 32F2903 No. 2 Delivery Cart. Wt., 85 lbs. Price, \$5.67

No. 32F2904 No. 4 Delivery Cart. Wt., 115 lbs. Price, \$8.98

Kenwood Hand Cart.**\$4.28**

This cart is a strongly constructed and high grade hand cart, without springs. The box is 36 inches long, 21 inches wide and 9½ inches deep inside. The axle is 1-inch round steel. The wheels are 36 inches high with 1½x¼-inch half oval tires. End boards are held in place by steel rods. Both ends and sides can be removed, leaving bottom flat. Shipped knocked down from Chicago.

No. 32F2907 Kenwood Hand Cart. Wt., 90 lbs. Price, \$4.28

Kenwood Steel Frame Barrel Cart.**\$2.88**

Will outlast several wood frame carts. Made entirely of steel and iron. The steel wheels are 36 inches high, with 1½x¼-inch half oval tires. The frame is bolted solidly to the axle castings and these castings are made to fit the side of a barrel to which they are to be bolted. A kerosene, molasses or vinegar barrel can be used. Price includes bolts to attach to barrel and one iron bracket or rest for bottom of barrel. Shipped knocked down from Chicago.

No. 32F2909 Barrel Cart. Wt., 55 lbs. Price, \$2.88

Kenwood General Utility Cart.**\$3.48 Without Box.**

Almost indispensable on the farm. Can be used as a barrel cart in connection with any number of barrels, only requiring an extra pair of barrel irons for each extra barrel. Can also be used with the box and the box can be dumped easily or removed instantly. With reel attachment it will be found very convenient for paying out or reeling up barbed wire. Wheels are steel and are 36 inches high with 1½x¼-inch half oval tires. Frame is hardwood and is strongly braced. Can be used with a kerosene, molasses or vinegar barrel. Price of the cart does not include the box, but does include one set of barrel irons and bolts for attaching. The cart box, wire reel attachment, box and ends, extra barrel irons when wanted, must be ordered at prices shown. Box is 41 inches long by 26 inches wide and 6 inches deep inside. Shipped knocked down from Chicago.

No. 32F2911 Utility Cart. Wt., 80 lbs. Price, \$3.48

No. 32F2912 Cart Box. Wt., 47 lbs. Price, \$1.47

No. 32F2913 Pair of Barrel Irons. Wt., 8 lbs. Price, \$1.42

No. 32F2914 Wire Reel Attachment. Wt., 18 lbs. Price, \$1.36

No. 32F2915 Pair of Box Ends. Wt., 7 lbs. Price, \$1.42

No. 32F2917 Pair of Cart Ends. Wt., 36 lbs. Price, \$1.72

Kenwood Portable Corn Crib.

Made of heavy hardwood fence lath, 4 feet long, securely woven together with six pairs of No. 12 galvanized wires, leaving slats about 1½ inches apart. Each crib consists of two sections, one to set on top of the other, making crib 8 feet high. They are rolled into bundles for shipping. To the outside bundle, which is for the lower section of the crib, we attach four wire stays which are to fasten inside the door to prevent crib from spreading when door is opened. Capacity is figured at 2 cubic feet to the bushel. Weights are subject to considerable variation. There is 74 lineal feet of woven cribbing in the 400-bushel crib, 88 feet in the 600-bushel crib, 108 feet in the 900-bushel crib, 124 feet in the 1200-bushel crib and 138 feet in the 1500-bushel crib. Shipped, bundled, from factory in Northern Illinois.

No. 32F2924 400-Bushel Corn Crib. Diam., 12 ft. Wt., 225 lbs. Price, \$3.63

No. 32F2925 600-Bushel Corn Crib. Diam., 14 ft. Wt., 300 lbs. Price, \$4.44

No. 32F2926 900-Bushel Corn Crib. Diam., 17 ft. Wt., 400 lbs. Price, \$5.52

No. 32F2927 1200-Bushel Corn Crib. Diam., 20 ft. Wt., 450 lbs. Price, \$6.08

No. 32F2928 1500-Bushel Corn Crib. Diam., 22 ft. Wt., 500 lbs. Price, \$7.34

Standard Fodder Ties.

These Ties are inexpensive, very convenient, hold better than a knot, are quickly fastened and can be used from year to year. You can prepare the ties for use before going to the field by tying the fodder yarn or twine to the loop. When you bind the shock or bundle you simply slip the end of the yarn into the grip and it holds fast. Price is for the metal ties only. You can use any kind of twine or yarn. Sold only in boxes of 100 ties. Shipped from Chicago.

No. 32F2931 Box of 100 Fodder Ties. Wt., 1 lb. Price.....21c

Kenwood Corn Shock Compressor.

43c With this Compressor one man can do more work and do it better than two men can do without it. It binds the shock tight and holds it while you tie the twine. Price is complete with rope. Shipped from Chicago.

No. 32F2933 Corn Shock Compressor. Wt., 2 1/2 lbs. Price.....43c

Kenwood Shoveling Boards.

The highest grade, best constructed, most convenient and most durable shoveling boards on the market. Can be easily adjusted to any depth of lower box. There are many cheap, low grade shoveling boards made, some of which can be sold for \$1.35 or less, but they are of no value and we will not sell that class of boards. The best are none too good. Shipped from Chicago.

No. 32F2935 Shoveling Board for 38-inch Box. Wt., 45 lbs. Price.....\$1.82

No. 32F2936 Shoveling Board for 42-inch Box. Wt., 48 lbs. Price.....\$1.86

Kenwood Swinging Cattle Stanchion, 96c.

This Stanchion is much superior to any other on the market. The illustration shows two stanchions set in the stable frame work. One shows closed and locked. When in this position it turns or swings freely on its pivots, allows the animal to take easy and natural positions whether standing or lying down, is securely locked so that the animal cannot open it. The other shows open, and when it is in this position it is held squarely so that the animal cannot turn it and has no trouble when putting its head into the stanchion. The stanchion is 4 feet high with 6 1/2 inch space between the upright bars. Both top and bottom are made of steel and iron, and the pivots are iron. Sold in any quantity, but the freight on six or eight is only about the same as on one. Shipped from Chicago.

No. 32F2939 Cattle Stanchion. Wt., 15 lbs. Price.....96c

Kenwood Stock, Grain and Hay Racks.

There are no better racks made at any price. Worth two of the ordinary, cheaply constructed racks. Made of the best quality of materials and of standard dimensions. Can be used as a stock rack, a hay rack or a grain box. Complete with high front ladder. Sides and ends of rack can be removed from the box. Weight about 600 pounds. Price per foot knocked down from factory in Northeastern Indiana.

No. 32F2950 14-foot Combination Rack for 38-inch Bolster. Price.....\$15.12

No. 32F2951 14-foot Combination Rack for 42-inch Bolster. Price.....\$15.42

No. 32F2952 16-foot Combination Rack for 38-inch Bolster. Price.....\$16.12

No. 32F2953 16-foot Combination Rack for 42-inch Bolster. Price.....\$16.42

Quality and Price Guarantee. We guarantee every article in this catalogue to be lower in price than the same quality of goods can be bought elsewhere. If a house ever meets our price on any article they do it at the expense of quality; if you do not find this so by comparing the goods or if you ever buy anything from us that is not lower in price than the same high quality of goods can be bought from any other house, you are especially requested to return our goods at our expense and get your money back at once.

STUMP PULLERS AND ATTACHMENTS.

A Special Stump Puller Catalogue Mailed Free on Request.

Our line of stump pullers and attachments for same is so extensive and complete that we have found it desirable to issue a Special Stump Puller Catalogue devoted exclusively to stump pullers and the items which go to make up a complete stump pulling outfit. This complete Stump Puller Catalogue will be sent to you free if you will write us and ask us for it. In this special catalogue we show large illustrations of our stump pullers and attachments, describe them in detail, tell you all about how to order a stump puller outfit and what size of machine you would require for certain classes of work. We also print in this special catalogue illustrations showing what the Kenwood stump pullers have done and many testimonials from users of Kenwood stump pullers. You can make your selection from this general catalogue with every assurance that you will get the goods you want and that you will be satisfied. We will save you money and furnish you with a better stump puller outfit than you can obtain from any other source.

TEN DAYS' FREE TRIAL OFFER ON STUMP PULLERS.

We Will Refund Your Money and Pay the Freight Charges if These Goods are Not Perfectly Satisfactory.

All stump pullers and attachments, Nos. 32F2715 to 32F3788 inclusive, are shipped on the understanding and agreement that after receiving them you are to have TEN DAYS in which to give them a thorough trial and to compare them with similar goods of any other make, and if during the trial period you find any reason to be dissatisfied with the quality, utility or value of the goods, you can return them to us and we will not only return your money but pay the freight charges both ways. You take no risk whatever in ordering your stump pullers from us. They must satisfy and please you or you get your money back.

The Kenwood Stump Pullers.

A first class stump puller is not an expense. It is simply an investment which is made in order that its owner may reclaim good lands and thus greatly increase his income.

Showing a Kenwood Stump Puller anchored and with straight hitch onto stump.

Showing a complete Kenwood Stump Puller.

The strength and efficiency of a stump puller is no greater than the strength of the steel cables which are furnished with the machine, and the quality and class of the steel cables as well as their size, govern their strength. On all sizes we can furnish Special steel cable made from a special grade of steel, combining high tensile strength with flexibility without any tendency to brittleness. On No. 3 and larger we can furnish English steel cable, the highest grade, the strongest, the toughest, and the most flexible steel cable which can be made. These cables cost a great deal more than ordinary cables, but they make our stump pullers many times more valuable than other machines because crucible steel or plow steel cables are not suitable for this class of work. Aside from this, the design and construction of our machines are greatly superior to other makes. Anchor cables are same size and same grade as pulling cables and are fitted complete with cable clips.

The main frame of our stump pullers is very solid, strong and heavy. The heavy anchor hook on the front arch is long, providing a good distance between the center of the spool and the hook, thus preventing the machines from tipping. The drum is of large diameter and grooved so that the cable will wind properly from bottom to top, placing an equal strain on each strand of the cable. The sweep casting has an eccentric on each side and the machine can be put in or out of gear easily without the slightest strain. The ratchet hook is at the point and the team can pass over the pulling cable with loose hitch or you can work the machine in corners or in close quarters. All but the two smallest machines are provided with a hand lever with which you can easily wind up slack cable. On all sizes the drum can be set free to pay out the cable.

Price is for the machine complete, as shown in the illustration at the right, but does not include a wood sweep or platform plank. We advise you to order and use a double power pulley in every case because it doubles the power and increases the efficiency of your stump puller. We also advise you to use a take-up, especially when your pulling cable is over 50 feet long or when pulling a stump on a short hitch, because you should not wind more than one layer of cable on the drum when at work, and the take-up practically doubles the amount of work you can do and enables you to pull a number of stumps at one setting.

We guarantee the machine part of every Kenwood Stump Puller we sell for one year from date of shipment, and will replace free any defective or broken part during that time, and we will replace any of our cable which breaks during that time, provided the cable does not show that it has been broken by a short bend or by misuse. Order a Kenwood Stump Puller, and if it is not a better machine than you can obtain elsewhere at any price, return it and we will refund your money and pay the freight. Shipped from factory in Eastern Iowa.

No. 32F3715 No. 1 Stump Puller, suitable for use by hand or for one horse on an 8-foot sweep. Furnished with a 6-foot anchor loop and 50 feet of 3/4-inch special steel pulling cable. Guaranteed to stand a strain of 45,000 pounds when a double power pulley is used. Wt., 300 lbs. Price.....\$14.38

No. 32F3716 No. 2 Stump Puller, suitable for use with one horse on a 10-foot sweep. Furnished with an 8-foot anchor loop and 50 feet of 3/4-inch special steel pulling cable. Guaranteed to stand a strain of 70,000 pounds when a double power pulley is used. Wt., 400 lbs. Price.....\$20.25

No. 32F3717 No. 3 Stump Puller, suitable for use with two horses on a 12-foot sweep. Furnished with a 10-foot anchor loop and 50 feet of 3/4-inch special steel pulling cable. Guaranteed to stand a strain of 100,000 pounds, when a double power pulley and English cable is used. Wt., 600 lbs. Price, with special cable, \$29.55. Price, with English cable.....\$35.55

No. 32F3718 No. 4 Stump Puller, suitable for use with two horses on a 14-foot sweep. Furnished with a 12-foot anchor loop and 50 feet of 3/4-inch special steel pulling cable. Guaranteed to stand a strain of 130,000 pounds when a double power pulley and English cable is used. Wt., 850 lbs. Price, with special cable, \$40.65. Price, with English cable.....\$49.65

No. 32F3719 No. 5 Stump Puller, suitable for use with two horses on a 16-foot sweep. Furnished with a 12-foot anchor loop and 75 feet of 1-inch special steel pulling cable. Guaranteed to stand a strain of 180,000 pounds when a double power pulley and English cable is used. Wt., 1,000 lbs. Price, with special cable, \$46.35. Price, with English cable, \$56.35

No. 32F3720 No. 6 Stump Puller, suitable for use with two horses on an 18-foot sweep. Furnished with a 14-foot anchor loop and 75 feet of 1 1/4-inch special steel pulling cable. Guaranteed to stand a strain of 240,000 pounds when a double power pulley and English cable is used. Wt., 1,200 lbs. Price, with special cable, \$52.12. Price, with English cable, \$62.12

NOTE: If you want a longer pulling cable or anchor loop, or a long single line and anchor cable with hook, allow price of such kind and extra length of cable and hooks as you may require and state whether you want the pulling cable in one length or in pieces.

Plain Double Power Pulleys.

For those who wish to make double power pulleys with different lengths of cable than as listed by us, or who have cable which they wish to use for this purpose, we are prepared to furnish plain double power pulleys without cable or hook. These pulleys are exactly the same as those furnished with our complete double power pulleys. The size number indicates the size of the machine with which they are to be used. Shipped from factory in Eastern Iowa.

No. 32F3721 No. 1 Plain Double Power Pulley. Wt., 45 lbs. Price.....\$2.72

No. 32F3722 No. 2 Plain Double Power Pulley. Wt., 50 lbs. Price.....\$2.92

No. 32F3723 No. 3 Plain Double Power Pulley. Wt., 55 lbs. Price.....\$3.22

No. 32F3724 No. 4 Plain Double Power Pulley. Wt., 70 lbs. Price.....\$4.12

No. 32F3725 No. 5 Plain Double Power Pulley. Wt., 75 lbs. Price.....\$4.82

No. 32F3726 No. 6 Plain Double Power Pulley. Wt., 95 lbs. Price.....\$6.12

Plain Steel Take-Ups.

This Take-Up consists of one solid piece of cast steel and requires no hitch cable. It serves the double purpose of a take-up and a cable hook and can be used at any desired point on the pulling cable. It is not so convenient or easy to operate as our cam take-up, but it is much superior to any form of take-up of other manufacture. No. 1 is for use with Nos. 1, 2 and 3 Stump Pullers; No. 2, for No. 4 Stump Puller; No. 3, for No. 5 Stump Puller, and No. 4, for No. 6 Stump Puller. Shipped from factory in Eastern Iowa.

No. 32F3735 No. 1 Plain Take-Up. Wt., 25 lbs. Price.....\$3.76

No. 32F3736 No. 2 Plain Take-Up. Wt., 33 lbs. Price.....\$4.72

No. 32F3737 No. 3 Plain Take-Up. Wt., 40 lbs. Price.....\$5.62

No. 32F3738 No. 4 Plain Take-Up. Wt., 50 lbs. Price.....\$6.82

Complete Double Power Pulleys.

We recommend that you include one of these attachments in your order for a stump puller, as it will double the efficiency and capacity of your machine. A complete double power pulley consists of the pulley with the cable a hook and the clips. The number indicates the size of machine with which they are to be used. Shipped from factory in Eastern Iowa.

No. 32F3728 No. 1 Complete Double Power Pulley, with 8 feet of 3/4-inch special steel cable. Wt., 75 lbs. Price.....\$5.48

No. 32F3729 No. 2 Complete Double Power Pulley, with 10 feet of 1-inch special steel cable. Wt., 81 lbs. Price.....\$6.72

No. 32F3730 No. 3 Complete Double Power Pulley, with 12 feet of 1-inch English steel cable. Wt., 101 lbs. Price.....\$10.76

No. 32F3731 No. 4 Complete Double Power Pulley, with 15 feet of 1 1/4-inch English steel cable. Wt., 120 lbs. Price.....\$13.12

No. 32F3732 No. 5 Complete Double Power Pulley, with 15 feet of 1 1/4-inch English steel cable. Wt., 125 lbs. Price.....\$15.12

No. 32F3733 No. 6 Complete Double Power Pulley, with 20 feet of 1 1/2-inch English steel cable. Wt., 190 lbs. Price.....\$23.55

Cam Take-Ups.

Our Cam Take-Up is the most satisfactory take-up ever made. It holds the cable between a grooved block and cam without injuring the cable. By using this attachment you will more than double the capacity of your stump puller, as it enables you to make hitches much more rapidly. It can be used with or without double power pulley, and at any point between the stump puller and the stump. The No. 1 is for use with our Nos. 1, 2 and 3 Stump Pullers; No. 2 is for use with our No. 4 Stump Puller; and No. 3 is for use with our Nos. 5 and 6 Stump Pullers. Price is for cam take-up complete, with hitch cable and hook. Shipped from factory in Eastern Iowa.

No. 32F3740 No. 1 Cam Take-Up, with 10 feet of 3/4-inch English steel cable. Wt., 48 lbs. Price.....\$7.42

No. 32F3742 No. 2 Cam Take-Up, with 10 feet of 3/4-inch English steel cable. Wt., 60 lbs. Price.....\$10.72

No. 32F3744 No. 3 Cam Take-Up, with 12 feet of 1-inch English steel cable. Wt., 75 lbs. Price.....\$13.48

Forged Steel Stump Hooks.

Our stump or root hooks are extra heavy and are made of the very best forged steel. Most hooks of other manufacture are made of cast steel or malleable iron. These hooks are intended to be used when stumps are too low or so badly decayed that the pulling cable cannot be hitched around them. They are made very deep so they will hook over the stumps. No. 1 Stump Hook is for use with our Nos. 1, 2 and 3 Stump Pullers; No. 2 is for use with our No. 4 Stump Puller, and No. 3 is for use with our Nos. 5 and 6 Stump Pullers. Shipped from factory in Eastern Iowa.

No. 32F3752 No. 1 Steel Stump Hook. Wt., 50 lbs. Price.....\$6.72

No. 32F3754 No. 2 Steel Stump Hook. Wt., 65 lbs. Price.....\$8.06

No. 32F3756 No. 3 Steel Stump Hook. Wt., 75 lbs. Price.....\$9.42

Special Steel Stump Puller Cable.

This is a strong, flexible and very high grade cable, not so good as our English steel cable, but better than most other stump puller cables. It is made from a special grade of steel and combines high tensile strength with flexibility and without a tendency to brittleness. When ordering additional cable for either machine or attachment, be sure to order the same size of cable the machine or attachment is regularly fitted with. Shipped from factory in Eastern Iowa.

No. 32F3760 3/4-inch Special Steel Cable. Wt., 1 lb. Price, per foot.....13c

No. 32F3761 1-inch Special Steel Cable. Wt., 1 lb. Price, per foot.....16c

No. 32F3762 1 1/4-inch Special Steel Cable. Wt., 1 1/4 lbs. Price, per foot.....20c

No. 32F3763 1 1/2-inch Special Steel Cable. Wt., 1 1/2 lbs. Price, per foot.....26c

No. 32F3764 1 3/4-inch Special Steel Cable. Wt., 2 lbs. Price, per foot.....32c

English Steel Red Strand Stump Puller Cable.

This is the highest grade, the strongest and most serviceable stump puller cable that has ever been produced. It is the cable we furnish with our highest priced Nos. 3, 4, 5 and 6 Stump Pullers and with heavy attachments. This cable is composed of eight steel strands, each made of 19 wires, carefully drawn from a patent steel, tempered to perfection. It is absolutely uniform in texture, elasticity and strength. When ordering additional cable for either machine or attachment, be sure to order the same size of cable the machine or attachment is regularly fitted with. Shipped from factory in Eastern Iowa.

No. 32F3768 3/4-inch English Steel Cable. Wt., 1 lb. Price, per foot.....26c

No. 32F3769 1-inch English Steel Cable. Wt., 1 1/4 lbs. Price, per foot.....33c

No. 32F3770 1 1/4-inch English Steel Cable. Wt., 1 1/2 lbs. Price, per foot.....40c

No. 32F3771 1 1/2-inch English Steel Cable. Wt., 2 lbs. Price, per foot.....49c

No. 32F3772 1 3/4-inch English Steel Cable. Wt., 2 1/4 lbs. Price, per foot.....60c

No. 32F3773 1 1/2-inch English Steel Cable. Wt., 3 1/2 lbs. Price, per foot.....82c

Hooks for Stump Puller Cable.

These hooks are the same as those furnished on the pulling cable of our stump pullers and on the hitch cable of the double power pulleys and can take-ups. They can be used on the pulling cables or anchor cables of any make of stump puller using the same size of cable. Shipped from factory in Eastern Iowa.

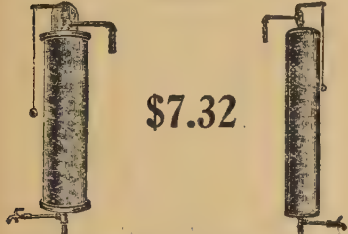

- No. 32F3775 Hook for 3/8-inch Cable. Wt. 7 lbs. Price, each \$1.10
- No. 32F3776 Hook for 1/2-inch Cable. Wt. 9 lbs. Price, each \$1.34
- No. 32F3777 Hook for 3/4-inch Cable. Wt. 12 lbs. Price, each \$1.62
- No. 32F3778 Hook for 1-inch Cable. Wt. 14 lbs. Price, each \$1.80
- No. 32F3779 Hook for 1 1/8-inch Cable. Wt. 17 lbs. Price, each \$1.98
- No. 32F3780 Hook for 1 1/4-inch Cable. Wt. 19 lbs. Price, each \$2.27
- No. 32F3781 Hook for 1 1/2-inch Cable. Wt. 25 lbs. Price, each \$5.14

Clips for Stump Puller Cable.

We use these clips on all of our stump pullers and attachments. At least two should be used on cable up to 1 inch in diameter, and at least three on cable of larger diameter. Shipped from factory in Eastern Iowa.

- No. 32F3782 Clip for 3/8-inch Cable. Wt. 1/2 lb. Price, each \$1.5c
- No. 32F3783 Clip for 1/2-inch Cable. Wt. 1 1/2 lbs. Price, each \$1.8c
- No. 32F3784 Clip for 3/4-inch Cable. Wt. 2 lbs. Price, each \$2.2c
- No. 32F3785 Clip for 1-inch Cable. Wt. 2 1/2 lbs. Price, each \$2.7c
- No. 32F3786 Clip for 1 1/4-inch Cable. Wt. 3 1/2 lbs. Price, each \$3.2c
- No. 32F3787 Clip for 1 1/2-inch Cable. Wt. 3 1/2 lbs. Price, each \$3.8c
- No. 32F3788 Clip for 1 3/4-inch Cable. Wt. 4 1/2 lbs. Price, each \$4.3c

Automatic Pressure House Tanks.

\$7.32

Pressure house tanks are galvanized steel and are to be placed in the kitchen or bath room, or in any place where you want a supply of fresh, cool water. They are used in connection with windmill force pumps. Connect the pipe from the pump to the bottom of the tank and then run the pipe from the top of the tank to the storage or stock tank putting a check valve below and above the house tank. The low pressure tank shown at the left is for use with ordinary force pumps, holds 23 gallons, is 45 inches high by 12 inches diameter, is attached to a finished wall board, has cast iron heads and is tested at 120 pounds pressure. The high pressure tank, shown at the right, is for use with regulator pumps or cylinders, holds 30 gallons, is 65 inches high by 12 inches diameter, is all steel, is furnished with two wall brackets and tested at 200 pounds pressure. Price is for the tank complete with a pipe tee, a short piece of pipe and a faucet at the bottom and a pipe tee and an air valve with lever and chain at the top. Connections are for 1-inch pipe, but are fitted with 3/4-inch bushings. Shipped from factory in Northeastern Indiana.

- No. 32F4430 Low Pressure House Tank. Wt. 105 lbs. Price, each \$7.32
- No. 32F4431 High Pressure House Tank. Wt. 94 lbs. Price, each \$9.72

Kenwood Pumping Windmill Feed Grinder.

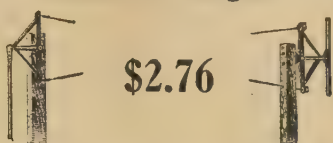

This feed grinder is for use in connection with 8-foot to 12-foot pumping windmills and can be used with any make of pumping windmill. Capacity is from one to six bushels or more per day, depending upon the velocity of the wind and the size of the windmill. Will grind any kind of small grain, either separate or mixed, and either coarse or fine. Price is for the grinder complete, which includes the iron elbow to connect with the windmill pump rod, but does not include the wood rod connection between the windmill and grinder, or bolts for attaching. Shipped from Chicago.

- No. 32F4460 Pumping Windmill Feed Grinder. Wt. 67 lbs. Price, each \$3.06
- No. 32F4461 Set of Extra Burrs. Wt. 10 lbs. Price, each \$1.04

FOR PRICES ON PUMP JACKS, PULLEYS AND SHEAVE WHEELS FOR POWER WINDMILLS
See pages 529 and 530.

Windmill Triangles.

\$2.76

When a pumping windmill is placed so that it does not set directly over the pump, if the distance is over 20 and less than 500 feet, triangles should be used. Triangles can also be used with power windmill pumping jacks. Price includes bolts for attaching to posts and about 8 feet of wood pump pole for attaching to pump. Price does not include connecting wire. You will require connecting wire about 10 feet longer than twice the distance between the windmill and the pump. Shipped from factory in Northeastern Indiana.

- No. 32F4432 Pair of Windmill Triangles. Wt. 45 lbs. Price, each \$2.76
- No. 32F4433 Connecting Wire. Wt. 1-16 lb. per foot. Price, per foot 1/4c

Windmill Rocker Cranks.

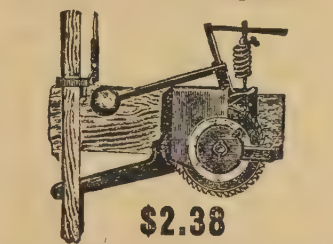

\$2.04

When a pumping windmill is placed so that it does not set directly over the pump, yet is within 20 feet, rocker cranks should be used. Price includes boxes for the shaft, lag screws for the boxes, pins to go into the ends of the shaft, hardwood bearing blocks for the crank pins, and about 8 feet of wood pump pole for attaching to the pump. Price does not include rocker shaft. You will require about 2 inches less than the distance between the center of the windmill pump rod and the center of the pump. Rocker cranks can also be used with power windmill pumping jacks. No. 1 cranks are for windmills 10 feet or less in diameter. No. 2 cranks are for the larger sizes of windmills. Shipped from factory in Northeastern Indiana.

- No. 32F4434 Pair of No. 1 Rocker Cranks. Wt. 24 lbs. Price, each \$2.04
- No. 32F4435 Pair of No. 2 Rocker Cranks. Wt. 32 lbs. Price, each \$2.56
- No. 32F4436 No. 1 Rocker Shaft. Wt. 2 1/2 lbs. Price, per foot 10c
- No. 32F4437 No. 2 Rocker Shaft. Wt. 3 1/2 lbs. Price, per foot 12c

Acme Windmill Regulator.

\$2.38

This is a particularly good regulator and easy to attach. We advise you to select it when the balance of your outfit is all shipped from the windmill factory. With a regulator attached to your windmill you control the amount of water pumped and have an additional protection against windstorms. Price is for the regulator complete, except the float, which you make of wood. Shipped from factory in Northeastern Indiana.

- No. 32F4442 Acme Windmill Regulator. Wt. 24 lbs. Price, each \$2.38

Peerless Windmill Regulator.

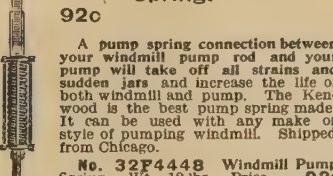

\$2.46

We consider this the best windmill regulator made, and when you are ordering other goods which will be shipped from our Chicago store, we advise you to select it. It is exceedingly simple in its construction and operation and easy to attach. The wire guide is in the form of a shunt so that the connecting wire is in one continuous piece. Price is for the regulator complete, except the float, which you make of wood, and includes directions for attaching. Shipped from Chicago.

- No. 32F4444 Peerless Windmill Regulator. Wt. 44 lbs. Price, each \$2.46

Kenwood Windmill Pump Spring.

92c

A pump spring connection between your windmill pump rod and your pump will take off all strains and sudden jars and increase the life of both windmill and pump. The Kenwood is the best pump spring made. It can be used with any make or style of pumping windmill. Shipped from Chicago.

- No. 32F4448 Windmill Pump Spring. Wt. 12 lbs. Price, each 92c

WINDMILLS AND TOWERS.

A SPECIAL WINDMILL CATALOGUE MAILED FREE ON REQUEST.

OUR LINE OF THIS CLASS OF GOODS is so complete and the goods are so important, that we issue a very large and handsome special catalogue, the most complete catalogue ever published, devoted exclusively to windmills, towers, tank structures and windmill attachments. This handsome and complete windmill catalogue will be mailed to you free, if you will write and ask us to send it to you. We list our complete line of these goods in this general catalogue, and you can make your selection from this catalogue, with every assurance that any of our windmill goods will give you perfect satisfaction, or your money and the freight charges will be refunded; but if you wish to see larger illustrations, or wish to learn more about the goods, how, and of what materials they are made, why our windmills and towers are better than any others, what many of our customers have to say about the windmills and the money they have saved by purchasing from us, don't think of buying from anyone until you have sent for and received our big free Special Windmill Catalogue.

SIXTY DAYS' FREE TRIAL OFFER ON WINDMILLS AND TOWERS.

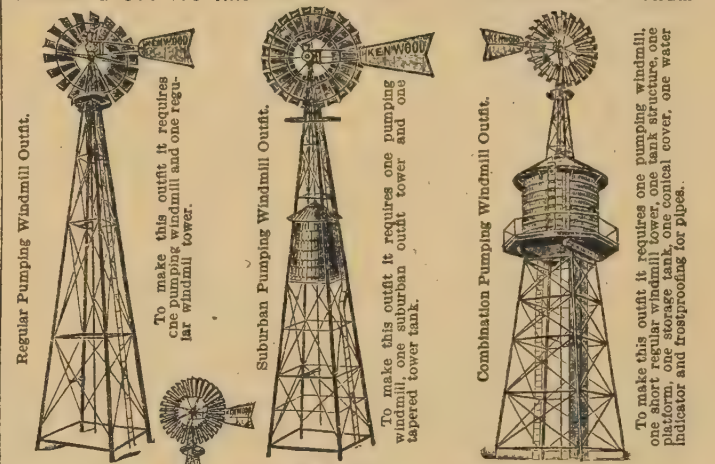

We will refund your money and pay the freight charges if these goods are not perfectly satisfactory.

ALL WINDMILLS, TOWERS AND TANK STRUCTURES, Nos. 32F4000 to 32F4430 inclusive, are shipped on the understanding and agreement that after receiving them you are to have SIXTY DAYS in which to give them a thorough trial and to compare them with similar goods of any other make, and if during the trial period you find any reason to be dissatisfied either with the quality, utility or value of the goods, you can return them to us and we will not only return your money, but pay the freight charges both ways. All other goods in this line, Nos. 32F4430 to 32F4730 inclusive, are shipped on TEN DAYS' trial terms, but under the exact same conditions that windmills and towers are shipped. You take no risk whatever in ordering windmill goods from us. They must satisfy and please you or you get your money back.

YOUR NAME ON THE WINDMILL RUDDER FREE OF CHARGE. OUR WINDMILLS ARE TIPPED WITH RED

on the ends of the windmill sails and around the rudder sheet and are the most handsomely finished windmills made. The name KENWOOD is stenciled on the upper part of both sides of the rudder. When you place your order, if you will attach to the order a slip of paper having your initials and last name CAREFULLY PRINTED thereon and state that you want your name put on the rudder of your windmill, we will stencil on both sides of the rudder, below the stem, without any charge whatever, but we cannot put on more than the initials and last name, because there is not room for more. If you want the windmill without any stenciling, so that you can sell it under your own name or brand, we will send the windmill with a plain rudder, but you must be careful to state this clearly in your order.

WINDMILL OUTFITS AND HOW TO SELECT THEM AND ORDER THEM.

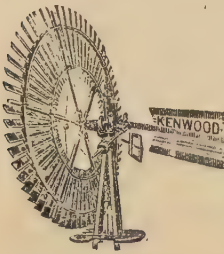

To make this outfit it requires one pumping windmill and one regular windmill tower. To make this outfit it requires one pumping windmill, one suburban outfit tower and one tapered tower tank. To make this outfit it requires one power windmill, one short regular windmill tower, vertical shafting 6 feet less in length than height from foot gear to top of tower, and one foot gear. You may also want horizontal shafting pulleys, a pump jack, etc. An outfit of this kind can be erected on a wood mast, in which case you would not require a tower, but you should order a set of guy rods.

THE FOLLOWING TABLE will tell you what size of pumping windmill to select for any depth of well, and what size of pump cylinder and piping you should use. Do not select too large a pump cylinder, and do not use a cylinder over four inches in diameter with ordinary pump or for other than irrigation work. Pumps and piping are not considered as being a part of a windmill outfit; these items you will find in another part of this catalogue.

CAPACITIES OF PUMPING WINDMILLS IN A 15-MILE WIND.

Size of Windmill	4 Feet	6 Feet	8 Feet	10 Feet	12 Feet	14 Feet	16 Feet

Windmills with Side Rudders.

THE TEXAS FAVORITES.

When a windmill is erected on the plain or where it does not receive frequent attention, a side rudder is very desirable, because it assists the regular governor in controlling the windmill and protecting it against heavy wind storms. We can furnish side rudders with either direct stroke steel or direct stroke wood windmills, but the side rudder, if wanted, must be ordered and price allowed. They are priced below the windmill prices.

Kenwood Direct Stroke Steel Pumping Windmills.

Our direct stroke steel pumping windmills are built and finished in exactly the same manner as our back geared windmills, except that the wind fans have a different angle and curvature and the engine head is not back geared. The turntable and hub of the wind wheel on 8-foot, 10-foot, and 12-foot windmills have ball bearings. The larger sizes are too heavy for ball bearings. Every bolt has two nuts. These windmills will govern perfectly under all conditions. They can be furnished with side rudders if so desired, but the side rudders must be ordered and price allowed. The price is for the windmill complete, which includes the wood pump pole, the pull out wire, a first class reefing gear, and the bed plate and truing spider with which the windmill is attached to the tower or mast. The price does not include a tower or a platform, the platform being a part of the tower. Unless otherwise ordered, when the windmill is ordered without a tower, we will ship it with bed plate and truing spider for a four-post wood tower and with sufficient pump pole and pull out wire for a tower 40 feet high. With every windmill we send complete instructions for erecting windmills and towers and for building four-post wood towers. Shipped knocked down from factory in Northeastern Indiana.

No. 32F4009	8-foot Direct Stroke Steel Pumping Windmill. Wt. 405 lbs. Price	\$16.92
No. 32F4010	10-foot Direct Stroke Steel Pumping Windmill. Wt. 520 lbs. Price	\$23.20
No. 32F4011	12-foot Direct Stroke Steel Pumping Windmill. Wt. 855 lbs. Price	\$38.85
No. 32F4012	14-foot Direct Stroke Steel Pumping Windmill. Wt. 1,225 lbs. Price	\$54.75
No. 32F4013	16-foot Direct Stroke Steel Pumping Windmill. Wt. 1,800 lbs. Price	\$83.75
No. 32F4016	Side Rudder for 8-foot steel windmill. Wt. 10 lbs. Price	\$1.57
No. 32F4017	Side Rudder for 10-foot steel windmill. Wt. 14 lbs. Price	\$1.72
No. 32F4018	Side Rudder for 12-foot steel windmill. Wt. 17 lbs. Price	\$2.23
No. 32F4019	Side Rudder for 14-foot steel windmill. Wt. 26 lbs. Price	\$2.84
No. 32F4020	Side Rudder for 16-foot steel windmill. Wt. 35 lbs. Price	\$3.52

Kenwood Direct Stroke Wood Pumping Windmills.

No. 32F4023	8-foot Direct Stroke Wood Pumping Windmill. Wt. 380 lbs. Price	\$15.98
No. 32F4024	10-foot Direct Stroke Wood Pumping Windmill. Wt. 470 lbs. Price	\$21.70
No. 32F4025	12-foot Direct Stroke Wood Pumping Windmill. Wt. 625 lbs. Price	\$36.85
No. 32F4026	14-foot Direct Stroke Wood Pumping Windmill. Wt. 1,100 lbs. Price	\$52.75

No. 32F4032	Side Rudder for 12-foot wood windmill. Wt. 20 lbs. Price	\$1.47
No. 32F4033	Side Rudder for 14-foot wood windmill. Wt. 30 lbs. Price	\$1.92
No. 32F4034	Side Rudder for 16-foot wood windmill. Wt. 40 lbs. Price	\$2.82

Steel Stub Tower.

We make a galvanized steel stub tower 5 feet high, which is suitable for either 4, 6, 8, or 10-foot pumping windmill. This stub is to fit onto the top of a wood tower to make the tower higher or to allow the wind wheel to clear the corners of the tower. It consists of four angle steel corner posts to fit the bed plate and truing spider of the windmill and eight bolts for attaching. It does not include a platform. Shipped knocked down from factory in Northeastern Indiana.

Kenwood Back Geared Steel Pumping Windmills.

\$11.62

These are the heaviest, strongest, best made and most hand-somely finished windmills on the market. They are galvanized after completion. The engine head is simple, strong and durable. The turntable and the hub of the wind wheel

on 4-foot, 6-foot, 8-foot, 10-foot and 12-foot windmills have ball bearings. The larger sizes are too heavy for ball bearings. Every bolt has two nuts. These are self governing windmills under all conditions. Each size of windmill has a different size and weight of engine head, whereas other windmills are made using the same engine head for different sizes. The price is for the windmill complete, which includes the wood pump pole, the pull out wire, a first class reefing gear, and the bed plate and truing spider with which the windmill is attached to the tower or mast, but price does not include a tower or a platform, the platform being a part of the tower. Unless otherwise ordered, when a pumping windmill is ordered without a tower, we will ship it with bed plate and truing spider for a 4-post wood tower and with sufficient pump pole and pull out wire for a tower 40 feet high. With every windmill we send complete instructions for erecting windmills and towers and for building 4-post wood towers. Shipped knocked down from factory in Northeastern Indiana.

No. 32F4000	4-foot Back Geared Steel Pumping Windmill. Wt. 240 lbs. Price	\$11.62
No. 32F4001	6-foot Back Geared Steel Pumping Windmill. Wt. 280 lbs. Price	\$12.98
No. 32F4002	8-foot Back Geared Steel Pumping Windmill. Wt. 425 lbs. Price	\$16.72
No. 32F4003	10-foot Back Geared Steel Pumping Windmill. Wt. 525 lbs. Price	\$22.95
No. 32F4004	12-foot Back Geared Steel Pumping Windmill. Wt. 880 lbs. Price	\$38.35
No. 32F4005	14-foot Back Geared Steel Pumping Windmill. Wt. 1,225 lbs. Price	\$54.25
No. 32F4006	16-foot Back Geared Steel Pumping Windmill. Wt. 1,800 lbs. Price	\$83.25

Self Oiling Attachments for Pumping Windmills.

If you have a self oiling attachment on your windmill, you will have to climb your tower only about once a year, because the oiler is operated from the ground and holds oil enough to last a year. Use Zero oil and it will not congeal in the coldest weather. We can furnish self oilers for our 6-foot, 8-foot, 10-foot, 12-foot, 14-foot and 16-foot pumping windmills, but the oiler must be ordered with the windmill so that it can be fitted at the factory. Price includes one gallon of oil. Shipped only with windmills from factory in Northeastern Indiana.

No. 32F3980	Oilier for 6-foot Windmill. Wt. 42 lbs. Price	\$3.89
No. 32F3981	Oilier for 8-foot Windmill. Wt. 45 lbs. Price	\$4.22
No. 32F3982	Oilier for 10-foot Windmill. Wt. 54 lbs. Price	\$5.16
No. 32F3983	Oilier for 12-foot Windmill. Wt. 60 lbs. Price	\$5.79
No. 32F3984	Oilier for 14-foot Windmill. Wt. 75 lbs. Price	\$6.92
No. 32F3985	Oilier for 16-foot Windmill. Wt. 75 lbs. Price	\$7.98

Kenwood High Geared Power Windmills.

\$43.60

Power windmills are made for transmitting power through shafting, pulleys and belts, so that you can run any pulley-driven machines within the limits of the power of the windmill. In a 15 to 20-mile wind a 12-foot power windmill will develop about two-horse power and a 14-foot power windmill will develop about three-horse power. The vertical shaft of both sizes makes about 275 revolutions per minute. Our power windmills are perfect in design, construction and finish. They are galvanized after completion. The engine heads and gearing are properly constructed, very strong and powerful. The turntable and the hub of the wind wheel on the 12-foot windmills have ball bearings. The 14-foot windmills are too heavy for ball bearings. Every bolt in the windmill has two nuts. These windmills are self governing under all conditions. Price is for the windmill complete which includes a vertical shaft extending 5 feet below the bed plate, the pull out wire, a first class reefing gear, and the bed plate and truing spider with which the windmill is attached to the mast or tower, but price does not include a tower or a platform, the platform being a part of the tower. The vertical shafting which connects with the vertical shaft of the windmill and extends to the foot gear and the foot gear which is at the bottom of the vertical shafting are not included in the price of the windmill. These are necessary, but they must be ordered as separate items and their price allowed. Unless otherwise ordered, when a power windmill is ordered without a tower, we will ship it with bed plate and truing spider for a 4-post wood tower and with sufficient pull out wire for a tower 40 feet high. With every windmill we send complete instructions for erecting windmills and towers and for building four-post towers and erecting power windmills on masts. Shipped knocked down from factory in Northeastern Indiana.

No. 32F4040	12-foot High Geared Steel Power Windmill. Wt. 850 lbs. Price	\$43.60
No. 32F4041	14-foot High Geared Steel Power Windmill. Wt. 1,250 lbs. Price	\$55.75

SELECTING A PUMPING WINDMILL.

Four-foot and six-foot pumping windmills are all right for very shallow wells, but we advise our customers to select an 8-foot windmill in preference to the smaller sizes.

FOR WINDMILL TOWERS, SEE NEXT PAGE.

Kenwood Galvanized Steel Tank Structures.

\$29.95

These are four-post structures and are built with the strength of five times the weight and wind strain they are to withstand. The corner posts and bands are extra heavy angle steel bars. The braces are heavy round steel and adjustable. The top beams are wood and rest on heavy iron top plates. Bands are 5 feet apart. There are eight braces for each 10 feet in height. The size number of the structure indicates the diameter and height of tank the structure will support. These structures can be used for supporting a tank only, as shown in this illustration, or they can be used in making up a combination pumping windmill outfit. The No. 6 structures have anchor posts and plates, all other sizes have foundation rods and foot plates for masonry foundations. Can furnish foundation rods with No. 6 structures, if so ordered, in place of anchor posts. Price is for the structure complete with anchorage, top beams, ladder, and plans and instructions for erecting. Price does not include platform and railing, tank, tank cover, or frostproof boxing for pipes. These, if wanted, must be ordered and price allowed. When a wood tank is ordered with a structure, we will extend the ladder to the top of the tank, without extra charge. Always order a wood tank when making up a combination pumping windmill outfit. Height of structures is from top of anchorage to bottom of top beams. Shipped knocked down from factory in Northeastern Indiana.

No. 32F3830	10-foot No. 6 Four-post Tank Structure. Wt. 850 lbs. Price	\$29.95

RELIABLE INCUBATORS AND BROODERS

MADE EXPRESSLY FOR US BY THE OLDEST, THE MOST REPUTABLE, THE BEST AND THE MOST FAVORABLY KNOWN INCUBATOR FACTORY IN THE WORLD, THAT OF THE RELIABLE INCUBATOR AND BROODER CO. A Special Incubator Catalogue Mailed FREE on Request.

There are no poultry raisers who are not familiar with the world-wide and enviable reputation of the RELIABLE Incubators and Brooders and but very few who do not know and acknowledge them to be the BEST Incubators and Brooders made. The RELIABLE Incubators were first made over twenty-three years ago and have been improved and modernized each year. They are used in all parts of the civilized world, and nearly every incubator now on the market has been copied from or made in imitation of the RELIABLE, which is an open acknowledgment that they are the BEST. We have been selling these incubators and brooders under the name KENWOOD but our sales have become enormous, being close to 25,000 machines each year, that the manufacturers have consented to our selling them under the RELIABLE name and giving to our customers the benefit of the RELIABLE reputation. If you buy a RELIABLE you can't go wrong, you have the reputation of the machine, the well known reliability of both the manufacturers and ourselves and our broad guarantee to protect you. No other concern or manufacturer can offer you equal protection. Remember, RELIABLE and KENWOOD Incubators are identical.

Our line of incubators, brooders, bone cutters and poultry supplies is so complete, so extensive, and so important that we issue a very large special catalogue which is devoted exclusively to this line of goods. This handsome and complete Incubator and Poultry Supply Catalogue will be mailed to you free if you will write and ask us to send it to you. We list our complete line of these goods in this general catalogue and you can make your selection from this catalogue with every assurance that any incubator, brooder, bone cutter or poultry supplies of any kind which you order from it will give you perfect satisfaction or your money and the freight will be refunded. We need not say to you, but you wish to see larger illustrations or wish to learn more about these goods, how and of what materials they are made, try our incubators, brooders, bone cutters, etc., are better than any others, what many of our customers have to say about this line of goods and the money they have saved by purchasing from us, don't think of buying from anyone until you have sent for and received our big Special Incubator Catalogue. We will save you money and furnish you with better goods than you can obtain from any other source.

Sixty Days' Free Trial Offer on Incubators and Brooders.

We will Refund Your Money and Pay the Freight Charges if These Goods are Not Perfectly Satisfactory. All incubators and brooders Nos. 32F6000 to 32F6559, inclusive, are shipped on the understanding and agreement that after receiving them you are to have SIXTY DAYS in which to give them a thorough trial and to compare them with the goods of any other make, and if during the trial period you find any reason to be dissatisfied either with the quality, utility or value of the goods, you can return them to us and we will not only return your money, but pay the freight charges both ways. Acme green bone cutters, Nos. 32F6521 to 32F6552, inclusive, are shipped on thirty days' trial terms, but under the exact same conditions that incubators and brooders are shipped. All other goods in this line, Nos. 32F6336 to 32F6515, inclusive, are shipped on TEN DAYS' trial terms, but under the exact same conditions that incubators and brooders are shipped. You take no risk whatever in ordering incubators and brooders or poultry supplies from us. They must satisfy you or you get your money back.

Description of Reliable Standard Incubators.

THE HIGHEST GRADE INCUBATORS MADE.

In the Reliable Standard Incubators we offer to our customers the highest degree of perfection that has ever been attained in the production of machines for artificial incubation. The case is made of the very best quality of thoroughly seasoned lumber and is most handsomely finished in the natural wood. The top, sides, ends and bottom of the case are double walled, with dead air spaces and non-heat conducting packing, the top being so thoroughly packed that it is impossible for any heat to escape from the machine. The doors are double, that is, there are two of them, and there is a heavy glass in each door. The heating apparatus is perfect and will maintain an even temperature and the heat regulator is absolutely accurate and dependable. In the hot air machines the heater tanks are made of steel, as are the fresh air tanks of the hot water machines, but the hot water tanks of hot water machines are made of 14-ounce copper, to make them durable and to keep them from rusting out. Some makers use steel for the hot air tanks, coat them with aluminum paint and call them aluminum. This kind of a tank is absolutely worthless for hot water and will rust out the first season, while copper tanks will last indefinitely. Our hot water machines are also supplied with a hot air system, thus combining the good qualities of both the hot water and hot air systems. All sizes of these machines are provided with a nursery beneath the egg tray. The egg trays of our Standard Incubators are provided with a patent turning rack with which you can turn all the eggs at one time without taking the tray out of the machine. The turning rack can be taken out if you do not wish to use it. If you desire to run the incubator to its full capacity. To those who want to obtain the best machines which money can buy, with the advantages of all of the improved appliances and special features which can be supplied, we recommend the Reliable Standard Incubators. The different sizes of these incubators are shown in the following illustrations.

Reliable 60-Egg Standard Incubators.

THE FANCIERS' FAVORITE.

\$6.98

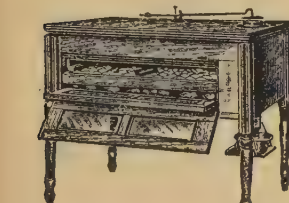

This is the smallest size of our high grade double wall incubators. It has double doors and a single egg tray and is fitted with a patent turning rack. When the turning rack is used the capacity is about one-third less. Incubators of this size are best adapted for raising fancy birds. Price includes a high grade thermometer, an egg tester, and an instruction book which also gives a great deal of practical information on poultry raising. Read the general description for details. Shipped from factory in Western Illinois.

No. 32F6000 60-Egg Standard Hot Air Incubator. Size, No. 49. Wt., 46 lbs. Price, \$6.98
No. 32F6001 60-Egg Standard Hot Water Incubator. Size, No. 50. Wt., 48 lbs. Price, \$8.23

Reliable 100-Egg and 200-Egg Standard Incubators.

THE POPULAR SIZES.

\$9.72

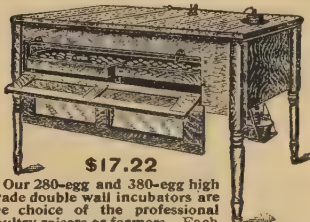

Our 100-egg and 200-egg high grade double wall incubators each have double doors and a single egg tray and are fitted with a patent turning rack. When the turning rack is used the capacity is about one-third less. These are the most popular sizes for home chicken raising. Price includes a high grade thermometer, an egg tester, and an instruction book which also gives more practical information on poultry raising than most poultry books. Read the general description for details. Shipped from factory in Western Illinois.

No. 32F6002 100-Egg Standard Hot Air Incubator. Size, No. 51. Wt., 120 lbs. Price, \$9.72
No. 32F6003 100-Egg Standard Hot Water Incubator. Size, No. 52. Wt., 125 lbs. Price, \$11.23
No. 32F6004 200-Egg Standard Hot Air Incubator. Size, No. 53. Wt., 174 lbs. Price, \$13.12
No. 32F6005 200-Egg Standard Hot Water Incubator. Size, No. 54. Wt., 175 lbs. Price, \$14.92

Reliable 280-Egg and 380-Egg Standard Incubators.

THE BEST SIZES FOR POULTRY FARMS.

\$17.22

Our 280-egg and 380-egg high grade double wall incubators are the choice of the professional poultry raisers or farmers. Each of these machines has double doors and two trays and the trays are fitted with patent turning racks. When the turning racks are used the capacity is about one-third less. Price includes a high grade thermometer, an egg tester, and an instruction book which also gives more practical information on poultry raising than most poultry books. Read the general description for details. Shipped from factory in Western Illinois.

No. 32F6011 560-Egg Standard Hot Water Incubator. Size, No. 78. Wt., 372 lbs. Price, \$34.45

Description of Reliable Bantling or Special Incubators.

STRICTLY HIGH GRADE SINGLE WALL MACHINES.

These incubators have a double top and a double bottom, but the ends and sides are single walls. They are intended only for use in a room or a cellar where the external temperature is not too low at all times, and when used under these conditions they will hatch just as large a percentage of fresh and well fertilized eggs and give just as good satisfaction as any high priced machine. The heating apparatus, the tanks, the regulator, the materials and the finish of these incubators are all exactly the same as in our Standard Incubators, except that the regulator of the 60-egg size is of slightly different form. There is a nursery beneath the egg tray of each machine. The doors are single, but each door has double glass with a dead air space between the glass. The egg trays are not fitted with turning racks and the eggs must be turned by hand. These are every way first class incubators, but as stated above, they are single walled and can only be used successfully under proper conditions. To those who wish an incubator to be used only in a room or place where the outer temperature is, practically even at all times, we recommend the Reliable Bantling Incubators, but under other conditions you should purchase a double walled machine. The different sizes of these incubators are shown in the following illustrations.

Reliable 60-Egg Bantling Incubator.

THE SMALL POULTRY RAISER'S FAVORITE.

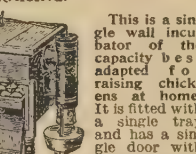

\$3.42

The success of this little incubator has been phenomenal. More of them have been sold than any other one incubator made in the United States. Look out for catches to low prices on small incubators. Don't be misled into buying an inferior machine. We guarantee our prices on this incubator to be lower than the same quality and style of the best of the others. If you see a lower price in any other catalogue, depend on it the quality is lower too. This we guarantee. If in doubt, send for both incubators, compare them, you be the judge, and if ours is not far superior, much lower in price, quality considered, you can send it back at our expense and we will promptly return your money including freight charges you paid. The Reliable Bantling is a success as thousands of our customers will testify, and we will guarantee. It is a single wall machine with a single tray and with a single door having double glass. Price includes a high grade thermometer, an egg tester, and our complete instruction book with information on practical poultry raising. Read the general description for details. Shipped from factory in Western Illinois.

No. 32F6048 60-Egg Bantling Hot Air Incubator. Size, No. 81. Wt., 44 lbs. Price, \$3.42
No. 32F6049 60-Egg Bantling Hot Water Incubator. Size, No. 82. Wt., 48 lbs. Price, \$5.52

Reliable 100-Egg Bantling Incubator.

THE POPULAR SIZE FOR HOME CHICKEN RAISING.

\$6.08

RELIABLE STANDARD INCUBATORS

are the highest grade and most successful incubators made. We sell them at lower prices than others ask for inferior machines.

RELIABLE BANTLING OR SPECIAL INCUBATORS.

are excellent machines and are always successful when operated under proper conditions.

Reliable 220-Egg Bantling Incubator.

A SPLENDID SIZE FOR PROFIT MAKING.

\$10.38

The capacity of this machine adapts it especially to incubating chicks for early market. It is fitted with two trays and has a single door with double glass. Price includes a high grade thermometer, an egg tester, and our complete instruction book, which also contains much practical information on poultry raising. Read the general description for details. Shipped from factory in Western Illinois.

No. 32F6052 220-Egg Bantling Hot Air Incubator. Size, No. 85. Wt., 105 lbs. Price, \$10.38

No. 32F6053 220-Egg Bantling Hot Water Incubator. Size, No. 86. Wt., 110 lbs. Price, \$12.52

Description of Reliable Combined Incubators, Brooders and Yards.

Especially Adapted for Incubating and Brooding Early Chicks.

These machines are our regular incubators, fitted with a top brooder and with exercising yards. The incubator part of our Standard Combined Incubators and Brooders are exactly the same as our Standard Incubators. The incubator part of our Bantling Combined Incubators and Brooders are exactly the same as our Bantling Incubators. The different sizes and kinds of these machines are adapted for exactly the same classes of work as are like sizes and kinds of incubators, except that a combined incubator and brooder must be set in a room or building where there is plenty of light and sun when there are any chicks in the brooder, the more sunlight the better. In using these machines the first hatch is made in the brooder of the combined machine until about time for the second hatch, when all but the weaklings are to be transferred to a regular brooder. The surplus heat from the incubator lamp heats the top brooder, making a great saving of time, labor and fuel, as you only have the one lamp to care for. The heating arrangement is such that the fumes from the lamp cannot enter the brooder. The Standard machines are the best that can be made and are suitable for all classes of work. The Bantling machines are strictly high grade but are single wall machines and suitable for use only in a room or building where the external temperature is practically even at all times. The different kinds and sizes of these machines are shown in the illustrations on this and the next page.

Reliable 60-Egg Standard Combined Incubators and Brooders.

\$9.48

These machines have one yard with lamp and regulator at the end of the incubator. They are a splendid machine for raising fancy stock. Price includes a high grade thermometer, an egg tester, and an instruction book which also gives a great deal of practical information on poultry raising. Read the general description for details. Shipped from factory in Western Illinois.

Favorite Brood Coop.

\$1.42

A practical and convenient nursery for the young chicks and a comfortable enclosure for the mother hen. No one who raises chicks can afford to be without these coops unless they use good brooders. They are a safeguard at night against cats, minks, skunks, weasels and rats. Both the front and back are furnished with doors that are easily fastened. The rear door can be left open at night, as that end of the coop is enclosed with wire cloth. Shipped knocked down from Chicago.

No. 32F6387 Favorite Brood Coop.

Wt. 32 lbs. Price.....\$1.42

Reliable 60-Egg Bantling Combined Incubator and Brooder.

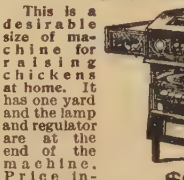

\$5.78

A splendid little machine for amateurs and for those who raise chicks for pleasure more than for profit. It has one yard and the lamp and regulator are at the end of the machine. Reliable Sectional Brooders.

\$9.72

These are hot water brooders and are for indoor use only. They are intended to be placed in a brooding house and for extensive breeders of poultry they are the most economical brooders on the market. They can be placed in the barn or in any room where there is plenty of sunlight. They have an overhead hot water heating system which consists of a heavy copper boiler and a copper supply tank at the end of the brooder and two out-dropping and two return pipes made of 3/4-inch iron pipe, which extend the whole length of the brooder. These machines are divided into compartments 3 feet long, so that as many different broods may be placed as there are compartments in the brooder. Each 3 feet in length of the brooder will brood 125 chicks. All sizes are 24 inches wide and 12 inches high. The lamp and boiler add about 9 inches to the length of the brooder. There is no room to these brooders and they are to be set on a 4-inch frame and a dirt floor, as shown in the illustration. Price includes the lamp and runways, also an instruction book, but does not include a bottom frame. Shipped from factory in Western Illinois.

No. 32F6253 3-foot Sectional Brooder. Size No. 83. Wt. 65 lbs. Price.....\$9.72

Description of Reliable Indoor Brooders.

These brooders are intended for use within a building, but in mild weather they may be used out of doors if protected by a shed roof. They are built on the "mother hen" plan, that is, the heating apparatus is in the top as it should be, and are arranged so that the chicks can go to or from the heat at will. The pure air circulation is perfect and the brooders maintain an even temperature at all times. The hot air and hot water brooders are identical in construction, except that the hot air tanks are steel while the hot water tanks and reservoir are made of copper. These brooders are made of the very best of materials and are handsomely painted. They are guaranteed to be the best indoor brooders made. The heating arrangement of these machines is such that the fumes from the lamp cannot enter the brooding chamber, and the lamps are placed and protected so that they are absolutely safe under all conditions. A good brooder is just as essential as a good incubator, because you cannot successfully raise the chicks after they are hatched unless you have a properly constructed brooder which will raise them. The different sizes of these brooders are shown in the following illustrations.

Reliable 50, 100 and 200-Chick Indoor Brooders.

\$2.52

Our 50, 100 and 200-chick indoor brooders are all built on the plan shown in this illustration. They have a single door with a glass panel, are easy to clean and furnish plenty of light as well as heat for the young chicks. Price includes a high grade thermometer, a runway, an instruction book and all attachments. Read the general description for details. Shipped from factory in Western Illinois.

This is a very simple and inexpensive egg tester, but perfect in every respect. It is made of pasteboard with holes to receive the eggs and a mirror in the bottom to reflect the light. Shipped from Chicago.

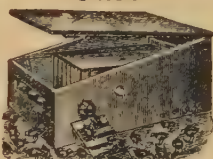

No. 32F6425 Folding Egg Tester. Wt. 4 ozs. Price.....10c

Description of Reliable Outdoor Brooders.

These brooders combine more good points than any other make or style of brooder. They are the best and most successful brooders made. While they are constructed especially for outdoor use, they can be used indoors just as successfully. They are warmed by top heat exclusively, on the "mother hen" plan, and are arranged so that the chicks can go to or from the heat at will. The heating lamp is placed within a metal lined chamber, thoroughly protected from wind and weather, easy to get at and arranged so that the fumes from the lamp cannot enter the brooding chamber. The pure air circulation is perfect and the brooders will maintain an even temperature at all times. These brooders are made of the very best materials, the roof and doors are covered with heavy sheet steel, and the entire machine is nicely painted. The glass in the front affords abundance of light for the young chicks. The tanks of the hot air machines are made of steel, but the hot water tanks and reservoirs of the hot water machines are made of copper. A good brooder is absolutely necessary because you cannot successfully raise the chicks after they are hatched unless you have one. We advise the selection of an outdoor brooder, because it can be used either out of doors or in a building under any reasonable weather conditions. The different sizes of these brooders are shown in the following illustrations.

Reliable 50-Chick Outdoor Brooders.

\$4.38

The entire top of these machines is hinged to form the door, so that every part of the brooder can be easily cleaned. In warm weather the door can be opened to any desired extent to let in sunlight and fresh air. Price includes a high grade thermometer, a runway, an instruction book and all attachments. Read the general description for details. Shipped from factory in Western Illinois.

THE UNIVERSAL ONE-HORSE POWER Gasoline Engine Outfit

\$54.95 This is the price at which we offer

OUR UNIVERSAL

strictly high grade and fully guaranteed Gasoline Engine, all complete with pumping jack, two regular pulleys, a friction clutch hub, a crank attachment, a web friction pulley, a walking beam pitman head, starter crank, funnel, oil can, instruction book, can of engine oil, electric igniter, spark coil, battery, wires and switch, all connected up and ready to run, just as shown in the illustration, and equipped with our modern cooling system, a first class gasoline tank and the best and simplest mixer made.

FOR ONLY \$54.95

WE OFFER OUR UNIVERSAL GASOLINE ENGINE complete with all its attachments, as shown in this illustration, an engine which is so unique in design and construction that it is strictly in a class by itself, and one which is adapted to a much greater variety of work than has ever been accomplished with any other small gasoline engine. For a number of years we have been engaged in the production and sale of gasoline engines direct to the consumer which has placed us in a much closer relationship to the actual user than any ordinary manufacturer could possibly be. This close relationship has caused us to realize and appreciate the actual needs of our customers and we have made a scientific study of these needs. We know that our customers in the first place, must have an engine which is simple and easy to operate and care for, that the engine must be of high quality in every particular, that it must be made of the best of materials and that every part must be perfectly fitted and finished, and be durable in every way. We know in order that the purchaser may be warranted in making the investment, the engine must be capable of doing an amount of work which will make it profitable to him, and we know that the engine must be furnished to the purchaser at a price well within his means and without any unnecessary selling expense. Every requirement mentioned above, will be found in our Universal Gasoline Engine, and the price of the complete outfit, that is, the engine and all its attachments, just as shown in the illustration, is only \$54.95, and further than this, we give the purchaser sixty days' free trial, guaranteeing that if at any time within the 60 days the engine fails in any particular to give perfect satisfaction, you can return it to us and we will refund the money paid for the engine and stand all freight charges.

THIS ENGINE

IS EQUIPPED WITH AN ELECTRIC IGNITER, whereas most other small engines are equipped with a hot tube igniter. An electric igniter of the simplest kind will actually cost to manufacture, from \$8.00 to \$10.00 more than a hot tube igniter, therefore, as we use the high tension jump spark igniting system on this engine, with an extra heavily wound spark coil, you can readily see that the igniter alone deserves a great deal of your consideration.

The spark coil for this igniter is contained in the iron box shown at the top of the standard above the gearing and is protected by the iron box so that it is absolutely waterproof. The battery cells are stored and secured in the iron base of the engine. They are enclosed in a wooden box and are securely packed in paraffine wax so that they also are entirely waterproof. Others who equip their engines with the electric igniters will send spark coils and battery cells either loose and without any protection at all or simply packed in wooden boxes and not protected in any way from water. Protected as our batteries and spark coils are, it is almost impossible to short circuit them and consequently they will last very much longer than ordinary igniter outfits.

OUR UNIVERSAL GASOLINE ENGINE HAS NO EXPERIMENTAL FEATURES. The carburetor, valve motion and cooling system are practically the same as have been used on our horizontal engines for more than three years. We believe that this is the only 1-horsepower stationary gasoline engine on the market that has a carburetor. This carburetor is practically automatic and handles the gasoline independent from the throttle, which makes it impossible to flood the cylinder. The air regulation is entirely automatic. The valve motion is the same as in our horizontal line. The exhaust valve stem is long and heavy, extending through the cylinder with a bearing on the outside away from the heat and with the water directly over and all around the valve stem and seat. This engine is balanced perfectly by the counter weight, which is drop forged and a part of the crank shaft. It has all the advantages of our horizontal engines in the way of economical carburetor, heavy and long lived valves, and a large and heavy crank shaft.

THE ENTIRE ENGINE

IS MOUNTED ON A HEAVY IRON BASE exactly as shown in the illustration and there is a hardwood block between the bottom of the engine and the top of the base, which acts as a shock absorber and which practically eliminates the metallic sound which would occur were the main engine frame bolted directly to the hollow iron base. Around the top of the iron base there is a rib or projection which provides for catching the oil drippings and keeps the engine neat in appearance. Mounted in the way the engine is, it will be found a very easy matter to move it from place to place. It can be moved without any platform or skids if so desired, or it can be mounted on ordinary skids or mounted on a small stone boat, or you can rig up a light truck with small cast iron wheels. No matter what you want to do with the engine, you will find it always convenient and always ready.

The price, \$54.95, is for the engine complete with all attachments and supplies exactly as shown in the illustration, from which point you must pay the freight.

No. 32P5301 One-Horse Power Universal Gasoline Engine Complete Outfit, with pumping jack attachment, friction hub, web friction pulley, crank attachment and pitman head, exactly as shown in the illustration. Shipping weight, 485 pounds. Price

\$54.95

BEFORE ORDERING ENGINES OR BOILERS FROM ANYONE, READ OUR PROPOSITIONS ON PAGE 503.

A housewife could not afford to do without a sewing machine—no more can you afford to do without this engine. IT IS THE SEWING MACHINE OF THE FARM, it is the dependable helping hand, and once you realize its value to you, you would not consent to part with it for many times its cost, and remember the price of the engine and complete outfit, as shown in the illustration, is only - - -

Don't let anyone tell you that it will not pay to buy this engine. A farm wagon will not take the place of a carriage, neither will a large engine answer for all purposes; you should have both a large and a small engine. There are hundreds of ways in which this engine and its attachments can be used profitably.

It will pump the water for your house, your barn or your stock, or for irrigation purposes. It will drive cream separators, churns, grindstones, bone cutters, washing machines, corn shellers, cider mills, root cutters, drill presses, small feed grinders, ice cream freezers, printing presses and any other small machines which can be operated by belt or crank or by reciprocal motion. We show a few of its uses in the illustrations on the following pages. Just try it yourself, you won't regret it and you can return the engine if it does not please and satisfy you.

THE FINISH OF THESE ENGINES

IS VERY HANDSOME. The body work is a bright red enamel finish; all bright parts are coated with aluminum paint which protects them from rust and still gives them the appearance of bright work. Pipes and some other parts of the engine are painted black so that withal the entire engine presents an exceedingly attractive appearance. Should you decide to favor us with your order for one of these engines, you will find that throughout the design, the workmanship, the quality and the finish, are as near perfection as it is possible to produce and that the utility of the engine will commend it to you over and above any engine you ever saw or used. A sectional illustration of our Universal engine is shown on page 539 of this catalogue and in connection with this illustration we describe the various parts of the engine minutely and give full information in relation to sizes and dimensions. The weight shown below is the weight of the engine pack for shipment. The engine and outfit complete, without packing, weighs about 35 pounds.

SIXTY DAYS' FREE TRIAL

A sixty days' free trial and comparison proposition to every purchaser of the Universal Gasoline Engine. Sixty days' time in which you have an opportunity to compare the Universal with any and all other engines on the market, you to be the only judge of the trial and comparison, and if the engine fails in any particular, if it does not bear out every claim we make for it, if you do not believe it more useful, more convenient, and more desirable than any other engine or if you do not find it useful enough to warrant you in keeping it, you will not be put to any expense whatever, but you may return it to us at our expense of freight charges and we will promptly refund your money including the freight charges paid by you. Every Universal Gasoline Engine is sold by us on this liberal and convincing sixty days' free trial offer by which we promise and agree to return your money if, for any reason, you decide to return the engine.

OUR BROAD AND LIBERAL ONE-YEAR BINDING GUARANTEE.

We guarantee every Universal Gasoline Engine we ship to be perfect in every way. We guarantee every engine to be strictly high grade in every particular, exactly as represented and described, to be perfect in material and workmanship and to run perfectly and give complete satisfaction in every way. We guarantee that every Universal Gasoline Engine is tested by us before shipment, at its normal speed of 500 revolutions per minute and at this speed it has developed more than 1-horse power on the high speed shaft and about 3/4-horse power on the low speed shaft. We further guarantee that if any piece or part proves defective in material or workmanship within one year from date of shipment, it will be replaced or repaired by us free of charge on evidence of defect being furnished to us.

OUR SAFE DELIVERY GUARANTEE.

Every Universal Gasoline Engine which we ship, will be all connected up ready to run even to the connection of the battery wires before it is crated for shipment. The crating will be solid and substantial and the entire outfit will leave the factory in perfect condition and in perfect running order and be ready to start immediately the crate is removed and the gasoline and water tanks are filled. We guarantee that the outfit will reach you in the same perfect condition and if by chance any part should be lost or damaged by rough or careless handling while in transit, we agree to replace or repair it or furnish another engine free of all expense to you.

REMEMBER

You will get a profit sharing certificate for \$54.95 if you order this outfit. Read about our profit sharing plan on pages 1 and 2.

crated in a substantial manner and delivered free on board cars at the

\$54.95

OUR UNIVERSAL GASOLINE ENGINE IS UNIVERSAL.

IT IS JUST WHAT ITS NAME IMPLIES AND IS UNIVERSALLY ADAPTED TO ALL CLASSES OF WORK WHICH CAN BE DONE WITH ONE MECHANICAL HORSE POWER.

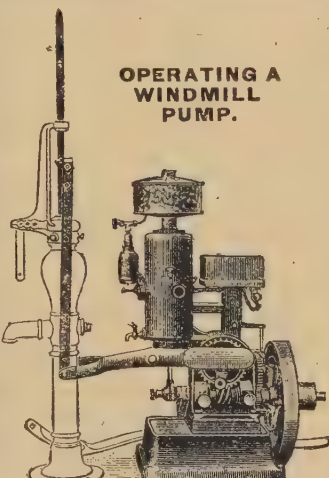

IT IS SO EASY TO OPERATE that a woman or a ten-year old boy or girl can start and stop it without difficulty. One turn of the starter crank, then a quick jerk at the proper instant starts the engine and opening the battery switch stops it. The starter crank is made so that it cannot possibly stick or harm anyone.

OUR UNIVERSAL ONE HORSE POWER GASOLINE ENGINE differs from gasoline engines of other makes in many very essential features. An ordinary engine is equipped with a large and bulky galvanized iron water cooling tank which must be placed near the engine and is usually connected to the engine by pipes and rubber hose. Our engine is equipped with our modern water cooling device, the reservoir of which forms a part of the engine, therefore making it a very easy matter to move the engine from one place to another without its being necessary to draw off the water and refill the tank. An ordinary engine has but one shaft which usually runs at a fixed speed and will only operate such machines as can be driven by a belt from the pulley on the shaft. Our Universal engine has a regular crank or engine shaft the same as other engines, but while the normal speed of this shaft is 500 revolutions per minute, the engine can be regulated so that the speed of the engine shaft can be any number of revolutions between 400 and 600 per minute, and as we furnish with the engine two pulleys, one of them 4 inches in diameter and the other one 8 inches in diameter, you can readily see that even from this one shaft, the Universal engine is capable of transmitting power to a greater variety of machines requiring different speeds than any other engine made. This shaft is the high speed shaft of the engine. Aside from the high speed shaft, the engine has a countershaft which runs only one-tenth as fast as the high speed shaft, or in other words, from 40 to 50 revolutions per minute, its normal speed being 50 revolutions per minute. This countershaft is driven by the worm and worm gear which are plainly shown in the illustration and from this countershaft power can be taken for a variety of operations which could not be accomplished with any other engine. In other words, the Universal engine provides means for transmitting power direct from the engine without the use of countershafts to machinery requiring to be run at almost any speed from the slowest hand driven machines up to machines requiring very high speed. Such a countershaft as we have just mentioned will not be found on any other gasoline engine and we doubt if any one can apply a countershaft of this description without infringing on our rights. By means of this novel countershaft we are enabled to apply to the engine a large number of special attachments which adapt the engine to a larger variety of work than could not possibly be accomplished in any other way or with any other engine. The special attachments which form a part of the Universal engine outfit and most of which cannot be applied in any way to any other engine, are as follows:

THE PUMP JACK ATTACHMENT, which is shown at the left and bottom of the worm gear, and has 3-inch, 4½-inch and 6-inch strokes, with slow lift and quick return. The engine with the pump jack attached can be used in connection with any style of windmill pump and we will guarantee it to pump as much water and from as deep a well as any 10-foot windmill will pump when the windmill is driven by winds of average velocity. By removing the cross head and pump links of the pumping jack, you can connect the walking beam of the jack direct to a working head or to the pump rod of an irrigation cylinder and pump with large cylinders from shallow wells or from ponds for irrigation purposes.

THE FOLLOWING ILLUSTRATIONS show a very few of the many different machines which can be operated by this engine, and illustrate the method of applying the different which can be driven by the engine, and many other ways in which the different driving attachments can be applied. The machines and belts shown are not furnished with the engine, neither do we furnish beam or levers which are shown in connection with the lever washing machine and the dash churn. These levers can be made of wood and in any desired form by the purchaser of the engine.

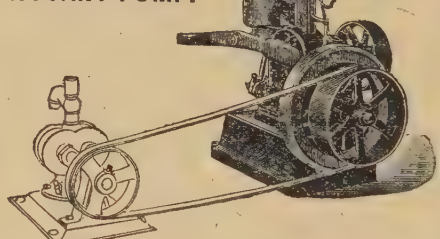

SHOWING THE ENGINE WITH PUMPING JACK ATTACHED TO WINDMILL PUMP. Either a working head or an irrigation cylinder can be connected to and be operated by this same pumping jack. It makes no difference if the wind don't blow. The Universal engine will pump for you at any old time, all day and all night if necessary. Its cost is much less than a dealer would charge you for an 8-foot windmill and a 30-foot tower, while it will do the work of a 10-foot windmill with any height of tower. Guess you'll see this point quick without any suggestion from us.

OPERATING A WINDMILL PUMP.

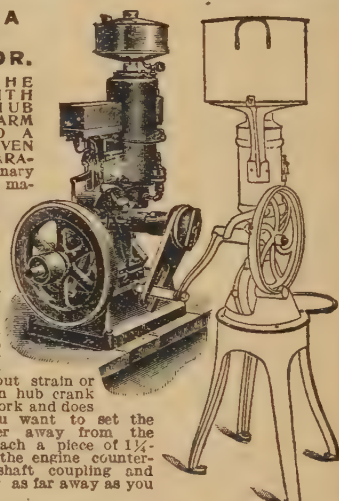

SHOWING THE ENGINE DRIVING A ROTARY PUMP. With a regular pulley of special size on the high speed shaft. The engine with this style of pump, will lift a tremendous amount of water when the water is not over 15 or 20 feet below the pump, and the pump will throw the water from 100 to 150 feet horizontally, affording splendid fire protection. Any reasonable diameter of regular pulley, either wood or iron, can be used on either the high or low speed shafts of the engine.

DRIVING A ROTARY PUMP.

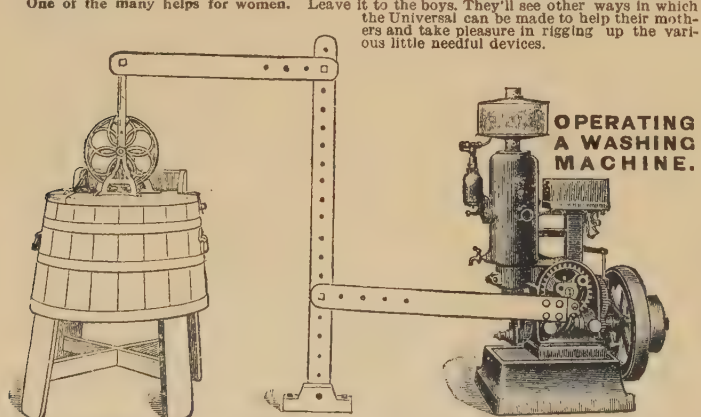

DRIVING A CREAM SEPARATOR.

SHOWING THE ENGINE WITH FRICTION HUB AND CRANK ARM ATTACHED TO A CRANK DRIVEN CREAM SEPARATOR. Any ordinary crank driven machine, no matter how large or how small, can be operated in the same manner. **HERE'S ONE OF THE MANY DRIVES** where the Universal beats every other engine. A cream separator is a high speed machine and must be started without strain or jar. Our friction hub crank drive does the work and does it right. If you want to set the separator further away from the engine, just attach a piece of 1½-inch shafting to the engine countershaft with a shaft coupling and set the separator as far away as you wish.

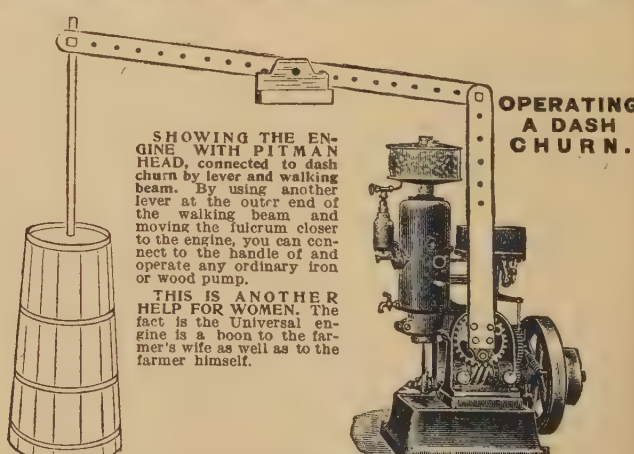

THE FARMER can use our Universal engine for pumping water with an ordinary windmill pump, or a rotary pump, or a working head, or an irrigation cylinder; he can use it to drive or granary, empty grinders, fanning mills, feed cutters, horse clippers, sickle grinders, pea hullers, root and vegetable cutters, sheep shears, small wood saws, tool grinders, hay carriers and, in fact almost every small belt, crank or lever driven machine which can be used on the farm.

SHOWING THE ENGINE WITH PITMAN HEAD, connected to lever washing machine by levers and walking beam. Many operations can be accomplished with similar connections. One of the many helps for women. Leave it to the boys. They'll see other ways in which the Universal can be made to help their mothers and take pleasure in rigging up the various little needful devices.

OPERATING A WASHING MACHINE.

OPERATING A DASH CHURN.

SHOWING THE ENGINE WITH PITMAN HEAD, connected to dash churn by lever and walking beam. By using another lever at the outer end of the walking beam and moving the fulcrum closer to the engine, you can connect to the handle of and operate any ordinary iron or wood pump.

THIS IS ANOTHER HELP FOR WOMEN. The fact is the Universal engine is a boon to the farmer's wife as well as to the farmer himself.

THE FARMER'S WIFE will find it not only useful, but necessary to her comfort, because the engine can be used to do much of the drudgery which usually falls to woman's lot to operate the machines which are used to prepare food for the chickens and it can be started and stopped and cared for by a woman or young girl, just as well as by a man.

BEFORE ORDERING ENGINES OR BOILERS FROM ANYONE, READ OUR PROPOSITIONS ON PAGE 505.

THE FULTON STATIONARY GASOLINE ENGINES

FOR INSTALLATION IN BUILDINGS PROTECTED BY INSURANCE

AND PERMITTED FOR USE WITHIN SUCH BUILDINGS WHEN INSTALLED ACCORDING TO THE REQUIREMENTS OF THE COMPANY INSURING THE PROPERTY.

THE FULTON IS ONE OF THE VERY FEW GASOLINE ENGINES WHICH CAN BE USED IN BUILDINGS PROTECTED BY INSURANCE.

\$101.²⁵ TO \$364.⁷⁵

complete with regular size of driving pulley, 60-gallon underwriters' underground gasoline tank with its fittings and suction and return pipe for 30 feet distance, can of gasoline engine oil, oil can, funnel, repair list, repair chart and a complete and thorough instruction book. Every engine GUARANTEED TO GIVE PERFECT SATISFACTION OR MONEY REFUNDED.

THIS CATALOGUE

gives you very complete information about nearly every detail of our gasoline engines, but if you want any further information, don't think of ordering from anyone without first writing us.

WE WILL BE GLAD TO ANSWER YOUR LETTERS FULLY AND PROMPTLY.

THERE ARE VERY FEW GASOLINE ENGINES MADE WHICH WILL STAND AND SATISFACTORILY PASS THE RIGID EXAMINATION OF THE FIRE UNDERWRITERS. THE FULTON IS ONE OF THIS SMALL NUMBER, AND IT IS MADE SO THAT IT MEETS EACH AND EVERY REQUIREMENT WHEN INSTALLED ACCORDING TO PROSCRIBED RULES.

IN CONSTRUCTION THE FULTON ENGINES are in every way exactly like the Kenwood Gasoline Engines. They are supplied with an underground gasoline tank with fittings to conform to the requirements of the Fire Underwriters and with suction and return pipe and fittings to connect the tank at 30 feet distance. The special information, sectional illustrations and general description of the Kenwood Engines, which will be found on pages 542 and 543, applies to the Fulton Engines in every detail, except in relation to the gasoline tank and its connections, and these are shown in detail in the above illustration.

THE FULTON ENGINES are made and especially equipped for use within an insured building and should always be ordered for this purpose, but if you want an engine for general outdoor use or for use in a building which is not insured, we cannot recommend the Kenwood Gasoline Engines too highly, because, except in special features, such as the underground gasoline tank, they are exactly like the Fulton Engines.

ENGINES WITH REGULAR PULLEYS.

No. 32F5430 2½-Horse Power Fulton Gasoline Engine, with 12-inch regular pulley. Shipping weight, 1,330 pounds. Price.....	\$101.25
No. 32F5431 4½-Horse Power Fulton Gasoline Engine, with 12-inch regular pulley. Shipping weight, 1,535 pounds. Price.....	135.50
No. 32F5432 6-Horse Power Fulton Gasoline Engine, with 20-inch regular pulley. Shipping weight, 2,060 pounds. Price.....	180.00
No. 32F5433 9-Horse Power Fulton Gasoline Engine, with 20-inch regular pulley. Shipping weight, 2,710 pounds. Price.....	243.75
No. 32F5434 12-Horse Power Fulton Gasoline Engine, with 24-inch regular pulley. Shipping weight, 3,510 pounds. Price.....	318.00
No. 32F5435 15-Horse Power Fulton Gasoline Engine, with 24-inch regular pulley. Shipping weight, 4,160 pounds. Price.....	346.50

THE PRICES OF THE FULTON ENGINES are for the engines complete and mounted on skids, with 60-gallon Underwriters' underground gasoline tank with its fittings and suction and return pipe for 30-foot distance, one driving pulley of regular size, a can of gasoline engine oil, an oil can, a funnel, a repair list, a repair chart and a complete and thorough instruction book. When you receive the engine it will be necessary for you to set it on the foundation, bury the gasoline tank in the ground and connect the suction and return pipes, but all other connections are made at the factory. The engine is crated in a substantial manner and delivered free on board the cars at the factory in Southeastern Minnesota, from which point you pay the freight.

ENGINES WITH FRICTION CLUTCH PULLEYS.

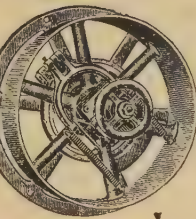

No. 32F5446 6-Horse Power Fulton Gasoline Engine, with 20-inch friction clutch pulley. Shipping weight, 2,195 pounds. Price.....	\$197.75
No. 32F5447 9-Horse Power Fulton Gasoline Engine, with 20-inch friction clutch pulley. Shipping weight, 2,845 pounds. Price.....	261.50
No. 32F5448 12-Horse Power Fulton Gasoline Engine, with 24-inch friction clutch pulley. Shipping weight, 3,660 pounds. Price.....	336.25
No. 32F5449 15-Horse Power Fulton Gasoline Engine, with 24-inch friction clutch pulley. Shipping weight, 4,210 pounds. Price.....	364.75

EXTRAS FOR KENWOOD AND FULTON GASOLINE ENGINES.

SHIPPED FROM THE FACTORY IN SOUTHEASTERN MINNESOTA.

EXTRA PULLEYS.

If you want extra pulleys for either the Kenwood or Fulton Gasoline Engines you must order from this list, because ordinary pulleys cannot be used. If you wish to change the size of the pulley on the engine when ordering, then subtract from the price of the engine the price of the pulley which we regularly furnish and add the price of the pulley which you want. Be sure to state in your order what size of pulley you want. No deduction will be made for pulley smaller than the one we regularly furnish. Pulleys with 6¼-inch face will only fit 2½ and 4½-horse power engines and those with 8½-inch face will only fit 6, 9, 12 and 15-horse power engines.

Regular Pulley

No. 32F5461 8x6½-inch Regular Engine Pulley. Weight, 18 pounds. Price.....	\$1.85
No. 32F5462 12x6½-inch Regular Engine Pulley. Weight, 23 pounds. Price.....	2.40
No. 32F5463 16x6½-inch Regular Engine Pulley. Weight, 24 pounds. Price.....	3.10
No. 32F5464 8x8½-inch Regular Engine Pulley. Weight, 40 pounds. Price.....	2.15
No. 32F5465 12x8½-inch Regular Engine Pulley. Weight, 48 pounds. Price.....	2.85
No. 32F5470 16x8½-inch Regular Engine Pulley. Weight, 53 pounds. Price.....	3.65
No. 32F5471 20x8½-inch Regular Engine Pulley. Weight, 56 pounds. Price.....	4.75
No. 32F5472 24x8½-inch Regular Engine Pulley. Weight, 58 pounds. Price.....	5.75
No. 32F5473 30x8½-inch Regular Engine Pulley. Weight, 141 pounds. Price.....	8.00
No. 32F5481 20x8½-inch Friction Clutch Engine Pulley. Weight, 190 pounds. Price.....	22.50
No. 32F5482 24x8½-inch Friction Clutch Engine Pulley. Weight, 205 pounds. Price.....	24.00
No. 32F5483 30x8½-inch Friction Clutch Engine Pulley. Weight, 285 pounds. Price.....	29.25

Friction Clutch Pulley

FOUNDATION RODS AND PLATES. When setting a stationary gasoline engine on a masonry foundation, rods to go through the foundation and plates for the lower ends of the rods are required. Their prices follow:

No. 32F5490 Set of Foundation Rods and Plates for 2½ or 4½-horse power engines. Price.....	\$1.45
No. 32F5492 Set of Foundation Rods and Plates for 6 or 9-horse power engines. Price.....	1.75
No. 32F5494 Set of Foundation Rods and Plates for 12 or 15-horse power engines. Price.....	2.25

GAS ATTACHMENTS. We will furnish either the Kenwood or the Fulton Engines fitted for gas instead of gasoline but without either gasometer or gas bag, without extra charge, but if you want an engine fitted for both gas and gasoline, the gas attachment will be extra and must be ordered with the engine and shipped from the factory.

No. 32F5504 Gas Attachment for 2½-horse power engine. Price.....	\$ 7.95
No. 32F5505 Gas Attachment for 4½-horse power engine. Price.....	8.95
No. 32F5506 Gas Attachment for 6-horse power engine. Price.....	12.95
No. 32F5507 Gas Attachment for 9-horse power engine. Price.....	15.90
No. 32F5508 Gas Attachment for 12-horse power engine. Price.....	18.70
No. 32F5509 Gas Attachment for 15-horse power engine. Price.....	19.95

SHAPED CANVAS COVERS. A gasoline engine like any other valuable piece of property, should receive reasonable care and attention. We advise our customers to clean their engine occasionally and to keep it covered when not in use, and are prepared to furnish shaped canvas covers and ship with the engine from the factory, at the prices shown below:

No. 32F5520 Shaped Canvas Cover for 2½ or 4½-horse power engines. Price.....	\$2.05
No. 32F5522 Shaped Canvas Cover for 6 or 9-horse power engines. Price.....	2.95
No. 32F5524 Shaped Canvas Cover for 12 or 15-horse power engines. Price.....	3.95

SPECIAL FEATURES WORTHY OF YOUR NOTICE.

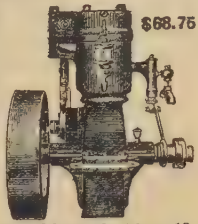

FACTORY TESTS. Every gasoline engine which we make or sell is run in the factory testing room until every detail of the engine shows that it is in perfect running order, then the engine is run under full load until it has developed and maintained continuously a reasonable surplus of power in excess of its rated horse power. In addition to these very thorough tests, just before the engine is crated and shipped it is given a running test under its own fittings and batteries, so that we know absolutely that the engine is in perfect condition when it leaves our factory and that it will be in the same perfect condition when it reaches the purchaser. An agent or dealer cannot deliver an engine to you in as perfect running order as ours, because the engine which he sells must necessarily be carried in his stock for a considerable length of time and when an engine stands idle or in stock the chances are that it will become gummy and sticky, if not rusty, and it is a certainty that the battery cells will become very weak or completely exhausted. Our engines are clean and free from rust and our batteries are fresh and strong when you receive them.

BEFORE ORDERING ENGINES OR BOILERS FROM ANYONE, READ OUR PROPOSITIONS ON PAGE 505.

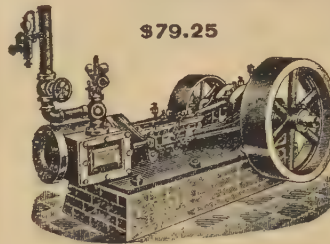

Kenwood Marine Gasoline Engines.

Our Marine Gasoline Engines are strictly high grade. They are of the four-cycle type, simple, practical, durable and easily operated. The water circulation is obtained by a brass pump which provides a steady flow of water for cooling the engine. The gasoline feed is by gravity from a tank which you must provide and place in the bow of the boat. These engines are built very low and compact and set firmly in the boat, overcoming vibration and making the boat run very smoothly. They are fitted with jump spark electric igniter with timing lever which makes the spark early or late and controls the speed of the engine. The speed can be varied from 150 to 700 revolutions per minute or from a slow trolling gait to full speed. When installed in a properly built boat and fitted with the size of propeller wheel which we recommend, these engines will drive a boat at from 6 to 8 miles per hour. The 1½-horse power engine is suitable for 15 to 17-foot row boats and should be used with a 12-inch propeller wheel. The 3-horse power engine is suitable for 15 to 18-foot launches and should be used with a 14-inch propeller wheel. The 5-horse power engine is suitable for 18 to 24-foot launches and should be used with an 18-inch propeller wheel. The 1½-horse power engine has 3¼-inch cylinder and 3½-inch stroke. The 3-horse power engine has 4-inch cylinder and 4½-inch stroke. The 5-horse power engine has 4½-inch cylinder and 5-inch stroke. The fittings and trimmings furnished with these engines are of the very best quality. Price is for the engine complete with electric igniter, muffler, oil cups, wrenches, starting crank, sample can of gasoline engine oil and full instructions for operating the engine. Shipped from factory in Southwestern Michigan.

No. 32F5070 1½-Horse Power Marine Gasoline Engine. Wt., 115 lbs. Price... \$68.75
No. 32F5075 3-Horse Power Marine Gasoline Engine. Wt., 200 lbs. Price... \$84.50
No. 32F5080 5-Horse Power Marine Gasoline Engine. Wt., 400 lbs. Price... \$121.50

\$68.75

\$79.25

Kenwood Horizontal Steam Engines.

These are strictly high grade engines of the center crank single slide valve type. Every part has been carefully designed with a view to making the engines perfect in every respect. The valve is the regular "D" pattern, accurately balanced by a circular plate on the back, in which is a floating ring, which is kept in place by the pressure of the steam. The ports are long and narrow which reduces the travel of the valve and allows both valve and seat to wear straight. The fittings and trimmings furnished with these engines are of the very best quality. Price is for the engine complete with governor, governor pulley, fly wheel, belt pulley, a set of nickel plated glass oilers, sight feed lubricator, throttle valve and two cylinder cocks. Price does not include steam and exhaust pipe or foundation rods; these we do not furnish. Shipped from factory in Southwestern Michigan.

Reversible Bronze Blade Propeller Wheels.

Our propeller wheels are built on the lines of a perfect solid wheel, having the same form and appearance as the wheels on a solid wheel, with the advantage of reversing. We can furnish for either fresh or salt water. Price is for the propeller wheel complete with 6 feet of shaft, stuffing box, reversing lever and lever quadrant. The 12-inch wheel has ½-inch shaft, the 14-inch wheel has ¾-inch shaft and the 18-inch wheel has 1-inch shaft. Shipped from factory in Southwestern Michigan.

Combined Vertical Steam Engine and Boiler Outfits.

Our Vertical Steam Engines and Vertical Steam Boilers, when ordered together, can be mounted on a combined base as shown in this illustration, and when you specify in your order that you want the engine and boiler on a combined base, they will be mounted in this manner and will be furnished with both steam and exhaust pipe. If an engine and boiler are ordered together, but are wanted on separate bases, we will furnish separate steam and exhaust pipe to set the engine and boiler 5 feet apart, measuring from center to center. You should always select a boiler with as much or greater horse power than the engine. Vertical engines and boilers will be shipped on separate bases unless ordered on combined bases.

Kenwood Vertical Steam Engines.

These engines are of the center crank type, with throttling governor, perfect in design, thoroughly well built and of the best materials. They are low and compact, combining great strength and rigidity, are nicely finished and handsomely painted. Every point which could add to the strength and durability of the engine has been carefully considered and adopted. Each engine is furnished with governor, governor belt, governor pulley, oil cups, cylinder lubricator, belt pulley and fly wheel, and is complete, ready to start. Steam and exhaust pipe is not furnished unless a boiler is ordered with the engine, and foundation bolts or rods are not furnished by us under any circumstances. Shipped from factory in Southwestern Michigan.

Kenwood Vertical Steam Boilers, \$46.50.

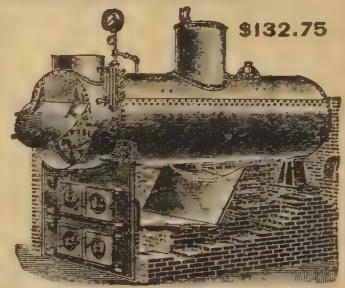

Our Vertical Steam Boilers are made with flange steel, heads and shell having a tensile strength of 60,000 pounds to the square inch. Lap welded tubes are used throughout. No second hand locomotive tubes or cast iron heads or cast iron water legs are used in these boilers, such as are used in many of the cheaply constructed vertical boilers now on the market. Each boiler has a handhole in the waterleg on each side of the boiler, and one at the front and back above the crown sheet, making them easy to clean. They are subjected to a thorough test under 150 pounds hydrostatic pressure, and are guaranteed to carry 125 pounds steam pressure with perfect safety. All boilers above 26 inches diameter have double riveted vertical seams. Steam boilers cannot be returned to us after they have once been used, but in a sixty days' trial, should a boiler show a defect which our factory has failed to detect, the defect will be corrected without charge by us. The fittings and trimmings furnished are as follows: Base, hood, door, gauges, injector fitted to boiler, steam gauge, water gauge, gauge cocks, pop safety valve, and blow off, check and stop valves. Whistle, stack and piping are not included in price of boiler. Shipped from factory in Southwestern Michigan.

Kenwood Horizontal Tubular Steam Boilers.

Our Horizontal Tubular Steam Boilers have both heads and shell made from flange steel, having a tensile strength of 60,000 pounds to the square inch. They are fitted with lap welded tubes, subjected to a thorough test under 150 pounds hydrostatic pressure and guaranteed to carry 125 pounds steam pressure with perfect safety. They have a manhole over the tubes and a handhole below the tubes, the handhole being in the front end. Steam boilers cannot be returned to us after they have once been used, but in a 60 days' trial, should the boiler show a defect which our factory has failed to detect, the defect will be corrected without charge by us. The fixtures furnished are as follows: Half arch front complete with all castings, grates, stack and guys, combination water column with steam and water gauges and three gauge cocks, pop safety valve, blow off valve and an injector complete with pipe and valve fitted. Price does not include brickwork, neither does it include steam or exhaust pipe; these we do not furnish. Shipped from factory in Southwestern Michigan.

Kenwood Economy Steam Boilers.

These are considered the most convenient and economical steam boilers made. They are self contained, require no setting, are portable and are quick and ready steamers. The fuel saved will soon pay for the boiler. Our Economy boilers are made with flange steel heads and shell, having 60,000 pounds tensile strength to the square inch, are tested under 150 pounds hydrostatic pressure and guaranteed to carry 125 pounds steam pressure with perfect safety. The fire box is lined with fire brick and the boiler is mounted on skids. The dome is detachable and the boilers can be loaded in box cars. These boilers are suitable for use with either vertical or horizontal steam engines. Steam boilers cannot be returned to us after they have once been used, but in a 60 days' trial, should a boiler show a defect which our factory has failed to detect, the defect will be corrected without charge by us. The fixtures and fittings furnished are as follows: Smoke box extension, door and cast steel grate bars, bearing bars, bridge wall, fire brick lining, pop safety valve, steam gauge and syphon, water column with glass water gauge, two gauge cocks, feed check and blow off valves, injector fitted to boiler, smoke stack and guys. Price does not include steam and exhaust pipe or whistle. Shipped from factory in Southwestern Michigan.

WASHING MACHINE DEPARTMENT.

We are the largest dealers in washing machines, either wholesale or retail, in the United States, handling not only the entire output of our own big factory, but a large variety of machines manufactured by other makers, including every style or pattern for which there is a general demand. We handle nothing but the highest grade machines and fully guarantee every one that we send out, whether it be a simple and inexpensive one or a high grade rotary, and you can rest assured that no matter what style you may select, no matter what price you pay, you will receive a machine of the finest possible grade and finish that is made in the particular pattern which you order.

WE CAN SELL WASHING MACHINES AT WONDERFULLY LOW

PRICES, as we manufacture a large proportion of what we sell in our own big factory, where because of the large output and improved methods of production we have a very low factory cost, and we charge you only a single factory profit over the cost to build, and because of the fact that owing to our enormous selling capacity we are enabled to place very favorable contracts with other manufacturers from whom we get machines, buying them at a much lower price than the jobber, from whom your retailer must purchase, is obliged to pay.

EVERY WASHING MACHINE IS GUARANTEED.

Every washing machine we sell is guaranteed to reach you in the same perfect condition that it leaves us, and although they are all strongly and securely crated, if by chance a machine should be damaged in transit, which, however, is very rare, we will immediately repair or replace it entirely free of all expense to you. We guarantee every machine to be built throughout in the most careful manner, to be perfect in material, workmanship and finish, in fact, an absolutely perfect machine of its kind. Every machine is also covered with our binding guarantee for one, two or three years, according to quality, and we agree to replace or repair entirely free of charge any part which may give out through defect in material or workmanship during that time.

THIS IS THE GUARANTEE which we give with our Mississippi and Superba Washers, which we make in our own big washing machine factory. Note by the terms of this guarantee you are made absolutely secure against any defect in material or workmanship in these machines for a period of three years from date you purchase them. Should there be any hidden flaw or imperfection in the material it would surely come to light within that time and if it does not you can rest assured that your machine is perfect in every way and should last you for ten or twelve years at least if given ordinary care. Our rigid system of inspection by which every part is inspected before it enters into the construction of the machine and also in the finished machine makes it almost impossible for a defective machine to leave our hands. However, our certificate of guarantee, which we give not only with the Mississippi but with all washing machines, makes you perfectly secure on this point. Should a defect appear we agree to make it good at no expense whatever to you, so you run no risk of loss.

WHICH IS THE BEST WASHING MACHINE?

Our customers frequently ask us which is the best washing machine for them to buy and which one will give the best and most satisfactory results. This has been a difficult question for us to answer, as in some localities one pattern is used almost exclusively while in other sections of the country another pattern will be the general favorite. You may rest assured, however, that no matter which style you may select you will find it a perfect and practical machine that will do the work far quicker and easier than it is possible to do it by hand, washing the clothes cleaner and in less time. We especially recommend the purchase of our wonderful Mississippi or Superba Washing Machines as these are constructed on an entirely new principle and we absolutely guarantee either of them to wash any quantity of clothes in one-half the time of the next best washing machine made, to wash them cleaner, without wearing or tearing them and with almost no work at all on the part of the operator.

THEY ARE THE ONLY TRIPLE MOTION WASHERS IN THE WORLD.

They swing on a steel pivot and combine an oscillating and rotary motion with a reverse movement of the rubber. This triple motion makes them do the washing twice as quickly and far better than any other. These machines are covered with strong basic patents which we own. They are manufactured only by us and at our own factory and cannot be procured from other concerns.

WASHING MACHINES OFFERED BY OTHER CONCERNS AT FROM

\$10.00 TO \$14.00 do not possess the valuable patented improvements, the reverse acting rubber or agitator and the triple motion of the Mississippi and Superba Washers, which makes them do such wonderful work, and the best of these \$10.00 to \$14.00 washers require twice as long to wash a tub full as our Mississippi or Superba.

EVERY WASHING MACHINE SENT ON TRIAL.

Every washing machine we sell, regardless of price, except the Mississippi and Superba, are sold on 30 days' trial, during which time you can test them thoroughly, wash with them and convince yourself that they are just as we represent them to be, and if at the end of that time you are not satisfied with your purchase you can return it to us and we will immediately refund the entire purchase price and also the freight charges you have paid, so that you run no risk nor can you lose a penny in placing your order for a washing machine with us.

WE GIVE SIX MONTHS' TRIAL ON THE MISSISSIPPI AND SUPERBA WASHERS.

This means that you can use either of these washers in your own home for twenty-six weeks, every day or once a week. In fact, as often as you like in order to satisfy yourself that it suits you in every particular. In six months time you can become thoroughly familiar with their use. You can compare them with other styles of washing machines used by your neighbors and satisfy yourself that they are just as big time and labor savers as we claim them to be. You can find out for yourself that they will save the clothes and make them last twice as long. You can get a good idea of their strength and durability.

THIS SIX MONTHS' TRIAL IS FREE.

Should you decide to return your washer to us at any time within six months you may do so and we will immediately refund the money we have paid you and also the freight charges you paid. Our Mississippi and Superba washers are the only ones ever sold subject to six months' trial. They are such wonderful savers of time, work and clothes that we are glad to make this offer, knowing that having once used them you can never be satisfied with any other, the longer you use them the better you will like them. No one who has ever used a Mississippi or Superba could bear to go back to the old fashioned washday.

This illustration shows our big washing machine factory and warehouse having a capacity of hundreds of carloads of washing machines annually, equipped with every modern time and labor saving machine that money can buy, in both the wood and metal working departments. We buy all our raw material in large quantities on the most advantageous terms. We own outright the valuable patents covering the construction of the Mississippi and Superba washers and pay no royalties to anyone. This enables us to offer these machines at the low price of \$5.75 and \$6.50 and yet guarantee them not only to be equal in material and workmanship, but because of our special patented improvements, quicker and better washers than any \$12.00 to \$15.00 machine on the market. Remember, we fully guarantee this and give you six months' trial, as explained above, to prove to your own satisfaction that to pay more than our price for any washing machine is simply throwing money away as far as you are concerned.

THE WONDERFUL MISSISSIPPI WASHING MACHINE

\$ **5**.75 IS OUR

PRICE FOR THE WONDERFUL MISSISSIPPI WASHING MACHINE ON **SIX MONTHS' TRIAL**

Mother's Little Helper Finds it an Easy Task to Swing the Mississippi To and Fro.

ONLY 11 CENTS A WEEK

SAVED IN THE WEAR AND TEAR OF THE CLOTHES PAYS FOR THE MISSISSIPPI IN A YEAR, to say nothing of the big saving in time, saving in work and in health. No back breaking and arm tiring leaning over the washtub for hours at a time no inhaling of foul steam from the soiled clothes, no damp walls and wet floors.

IT REALLY COSTS YOU NOTHING AFTER THREE MONTHS' USE.

In that time you will have more than saved its entire cost in the wear and tear of the clothes which you avoid. The longer you use it, the better you will like it.

IT IS SUCH A BIG SAVER. SAVES CLOTHES, WORK, HOT WATER, SOAP, EVERYTHING.

It is the greatest saver you can invest in and will save its own cost five times over every year

WE WILL SHIP ON ONLY A DOLLAR DEPOSIT.

We ship the Mississippi to any address upon receipt of the purchase price, or if you prefer to see and examine it before paying we will ship it C. O. D. upon receipt of only a dollar deposit, balance payable after it has been received at your railroad station and found to be, upon examination, satisfactory and just as represented. If, however, you are not satisfied with it you need not accept it and we will immediately refund your dollar deposit, so you will not lose a single penny. We strongly advise sending cash in full with your order as you will thus save the charge of 25 to 50 cents which the express companies make for the collection and return of the money on C. O. D. shipments.

YOU HAVE A FULL SIX MONTHS' TRIAL whether you send cash in full with your order or only a dollar deposit and pay the balance at your railroad station, just as explained above, during which time you can put the Mississippi to any test, compare it with any \$10.00 to \$15.00 washer sold by any other concern and if the Mississippi does not wash the clothes cleaner with less wear and tear and do it in one-half the time and with almost no work at all you can return it to us at any time during the six months and we will immediately refund to you the entire purchase price and also the freight charges you have paid.

WE BUILD THE MISSISSIPPI AT OUR OWN FACTORY and pay the greatest attention to every detail of its construction. Every stave in the tub is inspected, every part of the mechanism is carefully adjusted and tested and the machine, when it leaves our hands, is in perfect condition ready for use and built to stand many years of continual usage.

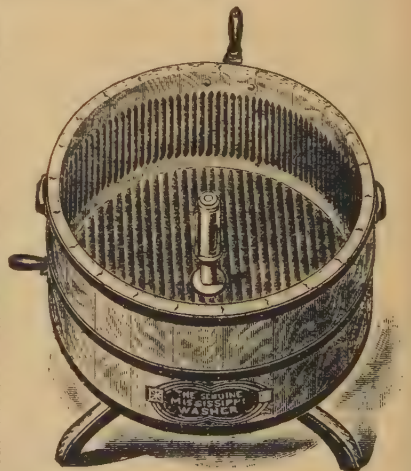

THE WONDERFUL MISSISSIPPI WASHER

is the new, easy way of washing clothes. This wonderful invention makes "Blue Monday" a thing of the past. It turns the sighs and groans of washday into smiles of delight and pleasure, it makes washday so easy—washing a whole tub full of clothes in less time than a single garment can be washed on a washboard in the old way and with almost no work at all. It runs so easy that a little child, eight or nine years old, can run it as easily as a grown person. **IN FACT, IT ALMOST RUNS ITSELF.** Best of all, it washes the clothes to snowy whiteness without rubbing or wearing. It does not tear off buttons, and does not fray the edges. Washes heavy rugs and blankets just as easily as handkerchiefs and napkins. Does not let the foul steam escape and does not slop the floor. **It is an entirely new invention** and operates on a new principle, washing clothes, not by dragging them back and forth through the water, as other washing machines do, but by forcing the boiling suds through and through every mesh and fibre of the clothes in a perfect cataract. By doing away with all the wear and tear of hand rubbing and of dragging back and forth through the water, as in other washing machines, it makes the clothes last more than twice as long, as they get more wear in one washing in the old hard way than in several weeks' use.

THE MISSISSIPPI IS SO MUCH EASIER TO OPERATE THAN ANY OTHER WASHER,

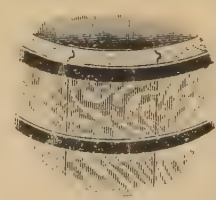

so much easier than using a washboard, washes so clean and does it so quickly that it makes washday a day to look forward to with pleasure. **YOU CAN SIT IN AN EASY CHAIR** and swing it just as easily as standing. The heavy steel motor spring underneath the tub does almost all the work. You grasp the operating handle and swing the tub in either direction. The motor spring stops it and swings it back the other way with a quick reverse movement. The tub travels one way about one-third of a revolution and the motor spring swings it back again. Back and forth the tub swings with just a little help from you at each swing. You can swing it fast or swing it slow, just as you like it. All the while the great cleansing currents of boiling water are being forced through and through every fibre and thread of the clothes inside the tub by centrifugal force and suction and washes them to snowy whiteness. It will wash a tubful in less time than you can wash a single garment by hand, and without any wear on the clothes.

THE TUB is generously large in size, measuring 23", by 12 inches and is built with the large end down, so that you have the most room just where you need it, at the bottom where the water and clothes are. It is built throughout of selected red Louisiana cypress, which grows in the southern swamps, and will resist the action of water, acid and chemicals better than any other wood known to man. The tub is corrugated on both the sides and the bottom inside, very much like a washboard. These corrugations help to clean the clothes that come in contact with them by gently rubbing them. This rubbing is not the hard, violent kind that they usually get on the washboard, as the clothes are swimming in the boiling water and are only gently stirred by the motion of the agitator and tub. The boiling currents forced through the clothes do practically all the cleaning. A heavy iron brace is fastened securely to the bottom of the tub on the outside which prevents any tendency of the bottom of the tub to warp. Into this brace is screwed the socket in which the agitator post runs and as the top is above the water line a perfect watertight joint is secured. The machine rests upon three heavy hardwood legs securely bolted to heavy iron sockets and will stand steady on any floor no matter how uneven. It is finished throughout in the natural color of the wood with one coat of filler and two coats of best varnish. All screws, nails and iron parts inside the tub are heavily galvanized, making rust spots on the clothes impossible.

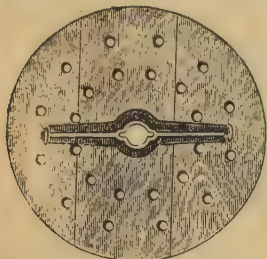

THE STAVES are cut from 1 1/4-inch stock and finish full than in other washing machines. The tub is bound with three steel hoops 1 1/4 inches broad and of ample strength and owing to its shape, they can never fall off. Notice in this illustration how the staves are tongued and grooved together at every joint. Then, too, every joint is set in waterproof cement, the bottom is also set in waterproof cement and at the point where the center post passes up through the bottom of the tub it is screwed down solid upon a heavy waterproof gasket, making a tub of the kind that doesn't leak.

THE COVER does not need to be heavy, because it is not intended to support five to twenty-five pounds of cast iron gear wheels as in other washers. It simply keeps the steam in the tub and helps to hold the heat in the water. It is made of light material and cross braced underneath, so that it is of ample strength and will not warp. It is so light that a little child can handle it without effort. Removing the cover and the rubber you have the tub open the full width of the top so that you can attach a clothes wringer to any convenient place on its rim and after setting the brake underneath, which holds the tub stationary, wring out the clothes.

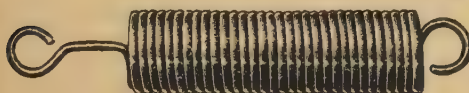

THE AGITATOR OR RUBBER sets down upon the center post which passes up through the bottom of the tub and adjusts itself automatically for any quantity of clothes from a few pieces to a tub full.

agitator does not drag the clothes, but gently stirs and turns them, so that every part of them is subjected to the cleansing currents of boiling water which pass through and through them, not once or twice, but hundreds of times, washing them cleaner and better than you could do it by hand and washing a tub full in less time than it would take to wash a single piece on the washboard.

THIS ILLUSTRATION shows you all the gearing there is to the Mississippi. Notice that there are no complicated cog wheels, no heavy fly wheels (the tub itself is the fly wheel), notice the heavy iron brace that strengthens the bottom and prevents it warping and at the same time forms a strong solid foundation for the center post. The powerful crucible steel spring, which is one of the main features of the Mississippi, is also shown. We guarantee it never to break or weaken. This motor spring really does almost all the work of swinging the tub and requires just a little help from you at each swing.

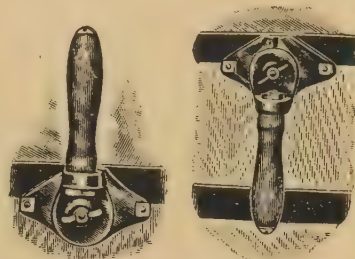

THIS IS THE MOTOR SPRING made of the finest crucible steel and carefully tempered. It is just the right weight and strength to reverse the motion of the tub and bring it back quickly without offering too much resistance to the swing of the operator, it gives the tub its full sweep, but does not permit it to lag. We fully guarantee the quality of these springs and will replace, free of charge, any that show a flaw of any kind or weakness in ten years constant use.

post which passes up through the bottom of the tub and adjusts itself. It is built of a clear two - ply lumber with hardwood cleats radiating out from the center on the underside and is provided with perforations to permit the water to pass through it freely. A rustless galvanized cleat, fastened to the agitator by screws, prevents warping and forms the bearing for the center post. It is also provided with two galvanized steel lifting rings for raising it out of the machine. The

floor. You don't have to oil the Mississippi often; once in six months is plenty.

THIS SIMPLE CRANK with its steel roller bearing at the only point where there is any friction, operates in a slot in the frame, giving the reverse movement to the rubber that gently stirs the clothes, so that all parts are washed equally clean. This gentle agitation of the clothes is one of the great reasons why the Mississippi washes so much quicker and cleaner than all other washers of this pattern, which are made with a stationary rubber, which is really no rubber at all.

THE OPERATING HANDLE is so arranged that by loosening the thumb nut it may be dropped down out of the way, as shown in this illustration. A groove in the handle holds it perfectly firm and rigid when raised. By locking the tub in a stationary position by means of the brake underneath and dropping the operating handle down out of the way, the Mississippi makes a very handy and convenient kitchen table.

EVERY PART that enters into the construction of the Mississippi Washer must pass a rigid inspection before it is used. The machine is also inspected at various stages of construction and carefully tested before it is finally packed for shipment. Every one is wrapped in heavy paper, strongly crated, leaving our factory in perfect condition and even though it should be shipped to points thousands of miles away it will reach you in the same perfect condition it leaves us, owing to our careful system of packing.

HERE IS WHAT WE GUARANTEE THE MISSISSIPPI WILL DO FOR YOU.

IT WILL WASH ANYTHING

DELICATE LACE CURTAINS, CARPETS, HORSE BLANKETS, RUGS, OR BED CLOTHES AS EASILY AS ORDINARY CLOTHES.

No matter what is in the tub, whether the quantity be small or large, it makes no difference to the easy work of the operator. It is the only washer that cleanses by really forcing the cleansing currents of hot, soapy water through every thread and fibre of the clothes, and by constantly and gently stirring them with an easy rolling motion, so that each part is subjected to a perfect cataclysm of boiling water; it will wash a big tub of dirty clothes in from five to ten minutes easily, and do it better than it could be done by hand. It does not pull off any buttons nor tear any clothes. It simply washes the dirt out of them quicker and more thoroughly than by any other known system. It is steamtight and watertight. No foul, steamy odors to endanger the health of the housewife; no sloppy floors or wet garments. The heat and steam are retained in the tub as they should be, and are not permitted to escape as in open washers or tubs.

ORDER A MISSISSIPPI WASHER TODAY

You will never regret it. It will make washday the easiest of all the week instead of the hardest. The difference will surprise you.

REMEMBER, every machine is sent to you subject to a six months' trial in your own home, which makes you absolutely secure and gives you every opportunity to prove for yourself that everything we say about the Mississippi is absolutely true.

WE GUARANTEE EVERY MACHINE

for three years against all defects in material and workmanship, and guarantee that it will reach you safely. The Mississippi has pleased and delighted thousands of others and it will surely satisfy you.

See! The Washing is Finished and the Little Maid Has Done it all Herself. Swinging the Mississippi is so Easy, Even for Little Hands.

No. 23F145 The Mississippi Washer. Price, (Shipping Weight, 65 Pounds) \$5.75

\$6.50 FOR OUR SUPERBA BALL BEARING WASHER

ONLY \$6.50 FOR THE WONDERFUL SUPERBA BALL BEARING WASHER, made in our washing machine factory under patents owned and controlled exclusively by us. The great patented features of our Superba Washer, which can be obtained in no other machine at any price, put it in a class by itself alone. It is the easiest running washer of any. It runs so light that washing clothes with it is child's play compared to any other. It runs on frictionless steel ball bearings, and runs so lightly that a touch will set it in motion—empty or full. Its great triple motion, found in no other machine sold by any other concern, makes it the most powerful and thorough washer in existence. It is built in the most substantial possible manner and if given ordinary care will be just as good after years of use as the day you bought it.

IT WILL WASH ANYTHING THAT CAN BE WASHED in a washing machine, and do it quicker and better than any other washer. Heavy blankets and rugs, comforters and carpets, mechanics' blouses and overalls, men's working clothes of all kinds it washes with ease, and, on the other hand, will wash the most delicate curtains and lace fabrics without injury.

WASHING MACHINES AT FROM \$12.00 TO \$15.00 sold by other manufacturers do not compare with the Superba all others. No other washing machine sold by any other maker has the triple motion, the reverse motion of the agitator and the combined rotary and oscillating movements of the tub, all the great patented improvements which are exclusively in the Superba Washer and can be obtained in no other.

SIX MONTHS FREE TRIAL ON EVERY SUPERBA WASHER. We know the Superba Washer is all that we claim it to be. That it will do everything we guarantee all this we do not expect nor ask you to believe it merely because we say so. We want you to order a Superba Washer on six months trial today. Use it once a week, or twice a week, or every day if you want to for six months. Become thoroughly accustomed to its use and if, at the end of six months, you feel that you are willing to go back to the old style way of washing clothes by hand, or are willing to use any other washing machine, and you do not find that the Superba is all we say it is and more, return it to us and we will immediately refund to you the entire purchase price and will pay the freight charges both ways. We make this offer because we want you to try the Superba Washer. We want to show you that it will make wash day so easy that you would not think of doing without it. In fact, we believe that after having used it for six months, your experience will be the same as thousands of others of our customers and you would not give it up for several times what you paid for it.

SEND US \$6.50 with your order for a Superba Washer, and we will ship it to you with the understanding that you have six months trial, and if you have any reason to feel dissatisfied at any time within six months you can return it to us at our expense and we will promptly return to you your \$6.50 and also what you paid out for freight charges. What more convincing offer of the wonderful value of the Superba Washer could we make?

OUR SUPERBA GUARANTEE.

We fully guarantee the Superba Washer to wash more clothes, wash them cleaner and wash them in less time than any other washing machine made. It will wash a tub full of hard, dirty clothing in from five to eight minutes easily, if our simple directions for use are followed, and will run so easily that a child can run it with ease. It makes wash-day so easy that it will surprise you. If you have been accustomed to spending an entire day in back-breaking labor over the washtub, you can, with our Superba Washer, do the same washing in a couple of hours and do it so much easier and so much better than the old style way that, after having used it once, you will never be satisfied to do without it.

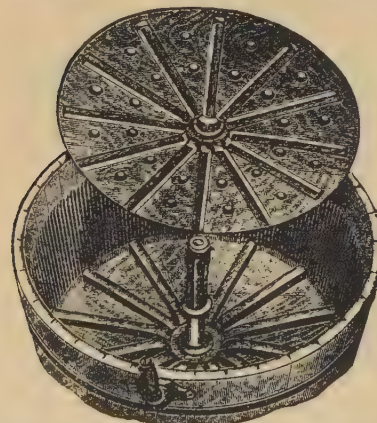

A WRITTEN 3-YEAR GUARANTEE against all defects in workmanship is best with every Superba Washer. This protects you against any hidden defect or flaw which may not appear at first or may not perhaps be noticed by our factory inspectors, as should any part break through defect or any flaw in workmanship or material appear, we will replace it entirely free of charge to you at any time within the three years.

THESE HARDENED STEEL BALL BEARINGS

One of the Superba Anti-Friction Ball Bearings

clothes more quickly, more perfectly than any other machine. It is equipped with two powerful crucible steel motor springs. These are mounted underneath the tub, out of the way, and do almost all the work of swinging the tub, requiring just a little help from you at each swing. You swing the tub on its ball bearings about one-sixth of a revolution and the motor springs underneath reverse the movement and swing the tub to an opposite direction. Back and forth the tub swings on its ball bearings with just a little help from you at each swing, and the washing is done almost before you know it. These motor springs are made from the finest tempered crucible steel, and we guarantee that they will never weaken and never break. A little child can run it just as well as a strong woman, and do the washing just as well. You can run it just as easily sitting down in a rocking chair, as standing. You can run it fast or slow, just as you like. No matter how you run it, it washes the

The rubber is perforated to permit free circulation of the hot soapy water. The clothes are thrown into the machine and the rubber set down over them. As you swing the tub in one direction the rubber revolves in the opposite direction and gently agitates the clothes, so that every thread of them is subjected to the powerful currents of boiling water created by the triple motion of the tub and the agitator. Back and forth the tub swings. At every swing these great boiling currents are forced through and through the clothes again and again, hundreds of times. The centrifugal force, generated by the rotary motion of the machine, throws

THIS ILLUSTRATION shows the interior construction. On the bottom of both the tub and the rubber are secured hardwood cleats which raise out from the center.

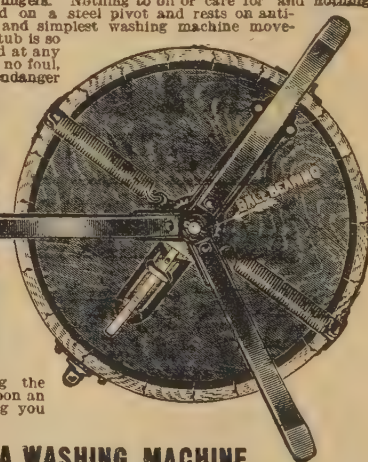

the cleansing currents of boiling water to the outside, and when the reverse movement occurs it is thrown back to the center on the top of the agitator whence it is drawn down through the holes and forced through and through the clothes, carrying all the dirt with it. In five to eight minutes the tubfull of clothes is washed to snowy cleanliness.

THIS IS THE BOTTOM VIEW OF THE TUB, showing the gearing, the friction ball bearings and the brake which holds the tub stationary when wringing out the clothes. Note the simplicity of the construction. There are no heavy fly wheels. No complicated gearing in which to catch and mutilate the fingers. Nothing to oil or care for and nothing to get out of order. The tub is carried on a steel pivot and rests on anti-friction ball bearings, making the strongest and simplest washing machine movement ever manufactured. The top of the tub is so constructed that a wringer can be attached at any point. The tub is steam tight. There are no foul, steamy odors from the soiled clothes to endanger the health of the user. No sloppy floors nor wet garments. The heat and steam are retained in the tub, as they should be, and are not permitted to escape.

BUY A SUPERBA WASHER

and get away from the back breaking and spirit breaking washday. Get away from the weekly washday slavery. Do your washing in an hour or so in the morning and have the rest of the day to devote to other things. Make Monday the easiest day of the week, instead of the hardest. Remember that the Superba Washer will pay for itself in a few months in the wear and tear of the washboard rubbing which it saves. It does not rub the clothes to pieces as you do on the washboard. It does not drag the clothes through the water on long prongs as other washing machines do. It cleanses by forcing the boiling water through the clothes and not by dragging the clothes through the water. It is built upon an entirely new principle and is the best thing you ever saw for washing clothes.

WE WANT YOU TO ORDER A WASHING MACHINE TODAY.

We want you to give it six months trial, to compare it with any washing machine you have used or is used by anyone in your neighborhood, and if at the end of that time you are not convinced that it is the greatest boon for womankind that has ever been put on the market, you can return it to us at our expense and we will refund all the money you have paid, including the freight charges.

No. 23F148 Superba Washer. Shipping weight, 70 pounds. Price.....\$6.50

ALL USERS ARE DELIGHTED. A FEW OF THE THOUSANDS OF TESTIMONIALS WE HAVE RECEIVED.

WOULD NOT PART WITH THE MISSISSIPPI FOR TWICE WHAT SHE PAID FOR IT.

Sears, Roebuck & Co., Chicago, Ill. Latrobe, Pa.
Dear Sirs:—I received my Mississippi Washer and it is everything you claim for it. I would sooner have this machine than any I have ever seen. I would not part with the machine for twice what I paid.

Yours truly,

MRS. B. F. GUNTER, 222 D Ave., S. S.

THE MISSISSIPPI IS SUCH A BIG TIME SAVER, SUCH A BIG LABOR SAVER THAT IF YOU USE IT ONCE YOU WILL NEVER BE ABLE TO GET ALONG WITHOUT IT.

Sears, Roebuck & Co., Chicago, Ill. Beaver Falls, Pa.
Gentlemen:—The Mississippi Washing Machine which I ordered from you was received in good condition. I can honestly say that it is giving entire satisfaction, as it saves much time and labor, and now I couldn't get along without it. Thanking you for so promptly filling my order, I am,

Yours truly,

MISS MARY SWEENEY, 1713 3rd Ave.

THINK OF A LITTLE GIRL, 13 YEARS OLD, DOING THE ENTIRE WASHING FOR NINE PEOPLE EASILY. THIS IS ONLY POSSIBLE WITH THE MISSISSIPPI.

Sears, Roebuck & Co., Chicago, Ill. Phalanx, N. J.
Gentlemen:—I received washer in good order and wish to say that the Mississippi Washer is a perfect machine in every respect. It washes clean and is easy to operate. My daughter of 13 does our family wash for nine people and does it with ease. My neighbor also states that it is the best washer she ever used and gives so far entire satisfaction.

Yours truly,

MRS. ERNEST SALM.

THE MISSISSIPPI DOES FINE WORK AND REALLY SELLS ITSELF TO ANYONE WHO SEES IT IN OPERATION.

Sears, Roebuck & Co., Chicago, Ill. Camden, Ark.
Gentlemen:—I have received your Mississippi Washer and I can say that it does fine work, and so I feel under many obligations to you, and I will try and advertise this washer for you. Some of my neighbors say they are going to send to you for washers. There are four of them.

Yours truly,

R. R. SMITH.

MRS. J. S. BRADEN SAYS: "I CANNOT SAY TOO MUCH FOR THE MISSISSIPPI WASHER. IT DOES THE WORK WITH LESS SOAP AND IN ONE-HALF THE TIME OF ANY OTHER I HAVE EVER USED."

Sears, Roebuck & Co., Chicago, Ill. Mason, Ill.
Dear Sirs:—I received your Mississippi Washer in good shape and I am much pleased with it, for it does its work so good, with less soap, less work and in half the time, than any other washer I have ever tried. My father-in-law has the 1900 Washer and he gave it up. The Mississippi does its work the best and runs the easiest. I cannot say too much for the Mississippi Washer.

Yours truly,

MRS. J. S. BRADEN, R. F. D. No. 3.

MR. J. P. ST. CLAIR SAYS: "OF COURSE, IT WASHES WITH LESS LABOR AND A GREAT DEAL QUICKER AND DOES NOT REQUIRE SO MUCH WATER AS OTHER MACHINES."

Sears, Roebuck & Co., Chicago, Ill. Mannington, W. Va.
Gentlemen:—Regarding the Mississippi Washer will say that we find that it washes easier than any washer that we have tried. Of course, we can wash with less labor and a great deal quicker. As to water, it does not require so much. We have not seen any of the 1900 Washers work. There are several of them in the community but we have not tried them. We are very well pleased with the washer. You can sell one here.

Yours truly,

J. P. ST. CLAIR.

MRS. FRANKIE WERLINE, SAYS "THE MISSISSIPPI IS FINE."

Sears, Roebuck & Co., Chicago, Ill. Trinity, Ky.
Gentlemen:—I received the Mississippi Washing Machine and I like it fine. It was received in good condition and all of my neighbors say they are going to send for one.

Yours truly,

MRS. FRANKIE WERLINE.

In writing to any of these people, please enclose a 2 cent stamp for reply.

PETER JONES SAYS: "MY NEIGHBOR BOUGHT A \$12.50 WASHING MACHINE AND IT DOES NOT WORK AS EASILY AS THE MISSISSIPPI."

Sears, Roebuck & Co., Chicago, Ill. Virgil, S. Dak.
Gentlemen:—I received the Mississippi Washer about four weeks ago. I can say it is a good machine for the money. My neighbor got a \$12.50 washing machine and it does not work as easy as the Mississippi.

Yours truly,

PETER JONES.

WOULD RATHER HAVE THE MISSISSIPPI THAN THE 1900 WASHER, BECAUSE IT IS A BETTER MACHINE. IT DOES THE WORK BETTER, CLEANER AND IN LESS TIME THAN ANY OTHER.

Sears, Roebuck & Co., Chicago, Ill. Lancaster, Pa.
Gentlemen:—In regard to the Mississippi Washing Machine, I wish to state that it proved to do more than I expected. It does the work better, cleaner and in less time than any other machine I have ever seen. There is a neighbor close by who has a 1900 Washer, but after seeing ours and trying it she would rather have ours, saying it is a better machine. I can safely say that I saved at least \$4.00 or \$5.00 on it. Hoping that you will meet with success in bringing your machine before the people, I remain,

Yours respectfully,

CHAS. M. STORK, 456 High St.

SO SIMPLE THAT A CHILD SIX YEARS OLD CAN PUT IT TOGETHER AND OPERATE IT. MRS. AUSTIN THINKS THE MISSISSIPPI IS THE QUEEN OF ALL.

Sears, Roebuck & Co., Chicago, Ill. Ganesvoort, N. Y.
Gentlemen:—The Mississippi Washer received all O. K., it took me about ten minutes to set it up ready for business. It is so simple a child could put it together, further, a child six years old can operate it. My wife has used several different kinds of the latest improved washers but thinks the Mississippi queen of all for easy operating, simplicity and results, no heavy flywheels to lift or grease to get on the clothes. If we could not get another like it we would not take twice the cost of it. We do not understand how you can sell them for such a small price. I will always praise the Mississippi above all others. I will answer any inquiry if stamp is enclosed.

Yours truly,

ELMER A. AUSTIN, Carrier on R. F. D. No. 1.

ORDER A MISSISSIPPI WASHER AND YOU WILL NEVER REGRET IT. THE PRICE IS SO REASONABLE, WASHES SO CLEAN AND SO QUICKLY, AND SAVES THE CLOTHES SO MUCH THAT IT SAVES ITS WHOLE COST IN TWO OR THREE WASHINGS.

Sears, Roebuck & Co., Chicago, Ill. New Albany, Ind.
Gentlemen:—In regard to Mississippi Washing Machine have this to say: We had about concluded to order a 1900 Washer, when we first saw the ad of your Mississippi Washer, and finding the price so reasonable we came to the conclusion to order one from you at a saving of \$4.25.

We have been using it and are much pleased with it. It shortens the time of washing and washes clean and does not tear or wear the clothes. We wish you success with it, for it will save many a backache. I think anyone would be pleased with it.

Respectfully yours,

E. R. A. SCHOONOVER, R. F. D. No. 2.

SAVED \$4.00 BY BUYING THE MISSISSIPPI WASHER FROM SEARS, ROEBUCK & CO.

Sears, Roebuck & Co., Chicago, Ill. Toledo, Iowa.
Gentlemen:—We are very well pleased with your Mississippi Washer, feel that we saved about \$4.00 on the price and quite a good deal in the running. It works all right. I can recommend it.

Yours truly,

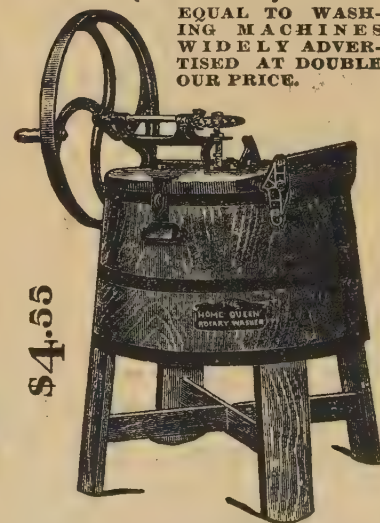

F. MERRITHEW, Lock Box No. 16.

The Home Queen Rotary Washer.

EQUAL TO WASHING MACHINES
WIDELY ADVERTISED AT DOUBLE
OUR PRICE.

\$4.55

No. 23F101 Saves three-fourths of the time and labor and will do an average washing in an hour. The simple high speed, light running gearing is the best and most durable made, the wearing parts being made of tough case hardened malleable iron. The rotary motion is by far the easiest for the operator. It will run forward or backward, has four separate motions of the agitator, forward and back and up and down, with positively no lost motion and washes the clothes by gentle friction and agitation; rubs off no buttons and tears no clothes. The tub is made of the best Louisiana cypress with the inside corrugated like a washboard. It will wash a few pieces or a tub full; blankets or handkerchiefs and napkins with equal ease. We fully guarantee the Home Queen to be the best rotary washer ever offered at the price and to please you in every way. Inside dimensions, 22 1/2 x 12 1/2 inches. Weight, 76 pounds. Our big bargain price.....\$4.55

THE CURTIS WASHER.

\$4.98

No. 23F110 This machine is made on the rubber principle, the same as used in the Quick and Easy, but has two cylinders working in opposite directions at the same motion of the crank shaft, thus cleaning the clothes quicker and more thoroughly than the former machine. It will not tear the clothes; and on account of the balance wheel the machine will work so easily that a child can work it without being fatigued. Made of selected Louisiana cypress, finished with two coats of paint and one coat each of graining color and coach varnish. Has heavy non-rusting galvanized bottom and all the iron parts coming in contact with the water are heavily tinned or galvanized to prevent spotting the clothes. Inside dimensions, 18 3/4 x 13 inches. Weight, 109 pounds. Price.....\$4.98

\$4.48 SUNNYSIDE

THE GREAT TWO-MINUTE WASHER.

IN TWO MINUTES YOU CAN WASH A TUB OF DIRTY CLOTHES CLEAN
WITH OUR WONDERFUL SUNNYSIDE WASHER.

Use one-half the hot water and one-half the soap you have been accustomed to using with any other washing machine, operate the machine for two or three minutes and your clothes are washed perfectly clean. You can throw away your washboard. If you use our Sunnyside Washer. It washes collars, wristbands and dirty spots just as well as they can be washed by hand on a washboard. It washes comforters and carpets as easily as the most delicate laces without wear-
ing or tearing. It will do a big week's washing in an hour or two and makes your Monday's work the easiest of all the week.

IT IS SO EASY TO OPERATE. You stand up straight in position and move the rubber handle back and forth with a long or short stroke, whichever you wish, for two or three minutes and the tub full of dirty clothes is washed clean. It runs so easily that a little child can run it just as easy as you can. It requires hardly any effort at all. You do not lean over a tub inhaling the steam and odors from soiled clothes as when washing with a washboard but stand far enough away so that you breathe pure air instead of unhealthful fetid steam.

THREE MONTHS' FREE TRIAL on every Sunnyside Washer. In order that every one of our customers may find out what a wonderful boon our Sunnyside Washer is, may find out how it reduces the work of wash day to almost nothing and makes washing an easy task instead of a hard one, in order that you may convince yourself that our Sunnyside Washer is the most wonderful invention that has ever been offered, we ship every one subject to three months' free trial. Order a Sunnyside Washer today and use it for twelve weeks in your own home; use it once a week, twice a week or every day. At the end of three months if you are not more than satisfied with the Sunnyside Washer, if you are not convinced that you could never go back to the old hard way of washing clothes by hand, return the Sunnyside Washer to us and we will refund the full purchase price and pay all the freight charges. You get all your money back including the freight charges which you have paid. This proposition is so fair and liberal that you cannot afford to wash again without our Sunnyside Washer. Order one today subject to three months' free trial.

IT IS BUILT TO LAST FOR YEARS.

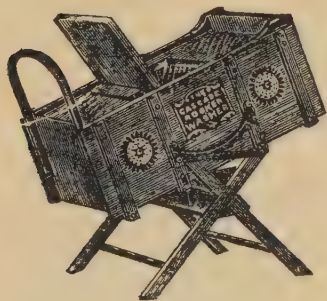

THE ROCKER OR RUBBER is built of selected clear hard maple rubbers. Southern cypress with clear hard maple rubbers. It rests in anti-friction bearings. The bottom rub board consists of a series of maple rubbers mounted on flexible galvanized steel rods with two automatic self adjusting springs to allow for the swelling of the rubbers when wet. It is instantly taken out so that the bottom of the machine can be quickly cleaned and is always in a perfectly clean and sanitary condition. The sides of the washer are of cypress, the bottom of heavy galvanized steel held in place by steel rods. These can be tightened with an ordinary wrench so that there is no danger of our Sunnyside Washer ever leaking. It is light and easily handled, weighing only about one-half as much as a rotary washer with its heavy cast iron gearing. It comes to you all ready for use after removing the crating.

THE RUBBER is mounted on long rocker irons and can be thrown clear out of the tub operator. All parts on which there is any wear are built of iron and steel. All metal that comes in contact with the clothes is heavily galvanized and will never rust. A wringer can be fastened on to one end and left there while the washing is being done, and on the other end is provided a receptacle for soap.

SPIRAL STEEL TENSION SPRINGS AND THE MAPLE RUBBER running in anti-friction bearings combined do the washing for you; do all the rubbing that is necessary; clean the clothes more easily and better in a minute than you could in one-half an hour by the hardest kind of hard work. You simply swing the operating handle back and forth easily and the machine does all the work. Order a Sunnyside Washer on trial today and use it for three months. At the end of that time you would not part with it for three times what you paid if you could not get another. You will find it to be the greatest wash day help ever invented. If not you can return it to us and your money will all be refunded at once including transportation charges. Shipping weight, 50 pounds.

No. 23F147 Our Sunnyside Washer. Price.....\$4.48

Our Cascade Rocker Washer, \$3.95.

No. 23F121 Rocks like a cradle and almost as easily. You can do your washing while sitting on a chair. Cannot possibly tear the clothes, has large capacity and washes quickly and easily. The galvanized cover is water and steam tight. No sloppy floors or foul steam to endanger your health if you use our Cascade Rocker. Has space for attaching a wringer, and can be instantly locked in a level position. It is extra well made and strongly braced, has no parts to wear or break and is the most durable machine manufactured. Inside dimensions, 16x25 inches. Weight, 60 pounds. Price.....\$3.95

The Genuine Improved Scott's Western Washer.

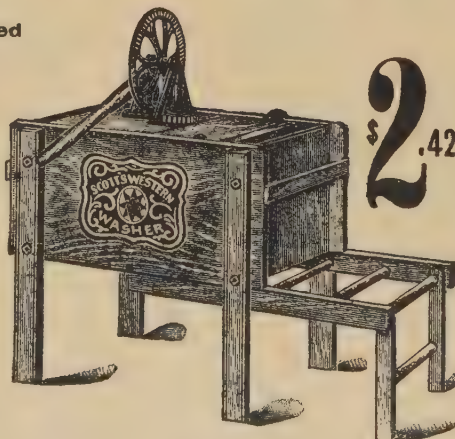

The standard family machine. The make up and finish of our Scott's Western will be the same as heretofore, and will not be excelled by any other make. All the bolts, washers, nuts, nails, in fact all iron parts that come in contact with the clothing are heavily tinned, absolutely no danger of rust spots on the clothes. Fitted up with our patent post and pin wheel, the greatest invention of the age in washing machines. Made in two sizes, No. 2 and No. 3. The former is the family size.

No. 23F124 Scott's Western Washing Machine. Size No. 2. Inside dimensions, 17x23x10 1/2 inches. Weight, 65 pounds.

DEPARTMENT OF DAIRY SUPPLIES.—Clean Easy Milk Cans.

We make all of our milk cans at our own factory and after the most approved modern designs. Our patterns were submitted to dairymen and milk shippers of long experience before the dies were made and embody every improvement that experience could suggest. Special attention has been given to the clean easy feature; there are no sharp angles, grooves or rough seams in which milk can collect and sour. The breasts are full and rounding, all seams are heavily loaded with solder and all rivet heads smoothly soldered over. Every can is as smooth and easily cleaned inside as a glass dish. Nothing but the best grade of steel plate is used in making; tinned and retinned by the palm oil process, which makes the most durable plate known. The Elgin, New York and St. Louis cans have our improved bottom hoop with offset, which supports the entire weight of the can and contents, so that no amount of jarring can strain the seams or rivets. Half round top hoops are heated and shrunk immovably onto the

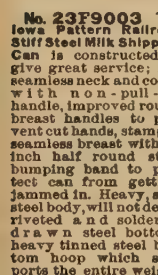

breast, the same as the tire is shrunk onto a wagon wheel; breast and hoop are then forced onto the cylinder by heavy machinery and would never loosen even if no solder were used. Breast handles are our improved, full round pattern, which cannot be bent or broken. Soldering is done by expert workmen and every seam is loaded with as much pure solder as it will carry. The weight of a milk can governs the price and when comparing prices always compare weights. We guarantee actual and full capacity. Remember that we will not only guarantee to furnish you with the best can of the weight that money can buy, but also guarantee to have you from \$5 to \$6 cents on every can you buy, or refund your money and pay transportation charges both ways. No other maker dare do this.

NOTE OUR REDUCED PRICES IN LOTS OF SIX OR MORE CANS.

No. 23F9000 The Wisconsin Pattern Milk Can. Seamless neck and cover, improved round breast, stamped seamless breast, heavy steel body, drawn steel bottom, strong heavy bottom, hoop is 3/4 inches wide, half round breast, hoopshunk immovably onto breast, then forced over body and heavily soldered. Body is double seamed. Bottom is flanged and riveted to body and bottom hoop, all parts tinned and retinned before being put together. All inside seams soldered with best solder and perfectly smooth. This style can be used all over the United States for a wagon can for hauling milk or cream to creameries, but is not as durable for shipping purposes as our heavier cans. We guarantee them to be actual capacity.

Capacity, gallons..... 5 8 10

Milk Can Links and Washers.

No. 23F9047 Milk Can Links and Washers. We always use this washer to strengthen can and prevent its wearing. We can link milk cans with link and washer, at an additional charge of, per can..... 5c

Milk Can Letters and Figures.

No. 23F9048 Copper Milk Can Letters or Figures. Size, 1 1/2 inches, soldered onto can at, per letter or figure..... 1 1/2c

Brass Faucet.

No. 23F9050 The illustration shows 1/2 inch brass faucet fitted to milk can for delivery purposes. When desired, it can be put on any of our cans at an additional cost, including price of faucet and labor of 1.40

No. 23F9051 Jersey Milk Can Brush. Best ox fibre stock, wide flaring end. Will clean corners perfectly and never mat down. Cleaned with scalding water. Size of face, 9 by 5 inches. Weight, 7 ounces.

Price, 6 for \$1.65; each..... 29c

Milk Stirrer.

No. 23F9072 Milk Stirrer. perforated wrought steel, with wrought handle shaped to hand and wide—suitable for 6, 8 or 10-gallon milk can of any pattern. Heavily coated with pure tin. Weight, 1/2 pound.

Price..... 22c

Milk Can Strainers.

No. 23F9080 Retinned, with 1/4-inch brass wire strainer cloth basket. Just the thing to use in connection with railroad milk cans. Heavy large bowl and straining surface. It measures 10 1/2 inches across the top and the brass cloth measures 4 1/2 inches, which will accommodate the milk as fast as poured in. It is retinned, easily cleaned and always

bright. Weight, 1/2 pound. Price..... 27c

No. 23F9082 Milk Can Strainer. Is made of the best quality 1XX charcoal tin plate, well soldered, with brass strainer. Has detachable hoop for holding straining cloth. The bowl or hopper is large enough to prevent milk overflowing. Strong, heavy and durable. Weight, 1 1/2 pounds. Price..... 55c

Simplex Milk Cooler and Aerator, \$11.70.

It cools and aerates your milk as fast as milked. This perfect aerator will remove all animal heat, all odors and unpleasant gases, remove flavors arising from excessive cabbage, turnip or silo rations. Makes the milk keep more than twice as long, makes better flavored butter and better cheese than is possible if the milk is not cooled. The milk is in better condition 24 hours after milking than it is three hours after milking if the Simplex Cooler is not used.

The cooling surface is made from solid copper tinned on the outside and will never corrode or rust. A hose connection is made with a water barrel or pump and the cold water is forced up in between the corrugated surfaces and passes out at the upper right end corner, while every drop of the milk passes over three feet of cooling surface and leaves the cooler at the same temperature as the water.

The supply can is made of fine XX charcoal tinplate. The cooler is fastened to the wall by means of brackets, as shown in illustration. Cooler is packed complete with reservoir, brackets, faucet for water barrel and 6 feet of 3/4-inch water hose. Upper and lower troughs are removable for cleaning.

No. 23F9088 Size of reservoir, 9x15x11 inches. Capacity, 6 gallons. Hourly capacity, 45 gallons. Shipping weight, 60 pounds. Price..... \$11.70

No. 23F9089 Size of reservoir, 9x18x11 inches. Capacity, 7 gallons. Hourly capacity, 55 gallons. Shipping weight, 63 pounds. Price..... \$15.60

No. 23F9090 Size of reservoir, 9x21x11 inches. Capacity, 9 gallons. Hourly capacity, 65 gallons. Shipping weight, 66 pounds. Price..... \$19.80

Milk Coolers and Aerators.

No. 23F9085 Makes the milk keep longer. takes out all animal heat and odors and thoroughly cools and aerates it. Four the milk into the hopper, and by the time you are through milking, it is cooled and aerated. It can be used either with running water or filled from a well, spring or with ice. The milk will be cooled to within a few degrees of the temperature of the water used in cooling. One filling with ice will cool 500 to 600 quarts of milk down to a temperature of 50 degrees. Attach rubber hose to water inlet and fill water compartment with cold water, or lift off top and fill from bucket, being careful to place the cooler and aerator where there is plenty of pure fresh air. Use the agitator freely to draw the warm water from the sides. The water overflow will permit of your keeping a running stream of water constantly passing through, and this is desirable where such can be resorted to. Built of heavy tin plate with galvanized steel bottom and painted inside with two coats of best anti-rust paint. With little care, should last for years. Securely crated for shipment.

Dairymen's Quick and Easy Cleaner.

No. 23F9119 A pure white flake, containing neither grease, caustic, alkali, animal nor vegetable matter. A wonderful cleaner, and will sweeten and purify milk cans, churns, milk bottles, separators, test tubes, strainer cloths, and all dairy woodwork. Invaluable for milk cans and separator parts, as it will instantly remove all grease and cream, and will not rust or corrode the tin. It makes no lather, is easily rinsed off and is tasteless. Quickly removes all grease and stain from milk bottles, leaving them sweet, clean and highly polished. Where you have been using 5 to 7 pounds of sad soda or similar washing compound, 1 pound of Dairymen's Quick and Easy Cleaner will do the work. Put up in wooden boxes with complete directions for use.

Factory Milk Cans.

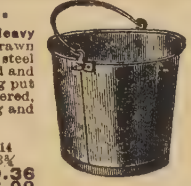

No. 23F9145 Has ventilated floating cover which slides down on to the milk and prevents churning and agitation. Body made from one piece Cookley K JAXXX best charcoal in plate, double seamed and soldered. Bottom is extra heavy. Bottom hoop is 1 1/2 inches wide welded steel, having a bead on which bottom rests. Bottom rivets pass through flange on bottom body and bottom hoop. Top and center hoops, 2 1/2 inches wide welded steel. Improved recessed malleable iron handle, its snugly over the middle hoop and is riveted on both sides, so when these cans are riding together in a wagon the handles cannot punch holes in the body of can. All hoops are soldered top and bottom. Great care is taken in soldering these cans, to assure strength and no leaks. The weight of this can indicates plainly its actual value; although the price may seem high, when durability is considered, it's the cheapest can we or anyone else can offer. We guarantee actual capacity.

Dairy Pails.

No. 23F9170 Heavy Dairy Pail, with drawn steel bottom, heavy steel ball. Stock is tinned and retinned before being put together. Well soldered, smooth seams, strong and durable.

Price... \$3.68 \$3.93 \$4.52 \$5.40

Improved Dilution Cream Separator.

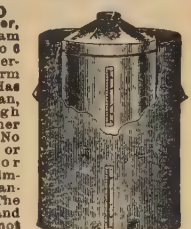

No. 23F9189 Improved Dilution Cream Separator; separates the cream from the milk in thirty to fifty minutes, and gives you the sweet diluted milk which is far superior to the sour cream from the pan system for stock food, and with a little oil meal added, makes a most nourishing ration. To use: Reverse the cover, which also contains a brass strainer, and attach conducting tube; pour in any quantity of milk up to half the capacity of the separator. Now slowly pour in an equal quantity of pure cold water, then reverse cover, unscrew tube and attach aerating plate. The water entering at the extreme bottom diffuses evenly upwards through the milk, separating the cream globules, which being lighter than either, rise quickly to the top. The rising of the cream can be watched through the glass gauges in the side, and when all has risen, draw off the skim milk through faucet at apex of the cone shaped bottom until cream line passes below lowest gauge. Then remove milk and draw off the pure cream in another vessel. Made of heavy XXX charcoal tin plate, enameled and decorated on the outside and furnished complete with legs.

Capacity Gallons	Outside Measure	Shipping Weight	Price Complete
10	12x30 in.	10 pounds	\$3.20
14	14x30 in.	15 pounds	\$3.55

28	18x30 in.	35 pounds	\$4.75

Economical Creamers.

No. 23F9190 Economical Creamer will separate the cream from the milk in 4 to 6 hours and produce perfect separation in warm or cold weather. Has removable inner can, permitting thorough cleaning of both inner and outer cans. No loose parts to wear and get lost. No labor wasted in toffs skimming, lifting or handling of crocks. The milk is aerated and ventilated and is not churned as in a centrifugal separator. Milk compartment can be removed and cleaned as easily as one crock. Gives you pure, sweet, undiluted milk for family use. Glass gauges at top and bottom enable you to watch the progress of the cream rising and to draw off the milk and cream separately through valve in bottom. Inner can is made of heavy thinned steel, finished on outside to prevent rust. Outer can made from galvanized iron with double seamed bottom. All carefully soldered. Cover is cone shaped and by reversing forms a strainer, as it is provided with removable cone shaped brass wire strainer and also perforated plate for ventilating and aerating the milk. Special descriptive circular mailed on request.

Economical Creamers.

No. 23F9191 Similar to No. 23F9190 except that outside water tank is oblong and is provided with two separate oval inner milk cans so that the morning and evening's milk can be kept separate and new milk need never be mixed with the old, which is a great advantage. Inner cans are made from heavy charcoal tin plate and each provided with a combined strainer and cover and painted on outside with anti-rust paint. Outside water tank is heavy galvanized iron, double seamed and soldered at joints. Inner cans can be easily detached and taken out for cleaning.

Capacity of each inner can	Outside measure of tank	Shipping weight	Price

The Peerless Home Creamery.

No. 23F9192 The Peerless Home Creamery is a cabinet made in refrigerator style, with galvanized iron lining and having double walls with felt lining and a dead air space between, which greatly assists in maintaining a low temperature within. The milk cooling cans are oblong, 14 inches long, 5 inches wide and 14 inches deep, capacity 18 quarts, and are immersed in cold water with or without ice. By using ice and water and holding temperature at 45 degrees all cream can be raised in 12 hours, or by using running water at a temperature of 55 degrees cream can be obtained in 24 hours. Each can is provided with glass gauge for observing cream and faucet for drawing off both milk and cream. Tank is strongly made and well painted and with fair usage will last a lifetime.

The Star Barrel Churns.

This style of churn is old, tried and reliable, easy to operate and keep clean; it is absolutely impossible for this churn to leak, as the wear can be taken up as simply as one can turn a thumbnut. The fasteners are attached to the outside of the churn, and it will be seen from the illustration that the ball and cover fastening is a compound leverage which increases the pressure ten times more than any other make of churn.

HARPER'S BUTTER REAPER.

JUST THINK OF GETTING ELEGANT BUTTER OF THE FINEST FLAVOR AND BEST KEEPING QUALITIES FROM SWEET CREAM OR SOUR CREAM IN FROM ONE TO SIX MINUTES.

Harper's Wonderful Butter Reaper will take more butter from any amount of cream and do it quicker than any other churn manufactured. If you have spent from three to four hours in back-breaking toil turning a churn you can save almost all the time and almost all the labor with Harper's Butter Reaper. We fully guarantee it to do all we claim for it and to be not only the latest but the most wonderful improvement in churning ever devised. Butter is churned by concussion and agitation. The more violent it is the quicker the churning is done. Harper's Butter Reaper creates a terrific agitation so thorough and violent that it separates the globules of butter fat more effectively in a minute than any other churn does in one hour. It does this without in any way breaking the fat globules or spoiling the grain of the butter.

We give sixty days trial with every Harper's Butter Reaper in order that you may convince yourself that every word we say about it is absolutely a fact and if after churning with it as many times as you wish for sixty days, you do not find it to be all we claim you may return it to us and we will refund the entire purchase price, including transportation charges both ways. We could not make a fairer offer than this and we do it that every farmer may have an opportunity to see for himself the benefits of churning in a modern scientific manner—doing in from one to six minutes what formerly required hours of the hardest labor.

Harper's Butter Reaper is built to stand the hardest kind of use and will last for many years with even ordinary care. The frame is made of tough gray iron cast from cut ears and are mathematically correct. The can is made of heavy charcoal tin plate handsonely enameled on the outside to prevent rust. The propeller is plated with tin. There are no sharp corners or rough places where dirt can accumulate for four or five hours. Butter made in this machine will bring from three to ten cents a pound more than any other and it will pay for itself in six months on the milk of two cows. Every progressive dairyman should have a Harper's Butter Reaper—the scientific churn.

THE IMPROVED ECONOMY CREAM SEPARATOR FOR 1907

THE IMPROVED ECONOMY SEPARATORS FOR 1907 resemble in general appearance our 1906 model, which carried the country by storm last year, sweeping away all competition and which was acknowledged by all fair minded and competent judges to be the closest skimming and most practical farm cream separator ever devised. Our 1907 pattern possesses all the great improvements and exclusive features that made our 1906 machine famous. It has by far the closest skimming device ever invented. It is the easiest running, most durable and the nearest to a self cleaning and flushing separator ever made. In our 1907 pattern we have by the expenditure of hundreds of thousands of dollars for improved machinery, much of it designed exclusively for our use, and not to be had by other makers, by employing the very best talent in every department, by a rigid system of inspection by which every machine is scrutinized and tested at each stage of its construction, attained a mechanical perfection which is at once the wonder and envy of all other makers. Our 1906 Economy was the closest skimming separator ever offered, yet our 1907 model will skim closer.

OUR 1906 ECONOMY WAS THE SIMPLEST, EASIEST RUNNING, EASIEST CLEANED AND MOST PRACTICAL CREAM SEPARATOR EVER OFFERED, BUT OUR 1907 PATTERN RUNS STILL EASIER, CLEANS STILL EASIER AND IS STILL MORE PRACTICAL.

IN THE 1907 ECONOMY we have improved the oil cup, improved the composition of the high speed bushings, improved the construction of the bowl, simplified the adjustment of the cream screw, changed and improved the supply tank and its fastening, the milk cover and spout, the crank ratchet, the method of casting the frame, and in many other points have benefited by the experience of our customers and ourselves. As our 1906 Economy was the acme of separator construction last year, so our 1907 model this year excels all others.

OTHER MANUFACTURERS attracted by the wonderful success of the Economy are falling into line, other machines are being produced which in general outline at least, approach the Economy, that resemble it in outward appearance, but they one and all lack the vital point, the wonderfully effective skimming device of the Improved Economy, which is covered by strong basic patents and cannot be obtained in any other cream separator sold by any other maker.

THANKS TO THE MORE THAN LIBERAL PATRONAGE of the shrewd and careful farmers of our separator business has been almost beyond belief, really the marvel of the separator world. We are now by far the largest makers of hand cream separators in the world. Our great Economy factory, in Central Iowa, with its wonderful mechanical equipment, its great expert organization, its unrivaled facilities for the transformation of raw material to the finest separator in the world, now produces 300 complete Economy Separators every working day in the year, more than two carloads, more than twice as many as the next largest maker.

THIS WONDERFUL BUSINESS has been built up first by the genuine merit of the Economy, and then by the good will and the good words of our more than satisfied customers. Every Economy Separator we have sent out has sold others, single machines have led to our supplying whole communities. The story of its wonderful merit, quickly appreciated by our customers, has spread from mouth to mouth, from farm to farm in ever widening circles, leaped from neighborhood to neighborhood, from community to community. From far and wide orders have poured in upon us, our sales have been limited only by the capacity of our factory. While we have increased our output as fast as machinery could be made and installed, the demand has always exceeded the supply.

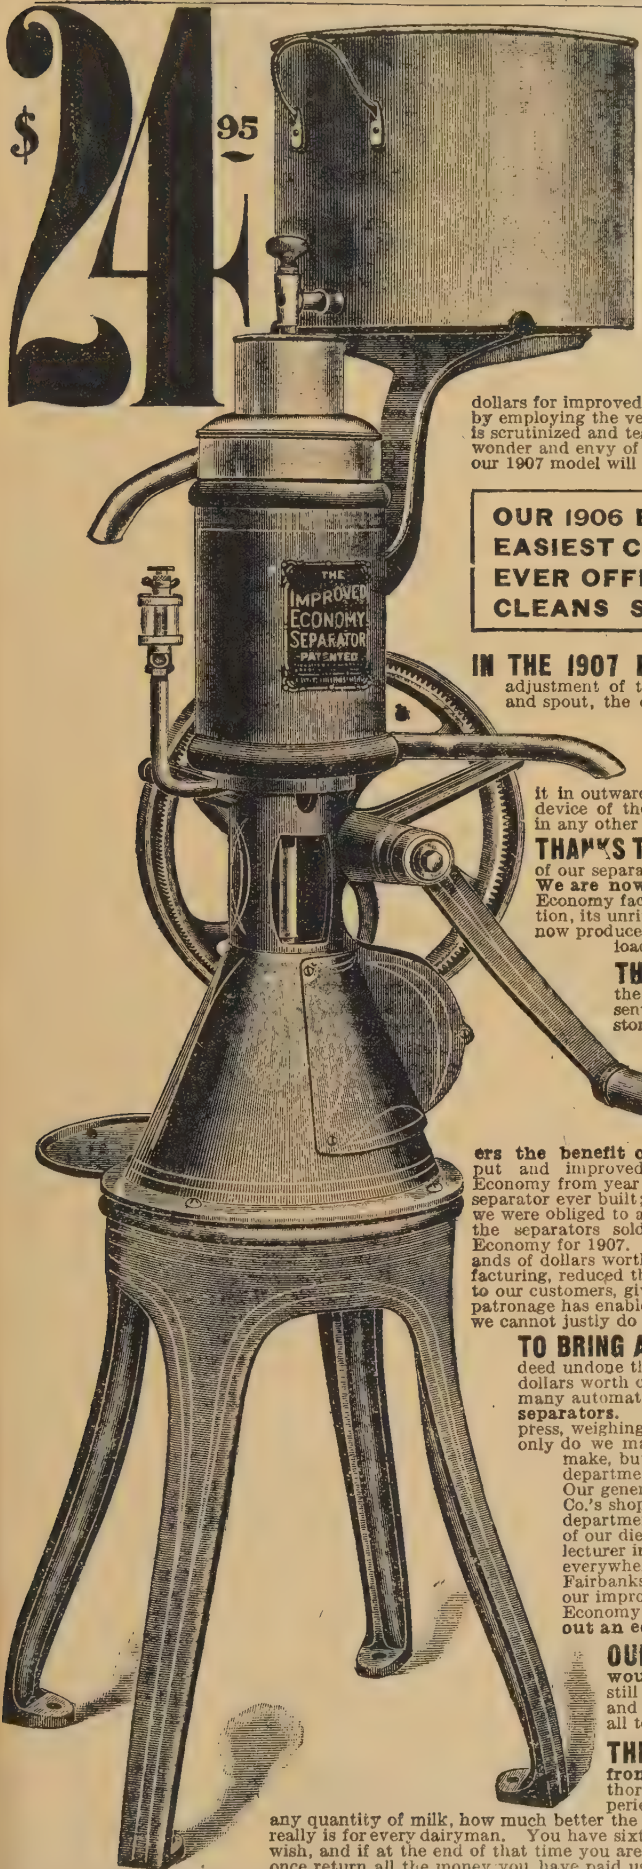

FOLLOWING OUR FIXED AND ALWAYS UNCHANGED POLICY of selling on a single small margin of profit and of giving our customers the benefit of every penny we can save in manufacturing cost, by reason of increased output and improved methods and machinery, we have steadily reduced the selling price of the Improved Economy from year to year until we can now offer our great 1907 Jumbo Economy, the most perfect hand cream separator ever built; the big 750 pounds per hour size, at the wonderfully low price of \$33.95. Three years ago we were obliged to ask \$106.25 for our old style Economy of the 500-pound size which, although equal to most of the separators sold by other manufacturers today, can in no way be compared with the Improved Economy for 1907. Each year we have, by reason of our increased output, by the installation of many thousands of dollars worth of improved machinery, by the introduction of the latest improved methods in manufacturing, reduced the manufacturing cost, and each year we have made a corresponding reduction in our price to our customers, giving them the benefit of every penny we have saved in the cost. Feeling that their liberal patronage has enabled us to reduce the cost and that they are, therefore, entitled to all that has been thus saved, we cannot justly do otherwise.

TO BRING ABOUT this great reduction in price, amounting to \$72.30 on the large 750-pound size and proportionately as great on the smaller sizes, we have left no stone unturned, no deed undone that would improve our manufacturing facilities. We have installed hundreds of thousands of dollars worth of the highest type of automatic and labor saving machinery. We now have five times as many automatic machines as any other maker. We make every bolt, screw and nut used in our separators. Other manufacturers buy these. We draw our own bowls and supply tanks in a huge press, weighing 37,000 pounds; all other makers buy these parts ready made from other concerns. Not only do we make these and many other parts which no other separator manufacturer has attempted to make, but we make our own tools, gauges, drawing and stamping dies. Our various manufacturing departments are in charge of picked experts, many of them having a national reputation in their line. Our general superintendent, Mr. M. A. Ganiard, was formerly superintendent of the DeLaval Separator Co.'s shops at Poughkeepsie, N. Y.; Mr. A. E. Jackson, manager of our lathe and automatic tool department, was formerly assistant superintendent for the same concern. Mr. J. G. Jones, manager of our die making, drawing and sheet metal departments, has a national reputation as an author and lecturer in these lines, and his treatises on metal drawing and stamping are the standard authority everywhere. Our tool and gauge making room is in charge of Mr. Edward Sheldrick, formerly with Fairbanks, Morse & Co., of Beloit, Wis. Thus in these and in all other departments, our expert help, our improved machinery and appliances, our painstaking inspection and tests insure to the Improved Economy purchaser a machine that in mechanical construction and effectiveness is without an equal and at a cost that is less than one-half the price asked by other makers.

OUR GREAT CHALLENGE OFFER of \$1,000.00 in gold to the separator manufacturer who could produce a machine that would outskim the Improved Economy at 50, 60, 70, 80 and 90 degrees, made last year, still stands unclaimed. Although advertised far and wide, no maker has dared to come forth and accept our challenge. The Improved Economy is still the closest skimmer in the world at all temperatures and under all conditions.

THE TERMS OF THE FREE TRIAL OFFER to purchasers of the Improved Economy have this year been extended from thirty days to sixty days in order to give our customers not only ample time to become thoroughly familiar with the operation of the machine, but also to find out from their own experience what a big money saver it is, how much more butter it will enable you to make from

any quantity of milk, how much better the butter is, and what a work saver, time saver and money maker the Improved Economy really is for every dairyman. You have sixty days in which to try our Improved Economy Separator and to put it to any test you may wish, and if at the end of that time you are not fully satisfied with it in every way, you are at liberty to return it to us and we will at once return all the money you have paid us, and also pay all the transportation charges both ways, so that you cannot lose a penny. This is the fairest and most liberal offer ever made by any separator maker, and is possible for the reason that our experience has proven that no other separator in any way compares with the Improved Economy.

\$24⁹⁵ BUYS THE ECONOMY

THE BEST CREAM SEPARATOR

MADE IN THE WORLD.

\$24.95 BUYS THE IMPROVED ECONOMY CREAM SEPARATOR, the machine exactly as illustrated and described, with a capacity of 250 to 300 pounds or 120 to 140 quarts per hour. Suitable for a dairy of three to eight cows, and guaranteed to be a better separator in every way than has heretofore been sold exclusively through agents and dealers at \$70.00 to \$75.00.

At **\$24.95 to \$33.95**, according to capacity, we offer the genuine Improved Economy Cream Separators as the very best and highest grade and most improved cream separators on the market. Guaranteed the closest skimming, the easiest running, strongest, most convenient, easiest cleaned, and most satisfactory hand cream separators manufactured today, the superior of any separator on the market, regardless of name, make or price. We are proud of our Improved Economy Cream Separator, and we have a right to be.

It is today the ideal farm cream separator and a real marvel of simplicity and effectiveness. It is the result of many years of continual and exhaustive experimenting by a practical man who has been directly connected with the centrifugal cream separator business since its infancy and whose sole aim in life has been to produce a cream separator so simple that any farmer's boy could run it; so durable that if given the ordinary care required by any piece of machinery there could be no wear out to it; so effective that it would get all the cream from the milk in any form, thick or thin, for its owner with the smallest possible effort under all dairying conditions. The Improved Economy is the closest skimmer in the world, under all conditions, and we can prove it. There is no other just as good.

WE WILL GIVE..... \$1,000.00 IN GOLD

to the separator manufacturer who can produce a machine that will outskim the Improved Economy at temperatures of 50, 60, 70, 80 and 90 degrees. We make this offer to the makers of the De Laval, the Sharples, the Empire, the United States and every other machine sold in the United States. We have tested them all and we know what we are talking about.

THE IMPROVED ECONOMY RANKS FIRST. THE BEST OF THE OTHERS IS A POOR SECOND.

There is no guess work about this. These are plain, proven facts. If they were not, we could not afford to make the offer that appears above.

\$100.00 IN GOLD TO ANY SEPARATOR AGENT

who can outskim the Improved Economy with any other machine made by any other maker at 50, 60, 70, 80 and 90 degrees. We make this offer to all agents regardless of the machine they sell. If you are a separator agent and think the machine you sell will outskim the Economy, come to Chicago and try it. If you succeed we will give you \$100.00 in gold. If you fail you lose nothing but your traveling expenses and time.

HERE ARE PLAIN SEPARATOR FACTS

PROVEN BY COUNTLESS TESTS under all conceivable conditions: Of the dozen or fifteen different makes of separators sold in the United States, there are six or seven that do fairly good work at a temperature of 75 degrees or over. Of these there are four that will skim approximately as close as the **IMPROVED ECONOMY**, that is to say, will leave in the neighborhood of one one-hundredth of one per cent of butter fat in the skim milk under favorable conditions and at a temperature of 75 or 90 degrees Fahrenheit. Below a temperature of 75 degrees we part company; at 70 degrees there are but two other machines that will do work that even approaches that of the **ECONOMY**; at 60 degrees but one, and

AT 50 DEGREES WE STAND ALONE.

The next best machine (one of the oldest and most widely sold) will on an average of a series of tests leave not less than three times the butter fat in the skim milk that the **ECONOMY** will at 50 degrees temperature. Skimming at temperatures of 50, 60, 70, 80 and 90 degrees, the next best machine will lose an average of twice the butter fat that is lost with the Improved Economy. The other machines lose from three to ten times as much.

OUR GREAT SIXTY-DAY FREE TRIAL OFFER.

AS A GUARANTEE

that the Improved Economy is the best and most satisfactory separator on the market today, as a proof of the truth of every claim we make we accept your order for a separator on these plain, simple terms, and with this understanding and agreement: You are to have 60 days trial on the Improved Economy Separator. Sixty days to

set it up and test it on your own farm. Compare it with the best high priced separator that is offered you. We are perfectly willing that the expert agent run the other machine and you run the Economy, which you can easily do by following the simple directions we send with each machine. If the Economy does not run easier, skim closer, skim colder milk and skim a heavier cream than the other machine in the hands of the expert; if the Improved Economy is not much the easiest to handle, to clean and care for, if the Improved Economy, after 60 days' use on your own farm, does not satisfy you that it is the best machine you ever saw or heard of and the only machine you would care to use, you are at perfect liberty to box it up and return it to us and we will promptly return all the money you have paid, including freight charges both ways.

THE IMPROVED ECONOMY CREAM SEPARATOR PRICE LIST.

No. 23F9173	Capacity, 250 to 300 pounds of milk per hour.	Shipping weight, 180 pounds.	Price, \$24.95
No. 23F9174	Capacity, 350 to 400 pounds of milk per hour.	Shipping weight, 190 pounds.	Price, 28.95
No. 23F9176	Capacity, 750 pounds of milk per hour.	Shipping weight, 250 pounds.	Price, 33.95

IF YOU KEEP COWS, no matter how many, you are losing money every day you are without a cream separator. A cream separator saves you money because it takes practically all the butter fat out of the milk, it skims to a small fraction of one per cent, to a trace so small that it frequently cannot be measured in a test tube. The best gravity raising systems lose 10 to 25 per cent of the butter fat that never rises to the top. If raised in crocks and pans, 30, 40 and often 50 per cent of the butter fat is wasted. With a cream separator you can easily make as much butter from the milk of three or four cows as from the milk of five cows by the old way. The separator cream will churn in one-half the time and the butter will bring from 2 to 10 cents per pound more on the market. The tiresome hand skimming, the everlasting handling and cleaning of crocks and pans and pumping water is done away with. Half an hour after the milking is done all the cream is separated from the milk and cared for, the separator has been washed and the warm, sweet skim milk fed to the calves, pigs or chickens. The value of the fresh warm skim milk as food for young animals cannot be overestimated. It contains all the nourishment of the whole milk and the addition of a small quantity of cotton seed or flax seed meal at a trifling cost makes a perfect food. Calves and pigs raised on this diet will bring twice the price on the market of the stop fed animal. If you are hauling your whole milk to the creamery, or having it hauled, the cost of hauling in time and labor will pay for a good cream separator in less than a year. There is the wait for the skim milk at the creamery, which is usually the longest in the busy season. You bring it home icy cold in winter and it has to be heated before it can be used. In summer it is usually thick, sour and disgusting, causing sickness and death among the animals to which it is fed.

THE CENTRIFUGAL ACTION of the cream separator removes all particles of dust and dirt, all impurities, bacteria and disease germs that may be in the milk, these remain in the bowl while the cream flows out, pure, smooth and velvety and after being cooled, will keep three or four times as long as the gravity raised cream that has been spread over the top of more or less sour milk for hours gathering dust and dirt and loaded with ferment germs.

THREE WAYS OF SEPARATING CREAM.

In olden times the dairyman knew of but one way of separating cream from milk. That was to set the whole milk in crocks or pans in a cool, quiet place, where in the course of time, the skim milk, being heavier gradually settled down, forcing a part of the lighter cream or butter fat to the top, from whence it was skimmed by hand. About forty years ago the deep setting system was introduced. This consisted in setting the milk in deep cans, instead of shallow pans, and submerging in ice water, making the separation of the cream more complete and rapid and improving its quality, but still leaving a considerable part of the cream or butter fat in the skim milk. A few years later the centrifugal separator to be operated by steam power, was put on the market, followed in the early 90's by the hand power centrifugal separator. While the first centrifugal separators were crude and clumsy, they were far more effectual than the old methods.

IMPROVEMENT has been constant and rapid and with the best centrifugal separators today the separation of the cream from the milk is well nigh perfect, leaving a trace of butter fat in the skim milk that is so small that it is interesting from a scientific standpoint only, and means practically no loss to the dairyman.

ALL THESE METHODS OF SEPARATING ARE IN USE TODAY.

Thousands upon thousands of dairymen still use the old pan raising system, and gather only from one-third to two-thirds of the cream, or the deep setting system and do a little better. Other thousands haul their whole milk over weary miles of country roads to local creameries, wait until the cream is separated by power centrifugal separators and then haul the skim milk back home again. A large and rapidly increasing army of up to date dairymen have awakened to the fact that a good hand separator on the farm makes this heavy hauling unnecessary and costs no more than must be paid out for hauling in a single year or less, to say nothing of its other advantages, which are many.

RAISING CREAM IN CROCKS AND PANS. Every dairyman knows the everlasting drudgery of the pan raising system, the endless scalding and cleaning of crocks and pans, pumping of water and handling of heavy loads, but few realize the waste of it. You know that it is making slaves of your wife and daughters as well as yourself, but did you ever stop to think what it is costing you in dollars and cents, that you are feeding one-quarter of all your butter, worth 20 or 25 cents a pound, to the calves and pigs and that fed in sour swill it does not do them any good, either? In fact, you simply waste it. You do not always leave one-quarter of the butter fat in the skim milk. It depends on the time of the year, the feed, the weather and a dozen other conditions. Sometimes you leave one-half of it in, and in certain conditions of the weather the cream will not raise at all and is all wasted.

Then again, the cream in some cows' milk is distributed in much smaller globules than in others, so small, in fact, that they are scarcely affected by the force of gravity and cannot rise to the surface. You have perhaps noticed that while the milk of some cows seemed to be rich, very little cream would rise and you have condemned them as no good, when it was not the cows, but the system, that was to blame.

THE BUTTER FAT which you leave in the skim milk will easily average one-fourth and probably more. Almost any business man would be well satisfied to take as a profit what you are wasting, really throwing away. And another point, you know that there are frequently harmful germs in milk as it comes from the cow and that in standing exposed in pans for twenty-four hours it gathers dirt and dust and more germs from the air, and sometimes absorbs unpleasant odors. A part of all this is gathered with the cream and mixed with the butter, spoiling its quality and making it worth from 2 to 10 cents a pound less than it should be. The rest helps to spoil the sour skim milk and makes it a little worse if possible.

After skimming, the cold, sour milk must be heated up before feeding it to the calves. That means more time, more labor and more heavy lifting.

THE DEEP SETTING SYSTEM of raising the cream in deep round or oval cans plunged in ice water is a little more economical than raising it in open pans. You get a little more cream and the quality is better; still the waste is very great, about one pound of butter fat lost to every four gathered, and the labor is as hard or perhaps harder because of the quantity of ice or water which is necessary to get good results.

These hard and wasteful ways of gathering cream are now as out of date as threshing grain by hand would be, and with modern methods it is a common thing for a dairyman to make 50 per cent more money, and with one-quarter of the labor of the old ways from the same number of cows.

HAULING THE WHOLE MILK TO THE CREAMERY. Hauling the whole milk to the creamery for separation has one great advantage over the gravity or pan raising system, and that is, that the dairyman gets credit for all or practically all, of the cream in his milk, which is impossible to secure with a gravity system. This gain is partly balanced by the cost of hauling, which will average 3 to 4 cents on every pound of butter made. You can figure the cost, the average haul is six miles and the cost 15 cents per 100 pounds of whole milk, containing usually about 3½ per cent butter fat, which will make about four pounds of butter. The cost of hauling the milk to make the four pounds of butter is 15 cents, or 3½ cents a pound. You can ship this butter from the Atlantic to the Pacific, over 3,000 miles, after it is made, for less than it costs you to have it hauled six miles. That is one great fault of the local whole milk creamery. The average farmer hauls 100 pounds of whole milk six miles for the sake of having four pounds of butter taken out of it, and then hauls 90 pounds of skim milk home again. Some one compared it to hauling a field of potatoes to the railroad depot and after having the potatoes taken out, hauling the soil back home again. The time and work required by the whole milk creamery system is greater than any other if you do your own hauling. In fact, it takes most of the time of one man and a team. The milk must be cooled off, put into cans and lifted onto the wagon. Then comes the long haul over all kinds of roads in good weather or bad weather, wearing alike on man, team, wagon and harness, the wait at the creamery while the milk is being weighed, heated up and separated, usually several hours in length. At last you get the skim milk and start back over the same long road. Upon your arrival at home the skim milk is partly frozen in winter, and must be heated up before it can be fed. In summer it is thick, sour and disgusting and actually does the calves and pigs more harm than good. But you are not through yet; the whole wagon load of cans must be carefully scalded and cleaned and the team cared for and the next day you do it all over again. All this is for the sake of having a few pounds of butter fat taken out of the milk. No wonder most farmers find it cheaper to pay someone else to do the hauling, even though it costs them 3 or 4 cents on every pound of butter. But even then you cannot avoid the milk cooling, the heavy lifting, the can cleaning and the waste of the frozen or sour skim milk. While the whole milk creamery system is more economical than the old style pan raising or gravity system and a great many dairymen can and do make a profit out of it when the price of butter is high, it is very doubtful if a dairyman can stand the hauling tax of 3 to 4 cents on every pound of butter he produces under all conditions of the market, and make more than a very small margin of profit, and as likely as not, if butter prices have been low, he will find that he has actually not made enough to cover his expenses, to say nothing of his time and labor for his year's work.

THE FARM CREAM SEPARATOR.

A centrifugal farm cream separator separates all the cream from the milk immediately after milking, while it is in its purest, sweetest and freshest state. It cleanses and purifies it and delivers it in the best possible condition, making a better quality of butter. It gives you warm, sweet skim milk for feeding and enables you to raise strong, healthy calves and pigs at a trifling expense. It will reduce your dairy work wonderfully. Half an hour after milking the cream has been separated and cared for, the separator cleaned and the work is finished. It makes you independent of the local market, as the sweet cream can easily be shipped hundreds of miles, if you can get a better price for it else-

where; in fact, it gives you all the benefits of a creamery in your own home.

THE BIGGEST PAYING MACHINE ON THE FARM.

If you are hauling your whole milk to a creamery for separation, it is costing you from 10 to 16 cents per 100 pounds to have it hauled, or probably more if you haul it yourself. At a fair estimate, each of your cows will give 5,500 pounds of milk a year, so that it costs you \$5.50 to \$8.80 for hauling the milk of each cow. A hand separator will save you practically all this, as, if your milk averages 3 4-10 per cent butter fat and you skim 30 per cent cream, you will have but 623 pounds of cream to haul, at a cost of but 63 cents to \$1.00 a year. Your hand cream separator will save you all the difference. If you are raising cream in crocks and pans and your cows are averaging 200 pounds of butter fat a year, you will not be able to skim more than 130 to 150 pounds, the rest remains in the skim milk and is lost. Figuring at 20 cents a pound for butter fat, your loss is \$10.00 to \$14.00 on the product of every cow. Your hand separator would have saved this for you. Consider the value of the fresh warm skim milk from the separator for feeding one's stock. It is one of the best foods in the world for young stock, with a little oat meal or oil meal added, and is estimated by dairy experts to be worth 15 cents per 100 pounds more than sour skim milk for feeding. With cows giving 5,500 pounds of milk per year, you will get at least 4,800 pounds of warm skim milk from each cow, and it is worth 15 cents per 100 pounds more than the old sour milk, making a saving on this item alone of \$7.20 per year on each cow. A hand cream separator will save not less than \$10.00 to \$15.00 a year on the product of every single cow you have, to say nothing of the saving of time and labor. No one who has used one has ever been known to go back to the old fashioned way. It will pay for itself more quickly and pay bigger returns than any other labor saving machine used on the farm. Other farm machines save you money and time for a few days each season only, but the farm cream separator is the only one that will save labor, time and money twice every day in the year.

HERE IS A FARMER'S ACCOUNT BOOK.

HE HAD TEN COWS.

The first year he raised the cream in pans and made a profit of \$4.92.

The second year he hauled his whole milk to the creamery and made a profit of \$31.20.

The third year he used a HAND CREAM SEPARATOR and made a profit of \$241.36.

The First Year—Ten cows and a Pan Raising System.

PAID OUT		RECEIVED	
Cost of feeding 10 cows for 1 year at \$30.00 a head . . .	\$300 00	60,000 pounds of whole milk, divided as follows:	
		1,800 pounds of butter, at 15c per pound	\$270 00
		58,200 pounds sour skim milk and buttermilk, at 6c per 100 pounds	34 92
		Total value of products . . .	\$304 92
		Deduct cost of feeding	300 00
		Profit	\$4 92

The Second Year—Ten cows and a Local Creamery.

PAID OUT		RECEIVED	
Cost of feeding 10 cows for 1 year, at \$30.00 a head . . .	\$300 00	For 60,000 pounds whole milk, sent to the creamery, at 60c per 100 pounds .	\$360 00
Paid for hauling 60,000 pounds of whole milk to the creamery, at 10 cents per 100 pounds	60 00	Had returned 52,000 pounds of sour skim milk, worth 6c per 100 pounds	31 20
	\$360 00		\$391 20
		Total value of products . . .	\$391 20
		Deduct cost of feeding and hauling	360 00
		Profit	\$31 20

The Third Year—Ten cows and a Hand Cream Separator.

PAID OUT		RECEIVED	
Cost of feeding 10 cows for 1 year, at \$30.00 a head . . .	\$300 00	60,000 pounds of whole milk, divided as follows:	
		2,400 pounds of butter fat, at 17c per pound	\$408 00
		52,000 pounds warm, sweet skim milk for feeding, worth 25c per 100 pounds .	130 00
		5,600 pounds buttermilk at 6c per 100 pounds	3 36
			\$541 36
		Total value of products . . .	\$541 36
		Deduct cost of feeding	300 00
		Profit	\$241 36

This farmer did not figure that his time and labor were worth anything. If he did he would have shown a larger profit with his hand cream separator, because he handled his milk in one-quarter the time and with one-quarter the labor, still he paid for his cream separator four or five times over in a single year.

A WONDERFUL SAVING OF TIME AND LABOR. No dairyman who has not used a cream separator can possibly appreciate how much time it will save him. Half an hour after milking the cream has been separated and cared for, the skim milk is fed to the stock, the separator washed and the work finished. There is no countless array of crocks and pans to be washed and scalded; only one milk can to clean in the place of ten or a dozen. No hand skimming, no heavy lifting, no handling of ice or pumping water.

IF YOU ARE SHIPPING YOUR CREAM or delivering it to the local creamery, a woman, a girl, or a boy can take it in a buggy or any light rig two or three times a week, saving the time of a man and team, daily, necessary to haul the heavy wagon load of whole milk. You do not have to build fires to warm the skim milk. You can churn separator cream in one-half the time. You will have time to spare for many things which you have before been obliged to slight, and your dairyming will become a pleasant and profitable occupation instead of an endless and tiresome task. The women of the house are relieved of the drudgery, and the work of the men is lightened.

YOU WILL SAVE MONEY in a dozen ways with an improved Economy Separator. Almost every farmer has from \$10.00 to \$25.00 invested in milk cans and pans, which are continually wearing out and the cost of repairing and replacing them every year is considerable. With a separator only one or two cans are needed. You do not need a milk house or an ice house, as you have but one can, or at most, two cans of cream to care for. You save the wear and tear on wagons, harness and horses. All this in addition to what you will save by getting all the cream, getting a better quality of cream and having the fresh, warm skim milk for feeding purposes. And another important point, your work being lightened you can increase the size of your herd and hence your profits, as it will actually take less time to handle and care for the milk of fifteen cows with a hand separator than that of five cows without one, and the results are sure, no guess work. A farmer with a separator can always do a dairy business at a profit, when the old fashioned dairyman is losing money and kicking about business when really he is himself to blame, for a large part of his product, and all the profits, go to waste in the sour skim milk.

VALUE OF FRESH WARM SKIM MILK FOR FEEDING. Fresh cow's milk is one of the purest and best foods for young animals. After having been passed through a separator it still contains all the elements necessary to develop the bone and tissue of the young animal. Only the butter fat has been removed, and scientists tell us that butter fat adds nothing whatever to the growth and strength of the animal, being useful only to supply animal heat and as a lubricant for the digestive tract. The warm skim milk, with a little oil meal or oat meal added at a cost of a cent or two a pound, makes a perfectly balanced ration, and calves and young pigs will thrive on it and grow just as rapidly as when fed on fresh whole milk. To feed whole milk to calves after the first day or two is simply throwing money away. A cent's worth of oil meal will do the calf just as much good as a pound of butter fat if mixed with the warm skim milk. Many exhaustive experiments have been made proving the value of skim milk for feeding to be from 20 to 40 cents per 100 pounds, according to the age of the animal and the prevailing market price. It is also excellent for human food, and if in the neighborhood of towns or cities, can frequently be disposed of to bakeries, etc., at a handsome margin of profit.

THE VALUE OF SWEET SKIM MILK as a flesh producer in young animals is well illustrated by a series of scientific experiments conducted by the Storrs Agricultural Experiment Station of Storrs, Conn., which are recorded in their bulletin No. 31, of November, 1904, which any dairyman can procure free by writing to them. Various experiments were made with approximately the same results. Because of lack of space, we can quote but one, as follows:

"SECOND TRIAL WITH PIGS. Table 42 gives the results of a second trial with pigs fed whole and skim milk ad libitum. The pair receiving skim milk gained 72 pounds in 30 days, the pair receiving poor milk, 58 pounds, and the pair receiving rich milk, 50 pounds. The pigs receiving skim milk required 1.48 pounds of total solids for one pound of gain; the pair receiving poor milk, 1.40, and the pair receiving rich milk, 1.56 pounds. The trial was closed at the end of 31 days, and pigs Nos. 3 and 6 were slaughtered."

TABLE 42.
Lot II. Milk fed to pigs ad libitum.

	SKIM MILK		MILK POOR IN FAT 3.3%		MILK RICH IN FAT 5.7%

Fig. 9. Pig No. 6, fed milk rich in fat. Lot II.

"RESULT OF SLAUGHTER. The skim milk fed pig dressed 65 per cent of its live weight, and the rich milk fed pig, 70 per cent. The weight of liver, spleen and blood was practically the same. The sixth rib of each pig was dissected out and analyzed with the following results: There was 21.25 per cent of fat in the skim milk fed pig, which is about the amount found by Lawes and Gilbert in the Store Pig. The whole milk fed pig contained 35.68 per cent of fat. The skim milk fed pig had 1.78 per cent more lean meat and 11.93 per cent more water, and 14.43 per cent less fat."

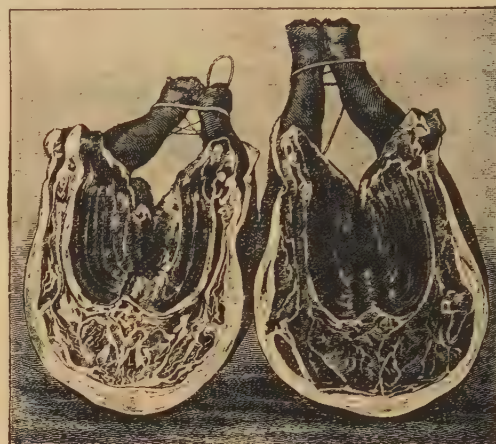

Fig. 11. Showing the distribution of fat in carcass of pigs fed skim milk and rich milk—the latter on the left side.

ON THE CONTRARY, milk that has been cooled, hauled across the country to the creamery, heated up, separated, mixed up with everyone else's skim milk, dirty or clean, hauled home and heated once again, is bound to be in a sour and disgusting condition; no more fit for the tender stomachs of young animals than it would be for a human baby's. Think what the condition of a baby would be after a few feedings of this kind of swill and you will not be surprised at the miserable condition of the young animals that are brought up upon this diet. Sour skim milk is almost worthless as animal food, the nutritious sugar of the new milk is changed to a harmful acid and it is certain to produce sickly and stunted calves afflicted with scours (which in a baby we would call colic) and a disgrace to the farm on which they were raised. It has also been proved that tuberculosis and other disease germs are frequently carried from one herd to another through mixing the milk from the infected cows in the common vat at the creamery with that of all the other patrons, each one taking home a share of the germ infected milk and feeding it, causing the infection to spread rapidly and surely.

SEPARATOR CREAM. The centrifugal action of the cream separator removes all particles of dust and dirt, all impurities, bacteria and disease germs that may be in the milk; these remain in the bowl while the cream flows out absolutely pure, smooth and velvety and after being cooled it will keep in good condition three or four times as long as the gravity raised cream which has been spread out over the top of more or less sour milk for hours, gathering dust and dirt and loaded with ferment germs.

SEPARATOR CREAM, properly cared for and ripened, will produce qualities than it is possible to make from gravity raised cream, because of its perfect purity. You have noticed that separator butter always takes the prize at fairs and exhibitions, easily outclassing the best gravity raised butter. A glance at the market reports will prove to you that it pays to make separator butter, the best separator or creamery butter bringing from 2 to 10 cents per pound more than the ordinary dairy article.

SEPARATOR CREAM is more churnable than the gravity raised cream, and more completely from the buttermilk. The reason for this is that a stringy weblike substance gradually forms in the milk as it becomes old. A part of this is carried to the top with the cream and prevents the butter granules from separating readily in churning, so that it will usually take twice the time to churn the gravity raised cream that is required for separator cream, and at times it cannot be churned at all. As the butter granules in the separator cream separate more completely, naturally there will be an increase in the quantity of the butter you can get from the cream of equal weight and richness. This will average almost an extra pound for every ten pounds of butter made, or fifteen to twenty pounds extra a year from the milk of each cow, which, at 20 cents a pound, will amount to \$3.00 to \$4.00. The saving on this single item alone, which is one of the smallest of the many savings made by the dairyman who uses a separator, will more than pay for the machine in the course of a year, if ten cows are milked.

THE IMPROVED ECONOMY SEPARATOR can be easily regulated to run off cream of any desired thickness, by a slight turn of the cream screw; this is a great advantage to the dairyman who ships his cream, because of the saving of freight. For example, if you ship a can containing eighty pounds of cream, containing 25 per cent butter fat, you pay freight on twenty pounds of butter fat and sixty pounds of worthless skim milk, while if the same can contains eighty pounds of cream, containing 50 per cent butter fat, you are enabled to ship forty pounds of butter fat for exactly the same amount of freight. In other words, by shipping a cream containing twice as much butter fat, the freight on each pound of butter fat is reduced exactly one-half. This is a very important point for the shipper of cream to consider, because, if the creamery should pay the freight, they will insist on a heavy cream and it is well to buy a separator which will run off cream of any desired thickness.

THE PROCESS OF CENTRIFUGAL SEPARATION OF CREAM OR BUTTER FAT FROM MILK IS VERY SIMPLE.

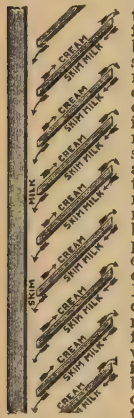

IN THE ECONOMY the whole milk is fed from the supply tank through a feed cup (where the supply is regulated by means of a float) continuously into the bowl during separation. The bowl is revolved at a high rate of speed by means of a crank and a series of three gear wheels. The milk passes into the bowl through the feed rod and center bolt into an upper chamber where it is instantly brought to the speed of the bowl by a wing attached to the bowl cover, the bottom of which forms the upper half of this chamber, thence it is distributed through a series of holes into the bowl proper where the centrifugal force generated by the rapid revolving of the bowl throws the skim milk, which is the heavier, toward the outer edge of the bowl, forcing the lighter butter fat to the center, the skim milk passing out at the bottom of the bowl while the cream is taken off through a small hole in the cover.

THE SECRET of the wonderful effectiveness of the Improved Economy lies in the skimming device inside of the bowl and like all great inventions it is remarkably simple. To appreciate it, it must be understood that almost from the day the centrifugal cream separator was invented, it has been the great object of inventors and students in this line to create and control currents in the bowl by which the separation of fat globules from the skim milk could be facilitated. Whole milk contains but 3 to 5 per cent butter fat and the balance of 95 to 97 per cent is skim milk. Upon entering the rapidly revolving bowl of the separator, the centrifugal force generated by the speed of the bowl seizes upon the 95 to 97 per cent of heavy skim milk particles and throws them with great force toward the outer edge of the bowl, the 3 to 5 per cent of butter fat particles, being lighter, are acted upon much less by the centrifugal force and are squeezed toward the center of the bowl, where the pressure is least, but in striving to reach the center of the bowl each single particle of butter fat must struggle against a great mass of heavier particles of skim milk traveling in the opposite direction, and to reduce this struggle of opposing particles to the smallest practicable distance and to provide ways or currents in which all of the particles will be of the same nature and travel in the same direction, has been the goal toward which cream separator makers have for many years been striving.

The first cream separators consisted simply of a large hollow bowl revolved at a high speed with a single wing soldered on to one side of it to give the milk the motion of the bowl. Because of the great size of the bowls, the distance the opposing particles of skim milk and cream traveled to reach their respective destinations was very great and these bowls were remarkably ineffective and crude from a modern standpoint. Since that time millions of dollars have been spent in experimenting, thousands of devices have been tried to increase the effectiveness and hence reduce the size of the bowls and the power necessary to run them, and while the great majority of them were of no scientific value, many real improvements have been made and the effectiveness of the bowl has been increased constantly. The most effective bowls up to the time of the advent of the Improved Economy contained a large number of loose pieces or discs, which made the operation of washing a lengthy and tiresome one and it usually required more time for the dairyman to wash his machine than to do the separating.

IN THE IMPROVED ECONOMY

the skimming device is reduced to two parts and they are practically self cleaning; there are but five parts to the bowl in all, the bowl proper or shell, cover, feed rod and the skimming device, which consists of two cores. In effectiveness, closeness of skimming and capacity it is miles in advance of any other. The manner in which the currents of skim milk and cream are created and controlled and the struggle of the conflicting particles of skim milk and cream reduced to a minimum in our skimming device, will be understood from the accompanying illustration, which is an enlarged sectional view of a portion of one side of one of the cores. Each of these cores is built up of a series of connected disc shaped rings which are but a very small fraction of an inch apart. The whole milk upon entering the bowl is divided into thin strata or layers by the disc shaped sections of the cores, the heavy skim milk particles, separating instantly from the fat globules and pressed outwardly by the centrifugal force, pass in currents along the inside surface of the disc toward the outer edge of the bowl. The fat globules, on the contrary, are pressed inwardly and travel along the outside surface of the disc below toward the center. The separation is almost instantaneous; in each layer or strata there are two distinct currents, an outside current of skim milk traveling toward the outside edge of the bowl and an inner current of butter fat traveling toward the center, and as the entire width of the strata or layer is but a very small fraction of an inch, no particle of skim milk or butter fat has to travel more than a mere fraction of an inch at most before falling in with a current which carries it in the proper direction; each layer or strata is a complete separator in itself, and as every particle of milk must pass from the top to the bottom of the bowl it is acted upon over and over by the separating discs so that the butter fat is practically all extracted long before it reaches the bottom of the bowl. The great merit of our separating device lies, first, in its extreme simplicity, consisting of but two parts, and second, in its effectiveness, as by our perfect control of the currents in the bowl which we create, by reducing the conflict of the particles traveling in opposite directions to a minimum, by acting upon every particle of milk over and over again while traveling from the top to the bottom of the bowl, we are enabled to not only skim cleaner than any other, but also to skim more and do it with a smaller bowl than any other, and a small bowl means a light running machine. All the leading features of our improved skimming device are covered by strong patents and other manufacturers cannot use them.

AN EASY RUNNING SEPARATOR must have a small bowl. The larger the diameter and the greater the weight of the bowl the more it is retarded by the friction of the air and the friction of its bearings. The Improved Economy bowl is small, only 3 1/2 to 5 inches in diameter in the largest size, and because of its effective skimming device it is run at a moderate speed only and is the easiest running machine on the market. There is one machine on the market which has a bowl of smaller diameter than the Improved Economy, but it must be run at an enormous speed to do effective work (more than twice the speed of the Improved Economy) and it is a much harder machine to run because of the extra gearing required to secure the necessary speed. A twelve year old boy can easily run the Improved Economy and do good work with it without special effort. It is the easiest running machine of any.

THE EASY CLEANING ECONOMY. If our Improved Economy had not separators except its easy cleaning feature, it would be a big seller on this account alone. It has the nearest to a self cleaning bowl that has ever been devised and by the use of three or four quarts of hot water and following the simple directions which we furnish with each machine, the work of cleaning is reduced to two or three minutes. In the first place, dirt does not enter the bowl proper at all, but is deposited in the upper chamber under the bowl head where it is removed by simply pulling out the rubber ring. The bowl empties itself at the bottom and the centrifugal action in combination with the hot water cleans and dries the cores so that they shine like a new dollar when removed. A little casein only remains on the smooth inner surface of the bowl and it is but a moment's work to brush it out with a brush furnished with the machine. It is a fact that you can clean the Economy completely during the time you would have to wait for the speed of the bowl of other machines to run down before you could take off the cover to empty it.

DETAILS OF CONSTRUCTION OF THE IMPROVED ECONOMY.

A MACHINE of the character of a centrifugal cream separator in which the speed of the crank shaft is multiplied a hundred times or more in the speed of bowl by means of gear wheels, must be of the utmost accuracy and simplicity to prevent too great a loss of power by friction and hence make a hard running machine. The accuracy and simplicity of the Improved Economy gearing is best proven by the fact that it is the easiest running machine on the market today. There are at least a dozen places in which the measurements are made in thousandths of an inch and we do not exaggerate when we say it is built just as accurately as a high priced watch. We have, at our factory, the latest improved gear cutters, lathes, drill presses, drawing presses, etc., but these in themselves, while necessary, are not of the utmost importance. Any separator manufacturer can buy just as good machines as we have if he wants to pay the price, so we have no special advantage there. These machines in themselves are of little value unless the accuracy of the tools with which they do their work is maintained. The secret of the easy running qualities of the Improved Economy, aside from the comparative lightness and smallness of the bowl, lies in the high standard we have set for our die and tool makers. The making and truing up of our dies and cutting tools is all done in our own shop and by our own men and is not done by outsiders, who have no interest in the work except to turn out a passable job at a profit to themselves, as is the case with many separator manufacturers. Every tool we use is subjected to a continual gauging and watching and not allowed to deviate from a set standard; any showing signs of wear are replaced and no tool is set in a machine until after it has been inspected and gauged. We pay our tool makers big wages and have the pick of the market, and in return insist upon absolutely accurate work, and the result is plainly shown in the easy running Economy.

The bowl and its parts. The spindle is forged of a single piece of solid steel and is turned down to size, the original forging being several times as heavy as the finished article. The bowl which set the milk in motion, these being securely soldered to it. The inner cores are built up from steel discs of ample strength and are as strong as if one solid piece. Every piece that enters into the construction of the bowl is solid steel and it is of ample strength to resist the strain of any speed at which the machine could be run by hand. There is no instance on record where an Improved Economy bowl has ever burst. All parts of the bowl are carefully retinned to prevent rust or corrosion, and after being assembled it is sent to the bowl balancers for final adjustment. Because of the high speed at which the bowl revolves, the weight of the metal must be adjusted so that the weight will be exactly the same on every side of the central point or the bowl will have a tendency to wobble or deviate from the true center when running; so great is the accuracy required that a thin piece of metal one-half the size of a silver dime will cause a deviation from the true center. The bowl balancers balance first the empty bowl and then the bowl complete with the cores in and the head fastened on, by adding small flat pieces of metal where necessary to bring the bowl to a true balance. These small pieces are afterward melted into place by a blow torch and become a part of the bowl. Because of the accuracy with which the Improved Economy bowl is built but little balancing is necessary and as this is an expensive operation we are thus enabled to materially reduce the cost of manufacture.

July 17, 1905.

THE MINNEAPOLIS JOURNAL.

INFECTED MILK IS DESTROYING HOGS

SKIMMED MILK FED SWINE SPREADS TUBERCULOSIS.

Head of Sioux City Bureau of Animal Industry Attributes Increase of Plague Among Hogs Shipped to Packers to Use of Diseased Milk Obtained from Creameries.

Special to The Journal.

Sioux City, Iowa, July 17.—The public outcry of the west side is spreading tuberculosis among hogs. So rapid has been the growth of this disease lately that it is feared that it will not only cause serious loss to stock-growers of the west, but will be communicated to the human family. Tuberculosis is appearing at all of the stock markets, and the bureau of animal industry reports that as much as 3 per cent of the hogs are often condemned after slaughter and consigned to the grease tank. This does not include the diseased hogs that are culled but by the farmer, the stock-buyer and the packer.

Dr. Johnson, chief of the Sioux City bureau of animal industry, says:

"The course of the increase of tuberculosis in swine is directly traceable to the hogs that come from the dairy districts where there are public creameries. The farmers bring in milk from herds of cattle that are afflicted with tuberculosis, and the cream is separated from the milk and the skimmed milk taken back to the farm and given to the hogs. The owners of the diseased cattle should be the only ones to suffer, but the skimmed milk is not always sent back to the farm from which it came and is fed to other hogs, thus scattering the disease thru the whole locality. The department cannot at the present time inspect all dairy herds, but it is hoped that in the near future all dairies will come under government inspection, which will do much to eradicate the tuberculosis in hogs. If the cost of the loss in hogs could be taxed to the producer, much more care would be exercised."

This newspaper clipping shows plainly the danger of having milk skimmed at a public creamery. It may infect your entire herd and your swine with tuberculosis. Don't take this risk for even a single day.

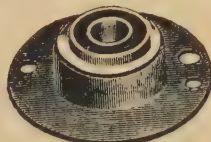

head or cover is turned from a steel forging also, and is one solid piece except the small wings which set the milk in motion, these being securely soldered to it. The center bolt or feed rod is turned down from a steel forging. The inner cores are built up from steel discs of ample strength and are as strong as if one solid piece. Every piece that enters into the construction of the bowl is solid steel and it is of ample strength to resist the strain of any speed at which the machine could be run by hand. There is no instance on record where an Improved Economy bowl has ever burst. All parts of the bowl are carefully retinned to prevent rust or corrosion, and after being assembled it is sent to the bowl balancers for final adjustment. Because of the high speed at which the bowl revolves, the weight of the metal must be adjusted so that the weight will be exactly the same on every side of the central point or the bowl will have a tendency to wobble or deviate from the true center when running; so great is the accuracy required that a thin piece of metal one-half the size of a silver dime will cause a deviation from the true center. The bowl balancers balance first the empty bowl and then the bowl complete with the cores in and the head fastened on, by adding small flat pieces of metal where necessary to bring the bowl to a true balance. These small pieces are afterward melted into place by a blow torch and become a part of the bowl. Because of the accuracy with which the Improved Economy bowl is built but little balancing is necessary and as this is an expensive operation we are thus enabled to materially reduce the cost of manufacture.

Worm Spindle and Bushings

moved. Inserted in the lower end is a slightly rounded hardened steel point which rests on a hardened steel ball. Slight adjustments in height can be made should they ever be necessary by means of the set screw at the bottom which passes through the bottom of the main frame.

THE UPPER BEARING. The position of the upper bearing is just under the bottom of the bowl. It is one of the most important parts of the separator, from the fact that it must be flexible without being too elastic or springy. It gently counteracts the vibration of the bowl in starting and assists it in finding its own true center. Should the bowl be thrown slightly out of balance by a sudden jar, the upper bearing brings it back to place. In stopping, the bowl has a tendency to vibrate as it loses speed, just as a top will wobble as it runs down, the upper bearing prevents this and causes the bowl to run down smoothly and quietly until it stops. The upper bearing of the Improved Economy, which, by the way, is covered by a strong patent, consists of a heavy cylindrical block which is seated on the cone shaped rim of the bearing plate and held in position by three vertical springs adjusted with set screws. The vibration of the bowl causes the upper portion of the bearing to slightly rise or climb up the side of the cone shaped rim toward the side where the pressure occurs, when it is gently pulled back to its true center by the vertical springs. The reflex action of the horizontal springs used by other separator manufacturers which causes jar, vibration and unnecessary wear on the upper bearing bushings, is entirely done away with in our improved bearing.

Upper or Neck Bearing.

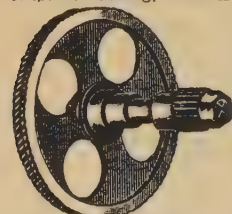

Large Gear Wheel and Shaft.

gearing is as accurately cut as human skill, assisted by the best automatic gear cutting machinery can make it. The crank shaft is turned from a solid bar of steel and is mounted and runs on two tapered phosphor bronze bushings (shown in the illustration), which reduce the friction while running to a minimum. Upon the opposite end to the gear wheel will be seen the ratchet plate against which the crank sets.

THE CRANK, as will be noticed, has a small pin actuated by a spring, which, in connection with the ratchet plate, enables the user to stop operating the crank at any time during the run without affecting the bowl, which will continue to run until it runs down. The crank of the Improved Economy is short, being only 9 1/4 inches long, because it requires less power to operate than other machines and the crank shaft is of ample height so that a person of ordinary height can operate it with one hand without the tiresome bending, which is a feature of the long crank machines.

The Crank.

Pinion, Pinion Shaft and Spur Wheel.

ANTI-FRICTION PHOSPHOR BRONZE BUSHINGS are used throughout the Improved Economy at all parts where there is any wear, they reduce the friction to a minimum and make it a remarkably easy running machine. The bearings or parts in which these bushings rest are bored with taper tools, and if at any time it is desired to replace a bushing it can be easily removed with the ordinary tools found on every farm and the aid of a machinist or an expert is not necessary.

The Cream Spout, Feed Cup and Float.

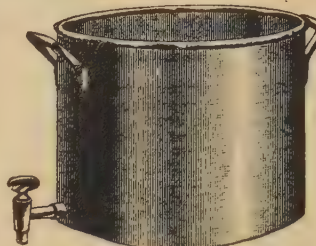

THE CREAM SPOUT, FEED CUP AND FLOAT are made of heavy steel, carefully retinned to prevent rust. They are soldered by experts, all seams being loaded with pure solder, making the corners smooth and rounding and leaving no rough places or crevices where milk can collect and sour. The building and fitting of these covers is fine work, as the measurements must be exact to the hundredth part of an inch in order to bring the hole for the bowl head and the feed inlet exactly in the center of the bowl.

Phosphor Bronze Bushings.

THE PINION, PINION SHAFT AND SPUR WHEEL. The pinion or small gear wheel is operated by the large gear wheel and in turn revolves the bronze spur wheel mounted upon the other end of the shaft and meshing with the worm spindle revolves the bowl. The small pinion wheel is cut from a steel bar and the shaft is also turned from solid steel; it runs upon two anti-friction phosphor bronze bushings which are mounted in the main frame of the machine.

THE BRONZE SPUR WHEEL is a splendid example of accurate and scientific gear cutting, imparting the motion to the bowl with little pressure or friction.

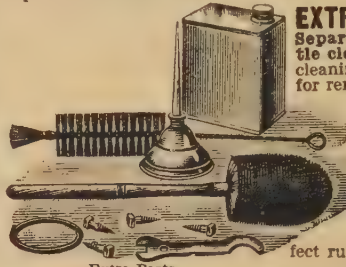

The Supply Can.

small details of construction, while it adds to the cost of building, insures perfect satisfaction to the user.

OIL CUPS. A constant supply of good oil, especially on the bearings of the bowl spindle which revolves at a high rate of speed, is absolutely necessary. It not only reduces the wear and adds greatly to the life of the machine, but makes it much easier to run. All parts of the Improved Economy on which there is any wear are provided with apertures for oiling. A heavily nickel plated sight feed oil cup of the latest pattern is provided to supply a steady and constant supply of oil to the bowl spindle. It is of the self feeding pattern with adjustable regulating device. The feed can be regulated at the desired number of drops per minute by means of the knurled adjusting lever which is then locked in position by a winged nut and it requires no more attention beyond keeping a supply of oil in the cup. By a half turn to the top lever when turning separating, the oil feed is stopped instantly, preventing all waste of oil. To again start the oil supply you simply reverse top lever one-half turn.

Oil Cup.

Extra Parts.

EXTRA PARTS. With every Separator is packed a large and small bristle cleaning brush with heavy tufted ends for cleaning corners, etc. A tin steel wrench for removing the center bolt of the bowl, a zinc oiler and a one-quart can of best separator oil, also four lag screws for fastening machine to floor, an extra rubber bowl ring and a screwdriver, not shown in illustration.

Complete directions for setting up and operating are packed with each machine and it requires no special tools and but little time to set up the Improved Economy and put it in perfect running order.

THE FRAME of the Improved Economy is heavy and substantial and of ample strength. It is simple in design and symmetrical in appearance and is a handsome piece of machinery. It is finished in bright blue enamel, decorated with gold stripings. The legs are cast in one solid piece, preventing all vibration and wearing while in operation, and are removable, so that it can be bolted to a bench or table if desired.

EVERY ECONOMY SEPARATOR

is set up and carefully adjusted at the factory, the gearing is tested by hand power by workmen who do nothing else and whose sense of touch has been so trained by years of testing that they can detect the slightest imperfection in the gearing or lack of adjustment in the bearings, which is too small to be detected in any other way. In addition to this, each machine is run for a number of hours by power and a delicate registering apparatus makes an exact record of the power required to run each machine, and any that requires more than a given amount of power are sent back for readjustment. The bowls are tested both with water and with milk and the separator as it reaches you is in perfect adjustment and ready to operate after setting up and cleaning according to the simple directions furnished with it.

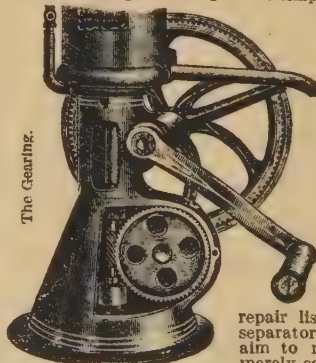

The Final Hand Test.

with water and with milk and the separator as it reaches you is in perfect adjustment and ready to operate after setting up and cleaning according to the simple directions furnished with it.

ABOUT REPAIRS.

OUR TWENTY-YEAR BINDING

GUARANTEE which goes with every separator protects you against defects in material and workmanship and any part that gives out through a flaw or through any fault in the workmanship will be replaced by us without a single cent of expense to you. If, however, in the years to come, any piece or part should be accidentally broken or lost, or if a bushing or other small part should require replacing, we can always furnish it promptly and at about one-half the price that other separator manufacturers would charge you for a similar part. We print in our booklet of directions which goes with every separator, a complete repair list which shows a picture of every part of the separator and tells you the price of it. We do not aim to make any money on repairs and our price merely covers the cost and handling expense.

The Gearing.

THE ACCOMPANYING ILLUSTRATION, which is reproduced from a photograph, shows a section of the main frame with the plate that covers the gearing and protects it from dust and dirt removed. The working parts are few and their relation to each other can be plainly seen. It is really a marvel of simplicity and durability. The few parts combined with the accurate and scientific workmanship, the high grade of the material used throughout, and, above all, the wonderfully effective bowl and skimming device which, skimming at varying temperatures, will leave on an average less than one-half as much butter fat in the skim milk as the next best machine, put the Economy in a class by itself. There is no other just as good, no matter what the price may be.

PURITAN WHITE ODORLESS

IN THIS LINE IS EMBODIED THE LATEST and best ideas of scientific construction of the best grade. While there are many higher priced refrigerators on the market, there is no other line in which all the essentials, namely: durability, economy in the use of ice and ease of cleaning are combined to such an extent as in our Puritan line.

CONSTRUCTION. Made of selected and thoroughly seasoned ash lumber. Paneled on sides, top and back to prevent warping; front ornamented with raised beveled panels, finished in antique, handsomely polished. Hinges and automatic airtight locks used are solid brass, Roman gold finish. Lids are extra heavy and will not warp. Ice racks and ice chambers are heavy galvanized steel, fitted with self closing drip cap, removable waste pipe, swinging baseboard and patent casters. The metal lining to provision chamber, shelves and drain pipe are enameled with a pure white sanitary odorless enamel, which is a mineral substance, containing no white lead, oil or turpentine. It is applied in three coats and baked on in ovens under a high temperature; after

PURITAN WHITE ODORLESS ENAMELED SOLID ASH REFRIGERATOR.

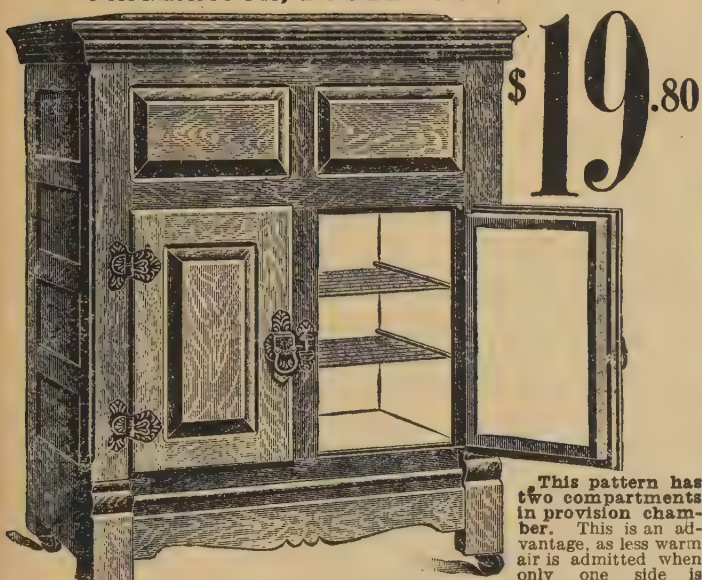

Puritan White Odorless Enameled Solid Ash Refrigerator, constructed as described above, with single

door to provision chamber and ice receptacle opening on top. Has perfect dry cold air circulation, our scientific insulation which makes the ice last longer and maintain a lower temperature than is possible in any other. Built of best thoroughly seasoned ash lumber, paneled on sides, top and bottom to prevent warping. Front ornamented with raised beveled panels, finished in antique and handsomely polished. An elegant ornament to the finest dining room.

No.	Width	Depth	Height	Ice Capacity	Shipping Weight	Price

23F1039	33 in.	22 in.	48 in.	90 lbs.	180 lbs.	14.25

PURITAN WHITE ODORLESS ENAMELED REFRIGERATOR, DOUBLE DOOR STYLE.

This pattern has two compartments in provision chamber. This is an advantage, as less warm air is admitted when only one side is

opened at a time. Has our perfect cold dry air circulation which makes mouldy or tainted provision impossible, as long as the ice supply is kept up. The white enameled lining makes the interior of the provision chamber look fresh, clean and inviting at all times and adds greatly to the beauty of the box. These Puritan White Odorless Enameled Refrigerators fulfill every requirement. They are the most economical and the most sanitary of any. We guarantee this, and give you ten days' trial in which to prove to your own satisfaction that they are all we claim them to be. Every one is guaranteed to reach you in a perfect condition, to be a big bargain and to satisfy you in every way

ENAMELED REFRIGERATORS.

cooling, a coating of white shellac is applied, which gives it a high glossy finish, easily cleaned with warm water and a damp cloth. Others use an enamel the same as used on iron beds, which is poisonous, bad smelling and not sanitary.

THE INTERIOR is always white, clean and inviting in appearance; being odorless it cannot possibly taint the food. We especially recommend that you purchase a Puritan refrigerator and guarantee that it will give you splendid satisfaction and be equal to refrigerators sold by others at double our price or more.

OUR SYSTEM of insulation is acknowledged to be the best known, and consists of six distinct walls as follows: Outside ash casing, sheet of mineral felt, dead air space, sheet of mineral felt, inner wood casing and metal lining. The doors are insulated in the same manner, with mineral felt and dead air space. The money you will save in the smaller consumption of ice through this perfect insulation will in a single season more than pay the difference in cost between a Puritan refrigerator and the ordinary grades which waste a large quantity of ice.

PURITAN WHITE ODORLESS ENAMELED REFRIGERATOR, APARTMENT HOUSE STYLE.

This style is very convenient where space is limited, as they combine large capacity with small floor space. The ice chamber door is in front, making it easy of access and the ice cannot be thrown or dropped in, as sometimes is done where the ice chamber opens at the top, often badly jarring the refrigerator and the contents. A splendid refrigerator for family use. One that will save ice every day it is in use and keep provisions in perfect condition as long as the one of our most popular styles.

Ice supply is kept up. This is

PURITAN WHITE ODORLESS ENAMELED REFRIGERATOR AT

Puritan White Odorless Enameled Refrigerator, large size. For hotels, boarding houses, restaurants and private families. Has double doors to both ice and provision chamber. Two compartments to provision chamber. Very economical in the use of ice. The white enameled lining makes the provision chamber fresh, clean and bright always.

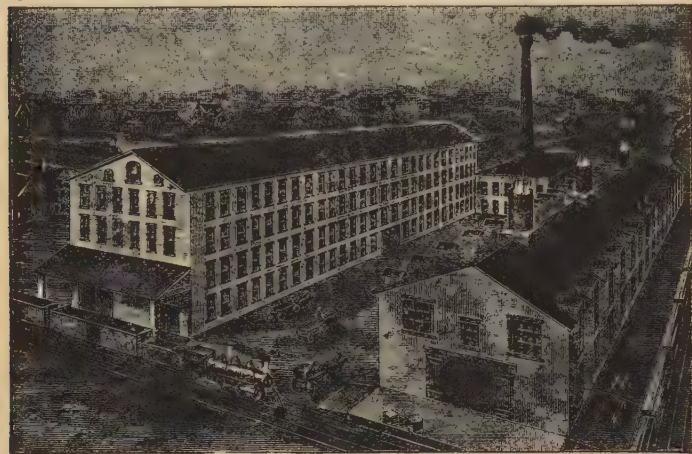

These highest grade refrigerators are elegant in appearance, solid in construction and will last a lifetime and be a delight to the user. Sold under our absolute guarantee to please you and at a price which is positively 40 to 60 per cent cheaper than the local dealer must ask for a refrigerator of anything like the same grade. Our great liberal guarantee and free trial offer makes you secure. The insulation is perfect, the cold dry air circulation insures the preservation of food in the best possible condition and the care we use in the selection of the material and building makes this a refrigerator which is bound to please you. In finish it is elegant. The trimmings are solid brass, Roman gold finish and it is fully guaranteed to be absolutely the finest refrigerator ever offered by anyone at any price.

THE VULCAN SAFE AND LOCK COMPANY'S GUARANTEED FIRE PROOF SAFES

WE HAVE PURCHASED THE BIG VULCAN SAFE AND LOCK COMPANY at Newark, Ohio, one of the largest

est and best known safe factories in the country. The Vulcan Safe and Lock Company have a capacity of fifty finished fireproof safes a day. Every week day, rain or shine, day in and day out, they turn out fifty fireproof safes, and in order to dispose of this big output we are offering fireproof safes at the most astonishingly low prices ever known. Take the price quoted you by any other safe manufacturer of high grade safes on a safe of any size and divide this price by three and the result will be about the price at which we are offering Vulcan Safes of the same size and capacity in order to dispose of the big factory output. Every one who knows anything about fireproof safes knows the Vulcan factory by reputation. Ask any safe salesman you may meet what he knows and what he thinks about the Vulcan factory and if he is frank and honest with you he will tell you that no manufacturer makes better safes. There are no safes that he finds it harder to compete with in quality, no safes which have a better reputation than the Vulcan Safes have. He will tell you and we can prove to you that there are thousands upon thousands of Vulcan Safes in use in every state, county and almost every town in the United States. They are used by merchants everywhere and no Vulcan Safe has yet failed to stand the greatest of safe tests—the test of fire. In hundreds of cases Vulcan Safes have passed through the hottest fires and preserved their contents intact and in perfect condition, in many instances where other safes were ruined and their contents totally destroyed. In fact, there is no case on record where a Vulcan Safe has failed to stand the fire test. It would pay you to buy a Vulcan Safe even at three times the price asked, which even then would be no more than other manufacturers charge for the same grade, because of the perfect security which it guarantees and the ease and peace of mind which is yours with the knowledge that in the Vulcan Safe your valuables are secure.

THIS ILLUSTRATION, which is reproduced from a photograph, gives you some idea of the size and area of our big Vulcan Safe factory at Newark, Ohio, where, owing to the favorable location and close proximity to the source from which the raw material used in safe construction is obtained and to the fact that we manufacture our fireproof safes complete from top to bottom, excepting only the locks, we are enabled to make safes cheaper than any other concern in the United States can manufacture an equal quality and grade for. We can build fireproof safes cheaper than any other concern for these reasons: First—on account of our most favorable location, coal and natural gas used for fuel are found almost at the door of our factory, and are probably cheaper here than at any other point in the United States. Steel plate and bars and fireproof material are all manufactured in the immediate vicinity, take a very low rate of freight and are received in car loads at the very door of the factory. Paint, filler, varnish and other finishing material can be obtained here as cheap or cheaper than elsewhere. Then, too, we have our own iron foundry. The door frames, door jams, legs and wheels which, in Vulcan Safes, as well as in every other safe manufactured, are made of cast iron, as this is the only proper material for this purpose, are cast right in our own foundry. Other safe makers buy these parts. We have our own brass foundry, our own finishing and nickel plating plant, where we make and finish all of the brass and nickel plated parts which other factories are obliged to buy ready made. We have every modern labor saving and time saving device that will assist us in manufacturing safes of the highest grade on the most economical basis. Powerful shears, punches and formers operated by power make the formation of the heavy steel angles and bodies rapid and accurate. We use gang drill presses and automatic riveters. Our adjustable high speed grinders reach every part of the body of the safe and do the finishing better and less than one-half time required by the old style stationary grinders. The bolt work is carefully fitted to each individual safe by experts who have power drills, punches, shears and grinders at their elbow to facilitate quick and accurate work. In our wood working depart-

NOT ONLY DO WE SELL THE GENUINE VULCAN SAFES at prices which

are so astonishingly low that no other safe manufacturer can attempt to compete with them, that in fact are just a very narrow margin over the actual cost to build under the most favorable circumstances even in a factory equipped with all the latest labor saving, time saving and money saving machinery, but we sell them on the most fair and liberal proposition that has ever been devised. A proposition which makes our customers the sole judge of the truth of everything we say in reference to the Vulcan Safes, by which we take all the risk and you take none. By the terms of our free trial offer you do not send a penny of money away from your home town, are enabled to examine and test any safe which you may buy and assure yourself that every word we say about the Vulcan Safe is true and, if you do not find it so, you are at liberty to return the safe to us and get all your money back, including even the freight charges. If you are doubtful as to the quality of the Vulcan Safes, because of the fact that our prices are only one-third what other safe manufacturers ask,

TAKE ADVANTAGE OF THE FREE TRIAL proposition explained below, which enables you to see for yourself just what the VULCAN SAFE IS AND TEST IT FOR YOURSELF, ALL AT NO EXPENSE TO YOU.

ment we build the interior cabinet work complete, from the cutting up of the lumber through the various operations of fitting, nailing, gluing, finishing and varnishing to the final fitting into the safe. Our filling room in which we mix our steam generating cement filling is in charge of an expert of 22 years' experience. Our filling is mixed right and we can absolutely warrant against damp or swollen safes. Nothing is more important in a fireproof safe than the filling and you cannot be too careful in selecting a safe made by a reliable concern who can guarantee the fireproof qualities of their safe. The materials we use and our method of mixing enables us to guarantee absolute protection against fire. We take pride in the beautiful finish and decoration of our Vulcan Safes. The painting is done with the greatest care and the best material. The decorating, striping and lettering is the work of artists in their line, who turn out beautiful work.

OUR NICKEL PLATED WORK is elegantly buffed and polished and a Vulcan Safe so land. In our packing department every safe is carefully wrapped in oil paper to preserve the high finish. Packed in excelsior and burlapped in such a way that damage in transit is almost impossible and our Vulcan Safes will reach you in the same perfect condition in which they leave the factory.

EVERY LITTLE DETAIL in the construction of our safes is carefully wrought out. Every Vulcan Safe is guaranteed to be a perfect one in every respect. Notwithstanding the careful construction, the skilled workmanship found in the Vulcan Safe, we can, because of our closeness to the source of supply from which we draw the raw material, our favorable location for manufacturing safes, our perfect facilities, make safes of the Vulcan grade much cheaper than other manufacturers with a smaller output and less favorable location can manufacture safes that are very much inferior.

THE REASON WHY WE CAN SELL SAFES SO CHEAP.

BUILDING SAFES UNDER THE MOST FAVORABLE CIRCUMSTANCES our factory cost is less than safes of the same quality can be made for by others, and to this factory cost we are enabled, by our simple catalogue selling system, to add just a single small margin of profit as this profit is practically all clear net gain to us on account of our insignificant selling expense. We list fireproof safes in this catalogue with many thousands of other items and the expense of issuing the catalogue is divided up among all the items according to the space they occupy. In the case of safes, of which we sell a great many, the cost of issuing this catalogue amounts to but a few cents on each one. The only additional expense is the cost of a special safe catalogue which we issue and print ourselves for the benefit of our customers who may desire more complete information than is found in this big catalogue so that at most our total expense of selling a safe is but a few cents. We load the safes from our storehouse directly on the cars as we have a switch track into our plant thus doing away with the expense of cartage and handling. Selling for cash only we have no force of bookkeepers and collectors. We have no agents to pay or other items of expense and as the small profit which we add to the factory cost is practically all profit for us we can sell you safes really cheaper than other makers with less improved manufacturing facilities can produce them.

THINK OF THE HEAVY EXPENSE the ordinary dealer is put to in disposing of his product. He must pay four or five men to aid him in marketing his safes, for every workman actually engaged in manufacturing. He must have branch stores in various cities with their train of expenses for rent, storage, light, heat, etc., and must employ traveling salesmen, local managers and agents. Selling a great many safes on time, he needs bookkeepers and collectors. He loses a percentage through bad debts. His selling expenses after the safe is actually made is more than it costs to make it. For this reason every other safe dealer must charge you from two to

three times the cost of building the safe in order to meet all his heavy expenses for selling it and still make a living profit. This is why no other safe manufacturer can attempt to compete with us. They all dispose of their output by the old fashioned branch store and agency system. The system of piling expense on expense and profit on profit which has always forced the user to pay from two to three times what the goods are actually worth.

THE VULCAN SAFE is the only safe you can buy at a fair margin of profit over the only safe that is covered by a written, long term guarantee. It is the safe for the shrewd and careful merchant, professional man or farmer to buy and use.

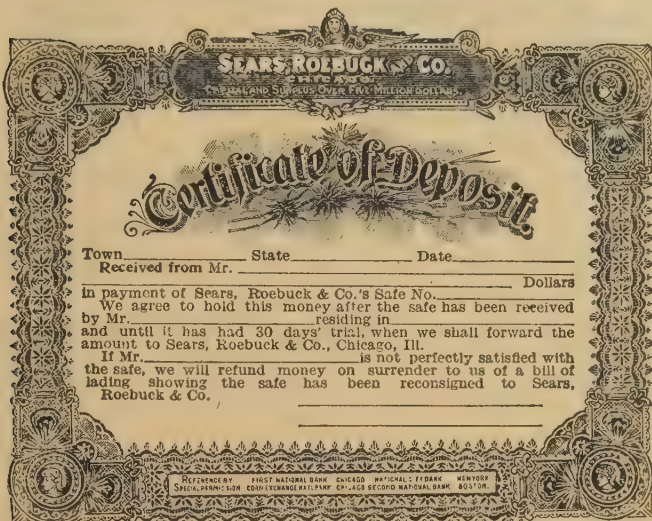

PROMPT SHIPMENT We carry a large stock of safes of all sizes in our season room at all times and can make prompt shipment of any number of safes within five to eight days from the time that the order is received. The safes carried in stock are finished up to the last stages of varnishing and decorating and as we do not put on the final touches until the order is received it requires from five to eight days before the safe is finally finished and ready for shipment. By following this system our customers are insured new, fresh and perfectly finished safes far superior in appearance to safes which are sold by regular safe dealers and frequently stand around in a storeroom a long time exposed to dust and dirt before they are sold to the user. Were you to visit our Vulcan factory you would be surprised at the care which is used in the building, lock adjustment, finishing, and in fact, in every department. Vulcan Safes are built right all the way through. The fireproof filling is right, the construction is right and the finish is the finest. Order a Vulcan Safe today. You will never regret it. It will dignify and add to the appearance of your store or office. It will increase your credit and enhance your standing in the community. The most important of all it will make you secure from loss of your valuable books, papers, money or jewelry from fire for all time to come. Vulcan Safes are built to last a lifetime. The fireproof qualities are permanent. A Vulcan Safe will be just as fireproof in ten, twenty or fifty years from now as it is today.

A FULL MONTH'S TRIAL ON EVERY VULCAN SAFE.

IF YOU ARE INCLINED TO HESITATE about purchasing a fireproof safe without first seeing it please remember that every Vulcan Safe is sold subject to thirty days' trial in your own office or salesroom during which time you can give it a most careful inspection, both inside and outside. You can assure yourself that it is the most suitable safe for your use. You can examine into the workings of the combination lock and bolt work, in fact into every detail of construction and after having used it for a full month you will have surely decided whether you want to keep the safe or not. In case you do not you are privileged to return it to us and just as soon as you send us the bill of lading which the freight agent gives you showing that the safe has been turned over to the railroad company, we will immediately refund to you the full purchase price. In addition to this we will refund all the freight or transportation charges

you paid when you received the safe so that after having used the safe for a month in your office you will have every penny of expense you have been put to returned at once should you decide that you do not want to keep it. During your thirty days' trial we ask you to compare the safe with those in the offices of your business friends, compare the price you paid with what your friends paid, compare the quality and workmanship of the safe and if you do not feel that you received a really wonderful bargain, you are, of course, at liberty to return the safe to us as already explained. We are more than willing to sell our safes on this liberal trial proposition because we have found from our past experience that the Vulcan Safes give such splendid satisfaction, they are so much cheaper than others and so much better that our customers, after having used them for a month would not think of getting along without them.

WE WILL SHIP YOU A VULCAN SAFE ON THE MOST LIBERAL TERMS EVER HEARD OF.

SEARS, ROEBUCK & CO.
CHICAGO, ILL. CAPITAL AND SURPLUS FIVE MILLION DOLLARS

Certificate of Deposit

Town _____ State _____ Date _____
Received from Mr. _____ Dollars _____

In payment of Sears, Roebuck & Co.'s Safe No. _____
We agree to hold this money after the safe has been received by Mr. _____ residing in _____
and until it has had 30 days' trial, when we shall forward the amount to Sears, Roebuck & Co., Chicago, Ill.

If Mr. _____ is not perfectly satisfied with the safe, we will refund money on surrender to us of a bill of lading showing the safe has been reconsigned to Sears, Roebuck & Co.

REFERENCE BY FIRST NATIONAL BANK CHICAGO NATIONAL CITY BANK NEW YORK
SPECIAL DEPOSIT CERTIFICATE OF DEPOSIT CHICAGO NATIONAL BANK NEW YORK

YOU DON'T NEED TO SEND US ANY MONEY with your safe order if you don't wish to; don't even send us a deposit. All you need to do is to just send your order stating the catalogue number and price of the safe you wish to order, also the name of your postoffice and shipping point. Be sure to state in the letter the name of your safe. As soon as we receive your order we will ship the safe to you just as you have selected, lettering your name on it in gold free of charge if you so order, and at the time we make shipment we will send you a certificate of deposit which reads just like the one which is reproduced above. At the same time we will write your bank, the name of which you have sent us, telling them that you will call and deposit with them the purchase price of the safe. You send no money to us nor pay any money to any one until the safe is received at the railroad station. Then, after the safe is received at the station, if you will kindly go to your bank and deposit with them the purchase price of the safe you have ordered as given in this catalogue, they will fill out this certificate of deposit with your name and address stating the amount of money you have deposited with them and also expressly agreeing by the terms and conditions as plainly written upon it, to hold all the money you have deposited one month to enable you to fully test and examine the safe which we send you and convince yourself that it is all right in every way. They also agree, according to the terms of this certificate, that if at any time during your month's trial you decide that you do not wish to keep the safe and you deliver it to the railroad company to be sent back to us, they will return all your money which you have deposited with them upon presenting them with the bill of lading which the railroad agent will give you when you deliver the safe to him. You will understand, as this certificate is signed by your bank through one of its officers, it binds them to its terms absolutely so that you run no risk of losing a penny in the transaction if you do not care to keep the safe. When you deposit your money with the bank and they fill out and give you the certificate, which is a receipt for your money, they will also give you the bill of lading and upon presenting this bill of lading to the railroad agent he will at once deliver the safe to you. Take advantage of this liberal offer and you have the use of all your money until the day the safe is received at your railroad station and you are ready to take it. Then deposit the money with your own bank in your own town and it will stay there during all the time you are testing the safe in your office or store. If you return the safe to us you get all your money back at once. No waiting or delay; no loss of time or money. Remember also that we agree to pay the freight charges both ways should you return the safe to us so that you are put to no expense whatever in the transaction in case the safe does not satisfy you. We will ship you any safe—C. O. D. if you prefer not to deal with us through your bank. Simply send us a sufficient deposit to cover transportation charges both ways. Fireproof safes take third class freight rate and are shipped from our factory at Newark, Ohio. The average rate per 100 pounds on shipments of 200 miles is 15 to 20 cents; 400 miles, 30 to 40 cents; 700 miles, 40 to 50 cents; 1000 miles, 60 to 75 cents and other distances in proportion, and as the weight of each safe is given in the description you can easily estimate the amount of the deposit necessary.

REALLY THE BEST WAY for you, however, is to send cash in full with your order. This saves you the bother of dealing with us through your bank. It also saves you the charge of 50 cents to \$1.00 which all express companies make for the collection and return of the C. O. D. and of course you have the same privilege of a full month's trial in your own office. The same privilege of returning the safe to us if it does not suit you and just as soon as we receive the bill of lading showing the safe has been sent back to us, we will not only return the full purchase price, but also all the freight charges which you have paid. This is the best and simplest way of any and is the way that all of our old customers deal with us, because they know from their past experience that their money is just as safe in our hands as it would be in their own bank and perhaps safer. They know that we are a big, reliable concern, fully able and more than willing to treat our customers fair and square and do just what we agree to do. It makes no difference to us which plan you may select, whether you send cash in full with your order, send only the deposit and pay the balance to the express agent, or deposit your money with your local bank. In any case you will receive the same fair treatment, all the advantages of every offer we make and every guarantee we give.

SEARS, ROEBUCK & CO.
CHICAGO, ILL. CAPITAL AND SURPLUS FIVE MILLION DOLLARS

Certificate No. _____
Certificate of Guarantee

This is to certify that the Catalogue No. _____
VULCAN FIREPROOF SAFE, sold to _____
town of _____ is warranted to be perfect in material and workmanship, and perfect in operation if given proper care. In fireproof qualities we fully guarantee it to be equal to any safe manufactured of the same thickness of wall. We agree to replace, free of charge, any piece or part giving out by reason of defect in material or workmanship for a period of 10 years from date.

Dated at Chicago, this _____ day of _____ A. D., 190____
SEARS, ROEBUCK & CO., Chicago, Ill.

REFERENCE BY FIRST NATIONAL BANK CHICAGO NATIONAL CITY BANK NEW YORK
SPECIAL DEPOSIT CERTIFICATE OF DEPOSIT CHICAGO NATIONAL BANK NEW YORK

THIS IS THE LONG TERM CERTIFICATE OF GUARANTEE that we give with every Vulcan Safe. Read its terms and conditions carefully and note that we bind ourselves to replace or repair any part of any Vulcan Safe that may give out through defect in material or workmanship, for a period of ten years from the date of sale. Guarantees that in material used, in strength and solidity of construction, workmanship, finish and decoration and above all in fireproof qualities, our safes are superior to any that can be bought for the same or more money elsewhere. This written guarantee is a protection for you. Protection against any hidden flaw or defect which may not be detected in the rigid inspection which we give every safe and if no defect appears within ten years, you may rest assured that your safe is perfect in every way.

WE GUARANTEE your safe to reach you in perfect condition. Our safes are wrapped, packed and padded with greatest care and only through a severe accident can they be marred or damaged in transit. To protect you against anything of this kind, we guarantee safe delivery and should your safe meet with an accident or be defaced in any way when you receive it, we will exchange or repair it free of all expense to you, so that you are assured of having a bright, new and perfect safe.

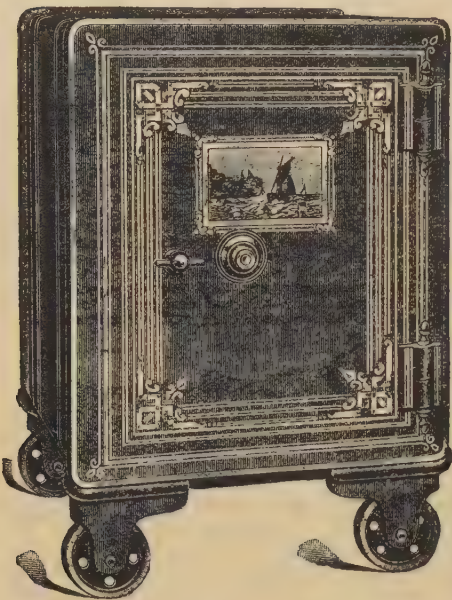

FIREPROOF SAFE CATALOGUE FREE.

WE ISSUE A BIG COMPLETE SAFE CATALOGUE

in which our entire line of Vulcan Fireproof Safes is shown most completely, every safe illustrated by a handsome halftone engraving, reproduced from a photograph, which shows you just how it will look; will give you as good an idea of the safe as if you had it before you. In our big special safe catalogue we go into details, describe the process of building Vulcan Safes from the first operation to the last; tell how our steam generating fireproof filling is mixed and explain why it will last and retain its fire resisting qualities for centuries. It tells of our improved method of construction which enables us to build Vulcan Safes so rapidly and accurately and at such a low cost. Explains more fully than we can in the limited space devoted to safes in this catalogue our simple selling system and why our prices are only about one-third what all other safe dealers ask. In fact, it is the most complete, comprehensive safe catalogue ever issued and contains information which every owner of a safe should know. Gives hints on the care of safes. Tells you how to change combinations on the locks. It explains why a fireproof safe is a necessity in every home and to every business man. Quotes court decisions to prove that unless the evidence of loss are protected and saved in a fireproof safe the insurance on stocks or merchandise and other valuables cannot be collected by law. It contains hundreds of testimonials from users of Vulcan Safes who are convinced from actual test that they are by far the best. We ask you to make a selection of a Vulcan Safe from this catalogue. Each safe is carefully described in detail. The interior and exterior measurements and measurements of all the various compartments are given and we believe you will have no difficulty in making a selection. However, if you feel that you wish more complete information before purchasing do not think of buying a fireproof safe from anyone before first getting a copy of our safe catalogue which, even if you do not buy from us, enables you to buy cheaper from some other concern through the inside information which it will give you. When a safe salesman offers to sell you a safe claiming, for some reason, it is superior to the Vulcan, ask him to put it in your office or storeroom subject to thirty days' trial—the same as we will give you on the Vulcan Safe—then order a Vulcan of corresponding size from us. Use the two safes side by side for thirty days and decide which one it is to your advantage to buy. If you do not find the Vulcan Safe to be far cheaper in price, superior in workmanship, finish and lock work and in every quality that tends to make a perfect fireproof safe, return it to us at our expense and have all your money refunded. If, on the other hand, you decide that you prefer the Vulcan Safe, return the safe which the other concern has left with you on trial and keep the Vulcan. Do not think of ordering any safe without having compared it with a Vulcan.

THE VULCAN CONSTRUCTION.

ALL VULCAN SAFES

are built with one piece of tough wrought steel forming the sides, top and bottom. This is strongly riveted with heavy boiler rivets to the wrought steel front and back frames which are each made from one continuous angle of bar steel passing entirely around the body of the safe. The bottom is made double to secure greater strength and rigidity. The back is a single plate of selected wrought steel. The front of the door is also a solid plate of heavy hammered wrought steel.

THE BODY OF THE SAFE

is riveted and braced in a way which insures enormous strength and avoids the danger of breaking open by falling from great heights or being crushed by heavy timbers or falling walls.

THE BOLT WORK AND LOCKS

are fitted on the inner edge of the doors and the inner steel door plate is removable making them easy of access for oiling or changing the combination.

THE DOORS are secured by heavy round bolts projecting from both sides into the jambs of the safe (on the larger sizes from the top and bottom also), insuring perfect security. The doors are provided with from three to seven flanges or rebates according to the size, which serve to prevent the entrance of heat and insure a perfectly tight joint.

WE USE OUTSIDE HINGES strongly riveted to the steel angle frame and to the heavy steel door plate without cutting, thus insuring great strength. They are fitted with finely nickel plated tips which are removable for oiling.

OUR SPECIAL VULCAN BOLT WORK is very strong but simple in design, is easily operated and never gets out of order. All bolts are turned, polished and nickel plated. No part of the bolt work is in any way connected with the lock plate but is operated independently by a cold, rolled steel handle to the left of the clock dial.

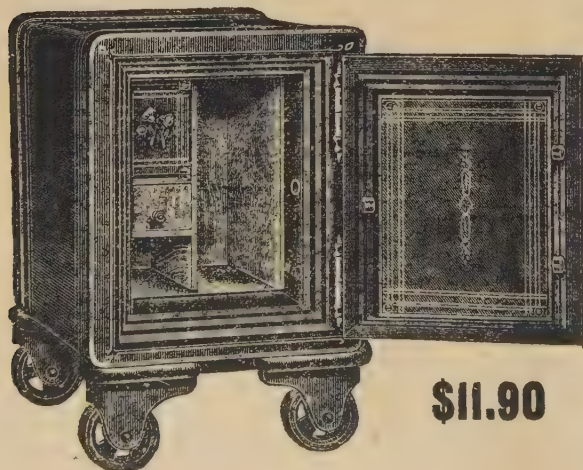

OUR FIREPROOF CEMENT is an absolutely fireproof steam generating preparation which is introduced between the interior and outer walls of our safes in a semi-liquid state, filling every crevice and adhering firmly to the steel body. In a short time it becomes perfectly dry and hard as granite, adding greatly to the strength of the safe. Our steam generating cement is the best and most costly that can be procured and is mixed by experts. There is nothing better to be had. It insures perfect safety to the contents of the safe in the hottest and fiercest fires. The chemical change which it undergoes when subjected to great heat levels off vast quantities of vapor which filling every pore of the filling forms a cool moist wall entirely surrounding and protecting the contents of the safe. The doors are protected in the same manner. A heavy wall of our fireproof cement between the lock case and the front of the door makes it just as fireproof as the body of the safe. Our fireproof filling will remain unchanged and retain its fire resisting properties for centuries. Vulcan Safes never wear out and never lose their fireproof qualities.

THE CABINET WORK is handsomely finished in imitation cherry and varnished. In the larger safes the front is decorated with fancy beaded moulding. The fronts of the drawers are finished in costly decorative woods, such as birdseye maple, and quarter sawed oak. The cabinets are all nicely carpeted, equipped with sub-treasury, with high grade lock, with two dat keys, also with pigeonholes, drawers and book spaces as described and illustrated.

OUR HIGH GRADE FINISH.

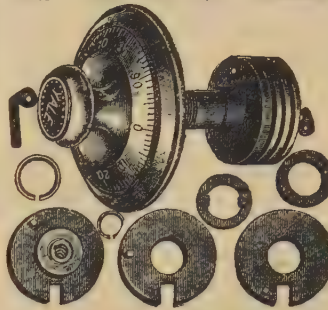

VULCAN SAFES ARE FINISHED IN BLACK, beautifully ornamented with gold stripings and decorated with original and artistic marine views and finished with the best varnish. Our decorators are real artists in their line and take pride in the beauty of their work. Dial knob, hinge tips and bolt handles are nickel plated and highly polished. The above illustration, which is reproduced from a photograph, gives you but a faint idea of the artistic finish and decorations on our Vulcan Safes. The designs are not all the same but vary according to the taste of the artist. The glossy black finish of the safe contrasting with the bright colors used in decorating and striping and in the marine views gives a beautiful effect which it is impossible to do justice to in a photograph. Our high grade finish makes the Vulcan Safe an ornament to the most elegantly furnished office or storeroom.

WE LETTER THE NAME OF THE PURCHASER in gold over the door, free of charge, when so ordered, but not otherwise. A printed copy of the name should be supplied if possible. The name of the manufacturers, the Vulcan Safe and Lock Company, is lettered on the inside of the door, unless otherwise desired. **OUR NAME DOES NOT APPEAR ON THE SAFE.**

\$11.90

THE YALE TRIPLEX COMBINATION LOCK.

used on our regular line of safes, is manufactured by the Yale & Towne Mfg. Co., of Hartford, Conn., a concern with a world wide reputation as manufacturers of locks of the highest quality. Our Yale Triplex Combination Lock is a model of strength and simplicity. It cannot be picked by the most expert thief, yet is so simple that the combination can be changed by the owner in a few minutes at any time by simply removing the inner steel door plate and following the simple directions which accompany the safe. It is susceptible to thousands of changes in combination and is absolutely positive in action. It always opens on the correct combination and there is no possibility of opening it on any other. It never slips and never fails. It is constructed throughout of solid brass and cold rolled steel and will never wear out in use. The dial knob is extra large and handsomely nickel plated and is connected with a series of three tumblers by a rolled steel shaft passing through a heavy metal tube. The lock is arranged so that the door can be closed, the bolts thrown and the dial turned five or ten numbers (practically locking the safe) without throwing the combination. This is a great convenience especially if the owner wishes to leave the office for a few minutes and at the same time have the safe locked. Upon his return he simply reverses the dial to the last number on which the combination is set and he can open the safe. The Yale Triplex Combination Lock is especially designed for the Vulcan Safe. It is stronger and better in every way than locks furnished by safe makers who make their own locks, and who making comparatively few, cannot turn out as good a lock as the Yale & Towne Mfg. Co., who make a specialty of high grade lock work exclusively.

NO SAFE CAN POSSIBLY BE MORE FIREPROOF THAN THE VULCAN.

Do not be misled by vague talk about cast iron safes. The facts are these: The flanges on the door, the door frame, the legs and the wheels of the Vulcan Safe, and on every other safe no matter who it is made by, are made of cast iron. Because this is the best and only suitable material for this purpose, the balance of the frame of the Vulcan Safe and of all other first class safes is made of steel. Having our own iron foundry, we have an advantage over other makers as we can and do control the quality of the iron so as to secure the greatest strength and toughness. Any part which fails to pass inspection is broken up and remoulded, so there is practically no waste. Nine-tenths of the other safe makers buy their castings where they can get them the cheapest and frequently use castings which are brittle or contain flaws, rather than stand the loss it would entail if they were not used.

BETTER AND MORE FIREPROOF SAFES than the Vulcan are not made and should you pay an agent or dealer more than our price, the difference is not in the quality of the safe but solely in the handling expenses and in the middleman's profit.

DIMENSIONS. Please note that in stating the dimensions we give, first, the height; second, the width, and third, the depth in inches.

WEIGHTS. We give the estimated weight of each safe in the descriptions as an aid in calculating freight charges. The exact weight of each safe cannot be given as safes of the same size will vary considerably, owing to the nature of the fireproof filling. When seasoning, a safe will lose from 50 to 200 pounds according to the size. The more porous the filling, the more fireproof it is and the lighter the weight of the safe.

REGARDING FREIGHT CHARGES. Our safes are all shipped from our factory Newark, Ohio, and take third class rates of freight. The freight charges amount to almost nothing compared to your saving in price. For example: Third class freight will be for 200 miles, 15 to 20 cents per hundred pounds, 400 miles, 30 to 40 cents per hundred pounds; 700 miles, 40 to 50 cents per hundred pounds and 1000 miles, 60 to 75 cents per hundred pounds, from which you can calculate very closely what the freight will amount to. You will note that it is a very small item indeed, compared to your saving in price, and to reassure you on this point we will guarantee that after having paid the freight charges in addition to our price, your Vulcan Safe will cost you less than one-half what you can procure a safe of the same size and grade for in your home town.

WE CAN MAKE CHANGES IN THE CABINET WORK IF DESIRED.

WE CAN BUILD ANY OF OUR SAFES TO ORDER with the cabinet work arranged in any way desired and any additional drawers or pigeonholes put in, charging only the extra cost of making the change. Complete change of cabinet work usually causes a delay of two or three weeks in making shipments as it necessitates building the safe to order. Send us a diagram of what is wanted and we will advise you what the additional cost will be, if any. While we cannot alter the height and width of our safes, we can build safes to order of any desired depth. This will usually require about a month's time and will add somewhat to the cost. If you cannot use any of the safes listed in this catalogue write us and tell us just what you need and we can probably furnish it much cheaper than you could buy it elsewhere.

IT IS NOT SAFE TO BUY A SECOND HAND SAFE.

A SAFE that has passed through a severe fire has lost its fireproof qualities. The moisture contained in the fireproof filling has been dissipated and evaporated. Such a safe is worthless as a protection from fire forever after. Some dealers buy such safes or take them in exchange and after refinishing them sell them as second hand safes. Such a safe, although new and bright in appearance, is almost as useless as a wooden box as a fire protection. Don't think of buying a second hand safe unless you know its whole history. Our prices for a brand new safe of the highest grade and guaranteed to be fireproof, elegantly finished and lettered with your name, is but little, if any, more than you will probably have to pay for a second hand safe. Whether you buy from us or elsewhere it is to your interest to insist on getting a new safe direct from the factory.

OUR LITTLE MASCOT \$11.90 FIREPROOF SAFE AT ONLY \$11.90

ONLY \$11.90 for our Little Mascot Safe. A perfect high grade safe equipped with the Yale Triplex Combination Lock at only \$11.90. A \$11.90 our Mascot Safe is wonderful value. It is just as well finished and just as well constructed as our larger safes and affords perfect protection against the hottest fire. You cannot afford to be without our Mascot Safe or a larger one for even a single day. It will protect you against tramps, sneak thieves and unwelcome intruders. It will preserve your notes, mortgages, leases, deeds and other valuable papers, your money, jewelry and postage stamps, so that you can leave your home for days with a feeling of security as you know they cannot be tampered with. We use the same grade of steel in the walls, the same steam generating fireproof cement in our Mascot Safe as in our larger safes. It is a little wonder in its way and the interior capacity is ample for protecting papers and valuables. Are your insurance policies and valuables in a safe place now? Are they protected from the ravages of fire and marauders? If not, order a Mascot Safe today and be sure. It will protect your valuables and guard your interests for more than a lifetime. Our Mascot Safe weighs 300 pounds. It is mounted on wheels and can be easily moved from room to room yet is sufficiently heavy so that it cannot be carried off without attracting attention. It is splendid value and we fully guarantee it to please you.

Shipping weight, about 300 pounds.
Our Mascot Safe is not made with inner door.

\$57.55 BUYS OUR BIG FIRST NATIONAL SAFE.

OUR BIG FIRST NATIONAL SAFE AT \$57.55 is just the size for large stores, country banks, public institutions, insurance companies, town boards and other places where a roomy safe is required for the storage of valuable records which must be absolutely secure from fire. Our big First National Safe is the largest single door safe we make. In construction it is heavy and massive, with solid 6-inch walls of our high grade steam generating fireproof cement filling, not only insuring absolute safety in the hottest and fiercest fires but are as hard and strong as granite. Our First National Safe is fitted with the genuine Yale O. B. lock, which is susceptible to a million of changes in combination, and is the most convenient combination lock ever devised.

The combination can be changed in a few moments time by anyone. Read carefully the full description of this lock as given on page 584. The bolt work on our First National Safe is extra heavy and of the highest grade. It is carefully fitted and never gets out of order or fails to operate. It has heavy wrought steel angles and steel body. It is built throughout in the same careful and thorough manner as our largest and most expensive safes. **ORDER A FIRST NATIONAL SAFE** subject to the terms of our thirty days' trial offer and our liberal guarantee, which have in a few years enabled us to build up one of the largest safe businesses in America, and we know that you will be more than satisfied with your purchase. We know that the construction of the safe will more than please you; that you will be impressed with the safety which its heavy massive build insures; you will be delighted with the elegant exterior finish and the carefully and tastefully arranged interior. Do not think of buying a safe from any other concern at any price without first giving one of our First National or some other Vulcan Safe a trial. Remember that our prices are only one-half what other safe dealers and agents ask you for safes of a similar grade; that our guarantee and free trial offer make it perfectly safe for you to order a safe on trial from us because you cannot lose a penny if the safe does not please you. No other safe manufacturer will give you such liberal terms. No other manufacturer will quote you the same low prices and none can give you the same splendid values. If you are a shrewd and careful business man you cannot afford to be without a fireproof safe, nor will you be willing to pay more for a safe of any other make when you can save this money by giving a Vulcan Safe a free trial at our expense and at our risk, and are not put to a penny of expense in case you are not more than pleased with it. We make you the sole judge of the safe and take your decision in the matter without question. We are anxious to place a Vulcan Safe in your office or store room because we know that it will sell others for us in the vicinity. Our big safe business has been built up in a few years from the kind words of our more than satisfied customers. One Vulcan Safe always sells another. Our First National Safe at \$57.55 is a big bargain. It is a big, solid, massive high grade safe, a splendid purchase and will add dignity to the finest office. Order one today.

OUR ATLAS DOUBLE DOOR FIREPROOF SAFE AT \$71.75

ONLY \$71.75 for our Atlas Massive Double Door Heavy Wall Fireproof Safe with massive double outside doors, equipped with genuine Yale O. B. combination lock which cannot be picked by the most expert and is subject to endless changes in combination. It has the high grade Vulcan bolt work made doubly secure with heavy top and bottom bolts; double folding wrought steel inside doors with high grade Yale pattern flat key lock fitted to all our Atlas Safes afford additional security. The heavy six-inch fireproof walls in combination with the wrought steel angles and steel bodies on these safes not only make them absolutely fireproof in the fiercest fires but insure ample strength to resist any fall and prevent crushing by falling walls.

OUR ATLAS SAFE is elegantly finished. The exterior is the finest and is handsomely striped, decorated and varnished. The cabinet work is carefully fitted and finished with beaded mouldings, not shown in the illustration. Our Atlas Safe makes a handsome and dignified addition to any office because of its massive and imposing appearance. We would be obliged to ask \$125.00 to \$150.00 for this safe were we selling it through agents or safe dealers, or selling it on time and monthly payments, as other safe makers do, as this is the price which is regularly charged for safes of this size and grade. By selling this safe directly to the user for cash only and loading it on cars at our factory door and by selling at the smallest possible margin of profit we are able to offer this safe at only \$71.75. You can save yourself at least \$50.00 to \$75.00 by purchasing this safe from us subject to our long term written guarantee and free trial offer, as fully explained on the previous pages.

THIS BIG \$200.00 TO \$300.00 FIREPROOF SAFE is the most bargain ever offered at our heretofore unheard of price of \$89.75. Think of the clear saving in money that you make of from \$125.00 to \$200.00 when you purchase this safe from us. No other safe dealer would think of offering you a safe of anything like the same grade, the same elegant finish, the same guaranteed security, fine workmanship and large capacity for less than \$200.00 to \$300.00, and this big difference in price is all clear gain for you.

THIS IS THE SAFE WE RECOMMEND. It is the size that is most suitable for hardware stores, grocery stores, markets and merchants of all kinds, for foundries and machine shops, professional men, bankers and lawyers, societies, lodges and township officials, in fact, for any and every one who has valuables of any kind that must be protected from fire. This is the safe that will save all its contents in perfect condition, just as good as the day they went in it, when your building is burned to ashes. When all other safes are destroyed and their contents are burned up, you will realize the wonderful advantage of having this big Security Safe, made by the Vulcan Safe and Lock Company, the only one that can never fail.

AT ONLY \$89.75 our Security Safe gives you protection for two hundred years or more. Absolute protection for all your money, deeds, mortgages, records, books, jewelry and gems at only 50 cents a year. Our Security Safe is built to last for several hundred years, and at \$89.75 it will cost you but 50 cents or less a year for all the safety which it provides for you. Can you even think of being without this necessary protection for even a single day when you consider that it costs you but 50 cents a year, an amount so small that you probably waste it every day almost without thinking of it?

IT PAYS TO BUY A BIG CAPACITY SAFE. Don't think of buying a small safe which does not provide for the fluctuations in your assets or the increase in your business. How much better it is to buy a big, strong, solid safe, large enough for any occasion with ample capacity to meet any emergency. A safe of the kind that commands respect for its owner and increases his credit.

WHEN A SALESMAN OR DEALER ENTERS YOUR PLACE of business and his eye is greeted with this big handsome massive Security Safe he is instantly impressed with the fact that you, requiring a big secure safe of this kind, must be financially strong and your credit is instantly established in his eyes. He becomes very anxious to sell to you. He will give you almost any amount of credit you will ask for and will make you much lower prices than he would if you had a small, or worst of all, no safe at all. Whether you need a safe of this size and capacity now or not, it will pay you well to buy a Security Safe any way. In fact, it will be the wisest purchase you will ever make. Not only in the absolute security this big safe gives you, because of the great thickness of its massive fire resisting walls, but because you will be able to buy closer than ever before. Your credit will be established and your standing in the community assured. It will bring you trade from those who prefer to buy from the best dealer in your town and the difference it will make in your business will really surprise you.

OUR PRICE for this big elegantly finished safe is about 3¼ cents a pound, about the price which your local blacksmith pays for

the common rough bars of iron which he makes horseshoes from. This price is wonderfully low. Lower than was thought possible before we entered into the safe manufacturing business and this is a rare opportunity for you to get a splendid safe for less than one-half the price usually charged. Nothing in the way of highest grade material or skilled labor has been omitted in our efforts to make the Security a perfect safe and we have in this pattern exceeded our expectations. You will be surprised at the elegance of the finish and the artistic decorations. The fine finish of the cabinet work. The high grade locks on all the drawers and sub-treasury. The massive cement filled walls of steel and the heavy doors will appeal to you. As soon as you see the Security safe you will be impressed with it and will realize what a wonderful bargain you have received at but \$89.75.

DON'T DELAY. Send us \$89.75 today and let us send you this big Security Double Door Safe with all its improvements, lettered with your name in handsome gold letters and equipped with the finest Yale combination lock, susceptible to countless changes of combination. Let us send you this safe on trial and all at our risk. Use it for thirty days in your own store or office. Compare it with safes owned by your business friends that cost from \$200.00 to \$300.00, and if you do not agree with us at the end of that time that it is without a doubt the most wonderful safe value ever heard of, send it back to us at our expense and get all your money back, including the freight charges.

YOU WILL NEVER REGRET the purchase of this safe. The cost is so small in proportion to the length of time which it will last, that it gives you all this perfect security, strengthens your credit and adds to your financial standing, for an amount that is so small that it can hardly be figured. Just a few cents a year. Take our advice and send us your order without delay, and you will be surprised at the wonderful value in the safe which we will send you, and will never have reason to regret your purchase. Whether you ever have a fire or not, the security which it affords to you from danger of burglars or marauders, from meddlers or inquisitive neighbors, the peace of mind which it gives you will be worth many times our \$89.75 price; and should the warning cry of fire be heard, you are comfortable in the knowledge that your assets, insurance policies and the records of your business are secure in the Security Safe and the hottest fire can do them no damage. Order one today.

OUR NEW FACTORY TO USER METHOD OF SELLING ENABLES US TO MAKE THE PRICE OF HIGH GRADE TYPEWRITERS SO WONDERFULLY LOW THAT THEY ARE NOW WITHIN THE REACH OF ALL.

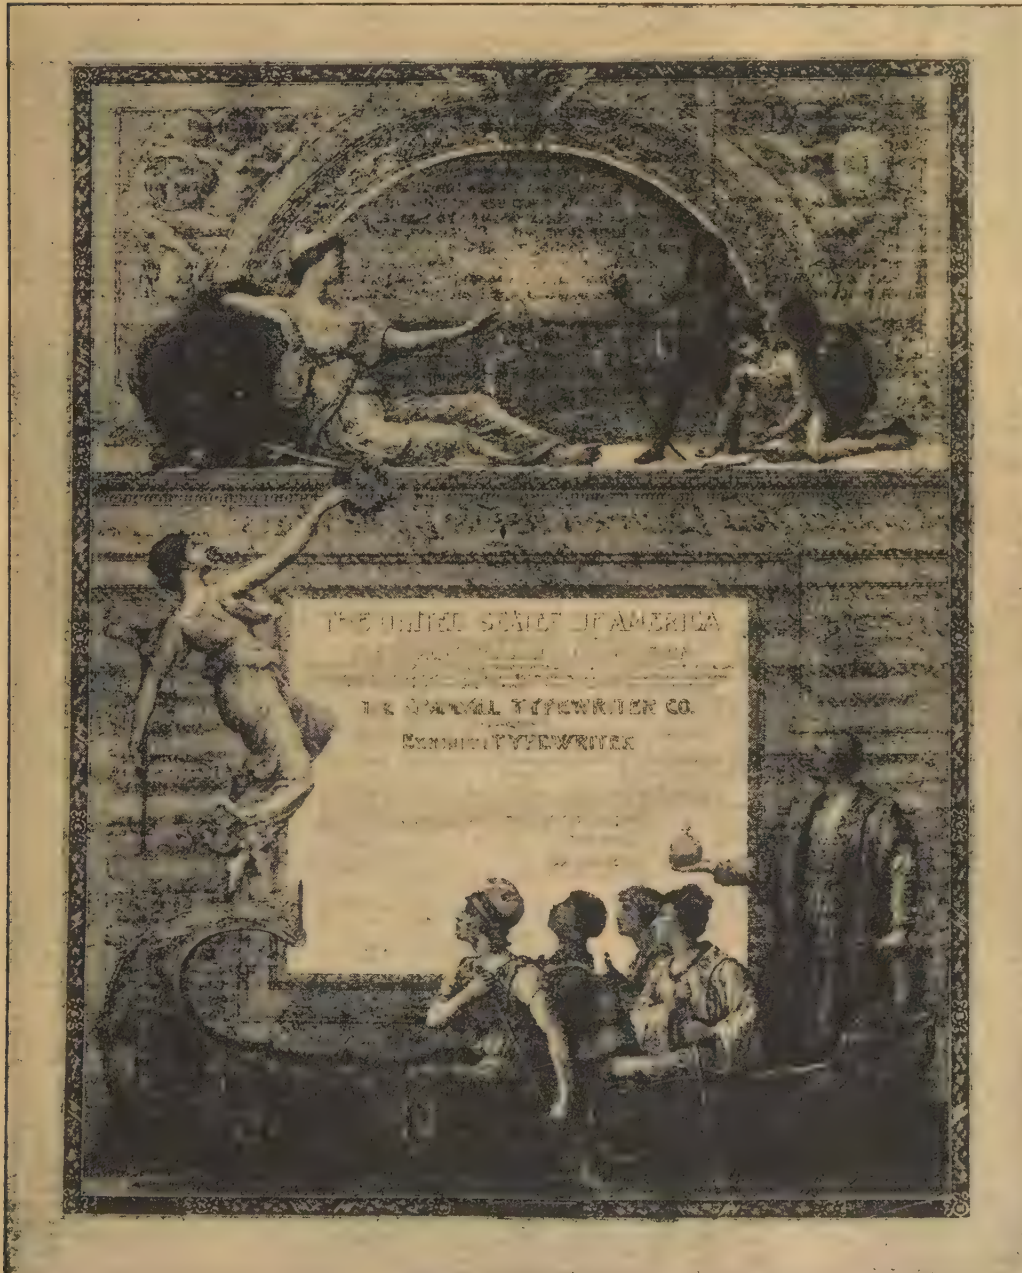

WE ASK YOU TO SEND US YOUR ORDER for one of these highest grade typewriters from these pages. Remember that you are fully protected by our great satisfaction guarantee, by the sixty days' trial which we give you on each machine, by our ten year quality guarantee and our safe delivery guarantee, all fully explained on the following page. You take no chances nor run any risk, as you are fully protected and are enabled to put the machine to a long, thorough test before finally deciding to keep it.

FOR THE BENEFIT OF OUR CUSTOMERS, who desire more complete information than we are able to give in this catalogue, we print two Special Typewriter Catalogues, one fully describing in detail our Crandall Typewriter and the other telling all about our Draper Typewriter. These two catalogues are probably the most complete ever issued on the subject of typewriters. They explain every detail regarding the manufacture and sale of typewriters by us and other concerns. They tell how they are built, show illustrations of the different parts and diagrams showing the use of each; explain the advantages of the various styles of machine; tell of the great improvements that make the Crandall the most convenient machine of any; why it is the only absolutely visible writer; why it has the speediest action, the lightest and easiest touch; explain fully its wearing qualities, its wonderful simplicity and strength; tell of the tests made in comparison with other machines and prove to you that no other \$100.00 machine is as good and possesses as many improvements as the Crandall.

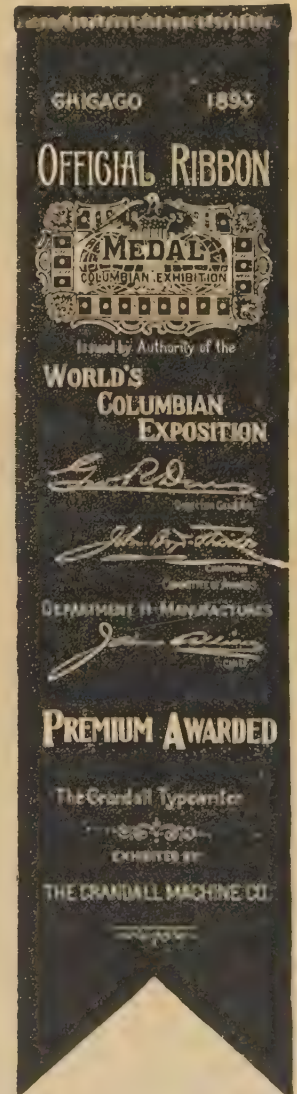

OUR DRAPER CATALOGUE describes our other machine just as fully machine of its class. Explains why the type cannot get out of alignment; how you can use it and write in almost any language under the sun; why it is a more powerful manifold than other type wheel machines; tells of the anti-friction action and the light, velvety touch.

THESE TWO CATALOGUES ARE FREE and they contain much valuable information that anyone thinking of buying a typewriter should know. They explain the inside working of the typewriter trust, give the reasons why the agents for all other machines must ask such high prices and tell why the \$100.00 price is at least \$75.00 too much for the best typewriter made. No matter what machine you may be thinking of buying, first of all send and get our Free Typewriter Catalogues. Just drop us a postal asking us to send either or both of them and they will go to you by return mail, postpaid. The information they contain will be worth money to you no matter what typewriter you may purchase as they show you plainly what you have a right to expect and prevent the agents and salesmen from pulling the wool over your eyes and persuading you into the purchase of an inferior machine at an exorbitant price.

SEND FOR THESE SPECIAL CATALOGUES TODAY. Do not forget our Crandall or Draper typewriters in on trial against any typewriter made at any price. It is to your advantage to give them a trial. It costs you nothing if you decide not to keep either of them, as we at once refund the full purchase price and all transportation charges. Thousands of critical operators are now using the Crandall and if it pleases them it will surely satisfy you.

THE
**CRANDALL VISIBLE
TYPEWRITER**
Regular Price - - \$100.00
OUR PRICE - \$24.50

Diploma awarded by the World's Columbian Exposition to the Crandall Typewriter Co. in competition with all other \$100.00 typewriters.

AT ONLY \$24.50 we offer the world renowned Crandall Visible Typewriter, for more than twenty-five years the standard of excellence toward which all other manufacturers have been striving. The Crandall Visible is a regular \$100.00 typewriter that has been sold for many years at this price. It has been exhibited at fairs and expositions in competition with all other \$100.00 machines and has been awarded medals and

prizes wherever shown, which guarantee its superiority. No other \$100.00 machine possesses as many distinctive features of merit or combines wonderful simplicity and strength with the latest modern improvements as does the Crandall. The Crandall is without a doubt the strongest and most durable typewriter manufactured. It contains fewer parts than any other high grade machine on the market and yet possesses every improvement of merit that has ever been devised.

IT IS ABSOLUTELY AND ALWAYS A VISIBLE WRITER. From the first character is printed upon the page until the page is finished not a single word or line passes out of sight of the operator. This is the only real visibility. Beware of so called visible typewriters, in which only a few words or a portion of a line is visible. It is sent to you equipped with the latest improved bi-chrome or two-colored ribbon, an improvement found upon only a few of the very best machines and at an extra price. By the touch of a button you can change the color of your writing from black to blue, or red to purple, or in fact almost any combination of colors. This improvement is of great value where it is desired to emphasize a few words and also in making credits when billing or invoicing on the typewriter.

WITH IT YOU CAN WRITE IN EVERY LANGUAGE used in civilized countries by changing the type wheel. We can furnish extra type wheels in all languages, and the change is made in just a moment.

THE MECHANISM IS SIMPLICITY ITSELF, containing only one ordinary typewriters, reducing the liability of its getting out of order or out of adjustment to almost nothing. The touch is surprisingly light and elastic. The key depression is uniform. As all the type are on one single piece of metal, the alignment remains permanent and unchanged, even after ten or fifteen years of use. In manufacturing it is perfect, regardless of the number of copies made, because of the direct hammer blow of the type wheel.

THE CRANDALL is furnished with the Universal keyboard, with double four characters. This is the style that is used in the best modern machines, and is the kind that the fastest typewriter operators call for. The universal keyboard is the easiest for the beginner to learn and the easiest for the experienced to operate.

THE \$100.00 CRANDALL VISIBLE TYPEWRITER is conceded to be the simplest and easiest to understand, the most durable and the most easily cleaned of any on the market. In finish and appearance it has never been excelled. All the bright parts are polished, heavily coppered, then nickel plated and burnished, making a practically everlasting finish. The frame is enameled, furnace baked and hand rubbed to an elegant, glossy black finish and decorated with gold stripings and ornamentation. In fact, the Crandall Typewriter is built and finished in every way as a \$100.00 typewriter should be. It is equal to the very best of the other \$100.00 typewriters and much superior to the majority of them.

THE STANDARD MACHINE FOR MORE THAN TWENTY-FIVE YEARS.

THE ORIGINAL CRANDALL TYPEWRITER was considered a triumph of the time it was devised, more than a quarter of a century ago. Year by year it has been improved. Valuable improvements, protected by patents in all civilized countries, have been added. Year by year it has maintained its lead. Hundreds of the original Crandall Typewriter, built fifteen, twenty and twenty-five years ago, although crude, compared with the splendid modern machine, are still

in use and giving perfect satisfaction to the user, proving that the principle upon which it is constructed is absolutely correct. Today it is better than ever.

CRANDALL MACHINES are being built today, which will be in use in twenty-five years from now, just as the old Crandalls, built twenty-five years ago, are still in use. This is the machine to buy if you do not wish to do business with the typewriter repair man. It does not require readjusting every few months as ordinary type bar machines do. It has no delicate, sensitive parts to break or wear out, like other machines. Having less than one-tenth the number of parts of ordinary typewriters, there is less than one-tenth of the chance of it getting out of repair.

WE ESPECIALLY RECOMMEND THE CRANDALL MACHINE to those located in the small cities, towns or villages, who are in the country, or to anyone who does not want to be in constant communication with the typewriter repair man. The first cost of the Crandall Typewriter is the only cost. There are no bills to be paid from time to time for readjustment and for the replacing of broken parts, as in all other machines.

ON ONLY \$1.00 DEPOSIT we will ship the genuine Crandall Visible Typewriter, the regular \$100.00 machine, to any address to be shipped C. O. D. for the balance of \$23.50 subject to your examination. You can examine it at your railroad station or express office and look it over carefully, and if you find it is just exactly as we say it is and if you are pleased with its appearance, pay the balance of \$23.50 to the agent and take up the shipment subject to sixty days' trial, in your own home or office, as explained below.

IT IS TO YOUR ADVANTAGE to send cash in full with the order as by so doing you save some little trouble in the payment of the C. O. D., also a charge of thirty-five to fifty cents, which all express companies make for the collection and return of the money, and of course whether you send cash in full with your order or \$1.00 deposit and pay the balance to the express agent, you receive the benefit of our sixty days' trial, which is fully explained below.

THIS IS OUR SIXTY-DAY TRIAL OFFER.

WE WANT EVERYONE who has any use for a typewriter to try the Crandall at our risk. We do not ask nor expect our customers to consider that they have purchased the Crandall Visible Typewriter until after they have given it a full sixty days' trial, in their own office or home, after the machine is received. Take the machine to your home and use it for sixty days. Examine its mechanical construction carefully, give it a most thorough test on mimeograph or stencil work, make as many carbon copies as you can, test its speed, examine the alignment carefully, use it until you have become accustomed to the touch and keyboard. Then, after you are thoroughly familiar with it, compare it with other standard machines on all these points and before the sixty days have passed you will surely have decided whether you want to keep it or not. If you do, well and good. If not, return it and get your money back, including all the transportation charges you have paid. There are no conditions to this offer. We make it just as plain and fair as we know how. If at any time during the sixty days you decide that you do not want the machine, send it back to us and get all your money back without quibble or question.

CRANDALL TYPEWRITER COMPANY

OF AMERICA

Hereby guarantees that this Crandall Visible Typewriter No. _____ is made of highest grade material, perfect in adjustment and operation. We fully warrant it for ten years, and will replace free of charge any defective part during that time.

Dated at Chicago this _____ day of _____ 190__

St. Harris

TREASURER

St. Harris

PRESIDENT

THIS IS THE GREAT QUALITY GUARANTEE, signed by the officers of the Crandall Typewriter Company, which goes with every machine and which makes you secure. When you receive this liberal guarantee with your Crandall Typewriter you receive not only the factory's guarantee signed by the officers of the company but you receive our guarantee also, for we are financially interested in this concern and hold ourselves liable to all the terms of this guarantee. Read it over carefully and note its terms and conditions. It means typewriter insurance for you for a period of ten years to come. It guarantees perfection in every detail of material or workmanship. It means free repairs for many years to come provided any broken part shows the slightest sign of a flaw or defect in workmanship. This guarantee is so broad and so liberal that you are protected against everything except violent misuse or severe accident. It is more liberal than any other typewriter manufacturer would think of giving you. In fact no other manufacturer gives a guarantee of any kind, as they one and all aim to make large profits out of repairs.

WHILE WE CAN ALWAYS FURNISH REPAIRS if they are needed, that the manufacturer is called upon to furnish a repair for the Crandall Typewriter. It is only in cases of severe accident usually, and in cases of this kind we furnish them at just enough margin over the cost to cover the handling expense as we do not aim to make a profit on repairs.

WE GUARANTEE SAFE DELIVERY. This means should your typewriter be broken or marred by very rough and careless handling by the employees of the transportation company (which is something which is unusual because of our careful system of packing in strong, secure cases), we will immediately replace it with a new machine free of all expense to you. You simply return the damaged machine and get a new one. You are put to no bother in making a railroad claim and no expense for transportation charges on the damaged machine.

ABOUT THE FREIGHT OR EXPRESS CHARGES. The Crandall Typewriter is shipped to you direct from our Chicago store. If ordered with other goods to go by freight the charges are so small that they really amount to almost nothing. The express charges on one machine to almost all points in Illinois, Indiana, Wisconsin, Michigan, Ohio, Iowa and Missouri, are usually from twenty-five to forty cents on one machine and greater distances in proportion. In every case they are but a very small amount indeed, practically nothing compared to your saving in price by purchasing from us. They are so small in every case that they need not be considered.

FOR TWENTY-FIVE YEARS THE WORLD STANDARD.

THINK OF THE ADVANTAGE

of buying a typewriter which has been a big success for more than a quarter of a century. One which was ahead of the times when it was first put on the market

twenty-five years ago and is ahead of the times today. A machine of such correct mechanical principles that the first ones put out twenty to twenty-five years ago are still in daily use, showing a durability unheard of in any other typewriter ever made. It will be a satisfaction to you in purchasing a Crandall Visible Typewriter to know that in ten, fifteen or twenty years from now, long after the complicated type bar machines which others are offering at \$100.00 have been consigned to the scrap heap or to the attic, the Crandall machine will be as good for all practical purposes as it is today. There is no wear out to the Crandall, no getting out of alignment, no getting out of adjustment. It is all so simple and so strong,

Medal awarded by the World's Columbian Exposition to the Crandall Typewriter in competition with all other \$100.00 machines.

THE FIRST COST IS THE ONLY COST. Were all typewriters built same correct mechanical principles as the Crandall Visible, the typewriter repair man would become extinct or change his vocation.

IF YOU ARE LOCATED IN ONE OF THE SMALLER CITIES, in a town or village, or in the country, even if you are located in the outskirts of a large city, it is difficult, often impossible, to secure the services of a regular typewriter expert. Even if your place of business is in the center of a good size town and the typewriter repair man is close at hand, his services are expensive and no matter what type bar machine you use you are sure to need him. Type bar machines contain an endless number of small parts which are put to a great strain in operation. They are constantly getting out of alignment and out of adjustment. The slightest defect in any one of the twelve to eighteen hundred parts, which go to make up the ordinary type bar machine, will put your machine out of commission until it is repaired. You are put to this annoyance and expense which amounts to a considerable sum of money every year even when you are so situated that you can call upon the typewriter repair man at any time. If you are located in the country or a small town where there is no repair man it necessitates shipping your machine away from home and a long period in which you will be without the use of it in addition to the transportation charges and the cost of overhauling and readjustment.

This is why you should buy a Crandall machine in preference to all others. It contains only 110 working parts in place of twelve to eighteen hundred as in other machines. The parts being few they have plenty of room for action and can be made of ample strength. There is no such thing as the Crandall Visible Typewriter getting out of alignment; no such thing as upsetting or twisting of type bars. The action never balks and never fails. Give it the ordinary care you will give any machine and you can use it year after year without a penny of cost for repairs.

The Crandall Visible Typewriter.

NOT ONLY THE SIMPLEST BUT THE BEST.

THE CRANDALL has every possible improvement. Every convenience that is found on any other \$100.00 typewriter. It is a more perfect visible writer than any other. It is fitted with a bi-chrome or two colored ribbon attachment without extra charge. It can be furnished with extra wide carriage for writing insurance policies and legal papers if desired. With it you can write in the languages of all civilized countries by simply exchanging type wheels, which is only a moment's work. Think what an advantage it is for a business man to be able to write to his customers in their own language. It is a most excellent manifold. It will make clean cut stencils for mimeograph work. It is one of the speediest machines of any. The touch is light and elastic. The key depression is even and uniform. It is equipped with the Universal keyboard with two shifts, having twenty-eight keys and printing eighty-four characters. This is the machine experts all call for and is the easiest of any to learn.

THE WRITING IS ALWAYS IN PLAIN SIGHT.

Every character is in plain sight as soon as printed

Perfect visible writing.

OUR CRANDALL VISIBLE is an absolutely visible writer. Every character is in plain sight from the moment it is printed until the page is removed from the machine. No other so called visible typewriter compares with the Crandall. In some only a portion of a line is shown, and in others but a few words. In the Crandall every character is visible from first to last. You read as you write, just as you would read a newspaper. This increases the speed of the operator immensely and reduces the liability of making errors to almost nothing. There is no lifting of platen or carriage, looking for real or imaginary errors, and no figuring or guessing at the printing point after they are corrected.

IN THE CRANDALL errors are as easily seen as when writing in long plain sight and the liability of errors is greatly reduced. The time spent in making corrections is cut in half, and the copy is neater than it can possibly be with the old style blind machines, in which the writing is done on the under side of the platen roll.

THE ABSOLUTELY VISIBLE WRITING ALONE would make the Crandall a general favorite even if it had not another single point of merit, as this is one of the most valuable features ever embodied in a typewriter.

THE CRANDALL VISIBLE TYPEWRITER is guaranteed to be the simplest and easiest to understand; the most durable and most easily cleaned of any. It has the finest possible finish and is a handsome piece of furniture, fitted to adorn the finest office.

THE LIGHT ELASTIC TOUCH.

THE CRANDALL is operated by gently pressing down the keys. No forcible blow with the finger tip is required as in many of the type bar machines. The touch is delightfully light, even and elastic. The speed is limited only by the speed of the operator. The Crandall touch is sure to please you. There is no dragging in the action. The key depression is perfectly uniform, and you can do more work with it in a given time and with less fatigue than on any other machine on the market. The action is almost perfectly silent. The contact of all the working parts is made on rounded surfaces, and they perform their work quietly and without friction. The annoying click of the steel type in type bar machines is entirely done away

The easiest of any to operate.

with. This is a great assistance in copying verbal dictation, as it is not necessary to raise the voice above its natural pitch in order that every word may be distinctly heard.

WE USE the simplest and most positive rack escapement of any. It operates instantly; so fast that there is no danger of piling up of letters even with the speediest operator.

IT MAKES THE FINEST CARBON COPIES. The type are deeply cut, and the printing cylinder is directly connected with the operating levers, enabling you to deliver a sharp hammer blow, and making the carbon copies as clear and legible as the original writing. As the printing cylinder delivers a direct hammer blow the alignment of the carbon copies is as perfect as in the original, regardless of how many copies are made. In almost all other typewriters the carbon copies are ragged in appearance, although the original may be in good alignment.

THE PLATEN can be removed instantly without disturbing the work in any way and can be replaced just as quickly and easily as it is removed and the writing continues at just the point where it was stopped. This valuable improvement, found in no other visible writing machine, is a great advantage. If, for instance, you are doing manifolding work and making a number of carbons and desire to write a telegram, letter or postal you simply remove the platen and place another platen in the machine. Do the necessary work

The platen can be instantly removed.

required on the second platen and replace it with the original, continuing the manifolding work just where you left off. No time lost in removing work from the feed roll and replacing it. No matching of copies, no handling of carbons or smutting of the work and fingers.

The Universal Keyboard.

THE UNIVERSAL KEYBOARD used in the Crandall machine is the most convenient and easiest to learn of any ever devised. It has been adopted for practically all the other standard \$100.00 typewriters so that anyone who has ever operated any other machine can learn to operate the Crandall in a few moments' time. For the beginner it is the easiest of any to learn. The Universal keyboard used in the Crandall machine is provided with twenty-eight character keys and two shift keys, writing eighty-four characters. The keyboard is so compact that every key is within easy reach of the extended fingers and it can be operated with practically no movement of the arms, making it the swiftest of any. The uniform key depression insures evenness of writing, ease of operation and high speed. The keys are made of a special composition which is very durable and pleasing to the touch. They offer a yielding surface and do not tire the fingers as the metallic and glass key tops used in other machines will do. By pressing down the key to the left of the keyboard marked CAPS, all capitals may be written, by depressing the key marked F & P, all figures or punctuation marks may be written. When depressed these keys are held in position by a small catch when desired, which can be released by a touch of the finger of the operator. The marginal release key on the right of the keyboard permits the finishing of a word or the insertion of a hyphen at the end of the line. This is the ideal arrangement, making the most convenient keyboard in use.

200 TO 500 PARTS SAVED BY OUR PRINTING CYLINDER, THE MOST SIMPLE EVER DEvised.

The Type Cylinder.

ALL THE CHARACTERS AND LETTERS are on this small cylinder. Depressing any key turns the cylinder to the character and at the same time drives it forward with a rapid, positive movement as quickly and easily as though it were a single type bar, making a sharp, clean cut impression on the paper. In fact, the distance which our printing cylinder must travel is so much less than that covered by a type bar in its forward and return movements that the effort on the part of the operator is greatly reduced. This wonderful cylinder not only does away with from 200 to 500 of the parts used in type bar machines but with it the writing is always straight and true. There is no getting out of adjustment nor out of alignment. Letters cannot print on top of each other. Type will never become battered by collision with each other. There are no type bars to become twisted or out of adjustment.

THE CYLINDER can be lifted off and all the type quickly that it is no work at all to keep them clean. You clean all the type in the same time as you could clean two or three of them in a type bar machine. Long life is insured to the type because of the fixed and rigid foundation and protection from accident by being surrounded with a metal frame. It makes the Crandall wonderfully simple. Makes it strong where other machines are weak and the most durable machine ever devised. Your Crandall machine will be as good as ever when other machines are worn out and thrown away. It will save money for you every year you use it because it will require neither repairs nor readjustment. Best of all it is, always ready for use when you are ready to use it.

IF YOU BUY FROM US, WE WILL SEND YOU A FREE PROFIT SHARING CERTIFICATE.

A few of the many keyboards that we can furnish with the Crandall.

YOU CAN WRITE IN ALMOST ANY LANGUAGE UNDER THE SUN WITH THE CRANDALL.

WE FURNISH TYPE CYLINDERS in languages of all civilized countries and by simply taking off the one cylinder and replacing it with another, which can be done more quickly than it takes us to tell it, you can write to anyone in any language. We furnish extra cylinders in any language at an extra cost of \$1.98 each. Consider the big advantage of being able to write to your customers or to those with whom you do business, in their own language, whether German, French, Swedish, Russian, Spanish, Polish, or, in fact, almost any language.

THE CRANDALL WILL WRITE IN TWO COLORS. EVERY CRANDALL TYPEWRITER

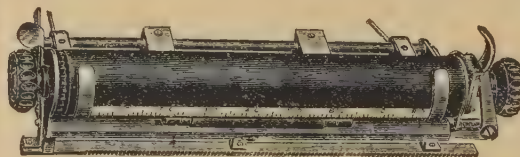

is furnished with a striped or two colored ribbon without extra charge. It is regularly furnished with a red and blue ribbon but almost any other combination of colors can be furnished if desired. By simply pushing a button just above the keyboard you change the writing from one color to another. The two colored ribbon is the latest typewriter improvement and is to be had on but few other machines and then at an extra cost. On the Crandall it does not cost you a penny extra. It is most useful for showing credits on invoices and for the purpose of emphasizing certain words in the preparation

The Ribbon Spools and Two Colored Ribbon.

of sermons, lectures, etc., and in business letters by introducing the name of an article or merchandise in a different color, thus instantly attracting attention. You can change from one color to the other in a moment's time and change back again just as quickly. The ribbon is made of the finest Irish linen fabric. The coloring matter is everlasting, not affected by heat or cold and is guaranteed never to fade. The push button by which the color is regulated is just above the keyboard in the very easiest position to reach and the color can be changed without a halt in the operation of the machine. No other machine possesses a two-color mechanism that compares with the Crandall. No other is as simple or as quickly and easily operated.

THE RIBBON SPOOLS are on top of the machine and are operated by the movement of the key levers. They are in plain view of the operator, easy to remove, easy to replace and the operation of putting on a new ribbon requires only a few moments' time.

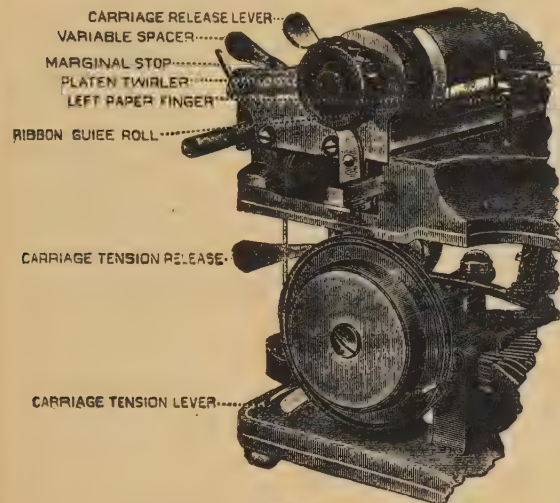

The Carriage and Platen.

THE CARRIAGE rests on a three-point contact. It is perfectly rigid and moves in a true parallel path. The carriage is not shifted up and down for capital letters as in almost all other shift key machines. This great feature insures the perfect alignment which has made the Crandall famous. The shifting of the carriage of other machines causes more bad alignment than any other feature. The carriage is instantly removed and just as quickly replaced. When removing the carriage the draw band is automatically caught and held, which prevents it accidentally slipping from the fingers of the operator, a common mishap on other machines.

as the change from small letters to capitals is made by shifting the position of the type cylinder. This great feature insures the perfect alignment which has made the Crandall famous. The shifting of the carriage of other machines causes more bad alignment than any other feature. The carriage is instantly removed and just as quickly replaced. When removing the carriage the draw band is automatically caught and held, which prevents it accidentally slipping from the fingers of the operator, a common mishap on other machines.

OUR REGULAR CARRIAGE will receive paper 9 inches wide and write a line $7\frac{1}{2}$ inches long. We can furnish special carriages for writing legal documents and other printed forms such as insurance papers, corporation and society minutes and any records where loose leaf books are used. Wide and extra wide carriages are interchangeable with the standard carriage in a moment's time and are furnished at a slight additional cost. If you wish to use a carriage for writing extra wide blanks or forms of any kind, be sure to write us, as the Crandall is especially adapted for this purpose.

THE PLATEN OR ROLLER of the Crandall is of pure Para rubber and from end to end. We use the very best grade of rubber and the Crandall platen will outwear any other and retain its shape to the last. The feed roll is held by adjustable supports and when the platen becomes worn from long use it can be adjusted to secure extra friction in a moment's time by anyone. The graduated scale reaches the full length of the writing line, assists in determining margins and affording a perfect straight edge for adjusting the paper.

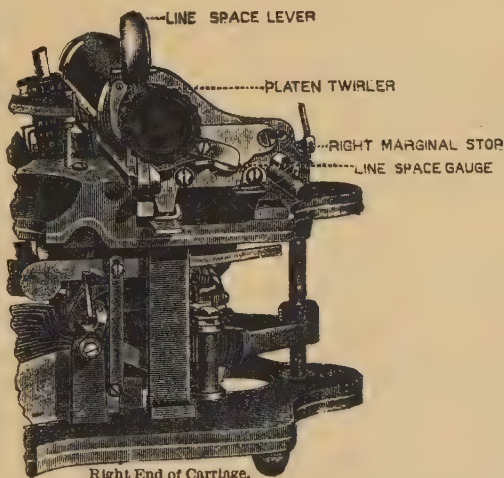

Left End of Carriage and Platen.

The carriage release lever enables you to move the carriage to the right or left and stop it at any point without touching the space bar. This is a splendid feature and almost indispensable in billing and in tabulating. The variable spacer permits you to write on ruled paper or printed forms, in fact, to print any character at any point on the paper and control the writing absolutely regardless of the regular spacing of the machine in ordinary writing. The marginal stop and paper fingers of the Crandall are combined. This is a splendid feature found in no other machine and enables you to automatically regulate the paper fingers at the same time that you regulate the width of the margin. In other words, you do the two operations in one and are sure that they are both done right.

THE PLATEN TWIRLER at each end of the platen gives the operator complete control; turning either of these knobs moves the paper up or down as desired. They are fastened to the platen shaft in such a way that it is impossible for them to become loose, thus avoiding a common annoyance with many other typewriters.

THE CARRIAGE TENSION LEVER increases the tension of the spring which draws the carriage when it is necessary.

THE CARRIAGE TENSION RELEASING LEVER just below it, decreases the tension so that it is an easy matter to regulate this to suit the operator exactly. The tension, however, is very carefully regulated by the factory and it is rarely necessary to change it. However, if you wish it changed, it can be done in just a moment's time.

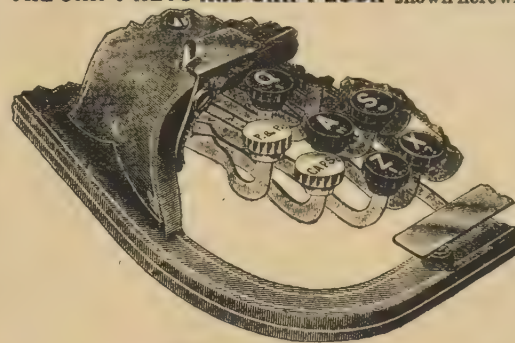

Right End of Carriage.

THE RIGHT END OF THE CARRIAGE, together with its various operating levers, is shown in this illustration. The platen twirler and right marginal stop perform the same functions as the similar parts at the left end of the carriage. The line spacing lever enables you to move the paper up to the next line at the same time that you move the carriage back and with a single motion of the hand. Please notice that our line spacing lever is operated with the right hand, saving time and greatly facilitating the work. In pushing the carriage back you can space or not just as you wish and can regulate the spacing so as to space single or double as desired.

THE LINE SPACE GAUGE controls and regulates the distance for the proper spacing it requires no further attention. Like all the other parts of the Crandall Visible it is easy of access and in a most convenient position for the operator.

THE SHIFT KEYS AND SHIFT LOCK

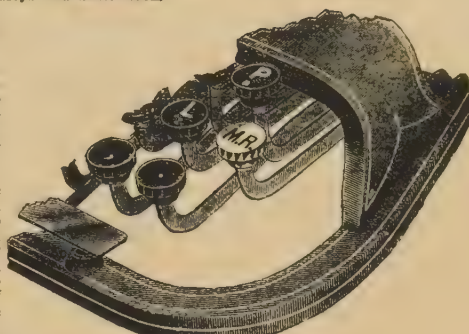

Shift Keys and Shift Lock.

on the left of the keyboard are shown herewith. By depressing the key marked CAPS, capitals may be written and by depressing the F & P key, figures and punctuation marks. The shift key locking device is shown attached to the frame of the machine just above the shift keys. It can be reached instantly and by depressing it all capitals or all figures will be written until when finished it is released by a touch of the finger and the regular writing is resumed.

THE LINE LOCK AND MARGINAL RELEASE.

The line lock prevents writing one letter on top of another at the end of the writing line, as when the end of the line is reached it automatically locks the printing mechanism and makes it impossible to make an impression on the paper. The operator does not need to be on the watch to avoid printing one letter on top of another at the end of the line. The line lock does this positively and surely.

Marginal Release Key.

THE MARGINAL RELEASE KEY, marked M. R. on the right of the keyboard, releases the line lock and permits you to insert a hyphen or finish a word before going forward to the next line as, after unlocking, the carriage will move on several spaces. This perfect device greatly increases the speed and relieves the mind of the operator.

THE CARRIAGE DRAW BAND CATCH automatically grasps the draw band and holds it when the carriage is removed from the machine. When the carriage is replaced it attaches the draw band in its proper place. It does its work quickly and quietly and never fails. It saves the annoying task of detaching the draw band by hand and the machine from the damage which invariably happens when the draw band is accidentally released.

THE BELL rings several spaces before the end of the writing line is reached and warns the operator, but even should this warning not be heeded the line locking device will prevent writing one character over another, marring the appearance of the work.

SEE HOW EASILY THE TYPE ARE CLEANED IN THE CRANDALL.

It is the easiest to clean and care for of any machine in the world. The operator simply lifts the type wheel off the machine and with a few strokes of an ordinary typewriter brush cleans all the type quickly and perfectly. It is all done so easily that it is really no work at all. This will be appreciated by those who have spent hours digging down into the interior of a type bar machine and laboriously cleaning the type one by one, smutting the fingers and scattering dirt everywhere. Twenty-five years of experience have made the Crandall a perfect machine.

Cleaning the Type Wheel.

TWENTY-FIVE YEARS OF THOUGHT AND EXPERIMENT on the part of the makers, twenty-five years of experience by the users insure for you the most perfect of all visible typewriters in the Crandall. It really embodies the best of all that is known in the art of typewriter building. There is no convenience found in any typewriter—at any price—which you do not get in the Crandall. It is far simpler and stronger than any other machine. Never gets out of order nor out of adjustment as other machines do. It is equipped with every time saving and labor saving device to assist the operator and all within easy, convenient reach. It has the universal keyboard, conceded to be the best in the world. It writes in any language by simply changing the type wheel. It is fitted with the bi-chrome or two-colored ribbon attachment found only in a few other high grade machines. It has the double shift, the line lock and release, perfect control of the paper and every other point of excellence. It can be furnished with wide or narrow carriage to do any kind of work that can be done on a typewriter. It is a perfect machine for billing and for tabulating and has the greatest of all typewriter features in its perfect visibility, which makes the writing far more rapid and far more accurate than is possible in the blind machines of the old style.

EVERYONE WHO WRITES LETTERS should have a Crandall Typewriter. It is the greatest of all modern business helps. No business, no matter how large or how small, can afford to be without one. Every merchant or manufacturer, every professional man—whether doctor, lawyer or minister—needs a typewriter and needs it almost every day.

IT IS A WONDERFUL EDUCATOR FOR CHILDREN and should be in every home. It teaches them spelling, grammar and punctuation. It interests them in their studies in a way that is really surprising. Teachers all recommend it.

A \$100.00 GUARANTEED TYPEWRITER FOR ONLY \$24.50. The Crandall Typewriter is built by a concern which has been in the typewriter business for more than a quarter of a century. They have won medals in competition with other \$100.00 typewriters wherever shown and it is superior to any other typewriter now in use at any price. Order one today.

USERS TELL WHAT THEY THINK OF THE CRANDALL TYPEWRITER:

EIGHTEEN YEARS OF USE MAKES THE CRANDALL AN OLD FRIEND.

Telephone, Wentworth 1532
ENGLEWOOD FIRST METHODIST EPISCOPAL CHURCH
William O. Shepard, Pastor.
6410 Stewart Ave., Chicago, Ill.

Crandall Typewriter Co., Chicago, Ill. June 7, 1906.
Gentlemen:—I have used the Crandall Typewriter for eighteen years. During that time I have had the use of nearly all other kinds of writers, but have never found one that seemed to me equal to the Crandall. Its simplicity, indestructibility and compactness have always argued in its favor with me. After so many years of almost daily use of the Crandall, I feel a tenderness for the machine as for an old friend, which makes me give most cheerfully this word of commendation.
Sincerely,
W. O. SHEPARD.

LIKE IT AND WILL SELL OTHERS FOR YOU.

Crandall Typewriter Co., Chicago, Ill. Union City, Ind.
Gentlemen:—The machine received O. K. and I like it. Shall keep same and think I can sell a good many machines here for you.
Truly,
REV. J. L. HILL.

MORE THAN SATISFIED.

Crandall Typewriter Co., Chicago, Ill. Detroit, Mich.
Gentlemen:—I have bought one of your Crandall Visible (No. 20,096) Machines from Gregory Mayer & Thom Co. of this city. Will you kindly send me a book of directions, as I could not obtain one in Detroit. We are more than satisfied with the work of your machine.
Yours respectfully,
A. W. ROTH.

IT IS STRONG AND IF HALF WELL TREATED, WILL ALWAYS DO GOOD WORK.

Crandall Typewriter Co., Chicago, Ill. Newark, Ohio.
Gentlemen:—Allow me to say that I have seen nothing that I like so well as the Crandall Visible. It is so strong and if half treated will always do good work.
Very truly yours,
REV. C. W. SIFFERD.

ANOTHER MACHINE THAT STANDS UP TO HARD WORK AFTER TWELVE YEARS' SERVICE.

Crandall Typewriter Co., Chicago, Ill. Cincinnati, Ohio.
Gentlemen:—Please send me four typewriter ribbons, purple. Enclosed find my check for payment of same. Address as above, but include Avondale as it is a suburb of Cincinnati. I bought my Crandall Visible from an agent who visited Canton, Ohio, ten or eleven years ago. Its work has always been most satisfactory. Yours very truly,
REV. EUGENE P. EDMONDS.

CAN'T DO WITHOUT IT FOR A DAY.

Crandall Typewriter Co., Chicago, Ill. Akron, Ohio.
Gentlemen:—I send you today under separate cover one typewritten for the Model No. 17718. You will please repair and return to me at once, sending bill for same, and I shall remit on receipt of same. I like the machine very well and can hardly do without the roll for a day at a time. Thanking you in advance for promptness in this matter, I remain
Yours truly,
H. S. BRANDON.

A MINISTER'S TESTIMONY.

Crandall Typewriter Co., Chicago, Ill. Jamestown, Pa.
Gentlemen:—I own one of your Crandall Visible Typewriters. I enclose fifty cents for which please send me one pair of spools. I need an extra pair. I should be pleased to receive your booklet describing the machine and how to care for it. I like the machine very much.
Yours most cordially,
REV. HENRY C. FOSTER.

BANKER FINDS IT SATISFACTORY.

Crandall Typewriter Co., Chicago, Ill. Van Wert, Ohio.
Gentlemen:—I presume that the ten days that I was to have to try your machine are past. During that time I have given the machine a very good test and find that it is all that I expected it to be. Should any of my friends or acquaintances wish to purchase a typewriter, I shall certainly recommend yours to them.
Yours very truly,
Vice Pres. Van Wert Nat'l Bank.

LIKES IT FINE.

Crandall Typewriter Co., Chicago, Ill. Moomaw, Neb.
Gentlemen:—I recently purchased one of your Crandall Visible Typewriters and like it fine. I have a chance to sell this machine for more than your price, and if I do, I shall buy another Crandall Visible.
Yours truly,
JNO. HARMON.

CAN WRITE FOR HOURS WITHOUT FATIGUE TO MY EYES.

Crandall Typewriter Co., Chicago, Ill. Fortress Monroe, Va.
Gentlemen:—The Crandall Visible Typewriter I purchased from you last year has given great satisfaction and happiness and relieved greatly the strain on my eyes by its black keys and large, plain letters. I have used it almost every day. I like the instrument very much because it is strong, and especially on account of its keyboard, at which I can write three or four hours together without fatigue to my eyes.
Yours truly,
REV. RICHARD L. CARNES,
Chaplain Old Point Comfort College.

Remember, we will guarantee it to please you and give you sixty days' trial, in your own home or office, in which to try and put it to any test you may see fit in order to assure yourself that all we say about it is true.

OUR GREAT TEN-YEAR GUARANTEE protects you against any possible defect in material or construction and we guarantee safe delivery. We know that you will be pleased with the Crandall Typewriter and we want you to try one at our risk, to be returned to us at our expense if it does not suit you. Order one today.

No. 23F8910 The Crandall Visible Typewriter. Shipped from our Chicago store. Weight, boxed for shipment, 30 pounds. Price.....\$24.50

WE FURNISH THE CRANDALL MACHINE regularly with a two-colored red and blue ribbon, but if the two colors are not desired, can be furnished in black, blue, green or purple ribbon, either copying or record, as specified. Be sure to state color desired. It is furnished with an English type cylinder in the regular pica type, the same as shown in the upper illustration on page 598, which is ordinarily used in all business correspondence. A special complete list of type cylinders, in all languages and in all styles, furnished on application. Any other language will be furnished instead of English, if desired, without extra charge.

TYPEWRITER CARRYING CASES.

TYPEWRITER CARRYING CASES with wood frame and steel valance, imitation black seal leather covered, with high grade linen linings and handsome nickel plated trimmings. These are indispensable where typewriters are to be carried from town to town and a great convenience in the office.

No. 23F8912 Carrying Case for the Crandall Visible Typewriter. Weight, 5 pounds. Price.....\$2.40

No. 23F8907 Carrying Case for the Draper Typewriter, same style as above. Weight, 6½ pounds. Price.....\$2.15

CAN'T GET ALONG WITHOUT THE CRANDALL.

Crandall Typewriter Co., Chicago, Ill. North Baltimore, Ohio.
Gentlemen:—I have an opportunity of selling my present Crandall and am ready to accept the proposition, but of course, I cannot get along without the Crandall in my business at all and shall not want to deliver my old machine until I receive a new one.
Yours respectfully,
GEO. W. WILKINSON,
Publisher The Weekly Beacon.

USED IT OVER THIRTEEN YEARS IN NEWSPAPER WORK AND NOW WANTS ANOTHER.

Crandall Typewriter Co., Chicago, Ill. Madison, Ind.
Gentlemen:—Having used one of your writers for the past thirteen years or more, we would like to trade the old machine in and get a new one. We are offered an exchange from other typewriter companies, but we wish to make a deal with you if possible.
Respectfully,
A. S. CHAPMAN,
Editor Madison Democrat.

IN HARD ROAD SERVICE EIGHT YEARS.

Crandall Typewriter Co., Chicago, Ill. Blue Canyon, Calif.
Gentlemen:—Please send me one of your latest model machines. You will remember I have bought seven or eight of your machines in the past few years and one of them I sold to the roadmaster of the Southern Pacific Railroad. He has used it hard for eight years and wants another. I like the Crandall better and better all the time. Kindly make prompt shipment and oblige.
Yours truly,
J. A. CAMERON.

I WOULD NOT GIVE IT UP FOR ANY OTHER MACHINE I KNOW OF.

Crandall Typewriter Co., Chicago, Ill. Bloomfield, Iowa.
Gentlemen:—I have two of your machines, one of which I have used ten years in succession. I would not give it up for any other machine I know of. I have perhaps done more on it than on all the other typewriters in our city put together, as I do all my editorial work on it besides being almost constantly employed taking depositions on it. Just filed a big one today.
Yours faithfully,
C. F. DAVIS.

I USE IT IN WRITING INSURANCE FORMS.

Crandall Typewriter Co., Chicago, Ill. Portville, N. Y.
Gentlemen:—I have one of your typewriters that I got of J. P. Nagle, of this place. It manifests very well, and though an old machine works well with the exception that it needs a new ribbon. Please send me new type cylinder and new ribbon. I want to use it by June first, as I write my insurance policies on it. Yours for the Crandall,
O. A. DEVORE.

ARRIVED IN GOOD CONDITION; MUCH PLEASED.

Crandall Typewriter Co., Chicago, Ill. Birmingham, Pa.
Gentlemen:—Typewriter received in good condition and I am very much pleased with it. Everything is O. K. and I know I shall enjoy using it. Yours truly,
REV. WARREN J. KEEFER.

USED SIX OR EIGHT YEARS; DON'T WANT TO GIVE IT UP.

Crandall Typewriter Co., Chicago, Ill. Northampton, Mass.
Gentlemen:—I have an old Crandall Visible machine, called the New Model, that I have used some six or eight years. I like it very much and do not want to give it up.
Respectfully,
L. L. CAMPBELL, Postmaster.

STILL GOOD, AFTER TWELVE YEARS.

Crandall Typewriter Co., Chicago, Ill. Passaic, N. J.
Gentlemen:—Please send me a couple of ribbons. I have had this Crandall Machine in constant use for twelve years and it has never been in the shop for repairs till about three years ago when your Mr. Benedict, of New York, overhauled it for me.
Yours very truly,
E. E. CLOCK.

WOULD ONLY EXCHANGE FOR UNIVERSAL KEYBOARD.

Crandall Typewriter Co., Chicago, Ill. Hunnewell, Mo.
Gentlemen:—The Crandall Visible I have has kept in good order all these years and gives good satisfaction. However, I have always had a longing desire to exchange it for one with the other keyboard. I should be glad if you would send me about three catalogues and other reading matter you may be able to. There are two persons near here who have been considering the matter of getting a machine. As soon as I can I shall bring your improved machine to their notice.
Yours truly,
G. H. AUSTIN.

BEST ON THE MARKET THAT I HAVE COME ACROSS.

Crandall Typewriter Co., Chicago, Ill. Holyoke, Mass.
Gentlemen:—My old Crandall Visible Machine is in such good order I do not think it best for me to pay out the difference in order to get the Universal Keyboard. I am glad to have had the chance to see your new machine, as I am sure it is the best one on the market that I have come across. I thank you for sending it on for me to see, and if I can help you in any way to the sale of one of these typewriters in this vicinity I will be pleased to do so. You may refer to me with the assurance that I will say a good word for this machine should anyone inquire. I remain,
Very truly yours,
S. B. WINCHESTER.

DEPARTMENT INDEX

TO THOSE WHO WISH TO REFER TO ANY ONE DEPARTMENT and not to any special item, we direct you to the following abridged department index; but if you are looking for any special item you will find it in the itemized index arranged alphabetically on these colored pages.

IF YOU FAIL TO FIND THE ITEM YOU ARE LOOKING FOR UNDER THE ITEMIZED INDEX, refer to the department and search carefully for the article you are looking for; otherwise you might overlook it, as we may have the exact same article indexed under a different number. In other words, if you should fail to find the item you are looking for in the itemized index, by referring to the department you are almost sure to find it, for there is scarcely an article imaginable that will not be found in our great stock of merchandise.

WHEN YOU REFER TO A CERTAIN PAGE and the item you are looking for is not shown on such page, but a special catalogue is described, don't fail to write for the special catalogue mentioned. In the special catalogue described you will find a large and complete line of the goods you are looking for.

Wire Stretcher.
\$4.00

No. 63F5622 Self Locking Tackle Block Wire Stretcher for woven wire fencing. Can be used with either hand or horse power. Can be adjusted so a greater tension can be put upon either the upper or lower wire as desired. It will hold at any point without slipping. Every pound pulled on the rope is same as four pounds on the wire. It requires 1/2-inch rope, which is not furnished unless ordered separately. From 30 to 100 feet is commonly ordered, as blocks and rope can be used as an ordinary hoist. Do not spoil a good fence by failure to have it properly stretched. This picture shows the only proper way to stretch wire fencing. This combines a first class wire stretcher and a rope hoist.

Price, with hardwood bars, bolts and chain, but without rope or whiffletrees. \$4.00

The Security Automatic Rope Hoist.

The Security Automatic Rope Hoist illustrated herewith, hoists, lowers, locks and unlocks without the bother of a trip rope. The heavier the load the tighter it locks. It can be used in any position, horizontal or perpendicular. Just the thing for erecting windmills and taking out and putting down pumps. It is made of the best malleable iron and fully warranted. All sizes have double lower block. Those who wish to better their own clamping bars, chain, etc., by using one of our Security Automatic Rope Hoists can have a first class wire stretcher as illustrated above.

No. 9F9695 Made for 1/2-inch rope. One man can lift 600 pounds. Capacity, 2,500 pounds. Price, without rope, \$2.35

No. 32F1291 1/2-inch Manila rope, suitable for above stretchers and hoists. Price, per foot 2 1/2 c

A BUGGY FOR NOTHING
— HOW TO GET IT —

Save Your Profit Sharing Certificates (you get one with each purchase over \$1.00), and you will quickly get enough certificates to entitle you to the beautiful buggy we give free, as explained on pages 1 and 2.

Fence Posts.

The prices of wood fence posts are high and are getting higher. Their life is short and getting shorter. Their quality is poor and getting poorer. They last but a few years and are gone.

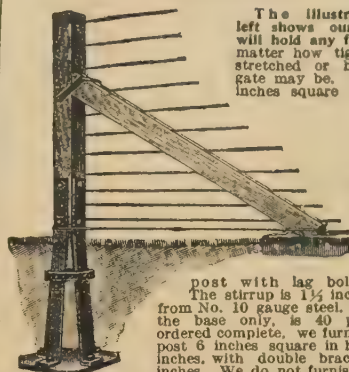

Our Tri-State Fence Post will last three times as long as the best and highest priced wood post that money can buy. It will last from six to ten times as long as a second class post and the price is right.

The illustration at the left shows the base of our Tri-State Fence Post which is made of iron. The neck of the base to which the post is bolted is not less than 3/4 inch thick, 1 1/2 inches wide and 18 inches long. The wings which hold the post steady in the ground are cut from a piece of 3 1/2 x 3-16 inches thick, and when in position they are 9 inches from outside to outside of wing.

They are bolted together with machine bolts 5-16 inch in diameter. The braces running from the neck of the post down to the feet, are not lighter than 11 gauge and they are 19 inches long. The base is not lighter than 11 gauge and is cut from a piece 5x5 inches, with the corners clipped. This base is bolted on to the neck with 5-16 inch machine bolts. We furnish two lag screws 5-16 inch in diameter to bolt the base to the wood post. The base weighs, complete, not less than 9 pounds. This base will follow a 6-inch auger or digger and as the metal is very heavy right at the top of the ground, where it is most affected by rusting, it will last for many years.

The illustration at the right shows the complete post. The wood part is made from hardwood 60 inches long, 2 1/4 inches thick, sawed tapering from 3 1/2 inches at the base to 2 1/4 inches at the top. You will notice that the wood does not touch the ground, hence will not rot. If you have fence posts which are rotted off at the top of the ground, do not throw them away. Just saw them off an inch or two above the ground where they are sound, dig out the rotted end, set a Tri-State base in the hole, bolt the base to your post and you will have a post that will last longer than the original post did. Our metal bases are thoroughly coated with a water-proof paint which will protect them from rusting many years.

In some cases where they have them, farmers use heavy sound rails from an old rail fence sawed to the proper length. Others use saplings of the proper size. Some take out posts which are rotted off at the top of the ground and split them into from two to four posts; others use a 2x4 scantling sawed the proper length, any of which when bolted to the iron base makes a first class post, for almost any kind of wood it does not touch the ground, will not rot. When you are using seasoned hardwood you should start the holes for the lag bolts with a 1/2-inch bit, but when green or softwood is used, this is not necessary, and a few blows with a hammer will start the lag bolts, and then tighten up with an ordinary wrench.

End Posts.

The illustration at the left shows our end post. It will hold any fence or gate no matter how tight the fence is stretched or how heavy the gate may be. The base is 13 inches square and 3-16 inch thick. The braces are not less than 3/4 inch thick, 1 1/2 inches wide and 4 feet 2 inches long. The cross braces are made of strips 3 inches wide, cut from No. 7 gauge steel. The braces are fastened to the post with lag bolts, 3/4 x 4 inches.

The stirrup is 1 1/2 inches wide, made from No. 10 gauge steel. The weight of the base only, is 40 pounds. When ordered complete, we furnish a hardwood post 8 inches square in height, up to 60 inches, with double braces, each 2 1/2 x 5 inches. We do not furnish the wire truss which binds the foot of the brace to the post. The weight of the complete post is about 90 pounds. The corner post is made the same as the end post, except that it is braced in two directions.

Price List of Tri-State Fence Post.

No. 63F5760 Line Post, complete, with wooden part, any height desired up to 5 feet. Price, each, 30c

No. 63F5763 Iron Base-only, for line post. Each, 25c

No. 63F5765 End Post, with wooden part, any height up to 5 feet, with braces. Price, each, \$2.15

No. 63F5769 Corner Post, complete, with wooden part, any height up to 5 feet, with braces for two ways. Each \$2.50

No. 63F5772 Iron Base only, for either corner or end post with stirrup for braces. Price, each, \$1.62

At the above prices, we deliver the goods free on board cars at factory at St. Anne, Ill., from which point the customer pays the freight. Other goods cannot be shipped with fence posts.

Special Notice.

If the above goods are ordered in carload lots, the price will be 1 cent less each for the base or the complete line post and 5 cents each less for the complete end or corner post or bases for same. In the limited space prevents us from cataloging the many prompt shipments and we respectfully solicit the business of railroad companies, fence contractors and other large users of fence posts.

SEED DEPARTMENT.**WRITE FOR THIS FREE CATALOGUE.**

WE have established a very large Seed Department and we are now supplying our customers in all parts of the country with the highest grade seeds of all varieties as well as everything in bulbs and nursery stock at about one-fourth the price all others ask. Don't buy anything in this line, a single packet of flower or vegetable seeds, don't buy an ounce of farm seeds of any kind, don't order a plant or single shrub before you first write and get our new, complete and wonderful Seed Catalogue.

THIS BIG, COMPLETE, MONEY SAVING SEED CATALOGUE IS FREE

WE WILL GLADLY MAIL IT FREE to anyone on application. Every one of our customers should have this great Seed Catalogue. Just write us a letter or a postal and say, "Send me your Free Seed Catalogue," and the big, complete Seed Catalogue, our very latest edition, will be sent to you immediately by return mail, free and postpaid. We do not attempt to illustrate or describe in this, our large general catalogue, our immense variety of vegetable and flower seeds, nursery stock, etc. In the limited space in this general catalogue, it is impossible for us to do justice to this department, and we therefore print this notice of our Seed Department, this offer of our wonderful Seed Catalogue free, with the hope that everyone who uses seeds will take advantage of our offer and write and get our Free Seed Catalogue and learn of the wonderful seed proposition we now have for our customers. In addition to the fact that limited space prevents us from cataloging the many varieties in our Seed Department, we prefer to issue a special catalogue, because farm crops such as wheat, corn, oats, rye and barley, are subject to market fluctuations and we can you the benefit of the lowest market price if you write for our special Free Seed Catalogue.

FROM THIS ILLUSTRATION you can get an idea of the appearance of our large and complete Seed Catalogue. It is a large 9x12-inch book, fully illustrated, describing hundreds of new and desirable varieties of vegetable, flower and farm seeds. It tells the plain truth about seeds; it tells you what varieties are best adapted to your section, what kinds are best for early planting and for late planting and what sorts are most profitable for market gardens to grow, which are to be preferred for home use and why; it offers you fresh, hardy seeds of the highest vitality and the purest type for a small part of the price that others charge; it offers you wonderful garden collections of the newest and best sorts grown at prices one-tenth what others would charge for the same quantity and quality; it explains the seed business as operated by all other seed dealers; tells you why we can and do sell so cheap and why others must charge such enormous prices.

OUR GARDEN SEEDS ARE FRESH, pure and of highest germination. We the largest seed growers in the world, expert specialists in sections suited to the best development of the different varieties of seeds. We do not buy seeds on the open market, for there is no telling how long these seeds have been shipped around the country from year to year on commission, and such seeds are oftentimes of inferior type, badly mixed and of little vitality. We test all of our seeds and any lot that doesn't show a very high germinating percentage is discarded. We can guarantee the germination of all seeds we sell.

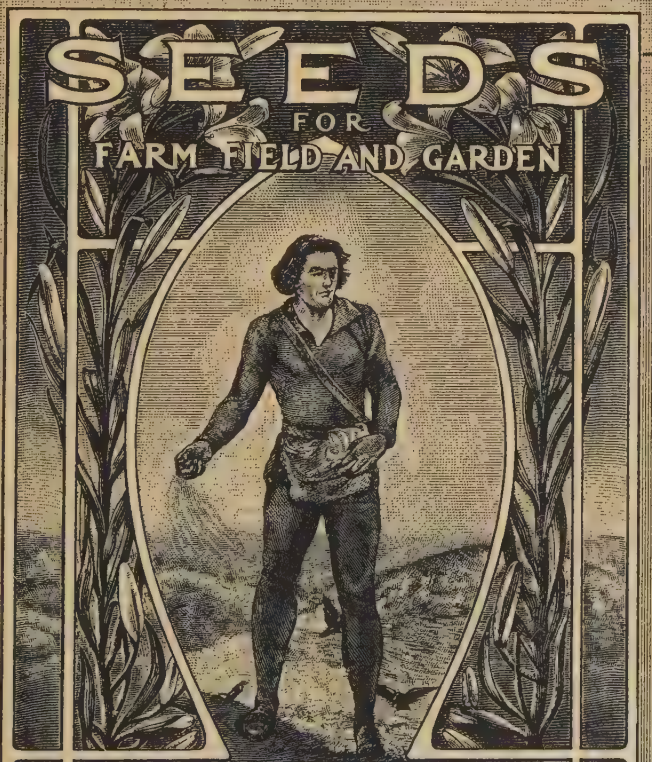

OUR FARM SEEDS, fully illustrated and described in our special Free Seed Catalogue, a big variety are grown and tested in the same careful manner as our garden seeds. We handle only one grade, the very best, and at the very lowest prices, which means a great saving for you. Our Free Seed Catalogue illustrates and describes staple, new and valuable varieties of corn, oats, grasses and forage plants, tells you how to enrich your soil without the use of fertilizers and gives you much valuable information regarding the different varieties.

OUR FLOWER SEEDS are gathered from the four quarters of the globe, producing the largest, handsomest and finest flowers known. Our collections at marvelously low prices place them in your hands at a mere fraction of what you have been accustomed to paying for them elsewhere.

OUR NURSERY STOCK, grown by experienced tree men, is guaranteed to reach you in good condition and is offered at one-fourth the price charged by others. We give you the best varieties, the largest fruit, the sweetest berries, the handsomest shrubs, the finest trees at unheard of prices. If you are a large planter or a small planter you cannot afford to buy any quantity without first writing and getting our Free Seed Catalogue. If you are a gardener or a farmer or a land owner, if you are depending on what you grow for a living, if you plant a thousand acres or only a humble cottage garden, don't fail to write and ask for our Free Seed Catalogue.

FALL CIRCULAR with prices and full descriptions of our enormously heavy yielding and all kinds of forage crops and grasses for fall sowing now ready. Write a postal today and get our FALL CIRCULAR on seeds, giving you much lower prices for much better heavy yielding seeds than you can get elsewhere.

WE ADVISE FALL PLANTING of trees, shrubs and general nursery stock. Our shipping season for fall orders begins in October and continues as late as cold weather will permit.

SEARS, ROEBUCK & CO.
CHICAGO

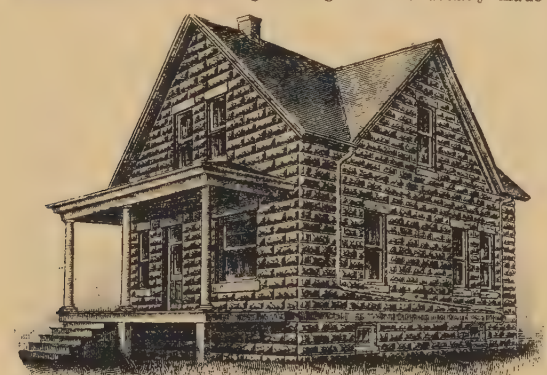

CEMENT BUILDING BLOCK MACHINES

CEMENT BUILDING BLOCKS HAVE QUICKLY ATTAINED A WONDERFUL POPULARITY THROUGHOUT THE COUNTRY. THERE ARE HUNDREDS OF DIFFERENT CEMENT BLOCK MACHINES ON THE MARKET, THOUSANDS OF PLANTS FOR MANUFACTURING THE BLOCKS HAVE BEEN ESTABLISHED THROUGHOUT THE COUNTRY, AND THOUSANDS OF STRUCTURES OF VARIOUS KINDS HAVE BEEN ERECTED. THE FIELD FOR THIS MATERIAL IS SO LARGE THAT IT WILL BE MANY YEARS BEFORE COMPETITION FORCES PRICES DOWN TO AN UNPROFITABLE BASIS.

At the present time the business is very profitable. Farmers who own a sand bank or gravel pit are starting to manufacture cement building blocks and find a ready sale for them at a very handsome profit. Lumber dealers are buying machines and starting the manufacture of building blocks and find it is a profitable side line for them to handle. Coal dealers, teaming companies, contractors and builders find it is profitable for them to invest in an outfit for making building blocks for their own use and for sale in their community. As in all other business lines, those who grasp the opportunity first will make the most money out of the business. Those who start first and establish a reputation for making good blocks will build up a trade that will pay them a handsome profit for years to come, as the business is now in its infancy. Competent authorities claim that cement blocks will be the chief building material of the future. In many localities contractors now specify a lower price for the cement block building than for one made from wood. The prices will vary according to the price at which the cement and other material can be purchased. In a large part of the United States 5 cents worth of cement will make a block 8x16x8 inches, the standard sized block. The average price at which blocks of this size are sold is from 15 cents to 25 cents each. Some builders claim that at 25 cents each they are cheaper to build with than bricks at \$6.00 per thousand. In order to build up a lasting business on cement blocks, it is absolutely essential that you have a machine that will make good blocks and make them economically. It is absolutely essential that all material be thoroughly mixed, and then it is absolutely essential that the blocks be thoroughly cured after they are made. To make a first class block, it is customary to make the face of a mixture containing one part cement to three parts of sharp sand or finely crushed screened stone. This face should be from one-half to three-quarters of an inch thick. The material for the body of the block is commonly made with one part of cement to five parts of crushed stone or gravel. The material should be thoroughly mixed when dry and not moistened until ready to use. The material should be moistened just enough to mold. If it is too dry it will crumble, and if too wet it will fall down. Care must be taken that the material is solidly tamped into the machine. The block should be left on the pallet as it comes from the machine until it has thoroughly set (from 12 to 24 hours). As soon as the block has set it should be thoroughly sprinkled and kept wet for not less than 48 hours. The sprinkling should be done at least twice a day, or, at any rate, often enough to keep the blocks wet all the time. This is one of the most important points in making good blocks. No matter how good the material, no matter how carefully made, no matter how perfect the machine may be, unless the blocks are properly cured they will, after a time, begin to crumble. Authorities on cement say that cement blocks improve in hardness and strength with age, but they can be used under ordinary conditions in thirty days after being made.

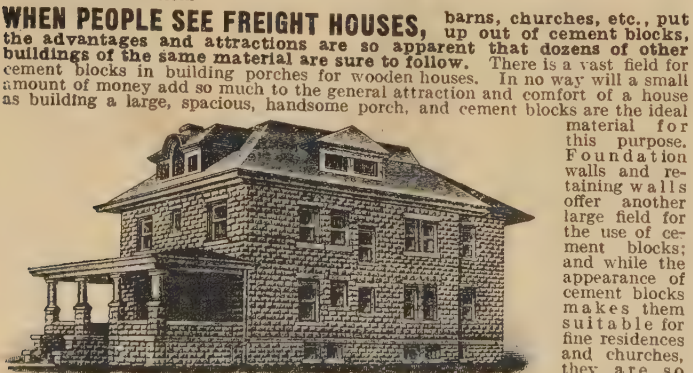

THE CAPS AND SILLS FOR WINDOWS AND DOORS

are common-ly made in wooden molds, made just the right size for the particular job they are intended for. Blocks that go underground are usually made without a facing and solid, without cores. Two men can mix the material and make 150 good blocks per day with our machine. It does not require a brick layer or stone mason to erect a building of cement blocks. Ordinary handy men can build barns, corn cribs and houses of cement blocks, making the blocks themselves. There is an opportunity now to build up a nice business in the manufacture and sale of cement blocks in almost any community in the United States. There is no doubt but in the next year, or two years, there will be one hundred buildings made from cement blocks where there is now one. There will be a constantly increasing demand that will insure a good profit in the business for many years. The future for this industry is extremely brilliant. It will be years before the field is covered or begins to be crowded. If there are persons in your town or locality now making cement blocks, do not let this deter you from entering into this profitable business quickly, for the demand in your section is sure to increase beyond the capacity of those already in the business to produce the blocks, for the cement block industry is today a matter of introduction.

Stylish six room cement block cottage, of low cost, built with X-L-ALL cement blocks. One of the coziest homes in one of Chicago's best suburban towns. Our Buckeye machine will make similar blocks.

When people see freight houses, barns, churches, etc., put the advantages and attractions are so apparent that dozens of other buildings of the same material are sure to follow. There is a vast field for cement blocks in building porches for wooden houses. In no way will a small amount of money add so much to the general attraction and comfort of a house as building a large, spacious, handsome porch, and cement blocks are the ideal material for this purpose. Foundation walls and retaining walls offer another large field for the use of cement blocks; and while the appearance of cement blocks makes them suitable for fine residences and churches, they are so cheap and can be so easily made that farmers are using them for the cheapest buildings, sheds, corn cribs, silos, cisterns and smoke houses as well as barns and residences. On the following pages we illustrate, describe and price the best cement block machines on the market today.

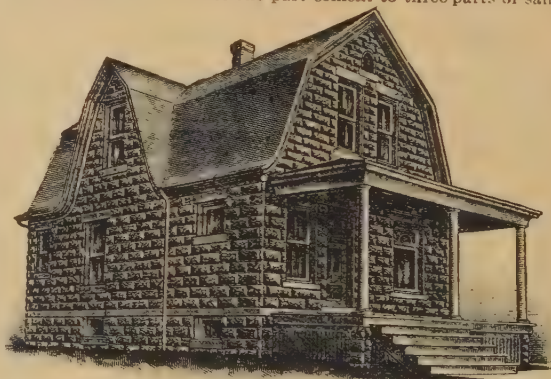

A large, beautiful residence, built entirely of cement blocks made on an X-L-ALL cement block machine, and one of the finest houses in Illinois. Our Buckeye machine will make similar blocks.

The cheapest buildings, sheds, corn cribs, silos, cisterns and smoke houses as well as barns and residences. On the following pages we illustrate, describe and price the best cement block machines on the market today.

A FEW POINTERS REGARDING CEMENT BLOCKS.

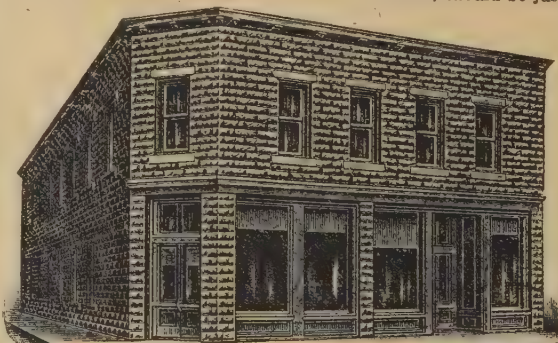

It is generally admitted by authorities on concrete construction

that the best and strongest mixture can be made with materials of different sizes. It will be found that by using coarse gravel or crushed stone, the strength of the block will be greatly improved. A mixture containing one part of cement to five parts of well mixed sand, large and small gravel or crushed stone, will make better blocks than a mixture of one part cement to three parts of sand only. So far as strength is required, mixture containing as little as one part cement to seven or eight parts of gravel, will answer all ordinary requirements, but the blocks made from such mixtures will soak up water and it would not be advisable to use them in the outside walls of a house. There can be no hard and fast rule laid down for mixtures. Every block maker must determine for himself by experiment, just what will give him the best results. Different kinds of materials are used in different parts of the country and an experienced block maker will quickly discover what mixture will make the best block. We simply call attention to the fact that the most expensive mixture will not always make the best block. The concrete when mixed, ready for the machine, should be just

Very attractive seven room cottage, built of cement blocks, made with our X-L-ALL machine. A beautiful home at moderate cost. Our Buckeye machine will make similar blocks.

what will give him the best results. Different kinds of materials are used in different parts of the country and an experienced block maker will quickly discover what mixture will make the best block. We simply call attention to the fact that the most expensive mixture will not always make the best block. The concrete when mixed, ready for the machine, should be just

SEROCO TELEPHONES

70
TO
11¹⁵

Our Compact Cabinet Series or Bridging Seroco Phone.
Prices, \$7.70 to \$10.30, according to style.
See Nos. 48F2101 to 48F2173.

THERE IS NOT A TELEPHONE MADE AT ANY PRICE THAT WILL TALK PLAINER OR FARTHER THAN THE SEROCO. THERE IS NOT A TELEPHONE MADE, AT ANY PRICE, THAT WILL RING AS MANY BELLS ON A LINE OR THAT WILL RING FARTHER THAN THE SEROCO.

AS TO PRICES, WE WANT YOU TO ASK OTHER DEALERS FOR QUOTATIONS BEFORE ORDERING, THEN YOU WILL KNOW THAT WE SAVE YOU MONEY.

ABOUT THE QUALITY. When you buy a telephone, you want to be sure, first, that it is a good telephone. You want to be sure that it is good all the way through; you want to be sure that nothing but the very best materials are used and nothing but the highest class of skilled labor is employed in its construction; you want to be sure that it is mechanically and electrically perfect in every detail, correctly and scientifically designed. That is the first consideration—quality. Second, you want to be sure that you buy it at the right price. There is nothing to be gained simply by paying out more money for an article than it is worth, even if it is good quality.

THERE ARE MANY DEALERS IN TELEPHONES today who pretend to be manufacturers, but who are in reality merely assemblers, purchasing in the open market, wherever they can buy the cheapest, all of the various parts which enter into the construction of a telephone; and these so called "manufacturers" simply assemble these parts, that is, put them together. It is impossible to produce a thoroughly dependable telephone under such a system of manufacturing, because the various parts come first from one source of supply and then another; sometimes they are good; sometimes they are bad. They are always subject to variation, because different manufacturers never produce articles exactly alike, and the purchaser of such a telephone never knows whether he can obtain repair parts, never knows whether he can replace a worn out or broken part, and in the long run such a telephone is a very expensive instrument, regardless of the original cost.

THE SEROCO TELEPHONES are made complete from start to finish in one factory; the generator, the even the smallest screws, washers, etc., which enter into its construction are all made in the same factory. Every part of the Seroco Telephone is interchangeable, and we can furnish at any time in the future exact duplicates of every part. We can replace at any time any part that may wear out in service or become damaged in any way. **ALL OUR MATERIALS** are bought months in advance, to guard against possible delays, and lumber is all thoroughly seasoned for months and kiln dried before it is made up into cabinets. Our carbon and steel are imported direct from Europe and shipped from the Atlantic seaboard by an all water route to secure the lowest possible freight charges. Every lot of new material as it comes to the factory is chemically tested before acceptance. The workmen engaged in the construction of the Seroco Telephones are men of the highest degree of skill; men of long and practical experience in telephone work.

TESTING. Every one of the Seroco Telephones is tested before it leaves the factory, in ten different ways, by ten different electrical experts. Not a telephone is allowed to leave the factory that does not test better by 25 per cent than the standard established by the National Interstate Telephone Association. The fact that every part of the Seroco Telephone is made complete in the one factory, under the general supervision of one man, gives us absolute control of every part and enables us to maintain this very high standard of excellence, something which no manufacturer can do who is compelled to depend upon outside manufacturers for parts of his telephone.

PROMPT DELIVERIES. We carry in stock here at our store in Chicago the largest stock of telephones that is carried by any dealer or manufacturer in the United States. We have on hand at all times, boxed, packed and ready for shipment from 1,500 to 2,000 telephones, and we have arrangements with the factory under which we receive shipments of new stock daily, thus keeping our stock rooms full at all times and enabling us to fill all orders promptly.

SIMPLICITY OF CONSTRUCTION.

The Seroco Telephones are made with the greatest possible simplicity, all complicated parts having been eliminated. They are easy to put up and they are easy to keep in order after they are put up. They are equally easy to repair in case of accident or damage. Simplicity of construction in the telephone means simplicity of construction of the line. Anyone can put up a telephone line and install our instruments. There is nothing complicated, nothing hard to understand about it. No expert knowledge of electrical matters, no skill as a telephone man is required. The instruments are simple; they are made right in every way; they reach you in perfect order, and with the easily understood and simple directions which we send with every instrument it is easy for anyone, without the slightest previous experience, to put up a line and install the instruments satisfactorily.

ABOUT OUR PRICES. Our prices are lower than the prices made by any other telephone manufacturer or dealer, because, first, we are satisfied with a very much smaller percentage of profit, selling telephones on exactly the same small percentage of profit that we figure to make on the most staple merchandise; secondly, because the cost to us is figured on a basis of actual shop cost, without one cent added for general overhead expenses, which must be added to the cost of telephones marketed in the usual way. The factory which makes our telephones does no advertising, employs no salesmen, thus entirely eliminating all selling, collecting and other general expenses.

OUR GUARANTEE. As the astonishing low prices which we make on Seroco Telephones may, in spite of our explanation, lead some to doubt the high quality of the goods, we send out with every telephone our signed guarantee, under the terms of which we become responsible for the quality, material and workmanship of every telephone we sell. Remember that our guarantee means something, because Sears, Roebuck & Co., with their fully paid capital and surplus of over Five Million Dollars, stand back of it. Remember that the guarantee issued by unknown and financially weak concerns, who may be out of business six months after you buy their telephone, is not worth the paper it is written on.

OUR TWELVE MONTHS' FREE TRIAL OFFER. You may return to us, at our expense, at any time within one year from the time you receive your shipment, any Seroco Telephone not found entirely satisfactory in every way, mechanically and electrically perfect, and we will refund your money, together with any express or freight charges you may have paid. If there are any weak points in a telephone they will certainly show up within a year, so you assume no risk whatever in sending us your order for telephones.

OUR BIG FREE TELEPHONE CATALOGUE which we will be glad to send you free, tells all about the details of the Seroco Telephones, all about the transmitters, the receivers, the switch hooks, the ringers, the generators, the lightning arresters, and the cabinets. Explains in detail just how our instruments are made and why we can sell a better telephone for less money than anyone else.

While we will gladly send you this free telephone catalogue, you need not delay to write for it, but you can order direct from these pages, which show our complete line at lowest prices. We accept your order with the understanding and agreement that if you are not fully satisfied with the goods, if you don't find our telephones the highest grade instruments in every respect and if you don't find we have saved you a great deal of money, you can return the goods at our expense and we will promptly return all the money you sent us.

WANTS SEVENTEEN MORE.

Sears, Roebuck & Co., Chicago, Ill. Clinton, Ky.
Gentlemen—I recently ordered of you twenty telephones and they are highly satisfactory. I now order seventeen more just like the others—Five-Magnet Bridging, 1800-ohm ringer with double battery cabinet.
Yours truly,
E. T. SPICER.

LET US QUOTE YOU ON A SWITCHBOARD. WE CAN SAVE YOU MONEY.

RINGS FORTY BOXES WITH OUR PHONE.

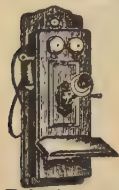

Sears, Roebuck & Co., Chicago, Ill. Chico, Texas.
Gentlemen:—Our boxes came last week and I think that the goods are the best I ever saw by odds. Two of the parties on the line would not let me send their order. Sent theirs to _____ and can't ring Central with only six boxes on the line, and we have runs forty with the Seroco.
Yours very truly,
W. B. NORWOOD.

BEST HE EVER SAW.

Sears, Roebuck & Co., Chicago, Ill. Coleman, Ga.
Gentlemen:—The lot of telephones which I received from you are the best that I ever saw. I don't want any other kind. Please let me know what you can sell me your express switchboard at with 100 drop capacity, and rigged up with forty drops to best work.
Yours truly,
C. A. BROWN.

Seroco Series Telephones.

Our Seroco Series Telephones are made with 50-ohm ringers and powerful series generators guaranteed to ring through 25,000 ohms resistance. This generator is made with extra long heavy laminated armature wound with silk insulated wire, wide noiseless gear and automatic shunt, highest grade bi-polar receiver, long distance solid back transmitter, self contained long lever switch hook and two-path lightning arrester and switch. The best series telephone that can be made regardless of price.

Series Telephone with Compact Cabinet.

No. 48F2101 Series Telephone, as described above, with latest style compact cabinet. Price, each.....\$ 7.70
Per dozen..... 88.70

Series Telephone with Double Battery Cabinet.

No. 48F2106 Series Telephone, as described above, with large double battery cabinet. Price, each.....\$ 8.20
Per dozen..... 94.25
Two dry batteries are included with each series telephone at above prices. If wet batteries are wanted instead of dry batteries add 26 cents to the price of each phone. Wet batteries can be used only with the double battery cabinet. Weight of one telephone when packed, about 50 pounds.

Seroco Bridging Telephones.

These telephones are used on party lines where a number of instruments are installed, and no switchboard or central office is necessary. Our bridging telephones are equipped with a special high grade ringer, designed especially for bridging work, and extra powerful four-magnet or five-magnet generators. The generators, transmitters, receivers, ringers, switch hooks, lightning arresters and cabinets are all of the highest grade. We guarantee our bridging telephones to be the best that skilled labor, money and expert electrical knowledge can produce.

Four-magnet Bridging Telephones.

These telephones, equipped with four-magnet generators, are adapted to party lines having twenty or less instruments.

OUTFIT

Harvard Jr. YOUR OWN
TALKING MACHINE AND SELECTION
OF
SUBJECTS.

COLUMBIA P RECORDS
FROM LIST ON PAGES
652 AND 653.

THE NEW HARVARD
JR. TALKING MA-
CHINE is a strictly high
class talking
machine for reproducing
standard size wax cylin-
der records. It is a thor-

oughly well made machine and not to be compared in any way with the cheap machines which have been so extensively advertised recently. It is a high class machine, made in America, made by expert and experienced workmen in one of the largest and most successful talking machine factories in the world. It is made of good materials throughout, fitted with a high class spring motor, with machine cut gears, everything about it strong and substantial. It is made with patent feed device which holds the reproducer firmly in place as it travels along over the surface of the record. There are cheap talking machines made without feed device, and with such machines the reproducer slips and slides off the surface of the record, but this trouble is entirely prevented in the Harvard Jr. Talking Machine, as the reproducer is held firmly and guided in its course over the surface of the record by the patent feed device, exactly the same as the highest priced machines. This machine is made with heavy, solid and substantial iron base, finished in black enamel, with gold stripe decorations. It is made with standard size tapered mandrel, and will use any standard size of wax cylinder record, Columbia, Edison or any other standard make.

THE REPRODUCTION OF THE HUMAN VOICE OR OF INSTRUMENTAL MUSIC, as rendered by the Harvard Jr. Talking Machine, is just exactly as good as with machines costing ten and fifteen times the price which we

ask for this machine. It is made with a high grade, aluminum, style D 1 reproducer, with mica diaphragm and Brazilian sapphire reproducing point. It is equipped with fine black enamel finish, the bell made of solid brass, highly polished, giving the machine a most handsome and ornamental appearance. The tone qualities of this large black and gold horn are unexcelled, adding greatly to the volume of sound and naturalness and sweetness of tone. 25 GENUINE COLUMBIA WAX CYLINDER STANDARD SIZE P RECORDS are furnished with this outfit, the exact same records which for years were sold at 50 cents each. and today are offered as great bargains at 25 cents each.

YOUR OWN SELECTION OF RECORDS. You can pick out your own list of records, any 25 selections from the big list of Columbia P Records on pages 652 and 653. Do not ask us to send records from other lists, because we can only make up these outfits from the list given on pages 652 and 653. You can leave the selections to us if you prefer and thus get the benefit of our experience and personal knowledge of each record in the big list, and if you leave the selection to us we can assure you that you will receive the finest possible assortment. Remember, our price, \$7.90, includes the 25 Columbia P Records, the Harvard Jr. Talking Machine complete with clock work motor, style D 1 aluminum reproducer, large black and gold horn, an outfit that a few months ago could not have been purchased for less than \$30.00, and which even today in the ordinary market would cost any purchaser \$14.25. Our special price, \$7.90.

No. 21F101 The Harvard Jr. Talking Machine and 25 records, your own selection, from pages 652 and 653, just as shown in the illustration and described above, all packed securely. Price... \$7.90

\$10.75 BUYS 50 COLUMBIA P RECORDS AND A HARVARD JR. TALKING MACHINE.

ONE MILLION RECORDS. We have contracted with the largest manufacturer of records in the world to furnish us for these outfits one million high class standard size wax cylinder records, genuine Columbia P Records, the exact same records that have for years been sold at 50 cents, and today cannot be purchased in any other market for less than 25 cents each. By contracting for this enormous quantity of one million records (more than fifty car loads), the largest order ever placed for talking machine records by any dealer anywhere in the world, we have succeeded in reducing the cost to us to just the merest fraction over the actual cost of labor and materials, the lowest cost at which high class graphophone records have ever been purchased by any dealer, and in making up these outfits, consisting of the HARVARD JR. TALKING MACHINE AND FIFTY OF THESE HIGH CLASS STANDARD SIZE RECORDS, AT \$10.75, we are giving you the benefit of the saving which we effect by means of our tremendous purchasing power.

THE HARVARD JR. TALKING MACHINE is not a toy. It is a high class machine, a machine that cannot be purchased in the ordinary market at less than double our price. Made of good materials all the way through, strong and substantial, easy to operate, made with fine clock work motor, automatic feed device and extra large black and gold horn.

YOU CAN SELECT YOUR OWN RECORDS

for this big outfit. We want you to get the exact titles and selections that you prefer when you order this big outfit, and on pages 652 and 653 you will find a complete list of the records which we include with these outfits. Make yours. Remember, we do not furnish any of the records shown on other pages with these outfits. You must make your selection from pages 652 and 653, the genuine Columbia standard size wax cylinder P records.

WE ALLOW YOU TO SELECT ANY RECORDS YOU DESIRE

In this outfit, provided the selection is made from pages 652 and 653. Understand, if the records for these outfits are selected from any other list or any other page we will be compelled to put up the outfit with our own selection of records. If you leave the selection to us we will give you the very cream of the best titles from our enormous stock of 1,000,000 high class records.

No. 21F102 The Harvard Jr. Talking Machine Outfit, complete with 50 genuine Columbia standard size wax cylinder P records, your own selection of subjects from pages 652 and 653. Price, complete,.... \$10.75

THIS PRACTICAL WELL MADE TALKING MACHINE is designed by the makers to sell for \$12.00, thousands of them have been sold at \$12.00 and they are worth \$12.00 to anyone who wants a thoroughly serviceable, dependable machine.

THE HARVARD SENIOR TALKING MACHINE is an exceedingly handsome machine, thoroughly well made in every respect and perfectly finished. The operating power is furnished by a powerful spring motor guaranteed not to get out of order. The Gears and Pinions are all machine cut, thus insuring perfect accuracy of action. The Governor and Tension Screw effectively maintain the speed at an absolutely uniform rate. Large Size Reproducer, extra loud, made from aluminum, with sapphire reproducing point and latest improved mica diaphragm.

THIS TALKING MACHINE is substantially mounted on a handsome oak base with highly finished bent oak cover with handle, thus forming in itself a convenient and effective carrying case for the machine.

THE BIG HANDSOME FLOWER HORN Machine is equipped, adds immensely to the beauty and appearance of this outfit, and gives to the reproduction a tone quality, a genuine musical quality, heretofore possessed only by the highest priced machines. Not until you have heard this outfit can you appreciate the wonderful power, the softness, the sweetness and the volume of sound, the marvelously exact reproduction of the human voice and instrumental music of all kinds, even the largest bands and orchestras. It sings, it talks, it plays, it laughs, and all so naturally that it seems impossible that it can be a mere machine.

THE GREATEST ENTERTAINER IN THE WORLD. Nothing equals the talking machine as an entertainer. It brings to your home the same musicians, the same entertainers, the same

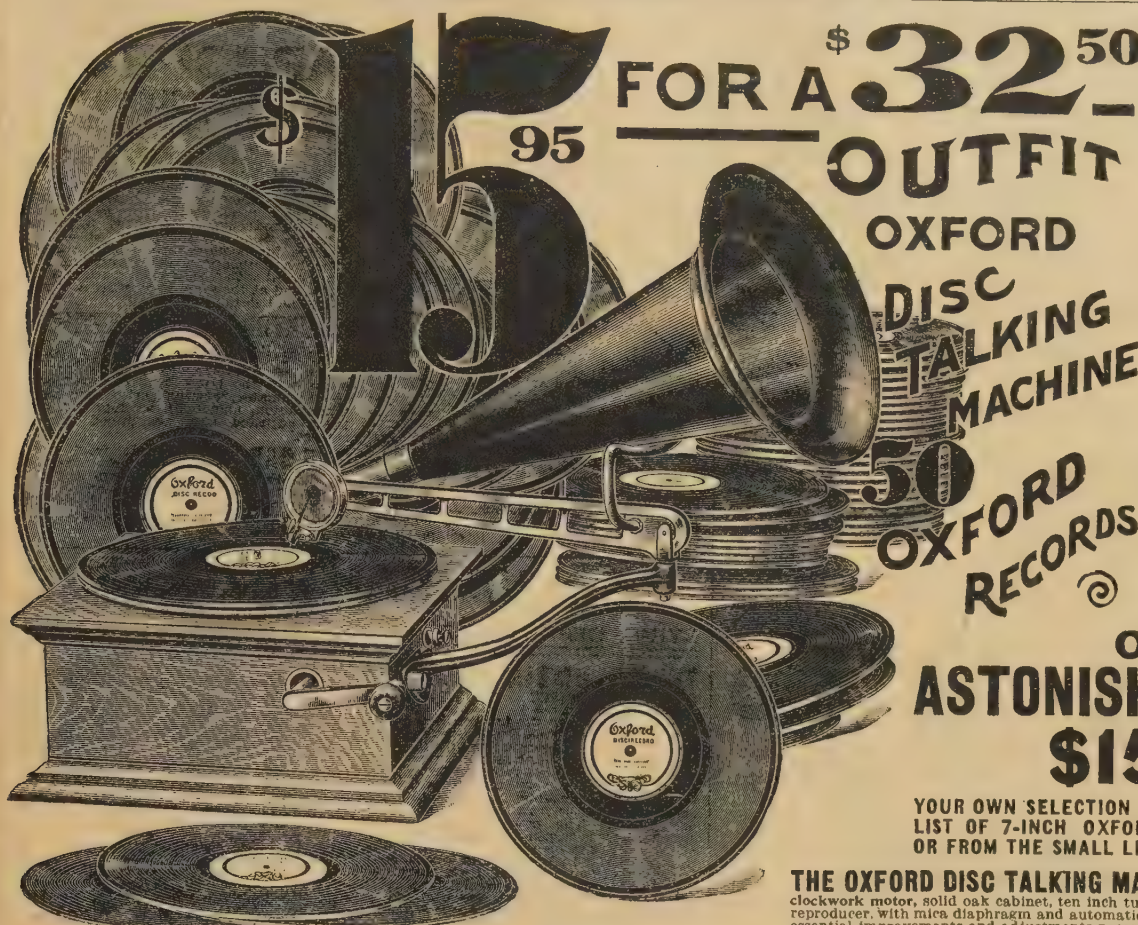

great bands and orchestras that amuse, delight and entertain great audiences in our most famous theatres. You can sing to its accompaniment, you can dance to its music, you can play to its songs.

YOU CAN SELECT YOUR OWN RECORDS. The 25 Records included Senior Flower Horn Outfit are the famous Columbia P Records, with this wonderful Harvard records and you can make your own selection of titles from the big list given on pages 652 and 653, or from the smaller list right on this page. You can pick out any selections you want, vocal solos, quartettes, bands, orchestras, instrumental solos, vaudeville and talking that you make your selection from the Columbia P Records, from the list given on pages 652 and 653.

HARVARD SENIOR TALKING MACHINE OUTFIT, complete, just as described on this page, the Harvard Senior Talking Machine with oak case, large flower horn, folding stand and 25 genuine P records. Your own selection of subjects from pages 652 and 653. If you prefer to leave the selection of records to us we will give you the very finest assortment afforded by our stock of more than 1,000,000 records, and by leaving it to us you may get an even more desirable collection than you would by selecting each title for yourself. Shipping weight, 60 pounds.

LIST OF 7-INCH OXFORD RECORDS ON PAGE 646,
OR FROM THE SMALL LIST ON THIS PAGE.

THE OXFORD DISC TALKING MACHINE is a regular \$15.00 talking machine, made with fine clockwork motor, solid oak cabinet, ten inch turn table, latest style sound analyzing reproducer with mica diaphragm and automatic spring needle holder, in short, all the essential improvements and adjustments necessary to the most perfect reproduction of sound.

THE POWERFUL SPRING MOTOR

is exactly the same type of motor used on the highest priced talking machines and music boxes, made with accurately cut brass gears.

rolled steel frame, improved governor and the most perfect speed regulating device. The mechanism is entirely protected from dust or

fatigue by the cabinet which incloses it, practically dustproof, so that it requires no attention whatever.

This List shows a few of the selections you can include with the Oxford Outfit. You can make your selection right from this list. But we also urge you to refer to the Complete List of 7-Inch Oxford Records on page 646.

THESE DISC RECORDS ARE MORE NATURAL, sweeter toned, louder and clearer than any other records on the market today, regardless of price. If you have been accustomed to the old style talking machines, with the old style scratchy, unnatural records which are found today in so many homes, you will feel, when you listen to the Oxford Talking Machine with the magnificent Oxford disc records, that you have never before heard a real talking machine, a machine with real musical quality.

REMEMBER, this big outfit consists of the Oxford Disc Talking Machine complete, with a powerful spring motor, clock work motor, sound analyzing reproducer and 16-inch turntable, fifty genuine Oxford records, 7-inch size, your own selection of subjects from the list of 7-inch Oxford records given on page 646.

FIFTY NEW OXFORD DISC RECORDS, 7-inch size, are included with this outfit. Fifty magnificent records, your own selection of subjects, vocal solos, quartettes, band selections, orchestra selections, talking, specialty and vaudeville selections, anything that you may desire. Make your selection from the big list of Oxford records given on page 646.

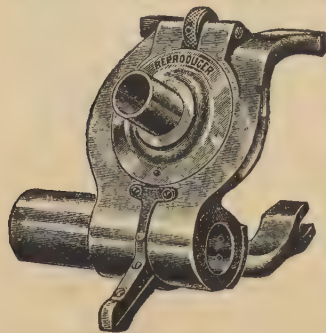

WE HAVE HUNDREDS OF THOUSANDS OF OXFORD RECORDS

in stock, all new and up to date selections, and while we will be glad to make up this outfit from your own list of titles, any selections you may prefer, provided, only, that your selection is made from the big list of 7-inch Oxford records given on page 646, we really believe that you will get a finer assortment, a collection that will include more extra fine selections if you leave the choice to us. Our stock is so large, and so many new selections are constantly coming in, that it is possible for us, knowing the merit of each record, to pick out unusually good assortments for those who leave the selection to us.

No. 212116 Oxford Talking Machine Outfit complete, just as illustrated and described on this page, regular Oxford Disc Talking Machine and 50 Oxford 7-inch records, your own selection of subjects from the list on page 646. Price, complete... **\$18.95**

No. 212117 Oxford Talking Machine Outfit, same as No. 212116, but with 10-inch records instead of 7-inch. Regular Oxford Disc Talking Machine and 50 10-inch Oxford Records. Make your selection of subjects from pages 646 to 648. Subjects on this page are not made in 10-inch size. Price, complete... **\$19.85**

THE NEW LYRIC REPRODUCER

THE REPRODUCER is the most important machine. The tone, the volume of sound, the clearness of reproduction, all depend upon the reproducer. No matter how perfect the machine may be in other respects, it cannot reproduce the record in the best possible way unless it is equipped with the very best reproducer.

THE IMPROVED LYRIC TONE REPRODUCER is the very latest and most perfect reproducer yet invented. It is made upon an entirely new scientific idea in the reproduction of sound, and results in greatly improved reproduction. If you have not heard the "New Lyric Tone" you have no idea how perfectly it is possible for a cylinder record graphophone to reproduce the human voice or instrumental music.

THIS ILLUSTRATION will give you some idea of the appearance of the new Lyric Tone Reproducer, which in its general construction is entirely different from all reproducers in use heretofore. It is made with the very highest grade genuine sapphire reproducing point, which by most of the surface of the record at exactly the same time.

ingenious arrangement is kept pressed against the record at exactly the same time. All of the cylinder record graphophones described on this page, the Jewel at \$20.00, the Leader at \$30.00, and the Peerless at \$40.00, are equipped with this magnificent new Lyric Tone Reproducer.

WE DO NOT SELL THIS REPRODUCER SEPARATELY, because it cannot be used on any of the ordinary types of machines, but is suitable only for use with the Jewel, the Leader and the Peerless machines; and these machines all come equipped with this reproducer.

UNDERSTAND, if you buy any one of the Cylinder Record Graphophones described on this page, the Jewel, the Leader or the Peerless, you get a machine equipped with the new lyric tone reproducer.

COLUMBIA LEADER = LYRIC = GRAPHOPHONE

THE COLUMBIA LEADER GRAPHOPHONE, TYPE B E,

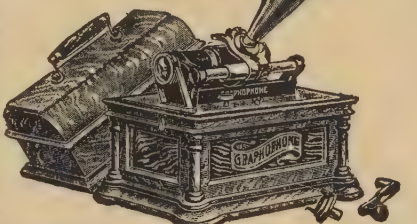

for cylinder records, is equipped with the new Lyric Tone Reproducer, the very highest grade and the most perfect reproducer made, exactly as described and shown in the illustration on this page. This reproducer works perfectly with any style or make of wax cylinder record reproducing all records with greater volume of sound, greater clearness and with more natural tone than any other reproducer made.

THE MOTOR in the Columbia Leader Graphophone is an extra powerful triple spring clock work motor, guaranteed to run four records with one winding and made with the latest style of speed regulating device and governor. This motor has extra long winding crank, special machine cut gears, in short everything that will contribute to uniformity of speed, smoothness of operation and freedom from liability to get out of order.

THE CABINET is extra large and ornamental, of very handsome design, made from solid quarter sawed oak, beautifully finished, with fine bent oak cover, just as shown in our illustration. An extra sensitive recorder, made of the same style and upon the same principle as the new Lyric Tone reproducer, is furnished with this machine, enabling the user to make his own records and greatly increasing the pleasure to be derived from a talking machine.

No. 21F126 The Columbia Leader Lyric Reproducer Graphophone, type B E, complete, just as shown in our illustration, with lyric tone reproducer, extra sensitive recorder, handsome bent oak cover and 14-inch solid brass horn. Price\$30.00
Shipping weight, 40 pounds.

\$30.00

COLUMBIA JEWEL

LYRIC REPRODUCER GRAPHOPHONE

\$20.00

THE COLUMBIA JEWEL GRAPHOPHONE TYPE B K

is equipped with the improved Lyric Tone Reproducer, exactly the same reproducer described and shown in the illustration on this page, made with genuine sapphire reproducing point. This high grade Columbia Jewel Graphophone is an ideal machine for home entertainment, a genuine Columbia Graphophone of the very latest type constructed with a view to strength and durability, and at the same time with a view to beauty and elegance of design.

AN EXTRA POWERFUL TANDEM SPRING MOTOR furnishes the power for operating this Columbia Jewel Graphophone, and this motor is made with the latest type of governor and speed regulator, insuring perfect and natural reproduction, made with machine cut gears, finely adjusted and guaranteed in every respect.

THE CABINET is made from quarter sawed oak, finely finished, with the best workmanship throughout and provided with a handsome bent oak top or cover, as shown in our illustration. No. 21F122 Columbia Jewel Graphophone, type B K, complete with Lyric Tone reproducer, 14-inch brass horn and bent oak cover. Price\$20.00
Shipping weight, 45 pounds.

COLUMBIA PEERLESS LYRIC REPRODUCER GRAPHOPHONE

THE COLUMBIA PEERLESS GRAPHOPHONE, TYPE B F,

\$40.00

like the Jewel and the Leader, is equipped with the new Lyric Tone Reproducer, with genuine sapphire reproducing point, but is a larger, more ornamental and more powerful machine. The cabinet is made of solid quarter sawed oak, of very elaborate and handsome design, beautifully finished, highly polished, making the machine an ornament to any parlor. The powerful quadruple spring motor is suspended from the top of the cabinet in such a way as to completely avoid all vibration, and is so constructed that it can be wound while playing. Provided with four powerful springs, this motor will play eight or more of the ordinary cylinder records with one winding. It is provided with extra long winding crank, accurately cut gears, the most approved style of speed regulating and governing devices, provided with easily accessible oil cups, in short, a motor that will give good results all the time with the least possible danger of becoming out of order.

AN EXTRA SENSITIVE RE-RECORDER with genuine sapphire recording point is furnished with this graphophone, enabling the owner of this Peerless machine to make records as well as to reproduce those which may be purchased.

No. 21F128 Columbia Peerless Lyric Tone Reproducer, type B F, Graphophone complete with Lyric Tone reproducer, extra sensitive recorder, bent oak cover and 14-inch brass horn. Price\$40.00
(Shipping weight, 50 pounds)

NEW COLUMBIA ALUMINUM TONE ARM GRAPHOPHONES CHAMPION, \$30.00. COLUMBIA CHAMPION DISC GRAPHOPHONE. STERLING, 45.00.

sawed oak, with dark finish, highly polished, handsome and ornamental design. It is fitted with a 10-inch turntable, making the machine suitable for disc records of any size.

THE REPRODUCER is the latest Columbia, knife edge, sound analyzing style, made in inserted or removed simply by pressing a lever.

THE BEAUTIFUL FLORAL HORN adds greatly to the beauty of this instrument. This horn is made of steel, with black enamel satin finish, and gold bands, and is 17 1/2 inches long with 19-inch bell.

No. 21F261 Columbia Champion Type B H Graphophone, complete with aluminum tone arm, sound analyzing reproducer and black satin finish floral horn, just as described above and shown in our illustration. Price, complete,\$30.00
Shipping weight, 40 pounds.

THE NEW ALUMINUM TONE ARM GRAPHOPHONES

represent the latest and highest development in disc talking machines. In these machines the sound is transmitted directly from the reproducer, through the hollow aluminum tone arm, to the horn, securing in this way the greatest possible volume of sound, the greatest beauty and naturalness of tone, and preventing, to a very large extent, the scratching sound sometimes noticed with machines of other styles of construction.

THE MOTOR is noiseless in operation, made with the most perfect speed regulator and governor, fine machine cut gears, made to run noiselessly, uniformly, and so simple in construction that repairs of any kind are very seldom necessary, and can be wound while playing.

THE CABINET is made from solid quarter sawed oak, with dark finish, highly polished, handsome and ornamental design. It is fitted with a 10-inch turntable, making the machine suitable for disc records of any size.

THE COLUMBIA STERLING GRAPHOPHONE

is a still larger, finer and more complete talking machine of the new aluminum tone arm construction, made with extra powerful double spring motor, with worm gear, insuring the most perfect operation, absolute noiselessness, every part fitted with the same care that is used in making a watch.

THE CABINET is very substantially made of solid quarter sawed oak, of very handsome and ornamental design, with piano finish.

THE SOUND ANALYZING REPRODUCER with automatic needle clamp, doing away entirely with the old style thumb screw, the most perfect reproducer made, is included with the Sterling Graphophone.

THE HORN IS OF A BEAUTIFUL FLORAL DESIGN, rising in shape a great morning glory, nickel plated and highly polished throughout, 17 1/2 inches long, with 21 1/4-inch bell, contributing greatly to the perfection of sound reproduction, and adding greatly to the ornamental appearance of the machine.

THE NEW ALUMINUM TONE ARM in talking machines for many years. This type of construction gives the greatest possible volume of sound, the clearest and most natural reproduction, the finest and most perfect musical quality, and does away with the disagreeable scratching sound heretofore noticed in machines of the ordinary style of construction. No. 21F263 Columbia Sterling Type B I Graphophone, complete with aluminum tone arm, sound analyzing reproducer, and nickel plated floral horn, just as described above and shown in our illustration. Price, complete,\$45.00
Shipping weight, 50 pounds.

\$8.75

\$8.75 BUYS THE No. 1 HARVARD DISC TALKING MACHINE

THIS TALKING MACHINE uses the wonderful disc records, the most marvelously realistic reproductions of sound ever made. This machine is strictly high grade in every respect, made from the very best materials, constructed in the most careful, accurate and substantial manner, exactly the same machine that is being sold today by other dealers for \$15.00, and never before sold for less than \$15.00. **THIS DISC TALKING MACHINE** is made with extra powerful clockwork spring motor, made with machine cut bevels and gears, and an improved form of governor, insuring an absolutely uniform rate of speed. **THE MECHANISM** is entirely enclosed within the case in such a way that it is perfectly protected from dust or injury and will require practically no attention whatever.

THE CABINET is strongly and substantially constructed from solid oak, made in a very handsome design and finely finished.

THE SOUND BOX, also known as the reproducer, is of an improved type, made with the latest mica diaphragm, producing a volume of sound combined with a fullness and roundness of tone which is a revelation to those accustomed to the ordinary wax cylinder talking machines. **THE NEW PROCESS HARVARD OR COLUMBIA DISC RECORDS,** THE GREATEST IMPROVEMENT IN RECORD MAKING SINCE THE INVENTION OF TALKING MACHINES.

THE DISC RECORDS ARE LOUDER AND CLEARER, and the reproduction is more perfect and more absolutely true to the original sound than has ever before been produced by any process. Those who have been accustomed to hearing the ordinary talking machine and the ordinary wax cylinder records will be astounded when listening for the first time to the latest new process disc records as used by this and our other disc machines.

FOR PUBLIC EXHIBITION WORK the disc machine is the only machine that should ever be used, as it is the only talking machine which reproduces the human voice, bands, orchestras and other instrumental music with sufficient volume, musical quality and absolutely perfect fidelity. **TO BE APPRECIATED.** It is impossible for anyone not having heard these wonderful machines to appreciate in any way the marvelous results which they give.

No. 21F207 No. 1 Harvard Disc Talking Machine, complete, as shown in illustration, with 16-inch japanned horn, improved sound box and 100 needles. Shipping weight, 28 pounds. Price, **\$8.75**

THE HARVARD TALKING MACHINES USE EITHER SIZE OF HARVARD RECORDS, COLUMBIA RECORDS, OXFORD RECORDS, OR ANY OTHER MAKE OF 7-INCH OR 10-INCH DISC RECORDS.

LATEST 1907 MODEL No. 3A HARVARD DISC TALKING MACHINE, \$14.90

Don't Miss Our Big Sale of
Genuine Harvard 7-inch and 10-inch
Disc Records
at 28c and 52c each.

For complete list of selections see pages 648 to 650. This Harvard Graphophone uses the Harvard Records, the Columbia Records, either 7-inch or 10-inch, or any other style of flat disc records.

THE No. 3A HARVARD DISC TALKING MACHINE

is similar in principle to our No 1 Harvard, but is a larger and finer machine, made with a larger horn, a larger, more substantial and more ornamental cabinet, and a larger and more powerful clockwork spring motor. We have designed this machine especially to meet the ideas of those who desire a somewhat better, larger and handsomer machine than the No. 1 Harvard Machine, and we have been able, in spite of the increased cost and the improvements made in this machine, to keep the price down to a figure within the reach of almost anyone.

THE POWERFUL SPRING MOTOR with which we equip the No. 3A Harvard Machine is the highest grade spring motor made for talking machines. It is made with machine cut gears, the latest type of governor and the most approved style of speed regulating device. It is a motor that we can absolutely guarantee to give satisfaction under any conditions.

THE SOUND BOX OR REPRODUCER is of the very latest type, designed expressly for the Harvard Talking Machines, made with extra heavy mica diaphragm, a sound box that is equal in volume sweetness and perfect reproduction to any sound box with which it may be compared. This reproducer is made with the latest automatic needle clamp, by which needles are inserted or removed simply by pressing a little lever, doing away entirely with the annoyance of the old style thumb screw arrangement.

THE CABINET with which we equip the No. 3A Harvard Disc Talking Machine is workmanship and material guaranteed in every way. In design this cabinet is very handsome, making the machine an ornamental addition to any parlor.

THE BLACK AND GOLD HORN is the same high grade horn that we use on all of the Harvard Machines, made of the best sheet steel, with solid brass bell, finished in black and gold, of large size, 21 inches long.

No. 21F282 No. 3A Harvard Disc Talking Machine, all complete, with 21-inch black and gold horn, improved sound box and 100 needles.

Price..... **\$14.90**
Shipping weight, 40 pounds.

LATEST 1907 MODEL No. 4 HARVARD DISC TALKING MACHINE, \$17.40

THIS IS THE HIGHEST GRADE HARVARD DISC TALKING MACHINE that we make, a machine that is equal in every way to disc talking machines sold by other dealers at from \$30.00 to \$40.00.

THE CABINET OF THE No. 4 HARVARD DISC TALKING MACHINE is in every way a beautiful piece of work, made from solid quarter sawed oak especially selected, thoroughly kiln dried and put together by high class experienced workmen. It is made with a five-ply, built up top, hand turned decorations and lock cornered mitred moulding. The finish is the highest grade dead oil hand rubbed finish, a finish that is not only pleasing in appearance, but at the same time durable.

THE MOTOR is an extra powerful tandem spring clockwork of the very latest type, made with machine cut gears, latest improved governor and patented speed regulating device.

THE SOUND BOX is our highest grade mica diaphragm Harvard reproducer, unsurpassed by any reproducer or sound box on the market in volume, naturalness of tone and freedom from scratch. This reproducer is made with the latest automatic needle clamp, by which needles are inserted or removed simply by pressing a little lever, doing away entirely with the annoyance of the old style thumb screw arrangement.

THE HORN is the same high grade black and gold horn with which we equip all of the Harvard Machines and is the largest size which we use on this line of machines, measuring 30 inches in length with bell 12 inches in diameter. This horn is made with solid sheet steel body, oxidized in black, with solid brass bell highly burnished.

IN APPEARANCE, SIZE, BEAUTY OF DESIGN, elegance of finish, and in all those points which mean quality and satisfaction in a talking machine, the No. 4 Harvard Machine is in every way equal and in most respects superior to disc talking machines sold by other dealers at more than double our price.

No. 21F284 No. 4 Harvard Disc Talking Machine, all complete, with solid oak highly ornamental cabinet, extra large 30-inch black and gold horn, improved Harvard sound box and 100 needles. Shipping weight 60 pounds. Price..... **\$17.40**

REMEMBER.

This No. 4 Harvard Machine

USES OUR FAMOUS

28-CENT HARVARD RECORDS.

For complete list of selections, see page 648.

This machine runs five 7-inch records or three 10-inch records with one winding.

Besides the Harvard Records, this machine, and all other Harvard machines described on this page, use any style, any size or any make of flat disc records.

OXFORD DISC RECORDS.

7-inch, 19 cents each, \$2.15 per dozen.

10-inch, 28 cents each, \$3.20 per dozen.

THE NEW OXFORD DISC RECORDS OFFERED THIS SEASON FOR THE FIRST TIME, AND SOLD ONLY BY US, ARE THE BEST VALUE EVER OFFERED in the way of high class disc records.

THE HIGH PRICES at which disc records have always been sold by dealers and manufacturers have been due entirely to patents on the process of a gramophone to pay tribute to the former owners of the disc record patents. The time limit on these patents has expired and the making of high class disc records by the most approved processes is now open to the world.

THE LOW PRICES at which we are able to offer the Oxford Disc Records may lead some to doubt their high quality. Many who have been accustomed to paying 50 cents for 7-inch and \$1.00 each for 10-inch disc records may think that perhaps the new Oxford disc records are only a small fraction of the 7-inch and only 28 cents each for the 10-inch may not be as good as the records which they have been accustomed to buying. But this enormous reduction in the price of disc records is made possible first, by the fact that the patents on these goods have expired, and secondly, the fact that we handle these records on exactly the same small percentage of profit plan upon which we sell the most staple merchandise. We do not need to make a big profit on records. Our sales are so enormous, not only in this line, but in all other lines of merchandise, that we can

afford to be content with an exceedingly small percentage of profit, and as a result of the elimination of the former patentees' profit on the records and our ability to sell records on our regular staple merchandise small profit plan, we can offer the Oxford Disc records, the very highest grade disc records that can be made, at prices which have heretofore been absolutely impossible.

THE MASTERS from which the Oxford disc records are made, are produced in New York City, in one of the most completely equipped laboratories for sound reproduction, situated in the heart of the theater district, where the very best artists, the best singers, the best speakers, the best entertainers of all classes are always at hand. In making good records, it is essential to employ good artists, and as there is no city in the world where there are so many good artists to be had as in New York, the laboratory for making the Oxford record masters has been located there.

THE MATERIAL from which a disc record is made is also a most important consideration. The best material naturally produces the finest results, and in the making of the Oxford disc records we use the very best material that it is possible to procure.

EVERY OXFORD DISC RECORD that we sell is sent out with the express understanding and agreement on our part, that if it does not meet with your entire approval, if it does not prove satisfactory in every way, it may be returned to us at our expense, and your money will be refunded.

LIST OF SEVEN-INCH OXFORD DISC RECORDS

11891 Shogun Selections
11893 Star Spang'd Banner
11894 Stars and Stripes Forever
11895 Radium March
11896 The Watch on the Rhine
11897 The Free Lance March
11898 Tannhauser
11901 Yankee Patrol
11905 Ensemble of Helen, from Faust
11905 Finale to Aida
11907 Prelude to Overture of Traviata
11928 Ballet (from Faust) 1st suite

BANJO SOLOS

In the following selections the banjo is played with such consummate skill that it is difficult in cold type to give an adequate idea of the brilliancy and beauty of the records

- 11826 Creole Belles
11827 Colored Major
11828 El Capitán
11830 Hunky Dory
11834 Tell Me, Pretty Maiden, are there any more at home like you
11835 Whistling Rufus

Some of the above records are very ludicrous, and whenever a negro specialty is introduced it is true to life in every detail

CHIMES

The following records are magnificent reproductions. It is wonderful how clear and sweet the notes are recorded, and you could easily believe that you are standing in the nave of a cathedral listening to the master bell ringer.

- 11837 America
11838 Lead, Kindly Light
11840 Rock of Ages

ORCHESTRA

These orchestra selections are magnificent examples of what a trained orchestra can produce. The artists have been grouped so that the notes blend perfectly and the results are marvelously clear, full and beautiful.

- 11675 Holy City
11439 Would You Care?
Yet at times I often wonder
Would you care, if I'd dare
11440 In the Shade of the Old Apple Tree (The season's hit)

- 11441 Violette
For they'll tell a tale so brave, of a lonely little grave,
And the message that he gave to Violette
11442 Pleno for Two
The girl's head was bowed,
The moon hid 'neath a cloud.
11443 Goodbye, Sweet Marie
I'll break the fighting line like you
broke this heart of mine
11444 Mamma's Boy
11447 I've Set My Heart on You
Now, why do you keep hanging 'round? says she,
You must have met girls fairer than me.
11481 When the Bees are in the Hive
Her cheeks were like the first red rose of June
11482 Please Come and Play in My Yard
Two little girls with two little curls
were living side by side.
11484 My Gal Sal
11485 Bright Eyes
Soldiers in line are falling,
Ye come to say good bye.
11486 He Looks Just Like His Mother
Sometimes I think I'll thrash him,
for he needs it very bad,
But, then, somehow, I never could chastise the little lad.
11487 A Little Boy Called Taps
A new march song written by the writers of the famous Blue Bell
11488 When the Sunset Turns the Ocean's Blue to Gold
11491 Bunker Hill
Where so many heroes fell,
I'm Trying so Hard to Forget You
Your dear face is ever before me.
11509 A Dream
11510 Home, Sweet Home
Be it ever so humble there's no place like home.
11511 Under the Rose
She "lays a rose in her hair,

OXFORD DISC RECORDS.

LIST OF 10-INCH OXFORD RECORDS CONTINUED ON FOLLOWING PAGES.

OXFORD 10-INCH DISC RECORDS—Continued from Preceding Page.

- 11512 Because I Love You, Dear
11513 Bendernere's Stream
There's a bower of roses by Bendernere's Stream.
11566 Loch Lomond
11570 Will You No Come Back Again?
11572 'Scots Wha' Hae' (Bruce's address to his army)
11579 Bonnie Doon
11581 If I But Knew
11668 Robin Adair

MALE QUARTETTES.

The following popular and standard selections we particularly recommend. The voices are perfectly blended and particular attention has been paid to the treatment of the chorus.

- 11592 Carry Me Back to Old Virginia
This is one of the old negro melodies which we are never tired of hearing and it is sure to be called for whenever lovers of music are gathered together.
11593 Down on the Farm
This record is very effective, and life on the farm is vividly portrayed.
11594 Darling Nellie Gray
Who has not heard this sweet song encoored again and again? It is always a favorite, and the older it grows the greater the demand for this record seems to be.
11595 Good Bye, Dolly Gray
11597 In the Evening by the Moonlight
Who has not strolled along in the evening by the moonlight, when a song sung with the sentiment this one contains would be most appropriate?

- 11598 Kentucky Babe
Kentucky is the land of beautiful women and fine horses. This is a combination hard to beat. "Kentucky Babe" does not treat of any of the subjects just mentioned, but it is a sweet old southern song nevertheless.
11599 Love's Old Sweet Song
This is quite a sentimental song, but is beautiful nevertheless and there are, times when sentiment is not out of place.
11600 Hoosier Hollow Quilting Party
This is a famous song. That is, famous if one takes into consideration all that happened at this particular quilting bee.
11601 Old Folks at Home: These songs are
11602 Old Black Joe (old favorites and it is hard to determine which has the greatest sale.)

- 11603 Starry Night for a Ramble
Almost any night is good for a ramble, whether starry or otherwise; possibly when the stars are out and the moon is up conditions are most favorable for the exchange of sentiment suitable to the occasion.
11604 Tenting on the Old Camp Ground
How many old soldiers have sung this song resting on the field of battle and when heard now what stern recollections it brings up.
11606 Sleigh Ride Party
11607 A Night Trip to Buffalo
11608 Steamboat Leaving the Wharf at New Orleans
11609 Characteristic Negro Melody
11610 A Barbecue in Old Kentucky
11611 A Coon Wedding in Southern Georgia
11612 'Way Down Yonder in the Corn Field
11715 Camp Meeting Jubilee
11716 The County Fair
11693 Every Day Will be Sunday Bye and Bye

BARITONE SOLOS.

- 11615 Ole Man Moon
11626 Keep a Little Cozy Corner in your Heart For Me
11568 Julie Dooley
11574 Glory
11575 Starlight
11576 In Limboctoo (A monkey ditty)
11577 Beyond the Gates of Paradise
11582 Good Bye, Maggie May
11583 The Tale of the Sea Shell (from the Prince of Pilsen)
11637 Somebody's Sweetheart I Want to Be (One of the latest hits sung by Lillian Russell)
11638 Out in an Automobile
11639 Right in This Old Town
11640 Asleep in the Deep
11658 If a Girl (One who You Loved a Boy Like Me. (Like of Lillian Russell's songs of the season))
11659 I Will Always Think of You
11662 Sister
11663 Paddle Your Own Canoe
11664 Nora, Floradora
11694 The Land of the Red, White and Blue
11741 'Cause I Like You (From "The School Girl")
11530 The Lost Chord
11753 Forty-five Minutes from Broadway
11388 I'm Praying for You
11422 All Hall the Power of Jesus' Name
Bring forth the royal diadem and crown Him Lord of all.
11424 Blest Be the Tie that binds our hearts in Christian Love.
11428 Am I a Soldier
A follower of the Lamb?
And shall I fear to own His cause
Or blush to speak His name?
11677 Is Everybody Happy?
The Devil and his wife were playing seven up
A playing for a silver half dollar
The Devil got a Jack from the bottom of the pack
11685 He's Nobody's Friend
I hate to tell of trouble
But my heart's too broken
'Cause that man of mine is so aggravatin'
11718 If You Can't Say Nothing Good, Say Nothing at all.
11721 Little Red Espouse
(Hit from "The Girl and The Band-Coach")

11722 When Mose with his Nose Leads the Band

BARITONE SOLOS.—Continued.

- 11723 I Want Somebody to Love
11726 Gretchen
11727 Moving Day
11729 Traveling
11731 Uncle Quit Work, Too
11732 Jessamine
11595 It Makes Me Think of Home, Sweet Home
A song of our flag.
11419 Down at the Baby Store
Can't I have a little sister?
Tell me, ain't there any more?
Mama hides her tears and answers
Yes, dear, at the baby store.
11421 Tell Me With Your Eyes
11423 Pal of Mine
Though the rose from your cheek has passed away
You will wear that sunny smile you wore that day.
11426 Nelle Dean
By the old mill stream I am dreaming, Nelle Dean.
Dreaming of your bright eyes gleaming, Nelle Dean.
11430 Just Across the Bridge of Gold
Once we were poor, mother darling.
Said a sad child one day:
But now we are rich and I'm lonely, longing for sister May
11519 Remember
"It was springtime when we parted"
11520 Her Boy in Blue
It's hard to say good bye, boy in blue
To the girl that's standing nigh, boy in blue.
11521 You're the Flower of My Heart Sweet Adeline
"In the evening when I set alone, a-dreaming,
Of the days gone by, love, to me so dear."
11522 Good-Bye, Eyes of Blue
"Eyes of blue, don't you hear the bugle calling?
Soon to you, I must say love, adieu!"
11523 Star of My Life
Dreaming once more I'm strolling hand in hand
With you, my darling, through love's wonderland.
11524 When the Harvest Moon is Shining on the River
"Then I'll come back to keep my loving promise."
11564 After the Battle
A maid received a note
Which her soldier boy wrote
Containing a lock of hair
11475 If Mr. Boston Lawson Had His Way
There wouldn't be any bucket shop to grab the Rule's gold
There wouldn't be any stocks or bonds in Wall street to be sold.
11476 Every Dollar Carries Troubles of its Own
Russell Sage eats apples for his dinner
Morgan is always worried about his dough
11478 Waltzing with the Girl You Love
11479 Jim Judson
Jim Judson, from the town of Hackensack
"He my horse, my harness and my stick."
11480 Lets All Go Up to Maud's
Her mother don't mind the noise, Her dad is one of the boys.
11496 Ramblin' Sam
Ramblin' Sam got a ramblin' job
On a ramblin' dray one day.
11498 The Blinky Band
Josh Tiers is the leader
And he's just as slick as grease.
11499 I'm Lonesome For You (from Bong-Bong)
11500 Welcome (Hit from "Sergeant Bruce")
No matter where you ever care
To hang your coat and hat,
Don't always think you're welcome 'Cause it says so on the mat.
11501 On the Joy Line
On board for a jolly good time.
11502 What You Goin' to do When the Rent Comes 'Round?
11630 Nothin' from Nothin' Leaves You
11600 Everybody Works But Father
11632 Central, Give Me Back My Dime
11633 I'm Beatin' the
11678 Drummer's Song, or Sweethearts in Every Town
(The hit from the Ham Tree.)
11679 Robinson Crusoe's Isle
(Hit from Marie Cahill in "Moonshine.")
No bills to pay or friends to loan
No wife to say when to come home
11681 Give My Regards to Broadway
(Hit from "Little Johnny Jones.")
Give my regards to Broadway,
Remember me to Herald Square
Tell all the gang at 42nd Street
That I will soon be there.
11682 What is the Use of Knocking When a Man is Down?
If he's down ain't that enough?
What's the use of being so tough?
Tell all the good about him, if you will;
If you cannot praise him, then you oughter keep still.
11683 Don't Be What You Ain't
(Another hit of Marie Cahill in "Moonshine.")
Be a little careful, don't you be a frog.
If you are the tall, don't you try to wag the dog.
11476 Milo
(Hit from "Babes in the Woods.")
11432 Abraham
O poor Abraham, I am so lonely,
Love you only;
I'm almost crazy about you Able, I am,

BARITONE SOLOS.—Continued.

- 11433 Why Adam Sinned
11434 Who's There?
I know it can't be William Ball
For we fell out away last fall.
11435 My Irish Molly, O
Mollie, dear, and did you hear, I've furnished up a flat,
Three little cosy rooms, a bath, with welcome on the mat,
Ten dollars down and two a week, I'll soon be out of debt.
It's all complete, except they haven't brought the cradle yet.
11436 Never
Once my wife's dear mother came to stay a week with her dear daughter,
The week she stayed was just a week longer than she'd daughter.
11438 The Indians Along Broadway
Talk about your Wild West, talk about your plains,
Talk about your wild and woolly hold up games;
They never were a mark to the Indians today
That are tomahawking people up and down Broadway.
11448 Don't Be So Mean
11450 Nobody
When Jackson threw a brick one day
And my face was in the way,
Who was it had the most to say?
11452 If I Were the Man in the Moon
There are lots of strange things that occur on a still night in June
nobody sees but the man in the moon.
11453 Let Me Go Back
I am so lonely, me and me only,
I must go back to my old Chicago Town
11454 Hal-le-lu-jah
Miranda was a colored girl who landed out west
She said the devil followed her and would give her no rest.
11472 In Vacation Time
Over in Jersey, down by the seashore
"Skeeters are hungry and thirsting for more"
In vacation time, for that is their ration time,
They wake up at five and eat you alive.
In vacation time.

BARITONE SOLOS.

- The following songs have been sung by some of the most famous artists here and abroad. They all display full, resonant tones of great power and compass.
11902 Absence Makes the Heart Grow Fonder
This well known song is exquisite in sentiment and is sung wherever the English language is known.
11904 Always in the Way
This is a very touching ballad.
Poor little girl, who is always in the way is a distressingly pathetic little figure.
11906 Come, Thou Almighty King
This well known song needs no description here. We all know it is one of the most powerful things ever written. It has a full swelling volume of melody which is not only impressive but very beautiful.
11907 Down Where the Wurzburger Flows
On a warm day what is there so refreshing as a cool stein. This song is so realistic it makes you thirsty to hear it. It has a swining chorus, and is a great favorite with the students at Heidelberg.
11909 Hiawatha
Hiawatha is an Indian song of wonderful rhyme and swing. You simply can't keep your feet still when the music of this selection is being played. It becomes an immediate favorite wherever heard, and is always carefully put away among the very best of the collection.
11910 He Laid Away the Suit of Gray to Wear the Union Blue
Thank God there is now no distinction between the gray and the blue. Both will fight for the Stars and Stripes with equal might and loyalty.
11911 I'm Wearing My Heart Away For You
This sentiment comes right home to every one, more or less often. Luckily hearts are not so very tender after all, and the wearing process takes a long time. This song, however, is a great favorite, especially among the gentler sex.
11915 My Cozy Corner Girl
It is hard to decide which is the better, one cozy corner girl or two cozy corner girls. However, in this song, we hear of only one and she is true to life and very enticing.
1191 The Man Behind
This is one of the favorite topical songs of the day. It has a ringing chorus and makes a great hit wherever heard.
11918 She's Just a Little Different from the Others That I Know
Show us the man who at one time or other didn't have in his thoughts a little girl, different from all others that he knew, and we'll show you a dead one.
11922 When the Harvest Days are Over
After the harvest days are over the man in this song is coming back to "Jessie Dear."
11923 You are as Welcome as the Flowers in May
There are some things we can think of which are just as welcome as the flowers in May, and if you think as we do you will ask for this record and learn what the composer thought on this subject.

BARITONE SOLOS.—Continued.

- 11924 Yankee Boodle Rhymes with Bunkie Boodle.
Which expression we are told has same significance as "Skidoo" and "23", but we don't say "Skidoo" to Yankee Boodle. Yankee Boodle is good enough for us provided we have enough of it.
LAUGHING STORIES.
These well known stories are very funny. The humor is rich and lively, but nothing therein contained will offend the most refined taste. Each one is a gem and their wide popularity is well deserved.
11853 Uncle Josh's Courtship
Uncle Josh in this record certainly knows what he is about. He is not one of your bashful young lovers who is afraid to come in and face the family. He is very much in love and not averse to showing it. A good many of us could take lessons from Uncle Josh, by gosh.
11854 Uncle Josh and Aunt Nancy go to Housewarming
No marble palace for Aunt Nancy. Simple home comforts are good enough for her. You can guarantee that she don't feed Uncle Josh on lycopodium, breeding baker's bread and city milk. He gets enough to eat at the right time; even if he hasn't got a million dollars in the bank. Many a man has got an "Aunt Nancy" in his mind whom he would like to have keep house for him.
11855 Uncle Josh and the Insurance Company
The Insurance company didn't get the best of Uncle Josh. He may not have studied high finance but you can trust to the native shrewdness of Uncle Josh whether he talks insurance or the price of crops.
11856 Uncle Josh on Jim Lawson's Horse Trade
He who has not traded a horse has failed to avail himself of one of the greatest privileges of American citizenship. In the average business deal a pound is a pound and it does not do to get 35 inches a yard, but in a horse trade everything goes, and if it is a dark night and you can risk in a broken down mule so much the better. Uncle Josh tells all about Jim Lawson's trade and how it was managed. Perhaps you can get some points that would come in handy some day.
11857 Uncle Josh and Aunt Nancy in the Subway
The subway is one of the most stupendous engineering works of the age. Busy at it is, with its teeming millions of ingoing and outgoing passengers, Uncle Josh and Aunt Nancy were not afraid but plunged boldly in, and after a vast experience came out wiser and happier, and like the boy who looped-the-loop ready to try again.
11858 Uncle Josh at the White House
To obtain a home in the White House for a period of four years (with a secret desire to make it eight) is the proud ambition of every man born in this great and glorious country. Uncle Josh didn't quite get to be president but he made himself at home in the White House all right, and Aunt Nancy thinks he is a bigger man than all creation, even if she don't always tell him so. Their trip to Washington is full of interest, and the only way to learn all about it is by securing this selection.
11859 Uncle Josh and the Fire Department
Who is there to protect the broad land who is not proud of the firemen and in love with the horses. To see an engine dashing through a crowded thoroughfare urged onward by the plunging horses, eagerly straining the lines held in the sinewy hands of the driver is one of the grandest sights possible, and one which will quicken the pulses of even the most staid of our citizens. Uncle Josh knows a thing or two about fire, and if you don't believe it all you got to do is to get this record and be convinced.
CHARACTERISTIC SHORT TALKS.
The following pieces have been carefully selected. The voice of each speaker is clear and resonant. They are trained declaimers and each selection is very fine.
11846 Down the Pike at the St. Louis Exposition
All who went to the St. Louis Exposition wanted to see the Pike. Everyone who did not see it will recognize how realistic this record is to those who did not have the privilege of visiting St. Louis, we say get this record. It tells you all about it.
11847 Lincoln's Speech at Gettysburg
This speech has been translated into almost every language known. It is a classic and brings out the characteristics of the great president who did so much to advance the honor and glory of our beloved country.
11848 On Trousers
Trousers are not pants, nor are pants trousers, yet every woman pants to wear the trousers. You should buy this record if only to find out what it is all about.
11849 President McKinley at the Pan-American Exposition
The world knows that our beloved President McKinley met his death while engaged in his official duties at the moment in Buffalo. This record should be and is particularly dear to the hearts of the American people.
(LIST CONTINUED ON NEXT PAGE.)

OXFORD 10-INCH DISC RECORDS—Continued from Preceding Page.

CHARACTERISTIC SHORT TALKS—Cont.

11850 **Schultz's Trip to Chicago**
All the world knows Chicago, and all the world wants to go there at times. The opportunity don't come to everyone, but it did to Schultz. He grasped it and went, and what he saw and what he did is set down on the record so that all may be as wise as he after the journey. What Schultz saw in Chicago is now known in the uttermost parts of the world. Do you know all about this trip?

11851 **"The Man Behind the Gun."**
It's the man behind the gun who counts in this life. Of what good is powder and bullets unless there is a man who has his nerve with him who is looking through the sight? In this country the man behind the gun is always to be found when the necessity arises. Schultz is in his happiest vein in this selection.

11852 **Happy German Twins**
These may be the Katzenjammer Kids, and then again they may not. They are happy and snappy, and as our honored President Roosevelt believes that no household is complete without at least one set of twins, every happy father should buy this record. If he is the fortunate possessor of twins he can compare the happy little Germans with his own, and if he hasn't twins at home he can learn all about them from this selection.

BUGLE CALLS.

The clear, sweet notes of the bugle on the following selections are recorded with no loss of tone power. They are wonderfully realistic and no collection of records is complete without at least one of these calls.

11841 **Rough Riders in Charge up San Juan Hill**

11842 **United States Army Bugle Calls**

CLARINET SOLOS.

The clarinet solos are as popular as those played by the bugle. They are beautifully clear and remarkable examples of the possibilities of this instrument.

11843 **Comin' Thro' the Rye**

11844 **Old Folks at Home**

11845 **Sally in Our Alley**

DUETS.

11400 **Coax Me**

11402 **Does You Love Me as You Used to, Miss Jane?**

11401 **Hears**

11494 **Hey, Mister Joshua**

11495 **On a Summer Night**

"They are giving you all kinds of jollies."

11507 **Making Eyes**

"In a cozy corner with your beau."

11330 **Mr. and Mrs. Murphy**

Since I paid the parson's fee

The boss of all you want to be,

All the housework I must do,

You made me cook your breakfast, too.

11329 **He's My Pal**
I know you're dead tough
But your love ain't no bluff.

11553 **Can't You See My Heart Beats all For You?**
Come, tell me, you big burly coon,
Does you love your little octoroon?

11555 **Reuben and Cynthia**
In this selection Reuben proposes
to Cynthia, which is so sudden.

11563 **The Hand of Fate**
(A dramatic sketch.)

11567 **The Future Mrs. Awkins**
(An English dialect sketch.)

11569 **Every Little Bit Helps**
Say, nigger, if you ain't the most
coaxiest man. Does you know it?
Does you love me? Then kiss me
more.

11418 **Life's Dream is O'er**

TENOR SOLOS.

The possessor of a beautiful tenor voice has an organ sweeter than the songs of birds. The following tenor solos have been sung by the greatest artists. They are clear and sweet and we cannot recommend them too highly.

11941 **Could You Be True to Eyes of Blue?**

11943 **Goodnight, Little Girl, Goodnight**

11944 **Goodbye, Blue Bird**

11945 **I've Got a Feeling for You**

11948 **Like a Star that Falls from Heaven**

11668 **Rosary**

(One of the best songs by Nevin.)

11684 **Sing Me to Sleep**

11644 **"The Girl of the U. S. A."**

11654 **Heidelberg**

(Stein Song from Prince of Pilsen)

11696 **Awake, My Beloved, Awake**

11697 **Dreaming Love, of You.**

11734 **I Know a Lovely Garden**

11580 **One Sweetly Solemn Thought**

11571 **How'd You Like to Spoon with Me**

(From the Earl and the Girl.)

Sit beneath an oak tree large and
shady.

Call me Tootsie Wootsie, Baby.

11660 **Fol-the-rol-rol**

(About the best song of the season.)

This song was sung by a prominent actress
from the stage to a man in a box, and is so
enticing that she almost induces him to jump
on the stage.

11950 **Teasing**

11951 **When the Frost is on the Pumpkin**

We particularly recommend the following
songs. They are sweet, loud and clear.

11930 **In the Shadow of the Pines**

11931 **Paddle Your Own Canoe**

11932 **Soldier Boy**

11933 **They Were All Doing the Same**

11935 **Whoa, Bill**

11936 **While the Leaves Come Drifting Down**

SOPRANO AND BARITONE DUETS.

The soprano tones in these records are mar-
velous. The quality and beauty of phrasing
in both soprano and baritone are magnificent.

The exquisite blending of the voices makes
these records particularly warm and brilliant.

The purchaser will find that the enunciation is
perfect.

11937 **'Deed I Do**

11938 **Suwanee River**

11939 **Tell Me, Pretty Maiden**

BARITONE AND TENOR DUETS

These duets are sung with perfectly blended
voices and the effect is remarkably rich and
charming.

11925 **Almost Persuaded**

This is a wonderful hymn and tre-
mendously effective.

11926 **Battle Cry of Freedom**

A stirring song, sung in every
school in the country.

11927 **Closing Time in the Country Grocery**

The title of this song will bring up
in the mind all the varied scenes
treated of. What is not known and
talked of in a country grocery store
is not worth remembering. They
treat there of everything that hap-
pens, and a good deal that never
happens at all.

11928 **Come Along, Little Girl, Come Along**

This song is a great favorite.

11929 **Down Where the Sweet Potatoes Grow**

As its name implies, this is a song
of the South, and Southern songs
are always melodious.

YODLE SONGS.

11415 **Hush-a-bye Baby**

11416 **Sleep, Baby, Sleep**

11417 **Medley of Emmet's Yodels**

DESCRIPTIVE.

11815 **Backyard Conversation between Two Irish Washerwomen**

This is a highly interesting tilt;
full of the native wit of old Ireland.

11816 **Banjo Evangelist**

The colored preacher starts the
service with a banjo. After giving
the announcements and for the week
"Come to Glory" is sung with the
banjo accompaniment, and the par-
son preaches from the text, "De
Lord Protects Us All."

11817 **Barnyard Serenade**

This is a great favorite and car-
ries one back to life on the farm.

11818 **Daybreak at Calamity Farm**

Crowing of the chickens announ-
ces the beginning of another day on
the farm. The old man threatens
to break another bed slat on his son
Hiram if he does not get up. The
calf calls it's mother in the field.

After his father has been milking
about an hour, Hiram appears, also
the dog, "Tige," who is warned not
to bother old "Brindle" or he will
have his head kicked off. The cow
tosses the morning's milk. "Every-
thing goes to calamity." The farm-
er discovers crows in the corn; then
sees a "pesky tramp" and thinks he
will have some fun with him. The
tramp refuses to say the word;
wants to know when asked to have
a chop, whether it's pork, lamb or
wood-pile; declares he never beats

his way. The old horse butts in and
kicks the tramp through the roof of
the hot house, breaking all the glass.
This is surely "Calamity Farm."

11819 **Flannigan's Night Out**

This is a very comical record, and
describes the joys of an Irishman
with nothing to do but to pursue the
fancies of his own sweet will.

11820 **Forge in the Forest**

This is very realistic, and is one
of our most popular selections.

11821 **Hickory Bill**

Everybody has heard of the fa-
mous old "Hickory Bill." He is not
as bad as his name would indicate.

11822 **Night Alarm**

This describes the fire scene from
one of our most famous plays.
Ringling of the fire alarm, galloping
horses, steam escaping, whistling
of the engines, running out of the hose
and the firemen singing character-
istic songs on their way home, tired
but happy in the knowledge of
duty performed.

11823 **A Little Old Log Cabin in the Lane**

Who has not heard of the little
old log cabin, and who would not
like to own one and return there for
a month or two each year, close to
nature? Water tastes sweeter from
the old oaken bucket than from a
golden cup, and life is oftentimes
happier in an old log cabin than in
a palace of marble.

11824 **You've Been a Good Old Wagon, But You've Done Broke Down.**

A good wagon is like a good gun;
the longer you have it the more you
value it, and the older it grows the
harder it is to give it up. The old
wagon has seen its best days, and
in this record an account of its ser-
vices and end has been realistically
portrayed.

11825 **Con Clancy and the Whistling News-
boy**

Newsboy whistling "Bedella" as
Clancy is passing. Clancy objects
to the whistling, but buys a paper to
see if Ireland is yet free. For a
nickel the boy whistles "Kilbarney,"
the "Wearin' of the Green" and "St.
Patrick." Clancy gives him a dol-
lar, either for the music or because
he addresses Clancy as "Mr.
Clancy," much to the latter's satis-
faction.

11431 **The Preacher and the Bear**

The coon got so excited that he
climbed a persimmon tree and cast
his eyes to the guardian of the skies
and these words said to him: "Lord,
didn't you deliver Daniel from the
lion's den, and didn't you deliver
Jonah from the belly of the whale,
and the Hebrew children from the
fiery furnace? so the Good Book did
declare; so, O Lord, if you can't
help me, for goodness sake don't
help that bear."

GENUINE HARVARD DISC RECORDS.

THE LOUDEST, THE SMOOTHEST, THE CLEARST, THE SWEETEST,
THE MOST NATURAL RECORDS MADE. CAN BE USED ON ANY
STYLE OF DISC TALKING MACHINE.

WHILE WE SELL THE HARVARD DISC RECORDS at only 28 cents each for the 7 inch and 52 cents each for the 10 inch, the lowest price ever made for high class, up to date disc records, IT IS THE QUALITY OF THESE RECORDS rather than the price to which we wish to direct your particular attention.

THE HARVARD DISC RECORDS are, without any exception whatever, the very best very latest, most up to date and most perfect talking machine records made.

IN THE PRODUCTION OF THESE RECORDS, we have been able to utilize the very latest discoveries, the very latest improvements and the greatest possible skill and experience in record making.

They are made for us in one of the largest and most perfectly equipped talking machine factories in the world.

MANY OF THE STANDARD DISC RECORDS two and three years ago. During the past two or three years great improvements have been made in record making, and the reason that the Harvard records surpass in quality many of the regular fifty-cent and one-dollar records on the market today, is largely due to the fact that every one of the "masters" from which the Harvard records are made has been produced since these new methods were perfected, thus enabling the makers of these records to take advantage of the very latest and most up to date improvements.

IN MUSICAL QUALITY, naturalness of tone and volume of sound, the Harvard disc records are not surpassed by any records on the market, regardless of make or price.

AS STRICTLY HIGH GRADE first quality disc records have never before been sold for less than 50 cents each for the 7 inch and records because we sell them at 28 cents and 52 cents each, and we wish to particularly impress upon the minds of our customers the fact that the Harvard records are the very best records it is possible to make.

THE COST OF MANUFACTURING these records is just as much, and in some instances more, than the cost of manufacturing the 50-cent and \$1.00 records, and it is only by reason of the fact that we control the output

of these records and handle them upon our regular one small percentage of profit plan that we are able to make this special price of 28 CENTS AND 52 CENTS EACH, according to size.

EVERY ORDER WHICH WE RECEIVE upon any style of disc talking machine, and if not found entirely satisfactory in every respect, equal or superior to records sold at 50 cents and \$1.00 each, they may be returned to us, at our expense, and the money paid for them, including all transportation charges, will be refunded.

LIST OF 7-INCH HARVARD RECORDS.

See next page for list of 10-Inch records.

BAND.

2168 "American Republic March." Thiele.

DEPARTMENT OF MOTION PICTURE MACHINES

Magic Lanterns, Double Stereopticons, Gas Making Outfits, Lantern Slides and Films, Complete Line of Optical Projection Apparatus and Supplies.

IF YOU ARE INTERESTED in Projection Instruments of any kind, Magic Lanterns, Stereopticons or Motion Picture Machines for public exhibition work, street advertising, educational purposes, religious and reform work, lodges and secret societies or home amusement, send for our **FREE CATALOGUE OF MOTION PICTURE MACHINES AND MAGIC LANTERNS.**

A PROFITABLE BUSINESS may be done in almost any locality with a well selected outfit. Since the introduction of motion pictures the business of exhibiting has grown better, and it never was so good as at the present time. There is an opening in almost any locality for a profitable business exhibiting in public halls, churches, schoolhouses, theaters, etc. This class of exhibiting may be done within a small radius of home, going over and over the same ground say once or twice a year with a new program, or it may be extended to any part of the country. Shows in store rooms or in tents, giving thirty minute entertainments at an admission of five to ten cents, are paying large returns on the investment. These may be permanently located or may be moved from time to time to other nearby towns.

STREET ADVERTISING pays good returns. In this class of work stereopticon views and motion pictures are shown alternately with the advertisements of local merchants, patent medicine, tobacco, cigar and other concerns, who recognize this as one of the best methods of bringing their ads to the attention of the public.

WE ILLUSTRATE AND DESCRIBE on this page the new No. 4 Optigraph, the Oxylithe Gas Making Outfit, and two of our Magic Lanterns, simply to give you an idea of the style and quality of goods that we handle in our Department of Moving Picture Machines and Magic Lanterns.

FOR MORE COMPLETE DESCRIPTIONS of these machines, with larger illustrations and complete descriptions which we handle, we refer you to our Special Catalogue of Motion Picture Machines and Magic Lanterns, which we will be glad to send to any address free. In this catalogue we show the most complete line of everything used for public exhibition work, advertising, educational work, church work, lectures of all kinds, and outfits suitable for home entertainment. We show the most complete line of Magic Lantern Slides, Moving Picture Films, supplies and accessories of all kinds, all priced at the lowest prices ever known for strictly high class, thoroughly dependable goods.

OUR GUARANTEE. Everything that we sell in the way of Optical Projection Apparatus, Moving Picture Machines, Magic Lanterns, Stereopticons, Slides, Films, complete outfits of all kinds, is sent out under our positive binding guarantee, under the terms of which any of the goods not proving entirely satisfactory in every way, no matter for what reason, may be returned to us at our expense, and the amount which you paid for the goods will be refunded to you in full, including the money you have paid out for transportation charges. We are the only house selling Optical Projection Apparatus of all kinds upon these terms, and you will readily understand that this policy upon our part is in itself an assurance that you will get the very best that the market affords as we could not send out inferior or defective goods under our policy of returning the money in full on any purchases not entirely satisfactory.

THE OPTIGRAPH No. 4, MODEL 1907

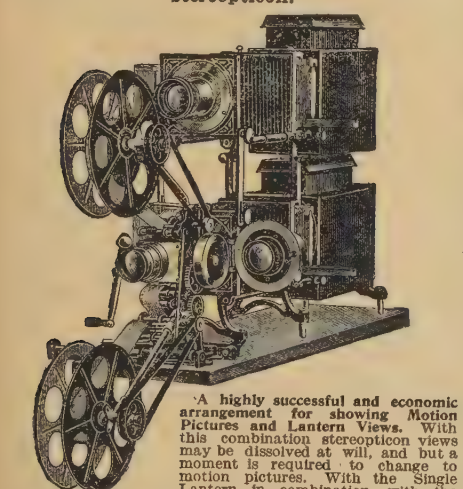

THE LATEST AND THE MOST PERFECT MOTION PICTURE MACHINE.

THE OPTIGRAPH No. 4 has the only perfect framing device, the vise grip sliding attachment, the compound rewind reel head, a geared detachable take up, interchangeable spring catch handle, and fireproof magnifying glass. It excels in quality of workmanship, quality of material, durability, portability, convenience, artistic design, and for results on the screen it has no equal. There are more than forty reasons why the new Optigraph No. 4, 1907 model is the best picture machine, and these forty reasons are fully explained in our Special Catalogue of Motion Picture Machines and Magic Lanterns.

- No. 21F2000 Optigraph No. 4, mechanism with 8-inch reel, lens, round base, belt, plain reel head and detachable crank. Price.....\$39.00
 - No. 21F2050 Takeup attachment with plain reel head, 8-inch rewinding wheel. Price.....\$8.00
 - No. 21F2075 Sliding attachment, without bracket, arm or screw ring. Price.....\$4.00
 - No. 21F2080 COMPLETE MACHINE ON SEPARABLE OAK BASE with Optigraph No. 4. Sliding adjustable lamp house, condensing lenses, burner support, sliding attachment, bracket, arm, screw ring, 1/4-size stereopticon lens, 8-inch reel, plain reel head, arc lamp, rheostat (52 to 110 volts), knife switch and 10 feet of insulated wire. Price.....\$68.50
 - No. 21F2090 Complete machine, with high grade calcium jet and 8 feet of rubber tubing instead of arc lamp, rheostat, switch, wire, etc. Price.....\$65.50
- NOTE:—If takeup device desired with any of the above machines, add to the above prices.....\$8.00

OPTIGRAPH No. 4, THE NEW 1907 MODEL

And Vise Grip Sliding Attachment in Combination with the Enterprise Double Dissolving Stereopticon.

A highly successful and economic arrangement for showing Motion Pictures and Lantern Views. With this combination stereopticon views may be dissolved at will, and but a moment is required to change to motion pictures. With the Single Enterprise Lantern in combination with the lantern views may be quickly and artistically changed by the use of the rapid slide changer, which accompanies the lantern.

No. 21F2100 Optigraph No. 4, with sliding attachment, single Enterprise Lantern, extension legs for lantern lenses and slide carrier. Price.....\$68.50

No. 21F2110 Optigraph No. 4, with sliding attachment, double dissolving stereopticon, extension legs on lower lantern, lenses and two slide carriers. Price.....\$93.50

The above prices do not include jets, dissolving key, etc. For more description of Optigraph and Lanterns see our Special Catalogue of Motion Picture Machines and Magic Lanterns.

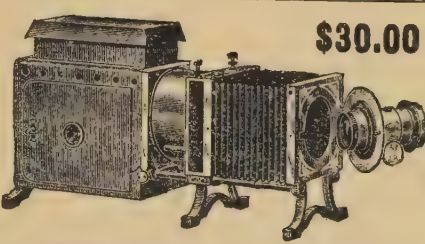

OUR MODEL "A" SINGLE STEREOPTICON, \$15.00

(FOR ILLUSTRATION SEE OUR SPECIAL CATALOGUE).

Adapted to the requirements of ministers in church work, teachers in classroom work, public exhibitors, lodges, etc. Has large Russia iron lamp house, extension front, folding bellows, telescopic nickel plated adjustment rods, a good quality of condensing lenses and achromatic objective lens. Material and workmanship throughout is the best and it is equipped with all attachments requisite for successful projection work. Our Model "A" Stereopticon may be used with calcium light, electric light, sun rival vapor light or any system of lighting at present employed by public exhibitors, but, at our special price of \$15.00 as listed below the light is not included.

No. 21F2200 Model "A" Stereopticon, complete as described above. Price.....\$15.00

If ready made oxygen or hydrogen gases are purchased in steel tanks no additional apparatus will be required, except six feet of small rubber tubing (at 10 cents per foot) to connect tank to lantern, and a can of limes (costing 95 cents).

THE ENTERPRISE Stereopticon has all necessary adjustments known in high class stereopticon work, is equipped with all the latest improvements, and is the neatest design as well as the most compact and convenient stereopticon made. It is made of metal throughout and beautifully nickel plated, has dark red bellows, steel lamp house and polished and nickel plated lens mountings.

THE DISSOLVING EFFECT which constitutes the highest art in stereopticon or magic lantern projection can be accomplished by adding the top section, which makes it a regular double dissolving stereopticon.

The Sliding Optigraph Attachment may be added to either the single or the double stereopticon at any time and is attached by means of machine screws which are furnished with the sliding attachment.

THE OBJECTIVE LENSES are Achromatic Rectilinear of high grade and fully guaranteed. Unless otherwise ordered we furnish what is known as the Short Focus Lens, which projects ten-foot picture at about thirty feet from the screen. The Objective Lens is attached to the stereopticon by a hinged door, which enables the operator to get at the rear combination instantly, and especially adapts it to use in connection with the Optigraph Motion Picture Machine and Sliding Attachment, as the Stereopticon Objective Lens can be instantly swung out of position and the Motion Picture Machine and Lens at the same time swung into its place, it being unnecessary to change the adjustments. The Lamp House is made of a fine grade of planished steel, is extra large so as to accommodate burners for vapor, gas, oxy-hydrogen, calcium, electric, acetylene or other illumination and is fully enclosed (except for ventilation).

- No. 21F2150 The Enterprise Single Stereopticon, full nickel plated with high grade Achromatic Rectilinear Objective Lens, one pair 4 1/2-inch dark red Condensing Lenses, dark red bellows, planished dark steel fully enclosed lamp house, all complete. Price.....\$30.00
- No. 21F2180 Enterprise Double Stereopticon, complete, with carrying case. Price.....60.00

Don't fail to send for our Big FREE Catalogue of MOTION PICTURE MACHINES AND STEREOPTICONS

Showing our complete line of public exhibition apparatus, everything in the way of Magic Lanterns, Slides, Films and Supplies. We can save you money on your outfit.

See page 695 for Juvenile Magic Lantern Outfits.

OXYLITHE GAS MAKING OUTFIT \$39.50

THE OXYLITHE Gas Making Apparatus represents the greatest advance made in magic lantern apparatus since the original invention of the lantern. This new apparatus, which enables the operator to instantly and easily produce a supply of absolutely pure oxygen gas at any time, will, we confidently predict, revolutionize the exhibition business. It is a well known fact to exhibitors that outside of the electric light, which is available only in the larger cities, the only practicable light for public exhibition work, either for stationary or moving pictures, is the calcium light, and until the invention of this wonderful new oxygen gas making outfit which we now place upon the market for the first time, the only means of producing the calcium light was by an expensive, heavy, cumbersome gas making outfit, very difficult to operate, actually dangerous owing to frequent explosions and successful only in the hands of expert and experienced chemists. The Oxylithe Gas Making Outfit does away with all the danger, with all the expense attached to the operation of these old style gas making outfits. Our illustration engraved direct from a photograph of the apparatus, shows the simple, compact and portable it is. It can be packed into a small carrying case, measuring only about 10 inches square by 30 inches high, and weighs complete only about 30 pounds. The only chemical required in operating this new oxygen gas making outfit is oxylithe, and a small package of this oxylithe, weighing only a few ounces, is sufficient for an evening's entertainment. The operation of this outfit is simplicity itself. There is no possible chance for mistakes, no possible chance for failure and absolutely no danger. A small quantity of the oxylithe is placed in the tank, which contains a little water, and the generation of oxygen gas commences at once and is conveyed from the gas making outfit by means of a small rubber tube directly to the burner of the lantern.

No. 21F2300 The Oxylithe Gas Making Apparatus complete. Price.....\$39.50

No. 21F2305 Oxylithe, for use with the Oxylithe Gas Outfit. Price, per box.....\$1.35

SEROCO CAMERAS OF HIGHEST QUALITY

THE ONLY CAMERAS IN THE WORLD GUARANTEED FOR TWENTY YEARS.

FOR MANY YEARS we have been supplying our customers with the highest grade cameras it is possible to produce at a price so much lower than inferior cameras have been offered by other firms and individuals, that the prices we have named have brought consternation to the ranks of those camera manufacturers who are members of the Camera Manufacturers Association or who are parties to the camera monopoly which has long held up the price of cameras and photographic supplies to unreasonable figures.

WE HAVE NOT BEEN CONTENT to build a good camera, the equal of those instruments offered by other manufacturers and dealers, but we have gone beyond that in our endeavor to give our customers the greatest camera values it is possible to produce, and we are manufacturing, in our own factory, the very finest cameras ever offered by any firm or individual.

TO ENABLE US TO BE INDEPENDENT of the camera monopoly, to enable us to offer the very finest cameras on the market, to enable us to offer our customers the very latest improvements in camera equipment, and furthermore to enable us to name prices which represent the mere cost of materials and labor, with but one-half margin of profit added.

WE ERECTED OUR OWN CAMERA FACTORY

as shown in this illustration—the most modern, the most up to date and the best equipped camera factory in America.

THIS MAGNIFICENT FACTORY with its wealth of up to date machinery, directed by the most expert camera manufacturer in the country, has enabled us to undersell any other camera manufacturer in existence and it has enabled us to produce such cameras as have never been equaled for high quality of materials, for perfection of workmanship and equipment, and for simplicity and perfection in operation. In short, it has enabled us to offer the best cameras at about one-half the prices charged by others.

WE ARE NOT A PARTY to any combination of camera manufacturers; we are not a party to any understanding or agreement to hold up the prices of cameras for the sake of larger profits and, in proof of this statement, we have only to refer you to the descriptions and prices quoted in the pages of this catalogue. When we decided to make our own cameras we determined to erect the finest camera factory in America, to produce the finest cameras that come out of any camera factory in the world, and we have spared no expense in securing the finest machinery, the best materials and the highest class mechanical experts that money could secure, and it is this combination of materials, skilled labor and superior equipment, this independence of ours which now enables us to give our

WONDERFUL TWENTY-YEAR BINDING GUARANTEE

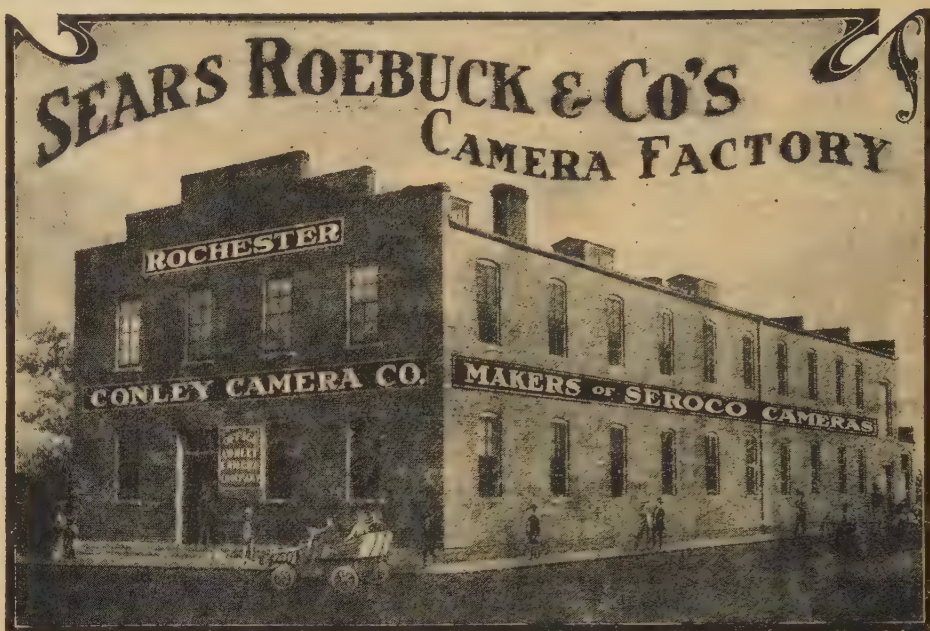

NO OTHER CAMERA OFFERED ON THE MARKET TODAY carries any such guarantee as a protection to the purchaser; no other camera is so well made, is so perfect in every detail of construction; no camera is manufactured from such high class materials, nor is equipped with such perfect lenses, shutters, bellows and other special features necessary to give perfect results when photographing and it is for this reason that no other manufacturer can give such a guarantee on his camera product as we give on every Seroco camera offered in these pages, the strongest, the most binding guarantee, covering the longest period of time ever given on a camera. In fact the Seroco cameras, manufactured by the Conley Camera Co., our own factory at Rochester, Minn., is the only camera in the world guaranteed by its makers as we guarantee every Seroco camera sold by us.

WE MAKE NO IDLE CLAIMS for Seroco Cameras, and when we say they are better made, of better materials, of better workmanship and that they will give better results in the hands of the average camera user than any other camera on the market, and that we offer these unequalled cameras at prices about one-half the price asked by those manufacturers and dealers who are members of the camera trust, we back up our statement with a guarantee of the quality of the materials and workmanship entering into our cameras and we show herewith a facsimile of the Certificate of Guarantee which we send to every customer with every camera we sell.

NO CAMERA CAN BE BETTER MADE, no camera has better materials, no camera will do better work than our Seroco Cameras, and you cannot afford to purchase from anyone else when we offer you such great value and such money saving prices and substantiate our claims and back our product with this unequalled long term guarantee, a guarantee which protects you from any defects in material and workmanship for a period of twenty years.

OUR 10 DAYS' FREE TRIAL COMPARISON OFFER.

SEND US AN ORDER for any camera. Remember, you get the outfit at factory cost. Enclose our price, as quoted in this catalogue, and we will send

This picture shows our own big new camera factory at Rochester, Minn., where we make the highest grade cameras made in the world, which we sell at about one-half the prices charged by others for cameras that will not compare with those made by us in our own factory at Rochester.

the camera you select with the understanding and agreement, first, that it must reach you promptly and in perfect condition; second, that you can give it ten days' free trial, during which time you can put it to any test. You can compare it with cameras sold by others at double our price and, if you do not find it PERFECTLY SATISFACTORY, LOWER IN PRICE, BETTER IN QUALITY and in every way more satisfactory and better than any similar style of camera you can buy elsewhere, you can send the camera back to us at our expense and we will immediately return your money, including any express charges paid by you.

WE WILL NOT BE INTIMIDATED.

ALTHOUGH WE HAVE BEEN THREATENED with all sorts of trouble if we refused to join the combination of camera manufacturers in an effort to compel you to pay two or three prices for your camera, we refused to be intimidated and will continue to manufacture our own cameras in our own factory and sell them at our own prices, prices which represent but the mere cost of materials and labor, with but one small percentage of profit added.

THIS WAR BETWEEN THE TRUST PEOPLE AND US IS ON

and will be on to a finish. We shall continue to sell at factory cost with one small percentage of profit added and we shall continue to give you better cameras than monopoly cameras and at about one-half the prices of monopoly cameras. Our customers are with us in this fight, and we assure you that we will continue to give to them the very highest grade cameras it is possible to produce in any factory and that we will constantly improve the quality of our goods, adding from time to time improvements which place them far in advance of the cameras made by the camera trust. There would be no comparison between Seroco Cameras and the trust cameras, even if we were to ask double the prices named in the pages of this catalogue.

TO COMPEL US TO FALL INTO LINE and to raise our prices on these highest grade cameras the trust people, who handle three-fourths of the photographic supplies sold in this country, have refused to sell us merchandise, thus compelling us to manufacture many other lines of photographic goods ourselves and, as a result of this war between the trust people and ourselves, you can now buy from us the highest quality of everything you need in photographic supplies for one-half the prices you would pay Mr. Dealer, who is compelled to handle trust made goods. All that we ask you to do is to compare our prices with those asked by others. Just note our low prices on plates, paper, card mounts, chemicals, etc., and you will quickly see how much we save you as compared with the prices others ask and when it comes to quality we guarantee that the goods we sell you will give you absolute satisfaction from every standpoint.

Conley Camera Company

Hereby guarantees that this camera, No. _____, is made of highest grade material throughout and is thoroughly inspected, and adjusted and perfect in operation. We guarantee it for twenty years and will replace any part that proves defective during that period of time.

COMPLETE INSTRUCTIONS IN PHOTOGRAPHY

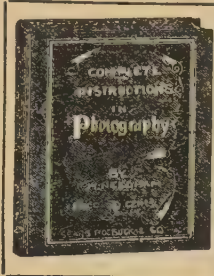

OUR NEW 112-PAGE MANUAL FREE WITH EVERY CAMERA WE SELL.

SPECIAL FEATURE of our photographic outfit is the book, "Complete Instructions in Photography," a 112-page manual, which is included free of charge with every camera or complete outfit.

HIS BOOK WAS WRITTEN EXPRESSLY FOR US by one of the most

expert photographers in the United States; a man who has spent fifteen years in making photographs, teaching photography, and selling photographic merchandise to both amateur and professional photographers. The experience thus gained, not only in the actual processes of photography, but in contact with other photographers—with amateurs and with beginners—enables him to appreciate and to understand, better than anyone else, the difficulties met with and the errors made by beginners. This experience enables him to understand just what the beginner wants to know, enables him to make it plain and simple, and the success which is attending the efforts of those who are already using "Complete Instructions in Photography" is the best proof we can offer as to its value.

COMPLETE INSTRUCTIONS IN PHOTOGRAPHY answers all your questions, anticipates all your troubles and makes photography easy. Indispensable to the beginner, invaluable to the advanced photographer. Complete Instructions in Photography tells secrets of the trade never before published; gives valuable information heretofore possessed only by a few pro-

fessional photographers; GIVES DOZENS OF VALUABLE FORMULAS OR RECIPES; tells you how to make your own developers, your own solutions of all kinds; tells you how to determine the correct amount of exposure, how to save plates which are wrongly exposed, how to make good portraits, how to make blue paper, how to dry a negative in five minutes, HOW TO MAKE MONEY IN PHOTOGRAPHY, how to avoid all the troubles sometimes met with by beginners, how to select a camera; tells all about a hundred other things which we haven't space to mention here.

REMEMBER, There is no other book like it. It was written expressly for us. It is published only by us, and can be secured only from us.

IT COSTS YOU NOTHING.

WE INCLUDE IT FREE OF CHARGE with every camera which we sell. If you already have an outfit and desire a copy of the book, we will include it free of charge with an order for photographic supplies amounting to \$2.50 or more (provided you state in your order that you desire it). We do not sell this book. We had it written and publish it exclusively for the benefit of our customers, but in order to protect ourselves against actual loss, we are obliged to give it only to those who send us an order for at least \$2.50 worth of photographic goods, and state in their order that a copy of "Complete Instructions in Photography" is desired.

THE PERFECTION JUNIOR CAMERA, ONLY \$1.48

"COMPLETE INSTRUCTIONS IN PHOTOGRAPHY" FREE WITH THIS CAMERA.

AND TAKES GOOD PICTURES.

SIZE OF PICTURE, 3½ X 3½.

THE PERFECTION JR. CAMERA.
\$7.50 OUTFIT FOR \$2.49

THIS CAMERA is fitted with a high grade single achromatic lens of universal focus and therefore always in adjustment, not requiring to be focused when a picture is taken. It is guaranteed to cover the plate sharp and clear to the extreme corners and to make first class, perfect pictures.

THE SHUTTER is an exceedingly effective device, and at the same time very simple, entirely automatic in action and arranged for both instantaneous and time exposures.

THE PERFECTION JR. CAMERA is made from thoroughly seasoned kiln dried lumber, workmanship and finish throughout is first class, covered with black seal grain keratol with black oxidized metal trimmings.

THE PERFECTION JR. CAMERA measures 4¾x5½x7¼ inches; weighs 18 ounces; has space in the back for three double plate holders, and is fitted with view finder and tripod socket.

YOU WILL PROFIT SHARING CERTIFICATE WITH YOUR GET A PURCHASE.

THE PERFECTION JR. OUTFIT CONTAINS:

1 Perfection Jr. Camera. 1 Metal Dark Room Lamp. 1 Tray for Developing Plates. 1 Tray for Fixing Plates. 1 Tray for Toning Prints. 1 Printing Frame. 1 Measuring Glass. 1 Print Roller for smoothing down the prints when mounted. 1 Paste Brush for mounting. ½ doz. Dry Plates for making negatives. 1 doz. Sheets Sensitized Paper. 1 doz. Embossed Border Cards for mounting the pictures. 1 Package Dry Developer (makes 8 oz. of solution). 1 Package Dry Toner (makes 8 oz. of solution). 1 Jar Prepared and Scented Mounting Paste. 1 Copy "Complete Instructions in Photography." The Camera alone, if purchased from the regular retail dealers, would cost you \$4.00, and the complete developing and material outfit as listed above would cost at least \$3.50, making the total value of the Perfection Jr. Camera and outfit at retail \$7.50. The fact that we make these goods in our own factory enables us to offer you the complete outfit for actually less than the retail dealer can buy it for.

If by mail, postage extra, 5 cents.

THE 4x5 SEROCO MAGAZINE CAMERA, \$3.90

"COMPLETE INSTRUCTIONS IN PHOTOGRAPHY" FREE WITH SEROCO MAGAZINE CAMERA.

THE SEROCO MAGAZINE CAMERA.

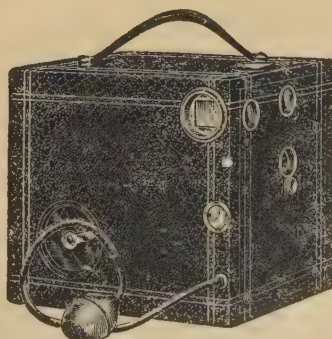

This camera represents the very latest advances in the construction of magazine plate cameras.

IT TAKES PICTURES 4x5 INCHES AND CARRIES TWELVE PLATES WITH ONE LOADING.

THE SEROCO MAGAZINE CAMERA is very substantially constructed from kiln dried lumber, covered with heavy seal grain black morocco leather and all exposed metal parts are finely nickel plated.

THE LENS in this camera is a high grade Single Achromatic of universal focus, made expressly for this camera and guaranteed to cover the plate sharp to the extreme corners.

THE SHUTTER is our latest design, fitted with three diaphragms, entirely automatic in action, and arranged to be operated either by finger release or pneumatic bulb and tube.

Size of Camera, 8x6½x7¼ inches.

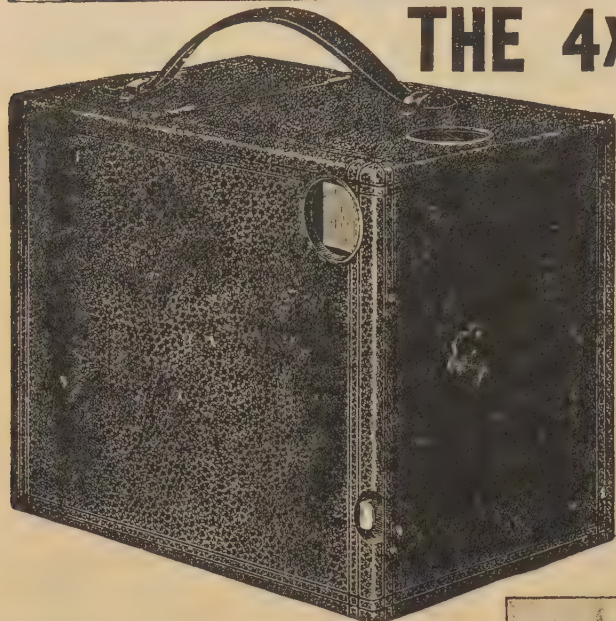

THE PLATE DROPPING DEVICE is the result of years of study and experiment by practical magazine camera builders and is in every respect superior to any plate dropping device ever before made.

IT IS ABSOLUTELY POSITIVE IN ACTION, an ingenious arrangement, making it impossible to drop more than one plate at a time, and it is operated simply by pushing a lever on the outside of the camera.

THE PLATES are inserted at the back of the camera, and are removed through a hinged door at the bottom. Any number of exposed plates can be taken from the camera for development, without disturbing the balance of the unexposed plates.

EQUAL TO A FILM CAMERA in compactness and simplicity of operation, but using dry plates, generally acknowledged to be the best medium for negative making, and presenting the additional advantage, as compared with film cameras, of greater economy, plates costing only one-half as much as film.

No. 20F1215 Seroco Magazine Camera. Price, complete, ready for use **\$3.90**

THE 4x5 DELMAR CAMERA, \$1.75

OUR SPECIAL FACTORY PRICE,

MADE IN OUR OWN FACTORY AT ROCHESTER.

THE IMMENSE SALE OF THESE most popular cameras and outfits has made it possible for us to manufacture them in enormous quantities and by purchasing the chemicals by the barrel, and the other materials by the thousands of each, and by assembling and boxing the outfits by the thousands, being satisfied with a very small percentage of profit, we are able to **CUT THE PRICE IN TWO**, while other concerns still insist on selling with large profits (which has always been the custom in the photographic line), with the result that they sell small quantities of goods and charge their patrons double what they should.

THE SIZE AND STYLE OF THE DELMAR 4x5 is by far the most popular on the market, and this statement will be better appreciated when we say that we believe at least seven out of ten of all the amateur cameras sold are of this same size and style. While it takes a 4x5 cabinet size picture, its outside dimensions are only 6x7x8 1/2 inches, and it weighs but 34 ounces. One Double Plate Holder for two plates is included with each camera, and there is space in the camera for two extra holders, giving a capacity for six plates.

THE LENS is what is known as the Meniscus Achromatic, and is the finest universal focus lens made; in fact, is the same grade and quality as used in cameras which sell as high as \$10.00 to \$15.00. It has great depth of focus, which gives full and sharp detail to objects at a distance as well as to those which are near by.

THE SHUTTER is automatic and always set, being operated by a spring in connection with a very ingenious device; is very simple, with no complicated parts to get out of order, but so perfect in its arrangement that it can be instantly changed for either snap shot or time exposures.

THE VIEW FINDERS form a part of the camera, and not only are they of invaluable assistance in locating and centering the objects to be photographed, but they add much to its artistic appearance.

SIMPLICITY. The ease of manipulation is one of the best features of this outfit. Remember, the shutter is always set, you don't have to turn any buttons or push any levers before making an exposure, operations which are very apt to be forgotten or wrongly executed in the excitement of the moment; and you don't have to focus each time a picture is made, as the lens is of universal focus, always ready. With other cameras many a fine picture is lost because of the delay in setting the shutter, focusing, etc. In the meantime the subject is gone or the scene is changed, but the Delmar Camera is always ready.

THINK SERIOUSLY of the opportunity to possess a camera and complete outfit for making 4x5 pictures for the small sum of \$2.98 and then ask yourself what would afford you more pleasure than to own a photographic outfit with which you could, as the opportunities present themselves, take the pictures of your friends and relatives, brothers and sisters; the pets, such as dogs, cats and horses; the home, both inside and out; pretty landscapes, buildings and places of interest seen while traveling; and especially the picture of the baby in all its cute and amusing positions. It will not be fully realized, until after years, what treasures have been secured in the way of pictures of friends and places or things of interest.

THE COMPLETE OUTFIT CONTAINS:

- | | | |
|---|--|---|
| 1 4x5 Delmar Camera, with Double Plate Holder. | 1 Paste Brush. | 1 Dozen Sheets Sensitized Paper. |
| 1 Metal Dark Room Lamp. | 1 Graduated Glass for Measuring Liquids. | 1 Printing Frame. |
| 1 Tray for Developing Plates. | 1 Dozen Card Mounts with fancy embossed borders. | 1 Package Hypo for fixing Negatives and Prints. |
| 1 Tray for Fixing Plates. | 1 Package Concentrated Dry Developer (makes 8 ounces of solution). | 1 Jar of fine Scented Photo Mounting Paste. |
| 1 Tray for Toning Prints. | 1 Package Concentrated Dry Toner (makes 8 ounces of solution). | 1 Copy of "Complete Instructions in Photography." |
| 1 Print Roller for smoothing down the mounted prints. | | |
| 1 Dozen Dry Plates. | | |

Everything in the outfit is the best that can be secured.

This Picture was taken with the Delmar Camera.

THE PICTURE OF THE FOOTBALL TEAM which we show above, will give you some idea of the style and an exact idea of the size of picture that can be taken with the Delmar Camera. It is, however, impossible for us to show by means of the above picture the fine detail and delicate shading that appears in the original photograph, as these fine points are lost when we reproduce a photograph by the ordinary process of printing, such as we use in printing this page.

THE DELMAR CAMERA has a beautiful black seal grain finished covering, has leather handle for carrying, and two tripod sockets for attaching a tripod when desired, for either perpendicular or horizontal pictures, and uses dry plates only, same as used by the best professional photographers.

5x7	8	2½x6½x8½	3½x9x13½	Camera and Five Holders

THE SEROCO SENIOR FOLDING CAMERA embodies the most up to date features of all high grade folding cameras without those adjustments which serve only to increase the cost of the camera without adding to its real value as a picture taking machine. The Seroco Senior Folding Camera is designed for those who want a camera that will make good pictures, a camera that can be in every way depended upon, and yet who do not care to pay for all the fancy adjustments with which the higher priced cameras are equipped. We put into this camera the very best materials, we employ in its construction only the best expert workmen, and while we are offering this camera at less than one-half the price charged by other dealers for cameras of corresponding quality, we can guarantee the camera in every way as an instrument that we know will make good pictures, that we know will give good service, that we know will be had for camera making, covered with genuine leather; the bellows is made of the best red Russia leather, gossamer lined, all metal parts are brass, nickel plated and highly polished, the best finish that can be put on the metal parts of a camera.

No. 20F1270 Seroco Senior Folding Camera, size, 4x5. Price, \$4.95

No. 20F1271 Seroco Senior Folding Camera, size, 5x7. Price, \$5.95

The above prices include the camera complete, with lens and shutter, one double plate holder, and carrying case.

These cameras use the regular Seroco Improved Plate Holders. Price for the 4x5 size, each, 38c; 5x7 size, each, 45c. See No. 20F1800 for complete description of these plate holders.

Think of a 5x7 Folding Camera, with rapid rectilinear lens, made of the best materials all the way through and fully guaranteed for only \$5.95, the lowest price ever heard of for a 5x7 folding camera.

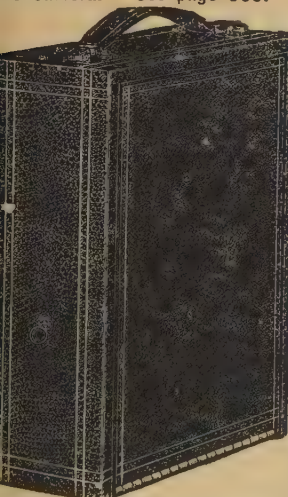

Carrying Case for Seroco Senior Folding Camera.

THE LENS with which we equip this camera is a high grade double rectilinear, exactly the same style and quality of a lens that is used by other camera manufacturers on cameras that sell at from \$15.00 to \$20.00; and this lens is equipped with the latest type of the Wollensak Junior Automatic Shutter, with pneumatic release. The Carrying Case is strongly and substantially made, covered with the best quality of black seal grain keraol, with leather handle.

\$5.60 IS A PRICE NEVER BEFORE MADE

on so complete and so high class a camera as the Seroco Compact. Made of solid mahogany all the way through, covered with genuine seal grain leather, all metal parts of brass, heavily nickel plated and highly polished, and best red Russia leather bellows, lined with lightproof gossamer cloth. The materials and workmanship in the Seroco Compact Camera are as good as it is possible to put into any camera; exactly the same high grade of mahogany, exactly the same high grade morocco leather covering, the metal parts just as heavily nickel plated, just as highly polished and just as carefully adjusted, the bellows made of the same high grade leather, the entire camera just as carefully tested and just as thoroughly made as cameras ordinarily sold at three and four times the price we ask for the Seroco Compact.

SPECIAL FEATURES. We equip this camera with features which have heretofore been offered only in high priced cameras. This is the first camera ever sold at so low a price equipped with the Conley Automatic Patented Front Clamp, the most convenient and most satisfactory front clamp ever devised. This is the first camera ever sold at so low a price having the new all metal front, with rising and falling adjustment. This camera is equipped with brilliant, reversible brass bound finder, with extra quality nickel plated piano hinge, with ornamental nickel plated, with spring actuated ground glass focusing screen and

THE HIGH GRADE DOUBLE RECTILINEAR LENS furnished with this camera possesses great depth of focus and is guaranteed to cover the plate sharply to the extreme corners. This lens is equipped with the latest pneumatic release, Wollensak Senior Automatic Shutter, arranged for instantaneous exposures, or bulb and time exposures, of any desired length.

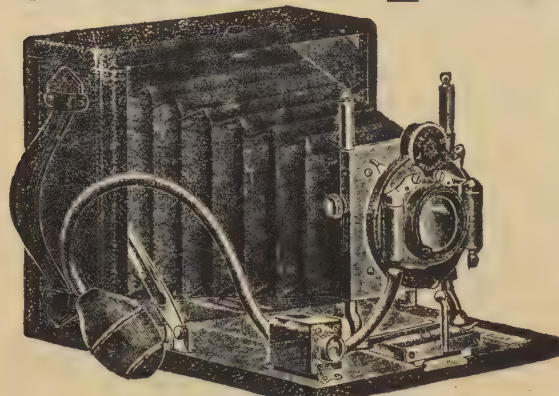

Seroco Compact Folding Camera, extended for use.

No. 20F1290 Seroco Compact Folding Camera, for 4x5 pictures. Price, \$5.60

This price includes the camera complete, ready for use, with lens and shutter and one double plate holder, but does not include carrying case, which is unnecessary with compact cameras of this type, as the camera is virtually self contained. This camera uses the Seroco Improved Plate Holders. Price, each, 38c. For complete description of these holders see No. 20F1800.

Carrying Case for Seroco A Camera

WE MAKE THE SEROCO A FOLDING CAMERA just as good how. We put into it the very best materials that we can buy, genuine Honduras mahogany, thoroughly seasoned and kiln dried, with the finest French polish or piano finish, heavily nickel plated metal parts, best grade genuine leather covering and fine quality red leather bellows, lined with lightproof gossamer cloth. Every part of the camera made by the same workmen who build our very highest priced instruments.

THE LENS is a high grade double rapid rectilinear, made especially for us by the Wollensak Optical Co., being a lens that we can guarantee to cover the plate sharply to the extreme corners, and fitted with the latest type of the Wollensak Optical Co.'s Regular double valve shutter, the same shutter that we use on many of our highest priced cameras.

SPECIAL FEATURES. This camera is equipped with the new Conley Automatic Front Clamp, the very best front clamp ever invented, the new all time and rising and falling adjustment, spring actuated ground glass focusing screen, with mahogany back panel, accurately adjusted focusing scale, two tripod sockets, and high grade ground glass finder. The carrying case is made from the best grade black sole leather,

made without corner seams, stiffened and strengthened by an interlining of heavy straw-board, and lined with black cloth.

and most carefully adjusted. The bellows made of the best quality red leather, lined with lightproof gossamer cloth. The carrying case made of solid sole leather, with corner seams, finely finished, with leather handle, and

AMONG THE SPECIAL FEATURES of the new 1907 model of the Seroco B Camera, is the new Conley Automatic Front Clamp, the very latest improvement in front clamps, and exactly the same style that we use on our highest priced cameras. The rack and pinion focus movement, which affords the most convenient, rapid and accurate means of focusing, its operation being accomplished by turning a milled head screw, instead of sliding the front of the camera out by hand. The improved swing back, also a most valuable adjustment, especially when photographing buildings, oper-

ated in the most simple and ingenious manner, simply by loosening a milled head screw.

WE OFFER THE SEROCO C CAMERA

as the equal of any camera in its class on the market, regardless of price. It represents the acme of perfection in this style of a camera, embracing all the latest improvements and attachments ever put into a camera of this design.

THE SPECIAL FEATURES are the new Conley Automatic Front Clamp, the best device of this kind ever introduced, the latest all metal front, nickel plated, highly polished and beautifully finished, fine rack and pinion focus movement, improved swing back and extra quality, hooded, brilliant finder.

THE REVERSIBLE BACK enables the operator to make either upright or horizontal pictures, without changing the position of the camera, the back being instantly detached by pressing a single concealed button, and just as quickly snapped into place again, in either position desired. The simplest and most satisfactory reversible back yet made.

THE LENS is an extra high grade double symmetrical, equal in every respect to lenses used in the most expensive cameras, and equipped with the latest Wollensak Regular, double valve shutter, a thoroughly dependable, easily operated, up to date shutter.

Extra Plate Holders, 4x5, 38 cents each; 5x7, 45 cents each. See No. 20F1800. Shoulder Strap, 25 cents extra. For Developing Outfits, see page 667.

Seroco Long Focus Camera Extended for Use. Engraved from a Photograph of the 4x5 Size.

MADE IN OUR OWN FACTORY AT ROCHESTER. The special prices we name on the Seroco Long Focus Cameras are made possible only by the fact that we make these cameras ourselves, in our own factory, and sell them with only one small profit added to the actual factory cost.

OUR ILLUSTRATIONS, engraved by our artist direct from photographs of the Seroco Long Focus Camera, but in order to fully appreciate this instrument, you must see it. The beautifully polished mahogany woodwork and the highly finished nickel plated brass trimmings contrasted with the fine black morocco covering and the rich red leather bellows, gives this instrument a strikingly handsome appearance.

THE LENS. One of the features of this camera is the extra high grade Symmetrical Lens the very highest grade symmetrical lens that we can purchase. Either the front or rear combination of this lens can be used alone when desired, and as the focal length of either combination alone is about double that of the entire combination, the efficiency of the camera is greatly increased, as this is equivalent to having two lenses, one double the focal length of the other.

THE SHUTTER. We equip the Seroco Long Focus Camera with the Wollensak Double Valve Regular Shutter—a shutter that we can absolutely guarantee in every respect, simple and easy to operate, free from liability to get out of order—a shutter that has stood the test of time.

THE BELLOWS. good bellows, made from the best grade of leather, lined with special lightproof gossamer cloth, and no glue whatever is employed in its construction, only the best rubber cement being employed. This bellows is made extra long, thus securing results in distant landscape photography, portraiture, copying, etc., which are entirely beyond the capacity of ordinary short bellows cameras. This long bellows also permits the use of the rear combination alone when desired for very long focus work.

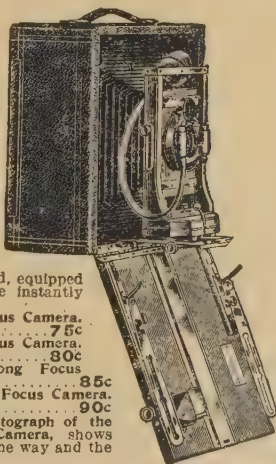

THE REVERSIBLE BACK is of the very latest design, a style that is more easily operated and more convenient than any reversible back heretofore made. Changing the plate from one position to another is accomplished simply by pressing a single button on top of the camera. There are no clips or catches of any sort to cause annoyance.

THE CONLEY AUTOMATIC FRONT CLAMP is one of the features of our best front clamp that has yet been devised. In extending the camera for use, the front of the camera is drawn out by grasping the small lever on the automatic front clamp, and the turning of this lever forward in drawing out the camera front, releases the automatic clamp, and when the camera is extended as far as desired, this lever flies back and automatically locks or clamps the front at any desired point.

AUXILIARY BED.

FOR SHORT FOCUS WIDE ANGLE LENSES.

THIS AUXILIARY BED permits the use of short focus lenses with the Seroco Long Focus Camera. The main bed of the camera is dropped down out of the way by detaching the side arms, and the auxiliary bed, which can be instantly placed in position, carries the front of the camera. When wide angle lenses are used with cameras not equipped with the auxiliary bed, the main bed, by reason of the wide angle embraced by the lens, is included in the picture, thus cutting off a part of the view and completely ruining the picture. This auxiliary bed is made entirely of brass, nickel plated and finely finished, equipped with rack and pinion focus movement, and can be instantly attached or detached.

No. 20F1352 Auxiliary Bed for 4x5 Long Focus Camera. Price 75c
 No. 20F1353 Auxiliary Bed for 5x7 Long Focus Camera. Price 80c
 No. 20F1354 Auxiliary Bed for 6½x8½ Long Focus Camera. Price 85c
 No. 20F1355 Auxiliary Bed for 8x10 Long Focus Camera. Price 90c

THIS ILLUSTRATION, engraved from a photograph of the Seroco Long Focus Camera, shows how the main bed may be dropped down out of the way and the auxiliary bed for wide angle lenses used.

1907 MODEL \$11.50

SEROCO LONG FOCUS FOR 4x5 SIZE

THE SWING BACK. The swing with which the Seroco Long Focus Camera is constructed, being controlled by the two set screws at the bases of the side arms on either side of the camera. By simply loosening these screws the back can be swung either forward or backward to any desired angle and securely clamped by tightening the same screws. An adjustment that is quickly and easily made.

IN ADDITION to the special points mentioned above, including the Reversible Back, the Extra Long Bellows and the Swing Back, this camera is also fitted with all the other adjustments with which high grade cameras are usually provided, including a finely made rack and pinion focus movement, detachable lens board, rising and falling front, sliding front, piano hinge, brilliant reversible finder, and accurately adjusted focus scale.

ABOUT THE CARRYING CASES.

We furnish with the Seroco Long Focus Camera the very best carrying cases that we can obtain, carefully and strongly made from a fine grade of heavy sole leather. They are made without corner seams, stiffened and strengthened by interlining of strong manila board, lined with black cloth, fitted with strong leather handle and metal rings for attaching shoulder strap. No better carrying case can be made. Shoulder straps are not included unless ordered extra.

5 x 7	23 inches	4 1/2 x 8 1/2 x 9 inches	4 1/2 x 8 1/2 x 15 1/2 inches
6 1/2 x 8 1/2	27 1/4 inches	4 1/2 x 10 1/2 x 11 1/4 inches	5 1/2 x 11 1/4 x 18 1/2 inches

THE VERY HIGHEST GRADE CAMERA THAT WE MAKE, THE EQUAL OF ANY CAMERA MADE, REGARDLESS OF PRICE.

MADE IN OUR OWN FACTORY AT ROCHESTER, and sold to you on profit, maker to user plan, the only possible method by which cameras of this grade can be sold at the prices we name.

WHEN YOU BUY the Seroco Double Extension Camera, you know that you are buying a camera which is as nearly absolutely perfect as the very best makers can possibly produce. You know that you are buying a camera which will be absolutely certain to give you perfect satisfaction, a camera that will do any kind or style of work which you may desire to attempt, and we are offering you this camera at prices no higher than ordinary dealers charge for common, short focus, poorly equipped cameras.

THE LENS. We equip the Seroco Double Extension Camera with a new extra high grade, convertible, three-focus lens, made expressly for this camera, the very best convertible lens that we can buy. This lens is composed of two perfectly corrected combinations, the front combination of longer focal length than the rear combination. As either the front or rear combination may be used alone, we have three different focal lengths available, thus meeting any possible requirement.

THE SHUTTER. The Seroco Double Extension Camera is fitted with the new Wollensak Automatic Shutter, a marvel of mechanical ingenuity, of most perfect construction and rigidly tested. This shutter makes automatic exposures of from 1-100 of a second to one full second, or time exposures of any desired length. The Wollensak Automatic Shutter is always set, one pressure of the bulb making the exposure and at the same time automatically resetting the shutter for the next exposure.

THE SEROCO DOUBLE EXTENSION CAMERA is made throughout from dried mahogany. No other wood is used in any part of its construction, and this mahogany is carefully selected, with particular attention to fine grain effects. The corners are all rounded and all joints are dovetailed. The back and front are finished with the highest piano polish.

THE COVERING is the very highest grade of heavy walrus grain leather, the best leather that we can buy.

THE METAL PARTS are made throughout from brass, heavily nickel plated, beautifully polished and accurately fitted.

THE BELLOWS is made from the very best grade red leather, lined with a special light-proof gossamer cloth, attached with pure rubber cement, which makes the leather remaining soft and pliable.

THE SWING BACK is so constructed that it is easily and quickly adjustable to any desired angle, and firmly held by simply tightening the set screw at the base of either side arm.

THE REVERSIBLE BACK. The Seroco Double Extension Camera is so made that the back can be instantly detached by pressing a single concealed button, and as readily replaced with the plate in position for either vertical or horizontal pictures; the most easily operated reversible back made, having no clips or catches of any sort to adjust.

THE FINE RACK AND PINION FOCUS MOVEMENT works very smoothly without the slightest lost motion, and when the camera is focused it may be securely locked by simply pressing in the pinion flush with the bed.

THE CONLEY AUTOMATIC FRONT CLAMP, the only absolutely satisfactory automatic front clamp yet devised, is one of the features of the 1907 model of the Seroco Double Extension Camera. This clamp automatically locks the front of the camera at any point to which it may be drawn out, holding it firmly and automatically, releasing it when the lever is grasped to push the front back before closing the camera.

THE DOUBLE SLIDING FRONT is made with both vertical motion and side motion, allowing control of the relative amount of sky and foreground, and also permitting more of one side or the other of a picture to be included in the view without changing the position of the camera.

PHOTO MINIATURES. Continued on page 666.

No. 20F3822 COPYING METHODS. Photographs, engravings, daguerotypes, tintypes, prints, paintings and other originals.
No. 20F3823 COLORING PHOTOGRAPHS. A practical handbook to the coloring of photographic prints of all kinds in water colors and oil. Written from experience.

No. 20F3825 DEVELOPMENT PRINTING PAPERS. How to successfully work gaslight papers, such as Velox, Vinco, Cyko, etc.
No. 20F3826 STUDIO CONSTRUCTION. A practical guide to the planning and building of photographic studios, skylights, their equipment, etc. Fully illustrated.

No. 20F3827 PRESS PHOTOGRAPHY. Photography for illustration of newspapers, periodicals, etc.

No. 20F3828 PICTORIAL TECHNIQUES. The principles upon which picture making by photography is based.

No. 20F3830 OUTDOOR EXPOSURES. A practical solution of this difficulty with tables for all latitudes and conditions.

No. 20F3831 ARCHITECTURAL PHOTOGRAPHY. A complete handbook, by an expert, with illustrations.

No. 20F3832 THE HURTER & DRIFFIELD SYSTEM. A clear explanation of this system of developing, which tells how perfect negatives can be secured.

No. 20F3833 OUTDOOR PORTRAITURE. How a professional worker makes portraits out of doors. A profitable book.

No. 20F3834 COMBINATION PRINTING. How to combine several negatives in one print for pictorial effect, with examples.

No. 20F3835 WHO DISCOVERED PHOTOGRAPHY? An interesting account of the beginnings of photography, with illustrations.

No. 20F3836 METHODS OF CONTROL IN PICTORIAL PHOTOGRAPHY. Invaluable to the advanced amateur; how to emphasize or suppress portions of negatives for pictorial effect.

No. 20F3838 PHOTOGRAPHY IN ADVERTISING. How the amateur can make money by making and selling photographs for the illustration of advertisements.

No. 20F3839 FIGURE COMPOSITION. By Henry R. Poore. Showing the application of art principles to the treatment of single figures and portrait groups.

No. 20F3840 HOME PORTRAITURE. Tells how to make good portraits in the house; at the window; on the porch, etc.

No. 20F3841 PRACTICAL METHODS OF DEVELOPMENT. A handbook to modern methods of developing negatives, with diagrams. The first attempt to put development on a rational basis, with an automatic "time and temperature" method and formula; also the Watkins factorial system and the old "tentative" method for those who prefer that way. Fully illustrated.

No. 20F3842 DECORATIVE PHOTOGRAPHY. A little book which tells how photography may be utilized in the decoration of the home. Interestingly written and cleverly illustrated by one who knows how.

Any of the above books, Nos. 20F3800 to 20F3842. Price, each **23c**
If by mail, postage extra, each, 2 cents.

THE TELESCOPIC DOUBLE EXTENSION TRIPLE BED, made in three sections and brass bound, is one of the features of this camera. Its construction is such as to secure the greatest possible strength and rigidity even when the bellows is fully extended. A single pinion moves each section of the bed either forward or back, the first section, carrying the lens and shutter, moving out first, and as soon as it is fully extended, automatically locking with the next section, which at once moves forward without the slightest lost motion. By pressing in this pinion the bed is securely locked at any desired point.

IN ADDITION to the special features already described, the Seroco Double Extension Camera is provided with the latest type of Triple Lens Brilliant View Finder, Detachable Lens Board and Piano Hinge. When we offer you the Seroco Double Extension Camera as the best camera made, we do so with perfect confidence that a rigid test and examination of the instrument will demonstrate that it is all and even more than we claim for it.

"COMPLETE INSTRUCTIONS IN PHOTOGRAPHY" free with these Cameras. See page 659.

SEROCO IMPROVED VIEW CAMERA, 1907 MODEL

FOR AMATEUR PHOTOGRAPHERS,

Especially those who may some day take up photography as a profession, the Seroco Improved View Camera is an ideal outfit, as it is adapted to every branch of photography. Indoor and outdoor views, landscapes, buildings and groups, instantaneous and flash light pictures, high class portrait work either at home or in the studio, commercial work and copying, in fact, everything that can be done with any camera, can be done with the Seroco Improved View Camera.

OUR SPECIAL FACTORY TO USER PRICES

5x7...	\$12.00
6½x8½..	13.50
8x10...	15.50

ABOVE PRICES INCLUDE CAMERA, ONE PLATE HOLDER, COMBINATION TRIPOD AND CARRYING CASE.

MADE IN OUR OWN FACTORY AT ROCHESTER, the highest grade view camera that can be manufactured, combining beauty of design, elegance of finish and every convenience in operation and adjustment, with strength, rigidity and adaptability to the widest possible range of work.

FOR PROFESSIONAL PHOTOGRAPHERS,

the Seroco View Camera meets every possible requirement. An ideal outfit for general viewing, groups, landscapes, residences, architectural subjects; in fact, every class of work that naturally comes to the professional photographer in the course of his business, even including high class portrait work.

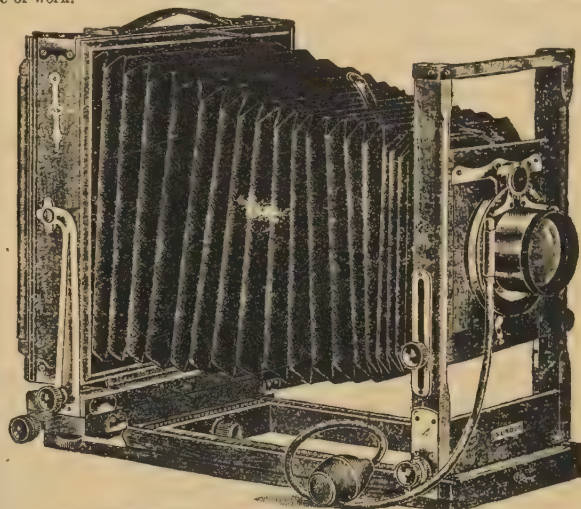

THE GENERAL CONSTRUCTION of the Improved Seroco View Camera combines all the good points that expert camera makers know how to put into a camera. The carefully selected mahogany, with finest high polish rubbed finish; the metal parts heavily nickel plated, carefully fitted and highly polished; the bellows of the best quality black keratol, lined with lightproof gossamer cloth; the three section bed, extra strong and rigid, made from selected cherry, with piano hinge. These are the points that, combined with conscientious, expert workmanship, make for strength, durability and elegance of appearance.

SPECIAL FEATURES OF THE SEROCO IMPROVED VIEW CAMERA.

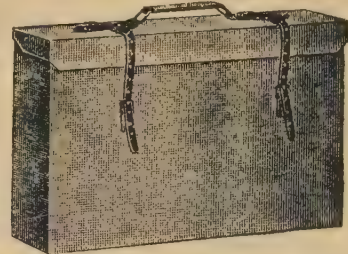

While keeping foremost in our minds at all times, the fact that a view camera must be suited to the hardest kind of practical service, strong, rigid, substantial and durable, we have at the same time incorporated into this camera all those conveniences, all those adjustments and all those improvements that help to make a camera easy to use, and that make it possible to do things which cannot be done with less perfectly equipped cameras. **THE BACK** is reversed instantly and easily, simply by lifting a small catch in plain sight; no concealed buttons, no clips nor other devices to get out of order and make the operation difficult. **THE LENS BOARD** is instantly detachable, and just as easily and quickly replaced, simply by turning a small button which automatically locks itself. **THE CENTRALLY PIVOTED DOUBLE SWING** is operated by two fine rack and pinion movements, one for the vertical swing and one for the side swing. **THE RISING AND FALLING ADJUSTMENT** of the front is also operated by a fine rack and pinion. **THE BED** is made in three sections, with the rear section detachable, so that it may be removed when no longer required. **THE TRIPOD** which we furnish with the Improved Seroco View Camera is an extra strong, extra heavy, extra rigid tripod, made from the best selected ash, folding so compactly that it may be carried in the same case with the camera; absolutely the best tripod that can be made. **THE CARRYING CASE** is made extra strong, covered with canvas lined with cloth, reinforced with wooden partitions and brass bound corners, and fitted with a substantial leather handle.

ABOUT THE LENS AND SHUTTER.

The prices which we quote on this page for the Seroco Improved View Camera, \$12.00 for the 5x7, \$13.50 for the 6½x8½, and \$15.50 for the 8x10 size, are for the camera complete, just as described and illustrated on this page, including the carrying case, one double plate holder and tripod; but these prices do not include lens and shutter. We quote prices on the Seroco Improved View Camera without lens and shutter, because most of the purchasers of a view camera prefer to select their own lens and shutter, or in many cases, already own a suitable lens and shutter. We therefore quote the prices as shown above on the outfit complete, except lens and shutter; and below under numbers 20F1512 to 20F1538 we quote prices on this view camera complete with various styles of lenses and shutters. For complete descriptions of the various lenses and shutters with which we equip the Seroco Improved View Camera, see pages 670 and 671.

Seroco Improved View Camera with rear section of bed detached.

The Carrying Case, with compartments for Camera, Lens and Shutter, Tripod and six Double Plate Holders.

Price, **\$29.75**
 This Camera takes the Seroco Improved Plate Holder. See No. 20F1800 for full description and prices.

STEREOSCOPIC PHOTOGRAPHY

offers greater possibilities, both for pleasure and for profit, than any other branch of photography. There is nothing more beautiful than a stereoscopic photograph, and stereoscopic pictures were never more popular than they are today. There is a general impression that stereoscopic pictures are difficult to make, but as a matter of fact they are just as easy to make as any other pictures, if one is provided with proper equipment. The general principles involved in the making of a stereoscopic picture are exactly the same as in the making of an ordinary single picture. Moreover, we furnish free of charge with the Seroco Stereoscopic Camera, besides a copy of "Complete Instructions in Stereoscopic Photography," a copy of "Stereoscopic Photography," giving full and complete information regarding this branch of photography.

THE SEROCO STEREOSCOPIC CAMERA

is equipped with all of the latest improvements, including the new Conley Automatic Front Clamp, latest improved automatic spring roller septum, rolling or unrolling automatically, as the camera is opened or closed, double shifting front, detachable lens board, rack and pinion focus movement, reversible back—in short, all of the adjustments that go to make up a strictly high class camera. The materials and workmanship are the best that we can put into a camera, solid mahogany, nickel plated brass metal parts, genuine leather coverings and leather bellows, with lightproof gossamer lining. While this camera is designed especially for stereoscopic work, it is at the same time just as suitable for making ordinary single 5x7 pictures, and when used as a single camera, it possesses all of the good qualities that should be expected from any high class camera.

Our Best Penny Picture Camera.

No. 20F2320 THIS CAMERA IS MADE FROM CAREFULLY SELECTED HARDWOOD and handsomely finished. It can be used for any regular portrait work in the studio, up to and including 6x7; also for copying. As a multiplying or penny picture camera, it makes 1, 4, 8, 12, 16, 20, 30 or 48 pictures on one 5x7 plate. Only one lens required. The mechanism is exceedingly simple, very easy to operate. Made with rising front and self locking focus lever. This camera has a 30-inch bed, rubber bellows and uses double plate holders of modern style.

Price, with one double plate holder, **\$16.90**
 Extra plate holders, each, **.65**
 We especially recommend our Portrait Lens No. 20F343 for use with this camera.

The Expo Watch Camera.

No. 20F2230 A True Vest Pocket Detective Camera. The Expo camera is the smallest practical camera ever made, and, although it is so small that it can readily be carried in the vest pocket, it is at the same time a strictly high class practical instrument in every way. The Expo camera is a daylight loading camera using film, and can be loaded for twenty-five exposures at a time. This camera looks exactly like a fair sized watch and pictures can be taken with it anywhere without anyone suspecting that a camera is being used. The pictures taken with the Expo camera are $\frac{1}{2}$ of an inch long by $\frac{3}{4}$ of an inch wide, the exact size shown in our illustration. This camera can be used for either time or instantaneous exposures and is suitable for landscapes, street scenes, groups, portraits, etc., in fact, just exactly the same kind of work which is accomplished by larger and more expensive cameras. The Expo camera is carefully constructed from metal throughout, nickel plated, fitted with a fine achromatic lens and is guaranteed in every respect. So perfect are the negatives made with this little vest pocket camera that the pictures can be enlarged without sacrificing the detail or other good qualities.

No. 20F2230 The Expo Watch Camera. Price complete, without film, (Postage extra, 10 cents), **\$2.25**
No. 20F2231 Daylight Loading Film for Expo Camera, twenty-five exposures to the roll. Price, per roll, **13c**
 If by mail, postage extra, 1 cent.

IMPROVED SEROCO PLATE HOLDERS

WITH DRAKE LIGHTPROOF VALVE.

WE OFTEN SEE THE STATEMENT that the most important part of a camera, and in a certain sense this is true. It is a fact, however, that very good pictures can be taken even with a very cheap lens—even with a lens of quite inferior quality, provided all other parts of the camera are perfect. Looking at the matter purely from a standpoint of results, it would seem that the plate holder is the most important part of a camera, because good results are an absolute impossibility with any camera, regardless of its quality, unless the plate holders are perfect. No matter how finely the camera may be made, no matter how good the lens may be, good pictures cannot be made if the plate holders are faulty. A little light coming in through the valve when the slide is inserted or withdrawn, will offset all the good qualities that the rest of the outfit may possess. If the plate holder is not made of the very best materials throughout, the greatest care exercised in seasoning and kiln drying the lumber, the utmost precautions adopted in carefully and accurately fitting the various parts of the holder together it is inevitable that the holder will sooner or later leak light, resulting in ruined pictures and the loss of good material.

A SPECIAL FEATURE of the Improved Seroco Plate Holder is the New Drake Lightproof Valve, the most perfect device for excluding light from the plate holder that has ever been invented. This valve makes it impossible for any light to get into the plate holder at any time, either when the slide is in or out. The slide may be inserted cornerwise and the valve will automatically close up all around the edges of the slide, making

it impossible for the plate to become light struck. With other plate holders the valve opens clear across the end of the holder if the slide is inserted cornerwise, and of course lets in the light, both when the slide is inserted and when it is withdrawn, unless the greatest possible care is taken to insert it and withdraw it squarely. Every instruction book advises beginners in photography to start the slide into the holder squarely, and this advice has always been necessary until the new Drake Lightproof Valve was invented.

THE WOOD USED in the construction of the Improved Plate Holder is the very finest, carefully selected, straight grained, thoroughly seasoned cherry, which is carefully kiln dried before it is made up into holders. All joints are dovetailed, every part made with the utmost accuracy and put together by workmen of the highest skill. The Improved Seroco Plate Holders are made with fine hand rubbed, polished, mahogany finish, and furnished with either special coated black pressed board slides, or with genuine hard rubber slides.

THE HARD RUBBER SLIDES present the finest appearance, and are perfectly waterproof. The pressed board slides, while not practically waterproof by the special coating which we employ, are really just as good, and are not liable to breakage. They are rendered

SPECIAL ACCESSORY OUTFIT FOR 4X5 CAMERAS, \$6.48

EVERY PHOTOGRAPHER OUGHT TO HAVE every item that is included in this special outfit of accessories, and yet many are prevented from buying all of these useful and necessary items, because of the high cost when purchased in the ordinary way. By putting up all of these items in one big outfit, purchasing each item in enormous quantities from the various manufacturers, assembling and packing all of these items in advance, we are able to cut the cost down to about one-half the price usually asked for such goods, and we urge everyone who purchases a camera from us, and everyone who already owns a camera, to order one of these big outfits. You will be surprised at the pleasure and convenience of taking pictures when properly equipped. You will wonder how you ever got along without all of these items in the past.

Ray Filters.

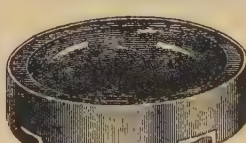

No. 20F2470 A Ray Filter is a small device to be slipped over the hood of the lens during exposure. It absorbs the violet and ultra-violet rays of light and produces a picture in which the color values are correct, that is, it enables us to produce, in monochrome, photographs with true color values. Certain colors or combinations of colors, such as white clouds and blue sky, or reds and yellows, show little or no contrast when photographed without a ray filter. Clouds in a photograph improve the artistic value of the picture wonderfully, and except under very unusual conditions they cannot be obtained at all without using a ray filter. Landscapes photographed with the ray filter possess a brilliancy and contrast which it is impossible to obtain otherwise; and in the photographing of flowers, paintings or any brightly colored subjects, the ray filter is practically indispensable.

No. 1 for lenses 1 1/4 inches in diameter	\$0.60
No. 2 for fixed focus or box cameras	.60
No. 3 for lenses 1 1/2 inches in diameter	.60
No. 4 for lenses 1 3/4 inches in diameter	.75
No. 5 for lenses 1 7/8 inches in diameter	.90
No. 6 for lenses 2 inches in diameter	.90
No. 7 for lenses 2 1/4 inches in diameter	1.05
No. 8 for lenses 2 1/2 inches in diameter	1.20
No. 9 for lenses 2 3/4 inches in diameter	1.35
No. 10 for lenses 3 inches in diameter	1.50
No. 11 for lenses 3 1/4 inches in diameter	1.80
No. 12 for lenses 3 1/2 inches in diameter	2.10
No. 13 for lenses 4 inches in diameter	2.50
No. 14 for lenses 4 1/4 inches in diameter	3.00

If by mail, postage extra, on Nos. 1 to 6, 3 cents; Nos. 7 to 10, 5 cents; on Nos. 11 to 14, 8 cents. Any of the above sizes are suitable for lenses 1/4 inch less in diameter than size mentioned. State exact diameter of lens when ordering.

AUXILIARY ENLARGING AND COPYING LENSES.

No. 20F2475 These lenses are used in connection with the regular lens of any folding camera, greatly increasing its power. By the use of these lenses, copying and enlarging may be done with any folding camera, enabling one to copy other pictures or photograph small articles to their full size or even larger. A 4x5 photograph copied with an ordinary camera will make a picture about the size of a postage stamp, but when copied with the aid of this lens can be made full size or larger. Many uses for this valuable discovery will readily suggest themselves to the user.

No. 1 for 4x5 camera with lens 1 1/4 in. in diam.	\$0.90
No. 2 for 5x7 camera with lens 1 1/2 in. in diam.	.90
No. 3 for fixed focus or box cameras	.90
No. 4 for 4x5 camera with lens 1 1/4 in. in diam.	.90
No. 5 for 5x7 camera with lens 1 1/2 in. in diam.	.90
No. 6 for 4x5 camera with lens 1 1/4 in. in diam.	1.20
No. 7 for 5x7 camera with lens 1 1/2 in. in diam.	1.20
No. 8 any size camera with lens 1 1/4 in. in diam.	1.35
No. 9 any size camera with lens 1 1/2 in. in diam.	1.50
No. 10 any size camera with lens 1 3/4 in. in diam.	1.65
No. 11 any size camera with lens 2 in. in diam.	1.80
No. 12 any size camera with lens 2 1/4 in. in diam.	1.95
No. 13 any size camera with lens 3 in. in diam.	2.10

If by mail, postage extra, on Nos. 1 to 7, 3 cents; Nos. 8 to 10, 4 cents; Nos. 11 to 13, 5 cents.

In measuring your lens, take the outside diameter, remembering that the enlarging lens slips over your regular lens same as a cap.

Any of the above sizes are suitable for lenses 1/4 inch less in diameter than size mentioned.

Auxiliary Portrait Lenses.

No. 20F2478 In making portraits with the ordinary folding hand camera, the great difficulty heretofore has been the small size of the faces. This portrait lens, however, entirely overcomes this difficulty and enables anyone with any kind of a folding camera to make portraits in which the faces are large and distinct. Constructed in the same style and used in same manner as the enlarging lens No. 20F2475.

No. 1 for 4x5 camera with lens 1 1/4 in. in diam.	\$0.90
No. 2 for 5x7 camera with lens 1 1/2 in. in diam.	.90
No. 3 for fixed focus or box cameras	.90
No. 4 for 4x5 camera with lens 1 1/4 in. in diam.	.90
No. 5 for 5x7 camera with lens 1 1/2 in. in diam.	.90
No. 6 for 4x5 camera with lens 1 1/4 in. in diam.	1.20
No. 7 for 5x7 camera with lens 1 1/2 in. in diam.	1.20
No. 8 any size camera with lens 1 1/4 in. in diam.	1.35
No. 9 any size camera with lens 1 1/2 in. in diam.	1.50
No. 10 any size camera with lens 1 3/4 in. in diam.	1.65
No. 11 any size camera with lens 2 in. in diam.	1.80
No. 12 any size camera with lens 2 1/4 in. in diam.	1.95
No. 13 any size camera with lens 3 in. in diam.	2.10

If by mail, postage extra, on Nos. 1 to 7, 3 cents; Nos. 8 to 10, 4 cents; Nos. 11 to 13, 5 cents.

In measuring your lens, take the outside diameter, remembering that the portrait lens slips over your regular lens same as a cap.

Any of the above sizes may be used on lenses 1/4 inch less in diameter than size given.

THIS \$21.10 ASSORTMENT \$9.75 4x5 SUPPLIES

FROM THE PICTURE shown herewith and from the list and descriptions of the various articles furnished, you can obtain some idea of the wonderful value we are offering in this big supply outfit.

EVERY PHOTOGRAPHER, every owner of a camera, everyone who takes pictures, either for pleasure or profit, needs every item that is shown in this big outfit. A list of supplies that would cost you in any retail photographic supply house, at regular retail prices, \$21.10, and which we offer you, all complete, exactly as shown in the picture on this page, each item carefully selected, carefully inspected, tested and absolutely guaranteed, for \$9.75.

IF YOU ARE ABOUT TO BUY ANYTHING in the way of photographic supplies, dry plates, sensitized paper, developers, toners, chemicals of any kind, card mounts, etc., it will pay you to take advantage of this big special offer. **SEND US \$9.75**, and let us ship this big \$21.10 outfit to you. It will go to you with the distinct understanding and agreement that if it is not satisfactory in every respect, if there is any item in the entire outfit that does not give you entire satisfaction, the shipment can be returned to us at our expense, charges collect, and we will refund your money in full.

THE GOODS INCLUDED IN THIS BIG OUTFIT are all strictly high class, all carefully selected, and so proportioned as to work out in the most economical way; there is just enough developer to develop all the plates included in the outfit, with just a little to spare in case of accident, and in the same way there is just enough developer to finish up all of the prints on Darko Paper; there is just enough toning and fixing solution to finish all the prints made on Sero Paper; there are just enough negative preservers to hold the negatives that will be made with the plates included with the outfit, figuring that you will make a few extra negatives that will probably be discarded; there is a big assortment of card mounts in different styles and different colors, so that cards suitable for various styles of pictures may be easily selected.

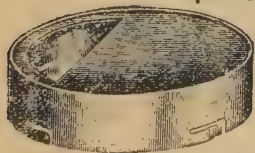

THIS BIG ASSORTMENT of supplies for users of 5x7 Cameras, contains exactly the same style and quality of materials which we furnish with the 4x5 assortment described above, but the plates, paper, cards and other supplies are all in 5x7 size and the assortment includes larger quantities of the various chemicals and other preparations, quantities carefully figured to properly handle the larger 5x7 pictures. The complete outfit contains the following goods:-

10 Dozen 5x7 Roebuck Dry Plates	Regular Price \$11.00
100 Negative Preservers	.25
12 Dozen Sheets 5x7 Sero Gelatine Printing-Out Paper	3.60
12 Dozen Sheets 5x7 Carbon Matte Darko Developing Paper	4.20
12 Packages Hydro-Metol Developing Powders	3.00
10 Packages Toning and Fixing Powders	2.50
8 Packages Darko Developer	2.00
10 One-lb. Carbons Pea Crystal Hypo	.50
100 5 1/2 x 7 1/2 Square Cornered Plain Tinted Cards, assorted colors, gray, tea and sage green	.75
100 Fine Embossed Border Card Mounts, for 5x7 prints, assorted colors, white, queen's gray and sage green	1.35
100 Extra High Class Plain Embossed Cards for 5x7 pictures, beveled edges, square corners, assorted colors, Scotch gray, olive brown and white	1.50
10 4-oz. Tubes Perfection Photo Paste	1.50
Total retail value of this outfit	\$32.15

No. 20F1875 Special Assortment 5x7 Supplies, just as described and illustrated, \$32.15 worth of goods.

\$17.60

Auxiliary Lens Sets.

No. 20F2483 These sets contain one copying and enlarging lens, one portrait lens, one ray filter and one leather case. Be careful to mention size wanted. Put up only in the following sizes:
Set No. 1 for 4x5 camera with lens 1 1/4 in. diam. \$2.55
Set No. 2 for 5x7 camera with lens 1 3/4 in. diam. 2.55
Set No. 3 for 4x5 camera with lens 1 1/4 in. diam. 2.55
Set No. 4 for 5x7 camera with lens 1 3/4 in. diam. 2.55

Postage extra on any size, if sent by mail, 8 cents. Larger sizes are not put up in cases.

Multiplying Slides.

For Making Six Exposures, All Alike or All Different, on One 4x5 or 5x7 Plate.

One of the latest novelties. A set of three plate holder slides so arranged that six separate exposures can be made on one plate. Can be used with any 4x5 or 5x7 focusing camera. An ordinary plate holder becomes a multiplying plate holder when these slides are used. Very easy to use. Full instructions with each set.

No. 20F2522 Multiplying Slides. For 4x5 plate holder. Price, per set.....38c
No. 20F2523 Multiplying Slides. For 5x7 plate holder. Price, per set.....58c

Be sure to state name of holder that slides are to be used in. Cannot be used with box cameras.

ALL OF THE SENSITIZED PAPERS in this big outfit are packed in separate packages of one dozen sheets each, so that only one package need be opened at a time, thus leaving the balance of the paper in the original sealed packages, so there is no danger of its spoiling before it is all used up. The hypo is put up in separate one-pound sealed cartons, and the paste in separate airtight, collapsible tubes.

IN MAKING UP THIS OUTFIT, we give you considerably more than would be obtained when purchasing the same supplies in the regular retail stores, and we have selected the various items in such a way that there is nothing in the outfit that you will not need. There is nothing that will be wasted. Every package of paper, every box of plates, every lot of chemicals contained in this big outfit, will be used, and by ordering this outfit, instead of selecting separate items from the catalogue, you are sure to get your supplies in just the proportion that you will need them; not too much of any one item, and at the same time, plenty of everything, thus insuring the greatest possible economy in your photographic work.

THE COMPLETE OUTFIT CONTAINS THE FOLLOWING ITEMS:

10 dozen 4x5 Roebuck Dry Plates, strictly high class, first quality plates, guaranteed fresh and perfect.	Regular Price \$6.50
100 Negative Preservers, first quality, made of heavy manila paper	.20
12 dozen sheets, 4x5 Sero Gelatine Printing-out Paper, the highest grade printing-out paper made, each dozen sheets put up in separate sealed packages	3.00
12 dozen Carbon Matte Darko Paper, 4x5, the very finest developing paper made, all put up in separate sealed lightproof packages of one-dozen sheets each	3.00
6 Packages of our famous Hydro-Metol Developing Powders, in our opinion the very best developer made for dry plates	1.50
5 Packages of our celebrated Toning and Fixing Powders, the best combined toning and fixing solution made for gelatine printing-out paper, each package put up in sealed tin boxes	1.25
4 Packages Darko Developer, each package containing six hermetically sealed tubes of the very best developer made for developing papers	1.00
5 pounds of the highest grade crystallized pea crystal Hypo, put up in separate sealed airtight cartons, containing one pound each	.30
100 4 1/2 x 5 1/2 square cornered, plain tinted cards, in assorted colors, gray, tea and sage green	.75
100 fine embossed border card mounts, for 4x5 prints, with wide embossed margin, of very handsome design, assorted colors, white, queen's gray and sage green	1.35
100 high class extra quality cards for 4x5 pictures, made with new and very popular style of plain embossed, wide margin, beveled edges and square corners, assorted colors, Scotch gray, olive brown and white	1.50
5 big 4-ounce tubes of our Perfection Photo Paste, a pure vegetable paste of great adhesive power, put up in airtight collapsible tubes, thus keeping the paste in good shape until it is entirely used up	.75
Total retail value of this big outfit	\$21.10
No. 20F1870 Special Assortment 4x5 Supplies.	\$9.75

WONDERFUL SAVING \$32.15 WORTH 5x7 SUPPLIES \$17.60

PHOTOGRAPHIC LENSES.**The Monarch Wide Angle Lens.**

No. 20F2415 The Monarch Wide Angle Lens embraces an angle of 90 degrees, making it especially adapted to photographing the interiors of buildings, out of door views in confined situations; in fact, any work where it is difficult or impossible to get far enough away from the subject in order to get it all on the plate with an ordinary lens. Our Monarch Wide Angle Lenses are handsomely mounted in lacquered brass with fine Iris diaphragm. Made expressly for us by the Bausch & Lomb Optical Company, and represents the latest advances in the making of lenses of this type. The speed of this lens is F 16.

Size of View, inches	Equivalent Focus, inches	Diameter Across Hood, inches	Price, with Iris Diaphragm
4 x 5	3 3/4	1 1/2	\$5.70
5 x 7	5 1/4	1 3/4	6.80
5 x 8	5 1/2	1 3/4	7.10
6 1/2 x 8 1/2	6 1/2	1 3/4	9.90
8 x 10	8	1 3/4	12.80

Seroco Rapid Rectilinear Lens.

No. 20F2421 The Seroco Rapid Rectilinear Lens, a double lens of the rapid rectilinear type, very handsomely mounted in lacquered brass with Waterhouse diaphragms. This lens is perfectly rectilinear, rendering the straight lines of buildings, or other subjects, absolutely without distortion, possesses a remarkable depth of focus and flatness of field, giving the most brilliant definition and detail. This lens is unsurpassed for landscape work, views of buildings, and other architectural subjects, flash lights, groups and instantaneous work. Represents better value than any other lens on the market, and is superior in every respect to many lenses sold at double the prices. In sizes 4x5 to 8x10 inches, inclusive, we furnish the Seroco Rapid Rectilinear Lens either with or without the Unicum Shutter. The speed of this lens is F 8.

The Unicum Shutter gives automatic exposures of 1 second, 1/2 second, 1/4 second, 1/8 second or 1/16 second, with one pressure of the bulb. With indicator set to "B" a pressure of the bulb opens the shutter, which remains open until the pressure is released. With indicator set to "T" the first pressure of the bulb opens the shutter, which remains open until the bulb is again pressed. Back of the shutter blades is a perfect Iris Diaphragm, the opening being instantly adjustable to any desired size by the index lever at lower margin of shutter. Accuracy and entire freedom from jarring are secured by a pneumatic retarding device, and the actuating mechanism of the shutter is fully protected from injury or dust. Made from bronze metal, with nickel plated trimmings, very handsomely finished throughout.

The Seroco Rapid Rectilinear Lens with Unicum Shutter.

Size of View, inches	Equivalent Focus, inches	Diameter Image Circle, inches	Diameter Across Hood, inches	Price of Lens Complete With Unicum Shutter
4 x 5	6 3/4	9	1 1/2	\$ 8.50
5 x 7	8 3/4	10 1/2	2 1/4	9.50
5 x 8	9 1/4	11	2 1/4	11.25
6 1/2 x 8 1/2	12	13 1/4	2 1/4	14.75
8 x 10	14 1/4	16	3	16.75

A COMBINATION PORTRAIT AND VIEWING LENS.**SPEED F 6. THE QUICKEST RECTILINEAR LENS MADE.**

No. 20F2430 The Seroco Extra Rapid Symmetrical Lens is particularly well suited to most rapid instantaneous work and for use on dark, cloudy or misty days, where an ordinary lens would utterly fail. Requires only one-half exposure that must be given with the ordinary rectilinear lens. For all around work, including landscapes, general viewing, high speed instantaneous work, etc., the Seroco Rapid Symmetrical Lens offers advantages over any other existing type of lens on the market today. This lens is perfectly rectilinear, rendering the straight lines of buildings or other subjects absolutely without distortion, possesses great depth of focus, flatness of field and brilliant definition. The great speed of this lens, almost equal to that of an ordinary portrait lens, makes it particularly desirable for portrait work, and for those who do not care to invest in both a rectilinear lens and a portrait lens, we can especially recommend the Seroco Extra Rapid Symmetrical Lens, which will answer both requirements.

Size of View, inches	Equivalent Focus, inches	Diameter Image Circle, inches	Diameter Across Hood, inches	Price of Lens Complete with Automatic Shutter
4 x 5	6 3/4	8 3/4	1 1/2	\$20.55
5 x 7	8	10 1/2	1 3/4	24.75
6 1/2 x 8 1/2	9 1/4	12 1/2	1 3/4	29.65
8 x 10	11 1/4	15 1/4	2 1/4	36.60

THE SEROCO PORTRAIT LENS.**SERIES I. SPEED F 6.**

No. 20F2432 This lens possesses those peculiar optical qualities necessary in portrait work, working very rapidly and yielding soft, brilliant negatives. The 1/4 size is particularly suitable for penny picture work and for small portraits. Many photographers purchase ordinary rectilinear lenses for penny picture work on account of the comparatively low price of such lenses as compared with regular portrait lenses, but in this lens we offer you an opportunity to equip your outfit with a lens designed and made expressly for portrait work, a true portrait lens, at a price even lower than the cost of a rectilinear lens. The 1/2 size and 4-4 size are both designed for regular cabinet work and of the two the 4-4 size is the most popular, as it can also be used for small groups and full figures.

Size	Plate covered, inches	Diameter lenses, inches	Back Focus, inches	Price, with Iris Diaphragm
3 1/2	3 1/2 x 4 1/4	1 1/4	4 1/4	\$ 7.50
4	4 x 4 3/4	2 1/4	7	13.85
4-4	6 1/2 x 8 1/4	3 1/4	11	26.70

The Seroco Rapid Portrait Lens.**SERIES II. SPEED F 5.**

No. 20F2436 The Seroco Rapid Portrait Lens, Series II, is a true portrait lens of the most approved type of portrait lens construction. These lenses are ground from the best imported optical glass, composed of two systems of two glasses each, the front system cemented and the rear system made with an air space between the two glasses. The special formula by which these lenses are ground, combined with their large diameter, gives them a high working speed, producing brilliant negatives with plenty of detail with the shortest possible exposures.

We recommend the Series II Seroco Rapid Portrait Lens as the very best moderate priced portrait lens ever placed on the market, and for general all around work in the studio these lenses cannot be surpassed. These lenses are beautifully finished in lacquered brass with black trimmings, and fitted with a very fine Iris diaphragm.

Size of Plate Covered, inches	Diameter of Lens, inches	Equivalent focus, inches	Distance from Stand'g Cabinet, Feet	Price with Iris Diaphragm
4 x 5	1 1/4	7	8	\$11.65
5 x 7	2 1/4	10	10 1/2	13.50
6 1/2 x 8 1/2	2 1/2	12	13	18.75
8 x 10	3	14	15	30.00

The Seroco Extra Rapid Portrait Lens, Series IV.**SPEED F 4. THE QUICKEST LENS MADE.**

No. 20F2441 At \$58.00 we offer the 6 1/2 x 8 1/2 Seroco Extra Rapid Portrait Lens as the equal in every way of portrait lenses heretofore sold at several times our price. In quality of glass, perfection of finish, careful adjustment and fine workmanship; in softness, delicacy and depth of focus; in speed, flatness of field and brilliancy of illumination; the Seroco Extra Rapid Portrait Lens is not equaled by any other portrait lens on the market, regardless of price or maker. The Seroco Extra Rapid Portrait Lens represents the very latest advances in scientific lens grinding, possessing all those peculiar optical qualities and special brilliancy of definition so necessary in high grade portrait work. The Seroco Extra Rapid Portrait Lens preserves that softness and roundness so essential in portrait making, even when stopped down, a quality possessed by no other portrait lens made, as all other lenses become distinctly wavy when a small diaphragm is employed. We particularly invite comparison of the Seroco Extra Rapid Portrait Lens with any other portrait lens on the market, regardless of price or maker, as we know that in all these special points, whereby a portrait lens is judged, the Seroco Extra Rapid Portrait Lens is the best that money can buy. Made by the Bausch & Lomb Optical Co. and sold everywhere at double our price.

Number	Size of Plate Covered, inches	Diameter of Lenses, inches	Back Focus, inches	Diameter Across Hood, inches	Price, with Iris Diaphragm
1	5 x 8	3 3/4	8 1/2	4 1/2	\$44.00
2	6 1/2 x 8 1/2	4 1/4	11 1/2	5 1/2	58.00
3	8 x 10	4 3/4	13 1/2	5 3/4	89.00

Series II Busch Anastigmat Lens.**SPEED F 5.5.**

No. 20F2447 The Series II Busch Anastigmat Lens works at an aperture of F 5.5, which is about double the speed of the ordinary anastigmat lens.

Absolute flatness of field and complete absence of astigmatism are obtained over the entire angle of 75 degrees, and equal definition is secured over the entire surface of the plate when the lens is used at full aperture. The use of smaller diaphragms greatly increases the covering power and renders the lens very valuable as a wide angle lens, when used on a plate larger than the size for which it is listed.

Both the front and rear combinations are perfectly corrected for spherical and chromatic aberration and astigmatism, and the back lens can be used alone (with small diaphragm) for landscape and portrait work, having a focal length one and three-fourth times that of the complete lens.

REMEMBER, that a lens having a large aperture will do any work that a lens of smaller aperture will do, and in addition will do very many things that cannot be done with a lens of smaller aperture. For instantaneous exposures on dark or cloudy days this lens is indispensable. For portrait work the length of exposure is greatly shortened, an advantage which will be readily appreciated. For high speed, instantaneous work this lens is undoubtedly the very best lens on the market today.

We furnish the Series II Busch Anastigmat Lens in Wollensak Optical Co.'s Automatic Shutter, or in the celebrated Bausch & Lomb Optical Co.'s Volute Shutter.

The Volute Shutter is the highest type of Iris diaphragm shutter, extra rapid, very compact, dust proof and durable. It is beautifully finished throughout; made like a watch in point of accuracy and fine workmanship. Recognized everywhere, by experts as the finest shutter made.

This is a large lens and can be fitted only to cameras having large lens boards and plenty of room in front. Send us your front board when you order, and we will mount the lens without charge.

The prices are for the lens complete with shutter, bulb and tube.

Size of plate covered at full aperture	Size of plate covered at F 11	Equivalent Focus, inches	Price, with Automatic Shutter	Price, with Volute Shutter
4x5	5x7	6	\$25.00	\$24.40
5x7	6 1/2 x 8 1/2	7 1/2	31.00	40.00
6 1/2 x 8 1/2	8x10	10	48.00	57.85
8x10	11x14	13	Not furnished.	75.00

The shutters furnished with these lenses are as follows:

With the 4x5 Lens, Wollensak 6 1/2 x 8 1/2 Automatic, or No. 1 Volute.

With the 5x7 Lens, Wollensak 6 1/2 x 8 1/2 Automatic, or No. 2 Volute.

With the 6 1/2 x 8 1/2 Lens, Wollensak 8x10 Automatic, or No. 2 Volute.

With the 8x10 Lens, No. 3 Volute.

Series III Busch Anastigmat Lens.**SPEED F 7.7.**

No. 20F2448 This lens is constructed upon exactly the same principle as the Series III Busch Anastigmat Lens described above, and in optical qualities is exactly the same in every respect but is a smaller lens, being of lesser diameter, permitting its use in smaller and more compact cameras.

The speed of the Series III Busch Anastigmat Lens is F 7.7, very much faster than the ordinary rectilinear lenses with which most cameras are equipped.

This is an ideal lens for any style of folding camera, and its small size and compact style of construction make it available for use with any kind of a camera. We particularly recommend this lens to those who desire to equip their cameras with a genuine anastigmat lens at the very lowest possible cost, as we are selling these lenses at lower prices than have ever been made for genuine anastigmat lenses.

Remember, this Series III lens is in every respect equal to the Series II described above, possessing the same high degree of correction, the same freedom from astigmatism, the same flatness of field, the same brilliant definition over the entire plate, the only difference being the working speed, which in this series is F 7.7.

Furnished either in the Wollensak Automatic Shutter or the Bausch & Lomb Volute Shutter.

The following prices include the lens complete with shutter, bulb and tube:

Size of plate covered at full aperture	Size of plate covered at F 45	Equivalent focus, inches	Price, with Automatic Shutter	Price, with Volute Shutter
4x5	5x8	6	\$17.50	\$25.00
5x7	7x9	7 1/2	19.75	27.25
6 1/2 x 8 1/2	9x12	10	37.00	43.50
8x10	12x16	13	46.00	52.00

The shutters furnished with these lenses are as follows:

With the 4x5 Lens, Wollensak 4x5 Automatic or No. 1 Volute.

With the 5x7 Lens, Wollensak 4x5 Automatic or No. 1 Volute.

With the 6 1/2 x 8 1/2 Lens, Wollensak 8 1/2 x 8 1/2 Automatic or No. 2 Volute.

With the 8x10 Lens, Wollensak 8x10 Automatic or No. 2 Volute.

The Seroco-Goerz Series II F6.8 Anastigmat Lens.

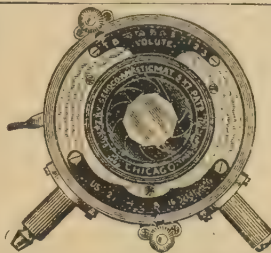

No. 20F2449 This high class anastigmat lens is made expressly for us by C. F. Goerz, of Berlin and New York, the most celebrated lens maker in the world. The name "C. F. Goerz," which is engraved on every one of these lenses, is in itself an absolute guarantee of quality.

The Seroco-Goerz Series II F6.8 Anastigmat Lens is corrected to the fullest extent for spherical, chromatic and astigmatic aberration. Will cover the plate sharp at full opening F 6.8 over an angle of 64 degrees and with a small diaphragm over an angle of 70 degrees.

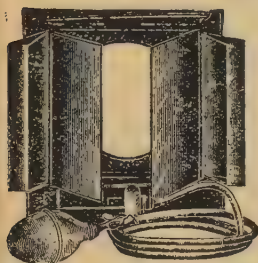

The single combinations, when used with medium or small diaphragms, make very valuable landscape lenses of about double the focal length of the complete objective.

We particularly recommend these lenses to owners of hand cameras, who desire to improve their pictures by discarding the ordinary lenses with which such cameras are equipped and replacing them with one of these high class, genuine Goerz objectives. We furnish these Seroco-Goerz anastigmat lenses equipped with either the Wollensak Automatic Shutter or the Bausch & Lomb Volute Shutter. In our illustration we show the lens equipped with the volute shutter. Be sure to state size wanted.

This lens can be fitted to any folding camera. The shutters furnished with these lenses are as follows: With the 4x5 Lens, Wollensak 4x5 Automatic, or No. 1 Volute, regular; with the 5x7 Lens, Wollensak 6 1/2 x 8 1/2 Automatic, or No. 1 Volute, special; with the 6 1/2 x 8 1/2 Lens, Wollensak 8x10 Automatic, or No. 2 Volute; with the 8x10 Lens, Wollensak 8x10 Automatic, or No. 3 Volute.

8 x 10	10	48.30	54.30

The New Silent Shutter.

No. 20F2574 The Silent Shutter, a new device absolutely noiseless in opening. The photographer who has experienced repeated failures by reason of a child subject or a member of a group looking toward the lens at the critical moment because he heard the "click" of the shutter will appreciate this new shutter, which opens with absolute silence. The cups at the sides form air cushions which arrest the wings as they open, thus avoiding all sound. Bulb and 6 feet of rubber hose furnished with each shutter.

This shutter is placed back of lens or inside of front board. Be sure to state size wanted.

Camera Level.

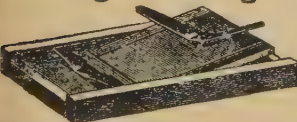

No. 20F2576 This Little Level is intended to be attached to the bed of the camera, enabling the operator to quickly and easily place the camera perfectly level. It is nicely made from brass, finely finished and accurately adjusted. Price,\$7.00

Camera Bulbs.

No. 20F2577 Bulb and Tube for Camera. Made from the very best quality of red rubber, very elastic; tube 2 feet long and can be fitted to any shutter. Rubber always becomes hard, brittle or rotten after a certain length of time, and if the bulb and tube you now have has become useless you can easily fit one of these to your shutter. Price,(If by mail, postage extra, 3c)18c

No. 20F2578 Bulb and Tube. Same as above, but small size for compact folding film cameras; short tube. Price,18c

Light Printing Frames.

No. 20F2580 Light Weight Printing Frame. The best light weight frame made and a great improvement over the ordinary

style. A special point of advantage is the piano hinge, heretofore fitted only to the highest priced frames, giving strength and durability. The finish throughout is good. Be sure to state size wanted. Size, inches. 2 1/2 x 2 1/2 3 1/2 x 3 1/2 4 x 4 4 1/2 x 5 5 x 7 Price, 9c 9c 9c 9c 10c 13c

Not made in larger sizes.

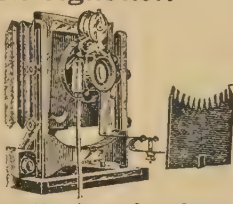

Heavy Weight Printing Frames.

The finest printing frame manufactured, strongly and substantially constructed throughout, heavy brass springs sliding under brass plates instead of grooves in the wood, thus preventing all wear, mortised corners, back in three pieces to prevent warping, high grade piano hinge, finished throughout in the best possible manner. It pays to get good printing frames, and these frames are the best made. Be sure to state size wanted.

The Morrison Vignetter.

No. 20F2585 The Morrison Vignetter is a very ingenious device, which can be attached to any ordinary folding camera of any size and is used in portrait work for shading off the picture gradually toward the edges, just the same as is done by professional photographers. Our illustration shows the manner in which this vignetter is used, and it is substantially constructed from spring brass, nickel plated, is quickly and easily attached to the camera and should form a part of every photographic outfit. There are two vignetting cards, each with different colors on each side, making four colors in all: Black, dark gray, light gray and white, so that the color of any background can be exactly matched. Price, 39c

**Masks.**

Every package contains a large assortment of fancy and novel designs.

No. 20F2587 Made from tough opaque paper, and designed to be placed between negative and sensitized paper while printing, thus producing oval, circular or various fancy shaped prints from any negative. The illustration shows only one of the many sizes of styles. Made for the following

negatives: 2 1/2 x 3 1/2, 3 1/2 x 3 1/2, 3 1/2 x 4 1/2, 4 1/2 x 4 1/2, 4 1/2 x 5 1/2, 5 x 7, 5 x 8, 6 1/2 x 8 1/2, 8 x 10, 10 x 12, 11 x 14, 14 x 17. Assortment No. 1 contains one oval, one circle, one rectangle, one round corner rectangle, the balance being a variety of ornamental designs. Assortment No. 2 is composed entirely of ornamental designs, all different from Assortment No. 1. Price, per package, any size,18c

If by mail, postage extra, on small sizes, 2 cents; on size 4 x 5 3 cents; size 5 x 7, 4 cents. State which assortment you want and size of negative.

Developing Tank.

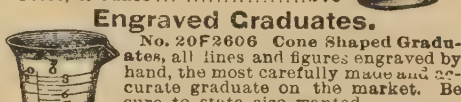

No. 20F2595 Developing Tank for developing roll films. This device consists of a tank 7 inches long by 4 inches wide, with a nickel plated metal rod extended lengthwise of the tank in such a manner that the end of a strip of film can be slipped under the roller and the film drawn up and down through the developing solution contained in the tank. This tank not only makes the developing of roll film in strips very easy and insures good results, but at the same time it is very economical, as the amount of developing solution required in a tank of this design is much less than would be used with an ordinary tray. Strongly and substantially made throughout of metal, and nickel plated. Price,88c

**Measuring Glasses.**

No. 20F2600 Tumbler Shaped Measuring Glasses. For liquids; graduated with ounces and drams; not quite as convenient as the regular cone shaped graduate, but preferred by many on account of the extremely low price. Be sure to state size wanted. Price, 2 ounce, .40c Price, 4 ounce, .60c Price, 8 ounce, .90c Not mailable.

Pressed Line Graduates.

No. 20F2605 Cone Shaped Graduates. For measuring liquids; marked with scale showing ounces and drams. Perfectly accurate. Be sure to state size wanted. Price, 1 ounce, .80c Price, 2 ounce, .90c Price, 4 ounce, .120c Price, 8 ounce, .180c Price, 16 ounce, .270c

**Engraved Graduates.**

No. 20F2606 Cone Shaped Graduates, all lines and figures engraved by hand, the most carefully made and accurate graduate on the market. Be sure to state size wanted.

Fixing Baths.

No. 20F2610 These Fixing Baths are made of metal, thoroughly coated with a preparation which renders them impervious to the action of hypo. They are a very great convenience at a very low price. The use of these baths for fixing avoids the danger of spots and stains, which is the frequent result of fixing in the ordinary tray. They hold six plates each. These baths are provided with a rising bottom, so that the plates are readily raised above the top—a great convenience in removing them from the box and avoiding the danger of scratching. Be sure to state size wanted.

No. 0, for plates 3 1/2 x 3 1/2. Price,20c
No. 1, for plates 3 1/2 x 4 1/2. Price,22c
No. 2, for plates 4 x 5. Price,24c
No. 3, for plates 5 x 7 or 5 x 8. Price,30c
If by mail, postage extra, 10, 16 and 22 cents.

Zinc Washing Box.

No. 20F2615 Zinc Washing Box, a perfect device for washing plates, and should form a part of every photographic outfit. Constructed throughout of zinc and cannot rust. The water enters through the inlet tube, is circulated through the whole area of the box and passes off through the outlet tube. The patent lifting bottom is a valuable feature of this box, as the plates can be lifted out with no danger whatever of scratching. If running water is not at hand, the box is simply filled and emptied several times, in this way thoroughly washing the plates. Once used you will never be without it again.

Folding Negative Rack.

No. 20F2675 The Folding Negative Rack is a very convenient and necessary accessory for the support of negatives while drying and prevents them from being scratched; will hold 20 negatives. For plates, 4 1/2 x 3 1/2. Price.....8c

No. 20F2676 Folding Negative Rack. Same as above, but larger, hold 24 negatives, suitable for any size up to and including 8x10. Price.....9c

Ruby Lamps.

No. 20F2680 Candle Ruby Lamp, constructed of metal, has deep ruby glass, burns candle. A very convenient and satisfactory lamp at a low price. Price.....14c

Extra Candles.

No. 20F2681 Candles to fit above lamp, small flat paraffine candles in pasteboard cups, burn two hours. Made especially for dark room lamps. Price, per dozen.....17c

Oil Ruby Lamp.

No. 20F2683 Oil Ruby Lamp. A strictly

first class metal lamp, fitted with both orange and ruby glass, which gives the safest and best light. Has adjustable screen for shielding the eyes, ventilation is perfect, reservoir can be filled from outside and light be turned up or down without opening the lamp. A regular \$1.00 lamp. Price.....34c

No. 20F2685 Ruby Oil Lamp, same as No. 20F2683. Regular \$1.50 size. Price.....60c

Print Rollers.

Indispensable for smoothing down prints after mounting and for squeezing prints on ferrotype plates.

No. 20F2695 4-inch Print Roller, rubber covered, large wood handle, as shown in illustration. Price.....10c

No. 20F2697 6-inch Print Roller, rubber covered, large wood handle, as shown in illustration. Price.....18c

Print Trimmers.

No. 20F2700 Prints always have to be trimmed before mounting, and while this can, of course, be done fairly well with scissors or knife, at the same time the advantages of a regular trimmer as here illustrated will be readily apparent. It trims the prints quickly, easily and squarely. The blade is made of finest tempered steel, the board of polished hardwood, has graduated measure which also serves as guide for the paper. Our illustration shows way in which this trimmer is used. Trims any size from 4x5 down. Price.....45c

No. 20F2701 Trimming Board, same as No. 20F2700, but larger, suitable for prints up to 5x7. Price.....85c

No. 20F2702 Trimming Board, same as No. 20F2700, but with 10 1/2-inch blade, suitable for any size up to and including 8x10. Price.....95c

Our Best Grade Trimmer.

No. 20F2710 The blade is made from the same steel used in the best paper cutting machines, finely tempered and ground to a perfect edge. The board is made of hardwood, polished, and so constructed that it cannot warp. The spring joint, by which the blade is attached, allows a slight lateral motion, so that the two cutting edges are in perfect contact at every point, insuring perfect, clean cut edges to either cards or paper. The illustration shows method of trimming a print. Length of blade, inches.....6 1/2 8 1/2 10 1/2 12 1/2
Price.....90c \$1.25 \$1.90 \$2.30

Centering Square.

No. 20F2711 Centering Square. A novel device by means of which photographic prints can be instantly and accurately centered on the card mount. Everyone knows how difficult it is to put the pictures over on the card sometimes, and this little device overcomes all this trouble, resulting in much better looking pictures. Made of brass, nickel plated, full instructions with each one. Price.....22c

Photographers' Kits.

KITS are thin wooden frames which fit into a plate holder, the same as an ordinary plate, and the opening in the center holds a plate of smaller size than the holder is designed for. They are to be used when it is desired to take smaller pictures than the regular size of the camera, and thus save the expense of the larger plates.

Telescopic Metal Tripods.

No. 20F2570 These New Telescopic Metal Tripods are the lightest and most compact tripods on the market. They are very convenient to use under all conditions and especially desirable when traveling.

They are very substantially constructed, very carefully made and finely finished throughout. Each joint telescopes, or slides into the joint above it, a spring catch holding the legs of the tripod firmly when they are fully extended. Be sure to state size wanted.

Size No. 1. Three sections, adapted to light 4x5 or smaller cameras. Price.....\$1.50

Size No. 2. Four sections, heavier tubing than No. 1, adapted to ordinary 4x5 cameras. Price.....\$1.95

Size No. 3. Five sections and heavier and stronger tubing, adapted to heavy 4x5 and light 5x7 cameras. Price.....\$2.65

Size No. 4. Seven sections, extra high grade, made of heavier tubing giving additional strength and greater compactness, as the seven sections, when folded, fit together very compactly. Suitable for any style of 4x5 or 5x7 camera. Price.....\$3.00

Burnishers.

No. 20F2770 Amateur Burnishers, the only thoroughly practical oil heating, double roller burnishers yet placed on the market at a low price.

They are thoroughly well made in every respect, simple, clean, economical and safe. Make your outfit complete by adding one of these excellent machines. Suitable also for regular professional use. Be sure to state size wanted.

If by mail, postage extra, per sheet, 1 cent.

No. 20F2822 Metal Push Pins. For hanging up films and prints to dry, strong sharp pointed steel pins with large substantial metal heads. A great convenience for any photographer.

Price, per box of 12 pins.....18c

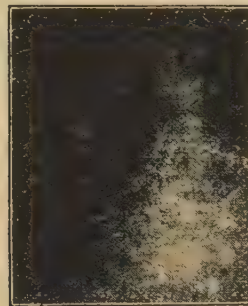

BACKGROUNDS

OUR BACKGROUNDS ARE ALL PAINTED IN OIL ON FINE MUSLIN, perfectly waterproof, and will not crack; practically indestructible. Do not compare our grounds with water color grounds or distemper, which are ruined if touched by water and can hardly be handled without cracking. A secret process known only to the painter who makes our backgrounds, enables him to get a perfect dull or dead finished surface in oil, making an ideal background, crackproof, waterproof and photographically correct.

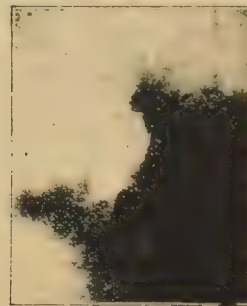

CLOUDED HEADGROUNDS.

Clouded Design No. 40.

Clouded Design No. 41.

Clouded Design No. 42.

No. 20F2719 The above headgrounds, in clouded designs, Nos. 40, 41 and 42, are especially suitable for bust pictures, although the larger sizes, 5x7 and 6x8 are extensively used for full figure work and small groups. Very artistic, up to date grounds, giving the soft shadowy effects so desirable in portrait work. Painted in oil on the best muslin. No better headgrounds are made at any price. State whether you want design No. 40, 41 or 42. These grounds are suitable for either right or left light, and several different effects can be obtained by using the ground in different positions. Be sure to state size wanted.

Size, 4x4 feet. Price.....\$0.70
Size, 5x6 feet. Price......84
Size, 5x7 feet. Price.....1.05
Size, 6x8 feet. Price.....1.50

SCENIC BACKGROUNDS.

Scenic Design No. 1.

Scenic Design No. 5.

Scenic Design No. 7.

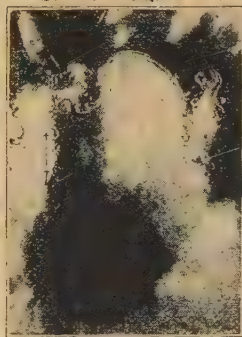

No. 20F2735 The above illustrations show our line of scenic backgrounds, painted expressly for us, the very latest and most artistic designs, painted in oil, on the best grade of muslin, guaranteed to be waterproof, will not crack, and will stand more rough handling than any other grounds made.

Size, 6x8 feet. Price.....\$3.30
Size, 8x8 feet. Price.....3.90
Size, 8x10 feet. Price.....4.95
Size, 8x15 feet. With Floor Extension. Price.....6.40
Size, 10x15 feet. With Floor Extension. Price.....8.90
Size, 12x15 feet. With Floor Extension. Price.....9.75

State size, design, and which side light falls on, when ordering. If light falls on right side of sitter, when sitter is in position, it is "right light." Right light falls on left side of operator when operator faces sitter. Do not judge these backgrounds by the prices we ask for them. There are no better grounds painted at any price.

Scenic Design No. 10.

Plain Black and Blue-White Grounds.

No. 20F2728 These perfectly plain, flat tinted backgrounds are the very latest and most up to date grounds for portrait work. They are suitable both for indoor and outdoor use. make splendid grounds for the use of amateur photographers and are extensively used by the most up to date professional photographers in the large cities.

The blue-white ground photographs almost white, having just enough tint in it to afford a little contrast with white draperies, and is the best color to use if the pictures are to be vignettied. The black ground is a perfect dead black and is particularly desirable when making portraits with Rembrandt lighting. Be sure to state size wanted.

Size, 5x6 feet. Price.....\$0.90
Size, 6x8 feet. Price.....1.60
Size, 8x10 feet. Price.....4.00
Size, 8x15 feet. With floor extension. Price.....6.00

Price, each, any size, 12c.

Emboss Your Own Cards.

No. 20F2882 Embossing Tool, for making raised center mounts from ordinary plain cards. This tool is used in connection with above trimming forms. The card is simply laid on the form and the embosser, which consists of a very perfect steel ball, mounted in the end of a substantial handle, is run around the edge of the form with sufficient pressure to depress the cardboard. Our Nos. 20F3325 and 20F3330 cards are particularly well suited for embossing in this manner, although it works perfectly with any kind of plain cardboard. The card, of course, is embossed with the same form used to trim the prints, consequently oval prints of any size may be made without investing in a large assortment of embossed cards, and the print is sure to fit the embossing. Price, 65c.

If by mail, postage extra, 4 cents.

Hydrometers.

No. 20F2888 For making up solutions by hydrometer test instead of using scales and weights; very convenient. Complete, with glass jar, in wooden box. Price, 15c.

If by mail, postage extra, 10 cents.

Focus Cloth.

No. 20F2890 Fine Quality Black Gosamer Focus Cloth, 36x36 inches. Price, 22c.

No. 20F2891 Focus Cloth. Same as above, but double size; 36x72 inches. Price, 44c.

If by mail, postage extra, 10 cents.

The Little Gem Albums.

You frequently have a few pictures which are especially interesting, and which if mounted on cards are apt to get soiled or misplaced; but this neat little booklet will exactly fill your requirements, bring out the beauty of your photographs and please your friends. Made in two sizes only, one for 5x7 pictures, the other for pictures 4x5 or smaller. Has six flexible leaves, thus holding 12 pictures each. Be sure to state size wanted.

No. 20F3400 The Little Gem Album for pictures 4x5 or smaller. Price, 8c.

No. 20F3401 The Little Gem Album for pictures 5x7. Price, 12c.

Order several, they are cheaper than card mounts.

Souvenir Postal Card Albums.

No. 20F3480 Postal Card Album, bound in cloth with fine quality Melton leaves, 24 pages (12 leaves), holds 24 postal cards, one on a page. Price, 18c.

No. 20F3481 Postal Card Album, same as No. 20F3480 but larger size, 24 pages (12 leaves), holds 48 postal cards, two on a page. Price, 30c.

No. 20F3486 Postal Card Album, extra fine quality, substantially bound, 100 pages (50 leaves), holds 100 postal cards, one on a page. Price, bound in fine silk finish black cloth, 38c.

No. 20F3487 Postal Card Album, same quality as No. 20F3486 but larger size, 100 pages (50 leaves), holds 200 postal cards, two on a page. Price, bound in fine silk finish black cloth, 70c.

No. 20F3488 Postal Card Album, same as No. 20F3486 but still larger size, 76 pages (38 leaves), holds 304 postal cards, four on a page. Price, bound in fine silk finish black cloth, 1.25.

No. 20F3489 Postal Card Album, same as No. 20F3488 but still larger size, 76 pages (38 leaves), holds 304 postal cards, four on a page. Price, bound in heavy, extra quality black walrus grain leather, 2.70.

Flexible Leaf Albums.

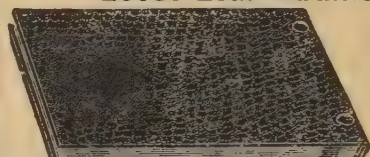

These very attractive albums are made with flexible covers and leaves, bound in best black English book cloth, or full leather with either seal grain or heavy walrus grain effect. The leaves are of the popular ash gray tint, harmonizing with almost any kind of print, and making the albums suitable either for matt surface prints on developing paper, or for glossy squeegeed prints on printing out papers. In mounting on these thin flexible leaves it is only necessary to put a little paste on each corner or along one edge of the print.

Catalogue No.	Size of Leaf, Inches	Number of Leaves	Price, English Cloth	Price, Seal Grain Leather	Price, Heavy Walrus Grain Leather
20F3450	5 1/2 x 7	25	\$0.23	\$0.55	\$0.64
20F3451	5 1/2 x 7	50	.32	.64	.96
20F3452	7 x 10	25	.32	.80	.96
20F3453	7 x 10	50	.48	.96	1.28
20F3456	10 x 12	25	.64	1.28	1.60
20F3457	10 x 12	50	.80	1.60	1.92
20F3458	11 x 14	25	.80	1.60	1.92
20F3459	11 x 14	50	.96	1.92	2.56

Pleasing effects are secured by putting several prints on page, for example, four prints, 4x5, just fit the 11x14 leaf.

Loose Leaf Albums.

The new Loose Leaf Flexible Extensible Album, a patented album presenting new and very desirable features. The covers of this album are made extensible so that additional leaves may be added at any time if desired. The leaves are also removable so that undesirable subjects can be taken out and new ones added at any time. The loose leaf and extensible features do not in any way detract from the pleasing appearance of the book, which in general appearance looks just the same as a solidly bound book.

The leaves are just heavy enough to be slightly stiff, thus keeping their shape perfectly, but at the same time are thin enough so that the book is flexible. The leaves lie perfectly flat when the book is open. This album contains 24 leaves and as many as 12 more can be added if desired. It is furnished in three styles of binding, fine quality black English book cloth, best genuine black seal grain leather and the new heavy walrus grain leather.

Catalogue No.	Size of Leaf	For Pictures	Price, English Book Cloth	Price, Seal Grain Leather	Price, Heavy Walrus Grain Leather
20F3465	6x7	4x5	\$0.96	\$1.44	\$1.68
20F3466	7x10	5x7	1.12	1.76	1.93
20F3467	10x12	6 1/2 x 8 1/2	1.44	2.40	2.63
20F3468	11x14	8x10	1.76	3.04	3.33

With the larger sizes, several prints can be mounted on a page. For example, with the 10x12 or 11x14 sizes two 5x7 or four 4x5 prints on a page present an attractive appearance.

Extra Leaves for Flexible Extensible Album.

Photographic Instruction Book.

281 Pages. Fully Illustrated. Bound in Cloth. By Townsend D. Stith.

Publisher's price, \$1.00; our price, 40c.

No. 20F3860. A systematic course and working guide in all the processes which ordinarily take up the attention of camera workers. This is absolutely the best book on the subject published. It tells how to choose a camera, all about developing, all about printing and the different methods of toning, tells all about the different kinds of plates and sensitized papers, how to use each and their special advantages. Explains in detail the best way to make interiors, flash lights, portrait groups, landscapes. Complete instructions for retouching, copying, making lantern slides and enlargements, and thousands of other subjects of interest for all who would know and understand the camera. Size, 5x7 inches. 281 pages. Retail price, \$1.00; our price, 40c.

If by mail, postage extra, 10 cents.

LUMIERE'S DRY PLATES.

For a great many years the Lumiere Plates have been known as the best and highest grade of dry plates manufactured in Europe.

THE LUMIERE COMPANY is the largest manufacturer of sensitized products in Europe, and this famous company has now opened a factory in the United States, in which they are making their complete line of extra high class dry plates.

WE CAN CONSCIENTIOUSLY RECOMMEND of perfection. We carry in stock the Sigma, the Halation Ortho brands of the Lumiere plates.

Lumiere's Sigma Plates.

No. 20F2951 The Sigma brand of Lumiere dry plate is a plate of extreme rapidity, the most rapid plate on the market. The Sigma plate produces negatives that are exceptionally fine grained and absolutely free from chemical fog. These plates are especially adapted to studio work on dark days, to flashlight work, instantaneous pictures on gloomy days, and for all classes of work where an extremely rapid plate is desirable. For general use with folding hand cameras, where most of the exposures are instantaneous, and where many of the pictures are taken under adverse conditions, these plates are unexcelled. For high speed instantaneous work, such as focal plane shutter exposures with the Reflex camera, the Sigma plate stands without an equal.

Lumiere's Green Label Plates.

No. 20F2952 The Green Label brand of the Lumiere plate is exactly the same kind of a plate as the Sigma, possessing all the good qualities of the Sigma plate, but is not quite so rapid, requiring exposures about 50 per cent longer than the Sigma. The Green Label Lumiere plate is adapted to general all around work, especially for portrait work in the studio. Although not possessing as great rapidity as the Sigma plate, it is at the same time sufficiently rapid for all ordinary requirements, including quick, instantaneous exposures. The Green Label plate allows a little more latitude in exposure than the Sigma, owing to the fact that it is a little slower, and for this reason is perhaps a somewhat easier plate to use, and is preferred by most workers for general purposes.

Size	Quantity in Case	No. 20F2952 Green Label Price per Case	No. 20F2951 Sigma Price per Case
3 1/2 x 3 1/2	30 doz.	\$ 8.15	\$ 8.73

14 x 17	3 doz.	18.34	19.65

Lantern Slide Plates.

No. 20F2956 Lumiere's Lantern Slide Plates. An extra high grade lantern slide plate, 3 1/2 x 4 inches. Price, per case, (thirty dozen), \$9.60; per doz., 34c

Special Lumiere Chemicals.

Lumiere plates can be worked with any of the standard developers and other chemicals in common use, but the special Lumiere chemicals are exceptionally good and we recommend them not only for the Lumiere plates, but for all other plates as well.

No. 20F3230 Diamodophenol, a new developing agent, requiring no alkali, developer is made with diamodophenol and sulphite soda only.

Price, per ounce, 45c

No. 20F3234 Formosulphite, a new product, used as a substitute for both preservative and alkali (sulphite of soda and carbonates) in developers. Used with pyro, hydrochinon and other developers it produces greater density and brilliancy. Other advantages are greater economy, good keeping qualities and hardening effect on the film.

Price, per pound, 45c; per 4-ounce bottle, 18c

No. 20F3237 Lumiere's Fixing Salt, makes one quart of fixing solution for plates, very fine.

Price, per package, 5c

Cramer's Isochromatic Plates.

MADE BY G. CRAMER DRY PLATE CO.
Not in the Trust.

No. 20F2962 Cramer's Isochromatic Plates are very desirable when photographing subjects in which color values are desirable, such as landscapes, flowers, paintings, portraits, etc.

Landscapes made with these plates possess a brilliancy impossible to secure with ordinary plates. Cloud effects are more easily obtained, and they are unsurpassed for portrait work.

We furnish the Cramer Isochromatic Plates in two speeds—the medium and the instantaneous.

Size	Quantity in case	Price, per case	Price, per dozen
3 1/2 x 3 1/2	30 doz.	\$ 7.95	\$ 0.27
3 1/2 x 4 1/2	30 doz.	8.94	.30
4 x 5	30 doz.	12.92	.44
5 x 7	20 doz.	14.59	.74
5 x 8	20 doz.	13.12	1.11
6 1/2 x 8 1/2	12 doz.	15.91	1.63
8 x 10	10 doz.	11.93	2.84
10 x 12	4 doz.	16.93	4.07
11 x 14	4 doz.	17.89	6.10
14 x 17	3 doz.		

State whether you want medium or instantaneous. For general use we advise the medium.

Lumiere's Panchromatic C Plates.

No. 20F2953 Lumiere's Panchromatic C Dry Plates are true orthochromatic plates, made especially sensitive to green, yellow and red, making them particularly adapted to landscape work and general outdoor photography.

The Panchromatic C Plates are particularly desirable for photographing landscapes, flowers, paintings, portrait work, etc., as they give true color values—that is, they show a difference between certain shades or colors, which would all appear alike if photographed with an ordinary plate.

With ordinary plates we have reds that take too black, blues that take too white, and yellow or orange that takes the same as red, black or green. These Panchromatic C plates discriminate in these and other colors, making negatives in which the true values of these colors are shown.

Landscapes made with the Panchromatic C plates possess a brilliancy not to be obtained with any ordinary plate. Flowers, paintings, and other highly colored subjects cannot be successfully photographed without the use of these color sensitive plates. Portraits made with these plates are far superior to portraits made with ordinary plates.

The speed of this plate is the same as the Lumiere Green Label.

Lumiere's Non-Halation Ortho Plates.

No. 20F2954 Lumiere's Non-Halation Ortho Plate is a combination orthochromatic and non-halation plate of the very highest quality.

Interior views can be made with these plates directly toward bright windows or open doors. They preserve perfect detail in tree tops outlined against a bright sky, they add wonderfully to the brilliancy of white draperies in portraiture, they are indispensable for photographing snow scenes. The combined non-halation and orthochromatic properties of this plate make it an ideal plate for landscape work, yielding brilliant negatives, absolutely free from halation, and with true color values.

Halation is avoided in this plate by an entirely new process, the plate being coated, before the emulsion is put on, with a dark red dye, which absorbs all light rays penetrating the emulsion, absolutely preventing reflection from the glass and in this way overcoming all halation. After the plate is developed and fixed the red dye is removed from the plate by immersing the negative for a few moments in the Lumiere Special Non-Halation Dye Remover.

The speed of this Non-Halation Ortho Plate is the same as Lumiere's Green Label Plate, making it suitable for general photography, including very quick instantaneous work.

Size	Quantity in Case	No. 20F2953 Panchromatic C		No. 20F2954 Non-Halation Ortho	
		Price, per Case	Price, per Doz.	Price, per Case	Price, per Doz.

The prices quoted above on the Non-Halation Ortho Plates include a sufficient supply of the Dye Remover, which comes packed right with each box of plates.

Hammer's Dry Plates.

MADE BY HAMMER DRY PLATE CO.
NOT IN THE TRUST.

No. 20F2967 Hammer's Dry Plates, another of the well known standard brands; is considered by professional photographers to be one of the best plates made. We furnish this plate in one speed only—the extra fast—suitable for studio work or general all around photography.

THE ROEBUCK DRY PLATES.

NOT MADE BY THE TRUST.

No. 20F2960 We offer the Roebuck Dry Plate as the equal of any dry plate made, a plate that can be depended upon under any conditions, a plate that is suitable for any kind of work.

THE ROEBUCK DRY PLATES are coated on the finest quality of imported Belgium glass, carefully sorted and free from bubbles, scratches or other imperfections.

THE EMULSION IS RICH IN SILVER, yielding strong, vigorous negatives with a wealth of detail and no tendency whatever toward fogging. The factory in which the Roebuck plates are made is one of the most perfectly equipped dry plate factories ever built, furnished with the very latest and most approved styles of coating machines, and a most complete system of ventilation and refrigeration, giving perfect control of both temperature and hygroscopic conditions. It is this perfect equipment, combined with long experience in dry plate making and the most perfect materials, which enables us to produce perfect plates and offer them at prices heretofore considered impossible.

THE ROEBUCK PLATES ARE EXCEEDINGLY RAPID, giving the finest possible results in the studio where short exposures are so desirable. For landscapes, portraiture, interiors, flashlight work, instantaneous exposures; in fact, any work requiring a uniformly rapid and reliable plate, the Roebuck plate is unsurpassed. In brilliancy, detail, uniformity and speed, the Roebuck plate will satisfy the most exacting operator.

Banner and Crown Plates.

MADE BY G. CRAMER DRY PLATE COMPANY.
Not in the Trust.

No. 20F2966 We furnish Cramer's Plates in two speeds—Banner and Crown. The Banner plate is extensively used for portrait work in the studio, and is sufficiently rapid for most instantaneous work out of doors.

The Crown plates are extremely rapid and suited to the shortest possible exposures.

Cramer's plates are so well known and have been so extensively used for years, both by amateurs and by professional photographers, that further comment on their merits seems unnecessary.

REMEMBER, THAT A COPY OF

"COMPLETE INSTRUCTIONS IN PHOTOGRAPHY"

will be included, free of charge (if you ask for it), with every \$2.50 order for Photo Goods. See page 659.

SEROCO PAPER

OUR SPECIAL PRICE FOR
4x5 SIZE,

10c

Per Dozen,

95c

Per Gross.

NOT MADE BY THE TRUST.

AT ONLY 10 CENTS PER DOZEN OR 95 CENTS PER GROSS

(if ordered in gross lots), for the popular 4x5 size (other sizes at proportionately low prices), we offer our Seroco Gelatine Printing-Out Paper as the very best photographic paper it is possible to make, the equal of any gelatine printing-out paper on the market regardless of name or price, that may be offered at much higher prices. Seroco is not to be compared with the many cheap gelatine papers on the market which are offered at various prices.

**SEROCO PAPER
IS MADE ESPE-
CIAALLY FOR US**

by one of the best

and most perfectly equipped factories in America, under the personal supervision of an expert and successful maker of sensitized paper. It is a paper that is the result of long experience in the manufacture of sensitized paper, combining the good qualities of all other gelatine printing-out papers and the defects of none, a paper that we feel safe in putting out under our personal guarantee as not only the highest quality paper on the market, but also under our guarantee that the special prices we name are not to be approached by any paper of equal quality on the market.

DO NOT COMPARE SEROCO WITH ANY OF THE VARIOUS LOW PRICED PAPERS ON THE MARKET. Most of these other low priced papers are so called "mill run," which is only another name for second quality, and these are the papers that many dealers offer in an attempt to meet the prices on Seroco. We guarantee that every sheet of Seroco is first choice, first quality, carefully sorted, every sheet subjected to the most rigid scrutiny for blemishes or imperfections and every sheet we send out is positively perfect.

OUR CHALLENGE OFFER. Send us your order for Seroco paper at the special prices as printed opposite, give it a thorough test, and if you do not find it perfectly satisfactory in every way, exactly as we have described it, by far the best gelatine printing-out paper you have ever used, if you do not find it superior in every respect to any of the low priced papers offered by other dealers, say so, and we will return your money without question or argument.

IMPORTED STOCK. Seroco is coated on the very best and highest quality genuine imported stock, only the highest grade and the very best quality gelatine is used, chemically pure gelatine, manufactured expressly for emulsion making, and the paper is coated by the best and most up to date process, under expert handling. Seroco is rich in silver, the chemicals used in its preparation are the very best that money can buy, and when we offer Seroco as the best gelatine printing-out paper on the market, we know the result it gives will substantiate our claims. Seroco is a hardened paper, the film being absolutely insoluble and it will not soften even in the hottest weather. It can be used in any climate, and its keeping qualities are unexcelled.

SEROCO IS AN EASY PAPER TO WORK. It can be toned in any ordinary gold toning bath, or if preferred, it may be worked by the combined toning and fixing process. Seroco prints quickly, and it yields tones of unequal richness with a wealth of detail in the halftones and a clearness of whites that is unsurpassed.

If you want the very best gelatine printing-out paper it is possible to produce, don't fail to order Seroco. Our special prices, as named below, are based on the manufacturing cost, the cost of material and labor with but our one small percentage of profit added, a price we are able to name only by reason of our immense output of this paper, and while we sell this paper in immense quantities, we pay strictest attention to quality, and can guarantee each and every package.

There are many so called cheap papers on the market. We do not claim that Seroco is the lowest priced paper on the market, unless you take quality into consideration. If we were inclined to sacrifice quality for price, we could offer you cabinet size gelatine printing-out paper as low as 70 cents per gross. By using domestic stock, lower grade chemicals and less silver, we could make a paper to sell at this price that would be equal to the best of the so called cheap papers on the market, but our experience has taught us that there is nothing to be gained in using or selling low grade photographic paper. There is no satisfaction for the customer in using a paper of poor quality, for such papers only give dissatisfaction and spoil your work. We therefore urge you to buy the highest grade printing-out paper made, and order Seroco.

Our special prices on Seroco paper are as follows:
No. 20F2910 Seroco Paper.

Size	Dozen	Gross	Size	Dozen	Gross
2½x2½	\$0.07	\$0.68	6 x 8	\$0.30	\$2.90
3½x3½	.08	.89	6½x 8½	.33	3.06
3½x4½	.09	.90	7 x 9	.38	3.85

5 x 7	.23	2.10	20 x24	2.40	24.00
5 x 8	.24	2.35	4 x 5 Seconds		.73
10-foot rolls, 26 inches wide.			Cabinet Seconds		.75
10-foot rolls, 26 inches wide.			Price, each		1.15
10-foot rolls, 26 inches wide.			Price, each		2.98

Less than one gross is sold at dozen rate only. For example: One-half gross of 4x5 (which is 6 dozen) would cost 60 cents; (6 dozen at 10 cents per dozen), and not one-half of 95 cents. We cannot violate this rule under any circumstances.

**A DEVELOPING PAPER
FOR BLACK AND WHITE
PICTURES.**

DARKO

NOT MADE BY THE TRUST.

4x5, PER DOZEN, 10c
5x7, PER DOZEN, 16c

DARKO IS ABSOLUTELY THE BEST DEVELOPING PAPER MADE

easy to work, beautiful in its results and absolutely permanent. The artistic qualities of Darko are unsurpassed, combining the effects of carbon and platinum.

**DARKO IS PRINTED
BY LAMP LIGHT.**

Sunlight is entirely unnecessary. Printing may be done at night or at any other time, regardless of light or weather.

ONLY A FEW SECONDS

are required for printing, a few seconds for developing, and then, after fixing and washing, the pictures are complete. For simplicity, speed of manipulation and results, Darko stands without a rival.

DARKO PAPER IS

COATED on the very best quality of imported stock, the highest grade and in a factory equipped with all the latest improvements, under the personal supervision of a most experienced and successful maker of developing paper.

ABSOLUTELY PERMANENT. Prints made on Darko Paper will last as long as the paper itself, and WILL NEVER FADE OR DISCOLOR WITH AGE.

FREE PROFIT SHARING ARTICLES.
SEE PAGES 1 AND 2.

DARKO PAPER IS MADE IN FOUR STYLES, AS FOLLOWS:

No. 20F2911 CARBON MATT DARKO.

No. 20F2912 ROUGH DARKO.

No. 20F2913 GLOSSY DARKO.

No. 20F2914 SMOOTH PORTRAIT DARKO.

CARBON MATT DARKO AND SMOOTH PORTRAIT DARKO give results which are practically the same, namely, a fine matt surface or dull finish. Carbon Matt Darko is best suited to soft negatives, and Smooth Portrait Darko is best adapted to hard negatives, that is, negatives which show considerable contrast.

GLOSSY DARKO, as the name implies, finishes with a glossy or highly polished surface like ordinary gelatine printing-out paper, and should be squeezed or burnished.

ROUGH DARKO yields especially artistic effects and is suitable both for landscape work or portraits. The surface is quite rough, a style of finish which is now very popular.

DARKO WILL KEEP FOR MONTHS and you can safely order a considerable supply without fear of its spoiling on your hands.

PRICES ON DARKO. Order by number, as given above. Prices are the same on any kind of Darko.

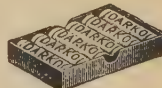

PRICES ON DARKO.				Order by number, as given above. Prices are the same on any kind of Darko.

DEVELOPER FOR DARKO PAPER

A combination of hydrochinon and metal in dry form, put up in tightly sealed pasteboard tubes, six tubes to a package. Each package makes twenty-four ounces of developer for Darko and all other developing papers.

No. 20F2915 Price, per package.....19c

ANTI-FRICTION DEVELOPER FOR DARKO.

No. 20F2917 This is a special developer, intended particularly for use with glossy Darko or any other style of glossy developing paper. It is a well known fact that all glossy developing papers are subject to a certain defect known as friction marks or abrasion marks which appear on the prints in the form of dark lines or scratches. It is impossible to guarantee all glossy papers to be free from this apparent defect; but the use of this developer with such papers entirely prevents any difficulty from this cause. It can also be used with any of the other styles of Darko or any developing papers, and many operators consider it superior to the regular developer for any kind of paper. Put up in powder form in sealed tubes. Price, per package of 6 tubes, .20c

SEPIA TONER FOR DARKO PAPER.

No. 20F2918 Re-Developer or Toner for prints made on Darko or other developing papers. This preparation, with which prints on developing papers are treated after development in the regular way, gives the prints a very beautiful sepia tone. The preparation is very simple to use, the resulting tones are very beautiful and a very agreeable change from the regulation black and white ordinarily obtained. Can be used with any of the different styles of Darko paper. Price, per package (not mailable), .28c

SILVERED DARKO PAPER.

No. 20F2923 Be sure to state size wanted.

SILVERED DARKO

PAPER is one of the latest novelties in the line of sensitized papers and is justly becoming very popular. Silvered Darko is a developing paper, being manipulated just the same as any other style of Darko, simply requiring a short exposure to artificial light, after which the picture is developed.

THE DISTINGUISHING FEATURE of this paper is the burnished silvery surface, due to a thin metallic coating, giving a beautiful silvery sheen to the picture and making it at once striking and different from anything else made. Silvered Darko must be seen to be appreciated; it is impossible to do it justice in a description. Be sure to state size wanted.

Order enough to give it a fair trial.

Size, 3½x3¼. Price, per dozen, 12c; per gross, \$1.20
Size, 3½x4¼. Price, per dozen, 12c; per gross, 1.20
Size, 4 x 5. Price, per dozen, 20c; per gross, 1.60

Size, 5 x 7. Price, per dozen, 28c; per gross, 2.80
Size, 5 x 8. Price, per dozen, 32c; per gross, 3.20
Size, 6½x8½. Price, per dozen, 48c; per gross, 4.80
Size, 8 x 10. Price, per dozen, 64c; per gross, 7.20

THIS PAPER KEEPS GOOD INDEFINITELY.

You can order by the gross without fear of its spoiling on your hands. For Developer, see No. 20F2915. Price, per package, 19 cents.

SENSITIZED POSTAL CARDS.

No. 20F2950 THIS IS A VERY POPULAR NOVELTY,

consisting of regulation size postal cards, printed on one side just like the government postal cards and sensitized on the reverse side. They make delightful souvenirs when printed with your favorite pictures and mailed to your friends. These postal cards are worked just the same as Darko, the prints being made by

artificial light and developed, yielding beautiful warm black and white tones. Put up only in packages of one dozen or one-half gross. Price, per half gross, 75c; per dozen, 1.50

literally true with Brilliant Darko. Printing is accomplished in a few seconds by artificial light, development is almost instantaneous, and then fixing and washing completes the work. Brilliant Darko is coated on the very finest grade of pure imported stock, the prints are absolutely permanent, and the wealth of detail in the halftones was never before produced in a developing paper. State size wanted.

Size Dozen Half Gross Gross
3½x3¼ .09 .50 \$0.93
3½x4¼ .10 .57 1.08
4 x 5 .12 .60 1.15
3½x5¼ .12 .65 1.20
4 x 6 .14 .75 1.50

Brilliant Darko keeps indefinitely. Don't hesitate to order in quantity, and thus reduce the cost of transportation. Brilliant Darko is developed with the same developer used for regular Darko. See No. 20F2915.

AZURO BLUE PAPER.

AZURO is an Extra High Grade Blue Print Paper, Fully Guaranteed.

No. 20F2925 Be sure to state size wanted.

BLUE PAPER is very easy to manipulate, as it requires no toning. Prints can be made from it very rapidly and no chemicals are necessary. It is merely printed for about ten minutes in the sunlight and then washed thoroughly in clean water. It will retain its sensitiveness longer than any other paper, and full instructions for working accompany each package.

It is a good paper for beginners for printing landscapes, etc.

The prints are of a brilliant blue and white color. Put up in hermetically sealed tin cans of 24 sheets. We guarantee our paper to be the best blue paper made. Be sure to state size wanted.

Special prices will be quoted, if desired, on larger sizes up to 40x72, or on rolls.

CARDBOARD DARKO PAPER.

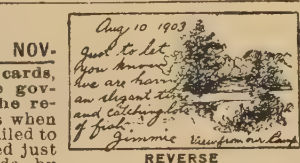

No. 20F2933

A SENSITIZED CARDBOARD,

producing results exactly like other styles of Darko, and worked in the same way. Instead of being a thin, flexible paper, like all other sensitized papers, Cardboard Darko is a thick, stiff cardboard, and the pictures do not need to be mounted. The finish is a dull or matt surface, the tone a pure black and white. Very pleasing results are obtained on Cardboard Darko by printing with a mask, thus leaving a white margin.

Size, 3½x3¼. Price, per doz., 8c; per ½ gross, \$0.45
Size, 3½x4¼. Price, per doz., 9c; per ½ gross, .49
Size, 4 x 5. Price, per doz., 11c; per ½ gross, .60
Size, 3½x5¼. Price, per doz., 13c; per ½ gross, .65
Size, 5 x 7. Price, per doz., 23c; per ½ gross, 1.20
Size, 5 x 8. Price, per doz., 24c; per ½ gross, 1.26
Size, 6½x8½. Price, per doz., 38c; per ½ gross, 2.10
Size, 8 x 10. Price, per doz., 45c; per ½ gross, 3.50

Cardboard Darko is developed with the regular Darko developer. See No. 20F2915.

**ANSCO FILM.**

DAYLIGHT LOADING. NON-CURLING. FOR USE IN ANY KODAK, BUCKEYE, ANSCO, HAWKEYE OR SEROCO FILM CAMERA.

No. 20F2970

THIS FILM

is put up in regular daylight loading

cartridges of either six or twelve exposures and is adapted to any modern make of daylight loading film camera, including the Eastman Kodaks and the Seroco film cameras.

ANSCO FILM is made by one of the largest and best known film makers in the world, a manufacturer whose name on any article of photographic merchandise is a guarantee of good quality.

EVERY ROLL OF ANSCO FILM which we sell is put out to be absolutely perfect, guaranteed to be equal to any film on the market, regardless of price, and we will replace with new film or refund the purchase price on any Ansco film found defective to the slightest extent.

ANSCO FILM IS ANTI-TRUST FILM. It is the only anti-trust film on the market. If you buy another make of film, you are contributing to the support of the trust and to the maintenance of high prices on photographic goods. Be sure to state size and name of camera.

No. 20F2987 Size No. 2. Sixteen different colors, in polished cherry box. Price, \$1.87

Rubber Aprons.

No. 20F2989 Rubber Aprons. Made especially for photographers; protect the clothing from chemical stains and dirt of all kinds. Length, 40 inches. Price, .50c

Exposure Tables.

No. 20F2972 A Little Book of Tables which gives you the exact exposure at any hour of the day, and any day of the year with any brand of plates, or any speed of lens. Simple and absolutely correct. No more over exposed or under exposed plates. Price, (if by mail, postage extra, 1c), 15c

Exposure Meter.

No. 20F2973 Cheape Exposure Meter. A simple and easily used device by means of which the correct exposure for any kind of picture, either indoors or out, under any kind of weather conditions, may be instantly and accurately determined. The Cheape Exposure Meter is very nicely made from white celluloid, with letters and figures in blue and red. It is one of the easiest to use and most satisfactory exposure meters on the market. Full directions with each one. Price, .25c

If by mail, postage extra, 2 cents.

Exposure Meter.

No. 20F2974 The Bee Exposure Meter. A thoroughly reliable, practical and easily used exposure meter, made same size and shape as a small watch, diameter only 1 1/4 inches. The use of this little exposure meter does away entirely with the annoying calculations as to the time of day and weather conditions, which are a part of the process of using exposure meters of other types. With this meter a little strip of sensitized paper is exposed through a slot in the face of the instrument until its tint matches the printed tint beside the slot, and, with the length of time required for matching this tint as a factor, the correct exposure under any conditions of light or weather, at any time of the day or year, indoors or outdoors, with any brand of plates, is instantly determined.

Price, complete, with a supply of sensitized paper, full instructions and speed card.....\$1.10
If by mail, postage extra, 5 cents.

**Photo Paste in Jars.**

No. 20F2975 Perfection Photo Paste. The most perfect paste ever made for mounting photographs. It is always ready for use, of great adhesive power and will not mould, sour or deteriorate in any way. The Perfection Paste is a purely vegetable paste, containing no acids or other ingredients injurious to photographs.

Price, 4-ounce jar.....9c
Price, 8-ounce jar.....14c
Price, 16-ounce jar.....28c
Price, 32-ounce jar.....48c
Unavailable on account of weight.

Photo Paste in Tubes.

No. 20F2976 This Paste is the same as described under No. 20F2975, but is put up in collapsible soft tin tubes. Paste put up this way never gets hard or dry and is always ready for use.

Price, 1-ounce tube.....4c
If by mail, postage extra, 4 cents.
Price, 2-ounce tube.....6c
If by mail, postage extra, 8 cents.
Price, 4-ounce tube.....9c
Postage extra, 12c.

**Opaque.**

No. 20F2990 It is frequently desirable to block out or render opaque certain parts of a negative, and this can easily be done with this preparation, which is simply applied to the negative with a small camel's hair brush. Price, per box, 20c.

If by mail, postage extra, 2 cents.

Polish for Ferro Plates.

No. 20F2992 Ferrotype Plate Polish. A small quantity of this preparation rubbed over the ferrotype plate before squeezing, makes it impossible for the print to stick to the plate.

Price, per box.....10c
If by mail, postage extra, 2 cents.

Martin's Specialties.

A line of special photographic preparations, radically different from anything on the market and of great merit.

No. 20F2995 Sordine. Liquid for sensitizing cloth, paper, postcard or other materials. Prints made on cloth can be washed without injury; very useful in making sofa pillows, banners, tidies, book marks, etc. Price.....30c

No. 20F2996 Intensine. An intensifier in dry form for glass or film negative or lantern slides. Gives extra good intensifier. Price.....15c

No. 20F2997 Platyn. A single platinum toner that gives fine platinum tones on any kind of printing-out paper, or on cloth prints made with Sordine. Price, per 1/2-ounce bottle, sufficient for 80 ounces toning bath.....30c

No. 20F2998 Blue Print Powder. A special chemical preparation for sensitizing paper, cloth, cards or other materials for making blue prints. The powder is simply dissolved in water and the solution applied to the paper or cloth, or whatever it is desired to make the picture upon, with a camel's hair brush. By using this special blue print sensitizing preparation you can make beautiful blue prints on writing paper, on cloth, on cardboard, or on almost any material that you may desire. Full directions with each package.

Price, per 1-ounce bottle, 13c; per tube.....9c

DEVELOPERS.**Hydro-Metol Developer.**

No. 20F3015 We consider this the best liquid developer, being a combination of the well known hydrochinon and metol; works very rapidly, never fogs the plate, brings out all the details and gives a very brilliant negative. Price, per 4-oz. bottle.....18c
Unavailable on account of weight.

DEVELOPING POWDERS.

We especially recommend the purchase of developers in powder form, as they slip better, transportation charges are exceedingly small and the purchaser gets the greatest possible value for the money, as the expense of bottling, compounding, etc., is all saved.

Eikonogen Developing Powder.

No. 20F3020 These powders afford a very convenient means for preparing the liquid Eikonogen developer; avoids the risk of breakage in transportation, and always insures a fresh and strong developer. Each package contains six sets of powders, which is sufficient to prepare 24 ounces of concentrated developer. Price, per package.....15c
If by mail, postage extra, 3 cents.

**Hydro-Metol Developing Powders.**

No. 20F3025 Our Hydro-Metol Developing Powders, a combination of hydrochinon and metol, are made from the purest chemicals, put up in the most careful and exact manner, and will be found a perfect developer in every way. Our Hydro-Metol Developing Powders work very rapidly, do not fog or stain the plate, and produce brilliant, sparkling negatives, full of detail and of the most perfect printing quality. The best Developing Powder made.

Price, per package containing six powders, sufficient to make 24 ounces of developer.....16c
If by mail, postage extra, 3 cents.

Eiko-Hydro Developing Powders.

No. 20F3026 A combination of Eikonogen and Hydrochinon, making a developer equally well suited to time exposures or instantaneous work, and one of our most popular productions. This developer works rapidly, is clean and stainless and produces a bright, snappy negative. Price, per package of six powders, sufficient for 24 ounces of developer.....15c
If by mail, postage extra, 3 cents.

**TONERS.**

No. 20F3035 Combined Toning and Fixing Solution, a high grade toning and fixing bath in one solution. For toning Seroeco paper or any kind of gelatin printing-out paper. Our Combined Toning and Fixing Solution yields a variety of tones, and as it is rich in gold it may be used repeatedly. Price, per 16-ounce bottle, 29c; per 8-ounce bottle.....16c
Unavailable on account of weight.

Cold Toning Solution.

No. 20F3040 Many photographers prefer to work their paper in separate baths, that is the toning and fixing being done in two separate baths; and this is certainly the most correct method, as prints made in a combined toning and fixing bath are very apt to fade or discolor in time. This gold toning solution requires only to be diluted with water, and after toning, the prints are fixed in a plain solution of hypo. Concentrated. Price, per 8-oz. bottle, 27c
Unavailable on account of weight.

Toning and Fixing Powders.

No. 20F3045 Toning and Fixing Powders, for preparing the combined toning and fixing bath. The toning bath made from these powders possesses all the good points of our regular liquid toner, and for use is simply dissolved in water. These Toning and Fixing Powders are radically different from any other preparation of the kind on the market, and are the only thoroughly reliable and perfect toner and fixer in dry form ever made. Made especially for Seroeco paper, but yield splendid results with any gelatin printing-out paper.

Price, per package, sufficient for 24 ounces solution.....15c
If by mail, postage extra, 6 cents.

Platinum Toning Solution.

No. 20F3048 Platinum Toning Solution, for producing black tones on any gelatin printing-out paper, such as Seroeco. The platinum finish is very popular and this toning bath affords an easy method of obtaining fine black platinum tones at small expense; also produces fine results with Autotype paper.

Price, per 8-ounce bottle, concentrated.....28c
Unavailable on account of weight.

Intensifying Powders.

No. 20F3055 Intensifying Powders, for strengthening weak negatives. Require only to be dissolved in water to make ready for use. One package makes 24 ounces of solution.

Price, per package.....16c
Unavailable on account of weight.

Reducing Powders.

No. 20F3065 Reducing Powders, for thinning negatives which are too dense. When dissolved in water, this powder forms a reducing solution ready for use. Each package makes 24 ounces of solution. Price, per package.....15c
If by mail, postage extra, 4 cents.

Neg-Dry.

No. 20F3070 Neg-Dry is a hardener for either plates or paper and is a most remarkable preparation. One of the most annoying things in photography is the long time required for a negative to dry after washing. When treated with this preparation, the negative can be dried in five minutes by artificial heat, and the film becomes so hard that it can scarcely be scratched or marred in any way. Used with Darko paper, the finished prints can be dried within a few minutes after development. Can be used over and over again. Price, per 4-ounce bottle.....17c
Unavailable on account of weight.

Acid Hypo.

No. 20F3075 Acid Hypo is a preparation in dry form for making the acid fixing bath. Requires only the addition of water to make it ready for use. The acid fixing bath is of great advantage, both for plates and films, and for developing papers, having a clearing effect and preventing fog.

Price, per box.....8c
If by mail, postage extra, 8 cents.

Photographic Chemicals.

We absolutely guarantee the purity of our photographic chemicals.

No. 20F3090 Pyrogallic Acid, the old reliable developer. Our Pyro is a pure, resublimed pyrogallic acid, of the very finest quality, guaranteed equal to any pyro on the market, regardless of price. Put up in tins.

Price, per pound.....\$2.30 Price, per 1/2-pound.....65c
Price, per 1/4-pound.....25c Price, per ounce.....20c

No. 20F3091 Schering's Pyro, a standard make of pyro, still preferred by many photographers.

Price, per 1/4-pound.....4.46 Price, per ounce......65

Defendol.

A New Developing Agent for either Plates or Paper.

No. 20F3099 Defendol, the new developing agent, offers advantages over any developer yet produced and is suitable for any paper, such as darko, lustre, etc. or for dry plates. Defendol is not poisonous. It does not stain the fingers; plates can be left in it for hours and still remain clear; it is cheaper than other developers; it keeps indefinitely in dry form; it remains clear in solution longer than other developers. Defendol retains its working qualities to the last drop, being practically inexhaustible; it can be used over and over again, and it is the best developer known for bromide papers. No surplus of soda is necessary in making up Defendol developer, no other chemical except dry carbonate of soda being required.

100 Pounds of Hypo for \$1.90.

No. 20F3225 Hyposulphite of sodium, or Hypo, as the photographers call it, is one of the most important chemicals used in photography, and none but the best grade should ever be used.

OUR HYPO is the best chemical—pure pea crystals, free from dirt; small, perfectly formed crystals. Clean and dry. No caking, no waste.

SPECTACLES AND EYEGLASSES.

WE PARTICULARLY CAUTION OUR CUSTOMERS against buying the very cheap grades of spectacles or eyeglasses. The lenses of these cheap goods are made of very poor material, are improperly cut, and almost certain to do untold injury to the eyes. An injury to your eyes can be mended or repaired, but an injury to the eyes may never be cured. **THE PROPER READING DISTANCE** for ordinary print is from 12 to 14 inches. If it is necessary to hold the reading nearer the eye than this, glasses for near sight are required. If it is necessary to hold the reading more than 12 to 14 inches away from the eye, glasses are required for far sight. Practically everybody should wear glasses after reaching the age of forty years, as the eyes at this time commence to be far sighted, and the longer the wearing of glasses is put off the harder it will be to remedy the trouble. Near sightedness is also very common, especially among young people, and should never be neglected, as this trouble is so easily and perfectly relieved by proper eyeglasses or spectacles.

TYPE FOR TESTING THE EYES.

60 The smallest size letters on this card should be read easily at fifteen inches from the eye. If you cannot do so you should wear spectacles. It does not pay to buy cheap spectacles.

52 They distort the rays of light, disturb the angles of vision, cause pain and discomfort and injure the eyesight. When it is necessary to hold work or reading matter farther than fifteen inches from the eyes

44 in order to see distinctly, it is a sure sign of falling vision, and much annoyance, discomfort and pain will be prevented

40 by having a pair of glasses fitted. Pain in the eyes when wearing spectacles is usually caused

36 either by improperly fitted lenses, or from the centres of the lenses not corresponding with

32 the centres of the eyes. To be perfect, a lens must be made with highly polished surfaces

26 of accurate curvatures. Our crystalline lenses are the best in the market.

22 They are made from the clearest and finest material obtainable

INSTRUCTIONS FOR ORDERING.

Give the catalogue number of the style of Spectacles or Eyeglasses you want, and answer very carefully the following test questions. When ordering spectacles or eyeglasses of any kind to be sent by mail, include 5 cts. extra for postage. **WE WILL REFUND YOUR MONEY IN FULL IF THE SPECTACLES WE SEND YOU DO NOT FIT YOUR EYES PERFECTLY.**

TEST QUESTIONS.

- No. 1. What is your age?
- No. 2. Have you ever worn glasses before, and if so, how long and what number were they?
- No. 3. Do your eyes stand out prominently or are they sunken?
- No. 4. Do your eyes become tired after slight use?
- No. 5. Does the light hurt your eyes?
- No. 6. How long is it since your sight began to fail?
- No. 7. Do you suffer from headaches or pain over the eyes?
- No. 8. Can you see well at a distance without glasses?
- No. 9. Do you desire glasses for reading or for seeing at a distance?
- No. 10. Can you read test type No. 30F at a distance of 20 feet without glasses? If not, what number can you see at this distance?
- No. 11. What is the number of the smallest type that you can easily and distinctly read, when holding this page at a distance of 12 inches from the eyes, without glasses?
- No. 12. What is the greatest possible distance at which you can easily and distinctly read paragraph No. 26, without glasses?

If you desire SPECTACLES answer the following three questions:

- No. 13. What is the distance between the pupils (A to B)?
- No. 14. What is the width of nose at base (C to D)?
- No. 15. What is the distance between the temples (E to F)?

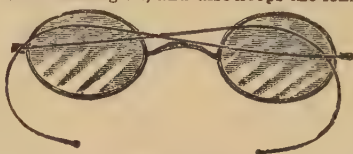

If you desire EYEGLASSES answer the following four questions.

- No. 16. What is the width of nose (T to T)?
- No. 17. What is the width of nose (P to P)?
- No. 18. Is the bridge of your nose prominent or flat?
- No. 19. What is the distance from the center or pupil of one eye to the center or pupil of the other eye?

Steel, Alumnico and Solid Gold Riding Bow Spectacles.

The Riding Bow Spectacles, known also as Hook Bow, are to be preferred in all cases where the glasses are to be worn constantly, or nearly so. The shape of the temples prevents the spectacles falling off, and also keeps the lenses more exactly in the proper position all the time.

- No. 55F111 Steel Spectacles, first quality, riding bow temples, finely tempered, with good quality lenses. Price,48c
- No. 55F114 Best Grade Steel Spectacles, the very best riding bow steel spectacle made, nickel plated, finely finished, perfectly tempered, and warranted in every respect. These spectacles are fitted with the finest quality crystalline lenses, carefully ground and accurately centered. Price,88c
- No. 55F115 Alumnico Spectacles, riding bow temples, light and well finished, with fine accurately centered crystalline lenses. Alumnico is a composition metal in weight and color exactly like aluminum. Warranted not to tarnish. Price,\$1.00
- No. 55F125 Solid Gold Spectacles, riding bow temples, perfection joints, highly polished and fitted with the finest accurately centered crystalline lenses. Price, 14-karat, \$3.30; 10-karat,\$2.50

STRAIGHT TEMPLE SPECTACLES.

Straight Temple Spectacles are most suitable for those who wear glasses for near work only, and therefore remove them frequently from the eyes.

No. 55F132 Steel Spectacles; first quality, straight temples, finely tempered, with good quality lenses. Price,45c

No. 55F134 Best Grade Steel Spectacles, the best straight temple steel spectacle that can be manufactured, full nickel plated, perfectly tempered, elegantly finished, both frame and lenses guaranteed in every way. These spectacles are fitted with the very best quality of accurately ground crystalline lenses, carefully adjusted. Price,85c

No. 55F136 Alumnico Straight Temple Spectacles for 95 cents. We offer these genuine Alumnico Straight Temple Spectacles as the most satisfactory, most durable and most comfortable straight temple spectacle made, except the solid gold or gold filled styles. They are far superior to steel, as alumnico is a light, silvery metal that will never rust or tarnish, but will always keep its fine bright color. These frames are as carefully finished as our best solid gold, and fitted with our highest grade crystalline lenses. Price,95c

Our Special Cold Filled Straight Temple Spectacles, at \$1.65.

No. 55F140 We furnish these extra high grade Straight Temple Spectacles as absolutely the best straight temple gold filled spectacle that can be manufactured. They are genuine gold filled, made with two plates of extra heavy solid gold over an inner plate of hard composition metal, and we will replace without charge any pair that discolors, tarnishes or wears through to the composition metal in ten years. Equal in appearance to solid gold, beautifully finished and fitted with the very highest grade crystalline lenses. Price,\$1.65

No. 55F145 Solid Gold Spectacles; straight temple bows, perfection joint, highly polished, heavy weight; fitted with the finest accurately centered crystalline lenses. Price, 14-K., \$3.45; 10-K.,\$3.20

Bifocal Lenses.

The illustration shows appearance of Bifocal Lenses. We recommend Bifocal Lenses in cases where spectacles are required for both near and distant vision. We furnish these lenses in the style known as cemented bifocal lenses, which are the latest, best and most satisfactory style made. Any of the spectacles or eyeglasses in this catalogue (except the rimless) can be furnished with bifocal lenses for 50 cents extra; for example, spectacle No. 55F136, the regular price of which is 95 cents, would be \$1.45 with bifocal lenses.

Flexible Guard Eyeglasses.

The Flexible Guard eyeglasses are generally preferred when glasses are not constantly worn, as they are easily adjusted to the nose.

No. 55F160 Alumnico Eyeglasses, flexible cork lined guards and oval spring, light and of silvery color, will not tarnish, fitted with finest periscopic lenses. Price, 75c

No. 55F165 Gold Filled Eyeglasses, flexible cork lined guards and oval spring, warranted for ten years, fitted with finest crystalline lenses. The very highest grade gold filled flexible guard eyeglass frame that can be produced. Price,\$1.25

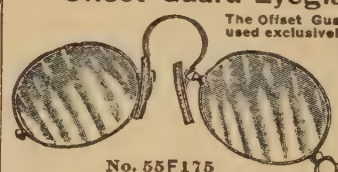

Offset Guard Eyeglasses.

The Offset Guard Eyeglasses are used exclusively when glasses are worn constantly, as they are specially adapted to remain in a fixed position.

No. 55F170 Alumnico Eyeglasses, offset guards, cork or shell lined, hoop spring, light and of silvery color, warranted not to tarnish, fitted with finest periscopic lenses. Price,75c

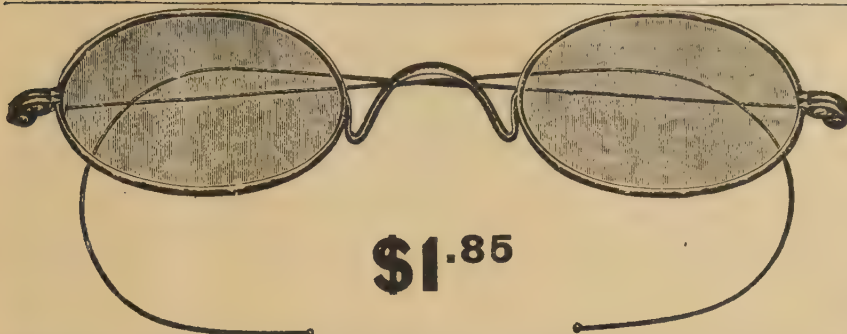

No. 55F175 Gold Filled Eyeglasses, offset guards, either cork or shell lined, round hoop spring warranted for ten years, fitted with finest crystalline lenses. The very highest grade offset guard gold filled eyeglass frame that can be produced. Price,\$1.25

Colored Spectacles.

No. 55F212 Colored Lens Spectacles, a high grade steel frame spectacle; with best colored corneal lenses, riding bow temples. Colored spectacles are a great comfort to those whose eyes are weak, protecting them from strong light, and do much toward preserving the sight. Furnished with either smoke or bl lenses. Price,32

OUR \$1.85 GOLD FILLED SPECTACLES.
OUR TEN-YEAR GUARANTEE. We put out every pair of these spectacles under our binding ten years' guarantee, and if they wear through, tarnish, discolor or give out by reason of defect in material or poor workmanship at any time within ten years, we will replace them with a new pair or refund the amount paid for them.

WHY WE CAN SELL SPECTACLES AT PRICES SO MUCH LOWER THAN ARE CHARGED BY OTHERS.

It has always been customary for opticians to make enormous profits and the prices asked are always entirely out of proportion to the actual value of the goods themselves. Opticians attempt to justify their extortionate prices on the plea that their customers are paying them for their skill, their time and their knowledge.

WE ARE ABLE, however, by reason of the enormous number of orders we receive for spectacles, to sell these goods on our regular staple merchandise small profit plan.

made by the most expert and experienced workmen and fitted with the very highest grade, the very best quality centered crystalline lenses. We not only guarantee this gold filled spectacle to be the very best gold filled spectacle that can be made, but we guarantee it to be equal in every respect to gold filled spectacles sold by opticians at from \$5.00 to \$8.00 per pair.

WE GUARANTEE that the frame of our \$1.85 gold filled spectacle is a genuine American Optical Co. frame, made by the American Optical Co., makers of the highest grade spectacle frames in the world.

REMEMBER, we send these glasses out with the understanding that if they are not perfectly satisfactory in every way, if they do not fit your eyes perfectly, enable you to see better than any other glasses you have ever worn, they can be returned to us at our expense, and we will refund your money.

No. 55F190 Gold Filled Riding Bow Spectacles. Price..... **\$1.85**

ABOUT THE QUALITY. Spectacles offer a greater opportunity for unscrupulous dealers to impose upon their customers than is found in any other line of merchandise. Spectacles, and particularly spectacle lenses, are made in a great variety of qualities, ranging all the way from the highest class of optically perfect goods down to trash that is not only worthless but liable to result in permanent injury to the wearer's eyesight. We could offer to our customers gold filled spectacles at \$1.50 per pair, or \$1.25, or \$1.00, in fact, we could even sell gold filled spectacles, all complete, at 75 cents per pair if we used a low grade of lenses, cheap frames, and allowed our orders for spectacles to be filled by cheap incompetent workmen. We believe, however, that quality is more important, perhaps, in spectacles than any other line of merchandise. We believe that the very best is none too good, and when we offer you our special gold filled spectacle at \$1.85, we absolutely guarantee that it is the highest grade gold filled spectacle that can be made. We guarantee that it is genuine 10-karat gold over the highest grade composition metal,

CABLE BOW GOLD FILLED SPECTACLES

\$1.98.

CABLE RIDING BOW SPECTACLES are the most comfortable and most satisfactory style of spectacles that can be worn. The secret of their comfort lies in the fact that the bows or temples are of a peculiar twisted construction made from the very highest grade fine gold filled wire twisted together like the strands of a rope, this peculiar construction being plainly shown in our large illustration. This method of making the bows renders them very flexible and somewhat larger than the regulation style, making it impossible for them to cut into the flesh back of the ears, thereby entirely doing away with the discomfort which is often experienced with the ordinary style.

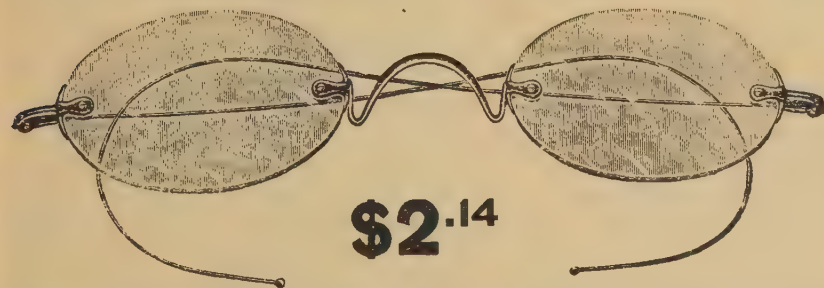

ABOUT THE QUALITY. In our cable bow gold filled spectacles at \$1.98 we maintain exactly the same high standard of quality that we do in our \$1.85 gold filled spectacles. We guarantee that the frame is a genuine American Optical Co. frame, the highest grade frame that can be manufactured, solid 10-karat gold over an inner white composition metal, exactly the same as our No. 55F190 gold filled spectacles, except that the bows are made from fine, gold filled, twisted wire instead of the one-piece gold filled wire. We guarantee that the lenses are the very highest grade genuine crystalline lenses, accurately centered.

OUR 10-YEAR GUARANTEE. We send these spectacles out with the understanding and agreement that the gold will not wear off, discolor nor tarnish in ten years' constant use. If these spectacles give out, through any defect in material or through poor workmanship, or if they tarnish, discolor or wear off at any time within ten years, we will replace them with a new pair absolutely free of charge.

OUR CABLE RIDING BOW GOLD FILLED SPECTACLES are fitted with the highest grade periscopic crystalline lenses, accurately centered, carefully selected, in accordance with your answers to our test questions, and, if they do not fit your eyes perfectly, if you do not find them better than any other spectacles you have ever worn, they can be returned to us at our expense, and we will refund your money, including postage both ways.

No. 55F195 Cable Riding Bow Gold Filled Spectacles. Price..... **\$1.98**

OUR 10-YEAR GUARANTEE. These rimless spectacles are guaranteed against discoloration or tarnishing, and if the gold wears off, if they discolor or tarnish, or give out in any way, through poor materials or workmanship at any time within ten years we will send you a new pair free or refund your money. You take absolutely no chance in ordering spectacles from us, as we will return your money immediately if the spectacles are not in every way satisfactory.

No. 55F198 Gold Filled Rimless Spectacles, as described and illustrated above.

OUR RIMLESS EYE GLASSES are made with offset guards, lined either with cork or tortoise shell, the mountings are the very highest grade gold filled stock, guaranteed, made with two heavy plates of fine, solid gold over an inner plate of hard composition metal, beautifully polished and finished. The lenses are extra high grade crystalline lenses, accurately centered, made from the very purest optical glass, carefully selected to meet the requirements indicated by your answers to our test questions.

ABOUT THE QUALITY. We guarantee that our rimless eye glasses are genuine American Optical Co. goods, made from the very finest stock, genuine 10-karat gold, highest grade centered crystalline lenses, both the lenses and the frames made by the American Optical Co. By departing from our regular high standard of excellence we could put up a pair of rimless eye glasses that would apparently look just as good as our regular style, and sell them for \$1.50 or \$1.00; or by using a gold plated frame and cheap, non-centered lenses we could even make the price considerably below \$1.00, but we do not believe that our customers wish to risk their eyesight for the sake of saving a few cents on a pair of glasses.

EVERY PAIR OF OUR RIMLESS EYE GLASSES is sent out under our binding ten years' guarantee, under the terms of which we agree to replace any pair that tarnish, wear off, or give out through defective materials or poor workmanship in ten years. A pair of carefully adjusted high grade gold filled rimless eye glasses gives the wearer a distinguished and prosperous appearance which is entirely lacking with the ordinary styles of spectacles.

REMEMBER every order for either spectacles or eye glasses receives the careful personal attention of our expert optician, a graduate of

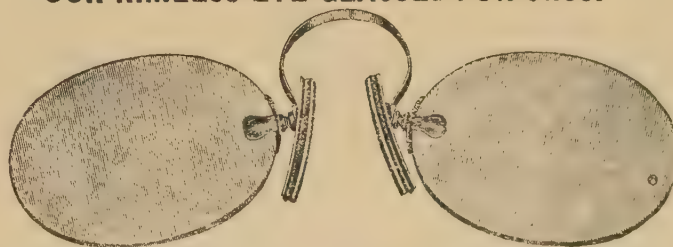

RIMLESS SPECTACLES AT \$2.14.
STYLISH AND ELEGANT. Rimless spectacles are the very latest and most stylish spectacles made. They are light and elegant in appearance, comfortable to wear and contribute in no small measure towards giving the wearer a neat and dressy appearance.

ABOUT THE QUALITY. Our rimless spectacles, like all of our other high grade spectacles, are genuine American Optical Co. goods, both the lenses and the frames manufactured in this celebrated factory, the very highest grade frames and the very highest grade genuine crystalline centered lenses that are made. There are cheap rimless spectacles on the market, the same as there are cheap spectacles of all kinds, and by handling these cheap second quality goods we could very easily sell rimless spectacles at any price from \$1.00 up, but we believe that it pays to handle only the very highest grade of spectacles and to sell the very highest grade at about one-fourth the price which the ordinary optician is compelled to charge for similar goods.

IF YOU ALREADY HAVE A PAIR OF SPECTACLES that suit your eyes and would like to own a pair of our high grade, gold filled, rimless spectacles, we suggest that you tell us the number of your lenses, if you know it, or, if not, that you send us your spectacles, and we will select from our stock a pair of these high grade, gold filled spectacles, with lenses of exactly the same strength as your own and of the same dimensions, so that they will fit you just as well as the old pair.

Price..... **\$2.14**

OUR RIMLESS EYE GLASSES FOR \$1.65.

the Northern Illinois College of Ophthalmology, who has for years made a special study of fitting spectacles by mail.

REMEMBER that every pair of spectacles or eye glasses which we sell is sent out with the distinct understanding and agreement that if we fail to fit your eyes perfectly, if you do not find the glasses entirely satisfactory in every way, if they do not enable you to see better than any other glasses you have ever worn, they may be returned to us and your money will be refunded, including postage both ways.

No. 55F200 Rimless Eye Glasses. Price..... **\$1.65**

Scenery or Shooting Spectacles.

Nos. 55F230 to 55F234

While these spectacles are commonly known as shooting spectacles, they are largely used by tourists in looking at scenery, especially where the light is bright and dazzling or when the ground is covered with snow, which reflects the light and tires the eyes. The peculiar amber tint of the lenses, not only improves the view but enables one to see more plainly at a distance, and is very pleasant and soothing to the eye. The lenses are known as diaphragm lenses, being sanded or ground in such a manner as to exclude the view except through the clear circle in the center of each lens.

No. 55F230 Shooting Spectacles, steel frames, straight temples, good quality, nickel plated, amber tinted diaphragm lenses. Price.....16c
No. 55F231 Shooting Spectacles, steel frames, straight temples, best quality, finely tempered with bronze finish. Best amber tinted diaphragm lenses. Price.....20c

No. 55F232 Shooting Spectacles, steel frames, same as illustration, but with riding bow temples, fine quality, extra finish, with best grade amber tinted diaphragm lenses. Price.....35c

No. 55F234 Shooting Spectacles, steel frames, straight temples, best quality, finely tempered and extra finish, with best grade smoke tinted diaphragm lenses. Price.....42c

If by mail, postage extra, 5 cents.

Goggles.

The use of Goggles as a protection to the eyes from light, dust, etc., is so common and well known that no comment upon them is necessary.

No. 55F240 Goggles, ordinary quality, wire gauze with common smoke, blue, green or clear glasses. Be sure to state color of glasses desired. Price.....20c

No. 55F241 Goggles, good quality, wire gauze, velvet bound edges, with smoke, blue or clear glasses. Be sure to state color of glasses desired. Each pair in cloth bound box. Price.....20c

No. 55F243 Goggles, steel frame, velvet bound, finely finished, with stiff nose piece and tempered riding bow temples. Extra fine wire gauze and highest grade light smoke lenses. Each pair in fine case. Price.....95c

If by mail, postage extra, 5 cents.

Eye Protectors.

These eye protectors, being extremely light and also well ventilated, are very comfortable, and as a protection against excessive light, blinding storms of sleet, snow or rain, floating cinders, mud, dust, flying sparks, are unexcelled. They are used by wheelmen, streetcar men, railroadmen, stonemasons, firemen, millers, harvesters, in fact, by all who are in any way exposed to the danger of injuring the eyes.

No. 55F248 Celluloid Eye Protector, well made from the best transparent celluloid, felt bound, in clear, blue or green. Be sure to state color desired. Price, including case.....16c

If by mail, postage extra, 2 cents.

No. 55F249 Mica Eye Protector. Made of selected mica, substantially constructed and bound with corrugated felt. This Eye Protector is hinged at the center, thus folding into small space, and is made with either smoke, blue or clear mica. Price, with morocco case.....20c

If by mail, postage extra, 2 cents.

Murine Eye Remedy.

No. 8FO350 Murine is a remedy that cures diseased conditions of the eye, an absolutely harmless, pure distilled product. Murine cures weak eyes, inflamed eyes, sore eyes, relieves tired eyes, cures watering eyes, granulated lids, removes floating spots in eyes, clears vision, brightens dull eyes, relieves pain in injured eyes. Murine can be used by anybody, may be used as often as desired; it always benefits the eyes, and never harms them. School children's eyes are strengthened by Murine, professional men find relief from eye strain in Murine. Farmers, railroadmen and others exposed to wind and weather are greatly benefited by Murine.

Every body can use Murine to advantage, and every medicine cabinet should contain a bottle of it. We know Murine is the best eye medicine in the world. Price per bottle, complete with dropper.....40c
Extra for postage and mailing case, if sent by mail, 10c.

Eyeglass Chains and Hooks.

Nos. 55F265 to 55F269

No. 55F265 Eyeglass Chain, gold filled. Price, with snap and hook, 35c; with snap and hairpin, 32c; with snap and earloop.....35c

No. 55F267 Eyeglass Chain, extra quality, gold filled, fully guaranteed. Price, with snap and hook, 55c; with snap and hairpin, 55c; with snap and earloop.....55c

No. 55F269 Eyeglass Chain, best quality, solid 10k gold. Price, with snap and hook, \$1.20; with snap and hairpin, \$1.15; with snap and earloop.....90c

Postage extra, on any style chain, 4 cents.

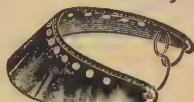

No. 55F275 Eyeglass Hook, fine quality gold filled. Price.....15c

No. 55F277 Eyeglass Hook, solid gold, extra quality. Price.....62c

No. 55F275 and 55F277

If by mail, postage extra, 2 cents.

Eye Shades.

No. 55F281 Eye Shade, best grade transparent green celluloid, very light and comfortable. Held in place by light elastic cord, self adjusting. Price.....7c

Postage extra, 4 cents.

READING GLASSES

are very desirable for reading fine print, and as they are strong magnifiers and give a large range of vision they are very restful to the eyes and especially desirable for old people. They are also used for looking at photographs and other pictures, as they bring out the detail and add greatly to the beauty of the picture, the principle being the same as the graphoscope.

Powerful Burning Glasses.

Any of these reading glasses are powerful sun or burning glasses, readily setting fire to light materials such as paper, shavings, dry leaves, etc. The larger the glass the greater is its burning power.

German Reading Glasses.

These glasses, Nos. 55F335 to 55F339 are fitted with first quality lenses, nickel plated frames and black enameled handles.

No. 55F335 German Reading Glass, 2 1/2 inches in diameter. Price.....21c

If by mail, postage extra, 12 cents.

No. 55F336 German Reading Glass, 2 1/2 inches in diameter. Price.....37c

If by mail, postage extra, 14 cents.

No. 55F337 German Reading Glass, 3 1/2 inches in diameter. Price.....53c

No. 55F338 German Reading Glass, 4 inches in diameter. Price.....64c

If by mail, postage extra, 20 cents.

No. 55F339 German Reading Glass, 5 inches in diameter. Price.....\$1.23

(Postage extra, 25 cents)

Best Grade Reading Glasses.

These glasses, Nos. 55F345 to 55F349, are the highest grade manufactured, with strongly made nickel plated frames, and wood handles, finished in black enamel, high magnifying power. Better or more powerful glasses than these are not manufactured.

No. 55F345 Reading Glass, 2 inches in diameter. Price.....36c

If by mail, postage extra, 12c.

No. 55F346 Reading Glass, 2 1/4 inches in diameter. Price.....46c

If by mail, postage extra, 14c.

No. 55F347 Reading Glass, 3 inches in diameter. Price.....62c

If by mail, postage extra, 17c.

No. 55F348 Reading Glass, 4 inches in diameter. Price.....86c

If by mail, postage extra, 20c.

No. 55F349 Reading Glass, 5 inches in diameter. Price.....\$1.68

If by mail, postage extra, 25 cents.

Pearl Handle Reading Glass.

No. 55F350 The handle of this beautiful Reading Glass is made of brilliant iridescent oriental pearl, the rim is finely gold plated and the lens is best grade manufactured. Diameter, 3 1/4 inches. The handsome appearance and fine quality make it especially suitable for a birthday or Christmas gift. Price.....(If by mail, postage extra, 20c).....\$2.58

Our 75-Cent Dust Protector.

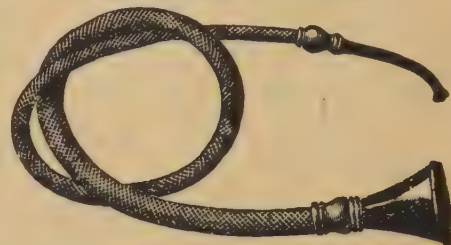

No. 55F400 Against dust it is the greatest protector ever made. For thrashers, grain men, millers, farmers and everyone whose duties call him into dusty places. It is worth a thousand times its cost as a protection to the lungs, to the general health and comfort. Thousands of men are saved from consumption by the use of this protector. It protects

the nose and mouth from the intrusion of dust which is so injurious to the head and lungs. No miller, grain buyer, thrasher or farmer is safe without one. They afford perfect protection with perfect ventilation. Made of fine metal, handsomely nickel plated, bound with chamois skin, adjustable to anyone by strong elastic band, absolutely indestructible and worth a thousand times the trifling cost as a safeguard to health. Each protector comes packed in a neat box with full instructions for use. Price.....75c

If by mail, postage extra, 3 cents.

Conversation Tubes.

Conversation Tubes are undoubtedly the best device ever made for the relief of deafness, and these are the very highest grade of conversation tubes made: finely constructed throughout, with a peculiar metallic spiral lining, which gives the tube great flexibility and at the same time keeps it fully distended in any position.

No. 55F411 Mohair Conversation Tube, medium size, tapered, covered with flexible mohair, hard rubber ear piece and bell. Price.....\$1.00

No. 55F412 Mohair Conversation Tube, same as No. 55F411, but larger size, 3 feet in length. Ea. \$1.10

No. 55F413 Silk Conversation Tube, very highest grade manufactured, covered with finest quality black silk, tapered tube, medium size. Price.....\$1.05

No. 55F414 Silk Conversation Tube, same style and quality as No. 55F413, but larger size, 3 feet in length. Price.....\$1.15

Hearing Horns.

These horns are exactly the same as those advertised by many dealers at prices ranging from \$8.00 to \$15.00 each.

These London Hearing Horns are constructed of light metal upon an entirely new principle. They may be carried in the pocket and when in use are easily concealed in the hand. They are designed for the use of those who are

only moderately deaf and enable one to hear not only an ordinary conversation but sounds at a distance as well, making them suitable for use anywhere—at home, in church, or public entertainments.

Made in Two Sizes, with Black Oxidized Finish.

No. 55F420 London Hearing Horn, medium size, 2 1/2 inches in length. Price.....\$1.00

If by mail, postage extra, 5 cents.

No. 55F421 London Hearing Horn, large size, 4 inches in length. Price.....\$1.10

If by mail, postage extra, 8 cents.

Your money will be promptly refunded if the horn does not give entire satisfaction.

Miss Greene Hearing Horn.

No. 55F425 This is a new device, being an improvement in shape over all other Tin Trumpets, and is more easily carried. The sound receiving end is flat oval shape, 5 1/4 inches in diameter by 1 1/4 inches in depth. Its peculiar formation is especially adapted to gather in sounds and convey them audibly and distinctly to the ear; is one of the best arrangements for conversation or public speaking; can be held to the ear without raising the hand; made of metal, in two pieces, japanned black. Price.....90c

Our \$1.70 Opera Glass

No. 55F450
This is a good practical glass, made with a good

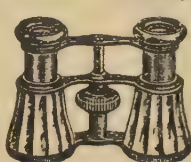

quality achromatic lenses, $1\frac{1}{2}$ inches in diameter; covered with black morocco leather; draw tubes and trimmings are black. It is an excellent instrument for so little money.

Price.....\$1.70
By mail, postage extra, 16 cents.

Genuine Colmont Opera Glass, \$6.85.

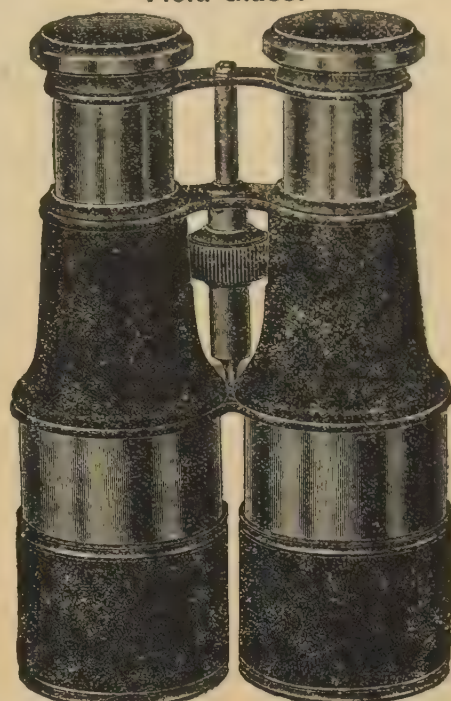

No. 55F460
This opera glass is beautifully finished in pearl and gold, and is strictly high grade throughout.

Finest achromatic lenses, 15 lignes ($1\frac{1}{4}$ inches) in diameter; oriental pearl body, pearl tops and pearl focusing screw. Draw tubes, cross bars and trimmings heavily gold plated. Price...\$6.85
If by mail, postage extra, 18c.

Our \$4.29 Pearl Opera Glass,

No. 55F465
We offer this gold and pearl opera glass as the best instrument of the kind ever sold for so low a price. All metal

parts are gold plated. Warranted not to tarnish, fine pearl body, good achromatic lenses, $1\frac{1}{4}$ inches in diameter. Price.....\$4.29
If by mail, postage extra, 18c.

Only \$12.95 for Our Highest Grade Genuine Jena Special Field Glass.

No. 55F560 This large illustration, engraved by our artist direct from a photograph, will give you an idea of the appearance of our JENA SPECIAL FIELD GLASS. The lenses of this field glass are ground from the famous Jena special optical glass, made in the Jena glass factory in Germany.

It is from this special new glass, this latest result of the experiments and investigations of the most skilled and scientific glass makers of Europe, that the lenses for our Jena Special Field Glasses are ground. They are ground by the most skilled lens grinders, they are fitted with the utmost care, and they are accurately adjusted. These lenses combine, to a degree never before attained, the highest power with the most marvelous definition and clearness.

We offer the Jena Special Field Glass not merely as the equal of glasses sold by other dealers at several times our price, but we offer it as absolutely the best field glass that can be obtained at any price. We sell this glass under a positive guarantee, and if you do not find it superior to any field glass to which you may compare it, you may return it at our expense and we will refund your money.

Bear in mind that our special \$12.95 price is for the large size Jena Special Field Glass with lenses 20 lignes in diameter. This field glass measures 6 inches high when closed and $7\frac{1}{4}$ inches when extended, weighs 33 ounces, and the magnifying power is seven times. The draw tubes, cross bars, tops and trimmings are all finished in fine black enamel and the covering is the best grade of morocco leather.

Price, complete with fine case and strap...\$12.95

No. 55F561 OUR JENA SPECIAL ALUMI FIELD GLASS. Exactly the same as our No. 55F560, except that all metal parts are made of aluminum, thus reducing the weight and adding to its handsome appearance. The highly polished draw tubes are finished in the natural silvery color of aluminum, all trimmings are finished in black and the covering is morocco leather. Weight, only 18 ounces.

Price, complete with fine case and strap...\$15.60

Maxim Binocular Telescope for \$17.60.

An exceedingly small and compact instrument of high magnifying power.

This is a genuine Maxim Double Telescope, made by Maxim, the celebrated Paris telescope maker, and is the handiest and most efficient instrument of this kind ever devised. It is an ideal glass for tourists, farmers, hunters, ranchmen, stockmen or anyone requiring a powerful instrument which at the same time is small in size, light and compact. Our special Binocular Telescope weighs only 9 ounces and is so compact that it may be carried in the coat pocket as easily as a pocketbook, yet has a magnifying power of nine times or one-half again as high a power as the best field glasses. Our illustration shows the glass in the fine silk lined morocco leather pocket case, which is included without extra charge. When closed our Special Binocular Telescope measures only $4\frac{3}{4}$ inches high, the distance from side to side is only $3\frac{1}{4}$ inches and the barrels are only $\frac{3}{4}$ of an inch in diameter. The length when extended for use is 6 $\frac{3}{4}$ inches. The lenses with which our Special Binocular Telescope is fitted are the best quality achromatic, accurately fitted and adjusted. The magnifying power is nine times and the definition is exceptionally fine.

No. 55F565 Maxim Double Telescope.

Price, complete with morocco pocket case, as shown in illustration...\$17.60
If by mail, postage extra, 20 cents.

FIELD GLASSES.

We contract every season with the best known and most famous makers of field glasses in Paris and Germany to furnish us with the largest quantity of high grade field glasses ever purchased by any one house. In this way we induce the manufacturers to figure the cost to us on a basis of the actual cost of material and labor. To this price, figured on actual shop cost, we add simply our one small percentage of profit, and as a result we offer in our cheapest field glass at \$3.55, an instrument for which you would pay the ordinary optician from \$8.00 to \$10.00.

REMEMBER You get a valuable PROFIT SHARING CERTIFICATE, enabling you to share in our profit, and get fine goods entirely FREE of cost, as explained on pages 1 and 2.

Our \$3.55 Delmar Field Glass.

No. 55F500 For \$3.55 we furnish this Delmar Field Glass fitted with genuine achromatic lenses, bars, draw tubes and trimmings finished in black and body covered in black morocco leather. We offer this Delmar Field Glass as the equal of field glasses sold by retail dealers at prices ranging from \$8.00 to \$10.00. The Delmar Field Glass measures 6 inches high when closed and $7\frac{1}{4}$ inches when extended. The object glasses are 24 lignes in diam-

eter and the weight is 17 ounces. Magnifying power four times.
Price, complete with leather case and strap...\$3.55
If by mail, postage extra, 40 cents.

Tourists' Field Class for \$6.60.

No. 55F525 This is an exceptionally fine field glass, designed especially for tourists or those who expect to carry a field glass to a considerable extent, its small size and light weight making it very desirable. Our high grade tourists' field glass is fitted with the best achromatic lenses, very carefully ground, accurately fitted and adjusted. The finish throughout is extra fine, the trimmings, cross bars and draw tubes are the best quality black enamel, the covering is the best grade of fine morocco leather, and the workmanship throughout is the best. The extra high grade lenses of our Tourist Field Glass are noted for their definition and clearness; the magnifying power is four times. Our Tourist Field Glass measures only 4 inches high when closed and 5 inches when extended, the draw tubes being extra long in proportion to the size of the instrument. The weight is 16 ounces, and the object glasses are 19 lignes in diameter. Price, complete with case and strap...\$6.60

If by mail, postage extra, 30 cents.

**\$6.95 Buys a \$15.00 Field Glass.**

No. 55F510 This Field Glass is provided with first quality achromatic lenses, carefully fitted, the draw tubes are finished in dead black and the trimmings are in bright black enamel and nickel plate. This glass possesses higher magnifying power than the Delmar Field Glass, and the lenses are of better quality, thus giving finer definition and greater clearness. Workmanship and materials throughout are first class. Our \$6.95 Field Glass measures 5 $\frac{1}{2}$ inches high when closed, $7\frac{1}{4}$ inches when extended. The diameter of the object glasses is 24 lignes, the magnifying power is five times and the weight is 22 ounces.

Price, complete with leather case and strap...\$6.95
If by mail, postage extra, 42 cents.

**Turner-Reich Prism Binoculars.**

The bodies of the Turner-Reich Binoculars are made of aluminum and the working parts are of brass. The bodies are covered with the finest quality pebbled morocco leather and all exposed metal parts are finished in lusterless black. One of the eye piece cells is so made that it may be adjusted to accommodate observers' eyes that are not of the same power, a much commoner defect than is generally supposed and frequently only noticeable when using a high power glass. Focusing is accomplished very easily by the large mill head in the hinge, which actuates a precision screw. The Turner-Reich Instruments are adjustable for pupillary distance and provide for any separation of the eyes. An adjustable click may be set at the desired pupillary distance so that the images of both barrels of the instrument may be made coincident by simply turning the barrels until the click springs into position.

No. 55F570 6-power Turner-Reich Prism Binocular. Linear magnifying power, 6 diameters. (Superficial power 36 times.) Real field of view 6 degrees. Diameter field of view at 1000 yards, 315 feet.

Price, with solid sole leather case and shoulder strap...\$23.00

If by mail, postage extra, 42 cents.

No. 55F571 8-Power Turner-Reich Prism Binocular. Linear magnifying power, 8 diameters. (Superficial power 64 times.) Real field of view, $4\frac{1}{2}$ degrees. Diameter field of view at 1000 yards, 246 feet.

Price, with solid sole leather case and shoulder strap...\$28.00

If by mail, postage extra, 42 cents.

No. 55F572 10-Power Turner-Reich Prism Binocular. Magnifying power, 10 diameters. (Superficial power, 100 times.) Real field of view, $3\frac{3}{4}$ degrees. Diameter field of view at 1000 yards, 204 feet.

Price, with solid sole leather case and shoulder strap...\$34.50

If by mail, postage extra, 42 cents.

BUSCH TERLUX PRISM BINOCULAR \$55.00

THE BUSCH TERLUX PRISM BINOCULAR

is the very latest production in prism binocular glasses, and is superior to any prism binocular glass heretofore produced by any maker, either in America or Europe. There is no glass made, at any price, that surpasses the Busch Terlux Prism Binocular in **magnifying power**. There is no glass made, of any kind, that surpasses the Busch Terlux Prism Binocular in **definition**. There is no glass made, of any kind, that equals or comes anywhere near equaling the Busch Terlux Prism Binocular in **illumination**.

THE GENERAL PRINCIPLES involved in the construction of this superb instrument are the same as are employed in the construction of other prism binocular glasses, but this instrument differs radically from all other binoculars, because of the large size of the objective lenses. The lenses of all other prism binoculars, even the very highest class instruments, even those sold at from \$75.00 to \$100.00, are less than three-fourths of an inch in diameter, and while such an instrument may possess other qualities to the highest degree, while the definition may be very nearly perfect, while the magnifying power may even be as great as the power of the Busch Terlux Prism Binocular, the small diameter of the objective lenses cuts off a very large volume of light and reduces the illumination.

THE OBJECTIVE LENSES of the Busch Terlux Prism Binocular are one and three-eighths inches in diameter, almost twice the diameter of any other prism binocular glass made, and as the illumination increases in proportion to the square, this means that the Busch Terlux Prism Binocular glass admits almost four times the volume of light that is admitted by any other binocular glass made.

THE BUSCH TERLUX PRISM BINOCULAR GLASS is so designed as to secure the greatest possible solidity and durability, compatible with ease of manipulation and lightness of weight. The bodies and cross bars are made from one solid casting, of an especially hard alloy of aluminum, to secure the greatest possible solidity and rigidity, thus insuring permanent alignment, with the least possible weight. The working parts are brass, the one requiring a very powerful, very high class instrument, this binocular glass is absolutely the best. It is an ideal instrument for astronomical purposes, giving beautiful views of the moon, showing many of the double stars, and other interesting astronomical phenomena. The linear magnifying power of this binocular is 12 diameters (superficial power, 144 times); the diameter of the field of view at 1,000 yards is 180 feet. Weight, without case, 21 ounces. Size, 7 inches high by 4 1/4 inches wide.

AN EXPERT'S OPINION.

Messrs. Sears, Roebuck & Co.

Gentlemen:—After exhaustive tests of the leading binocular instruments on the market, in an effort to secure the best all around field glass for general observations and hunting purposes, we have decided to equip this Expedition with one of your 12-power Busch Terlux Prism Binocular Glasses.

Faithfully yours,

WELLMAN RECORD—HERALD POLAR EXPEDITION.
Per Francis A. Buzzacott.

bodies are covered with the very finest black pebbled Morocco leather and all exposed metal parts are finished in fine, bright, black enamel, highly polished. The Busch Terlux Prism Binocular is adjustable for pupillary distances, in a most simple and convenient way, by bending the hinge bars until the two barrels are just exactly the right distance apart to fit the user's eyes. The eyepiece of the right barrel is made movable, to allow for adjustment of possible differences in the powers of the user's eyes. There are other high grade binocular glasses which equal this instrument in certain particulars, but there is no instrument made which equals this instrument in **all respects**. The magnifying power is high, the field of view is large, the illumination is far greater than possessed by any other glass, and the definition is better than with any other glass. There is no glass more highly corrected for spherical and chromatic aberration. The design is handsome, the construction strictly high class in every particular and the finish most excellent. For the use of tourists, farmers, hunters, ranchmen, stockmen, or any

No. 55F590 Busch Terlux Prism Binocular, 12-Power, complete with

solid sole leather case and shoulder strap. Price.....\$55.00

Delmar Achromatic Spy Glasses, at \$1.40 to \$2.95.

The Delmar Spy Glasses are fitted with first quality achromatic lenses, accurately fitted. Provided with slide cover for eyepiece and brass cap for front lens. The draw tubes are made from brass tubing, highly burnished. All trimmings are of lacquered brass and the bodies covered with fine black morocco leather. Made in four sections, thus closing to about one-third their total length.

Telescopes with Sunshade, at \$3.95 and \$6.75.

These Telescopes are made by the same maker who furnishes us with the Delmar Spy Glasses and the workmanship and quality throughout is practically the same as in the Delmar instruments, but they are of larger size and are provided with an additional feature—**as a sunshade**. This consists of a lacquered brass sleeve, which can be extended forward in such a manner as to shade the object glass from the direct rays of sunlight. These instruments are fitted with first quality achromatic lenses, burnished brass draw tubes, lacquered brass trimmings, morocco leather covering, carefully and accurately made and guaranteed throughout.

No. 55F625 Sunshade Telescope, diameter, 19 lignes; length, closed, 10 inches; extended, 30 inches; magnifying power 25 times. Price.....

No. 55F626 Sunshade Telescope, diameter, 22 lignes; length, closed, 10 1/4 inches; extended, 37 inches; magnifying power 30 times. Price.....

Our XX Black Telescope, \$6.67.

the instrument suitable for observations of the sun. The spots on the sun, the mountains of the moon, the larger satellites of Jupiter, double stars, and many other interesting features of the heavenly bodies are readily seen with this instrument. The diameter of the object glass is 19 lignes, the length when closed is 9 1/4 inches, when extended, 30 inches. The magnifying power is 25 diameters. Price, complete.....

(If by mail, postage extra, 40 cents).....\$6.67

Our XXX Black Telescope, \$8.95.

GENUINE PARIS MADE TELESCOPE.
No. 55F652 Our XXX Black Telescope is an exceptionally fine instrument in every respect well made throughout, material and workmanship the best, finely finished, the lenses carefully and accurately adjusted, giving high magnifying power and fine definition. This is a splendid instrument for ordinary or terrestrial observations, and also affords excellent views of the sun, moon and other bodies, showing the sun spots, craters on the moon, Jupiter's satellites, etc. The sliding cover in the eyepiece is fitted with a dark glass for observations of the sun. This telescope measures 36 inches long, when fully extended, and 10 1/4 inches long when closed. The diameter of the object glass is 22 lignes (2 inches) and the instrument weighs 32 ounces. It is constructed throughout of brass, the very best metal known for scientific instruments, and it is finished with

fine black lacquer throughout. The draw tubes and trimmings are perfectly black, a finish which is permanent and will never tarnish. This black lacquered finish is much superior to the ordinary highly burnished brass draw tubes furnished with most telescopes. The covering of the body is black pebbled morocco leather.

Price, complete, just as shown in illustration. (If by mail, postage extra, 50c.).....\$8.95

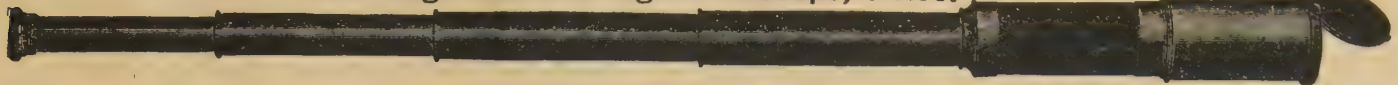

Astronomical Eyepiece, \$4.25.

No. 55F653 This Eyepiece is made for use with our No. 55F652 telescope, for astronomical observations only, and increases the power to 55 diameters. Price.....(If by mail, postage extra, 10 cents).....\$4.25

POWER
35
TIMES.

Extra High Grade 25-Ligne Telescope, \$15.90.

Gun Metal Finish. Magnifying Power 55 Diameters.

No. 55F657 This is the most powerful and the very highest grade telescope that we handle, a much higher grade and much finer instrument than is to be found in the best optical stores in the United States. We import this instrument direct from the maker in Paris, a maker whose specialty is extra high grade goods, who does not make any ordinary quality telescopes at all, but directs his entire attention to the making of extra high grade instruments. While the finish of this instrument throughout is finer and better than any other telescope with which it may be compared, still it is not the fine finish and workmanship which constitutes its chief points of superiority. It is the lenses which make this instrument so much superior to ordinary telescopes, these lenses being especially ground from the finest optical glass, very carefully centered and accurately adjusted. They are made to combine to the greatest possible extent the finest definition and highest magnifying power. For astronomical work this telescope forms an ideal instrument, showing clearly and distinctly the interesting changes and mysterious spots on the surface of the sun, the wonderful mountain ranges and apparently extinct craters of the moon, satellites of Jupiter, and the surface markings of this planet, the wonderful rings of Saturn, the canals on the planet Mars, nebulae, double stars, etc. For the observation of the sun a dark glass is mounted in the slide cover of the eyepiece. The magnifying power of this instrument is 55 diameters.

The draw tubes, trimmings, and all exposed metal parts are made with fine gunmetal finish, the very best and most expensive finish known for optical instruments. This telescope is made throughout from brass, but the fine gunmetal finish gives it the appearance of steel, the color being a characteristic glossy steel blue. This fine steel blue gunmetal finish will never tarnish or rust and the draw tubes always work smoothly and easily. The body of the instrument is covered with a fine grade of pebbled morocco leather. This telescope is made with sunshade, a device for protecting the object glass from the direct rays of the sun, adding greatly to the efficiency of the instrument. This sunshade consists of a metal sleeve which can be drawn forward so as to shade the object glass. Instead of a cap it is provided with a hinged metal cover which affords perfect protection to the object glass. The length of this telescope when extended is 41 1/4 inches; when closed 12 1/4 inches. Weight, 50 ounces. The diameter of the object glass is 25 lignes (2 1/2 inches), and the magnifying power 55 diameters. The high magnifying power, extra quality lenses, fine workmanship and beautiful finish combine to make this telescope a most desirable instrument. Price, complete.....\$15.90

Astronomical Eyepiece, \$4.65.

No. 55F658 This Eyepiece is made for use with our No. 55F657 telescope, for astronomical observations only, and increases the power to 80 diameters. Price.....\$4.65

Genuine Bardou & Son Rifle Range Telescope for \$16.50.

No. 55F675 The Bardou Rifle Range Telescope represents the highest degree of perfection attained in telescope making. The firm of Bardou & Son, Paris, enjoys the reputation of producing the finest telescopes in the world, and this instrument was especially designed by Bardou & Son for the French government, which desired an extra good glass for military purposes. Both ends of the Bardou Rifle Range Telescope are protected by leather caps, which at the same time afford a means of attaching the shoulder strap for convenience in carrying; the barrels are finished in dead black, a great improvement over the usual highly burnished brass draws, which soon tarnish. The body of the Bardou Rifle Range Telescope is covered with the best grade smooth horsehide leather, with black oxidized draw tubes and trimmings, fine quality horsehide leather caps for each end, and shoulder strap. The Bardou Rifle Range Telescope is fitted with absolutely the best achromatic lenses made, giving great clearness and fine definition. We guarantee the Bardou Rifle Range Telescope to show a bullet mark at a distance of half a mile, in clear atmosphere. The diameter of the object glass is 28 lignes; the length when closed is 11 inches, when extended, 36 inches. Power is 33 diameters. Price, complete.....(If by mail, postage extra, 60c).....\$16.50
No. 55F676 Astronomical Eyepiece for Bardou Rifle Range Telescope, increasing the power to 50 diameters, thus making it an extra fine instrument for observing the sun, moon and stars. Price.....(If by mail, postage extra, 10 cents).....\$2.70

\$16.50

Tripod For Telescope.

No. 55F698 This is a high grade, beautifully finished, Metal Sliding Tripod. The legs are in five joints and will telescope. The head, or clamp, is so adjusted that a telescope can be securely fastened to it, and can be readily moved in a horizontal or vertical direction, and set at any angle desired. This tripod is suitable for any telescope of 22 lignes or smaller, with the exception of the Bardou telescope. It is suitable for any telescope shown in our catalogue, with the exception of Nos. 55F675 and 55F657. It is very desirable and almost necessary to use one of these tripods when making observations, so that the instrument will be perfectly steady. Shipping weight, 3 1/2 pounds. Price, complete.....\$5.75

MAGNIFIERS.

Tripod Microscope.

No. 55F710 Tripod Microscope, adapted to a variety of uses where a short focus and high magnifying power is desirable. Adjustable focus, extra high grade lens, strong, heavy brass mounting, with fine lacquered finish. The best tripod microscope made. Price.....30c
If by mail, postage extra, 6 cents.

Combination Microscope.

No. 55F719 Combination Microscope, with lacquered brass case, 2 inches in length, has two lenses, one of very high power, the other of medium power; is specially adapted for the pocket. Price, including one inset holder.....18c
If by mail, postage extra, 5 cents.

Prospectors' Magnifying Glass.

No. 55F725 Prospectors' Magnifying Glass, heavy, well finished hard rubber case, two lenses, 1 inch and 1 1/4 inches in diameter, of high magnifying power. Strong and durable. Especially adapted for the use of mineral prospectors; being designed by a mining expert of long experience and made expressly for us by one of the best optical manufacturers in the world. Price.....(If by mail, postage extra, 5 cents).....\$1.95

Triple Lens Magnifiers.

These are the most powerful instruments made in this style of construction, having three extra fine quality magnifying glasses, which can be used separately or all together, as desired, thus giving a range of power. The three lenses used together form an extra powerful magnifier. Mounted in finely finished rubber cases.

No. 55F746 Diameter of lenses, 1/2, 3/4, and 1 inch. Price.....43c
If by mail, postage extra, 3 cents.
No. 55F747 Diameter of lenses, 3/4, 1, and 1 1/4 inch. Price.....57c
If by mail, postage extra, 4 cents.
No. 55F748 Diameter of lenses, 1, 1 1/4, and 1 3/4 inch. Price.....72c
If by mail, postage extra, 4 cents.

FOLDING CODDINGTONS.

These Coddington Magnifiers are made with folding metal cases, nickel plated, making them very convenient for carrying in the pocket. They are fitted with very fine double achromatic lenses of high power.

No. 55F781 Diameter, 1/2 inch. Price.....\$0.75
If by mail, postage extra, 3 cents.
No. 55F782 Diameter, 1 inch. Price.....1.00
If by mail, postage extra, 5 cents.
No. 55F783 Diameter, 1 1/4 inches. Price.....1.25
If by mail, postage extra, 6 cents.
No. 55F784 Diameter, 1 3/4 inches. Price.....1.40
If by mail, postage extra, 8 cents.

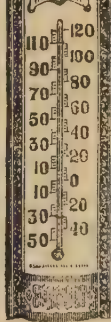

Gem Microscope, \$1.75.

No. 55F805 This little instrument is designed especially for beginners in this fascinating study, and its simplicity, compact form and low price make it a very popular style. It is substantially made of brass throughout, stands 6 inches high, has one eyepiece and one objective giving magnifying power of 20 diameters. Beneath the stage a mirror is provided for illumination of transparent objects. The Gem Microscope has sufficient power to render the minute objects in mineral, animal and vegetable life distinctly visible and will prove a source of enjoyment and profitable instruction. Price, complete in polished wood case.....\$1.75
If by mail, postage extra, 14 cents.

THERMOMETERS.

Distance Reading Thermometers.

In the Distance Reading Thermometers the scale and figures are large and very distinct, the tube magnifies the column of red spirit, and the temperature is therefore easily read at a distance of from 15 to 25 feet. They are very convenient and present a handsome appearance.

No. 55F914 Distance Reading Thermometer, enameled metal case, large black figures, red spirit tube, 7 1/2 inches long. Price.....18c
If by mail, postage extra, 8 cents.
No. 55F916 Distance Reading Thermometer, same style as No. 55F914, but 2 1/2 inches wide by 9 1/4 long, with extra large and plain figures, easily read at a distance of 25 feet. Price.....150c
If by mail, postage extra, 11 cents.

Tin Case Outdoor Thermometers.

No. 55F905 Japanned Tin Case Thermometer, ordinary grade, black figures on light metal scale; mercury tube. Length, 8 inches. Price.....10c
If by mail, postage extra, 7 cents.

No. 55F908 Japanned Tin Case Thermometer, good quality, heavier, better made and more accurate than the preceding style; seasoned tubes of standard size, mercury only; good reliable thermometer for ordinary use. Length, 8 inches. Price.....19c
If by mail, postage extra, 8 cents.

No. 55F911 Japanned Tin Case Thermometer, best grade made, white figures and graduations upon black oxidized scale, thoroughly seasoned tubes of large size, good material and workmanship throughout, and guaranteed absolutely accurate; mercury only. Length, 8 inches. Retailers everywhere at \$1.00. Price.....58c
If by mail, postage extra, 10 cents.

No. 55F913 Japanned Tin Case Thermometer, with red spirit tubes, graduated to 40 or 60 degrees below zero. Carefully tested for accuracy and is perfectly reliable. Length, 12 inches. Price.....79c
If by mail, postage extra, 13 cents.

Storm Glass Thermometers.

No. 55F930 The Old Original Poole's Barometer, a combined storm glass and thermometer, mounted upon a varnished wood case, 3 inches wide by 9 1/4 inches long. This storm glass foretells the weather with a fair degree of accuracy for 24 hours in advance, and the thermometer shows correct temperature. Price, (if by mail, postage extra, 12c).....

No. 55F932 Antique Oak Storm Glass and Thermometer

combined, mounted upon carved oak back with fancy beaded edge, black oxidized metal scale to thermometer with brass mountings, extra large storm glass with etched lettering. A reliable and handsome instrument. Price.....58c
If by mail, postage extra, 17c.

No. 55F934 Copper Case Storm Glass and Thermometer, case made of polished copper, silvered metal scale, high grade thermometer with standard size tube, mercury. A very serviceable instrument for outdoor use. Price.....(Postage extra, 14 cents).....40c

Fever Thermometers.

Clinical or fever thermometers are used, as the name implies, for taking the temperature in cases of sickness. No family should be without a good fever thermometer, and we handle only the highest grade, as a cheap or inaccurate instrument is worse than no use.

No. 55F940 Fever Thermometer, 4 inches long, magnifying tube, self registering, in hard rubber case, very accurate and guaranteed. A certificate of accuracy given with each one. Price.....78c
If by mail, postage extra, 3 cents.
No. 55F942 Fever Thermometer, 4 inches long, self registering, in hard rubber case magnifying tube, very carefully tested and guaranteed, registers in one minute. Each thermometer accompanied by certificate of accuracy. Price.....98c
If by mail, postage extra, 3 cents.
No. 55F944 Fever Thermometer, 4 inches long, self registering; in black enameled case with gold trimmings, chain and clip; cannot be lost out of pocket; magnifying tube; very carefully tested and certificate of accuracy with each one. Price.....89c
If by mail, postage extra, 3 cents.

Dairy Thermometers.

No. 55F950 Churn Thermometer with flange scale, tested at 62 degrees for churning. Price.....8c
If by mail, postage extra, 4 cents.

No. 55F957 All Glass Dairy Thermometer New easy reading style, made with extra large plain figures, special red lettering at scalding, cheese, churning and freezing points. Red spirit column, easy to see. Bulb weighted with shot, stands upright in cream. Very accurate. Price.....13c
If by mail, postage extra, 5 cents.

No. 55F960 Dairy Thermometer, all glass. This thermometer floats in the cream in upright position with entire scale exposed to view. Scale is hand graduated and very accurate. Red spirit, magnifying tube, making it very easy to read. Price.....(If by mail, postage extra, 11 cents).....39c

Incubator Thermometers.

No. 55F965 Incubator Thermometer, extra large bulb and tube, very sensitive. Absolutely accurate; 6 inches long. Price.....(Postage extra, 6c).....42c
No. 55F966 Incubator Thermometer, same style and grade as No. 55F965 but 4 1/2 inches long. Price.....37c
If by mail, postage extra, 6 cents.
No. 55F967 Incubator Thermometer, same quality as preceding styles, but triangular in shape, will stand upright among the eggs with scale showing plainly. Price.....45c
If by mail, postage extra, 8 cents.

Hydrometers.

No. 55F977 Hydrometers, for testing specific gravity of liquids, eleven kinds as follows: Acids, alkalis, ammonia, coal oil, gasoline, salt, spirits, syrup, vinegar, liquids lighter than water, liquids heavier than water. State kind wanted. Price, any style.....29c
If by mail, postage extra, 5 cents.

POCKET COMPASSES.

Watch Style, 18 Cents.

No. 55F1010 Pocket Compass, watch style, open face, bevel edge glass, paper dial, brass case. Diameter, 1 1/2 inches. Price.....18c
If by mail, postage extra, 3 cents.

Good Compass for 43 Cents.

No. 55F1015 This Watch Style Pocket Compass is made with silver metal dial, protected by heavy beveled glass, substantial brass case, and provided with sliding stop. Diameter, 1 1/2 inches. Price.....(Postage extra, 3c).....43c

Jeweled Compass, 72 Cents.

No. 55F1020 This fine Pocket Compass has strong brass case with cap cover, heavy beveled glass, silver metal dial, with full circle divisions, sliding stop and jeweled cap to needle. Diameter, 1 1/2 inches. An extra good compass at a very low price. Price.....(If by mail, postage extra, 4 cents).....72c

Jeweled Compass, 95 Cents.

No. 55F1030 Our Watch Style Jeweled Pocket Compass is made with finely finished strong brass case with hinged cover, heavy beveled edge glass, silver metal dial with full circle divisions and sliding stop. The needle is very sensitive and mounted with jeweled cap. Diameter 2 inches. A compass that will last a lifetime and give perfect satisfaction under any conditions. Price.....95c
If by mail, postage extra, 5 cents.

Fine Jeweled Compass, \$1.78.

No. 55F1033 An extra high grade pocket compass, made throughout in the most careful and accurate way. Strongly made lacquered brass case, 3/4 inches in diameter, with cap cover, extra heavy beveled glass, automatic stop and best grade jewel mounted English bar needle. Bottom of compass is oxidized in black, with white lettering, and the full circle divisions are raised to level of needle. Price.....\$1.78
If by mail, postage extra, 10 cents.

High Grade Compass, \$1.90.

No. 55F1050 This is a very fine, compact compass, very convenient for carrying in pocket, made like a watch with nickel plated dustproof case, spring hinged cover, opened by pressing on stem, best jewel mounted English bar needle, automatic stop and heavy beveled glass. The full circle divisions are engraved on a silver metal dial raised to level of needle. Diameter, 2 inches. Price.....\$1.90
If by mail, postage extra, 6 cents.

Surveyors' Compasses with Levels.

No. 55F3001 Surveyors' Compass with folding hooked sights, fine English bar needle, jewel mounted, with sliding stop, full circle divisions engraved on silver metal dial, raised to level of needle. This compass is fitted with two spirit levels, greatly increasing the accuracy and efficiency. Length of needle, 2 1/2 inches. Price complete, including Jacob Staff mounting with ball and socket joint as shown in illustration.....\$8.40
If by mail, postage extra, 28 cents.
No. 55F3003 Surveyors' Compass, same as No. 55F3001, but larger. Length of needle, 3 inches. Price complete, \$9.45
If by mail, postage extra, 35 cents.

Surveyors' Vernier Compasses.

No. 55F3011 Surveyors' Vernier Compass. Best English make, finest materials and workmanship throughout, bronze finish. Made with two very sensitive spirit levels for accurate adjustment. A fine vernier for close readings. Best grade mounted English bar needle and set screw stop. The full circle divisions are engraved on a silver metal dial raised to level of needle. Length of needle 3 1/2 inches. Shipping weight, 4 pounds. Price.....\$16.45
AND \$18.95
complete, including ball and socket joint as shown in illustration, suitable for either Jacob Staff or tripod.....\$16.45
No. 55F3012 Surveyors' Vernier Compass, same as No. 55F3011, but larger. Length of needle, 4 1/2 inches. Shipping weight, 5 pounds. Price complete, \$18.95
NOTE—Tripsods are not included above prices. See No. 55F3033 for prices on suitable tripsods.

Compass Tripsods and Jacob Staffs.

No. 55F3030 Jacob Staff, a straight, hardwood stick with metal shoe and tapered top, suitable for any of the compasses previously described. Price.....75c
No. 55F3033 Compass Tripod, light weight, good quality, suitable only for compasses Nos. 55F3011 and 55F3012. Price.....\$3.90
No. 55F3036 Compass Tripod, extra quality, heavy, made especially for compass No. 55F3021. Price.....\$4.60

55F3033 Drainage Level, \$23.90. 55F3036

No. 55F3046 This is a thoroughly practical, accurately constructed level, designed especially for the use of farmers and ditchers. As shown in the illustration, this level is provided with tripod and leveling head, by means of which the instrument can be perfectly leveled up and kept so when revolved. The telescope is a powerful high grade, achromatic instrument, 12 inches long and made with fixed crosshairs inside which cannot get out of adjustment. With this telescope a level can be read at a distance of 500 feet. The telescope carries a carefully ground spirit level, adjustable by two nuts and so sensitive that a difference of 1/4 of an inch in 100 feet can be easily determined. The entire instrument is constructed of bronze metal, finely finished, with best workmanship throughout. Shipping weight, 12 pounds. Price, complete with tripod and box.....\$23.90
No. 55F3047 Drainage Level, same as No. 55F3046 but fitted with horizontal circle, that angles reading to single degrees can be turned off, thus making a very suitable instrument for builders. Price, complete with tripod and carrying case.....\$28.00

Architects' Level, \$44.75.

No. 55F3049 This level exactly meets the requirements of architects, builders, millwrights, engineers, surveyors or others engaged in construction, sanitary work, drainage, road leveling, etc. This level is provided with an extra high grade perfectly achromatic telescope; 12 inches long, magnifying power 20 diameters, fitted with fine crosshairs and adjustable eyepiece for precise focusing of the crosshairs. With this telescope a leveling rod can be read at a distance of 600 feet. The instrument revolves on a horizontal circle 3 1/2 inches in diameter, graduated from 0 to 90 each way and is read to 5 minutes by vernier fixed to spindle. The level ground absolutely true with very sensitive bubble, is graduated and securely mounted under the telescope. We furnish this level complete with metal trivet, substantial tripod, fine hardwood box with lock and strap. Shipping weight, 22 pounds. Price, complete.....\$44.75

Vernier Transit Compass, \$69.00.

No. 55F3057 This Transit is an ideal instrument for county surveyors or others who want to do good land surveying, but do not care to invest the large amount usually charged for a transit. This instrument is provided with a very substantial leveling arrangement, with two straight levels, a powerful telescope 8 inches long, with fine crosshairs and rack and pinion focus movement. The compass is 6 1/4 inches in diameter, with variation plate inside the circle. Length of needle, 5 1/4 inches. Provided with clamp and tangent screw to center. This instrument is no heavier than an ordinary compass, the weight without tripod being only 8 pounds. We include with this instrument a good tripod, plumb bob, shade, adjusting pin, screwdriver, magnifying glass and substantial mahogany box with lock and carrying strap. Shipping weight, 28 pounds. Price, complete.....\$69.00
No. 55F3059 Vernier Transit Compass, same as No. 55F3057, but with level and clamp to telescope, making instrument available for regular leveling work. Price, complete.....\$82.00

Extra High Grade Vernier Compass.

No. 55F3521 This Surveyors' Vernier Compass is an extra high grade instrument, made throughout in the most careful and accurate manner, the very best compass on the market at any price. The sights, which are detachable, are very firm and rigid, and graduated for taking angle of elevation and depression. The vernier for adding or subtracting magnetic variations of the needle is placed under the glass. Two straight levels, very sensitive, are provided for adjustment, and the entire construction throughout is very heavy and substantial, highly finished and accurately adjusted. The needle is 5 inches long, made of special magnetic steel, swung on a jeweled center and very sensitive. This Compass is put up in a substantial, finely finished mahogany box with lock and carrying strap. Shipping weight, 25 pounds. Price, without tripod.....\$32.40
Jacob Staff mountings with ball and socket joint, extra.....\$1.50
NOTE—If compass is to be used with tripod, the Jacob Staff mountings will not be needed. See No. 55F3036 for prices on suitable tripod.

Engineer's Transit, \$98.00.

No. 55F3060 This instrument is a complete engineer's transit of the best type, reading horizontal angles on the limb and vernier circle to one minute, vertical angles on the vertical circle and vernier to five minutes, and is fitted with a fine leveling attachment for all kinds of leveling work. The transit is fastened to the tripod on a shifting head so that the instrument can be quickly set over a given point without moving the tripod. The limb is six and one-half inches in diameter and can be set to zero degrees by the lower clamp and tangent screw. It is read by one double vernier right and left, to single minutes. The graduations are

in silver from 180°-0°-180°. The compass is supplied with variation plate, set with rack and pinion and clamp. The needle is five inches long. The vernier plate has two finely ground levels at right angles. The telescope is 8 1/2 inches long, and is equipped with a fine achromatic objective and erecting eyepiece by which the crosshairs can be focused. The objective is focused by a rack and pinion. The telescope is mounted on two standards, one of which is adjustable to make the telescope axis absolutely horizontal. The telescope axis has a clamp and tangent screw and fastened along the telescope is a finely ground sensitive level, properly graduated. This instrument is also provided with a vertical circle, 3 1/2 inches in diameter and with its vernier reading right and left, vertical angles can be read in five minutes. The instrument is fitted with a fine polished mahogany case, containing plumb bob, adjusting pins, reading glass, sun shade, screwdriver and full directions for adjustment of instrument. Shipping weight, 30 pounds. Price, complete with fine hardwood tripod.....\$98.00

Chesterman Chains.

No. 55F3101 Iron Chain, made of best iron wire, with two oval rings between links, brass swivel handles, brass tallies. Length, 2 poles. Price.....\$1.60
Length, 4 poles. Price.....2.50
Length, 50 feet. Price.....1.80
Length, 100 feet. Price.....2.75
No. 55F3103 Steel Chain, made of best cast steel wire, hardened, tempered and polished, two oval rings between links, brass swivel handles and brass tallies. Length.....2 poles 4 poles 50 feet 100 feet
Price.....\$2.45 \$4.50 \$2.65 \$5.00
No. 55F3105 Braze Steel Chain, same as No. 55F3103, but with all joints brazed, making a solid chain. The best chain made. Length.....2 poles 4 poles 50 feet 100 feet
Price.....\$4.00 \$7.50 \$4.25 \$7.75
NOTE—The 2-pole and 4-pole chains are divided into links and tallied every 10th link. The 50-foot and 100-foot chains are divided into feet and tallied every 10 feet.

Steel Tape.

No. 55F3107 Surveyors' Steel Tape, used by both engineers and building contractors. This tape is 100 feet long and is tallied at the end of every foot. The first and last foot is tallied each tenth of a foot. One of the most durable and useful chains on the market. Is provided with brass handles at each end and comes wound on strong iron reel to prevent tangling. Price, complete.....\$3.95

Arrows or Marking Pins.

No. 55F3109 Arrows or Marking Pins, iron, 15 inches long, in sets of eleven. Price, per set.....55c
No. 55F3110 Arrows or Marking Pins, steel, best grade, 15 inches long, in sets of eleven. Price, per set.....85c

Leveling Rods and Poles.

No. 55F3131 Philadelphia Rod, heavy hardwood, divided into feet and 10ths, vernier reading to 100ths, with target, vernier and clamp. 7 feet long, sliding out to 13 feet. Price.....\$9.90
No. 55F3133 Architects' Rod, hardwood, divided into feet, inches and 1/4 inches; with target, vernier and clamp. 5 1/2 feet long, sliding out to 10 feet. Price.....\$5.10
No. 55F3145 Ranging Pole, best seasoned wood; octagonal, painted red and white, alternating every foot. Price 10 feet, \$2.12; 8 feet, \$1.92; 6 feet.....\$1.70

Surveyors' Guide.

No. 3F04722 By Andrew Duncan, C.E., containing necessary information to make any person a finished land surveyor without the personal aid of an instructor. The book is cloth bound, size 5x8 inches. Contains over two hundred pages of instructive matter, with all necessary illustrations and tables. Price.....(If by mail, postage extra, 10 cents).....\$1.35

Department of STEREOSCOPES and STEREOSCOPIC VIEWS

Greatly enlarged for this season, very much improved and strengthened, with new and additional features never before offered by us, and not presented by any other concern. A department of wonderful interest to everyone.

WE ASK YOUR CAREFUL ATTENTION to the following pages of this department, for we believe that there are no other pages in the catalogue that offer greater advantages, greater interest, or more value for the money asked, than these pages of stereoscopes and stereoscopic views.

WE LEAD THE WORLD in stereoscopes and stereoscopic views. Our sales in this department have shown phenomenal growth, enabling us to so strengthen our line and to give so much more in value for the price, that we have no competition whatever in this department. In fact, you will find others who attempt to catalogue this interesting line of merchandise, offer you for the same amount of money only about one-half in value what we do, and in addition, the views and scopes offered by others are

in no way equal to ours, as a comparison would very quickly demonstrate. Be sure to read, on the following pages, the clear explanation of what a stereoscopic view and a stereoscope really are, and be sure to read about our new Educational Series of Views.

ABOUT POSTAGE, EXPRESS OR FREIGHT on stereoscopic views. If sent by mail, the postage on one set of one hundred views and stereoscope is 44 cents, or on the views alone, 24 cents. If more than one outfit is ordered it is cheaper to ship by express, and to most points within 500 miles of Chicago it is cheaper to ship even one outfit by express. If you include with your order for views goods from other departments sufficient to make a freight shipment, the cost of transportation on the views will be so small that it is not worth considering.

A GOOD STEREOSCOPE FOR 12 CENTS.

No. 55F1305 This Stereoscope is made with hard wood frame, wood screw handle, small but first quality lenses, and the hood is made from pressed strawboard, stained and var-

12c

nished in imitation of rosewood.

Price, per gross, \$15.90; per dozen, \$1.38; each,12c

If by mail, postage extra, each, 18 cents.

OUR BIRCHWOOD STEREOSCOPE FOR 20 CENTS.

No. 55F1311 The hood of this stereoscope is made from a good quality of birch wood. The frame is of birchwood and it is fitted with a patent folding handle. The lenses are small but of first quality.

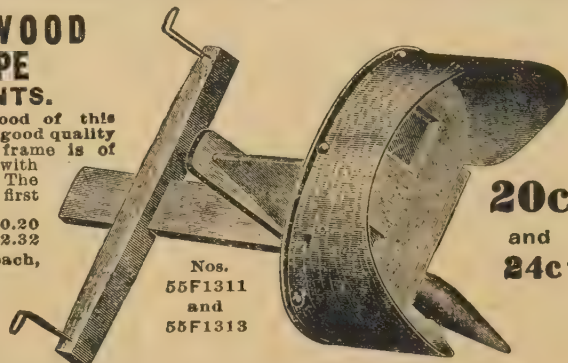

Price, each,\$0.20

Per dozen,2.32

If by mail, postage extra, each, 20 cents.

No. 55F1313 This stereoscope is made with birchwood hood, birchwood frame and folding handle, same as our No. 55F1311, but has first quality medium sized lenses, instead of small lenses.

Price, per dozen, \$2.75; each, (If by mail, postage extra, each, 20 cents)24c

OUR SPECIAL ALUMINUM STEREOSCOPE FOR 49c

VARNISHED CHERRY FRAME, ENGRAVED ALUMINUM HOOD PATENT LENS LOCKS.

No. 55F1319 This Elegant Stereoscope is made with fine aluminum hood, beautifully engraved and bound with dark red velvet. The frame is of cherry wood, carefully finished and varnished, with patent folding handle. The lenses are extra quality, of good size, carefully ground from the highest grade of fine-

clear glass, accurately adjusted and firmly held in place by latest patented aluminum lens lock. Our Special Aluminum Stereoscope is a universal favorite with canvassers, who find that the elegant appearance and sterling good qualities which it possesses make it a very ready seller. The very low price which we quote on this stereoscope is made possible only by the fact that we have contracted for the largest quantity of high grade stereoscopes ever handled by any one dealer and have thus been enabled to reduce the manufacturing cost to the lowest possible figure. Price, per dozen, \$5.64; each,49c

If by mail, postage extra, each, 25 cents.

OUR LARGE LENS WALNUT STEREOSCOPE FOR 60c

No. 55F1324 This stereoscope is made from solid black walnut throughout, varnished walnut hood, brass trimmings and patent folding handle. The lenses in this walnut stereoscope are extra large, the very highest grade stereoscopic lenses made, specially ground from the best clear optical glass and accurately adjusted. Best workmanship and carefully selected materials throughout; an extra good stereoscope.

Price, per dozen, \$6.95; each,60c

If by mail, postage extra, each, 20 cents.

The Stereo-Graphoscope is an instrument made upon a new principle by means of which it can be adjusted for either regular stereoscopic views or single photographs and other pictures by simply reversing the lenses. The manner in which the lenses are mounted and the shape of the hood shuts out all light, making a dark chamber around the eyes and giving a very clear, beautiful effect to the pictures.

No. 55F1335 Stereo-Graphoscope, cherry frame, varnished cherry hood, brass trimmings and wood screw handle. Medium size lenses of best quality. Price, per dozen, \$3.76; each,32c

If by mail, postage extra, each, 25 cents.

No. 55F1336 Stereo-Graphoscope, cherry frame, varnished mahogany hood, brass trimmings and patent folding handle. Best grade lenses of large size, a first class instrument throughout. Price, per dozen, \$5.06; each,43c

If by mail, postage extra, each, 25 cents.

No. 55F1337 Our Best Stereo-Graphoscope, made with oiled cherry frame, fine varnished mahogany hood, all trimmings nickel plated and highly polished, patent folding handle, first quality materials and best workmanship throughout. Extra large lenses of very highest quality. Price, per dozen, \$6.82; each,58c

If by mail, postage extra, each, 25 cents.

STEREO-GRAPHOSCOPES

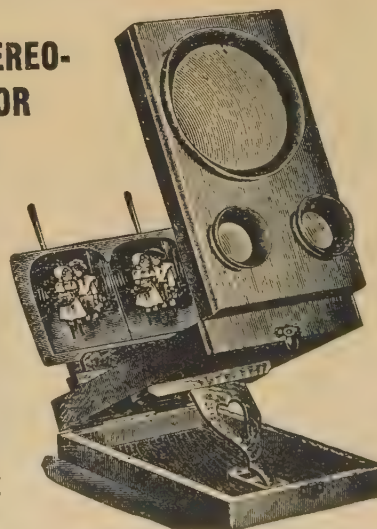

32c

OUR IMPORTED STEREO-GRAPHOSCOPE FOR \$2.75

No. 55F1345 This instrument, a combination stereoscope and graphoscope, is designed for both stereoscopic pictures and single photographs, being fitted with a pair of very high grade specially ground stereoscopic lenses for the former and with a large double convex graphoscope lens, 4 inches in diameter, for the single pictures. Made from polished mahogany, very finely finished throughout, folds compactly when not in use, measuring when closed only 8 1/2 inches long by 5 1/4 inches wide by 2 1/2 inches deep. An ornament to any parlor, and the source of great interest and amusement. Price, complete,\$2.75

If by mail, postage extra, each, 35 cents.

OUR EDUCATIONAL SERIES COLORED STEREOSCOPIC VIEWS

WHAT IS A STEREOSCOPIC VIEW?

AT FIRST THOUGHT a stereoscopic view seems to be simply a double photograph, two photographs mounted side by side on one card. Apparently the two photographs are just alike, but in reality there is a wonderful difference in these two pictures, these two photographs that form the stereoscopic view, and the whole secret of the superiority of a stereoscopic picture over any other form of photograph lies in this fact—that the two pictures are not exactly alike.

STEREOSCOPIC VIEWS ARE MADE WITH A DOUBLE CAMERA, a special camera fitted with two lenses, which makes two simultaneous pictures of the same subject side by side on the same plate, these two pictures differing from each other, because the two lenses are about three inches apart, and therefore the picture which one lens makes is from a slightly different view point than the picture made by the other lens. One lens sees, or takes, a little more of the right hand side of the subject, the other lens a little more of the left hand side. When these two pictures are combined by the prismatic lenses of the stereoscope, we get that wonderful stereoscopic effect, that effect of reality, of distance, of perspective and of relief which has puzzled the scientists and excited the admiration of everyone since the day

of the discovery of the stereoscope by Prof. Wheatstone and Sir David Brewster, away back in the first half of the 19th century.

THE STEREOSCOPE IS AN OPTICAL INSTRUMENT for viewing stereoscopic pictures. It is provided with two powerful prismatic magnifying lenses. When the stereoscopic view is looked at through the stereoscope the prismatic lenses of the instrument combine the two pictures into one and at the same time cause a wonderful transformation in the appearance of the view. The ordinary looking photograph of the two pictures, apparently just alike, become, when seen through the stereoscope, a single picture, life size, with everything standing out in relief, just exactly as though you were looking at the object itself instead of a picture. **SEEN THROUGH THE STEREOSCOPE**, the stereoscopic view brings the original scene directly before us in a way that seems almost like magic, so wonderful is the effect of distance, depth and solidity. Seen for the first time, the marvelous detail, the appearance of natural size, the natural perspective, the figures springing up in the foreground as distinct and real as if alive, has an almost startling effect.

THE EDUCATIONAL VALUE OF OUR STEREOSCOPIC VIEWS.

A SMALL COLLECTION of stereoscopic views, without descriptive matter of any kind, or simply with the name of the view printed at the bottom, may be interesting for a time. The pictures may be beautiful and may prove a source of amusement, but to be of real value, to be of lasting interest, every stereoscopic view should be accompanied by a complete, accurate and carefully written description.

FOR EXAMPLE, we may select at random from Views a stereoscopic picture showing the interior of the Coliseum at Rome. Seen through the stereoscope this is a beautiful picture. As we look at it we seem to be actually in Rome, looking at this most famous of ancient Roman buildings, but no matter how perfect this picture may be, no matter how natural in appearance it is, no matter how true an idea it gives us of the exact appearance of the Coliseum

OUR INTEREST IS VERY GREATLY INCREASED AND THE PICTURE ASSUMES A NEW AND GREATER VALUE

when we turn it over and read on the back that the Coliseum is the largest and most magnificent stone amphitheater ever built, that its erection was commenced by Vespasian, A. D. 72, that it was opened during the reign of Titus, but not completed until the time of Domitian, that 12,000 captive Jews were the workmen and

that the Christian martyr Gaudentius was the architect; that this wonderful amphitheater was used for gladiator combats and fights of slaves and Christians with wild beasts; that St. Ignatius was the first martyr that was here devoured by lions, and that a cross in the arena now marks the spot where the early Christians suffered. We read that outwardly the building shows four stories, supported respectively by Doric, Ionic and Corinthian columns, on which the arches of each story rested. We learn that five elliptic, massive walls carried spaces for the spectators in the interior, and we learn of the marvelous ingenuity in the arrangement of the passages through which the multitudes reached the 87,000 seats, we learn how the name Coliseum is derived from the Italian word Colosseo, that it was first used in the eighth century, and probably derived from the colossal statue of Apollo-Nero, located near by.

WITH THIS FUND OF INFORMATION BEFORE US, the picture takes on new interest, and every one of the 900 views, constituting our great Educational Series, comes with full and complete descriptive matter, some idea of the genuine and lasting value of this series of views may be gained.

REMEMBER, you get a **PROFIT SHARING CERTIFICATE** with every purchase over \$1.00, and can soon get something very valuable entirely **FREE**, as explained on pages 1 and 2.

WHY WE CAN SELL THESE VIEWS AT 65 AND 85 CENTS PER HUNDRED.

MANY WHO HAVE BEEN ACCUSTOMED to buying the old style, plain, uncolored stereoscopic views, without descriptive matter, from agents, paying \$2.00 per dozen for them (which is at the rate of \$16.67 per hundred), may feel inclined to doubt or question the quality of our Educational Series of colored stereoscopic views when we offer them at this heretofore unheard of price, 85 cents per hundred. **OUR ABILITY TO SELL** these colored stereoscopic views at the price quoted in this catalogue is due: First—to our new color process for making these views, a process which we ourselves originated (and which our competitors are now unsuccessfully trying to imitate). Secondly—to our ability to sell greater quantities of views than any other publisher, this immense quantity enabling us to still further reduce the cost of production. Third—to our method of selling the views direct to our customers, without any commissions to agents, without any dealers' profits, without any advertising expense, and with only our one small percentage of profit added to the actual cost, the same method we use in selling the most staple merchandise.

BRIEFLY, THIS ASTONISHINGLY LOW PRICE on views is made possible, first, by our new process; second, by the immense number we make; third, by our economical method of marketing. **OUR GUARANTEE.** We guarantee our Educational Series of colored stereoscopic views, as described on this and the three following pages, to be exactly as represented in every respect, genuine stereoscopic views with the most perfect stereoscopic effect, all made in natural colors, with accurate and interesting descriptions.

EACH AND EVERY ORDER which we receive for these Educational Views is accepted and filled with the binding agreement that if the views do not prove entirely satisfactory in every respect, exactly as represented, as good or better than any other stereoscopic views that you have ever seen, regardless of price, they may be returned to us at our expense, charges collect, and we will refund to you not only the amount which you paid us for the views, but also any transportation charges you may have paid on them.

COMPLETE STEREOSCOPIC RECORD OF THE AWFUL SAN FRANCISCO CALAMITY.

THE GREATEST DISASTER OF MODERN TIMES. THOUSANDS OF KILLED AND INJURED, HUNDREDS OF THOUSANDS HOMELESS, HUNDREDS OF MILLIONS OF DOLLARS IN PROPERTY DESTROYED. SURVIVORS LEFT TO FACE FIRE AND FAMINE, AND THE MERCILESS RAVAGES OF GHOULS. THE ONLY TIME THAT A GREAT CITY HAS BEEN LITERALLY WIPED OFF THE MAP. THIS WONDERFUL SET OF GENUINE STEREOSCOPIC PICTURES CONVEYS THE MOST COMPLETE, THE MOST VIVID, THE MOST REALISTIC IDEA OF THIS TERRIBLE CALAMITY, THIS INDESCRIBIBLE HORROR. PICTURES THAT WERE MADE AMID THE HOT AND SMOKING RUIN OF MAGNIFICENT BUILDINGS, MADE WHILE THE SOLID EARTH WAS STILL CONVULSED WITH MIGHTY TREMBLINGS, MADE UNDER CONDITIONS OF THE MOST TERRIBLE HARDSHIP AND DANGER.

VIVID DESCRIPTION OF EACH PICTURE. Printed on the back of every view is a complete description; sixty intensely interesting descriptions, constituting, as a whole, a complete, authentic and graphic history and story of San Francisco's horror.

THERE ARE PICTURES OF THE HUNGRY BREADLINE, beggars and millions shoulder to shoulder, all reduced to one common level, waiting their turn for the soup or the bread quickly furnished by a generous and sympathetic nation; pictures of the refugees' camps in the parks; pictures of tired and worn workers in the sad and never ending search for the missing.

THE LITERAL DESOLATION OF ONCE BEAUTIFUL SAN FRANCISCO, the tangle and chaos resulting from earthquake and fire, is most strikingly shown in these wonderful views of the torn and twisted streets, the yawning chasms, the ruined palaces on Knob Hill and the remains of magnificent homes on beautiful Van Ness Avenue.

VIEWS ALONG THE DEVASTATED WATER FRONT, views on Market street, views in the congested wholesale district, where the destruction was absolutely complete, all help to give us some idea of the appalling magnitude of the loss, the terrific effects of this seismic upheaval and fire.

THE RUIN OF THE MAGNIFICENT CITY HALL, the historic Palace Hotel and stately business blocks shaken and torn by the earthquake, ravished by fire and finally razed to the ground by dynamite in a vain effort to stay the progress of the flames, help us to appreciate the awfulness of the catastrophe.

MADE BY A NEW PROCESS these colored stereoscopic disaster surpass in quality any other views ever made. The coloring is better, more pleasing to the eye, and more absolutely true to nature. The detail is better, reproducing with perfect fidelity all the original photographic definition. They are made on the highest grade of super-enlarged card board, with tinted borders, they are most carefully inspected and sorted, and every view which shows the slightest imperfection is discarded, so that every set contains 60 perfect pictures, 60 beautifully colored new process stereoscopic views contained in handsome hinged cover views which you may have seen or read about, because they are better than other views regardless of price. They are made by a new process, and there are no other views on the market made by this process. Views of this quality can only be obtained from us. We believe that the importance of these wonderful pictures of the great disaster justified us in going to any expense in an effort to surpass all other views in quality, in an effort to produce views so good that they will be kept and enjoyed for years to come.

If by mail, postage extra, 36 cents.

Price, without Stereoscope.....65c

If by mail, postage extra, 16 cents.

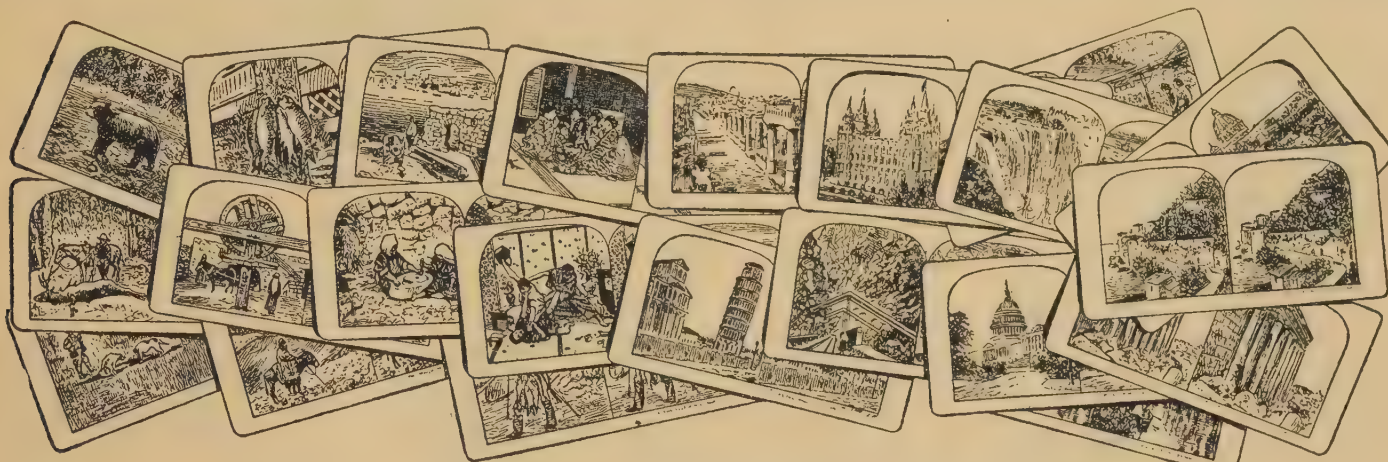

500 BEAUTIFULLY = COLORED = STEREOSCOPIC VIEWS \$2.98

100 JAPANESE, 100 EUROPEAN, 100 PALESTINE, 100 SPORTING, 100 AMERICAN, AND A FINE STEREOSCOPE, ALL COMPLETE, FOR

THE MOST WONDERFUL STEREOSCOPIC VIEW OFFER EVER MADE.

AT \$2.98 we offer you the most startling stereoscopic view proposition ever made by any publisher, such an offer as no other publisher can possibly make. We have revolutionized the view business and for the last two or three years have been giving our customers the most astonishing values. For many years exclusive view publishers have been selling the ordinary one color view for \$2.00 per dozen, \$16.67 per hundred. They also offered the customer attractive colored views at prices ranging from 35 to 65 cents each, but we discovered a new process of manufacturing views, adapting the wonderful new color process of photography to our purposes, and as a result we are able to produce stereoscopic views in an exact reproduction of the colors of nature, beautiful views, artistic views, such views as others have so far been unable to produce, and instead of asking you 35 to 65 cents each for these views, or even \$2.00 per dozen, we have so perfected this color process of photography and we have manufactured these views in such large quantities that we have brought our selling price to the lowest figure ever known in the history of the view business, all of which results in this astonishing offer to give you 500 beautifully colored stereoscopic views for only \$2.98. This is practically one-half a cent apiece, and when you compare the views we send you with the views offered by any other manufacturer you will be astonished at the high quality and the remarkable value we give you at this price. These views are a marvel of photography; very artistic, absolutely true to nature and you cannot get better views no matter what the price you pay or the process by which they may be produced.

THIS WONDERFUL OFFER of 500 colored views for only \$2.98 is made possible by the unusual conditions which have arisen in our business within the last few months. After we had produced many thousand sets of these views, we decided that on all the views we manufactured hereafter we would use a colored border and on the back of each view print a very full description of the picture. This resulted in the production of our Educational Series, very fully described in the pages of this catalogue. As a consequence we found we had on hand thousands of views just exactly the same as our Educational Series, with the exception that they lack the colored border and descriptive matter on the back, and we decided that we would make a very special price on the remaining sets and give our customers an opportunity to secure them at an extremely low price rather than to carry them indefinitely in stock or send them through the machines again to be printed on the back and given the colored border. These views are the exact same views that we sold for 85 cents per set of 100 until we offered our Educational Series. They are in every way the very highest grade of views, in every way artistic and beautiful and with the single exception that they do not contain any descriptive or historical matter on the back and do not carry a colored border, they are the same views that we are now selling for 85 cents a hundred. A great many people do not care particularly for the descriptive matter on the back and to those who care for the pictures only this wonderful 500 view set at this remarkably low price of only \$2.98 will appeal with more than usual force.

DESCRIPTION OF THESE 500 COLORED VIEWS.

THIS ASSORTMENT OF 500 COLORED STEREOSCOPIC VIEWS

contains 100 views of cities, towns and interesting localities in Europe. All the principal cities, the manners and customs of the people, the ruins of the ancient cities of Rome and Pompeii are portrayed in all their beauty of color as only this wonderful color process of photography can portray them. These 100 views of Europe will give you a picture story of all the interesting places that you now read so much about in the newspapers and magazines of today. Included in this set of 500 views is also 100 views of the Island Empire of Japan. This nation of people has recently attracted the attention of all the world by its very extraordinary abilities in the arts of war and peace, and is probably the subject of more discussion than any other people of our time. These views of Japan are wonderfully attractive and will give you such an insight into the character and the customs of these Yankees of the Orient as you could not obtain through weeks and months of reading. Their temples, their theaters, their beautiful flower gardens, interesting volcanoes, the sports and pastimes of the people are all shown in the most wonderful, lifelike colored pictures that it is possible for you to procure. Another 100 views deal with the Holy Land, that little section of Asia Minor which is so interesting to all the people of the civilized world. The birthplace of the Man of Galilee and all the scenes and places and people who are of so much interest in the Bible story of the Savior are pictured in a beauty of color that will be most entertaining and instructive to you. These views will be a very great help to you in Bible study. The subjects are wonderfully interesting. The perfection of the pictures, the exquisite colorings hold the attention and interest even the children and we know that aside from being a source of very great pleasure this set of pictures will induce a closer study of the Bible than any other thing that we could suggest. All Palestine is shown in these beautiful pictures and if we were to ask \$2.98 for this single set of 100 views, we know that you would say that you had received a wonderful value, but we not only send you the 100 views of Palestine, the 100 views of Europe and the 100 views of Japan described above, but we also take you all over our own country, this wonderful home land of ours, our own loved America, and show you 100 places of interest, 100 colored pictures of cities, towns and localities that you know something about or possibly have visited at some time in your life. The Cliff Dwellers of Arizona and New Mexico, beautiful scenes in Minnesota, Virginia, Florida, the Delta of Wisconsin, Devil's Lake, the Bad Lands, the great, almost limitless, plains of the West, the wonderful Yellowstone National Park, the Garden of the Gods, the Royal Gorge, Niagara Falls, the beautiful Yosemite Valley of California, the Grand Canyon of the Colorado, views in Alaska and many others equally as interesting and entertaining, are all given in colors just as they would appear to you were you to see them with your own eyes.

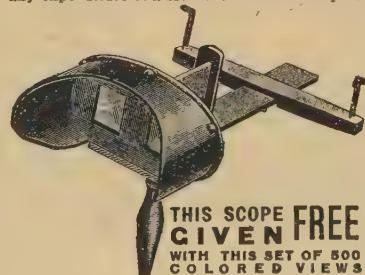

THE FIFTH SET OF 100 VIEWS deals with that side of our nature which you 100 sporting scenes portraying the Huntsman and the Fisherman and those who enjoy outdoor life in summer and winter. Every lover of the rod and gun, every lover of the woods and stream, everyone who has caught a fish or shot a duck, everyone who enjoys wholesome outdoor sports will find in this magnificent series of 100 colored views most entertaining and enthralling pictures.

EACH SET OF 100 COLORED VIEWS is put up in a fine leatherette case just like the illustration. Each case is made to hold exactly 100 views and the title of the series is printed on the outside. The cover is hinged and it is therefore possible to keep these views free from dust and in good condition for many years.

THIS GIVES YOU in brief a resume of what we give you in this big set of 500 colored stereoscopic views. The most valuable collection of pictures ever offered, given in a single set and offered to you at the most wonderful price that any firm in

the world has ever been able to make. You cannot obtain colored views that approach these in artistic treatment, in value of subject, in price, for many times the price we ask for this complete set and we know that if you will include an order for this set of 500 views with your next order for merchandise that you will find these views a source of more real pleasure than any expenditure of a similar amount could possibly bring to you. They will help you pass the long evenings of winter, they will entertain the children on rainy, disagreeable days, they will help every member of the family to pass away many pleasant hours.

**THIS SCOPE FREE
GIVEN
WITH THIS SET OF 500
COLORED VIEWS**

TO COMPLETE THE OUTFIT

In addition to the 500 colored stereoscopic views, we include without further expense a fine birchwood stereoscope equipped with strong first class lenses. The hood of this stereoscope is made from a very good quality of birchwood. The frame is also of birchwood carefully finished with patent folding handle. The lenses are first quality; they are carefully ground from a high grade of fine clear glass, very accurately adjusted and firmly held in place and this scope is better than those most view publishers sell for 50 to 60 cents. This scope is included free with the 500 views and gives you a complete outfit.

YOU CANNOT OBTAIN ANYTHING LIKE THESE VIEWS FROM ANY OTHER PUBLISHER OR DEALER

The process by which they are manufactured is our own and we offer them to you on the positive guarantee that they will please you, that you will find them better and more interesting than any views you ever saw regardless of name, make or price, and if you do not agree with us that they are wonderful value, that they are worth many times the insignificant price we ask for them, you are at liberty to return them to us and we will promptly return your money and the transportation charges paid by you. This price of only \$2.98 for this big set of 500 colored views, this price of but a little over 1/2 cent a view is so astonishingly low that some may doubt the quality of these colored views we offer at unheard of prices, but we wish to say to you that there is no comparison to be made between these beautiful colored views of ours and the views offered by other publishers and we know that the instant you receive them you will agree with us that they are in every way all that we represent them to be. These 500 colored stereoscopic views take you all over the world and through the stereoscope you see the people of every clime, you learn something of their manners and customs, their peculiarities of dress, their religion, and you can obtain by means of this picture story a comprehensive view of all that is worth seeing or knowing, something about all the world. It will give you such information as you can only obtain in weeks, months and years of study so that when you read of these people and their manners and customs in the magazines and papers of today, you will have a right understanding of the subject discussed. You will be up to date, you will be thoroughly posted and able to read intelligently or discuss interestingly almost any subject which is now discussed in the press of our country. All this we bring to you at only \$2.98, a series of pictures which, if purchased from those publishers who have made the view business their specialty, would cost you over \$100.00 and which would bring to you stereoscopic views which do not compare in quality with these we offer you at this wonderfully low price.

No. 55F1110 Price, complete outfit including 500 colored views in leatherette cases and one fine birchwood stereoscope..... **\$2.98**

A TRIP THROUGH JAPAN

100 WONDERFUL COLORED VIEWS OF THE ISLAND EMPIRE

65¢

AT ONLY 65 CENTS we will send you this big set of 100 Colored Stereoscopic Views of Japan, complete with border and full description on the back of each view, or for 75 cents we will send the full set of 100 views and include a hardwood stereoscope, the most startling offer ever known to the view business. Agents sell the ordinary uncolored views at \$2.00 a dozen, \$16.67 per hundred, and they have sold millions at these big prices. Yet we will send you a big set of 100 views for only 65 cents, 100 beautiful views made by the wonderful new color process of photography, pictures reproducing nature's own colors true to life, a price which is but a trifle more than one-half cent per view.

THESE COLORED PICTURES OF JAPAN, made by the wonderful color process of photography, are the equal of stereoscopic views which have been sold heretofore at from 35 to 65 cents each, yet we will give you this full set of 100 beautifully colored stereoscopic views of Japan for only 65 cents. No such offer as this has ever been made by any firm in existence, no other concern in the world can offer you such a startling proposition. Just think of a trip through Japan, a hundred different scenes just as they would appear to you if you were to travel by steamboat, by rail or by carriage throughout this island empire. When we manu-

WE TELL YOU THE WONDERFUL STORY OF JAPAN IN PICTURES, appreciated; their beauty, their fidelity to life, views made by the wonderful color process of photography, showing landscapes, street scenes, pictures of buildings and cities, lakes, rivers, mountains and volcanoes, interiors of theaters and temples, the wonderful dancing girls of the Island Empire, all shown exactly as if you stood and saw them with your own eyes in the colors of nature.

ON THE BACK OF EVERY ONE OF THESE 100 COLORED VIEWS OF JAPAN

is a full description of the subject shown in the picture. This makes these stereoscopic views ten times as valuable and interesting as they would be if they were the pictures alone without descriptive matter, and we give you more information about the interesting features of Japan, of the quaint customs of its people, of their habits and modes of living, of their sports and recreations than you could obtain in weeks of reading of dozens of books on the subject. In fact, these views are decidedly educational in character and will give you, for only 65 cents, a most comprehensive knowledge of these wonderful little people.

THIS WONDERFUL SET OF 100 COLORED STEREOSCOPIC VIEWS, which we offer you complete for only 65 cents, will prove a most satisfactory investment; it will afford you more entertainment, it will prove of more educational value than any investment you ever made. These wonderful photographic views will be a source of never ending delight to you, you will never tire looking at them through the stereoscope because of their great novelty, the brilliancy of their treatment, their fidelity to life and they will have for you a special interest at this time such as no other subject could possibly have.

PLEASE REMEMBER that these views are equal of any colored views ever made, because they are produced by that wonderful new process of color photography which reproduces exactly according to life the subject photographed. Not a detail of color is lost in the photographing process and you cannot secure views that will approach these offered by us at 65 cents per full set of 100—only a little more than half a cent each—from any other manufacturer or dealer at 35 to 65 cents per single view.

A FINE HARDWOOD STEREOSCOPE will be included with these 100 views set instead of 65 cents. This scope is very well made, is accurately adjusted, has screw handle and is equipped with perfect lenses. This remarkable offer of only 75 cents for both the full set of 100 colored views and the scope, is made by us with a view to introducing to you these new and novel stereoscopic views and is such a price as has never been approached by any publisher.

WE GUARANTEE these colored stereoscopic views to be just as described, to be exactly as represented in every respect, genuine stereoscopic views with the most perfect stereoscopic effect, all made in natural colors, with accurate and interesting descriptions. Each and every order is accepted and filled with the distinct understanding and agreement that if the views are not in every way entirely satisfactory, as good or better than any other stereoscopic views you have ever seen, regardless of price, they may be returned to us at our expense and we will refund your money and the transportation charges paid by you.

ALL OVER EUROPE FOR

65¢

100 BEAUTIFULLY COLORED STEREOSCOPIC VIEWS OF THE PRINCIPAL CITIES, BUILDINGS AND PLACES OF INTEREST IN ALL EUROPE, PACKED IN A FINE LEATHERETTE CASE, ONLY 65c.

Beautiful views, made by the marvelous new color process of photography, reproducing colors just as they are in the originals, better views than other publishers have been selling at from 35 to 65 cents each. If you have no stereoscope, send us 75 cents for this BIG SET OF 100 VIEWS and we will include a FINE HARDWOOD STEREOSCOPE with your order.

THIS WONDERFUL OFFER OF 100 BEAUTIFULLY COLORED VIEWS FOR 65 CENTS

has never been approached by any other publisher in the view business, and it is a price lower than any other firm in existence could offer. Just think of chromatic colored views at less than three-fourths of a cent each and then compare this offer with the 35 and 65-cent prices asked and received by other publishers for single views. These views are marvels of photography, they are artistic, they are absolutely true to nature, and will give you such an accurate picture story of the cities and towns and interesting sections of all Europe as you could obtain in no other way. Words cannot convey to you the great beauty of these pictures.

THE NEWSPAPERS OF TODAY ARE FULL OF DISCUSSIONS OF EUROPEAN QUESTIONS,

and the interests of our own great nation have become so closely interwoven with the affairs of the nations of Europe that we all want to know something about the peoples and places of interest in Europe, and when you have seen the picture through the stereoscope if you will then turn it over you will find printed on the back a very full description of the subject, relating its historical associations and giving you accurate data which will enable you to discuss intelligently the subjects which may come up from time to time concerning old world places and events.

THESE BEAUTIFUL COLORED VIEWS will prove wonderfully entertaining. They have unusual educational value and the eye never tires of them. We have searched the libraries of Europe and America for the facts printed on the backs of these views; we have boiled down the literature of the ages for the information we give you on these views.

THESE COLORED VIEWS SHOW YOU THE WONDERFUL CATACOMBS OF ROME,

the burial grounds of the ancients, with thousands upon thousands of skeletons in niches hewn from the rocks; the ruins of the temples of the ancients; street scenes in Venice; the ruins of the Parthenon at Athens, Greece; the ancient castles of Algeria; the magnificent Church of Our Savior at Moscow, Russia; agricultural scenes along the Nile, in Egypt; the beautiful garden of Genoa, Italy; the arch of Nero, and the ancient volcano, Mt. Vesuvius, which buried the ancient city of Pompeii in a single day; the departure of emigrants at Genoa; the beautiful Grand Opera House at Paris, France; interior views of the wonderful Coliseum, where the games of the Romans of olden times gave the countless thousands and where Nero and other tyrants of other days were viewed by the Christian martyrs to be devoured by wild beasts; scenes in Norway and Sweden, the beautiful castles of Switzerland; views among the peasantry of Russia, those patient people who are now suffering so intensely because of revolution at home; the public market in Cairo, Egypt; two of the seven wonders of the world, the Sphinx and Pyramids of Egypt; the fountains of St. Petersburg; the gambling resort of Monte Carlo; the beautiful Rhine, the finest and most picturesque river in all Europe and perhaps in all the world; the glaciers and mountain slopes of Switzerland; Gibraltar, the impregnable fortress at the entrance of the Mediterranean Sea; the Tower Bridge of London; the great Cathedral of Cologne, Germany; the Gladiators' Barracks and Gymnasium at Pompeii; the Lantern of Demosthenes; the wonderful flower gardens of Paris; another of the seven wonders of the world, the Leaning Tower of Pisa, and many other equally attractive and interesting subjects are pictured in this splendid series, the most beautiful and valuable pictures ever offered.

YOU CANNOT OBTAIN ANYTHING LIKE THESE VIEWS from any other publisher or dealer. This price is so astonishingly low that some may doubt the quality of these views we offer at these unheard of prices, but we wish to say to you that there is no comparison to be made between these beautiful colored views and the views offered by other publishers, and the instant you receive them you will agree with us that they are in every way all that we represent them to be.

BE SURE TO ORDER THIS SET OF EUROPEAN VIEWS the next time you send us an order for merchandise. We can include it with your next shipment, so that you will be at no expense for transportation charges, and the hours of delight they will bring to you will more than repay you for the small investment you have made.

A GREAT COMIC SERIES 05c

ONE HUNDRED LAUGHABLE SCENES IN BEAUTIFUL COLORS.

This is the funniest set of stereoscopic views ever sold, a set of views that will make you laugh from the time you look at the first one until you have ended with the one hundredth view, provided you can endure aching sides long enough to look at the entire series. Every picture is a beauty; it is produced by our wonderful new secret process of photography, and every single view is made from life. Not a picture in the entire series is a reproduction of any painting, drawing or ludicrous situation ever before illustrated, but instead every picture in this series of one hundred colored views is an original from life, caught by the camera when the person or persons least expected it or desired it, or else posed expressly for this wonderfully interesting and laugh provoking series.

THERE IS MORE FUN in a dozen of these, our comic views, than there is in any one hundred views offered by any other publisher or dealer, and at our wonderfully low price of 85 cents, which is less than one cent each, these views are astonishing value and will afford more entertainment and more wholesale amusement in your home than any other purchase you can make.

THE FUN CREATED by this series of one hundred colored stereoscopic views is good, wholesome, clean fun, because every picture of the series is itself clean and wholesome and you need not have the slightest hesitancy in ordering this big series of one hundred views at our 85-cent price, and placing them in your home where the children and your visitors and friends may have free access to them.

SUCH A JOLLY TIME as the boys and girls will have with these pictures fun can be had by everybody in the household when this set of one hundred colored comic views arrives. No such value was ever put into stereoscopic views as we place in this, our comic series, which we offer you at less than one cent per view. They are made by our wonderful new color process of photography, which not only brings out every detail of the subject as viewed by the camera's lenses, but also every detail of color just as the scene or incident would appear to you could you have viewed the original with the naked eye.

LAUGHABLE HUGGING AND KISSING SCENES,

comic jokes on the young man and his best girl, humorous scenes depicting the ridiculous side of domestic life, amusing bathing scenes, photographs of children engaged in childish pranks, embarrassing and ludicrous incidents, exceptionally funny situations and innumerable other side splitting scenes depicting the comic side of life are shown in this funny series of colored stereoscopic views. No series of views is complete without this, our comic series, and no home which owns a stereoscope should be without these one hundred colored views at our marvellously low price of 85 cents; no investment that you can make will yield larger dividends or more pleasure to the children and your visitors and friends than this investment in our laugh creating series of comic views.

WHEN OUR ARTISTS began the collection of the pictures from which these marvelous colored stereoscopic views are made they were told to seek for entirely new and unusual subjects; they were instructed that their pictures must be absolutely original, that they should search every avenue for funny situations, amusing incidents, laugh provoking poses and that they obeyed instructions is evidenced by this remarkable set of 100 colored stereoscopic views, our comic series, which we offer you at

85c

THESE ONE HUNDRED VIEWS are really the funniest stereoscopic views ever gotten together in a single series; the illustration on this page gives you but a faint idea of the remarkable beauty and splendid value which we offer you in this series of one hundred colored stereoscopic views. The picture on this page necessarily shows a few of these views, all very much reduced in size, so small, in fact, that almost all the details of the pictures are lost, but it will give you a faint idea of the wonderful variety of subjects treated in this series: Snow bailing scenes, bathing scenes, the pranks of the children, naughty little Willie and his papa, the baby and the kitten, John Doe and his sweetheart Sue, the burglar, the tramp, innocent Willie and the bald headed man, and all those other funny subjects which have convulsed the world throughout the ages.

WE HAVE PUT MORE LAUGHTER, more fun, more real wit and humor into this collection of one hundred comic stereoscopic colored views than was ever put into a series of stereoscopic views before, and these funny subjects have been brought out so beautifully in nature's own colors, the workmanship on these views is so exceptionally good and our new process has enabled us to bring out the details of the original so marvelously lifelike in every respect that we know you cannot help but be delighted with this series of funny, laugh provoking views. We have exercised great care in selecting every single subject in this series; there is not a vulgar picture in the entire collection, not a single picture to which the most refined could possibly object, yet all the pictures in the entire series are wonderfully interesting, they will prove a never failing source of pleasure, because though they may be looked at again and again, every picture in the entire set presents a new aspect every time it is inserted in the stereoscope, and you will find something you had overlooked before, some new feature of the picture to amuse you and entertain you.

AFTER OUR ARTISTS HAD SUBMITTED the result of their search for the funniest things they could find, we found that a wonderful collection of most interesting and amusing pictures had been submitted and there were so many of them that we had an unusually large collection from which to select this series of 100 comic views. As a result, we have been enabled to offer you in this big series the funniest pictures ever produced by the camera.

WE HAVE SOLD THOUSANDS OF SETS OF THIS COMIC SERIES. It has been the most popular stereoscopic view offer ever made our customers, and we know that if you will send us our 85-cent price you will be more than delighted with this series of comic views produced by our new process of color photography.

ORDER THIS BIG SET of one hundred colored stereoscopic views, this, our comic series, no matter how many other stereoscopic views you may have. Include an order for this set the next time you order merchandise from us, let us put it in with your shipment, it will add nothing to the freight charges, and at our wonderfully low price of only 85 cents it will be a splendid investment and one that will yield most satisfactory returns to you every time you look at these comic colored views through the stereoscope.

COMPLETE DESCRIPTIONS are printed on the back of every view. Sometimes this descriptive matter takes the form of an appropriate joke, an apt quotation or some pleasing allusion to the subject depicted in the picture, giving it a new and double interest.

No. 55F1346 Comic Views. Complete set of 100 views, all different, with reading matter on the back, in hinged cover imitation leather box. Price, with stereoscope 95c

If by mail, postage extra, 44 cents.

Price, without stereoscope 85c

Be sure to state whether you want stereoscope or not.

THE STEREOSCOPE which we furnish with this outfit of 100 colored stereoscopic views, our comic series at our 85-cent price, and which we also furnish with the series of stereoscopic views shown on the following 3 pages, is made with fine hardwood frame; has wood screwed handle and fair quality of lenses and a varnished pressed board hood. While this is not the best stereoscope made it is a very serviceable instrument and will be found quite satisfactory, but if you prefer one of our highest grade stereoscopes you can order this set of views alone, without the stereoscope, at 85 cents, and make your own selection of stereoscope from page 697.

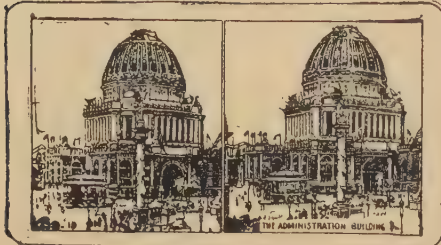

THIS SET OF 100 COMIC COLORED VIEWS BRINGS MORE FUN TO YOU THAN 85 CENTS CAN BUY ANYWHERE ELSE.

This set is put up in the regulation style morocco covered pocket case, lined with fine quality silk velvet. Price, per dozen, \$124.00; each, \$10.90. (If by mail, postage extra, 22 cents.)

**ABOUT THE QUALITY OF OUR DRAWING INSTRUMENTS. OUR LOW PRICES EXPLAINED.**

WE RECEIVE MANY INQUIRIES from customers, asking if we can furnish drawing sets with certain American dealers' names stamped on the instruments, and there seems to be an impression that instruments bearing these American dealers' names are in some way superior. There also seems to be a tendency among some of our customers, especially those who do not know us well, to question the quality of our drawing sets, because of the extremely low prices at which we sell them. We believe that a plain statement of the facts in reference to drawing instruments will enable our customers to understand how we are able to make these prices.

PRACTICALLY ALL THE DRAWING INSTRUMENTS sold in the United States are manufactured in Switzerland and Germany. These Swiss and German manufacturers supply the world with drawing instruments. Now, those American dealers, those dealers whose names are seen on instruments in this country, buy their instruments from the same Swiss and German manufacturers who supply us with our dealers who sell them.

SOME OF THESE AMERICAN WHOLESALE DEALERS PRETEND TO BE MANUFACTURERS, but they are not. They buy their instruments from the exact same factories in Europe that we buy ours, and they buy the exact same styles and qualities of instruments. The big American wholesale dealer makes up an order very season for drawing instruments, and he gives this order to a New York importing house. The New York importing house transmits the order to a commission man in Europe and the commission man places the order with the factory, where the goods are made up and stamped with the American wholesale dealer's name. Now, the factory makes its profit, the commission man makes his profit, the New York importing house makes another profit, the big American wholesale dealer makes his profit when he sells the goods to the retail dealer and the retail dealer adds on still another profit, generous profit when he sells the goods to the user. This system of marketing drawing instruments means that there are many profits between the factory and the user, and the fact that the American dealer's name is stamped on the instruments means nothing at all, except a higher price to the user.

WE BUY OUR INSTRUMENTS from the exact same factories that supply the big American wholesale dealers, but our European representative places our order direct with the factory in Switzerland or Germany, and when the goods reach our store there has been only one profit made on them—namely, the manufacturer's profit. We sell the instruments direct to the user, and therefore, between the manufacturer and the user there is just one small percentage of profit added to the cost of the goods. That is why we can sell the same quality of instruments for less money than the retail dealer; that is why we can absolutely guarantee that every set of instruments described on this page is equal in every way to instruments sold by the ordinary dealer at double our price.

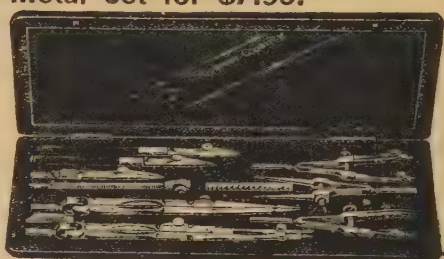

WE ASK YOU \$9.60 for our No. 55F1652 Set. This exact same set, made in the same factory and identical in quality, if sold through the regular channels and stamped with some American dealer's name, would be retailed at from \$18.00 to \$20.00, and the only difference between our set at \$9.60 and the American dealer's set at \$20.00, lies in the fact that the American dealer's name is stamped on his set and it is not stamped on the set that we sell you. The quality is exactly the same. The American retail dealer asks you from \$10.00 to \$12.00 for a set corresponding in every way to our No. 55F1645, and exact same quality that we sell you for \$9.60.

DO YOU THINK that the American dealer's name stamped on a drawing instrument is worth the price you are compelled to pay for it?

High Grade Wrought Metal Set for \$7.95.

No. 55F1649 Extra High Grade German Silver Wrought Metal Drawing Set, consisting of 5-inch Ruling Pen, 4 1/2-inch Ruling Pen, 3 1/2-inch Steel Spring Bow Divider, 3 1/2-inch Steel Spring Bow Pen, 3 1/2-inch Steel Spring Bow Pencil, 6-inch Pivot Joint Hair Spring Divider, 6-inch Pivot Joint Compass, pen and pencil points, Lengthening Bar for Compass and Case of Leads. We guarantee this set to equal in quality any set sold by ordinary dealers at \$15.00. It is a set that will meet the requirements in the very best technical schools in this country. This set is put up in the regulation leather covered pocket case, lined with silk velvet. Price, per dozen, \$90.75; each, \$7.95.

If by mail, postage extra, 20 cents.

**Our Special Wrought Metal Set at \$9.60.**

No. 55F1652 Extra High Grade German Silver Drawing Set, consisting of 5-inch Ruling Pen, 4 1/2-inch Ruling Pen, 3 1/2-inch Steel Spring Bow Divider, 3 1/2-inch Steel Spring Bow Pen, 3 1/2-inch Steel Spring Bow Pencil, 6-inch Pivot Joint Hair Spring Divider, 6-inch Pivot Joint Compass, pen and pencil points, Lengthening Bar for Compass, Case of Leads. We cannot recommend this set too highly. Every instrument is made with the utmost care and guaranteed to be perfect. Workmanship and materials used throughout are the very highest grade, and we know that this set is equal in quality to any set sold regardless of price. This set is put up in the very latest style folding pocketbook case, made with the finest quality morocco leather and lined with brown chamol skin, giving the set an exceptionally rich appearance. It is a case well fitted to contain this exceptionally high grade set of instruments.

Price, per dozen, \$109.50; each, \$9.60. If by mail, postage extra, 20 cents.

Complete Drafting Outfit, \$7.75.

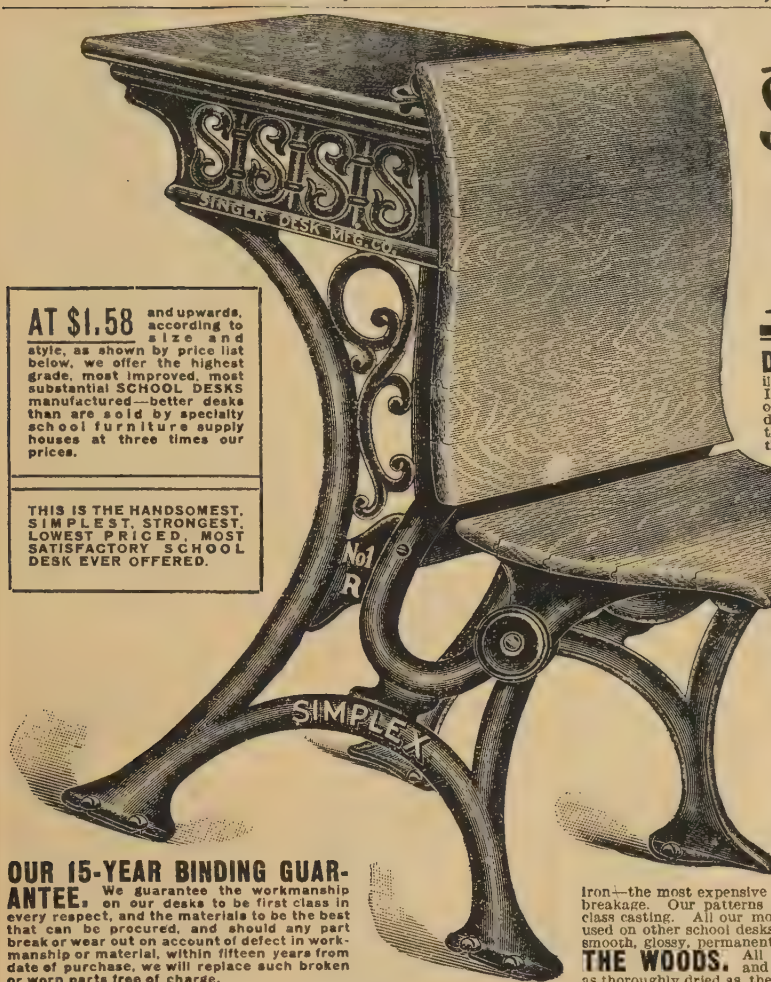

This big and complete Draftman's Outfit is strictly high class throughout, every item carefully selected, the very best that is suitable for correspondence school work, and in every way superior to the outfits usually furnished for such work.

Hawkins' Self Help Mechanical Drawing, the complete manual of mechanical drawing included with this outfit, contains 320 pages, and 300 illustrations. It is strongly and handsomely bound in fine six finish green cloth, with title stamped in gold, printed on the very finest white calendered paper, with full gold edges; extra large size, measuring 7 1/2 inches. This book covers the subject of mechanical drawing from start to finish, and is carefully arranged according to the fundamental principles of the art of drawing. It gives full information regarding drawing materials and instruments, free hand drawing, mechanical drawing, geometrical drawing, penciling, projection, inking-in drawings, lettering, etc. It gives drawing office rules, rules for patent office drawings, useful tables of all kinds; in short, the most complete, comprehensive and practical book published on mechanical drawing.

No. 55F1667 Complete Drafting Outfit, including the following items:

- 1 copy Hawkins' Self Help Mechanical Drawing for home study.
- 1 set of our No. 55F1637 pivot joint instruments, with three bow instruments, compass, divider, pen, etc.

- 1 Dozen Brass Thumb Tacks, fine quality.
- 1 Koh-i-noor Pencil, H.B.
- 1 Bottle Higgins' Waterproof Ink.
- 1 Ink and Pencil Eraser.
- 2 Sheets 16x21 Tracing Cloth.
- 6 Sheets Whatman's Best Drawing Paper, 15x20.

Price, complete, \$7.75

AT \$1.58 and upwards, according to size and style, as shown by price list below, we offer the highest grade, most improved, most substantial **SCHOOL DESKS** manufactured—better desks than are sold by specialty school furniture supply houses at three times our prices.

THIS IS THE HANDSOMEST, SIMPLEST, STRONGEST, LOWEST PRICED, MOST SATISFACTORY SCHOOL DESK EVER OFFERED.

OUR 15-YEAR BINDING GUARANTEE.

We guarantee the workmanship on our desks to be first class in every respect, and the materials to be the best that can be procured, and should any part break or wear out on account of defect in workmanship or material, within fifteen years from date of purchase, we will replace such broken or worn parts free of charge.

Joints are practically unnoticeable and will not come apart. In finishing, we use the best three-coat work—one coat of heavy filler well rubbed in, one coat of the best shellac well sanded, and a heavy coat of varnish, which guarantees a handsome and a lasting finish. Seat, back and top are attached to the iron frame work by means of lugs, ribs and screws—a method of construction which has stood the test of time, and which, though simple, gives the strongest desk it is possible to devise.

OUR LIBERAL TERMS.

We will ship any of the merchandise catalogued in these pages C. O. D. with the privilege of examination, where a sufficient sum to cover the transportation charges both ways is sent with the order, balance

TABLE SHOWING SIZES, PRICES AND SHIPPING WEIGHTS OF OUR SCHOOL FURNITURE.

Our goods are invariably quoted F. O. B. Chicago unless definitely stated otherwise. For the aid of those wishing to approximate beforehand what delivery will cost, we print below a table of average weights of each size and style of school desks with an allowance for boxes and crates. School desks are shipped knocked down, and your freight agent can give you the rate per 100 pounds from Chicago, and this table will enable you to figure quite closely the total weight of the outfit desired.

RECITATION SEATS.

OUR RECITATION SEATS

are as thoroughly made as our Simplex school desks. The castings are of the same high class material, are given the same high grade finish, and have the same patent, unbreakable, noiseless hinge. The seat and back are of kiln dried oak, carefully fitted and perfectly finished, and our 15-year guarantee is behind every recitation seat we sell. We have them in stock, like illustration, in 6, 8 and 10 feet lengths, and the prices quoted are the lowest ever named on a perfect, strong, absolutely satisfactory recitation seat.

WE GUARANTEE SAFE DELIVERY to your station. Our school furniture is very carefully wrapped, packed and crated, and is guaranteed to arrive in the same perfect condition in which it leaves our hands. Should any part become broken in transit, which is a rare occurrence, we will replace same free of charge and pay the transportation charges on the new parts. We ask you, however, to carefully examine the goods upon arrival and if any broken parts are found get a written statement to that effect from the railroad agent and send it to us, as such a statement enables us to adjust the matter with the railroad company.

\$1.58 SCHOOL DESK

SCHOOL DIRECTORS, COUNTY COMMISSIONERS, SCHOOL BOARD COMMITTEES, TEACHERS,

Everyone having anything to do with the buying of School Furniture, note our new School Furniture proposition. See the astonishing Prices we quote, **VERY MUCH LESS** than this line of goods has ever before been offered.

DESCRIPTION OF OUR SIMPLEX SCHOOL DESK. Our Simplex illustration of which is here shown, is the best school desk manufactured at any price. It is the acme of school desk building, excelling in simplicity of construction, quality of materials, beauty of outline, ease of operation, noiselessness and durability any school desk ever before manufactured. Our whole aim in building this desk has been to reduce the number of parts to the lowest minimum, thus reducing first, the cost, and secondly, the liability to get out of order.

We have succeeded in reducing the price to a level never before attained, and so simple and wonderful is the construction of the Simplex school desk that it is absolutely impossible for it to come apart, or get loose and noisy, no matter how long it is used.

GENERAL DESIGN. No desk was ever placed in the schoolroom which is more beautiful in appearance than the Simplex. While striving for the beautiful, however, we have kept constantly in mind the needs and the comfort of the growing child. In graceful contour of back and seat we offer a desk conforming to the natural lines of the body, the most comfortable school seat ever devised. The castings are in attractive patterns and the writing surface is at the proper height and slightly tilted at the approved angle.

THE SEAT HINGE is the really vital point in a school desk. We have produced a hinge which is absolutely free from complicated parts, thus eliminating the possibility of breakage, wear and noise making. We have but one detached part in the hinge of the Simplex seat, the buffer spring, and as the bearing is babbitt metal—the same that is found in the pulley and shafting hanger—it will wear a lifetime and still be as good as new. The spring which receives the blow as the seat is raised or lowered, is tempered by a special process and is so surrounded and protected by other parts that it cannot be strained, weakened, broken or gotten out of place by any sort of usage. This arrangement of the spring makes the movement of the seat the easiest and most noiseless of any school desk on the market. Furthermore, the hinge on the Simplex school desk is so constructed that it can be used without a bolt. This is a feature found in no other school desk. Bolts are continually working loose where the parts are dependent upon this method of construction, and the hinge becomes useless. If not dangerous to the person of the pupil, we furnish the bolt with the hinge, however, if wanted, but it may be thrown away and the hinge will be just as strong and serviceable without it. The Simplex hinge is, in fact, frictionless, noiseless, perfect.

THE CASTINGS. In selecting materials for the Simplex school desks we have kept in mind the fact that the castings should be made of the very best pig iron to secure lightness and strength. We use the highest grade iron—the most expensive used by any school desk manufacturer—to secure wearing qualities and insure against breakage. Our patterns are made of finely finished brass, the only material which produces a class casting. All our moulding is done by hand, thus preventing the defects common to the machine castings used on other school desks. The finish is two-coat Japan, thoroughly dried, hardened and baked, which insures a smooth, glossy, permanent finish.

THE WOODS. All the woods used in the Simplex school desks is selected rock maple, thoroughly seasoned and kiln dried under circumstances that permit the use of wood which has not been as thoroughly dried as the most modern woodworking methods require. The pieces comprising seat, back and top are carefully milled, tongued, and grooved, glued under pressure, and then so thoroughly sanded that the

to be paid when the goods are found satisfactory and accepted. We suggest that 25 per cent of the total be sent with the order when you request the shipment of school furniture C. O. D. Understand, you run no risk whatever in sending cash in full with the order and almost everyone sends the full amount with their orders for school furniture because it is the only most satisfactory and overcome all needless delays due to red tape, but it also saves the charge of 25 to 75 cents which the companies make for collecting and returning the money. Our binding guarantee of perfect satisfaction or your money back, and the transportation charges both ways at our expense is behind every sale of our school furniture whether you order the goods C. O. D. or send cash in full with the order.

IT IS EASY TO ORDER SCHOOL FURNITURE FROM US. Nothing easier than ordering all School Furniture you need from us. If you want School Desks and Recitation Seats, this page contains full information as to sizes, prices, terms, etc., and we will assume all responsibility for correctly filling your orders. You take no risk whatever. Remember, we guarantee you satisfaction in every respect, and if when the goods arrive you do not find them perfectly satisfactory in every particular to you and everyone else concerned in this purchase, we will return the money sent us and pay the transportation charges both ways. You cannot be disappointed—we assume all the risk, because we know this is the greatest school furniture proposition ever offered, and it cannot help but please you.

THIS WONDERFUL DESK OFFER is only a sample of what we will save you throughout our entire line of school furniture. If you need school furniture, whether you want one desk or a dozen, recitation seats, teachers' desks, or any kind of furniture used in the schoolroom, don't order from anybody at any price, or let any agent persuade you to place an order with any firm until you have sent first for our free Special School Furniture Catalogue, the most complete school furniture catalogue issued by anyone, containing the lowest prices ever quoted on school furniture, prices in many instances only one-half and one-third the prices quoted by any specialty school furniture supply house.

THIS FREE Special School Furniture Catalogue will also be sent to you, and others who buy opera chairs for auditoriums, assembly rooms, theaters, etc., as it quotes an astonishingly low price on the best, the strongest, the most comfortable opera chair ever sold, and fully describes and illustrates it. If your school needs only a few desks, one or any quantity, any length of recitation seats, you can send us your order direct from this page under our guarantee of satisfaction or money refunded, since the best value we can offer is shown here. However, if you want any other style of desk, or seat, or want to see larger, more complete, more detailed illustrations of this desk, if you would rather make a selection from a larger line, if you want various items of school furniture, then under no circumstances must you place your order until you first write and get our big complete special free catalogue of school furniture. Just say in your letter or on a postal, "Send me your Special School Furniture Catalogue," and the book, as illustrated, will go to you by return mail free and postpaid. In this free special catalogue of school furniture you will find the greatest assortment, the most up to date styles, the fullest variety in school desks, recitation seats, chairs, teachers' desks, bookcases, etc., a catalogue so complete that you will not have the slightest trouble in ordering just what you want and all at lower prices than ever before heard of.

OUR FURNITURE DEPARTMENT.

IN THIS DIVISION of our thoroughly revised and up to date catalogue we offer you a complete and magnificent line of all the newest and best styles of reliable, dependable furniture needed to make a comfortable home. Our sales of furniture have been so greatly increased from year to year as to enable us to secure better and better manufacturing connections, constantly improving the quality and reducing the price and we call more than ordinary attention to the wonderful values we offer you with the assurance that we are in a better position to furnish our customers better values than were ever offered before, much better in **QUALITY** and **DESIGN** than they can secure from other dealers and at prices from one-third to one-half lower than goods of equal quality are sold in furniture stores. We are showing a much larger variety and better selection than ever before and we invite the most careful comparison in **DESIGN, QUALITY** and **PRICE**.

OUR DESIGNS are strictly up to date. They are the result of the most careful and painstaking efforts. We offer you the same advantage of selection as you can find in any of the largest furniture stores in the cities with the added convenience of making your selection in your own home. All of the standard designs, as well as the latest and newest patterns, are illustrated and described in the various divisions of our furniture department. While it is impossible for any illustration to bring out the beauty of design, the color, or the handsome smooth carvings, yet by a careful reading of the descriptions and close examination of the illustrations, which are exact reproductions of the photograph of the article, you can form a correct idea of the design.

OUR PRICES are based on factory cost. Our selling prices on every article of furniture represent the narrowest margin of profit above first cost of production, the actual cost of the raw material and skilled labor. A careful comparison will show that our prices are not much more than one-half the prices at which furniture of equal quality is sold by retail dealers. In fact, we put you in position to buy dependable furniture for about the price most retail dealers pay at wholesale. How we are able to make prices so low: Our sales of furniture of every kind have increased to such a large volume in every division that we are able to contract in each case for a large part of the output of the factory, and these factories desiring to run the year around at their full capacity are willing to take our contract at the cost of material and labor, enabling them to reduce the cost of the goods to the lowest point possible, to which we add our one small percentage of profit. Why we make prices so low and at the same time give better value in the wonder of the furniture trade. We make the price low, for by so doing we increase the volume of orders.

WE ABSOLUTELY GUARANTEE that if any article similar in design to that we offer should be offered by other dealers at a lower price than we ask, the quality has been reduced more than the price and needless to say that such goods are worthless at any price. If you do not find this is so by comparing the goods, or if you ever buy anything from us that is not lower in price than the same quality of goods can be bought from any other house, you are specially requested to return our goods at our expense and get your money back at once.

QUALITY is a watchword with us. We never take one penny out of the quality in order to make a "catchy" price. The quality of our furniture is strictly first class in

every detail of construction and finish, the very best that modern machinery and skilled labor can produce. The wood is carefully selected, thoroughly air seasoned and kiln dried. Every detail of construction is carefully framed and joined. The finishing materials are the very best that can be obtained. To sacrifice quality to make a low price is to make a worthless article. Our constant aim and our strongest efforts have been to improve the quality and keep the price low by increasing the sale. The dependable quality of our furniture is so firmly established that we ask you to order any article you may select, place it beside any other article of same design at anywhere near our price and if you do not find the article you purchase from us better made, better finished, and worth from 25 per cent to 50 per cent more than any other, you may return it to us and we will refund the purchase price, together with the transportation charges.

OUR POLICY. Every article of furniture shown on the following pages is covered by our binding guarantee, and shipped with the understanding and agreement that it will reach you in perfect condition, that the design, material, workmanship, finish and mechanical features are exactly as represented, and that if found defective in any particular, it may be returned to us and we will cheerfully refund the purchase price, together with the transportation charges. A satisfied customer is the best advertisement any firm can possibly obtain. We know that you will be more than satisfied.

ABOUT FACTORY SHIPMENTS. In order to reduce our selling price to the lowest possible point, we reserve the right to ship direct from our factory, thereby eliminating the freight charges from the factory to Chicago, cartage and handling in the warehouse and the additional liability of damage to the goods, all of which adds to the cost but does not improve the quality. We give you the benefit of every penny saved in this way by adding only our one small margin of profit to the actual cost of the goods at the factory.

FACTORY INSPECTION. Thoroughly experienced and competent inspectors, men who are expert cabinet makers and finishers, are employed at each of our factories, who carefully inspect every article. Every detail of the construction and finish is rigidly examined before the article is packed for shipment. Each article, after being thoroughly inspected as to material, construction and finish, is securely wrapped, burlapped or crated, whichever style of packing is best suited to the style of article, in order to insure safe delivery at destination in the same perfect condition. We guarantee safe delivery.

PROMPT SHIPMENT. At each of our factories we have prepared immense warehouse room. The goods are made up, carefully finished, inspected and placed in a perfectly dry and thoroughly ventilated storage room, ample time being given for the finish to thoroughly set, dry and harden before being packed for shipment. We are thus enabled to make shipment within a few days after receiving your order.

ABOUT FREIGHT CHARGES. The freight charges on any article of furniture will amount to next to nothing as compared to what you will save in price. The freight on any article of furniture for a distance of about 500 miles will amount to 75 cents to \$1.50. Don't let the item of freight charges prevent you from ordering, for we positively guarantee that after you have paid all the freight charges you will find that you have saved considerable money by sending your order to us.

DIVISION OF CHAIRS AND ROCKERS.

THERE ARE CHEAPER CHAIRS MADE AND SOLD THAN WE OFFER—BUT THE QUALITY OF SUCH CHAIRS IS CHEAPER ALSO. There is an association of chair manufacturers throughout the United States which regulates the size of chairs which are known as standard size chairs. By cutting down the size other manufacturers are able to reduce the quality, and hence the price.

We offer our customers only chairs of standard size. When you buy from us you get the best chair in the market. We do not cut the quality in order to reduce our price. If you are led to believe from a picture that another chair is cheaper than ours, we invite comparison of the goods and you will readily see that our chairs are far superior in every way. We guarantee our prices on chairs and other furniture, **QUALITY CONSIDERED**, are lower than you can get from any dealer or other catalogue house.

\$1.75 REED CHAIRS \$6.75 ROCKERS

At \$1.75 to \$6.75 we show later designs and better values than we have ever before been able to offer. Prices LOWER THAN THE LOWEST, less than retail dealers pay at wholesale. EVERY CHAIR GUARANTEED FOR QUALITY.

This season we believe we are offering the most attractive and the best constructed Reed Chairs and Rockers ever offered. We have been able to make larger contracts than ever before, to secure still greater price advantages, and every advantage we get we give to our customers.

HOW OUR REED CHAIRS AND ROCKERS ARE MADE.

Nothing but the very best selected imported reed is used in the manufacture of these goods. There is a great difference in the quality of reed, and we guarantee that ours is the very best. The frames are made of selected hardwood, thoroughly seasoned. Each piece is doweled and tested to see that it fits perfectly and then permanently driven up, screwed and glued. We guarantee these chairs will never wear loose or shaky. Every detail of the manufacture is carefully looked to, only the most skilled workmen are employed, the construction of every piece, from the lowest to the highest in price is first class in every respect. Each chair and rocker has been designed especially for us, and no effort or expense has been spared, nothing overlooked to produce a most attractive and com-

fortable article, one that will represent us in the best way, will stand wear, and be an ornament to any home.

Our quality and price guarantee. We guarantee our prices for equal quality to be lower than any other house in America. In comparing our catalogue with other houses, if you find another house that quotes as low or a lower price than we do, we positively guarantee that you will find a difference in quality in our favor. If you send us an order for a chair or other goods, and do not find this difference in our favor, you can return the goods to us at our expense, and we will immediately return your money.

FOR THIS BEAUTIFUL, ARTISTIC, COMFORTABLE REED ROCKING CHAIR.

\$3.95
BUYS THIS
HANDSOME
MORRIS CHAIR, MADE OF SOLID
OAK, GOLDEN FINISH, SUCH
CHAIR AS DEALERS ASK
\$8.00 TO \$10.00 FOR.

THIS MORRIS CHAIR, without doubt, is the most attractive in outline, and most comfortable and substantial chair it is possible to produce. We are offering the greatest value ever shown in this kind of a chair. You cannot fully appreciate the wonderful value we are giving in this chair unless you see it and compare it carefully with Morris chairs that others sell at double the price we ask. The frame is thoroughly well constructed in every detail, every joint perfectly fitted.

THE WOOD IS SOLID OAK, thoroughly air seasoned and kiln dried. The oak is a beautiful golden color. The highly ornamental and finely executed carvings on the front bar and posts add to the beauty and attractiveness of this handsome Morris chair.

The seat is built of our indestructible solid Bessemer steel construction, intercolled into the frame on the sides, besides being reinforced with a steel wire, running lengthwise into which the coil springs are interlocked, making the most durable spring seat it is possible to produce.

THE SEAT construction, guaranteed to last a lifetime. The seat and back are covered with the best quality imported velour cloth in plain or figured pattern, in dark green, red, or brown colors as desired. Be sure to state whether cushions are to be figured or plain, and if plain specify the color wanted.

We furnish this Morris chair in stationary cushions or with reversible loose cushions as desired.

THE BACK of this Morris chair is adjustable to four different reclining positions, by means of a solid brass rod and ratchet attachment, guaranteed against breakage.

No. 1F5568 Golden Oak, Upholstered Seat and Back, Stationary Cushions. Price.....**\$3.95**
No. 1F5574 Golden Oak, Seat and Back fitted with Reversible Loose Cushions. Price.....**4.75**

All the Newest Designs and Latest Improvements.

ON THE BASIS OF MANUFACTURING COST, with but our one small percentage of profit added, we offer you these high class Morris chairs, and you can buy them for less money than most retail dealers pay at wholesale. Never before have we been able to show such a splendid line of these popular chairs, or such fine, high grade chairs at such low prices.

THE MORRIS RECLINING CHAIR derives its name from the inventor, William Morris, a New England Yankee. It combines simplicity of construction with ease and comfort, as no other chair does. The spacious depth and width of the seat, the broad and high adjustable back, together with the broad arms, render the Morris chair the superior in ease and comfort of any chair devised. The frames are massive in design and are made to last a lifetime. The Morris chair has become so well known and the demand for them so great that the sale has jumped from the hundreds into thousands. No home can afford to be without one.

THE GREAT DEMAND for our Morris chairs enabled us to make a contract for an immense quantity of them at a very low price, and our customers reap the benefit. In fact the price which we quote is in almost every instance much lower than the ordinary dealer can buy them.

\$3.95

DESCRIPTION OF OUR LINE OF MORRIS CHAIRS.

The wood used in the construction of our Morris chairs is the best quality of highly figured oak, or birch, imitation mahogany finish, specially selected for the beauty of the grain of the wood. It is thoroughly air seasoned and kiln dried before being put through the factory. Every piece is guaranteed not to warp, shrink or check. The careful inspection and selection of the wood enables us to insure the best and most satisfactory results it is possible to obtain. Every chair is covered by our binding guarantee, and should it at any time prove defective or unsatisfactory we stand ready to refund the purchase price together with all transportation charges.

THE CONSTRUCTION of our Morris chairs is strictly high grade in every detail. The joints are mortised and joined in the most perfect manner. The bars are highly ornamental, spindles are carefully framed and turned, the edges and corners rounded; the seats are upholstered with highly tempered steel springs, which are absolutely indestructible. The old fashioned string tied spring construction we have discarded. Our new indestructible steel construction prevents the springs breaking loose and turning over. The seat of a Morris chair is the most essential part of it. We use the best grade of high carbon steel wire springs, intercolled into steel band irons, which are crosswise on the bottom, and are fastened to the top of the side rails of the chair and can never get loose, besides being reinforced with a steel wire running lengthwise into which the coil springs are interlaced. Neat in appearance, sanitary and everlasting.

THE RATCHET ATTACHMENT. On the back of the chair is a red and ratchet attachment by which the back is raised or lowered, and locked into any position desired. It works very easily, and is absolutely guaranteed not to get out of order.

THE FINISH of our Morris chairs is strictly first class. The highest quality of material obtainable is used. Special care is taken to produce a smooth surface, a better luster and finish, that will not crack, peel or blister, that will look better after years of use than the ordinary finish will in one month. Each coating is thoroughly rubbed down and allowed to dry and harden before applying the succeeding one.

THE CUSHIONS of our Morris chairs are thoroughly well made. The velour coverings are the newest and best patterns. The colors are all guaranteed fast. They are closely stitched and button tufted. We furnish the cushions in the following colors: dark green, dark red or brown, as best adapted to harmonize with all surroundings. The full box edge, firm stitching and tufting of our reversible cushions make them more shapely and lasting than any other cushion made.

OUR CUSTOMERS SHARE IN OUR PROFITS. We not only make the lowest prices and furnish the highest qualities, not only save you a great deal of money on every order, but in addition, we now enable our customers to share in the profits of the business, as fully explained on pages 1 and 2 of this catalogue. If you send us an order for a Morris chair or any other article, you can get a part of the profit we make. A profit sharing certificate is sent to you for every order, a valuable certificate which you save and later redeem for valuable merchandise given free without further cost to you. This liberal customers' profit sharing plan, explained on pages 1 and 2 of this catalogue, is our latest and greatest offer.

FITTED WITH HEAVY STEEL FRAME CASTERS, packed and shipped direct from Chicago, from which point customers pay the freight. Shipping weight, 60 pounds.

5,000 MORRIS CHAIRS AT \$3.95. We expect to sell 5,000 of these special chairs at \$3.95 in oak, during the following season. Our contract is made on that basis. We believe that all who want a Morris chair for little money and see this announcement, will send us their order, we believe they will recognize the extraordinary values that we are offering. Furniture dealers will admit when they see the chair that it is indeed a bargain and a wonder of value. The prices are very little more than the actual cost of material and labor, on enormous quantities basis, with our narrow margin of profit added. We illustrate this chair with a large picture, not only to direct attention to this Morris chair, but to emphasize the extraordinary value of our entire line of Morris chairs represented. You cannot afford to place your order elsewhere for a Morris chair if you will consider the values here illustrated and described.

WE SHIP this Morris chair with the distinct understanding and agreement, that, if it is not perfectly satisfactory in every respect, and exactly as represented and described, that if you are not satisfied that you have a better Morris chair than you can purchase elsewhere at double the price we ask, you can return it to us, and your money will be refunded, together with all transportation charges.

THIS MAGNIFICENT QUARTER SAWED OAK EXTENSION TABLE

IN 6-FOOT LENGTH

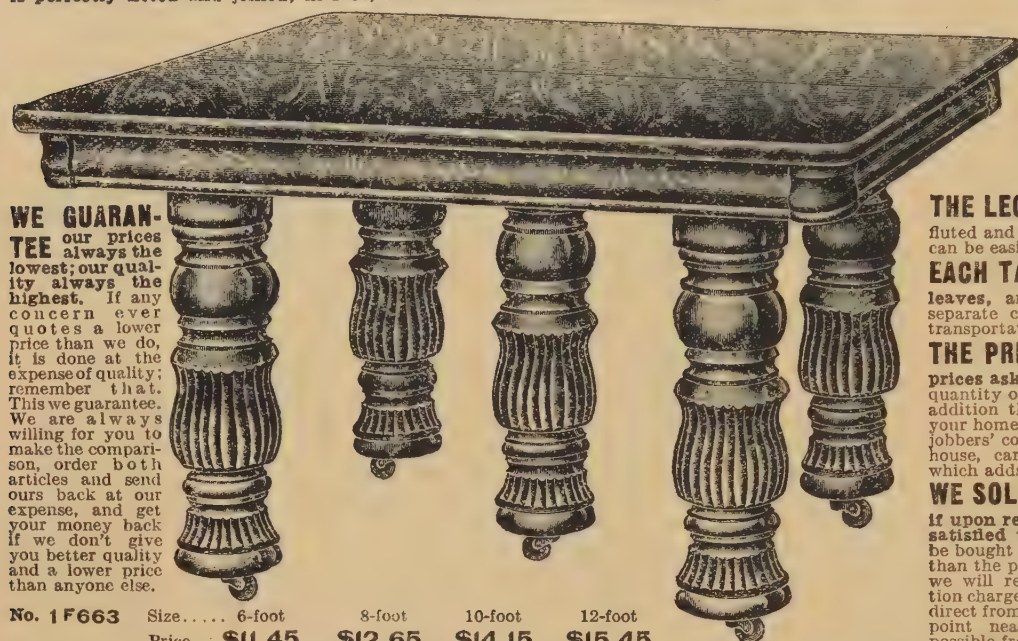

\$11.45

HANDSOME IN DESIGN, HIGH GRADE IN CONSTRUCTION AND FINISH. A BIG SAVING IN PRICE. WE GUARANTEE OUR QUALITY BETTER AND OUR PRICES LOWER THAN THE SAME EXTENSION TABLE CAN BE BOUGHT ELSEWHERE.

DESCRIPTION. This Massive High Grade Extension Table is made of thoroughly air seasoned and kiln dried quarter sawed oak, the wood being specially selected for the beauty of the grain. The construction throughout is strictly first class, each part is perfectly fitted and joined, in fact, the best that skilled workmanship can produce.

WE GUARANTEE our prices always the lowest; our quality always the highest. If any concern ever quotes a lower price than we do, it is done at the expense of quality; remember that. This we guarantee. We are always willing for you to make the comparison, order both articles and send ours back at our expense, and get your money back if we don't give you better quality and a lower price than anyone else.

No. 1F663	Size..... 6-foot	8-foot	10-foot	12-foot
	Price.....\$11.45	\$12.65	\$14.15	\$15.45

THE FINISH is a beautiful golden color, the surface of the top being highly polished, special care being taken in the filling and rubbing process to bring out the handsome grain of the wood.

THE TOP of this magnificent extension table is 48x48 inches. The edges and corners are neatly rounded. The broad curved shaped box rim has neatly rounded corner blocks, securely framed and mortised, giving additional strength and durability.

THE LEGS are exceptionally massive, being 6 inches in diameter, and are beautifully turned and fluted and fastened to the top with heavy iron bolts, and can be easily detached for convenience in shipping.

EACH TABLE is furnished with a set of good quality casters and a crate for the extra leaves, and is securely packed, the top and legs in a separate crate, in order to insure safe delivery by the transportation company.

THE PRICE represents a saving to our customers of 40 to 50 per cent as against the prices asked in retail stores. Our contract for a large quantity of these extension tables at a very low price, in addition thereto, by shipping direct from the factory to your home, we save you all the intermediate agents' and jobbers' commissions and profits, freight charges to warehouse, cartage and handling in the warehouse, all of which adds to the cost, but does not improve the quality.

WE SOLICIT YOUR ORDER with the distinct understanding that if upon receiving this table you are not thoroughly satisfied that you have an extension table that cannot be bought elsewhere at from one-third to one-half more than the price we ask, you can return the table to us and we will refund your money together with all transportation charges. Shipping weight, about 225 pounds. Shipped direct from factory in Northern Indiana or Central Ohio, point nearest to customer, thereby insuring lowest possible freight charges.

THIS MASSIVE QUARTER SAWED OAK PILLAR EXTENSION TABLE

IN 6-FOOT LENGTH

\$13.45

This strikingly handsome, massive, high grade, quarter sawed Oak Pillar Extension Table is a splendid example of up to date design, high grade construction and first class finish. The illustration, engraved from a photograph of the table, is an exact reproduction, and will give you a fair idea of the beauty of design, but to be fully appreciated it must be seen, examined and compared with extension tables offered by others at almost double the price we ask.

THE WOOD used in the construction of this massive extension table is especially selected, highly figured quarter sawed oak, and is thoroughly air seasoned and kiln dried before being put through the factory. Special attention is given to the beauty of the grain.

THE CONSTRUCTION of this extension table as well as the construction of every other extension table shown in our line is strictly high grade throughout, absolutely the best that modern machinery and skilled workmanship can produce. Every part and piece is thoroughly well made, inspected and carefully fitted.

THE FINISH. Special attention is given the entire process of finishing, from the filler of the wood to the polishing process. The color is a beautiful golden, the grain of the wood is brought out in the most perfect manner, the surface polished like a piano.

THE TOP of this handsome Pillar Extension Table is 45 inches in diameter. The edge is neatly rounded and the broad curved boxed rim is veneered with highly figured quarter sawed oak like the top.

THE BASE of this magnificent Extension Table consists of a massive pedestal 10-inches in diameter, securely framed and fastened to the top and fitted with patent locking device to prevent spreading. The massive legs are decorated with deep smooth cut hand made carvings finely executed. Note especially the deep cut hand carved claw feet. Each table is furnished with a set of good quality socket casters and securely packed, the top and base crated separately, thereby insuring safe delivery.

ORDER one of these magnificent Extension Tables at our special price, \$13.45 to \$16.95, according to length desired, place it beside any table offered by others at one-third to one-half more than the price we ask and if you do not admit the wonderful value and saving in price you can return it to us and we will return your money together with all transportation charges. Shipping weight, about 225 pounds. Shipped direct from factory in Northern Indiana or Central Ohio, point nearest to customer, thereby insuring lowest possible freight charges.

The number of this table is No. 1F670. Always order by number.

No. 1F670	Size..... 6-foot	8-foot	10-foot	12-foot
	Price.....\$13.45	\$14.65	\$15.85	\$16.95

SEND US YOUR ORDER for this table, enclose our price and we will promptly ship it to you and guarantee it to reach you in perfect condition. The freight charges compared to the saving in price will be very small; you will be getting a table the equal of which, bought elsewhere, would cost you a great deal more money, and you will also get a Profit Sharing Certificate, good for something free to you, as explained on pages 1 and 2.

\$3.85 KITCHEN CABINETS \$18.75

AT \$3.85 TO \$18.75 WE OFFER WONDERFUL VALUES IN KITCHEN CABINETS.

NEW IN DESIGN, STRICTLY HIGH GRADE IN MATERIAL, CONSTRUCTION AND FINISH. BETTER IN QUALITY AND LOWER IN PRICE THAN CAN BE BOUGHT ELSEWHERE. WE CHALLENGE ANY FIRM ON EARTH TO FURNISH KITCHEN CABINETS THE EQUAL OF OURS IN QUALITY AT THE PRICE WE ASK.

KITCHEN CABINETS are the most wonderful invention for assisting the housekeeper ever devised. The many weary steps they save will be fully appreciated by every housekeeper. When first introduced a few years ago the sale was limited. As soon as they were put on the market and offered at popular prices, their convenience and usefulness was quickly recognized and the sale of them has jumped from the hundreds to the thousands. The use of the Kitchen Cabinet in the United States has become so general that one is to be found in nearly every one of these economical and labor saving devices; don't fail to secure the great convenience for yourself without further delay. We know there is not a more convenient and satisfactory piece of furniture for the home than a good Kitchen Cabinet. You will be surprised what a convenience a Kitchen Cabinet is, the variety of uses it can be put to, how completely it takes care of the materials used in the kitchen and in such convenient shape, a place for everything and everything in its place.

Our Kitchen Cabinets are made for us under contract by the largest, best known and most reliable manufacturers in this country, whose long experience in the designing and making of cabinet work enables them to give us the benefit of every good idea, whose modern machinery and skilled workmanship combine to produce better goods than are turned out by other manufacturers. All the latest and best improvements in design and construction are embodied in our Kitchen Cabinets. Every article used in the kitchen is provided a place in our Kitchen Cabinet within easy reach of the busy housewife.

THE MATERIAL used in the construction of our Kitchen Cabinets is thoroughly air seasoned and kiln dried, hardwood throughout except the platform of the base, which is made of white wood for

ease and convenience in cleaning. We absolutely guarantee every cabinet against warping, checking or shrinking. We use no "culls." Every piece of lumber is carefully selected and guaranteed free from all defects.

THE CONSTRUCTION of our Kitchen Cabinets is the best that modern machinery and skilled workmanship can produce. Every post and panel, joint and tenon, perfectly framed and fitted. The doors are perfectly fitted; the drawers and bins run smoothly without friction. The same high grade workmanship is used in the lowest priced as in the highest priced cabinet. The bins and drawers are so constructed that they can easily be taken out and cleaned, which is not the case with most cabinets made by other manufacturers. Each cabinet is fitted with one or two sliding removable kneading and chopping boards, both sides smooth and even, which can be taken out and placed on top of the table for convenience in using.

THE TRIMMINGS. The handles used on our Kitchen Cabinets are genuine brass, French lacquered to prevent tarnishing. The hinges, fasteners, locks and knobs are the best quality obtainable.

THE PACKING. Every Kitchen Cabinet is firmly and securely crated for shipment. The special feature of our Kitchen Cabinets is that they are so constructed that the lower part of the legs can be removed and placed inside the cabinet for convenience in packing and can be easily put on by any one. This feature is not found in any cabinets of other manufacturers. This method of construction insures safe handling and a much lower freight rate by the transportation company. We absolutely guarantee every cabinet to arrive at your home in the same perfect condition in which it leaves the factory.

THE FINISH. The very best grade of materials are used in the finishing of our Kitchen Cabinets. Special care is taken in the entire process of finishing, special attention being given to the preservation of the wood.

THE BASE OF OUR KITCHEN CABINETS without the top section makes a highly satisfactory, convenient and useful cabinet by itself. The flour, sugar and meal bins, the linen and cutlery drawers, pot and pan cupboards and the removable kneading and chopping board together with the Roomy basswood top, will be fully appreciated by every housekeeper. We quote prices for the base alone (without the top section) in several of our cabinets on pages following.

OUR PRICES in every case are figured on factory cost. We have secured unusually advantageous prices because of the immense quantity we sell, which represents very little more than cost of raw material and labor. Our selling prices on all our cabinets represent the narrowest kind of a profit above first cost to us, and as a result you can buy a high grade Kitchen Cabinet from us for the same or less money than most dealers pay at wholesale. Do not be misled by the low prices. Do not feel that, because our prices are very low, the quality of our cabinets is not the very best. Quality is a watchword with us, and we never take one penny out of the quality to make a "catchy price." Every cabinet we sell is strictly high grade, and while dealers and others may advise you against sending your order to us and say we cannot furnish good furniture at such low prices, we want you to be the judge by sending us your order for one of our Kitchen Cabinets and proving our claim, and at the same time relieve you of all risk. If you do not find our Kitchen Cabinets all that we claim and that you have not only saved considerable money and secured an article that is perfectly satisfactory, you are specially requested to return it to us and we will refund your money together with all transportation charges.

OUR IMPERIAL KITCHEN CABINET \$12.35

THE EQUAL OF KITCHEN CABINETS
GENERALLY SOLD AT \$18.00 TO \$20.00.

No. 1F723 This exceptionally attractive, new, up to date design, high grade Kitchen Cabinet is a splendid example of convenience of arrangement in kitchen cabinet construction. It is made of specially selected hard white maple, thoroughly air seasoned and kiln dried, finished natural color. Entire height of cabinet, 72 inches.

THE BASE has a whitewood top with moulded edges, size, 25x50 inches. It has two between which are two deep drawers for linen and cutlery. Above are convenient receptacles for cooking spoons, knives, forks and various other utensils used in every kitchen. Fitted with one kneading and one chopping board finished on both sides and can be removed and placed on top for convenience in using. The legs are detachable, the turned part being dovetailed into the square posts, which adds to the convenience and safety in handling and shipping.

THE TOP SECTION combines excellence and beauty of design with a convenient and practical arrangement, which cannot be excelled. Cupboards with shelves and glass doors affording ample space for dishes, spice cans, coffee and tea canisters and a variety of packages and commodities within easy reach of the busy housewife. Note the tilting sugar bin in the center and spacious shelf below.

THE CONSTRUCTION of this splendid Kitchen Cabinet is strictly first in every class throughout. The doors, drawers and bins are perfect fitting. All the drawers and bins can be easily taken out for cleaning and airing—a convenience seldom found in cabinets made by other manufacturers. The posts and panels are perfectly framed and joined, every post and piece the best that skilled workmanship can possibly produce.

THE FINISH of this Kitchen Cabinet is a light natural white maple color, no coloring being used. The surface is perfectly sanded and smoothed and given several varnish coatings, which brings out the beautiful natural grain of the wood and has an appearance of purity and cleanliness.

OUR PRICE, \$12.35, is made possible only because we offer this splendid cabinet at very little more than first cost of material and labor. It is a value unapproached in kitchen cabinet construction.

THE PRICE REPRESENTS A SAVING to our customers of 50 to 60 per cent as against the prices asked in retail furniture stores. We have fully investigated and we know the prices that small manufacturers, wholesalers, furniture jobbers and manufacturers' agents are asking the retail trade for goods of this description, and we find that any kitchen cabinet that equals ours in design, material, construction and finish is sold in retail stores at almost double the price we ask. In fact, we know we are selling goods direct to our customers for the same or less money than most retail dealers pay at wholesale. Send us your order for the magnificent Kitchen Cabinet and when received compare it with any Kitchen Cabinet you can buy at home or from any other dealer at \$18.00 to \$20.00, and if you do not find this Kitchen Cabinet the equal or better in every way we will not expect you to keep it and you can return it to us and we will immediately refund your money together with all transportation charges. We ship this cabinet direct from factory near Grand Rapids, Mich. Shipping weight, about 240 pounds.

The articles displayed are not included with the cabinet.

HIGH GRADE BOOKCASES AT GREATLY REDUCED PRICES

OUR BOOKCASES are made by the largest and best known manufacturers of this kind of goods in the United States. Everything that modern machinery and skilled workmanship combined can do has been done to produce better goods than are turned out by other manufacturers. The immense quantities we have contracted to take enables us to offer these high grade bookcases to our customers on the basis of manufacturing cost with but one small percentage of profit added. We have eliminated from the selling price to you, as printed below, every unnecessary item of expense, and the price at which they are offered is even lower than most retail dealers would pay at wholesale for these goods.

THE WOOD used in our bookcases is specially selected for the beauty of the grain, thoroughly air seasoned and kiln dried and absolutely guaranteed against warping or shrinkage.

THE GLASS used in the construction of our bookcases is the best quality double thick, absolutely clear and free from defects. The leaded glass used in our bookcases is an exact reproduction of the Shakespearian style used during the Elizabethan period. It consists of various shapes of extra double thick glass, carefully framed into a lattice work of lead giving a very artistic effect.

THE FINISH. Special care is taken in the finishing of each case, plenty of time being given for each case to be thoroughly hardened and dry before being rubbed and polished. The color of the oak is a beautiful golden and the mahogany finish is a perfect imitation of genuine mahogany color.

Revolving Bookcase for \$2.65.

Compare our Bookcases with those offered by others at almost double our prices.

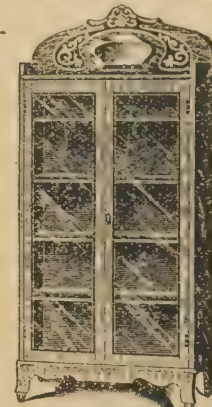

Our Bookcases are securely crated to insure safe delivery.

Every Bookcase is fitted with adjustable shelves to fit any size books.

We use best quality double thick glass in doors of our Bookcases.

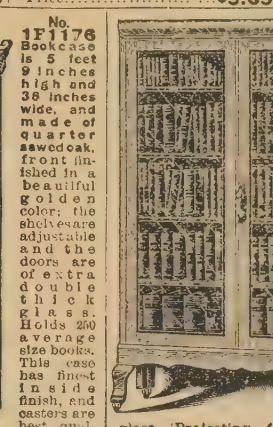

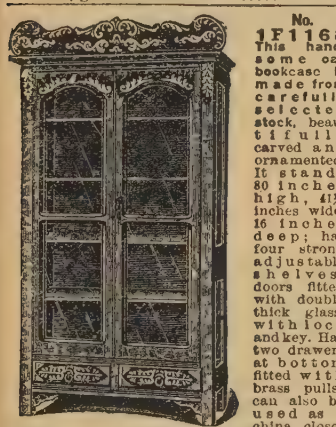

No. 1F1184 This Revolving Bookcase is made of golden birch, thoroughly seasoned and kiln dried, in a beautiful golden finish. The top section is attached to the base by steel ball bearings. 3 feet high; top is 19x19 inches; shelves, 18x16 inches. This case will accommodate 75 average size books. Thoroughly substantial in construction. A splendid bookcase for the home or office. So constructed that it can be shipped knocked down, packed securely. Wonderful value at the price we ask. Shipping weight, 35 pounds.

No. 1F1160 Neat, attractive, roomy bookcase. Upper panel carved. Height, 58 inches; width, 24 inches; depth, 12 inches. Made of solid oak, golden or weathered finish, or birch, imitation mahogany; adjustable shelves, glass door. Holds 125 average size books. Weight, crated, 75 pounds. Shipped direct from factory in Chicago.

No. 1F1162 This bookcase is made of beautifully figured quartered oak, finished golden. Height, 57 inches; width, 24 inches. Has four adjustable shelves and door with double thick glass. Fitted with best quality casters, brass hinges, handle and lock. Guaranteed a strictly first class piece of furniture. Weight, 90 pounds. Shipped direct from factory in Northern Illinois.

No. 1F1162 1/2 This handsome bookcase is made of highly figured quarter sawed oak, golden finish, highly polished. Height, 65 inches; width, 28 inches. Has four adjustable shelves, solid panel ends. Illustration shows revolving glass door. We also furnish it with plain glass door. Holds 125 average size books. Strictly first class construction throughout. Fitted with lock and casters. Shipped from factory in Northern Illinois. Shipping weight, 90 lbs.

No. 1F1163 This is the greatest value in a bookcase with two doors we have ever been able to show. Best constructed and most serviceable case of its kind on the market. Made of quartered golden oak, or birch, mahogany finish, 66 inches high and 31 inches wide. Four adjustable shelves and double doors. Has a 12x6-inch French bevel plate mirror. Shipped from factory in Northern Illinois. Weight, 90 lbs.

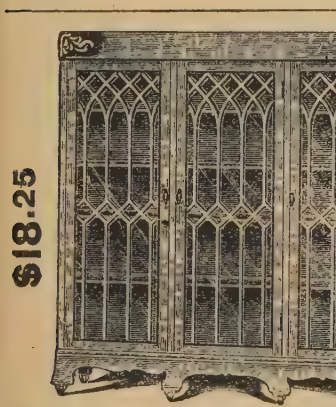

and cupboard. Carefully crated to insure safe delivery and shipped direct from factory in Southern Indiana. Weight, packed for shipment, 140 pounds.

It must be seen to be fully appreciated. Shipped direct from factory in Chicago. Shipping weight, 150 pounds.

glass. Projecting frame above doors has sharply curved front veneered with highly figured quarter sawed oak. Fitted with lock, keys and best quality casters. Shipped direct from factory in Northern Illinois. Shipping weight about 195 pounds.

plate, size 6x22 inches. Holds 250 average size books. Fitted with locks, keys and best quality casters. High grade in every detail of construction and finish. Shipped direct from factory in Northern Illinois. Shipping weight, about 135 pounds. Price, as illustrated, \$11.25

Price, without mirror, \$9.75

No. 1F1179 This is the most wonderful value ever offered in a three-door strictly high grade bookcase; made of specially selected, thoroughly seasoned quarter sawed oak, golden finish, hand rubbed and highly polished. Height, 65 inches; width, 54 inches. Has solid panel ends and back. We furnish this bookcase with genuine leaded glass doors, as illustrated, or with plain double thick glass doors, as desired. Holds about 350 average size books. Fitted with locks, keys and best quality casters. Compare this bookcase with those offered by others at one-third to one-half more than the price we ask. Carefully crated and shipped direct from factory in Northern Illinois. Shipping weight about 200 pounds.

No. 1F1180 This massive bookcase is made of carefully selected, thoroughly air seasoned quarter sawed oak, golden finish. The grain of the wood is highly figured, hand rubbed and highly polished. Height, 54 inches; width, 61 inches. It has solid panel ends and back and supported by heavy hand carved claw feet. Has three double thick glass doors and nine adjustable shelves. Holds 350 average size books. Cabinet construction strictly first class throughout. This bookcase should be compared with those offered by others at \$25.00 to \$30.00. A bookcase that is sure to please. Shipped direct from factory in Northern Illinois. Shipping weight about 235 pounds.

No. 1F1181 Compare this extra large, massive, strictly high grade bookcase with those offered by others at 40 per cent more than the price we ask. Made of specially selected quarter sawed oak, golden finish, hand rubbed and highly polished. Height, 74 inches; width, 74 inches. Has solid panel ends and back. Has twelve adjustable shelves, below which are three roomy drawers. Holds about 400 average size books. Doors and drawers fitted with locks, cast brass handles, best quality casters. We furnish this bookcase without drawers, also 50 inches wide if desired, as noted below. Note the spacious top shelf for bric-a-brac. Strictly high grade in construction and finish. Shipped direct from factory in Northern Illinois. Shipping weight, about 275 pounds.

WE CHALLENGE ALL COMPETITION IN QUALITY AND PRICE.

SECTIONAL BOOKCASES.

BALL BEARING, FRICTIONLESS SLIDING DOORS.

Made in Grand Rapids, Michigan, by one of the largest and best known makers of high grade furniture, a manufacturer whose name alone in the trade is a guarantee of the highest quality.

The Perfection Sectional Bookcase is without question the best obtainable at any price. This popular style of bookcase is now conceded the only practical one for a growing library. Whether your collection of books is large or small, the case is easily adapted to it. No unfilled shelves, no surplus of books. The sectional bookcase also permits an artistic arrangement to fit almost any space. High quality of construction, specially selected wood of the choicest grain, and the piano polished finish, make this a desirable article for any home. Absolutely non-binding doors have at last been secured through the use of ball bearings. Sidewise and vertical expansion is limited only by the wall space. The end of each section is fitted with ornamental end plates that fit into the corresponding metal plates of the adjoining section and lock the section together in a perfect vertical alignment. The door of each section is easily raised and slides back over the top of the books on four ball bearings, noiselessly and without binding. The air cushion construction allows the door to close without friction when released. We furnish the book sections in two different depths, and five different heights, as noted in the table below, which allows for the accommodation for any size book.

MATERIAL. The best of everything is used in making Perfection Sectional Bookcases. The mahogany is the finest figured Central American or African mahogany—the same that goes into Grand Rapids' finest furniture. The quarter sawed oak is fine, hard, white oak, especially selected for its beautiful figure and grain effects. The plain oak is a hard white oak, plain sawed, but in every other respect equal to the best quarter sawed grade. All backs and bottoms of the sections are made of three-ply hard white maple. By "three-ply" we mean that each back or bottom is made of three separate thicknesses, carefully glued together so that the grain of the center piece runs

crosswise with the grain of the outer piece, thus counteracting any warping of the wood. The result is a back or bottom a hundred times better than if made of one piece. Perfection bookcases have backs and bottoms that cannot warp or split.

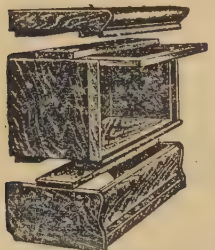

OUR PRICE as given in the tables below for each section represents a saving of from 25 to 30 per cent as against the prices asked in retail stores. We have fully investigated and we know the prices that small manufacturers, wholesalers, furniture jobbers and manufacturers' agents are asking the retail trade for goods of this description, and we find that any sectional bookcase that equals ours in design, material, construction and finish, is sold in retail stores at almost double the price we ask. In fact, we know we are selling goods direct to our customers for the same or less money than most retail dealers pay at wholesale.

FINISH—WE EXCEL IN OUR FINISH. To produce this handsome finish, we use only the highest grade of varnish. It is all five-coat work, rubbed and polished by hand. After each coat the work is left to thoroughly dry and everything is done that we have learned by years of practical experience is necessary to produce the most lasting and satisfactory results. We designate our case by the following grades:

GRADE A. Genuine mahogany, finished medium dark. Natural interior. The doors and drawer bases in this grade furnished with pearl centered brass knobs. End plates are of oxidized lacquered brass.

GRADE B. Genuine quarter sawed white oak, selected for grain effects. Finished dark golden. Natural interior. Knobs and end plates are of oxidized copper.

GRADE D. Plain oak, finished dark golden. Carefully finished, but not rubbed or polished. This grade supplies the demand for a well made, genuine oak case. Weathered oak in B grade or D grade without extra charge. Our weathered oak is produced by two coats of acid stain in the much sought for shade, and will not fade or rub off.

BASE SECTIONS WITH DRAWER, 90c EXTRA.

DRAWER BASE SHOWING DRAWER.

No. 1F1193 This illustration represents our Combination D; one top section, one base section and four book sections, in the different sizes, as noted in table which follows. This combination will accommodate 75 to 100 books, according to size of books. A favorite combination for the small library. Can be enlarged to fit your growing library. You take no risk when you buy the Perfection Sectional Bookcase, as we guarantee absolute satisfaction in every respect or your money will be cheerfully refunded. The high quality of the wood and finish and the perfect details of construction, with the very low price, make this unmatched.

The door is raised and pushed half way into position on four ball bearings. Each part is perfectly mortised and framed where joined, the wood is thoroughly air seasoned and kiln dried, finished inside and outside in a beautiful polish finish. Absolutely guaranteed not to warp, shrink or check. See prices of different sizes in table below.

Combination D.

Price, \$10.75.

Sectional Bookcase with Leaded Glass Doors, \$13.75.

No. 1F1194 This illustration shows one top section, three book sections, with leaded glass doors, and one base section with drawer.

Leaded glass doors consist of a large number of small glass panels in the various fancy shapes shown in the illustration instead of one large glass panel in each door. The glass panels are securely fastened into the grooves of the lead frame. This style of door was first used during the Elizabethan and Shakespearian era. Weathered oak and mahogany sections are especially attractive.

with leaded glass doors. The average weight of a section securely packed for shipment is about 25 pounds.

THE WOOD

used in the construction of our tables is especially selected, thoroughly air seasoned and kiln dried and warranted absolutely not to warp, check or shrink.

THE CONSTRUCTION

of our tables is absolutely the best that modern machinery and skilled workman-ship can produce. Every part and piece is thoroughly well made, inspected and carefully fitted before being passed to the finishing department.

THE FINISH

of our tables is strictly first class and only the best grade of wood filler and even and smooth. The beauty of the finish must be seen to be fully appreciated. To obtain a smooth surface and better luster, and a finish that will not craze, check or blister, facilities are employed by which each coat of this finish is allowed to thoroughly dry and harden before applying the succeeding one.

WE GUARANTEE SAFE DELIVERY.

Our Parlor and Library Tables are carefully wrapped and securely crated and we guarantee each table to reach your home in the same perfect condition it leaves the factory. All our parlor tables shown on pages 729 and 730, except No. 1F1202, No. 1F1240, No. 1F1243, No. 1F1252 and No. 1F1255 are made with the best knock down construction, permitting them to be packed in a small package and shipped at a lower rate of freight charges.

HANDSOME IN DESIGN.

PARLOR CABINETS.

BEAUTIFUL IN FINISH.

The Handsome New Design Up to Date Parlor Cabinets Which We Illustrate Below, Are Made By the Largest and Best Known Manufacturer of High Grade Goods of This Kind in the United States.

THE WOOD used in the construction of our Parlor Cabinets is thoroughly air seasoned and kiln dried. Selected especially for the beauty of the grain and will please the most exacting and cultivated taste.

THE CONSTRUCTION of our Parlor Cabinets is strictly high grade in every detail. Every joint and tenon carefully and perfectly fitted. The corners and edges are carefully rounded.

THE FINISH. The materials used in the finishing of our Parlor Cabinets are the very best grade obtainable, from the filler, hardwood oil, to the polishing coats of varnish. Special care is taken to bring out the beautiful grain of the wood. Plenty of

time is given each coating and polishing process to harden and dry, in order to produce the thinnest possible finish, a smooth surface and bright luster. A finish that will last a lifetime instead of the ordinary finish that fades away in a short time.

THE DESIGNS are new and strikingly handsome. They are graceful in outline and make an attractive addition to any parlor. No parlor is furnished complete without one of our new and handsome parlor cabinets. The illustration gives you but a slight idea of the handsome effect worked out in these cabinets.

THE PRICE at which we offer these beautiful cabinets is 40 to 50 per cent less than you can purchase similar cabinets in retail stores.

No. 1F1301 This Parlor Cabinet is made of select birch finished in perfect imitation of mahogany. Height, 55 inches; width, 22 inches. The ornamental pattern shaped French beveled plate mirror in the top is 8x14 inches. Has three shelves. Piano polish finish. Others ask double the price we ask for this cabinet. Shipped direct from factory near Chicago. Shipping weight, crated, 50 pounds. Price, as illustrated, \$5.85

No. 1F1305 This handsome, artistic hand carved, piano polished Cabinet is 55 inches high, 24 inches wide; fitted with two genuine French beveled plate mirrors 14x14 inches. This cabinet has two roomy fancy shaped shelves securely fastened into the back and front legs. Note the ornamental, convenient bracket shelves on each side of the mirror. We call special attention to the perfect imitation mahogany polish finish on all our Parlor Cabinets, so closely resembling genuine mahogany that it is almost impossible to distinguish the difference. Strictly high grade in material and construction. Still in retail stores at almost double the price we ask. Shipping weight, 50 pounds. Securely crated to insure safe delivery and shipped direct from factory near Chicago. Price, as illustrated, \$7.95

No. 1F1302 This is one of the choicest designs in Parlor Cabinets. No parlor is completely furnished if it does not contain a handsome parlor cabinet. Made of finest quality of selected birch, given the highest hand polished mahogany finish. It stands 54 inches high, 28 inches wide. The mirror in the ornamental top is 8x22 inches. The mirror beneath the top shelf is 12x20 inches. The mirror beneath the middle shelf is 10x20 inches. All the best quality of French beveled plate. Shipped direct from factory near Chicago. Shipping weight, 60 pounds. Price, without mirror back of lower shelf, \$9.85 Full mirror back, three mirrors, as illustrated, \$10.95

No. 1F1306 This Handsome and Attractive Parlor Cabinet is made of the finest birch with a rich mahogany finish, with pretty ornamental shelves and two bevel plate French mirrors, one 7x26 inches and one 12x16 inches; is 60 inches high and 32 inches wide; is graceful in outline and a welcome and beautiful addition to a parlor. No parlor is properly furnished if it does not include one of our new and handsome cabinets. The illustration will give you some idea of the beautiful effect worked out in this new cabinet. Fully appreciate the high quality of material, the beauty of outline and perfect imitation mahogany polish finish, you must see, examine and compare our Parlor Cabinets with those offered by others at one-third to one-half more than the price we ask. Shipping weight, 50 pounds. Shipped direct from factory near Chicago. Price, \$11.85

No. 1F1308 This Parlor Cabinet cannot be purchased in retail stores for less than \$18.00 to \$20.00. The wood is specially selected, thoroughly seasoned birch in a perfect imitation mahogany finish, highly polished. Height, 65 inches; width, 26 inches. Mirror on top is 14x14 inches. Mirror behind lower shelf, 8x14 inches. Enclosed cabinet in center has 12x14-inch mirror in back, double thick glass door and heavy plate glass shelf. All mirrors best quality French bevel plate. Handsome in design, perfect in construction, beautiful in finish. Shipped direct from factory near Chicago. Shipping weight, about 50 pounds. Price, as illustrated, \$12.95

No. 1F1310 We offer this handsome new Parlor Cabinet as the equal of any parlor cabinet you can buy anywhere at \$20.00 to \$22.00. The wood is the finest wavy grained selected birch in the highest hand polished mahogany finish. It is 61 inches high, 32 inches wide. It has five French beveled plate mirrors of the best quality in the back. The mirror on the top is 8x24 inches; the mirror under the top shelf is 10x26 inches; the mirror in the center back of lower shelf is 18x21 inches; the two mirrors to the right and left of the mirror in the back of lower shelf are each 6x13 inches. For high quality of construction, beauty in finish and attractiveness of design this cabinet cannot be equaled at double the price. Thoroughly well packed and safe delivery guaranteed. Shipped direct from factory near Chicago. Shipping weight, 50 pounds. Price, complete with five mirrors, \$14.85

\$11⁴⁵ CURTAIN DESKS \$23⁹⁵

AT \$11.45 to \$23.95 WE SHOW WONDERFUL VALUES IN NEW AND UP TO DATE DESIGNS OF OFFICE DESKS. WE CHALLENGE THE WORLD ON QUALITY AND PRICE. A LOWER PRICE THAN OURS MEANS POORER QUALITY.

THE OFFICE DESKS WE DISPLAY THIS SEASON represent a line made for us under special contract by the largest, oldest and best desk manufacturers in this country, manufacturers whose long experience in the manufacture of desks enables them to give us the benefit of every good idea, whose modern machinery and skilled workmanship combine to produce better goods than are turned out by other manufacturers and whose contract with us, by which we take practically the entire output of the factory, enables us to offer these desks to our customers on the basis of manufacturing cost, the cost of material and labor with but our one small percentage of profit added. By this method and this connection we are able to eliminate from the selling price every unnecessary item and the price to you, the price printed in this catalogue, is as low or even lower than most retail dealers would pay at wholesale for these goods.

FACTORY INSPECTION. Thoroughly experienced and competent inspectors, men who are expert cabinet makers and finishers, are employed at each of our factories who carefully inspect every article. Every detail of the construction and finish is rigidly examined before the article is packed for shipment. Each article after being thoroughly inspected as to material, construction and finish, is securely wrapped, burlapped or crated, whichever style of packing is best suited to the style of article, in order to insure safe delivery at destination in the same perfect condition. We guarantee safe delivery.

PROMPT SHIPMENT. At each of our factories we have prepared immense warehouse room. The goods are made up, carefully finished, inspected and placed in a perfectly dry and thoroughly ventilated storage room, ample time being given for the finish to thoroughly set, dry and harden before being packed for shipment. We are thus enabled to make shipment within a few days after receiving your order.

THE WOOD used in our office desks is specially selected fine grained oak. It is thoroughly air-seasoned and kiln dried. Absolutely guaranteed not to warp, shrink or check. The panels and polished writing bed are constructed of the three ply wood, perfectly joined together with the grain crossing, thereby insuring great strength and preventing warping or shrinkage.

THE CONSTRUCTION of our office desks is the very best that skilled workmanship and modern machinery can produce. Every part of the frame work is perfectly fitted and joined by mortise and tenon. The drawers are dovetailed on the

sides and grooved on the bottoms and backs, carefully and perfectly fitted with guides, making them easy moving and free from friction.

THE FINISH of our office desks is strictly high grade in every detail. The color a beautiful golden. The materials are the best obtainable from hardwood oil to the polishing coat of varnish. Special care is taken to bring out the highly figured grain of the wood. Plenty of time is given each coating and polishing process in order to produce a better and smoother surface, a brighter luster and a finish that will preserve its beauty for a lifetime instead of the ordinary finish produced by other makes that fade away in a few months.

OUR PATENT DUSTPROOF ROLL CURTAIN. The ribs of the curtain are perfectly fitted, preventing the catching and retaining of dust and grit, so detrimental and annoying to all other makes of flexible curtains; perfectly noiseless, free and easy action and graceful appearance while in motion, as though possessed of life. No friction caused by dust or grit accumulating between grooved slats. Easily kept clean with an ordinary dusting brush. We guarantee the durability of our curtain and claim that no other curtain, now on the market, can be raised or lowered as easily and gracefully. No creaking, cracking noises or jerky motion while operating our curtain. **THE PATENT DUSTPROOF CURTAIN** used on all our roll top desks is undoubtedly superior to any other make and an exceptionally desirable feature.

HOW TO ORDER Fill out one of our regular order blanks or write your order on any plain paper; state the catalogue number of the goods you want; enclose our price with your order, sending us either a postoffice money order, an express money order, bank draft or registered letter. If you live on a rural route, you can give your letter and money to the rural carrier who will either write out a money order for you or give you a receipt for the money and get a money order at the postoffice and mail it in your letter. The goods will be sent to you with the understanding and agreement that if they do not prove perfectly satisfactory they can be returned to us at our expense of freight charges and we will promptly return your money including what you paid for freight. Our reputation for reliability and responsibility is so thoroughly established in every section of the country that no one can hesitate to send us his order and his money with the order since we agree that everything must prove perfectly satisfactory to you or we will return all your money and pay all freight charges and you will not be out one cent by the transaction.

THIS SPLENDID OFFICE DESK, \$14.95.

THE EQUAL OF OFFICE DESKS SOLD GENERALLY AT \$22.00 TO \$25.00.

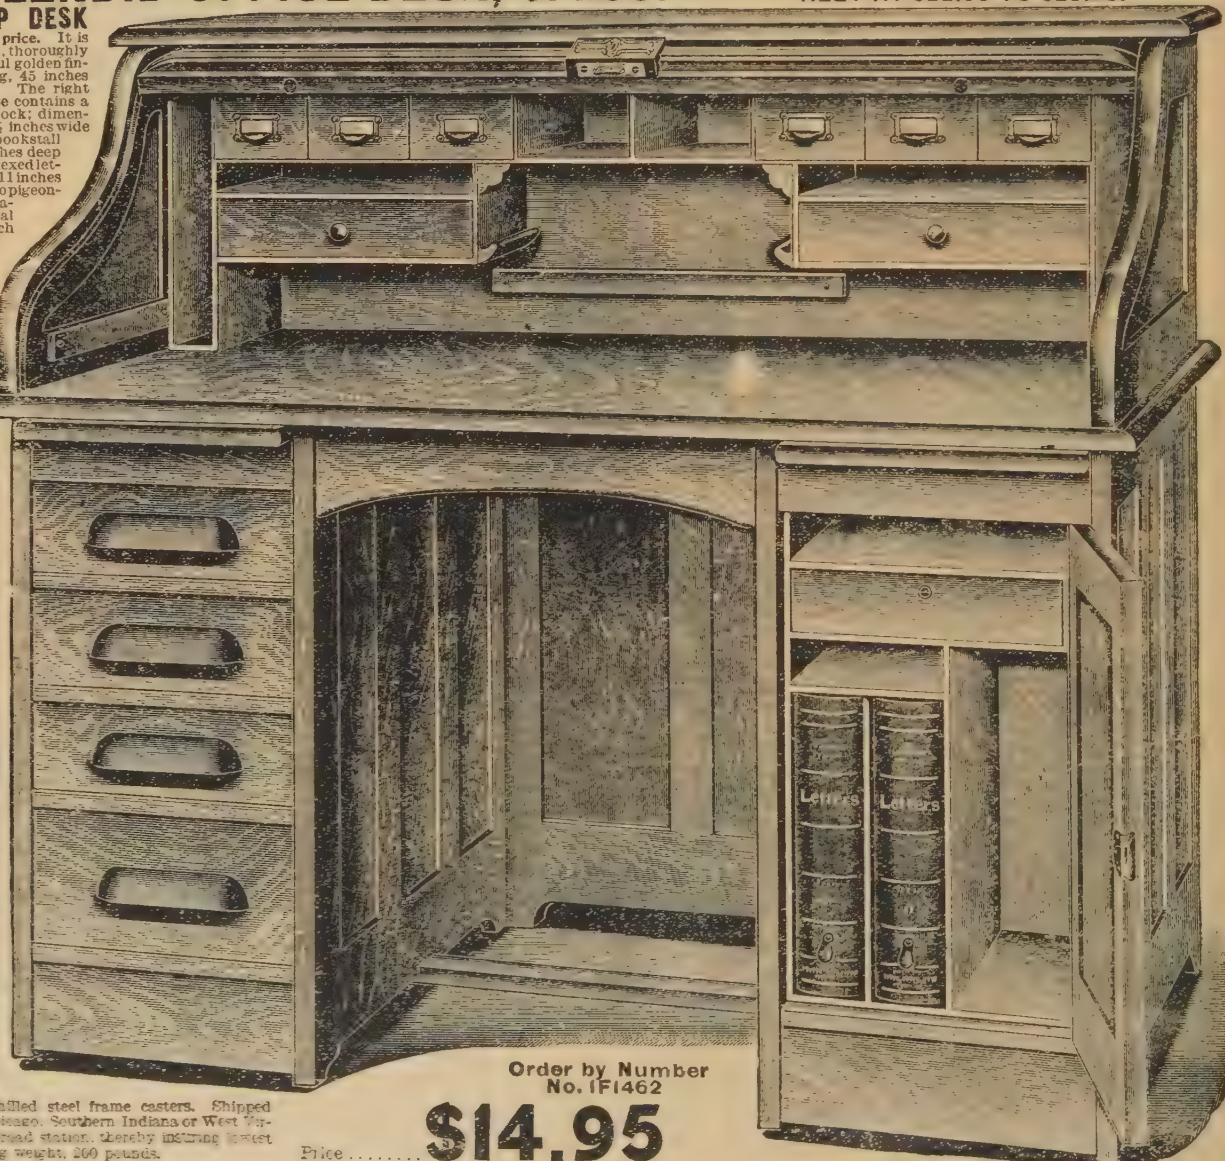

THIS ROLL TOP DESK

is wonderful value at our price. It is made of carefully selected, thoroughly seasoned oak in a beautiful golden finish. It is 45 inches long, 45 inches high and 30 inches wide. The right hand pedestal in the base contains a private drawer with Yale lock; dimensions, 9 1/2 inches long, 9 1/2 inches wide and 3 1/4 inches deep. A bookshelf 10 1/4 inches high, 12 1/2 inches deep and 4 inches wide, two indexed letter files, 12 1/2 inches high, 11 inches wide, 3 inches thick and two pigeon-hole compartments for stationery. The left pedestal contains four drawers, each 23 inches long, 12 1/2 inches wide and 4 1/4 inches high. Above each pedestal is a sliding adjustable arm rest, which adds to the convenience and table surface of the desk. The top section contains 6 wood front filing boxes 9 inches deep, 3 inches high and 4 inches wide, two large pigeon-holes in the center, two bookshells, each 12 inches high, 9 inches deep, 3 inches wide, two convenient drawers 9 inches long, 5 1/2 inches wide and 3 inches high. Also pen racks, blotter holder, etc. The spacious bed and splendid arrangement of drawers, index files, pigeon-hole space make this desk the equal in comfort and convenience of office desks generally sold at more than double the price. This desk is fitted with a dustproof flexible curtain that is noiseless, free and easy of action and graceful in appearance.

THIS DESK has a paneled closed back and is finished all around. The drawers are dovetailed and the entire frame of the desk is mortised and tenoned in the most perfect manner possible. The easy moving and perfect fitting drawers, the flexible dustproof curtain, the spacious and convenient cupboard and pigeon-holes, together with handsome, highly figured oak wood with beautiful golden finish, make this high grade desk one of the most wonderful bargains we have ever offered.

THE CURTAIN

is fitted with a Yale lock with two keys. The curtain locks the drawers in the left pedestal automatically. The door of the cupboard has a separate lock and key. The desk is mounted on patent chilled steel frame casters. Shipped direct from factory in Chicago, Southern Indiana or West Virginia, nearest to your railroad station, thereby insuring lowest freight charges. Shipping weight, 260 pounds.

SPECIAL DESK CATALOGUE

showing the largest and most complete line of
office desks, at factory prices.

\$9⁴⁰ BED ROOM SUITES \$39⁸⁵

AT \$9.40 TO \$39.85 WE SHOW THE GREATEST VARIETY OF HANDSOME SUITES.

THE MOST ASTONISHING VALUES EVER OFFERED IN BEDROOM SUITES.

See next page for our \$9.40 bedroom suite. We guarantee our QUALITY better and our PRICES LOWER than the same or similar articles can be bought for elsewhere.

WITH OUR LINE OF BEDROOM SUITES enlarged, greatly improved, brought right up to date to include the very newest styles for this season, and at greatly reduced prices, we are prepared to save you so much money we feel you cannot afford to buy a bedroom suite elsewhere.

HOW WE ARE ABLE TO MAKE THE PRICES SO LOW, and how it is possible for us to reduce our prices on bedroom suites below any previous quotations: Our bedroom suites are made for us under contract by the best manufacturers in this country, and our output has increased to such an extent that we are able to contract in each case for a very large part of the output of the factory, and these factories, desiring to run at full capacity the year around, are willing to take our contract at the cost of material and labor, as it facilitates the working of their factory and enables them to run every working day at full capacity, and thus reduce the cost, not only on the suites they make for us, but on the suites they sell to other people. As a result, we obtain our bedroom suites this season, including all the newest designs, at about the cost of material and labor, to which we have added only our usual small percentage of profit.

ABOUT FACTORY SHIPMENTS. In order to reduce our selling price to the lowest possible point, we reserve the right to ship direct from our factory, thereby eliminating the freight charges from the factory to Chicago, cartage and handling in the warehouse and the additional liability of damage to the goods, all of which adds to the cost but does not improve the quality. We give you the benefit of every penny saved in this way by adding only our one small margin of profit to the actual cost of the goods at the factory.

FACTORY INSPECTION. Thoroughly experienced and competent inspectors, men employed at each of our factories, who are expert cabinet makers and finishers, are employed at each of our factories, who carefully inspect every article. Every detail of the construction and finish is rigidly examined before the article is packed for shipment. Each article, after being thoroughly inspected as to material, construction and finish, is securely wrapped.

burled or crated, whichever style of packing is best suited to the style of article, in order to insure safe delivery at destination in the same perfect condition. We guarantee safe delivery.

PROMPT SHIPMENT. At each of our factories we have prepared immense warehouses, packed in a perfectly dry and thoroughly ventilated storage room, ample time being given for the finish to thoroughly set, dry and harden before being packed for shipment. We are thus enabled to make shipment within a few days after receiving your order.

OUR GREAT VOLUME OF BUSINESS enables us to contract with the best furniture factories located in all parts of the United States, all of these factories frequently making the same article for us, so that customers living in the vicinity of the factory will have very much less freight to pay than would otherwise be possible. We call particular attention to the location of our factories and the point from which the goods are shipped.

ABOUT FREIGHT CHARGES. The freight charges on a bedroom suite will amount to next to nothing as compared to what you will save in price. The freight on an average bedroom suite for a distance of 500 miles will amount to \$1.75 to \$2.25. Don't let the item of freight charges prevent you from ordering, for we positively guarantee that after you have paid all freight charges you will find that you have saved considerable money by sending your order to us. The freight charges are exactly the same if paid by you as when paid by us, and we recommend that you pay the freight at your station when the goods arrive, as it will enable us to make more prompt delivery. If there is no agent at your station, do not fail to send enough money with your order to prepay the freight charges; otherwise we cannot make shipment without first writing you for the money. Should you send more money than is required to pay the freight charges, the difference will be refunded to you. On pages 13 to 17 we give a table of freight rates which will enable you to calculate about what the freight will amount to.

OUR HIGH GRADE CHALLENGE SOLID OAK BEDROOM SUITE,

\$14⁹⁵

No. 1F1502

Order by Number.

WE OFFER this excellent, solid oak, three-piece bedroom suite at the extremely low price of \$14.95 as a leader, simply to demonstrate the wonderful value which we offer in our line of bedroom suites, in fact, throughout our entire catalogue.

OUR \$14.95 price is made possible only because we offer this suite at a very little more than the first cost of material and labor, reserving for ourselves only the usual one small margin of profit which we ask on everything we sell. It is a value unapproached in bedroom suites, and while it is not the cheapest bedroom suite possible to procure, it is the best bedroom suite possible of quality. There are suites sold for less

money, in fact, we have in the past offered them as low as \$8.95, but have learned from experience that they cannot give satisfaction. We sell this suite under our binding guarantee, fully outlined above.

DESCRIPTION. The dresser is made of carefully selected, thoroughly seasoned oak. High gloss golden finish. The dresser is 19 inches wide and 46 inches long. It has a shaped top to correspond with the two swell front top drawers. The mirror is the best quality genuine French bevel plate, size 20x24 inches. Fitted with locks, keys and cast brass handles. The bed is full size, 4 feet 6 inches wide by 6 feet 1 inch long (inside measurement), and stands 6 feet high. The dresser and bed have genuine hand carvings, finely executed and very ornamental. Note the neatly rounded top rail on the foot end of the bed. The commode has a swell front top drawer and roomy cupboard below and matches the dresser. This suite is thoroughly well made throughout. Remember, you will get your valuable Profit Sharing Certificate when you order.

SPECIAL TO FURNITURE DEALERS. We realize that there are many furniture dealers throughout the country who do not buy goods in large enough quantities to secure the lowest possible price. We know for such that this \$14.95 bedroom suite represents a better value for them than they could secure from a manufacturer or wholesaler. We know that from dealers for this bedroom suite on our regular terms, as plainly stated in this catalogue, but we cannot make any reduction in price, regardless of quantity. There are many dealers who can make money by buying this bedroom suite from us at \$14.95, putting it in their store and selling it again at a fair profit, and at the same time they will be giving their customers good value, and will be giving their rivals in trade good competition. This bedroom suite is well packed. Shipping weight, about 310 pounds.

No. 1F1502 Three-piece Solid Oak Bedroom Suite. Price..... \$14.95

We ship this suite from factory in Western New York or Indiana, the point nearest customer, thereby insuring lowest freight charges.

NOTE.—We show our lower priced Bedroom Suites on following page.

THIS MAGNIFICENT POPULAR DESIGN BEDROOM SUITE, \$18.95

THE EQUAL OF BEDROOM SUITES GENERALLY SOLD AT \$30.00 TO \$35.00

Exceptionally attractive in design,
high grade in construction,
a big saving in price.

No. 1F1549 This handsome Bedroom Suite is one of the most attractive and popular designs in our entire line. It is made of selected, thoroughly air seasoned and kiln dried oak, in a high gloss golden finish, which brings out the grain of the wood perfectly.

THE BED is regular full size, 74 inches high, 74 inches long and 54 inches wide. We call your special attention to the massive veneered roll on the foot end and the beautiful half roll on head end. Note the ornamental, clean, smooth cut hand made carvings on bed and dresser.

THE DRESSER is especially attractive on account of the large French bevel plate mirror, size 18x40 inches, which gives a perfect full length reflection. The base has a 20x44-inch shaped top, a serpentine curved front top drawer and large drawer below. The convenient cabinet beside the mirror has a spacious cupboard with drawer below.

THE WASHSTAND has an 18x34-inch shaped top to correspond with the serpentine curved front top drawer, and matches the dresser.

THE TRIMMINGS used on this high grade bedroom suite are the best obtainable. The handles are made of genuine cast brass, highly burnished and lacquered. Drawers are fitted with locks, keys and each piece has the best quality of steel frame for casters.

THE WORKMANSHIP, material and finish are first class throughout. Fitted with locks, keys, best quality cast brass handles and casters. Read what we say about our bedroom suites on page 736.

THE PRICE, \$18.95, at which we offer this splendid bedroom suite, represents the actual cost of material and labor, with our small margin of profit added. This bedroom suite should be compared with bedroom suites offered by others at \$30.00 to \$35.00. Carefully packed and shipped direct from factory in Southern Ohio or Indiana, point nearest your railroad station, thereby insuring the lowest possible freight charges.

WONDERFUL VALUE IN SOLID OAK BEDROOM SUITE, \$19.45

No. 1F 1560 This Bedroom Suite is exceptionally attractive in design, first class in construction, material and finish. It is made of carefully selected, thoroughly seasoned oak, high gloss golden finish.

THE BED is regular full size, 76 inches high, 73 inches long, 54 inches wide. Full paneled and decorated with ornamental genuine hand made carvings, smooth cut and finely executed.

THE DRESSER has a shaped double top, size 23 x 42 inches, and has two top drawers and two large drawers with serpentine curved fronts. The handsome designed, pattern shaped mirror is the best quality thick French bevel plate, size 24 x 30 inches. Note the shapely mirror frame and standards and the highly ornamental, genuine smooth cut, hand made carvings to match the bed. The carvings used on our bedroom suites are strictly first class, not the cheap pressed carvings used by many others.

THE WASHSTAND has an 18x34-inch shaped top to correspond with the swell front top drawer. Below are two small drawers and

THE TRIMMINGS used on this high grade bedroom suite are the best obtainable. The handles are made of genuine cast brass, highly burnished and lacquered. Drawers are fitted with locks, keys and each piece has best quality of steel frame for casters.

QUALITY. For quality this handsome high grade bedroom suite should be compared with suites offered in retail furniture stores at \$32.00 to \$40.00. Do not be misled by the low price we ask for this bedroom

HANDSOME IN DESIGN, HIGH GRADE IN CONSTRUCTION AND FINISH.

Our low prices are not made at the expense of quality. We guarantee every bedroom suite lower in price than the same quality of goods can be bought elsewhere.

suite, a price actually less than most dealers are obliged to pay for it at wholesale. Order one of these bedroom suites, examine it carefully, and if you do not admit the wonderful value you can return it to us and we will return your money together with all transportation charges. Carefully packed and shipped direct from factory in Southern Ohio or Indiana, point nearest to your railroad station, thereby insuring the lowest possible freight charges.

THIS MAGNIFICENT SOLID OAK BEDROOM SUITE, \$19.⁸⁵

This Strikingly Handsome, High Grade, Solid Oak Bedroom Suite is a splendid example of up to date workmanship, artistic design and first class finish. A design that ranks with best productions of the day and at the very low price at which we offer it, represents WONDERFUL VALUE. The illustration, engraved from a photograph of the suite, is an exact reproduction and will give you a fair idea of the beauty of design, but to be fully appreciated it must be seen, examined and compared with bedroom suites offered by others at more than double the price we ask.

WE INVITE COMPARISON. WE CHALLENGE THE WORLD ON QUALITY AND PRICE.

THE WOOD used in the construction of this bedroom suite as well as on all other bedroom suites shown in our line, is thoroughly air seasoned and kiln dried before being put through the factory. Special attention is given to the beauty of the grain.

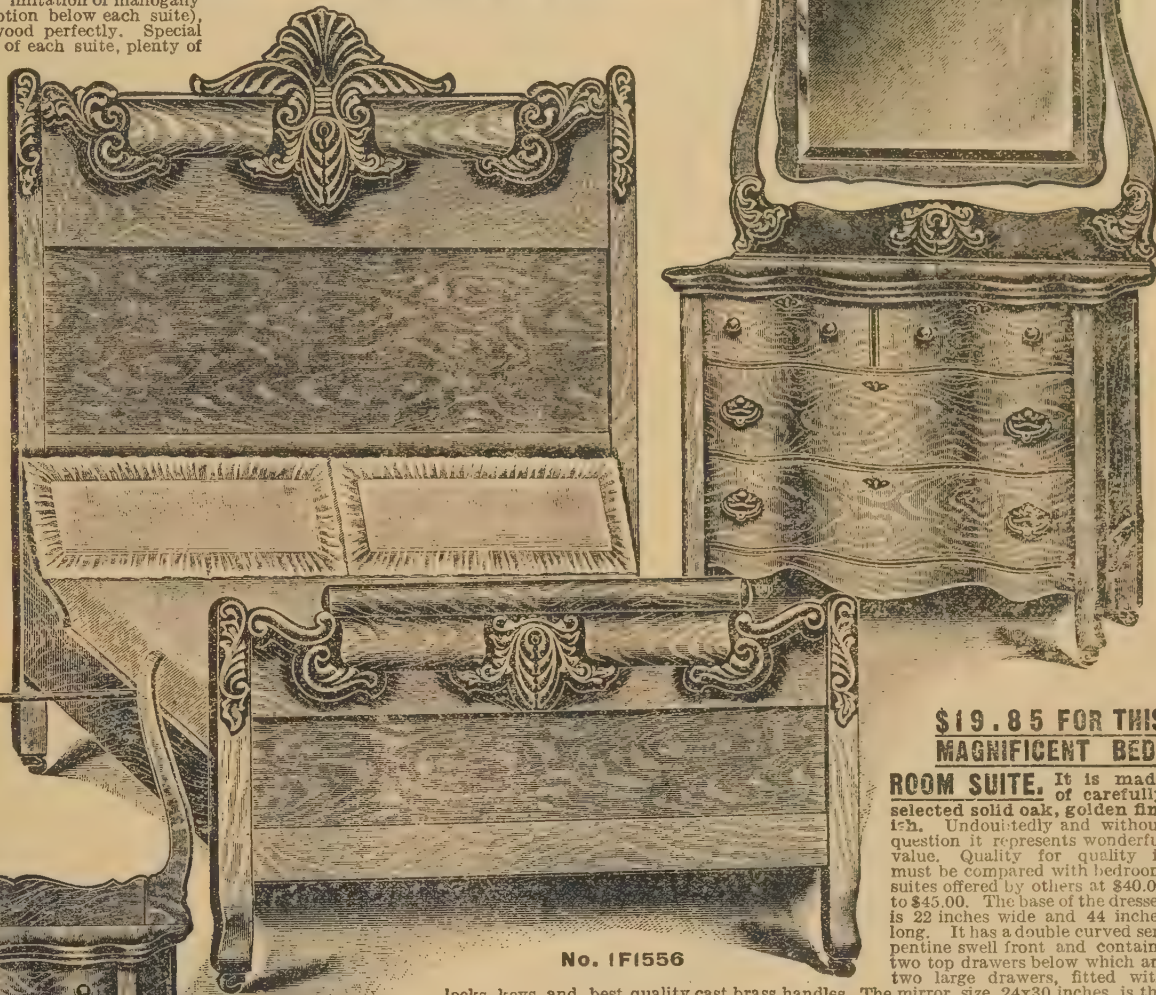

THE CONSTRUCTION of our bedroom suites is strictly first class, the drawers carefully framed and smooth running, the panels built of transverse layers of three-ply stock, the posts and cross bars mortised and framed in the most perfect manner. The carvings are highly ornamental, deep, smooth cut and finely executed in every detail. In fact, every part and piece is thoroughly well made and fitted, the best that modern machinery and skilled workmanship can produce.

THE MIRRORS are the best quality, thick, genuine French plate, with a perfect beveled edge and a perfect reflection. We do not use any of the low grade mirror plates.

THE FINISH of our bedroom suites is strictly first class in every detail. The color, a beautiful golden or a perfect imitation of mahogany (as mentioned in the description below each suite), brings out the grain of the wood perfectly. Special care is taken in the finishing of each suite, plenty of time being given each coating to thoroughly dry and harden before rubbing and polishing for the next coating. A smooth surface and a luster and finish that will not check, crack or become dull, and will look better after years of use than the ordinary finished suites turned out by other factories do in a few months.

THE PRICE REPRESENTS A SAVING to our customers of 40 to 50 per cent as against the prices asked in retail furniture stores. We have fully investigated and we know the prices that small manufacturers, wholesalers, furniture jobbers and manufacturers' agents are asking the retail trade for goods of this description, and we find that any bedroom suite that equals ours in design, material, construction and finish, is sold in retail stores at almost double the price we ask. In fact, we know we are selling goods direct to our customers for the same or less money than most retail dealers pay at wholesale.

locks, keys and best quality cast brass handles. The mirror, size, 24x30 inches, is the best quality genuine thick French plate, with a perfect bevel edge, supported by a shapely mirror frame and standards. The massive bed stands 6 feet 6 inches high, 4 feet 6 inches wide and 6 feet 1 inch long.

WE CALL YOUR SPECIAL ATTENTION

hand made, smooth cut ornamental carvings on the head and foot ends, and the deep and dresser. The washstand has an 18x34-inch top and matches the dresser. Each piece fitted with best quality casters. The construction throughout is strictly first class, every panel and post, joint and tenon perfectly framed and finished, the drawers perfect fitting and smooth running. The finish is a beautiful golden color, bringing out the grain of the wood perfectly.

DEALERS MAY SAY OUR PRICES ARE TOO LOW

because they are actually less than what the dealer is obliged to pay for the goods at wholesale, but we are able to make these low prices because we contract for a very large part of the output of each factory, and these factories, desiring to run at full capacity all the year around, are willing to take our contract at a price representing practically only the cost of material and labor, as it facilitates the working of the factory and enables them to reduce the cost of their other goods. We give you the benefit of this great saving, in addition thereto, by shipping direct from the factory, we save you all the intermediate agents' and jobbers' commissions and profits, freight charges to warehouse, cartage and handling in the warehouse, all of which adds to the cost, but does not improve the quality.

ORDER ONE OF THESE MAGNIFICENT BEDROOM SUITES AT OUR SPECIAL PRICE, \$19.85,

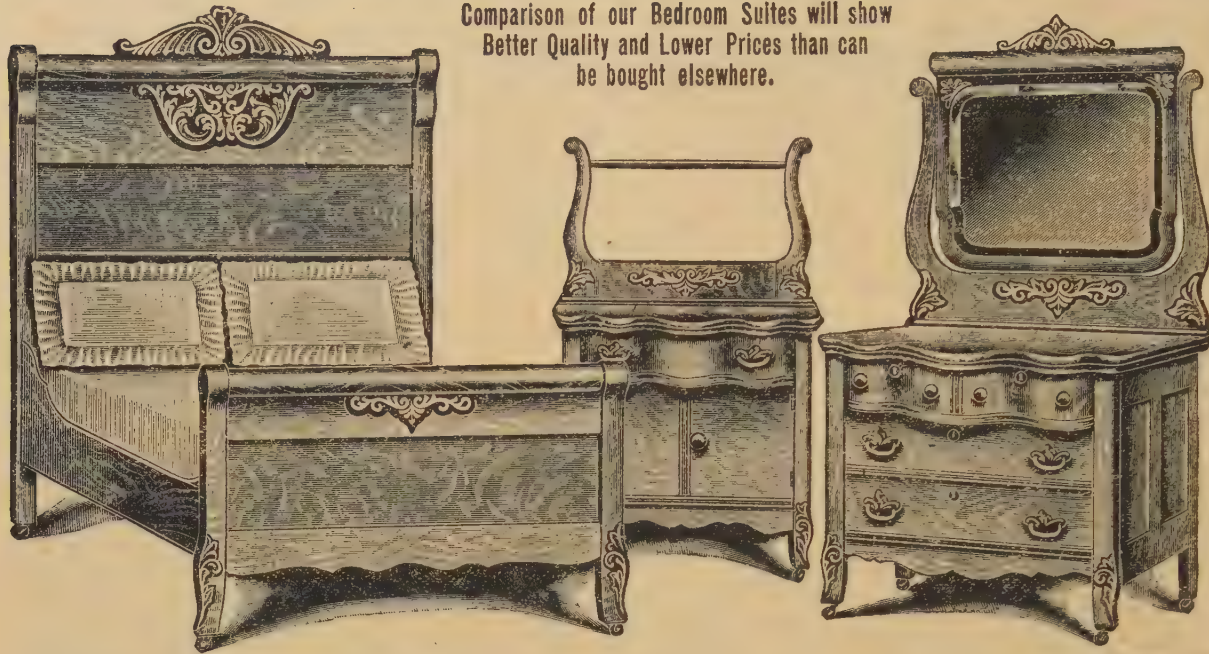

Show it to your friends and neighbors. Let any competent to judge, examine it carefully, and if you and every one do not admit the wonderful value, you can return it to us and we will return your money, together with all freight charges. This bedroom suite is thoroughly well packed to insure safe delivery. Shipped direct from factory in Grand Rapids, Mich., or Southern Ohio, the point nearest your railroad station, thereby insuring lowest freight charges.

\$32.25 HANDSOME HIGH GRADE BEDROOM SUITE \$32.25

A VALUE THAT CANNOT BE EQUALED ELSEWHERE.

No. 1F1583 This massive, new design, high grade Bedroom Suite is made almost entirely of highly figured, flaky grained quarter sawed oak, thoroughly seasoned, finished in a beautiful golden color, rubbed and polished.

THE BED is regular size, 78 inches high, 73 inches long and 54 inches wide. The wide center panels in the head and foot end are made of three ply, specially selected, quarter sawed oak veneer stock to prevent warping and shrinkage. Intervening panels of choice plain golden oak. Note especially the handsome rail on the foot end, the double roll on the head end, and the ornamental, deep smooth cut, hand made, finely executed carvings.

THE DRESSER BASE is 23x43 inches, and has two top drawers and two large drawers, all with double curved full swell serpentine front. The double top has smooth rounded edges and corners, shaped to correspond with the front. The extra large mirror, size 28x34 inches, is the best quality thick French bevel plate. The mirror frame and standards have rounded edges, finely executed hand carvings and veneered rolls to match the bed.

THE WASHSTAND has an 18x34-inch double top, serpentine curved top drawer, two small drawers and roomy cupboard and matches the dresser.

THE WORKMANSHIP is strictly first class in every detail. Every joint, panel and post carefully framed and fitted; the drawers dovetailed, perfect fitting and smooth running. The material is specially selected for the beauty of the grain, thoroughly seasoned and kiln dried.

We guarantee our quality better and our prices lower than the same or similar bedroom suites can be bought elsewhere.
